Francis [illegible] year-old [illegible] pickerel [illegible] pitchfork [illegible] running [illegible] near Madi[illegible]

[illegible] in the shallow water [illegible] of his rubber boots [illegible] pitchfork [illegible] monster. He waded into [illegible] pitchfork [illegible] struggle.

The fish was [illegible] inches as long as the boy was tall.

PASTOR RESIGNS PULPIT.

Dr. George N. Davis of Mankato Leaves Charge.

Rev. George N. Davis, D. D., who has been pastor of the First Presbyterian church at Mankato for several years, has tendered his resignation. No reason was given, and Dr. Davis' future plans are not known. His family is in Europe. A meeting of the congregation [illegible] to accept his resignation.

Twice Gets Postoffice Job.

Mr. M[illegible] Johnson, who was appointed postmaster of Clarkfield, took charge of the office, succeeding W. B. Jorgensen, who recently resigned. Mr. Johnson enjoys the exceptional distinction of twice having been appointed postmaster of the same office under different administrations, having held the office during President Cleveland's first administration in the early pioneer days of this community, when there were no Democrats between the Yellow Medicine and the Minnesota rivers.

RATES ON MILK REDUCED.

Railroad Commission Makes Out Maximum Schedule.

The railroad commission's order fixing a new schedule of milk and cream rates by express, which was filed recently, ends a long controversy which has been waged before the commission by conflicting interests. The express companies were willing for an adjustment, but not for a reduction in rates. The central creameries and milk companies and the farmers shipping to the cities wanted a reduction. The co-operative creameries and dairy interests of the small towns generally wanted cream rates raised, so as to give them an advantage over the large separator concerns.

The commission's order makes a decided reduction in milk rates, but does not change the average rate on cream very materially. [illegible] schedule, however, [illegible] may grant lower rates at their option.

The following table shows the rates fixed by the commission as a maximum for each distance:

	In [illegible] Cans			In [illegible] Cans		
Miles	5	8	10	5	8	10
5	10	16	19	7½	12	[illegible]
10	[illegible]	16	19	7½	12	[illegible]
[illegible]	[illegible]	16	19	7½	12	11
[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	12	[illegible]
25	10	[illegible]	[illegible]	7½	12	[illegible]
[illegible]	[illegible]	[illegible]	[illegible]	7½	12	[illegible]
[illegible]	11	[illegible]	21	[illegible]	13	16
[illegible]	11	[illegible]	21	[illegible]	13	[illegible]
[illegible]	11	[illegible]	21	[illegible]	13	18
[illegible]	12	15	21	9	14	[illegible]
[illegible]	12	[illegible]	[illegible]	[illegible]	14	[illegible]
[illegible]	12	21	[illegible]	9	[illegible]	19
[illegible]	[illegible]	21	[illegible]	10	16	20
[illegible]	11	21	[illegible]	[illegible]	16	[illegible]
75	[illegible]	21	[illegible]	[illegible]	16	[illegible]
[illegible]	15	[illegible]	[illegible]	11	17	21
[illegible]	[illegible]	[illegible]	[illegible]	11	17	21
[illegible]	[illegible]	[illegible]	[illegible]	11	17	21
[illegible]	[illegible]	[illegible]	[illegible]	12	19	23
[illegible]	18	25	31	12	19	[illegible]
[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	19	23
[illegible]	19	[illegible]	[illegible]	[illegible]	22	27
120	[illegible]	[illegible]	36	11	22	27
[illegible]	21	[illegible]	[illegible]	13	25	[illegible]
[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	25	29
[illegible]	[illegible]	[illegible]	40	16	[illegible]	29
[illegible]	22	[illegible]	[illegible]	17	[illegible]	[illegible]
[illegible]	[illegible]	35	42	17	23	32
[illegible]	[illegible]	37	42	17	[illegible]	32
[illegible]	[illegible]	[illegible]	47	19	29	[illegible]
[illegible]	30	47	[illegible]	22	35	[illegible]
[illegible]	[illegible]	[illegible]	73	23	[illegible]	[illegible]
[illegible]	[illegible]	51	66	26	31	50
[illegible]	[illegible]	62	73	29	37	[illegible]
[illegible]	42	66	80	32	[illegible]	60

The schedule includes the following [illegible] provisions:

Minimum charge, 15 cents.

No drayage service to be performed at either end.

No reduction in rates for partly filled cans.

St. Paul and Minneapolis will be treated as one city, the mileage to [illegible] point to govern rates.

These rates include the return of empty cans, which must be waybilled back to the forwarding station.

Necessary [illegible] and seals may be returned in cans without extra charge.

When rates for exact distance are not shown the rates for the next greater distance must apply.

HAMLINE IS PROSPEROUS.

College Year Will Close Under Favorable Auspices.

Hamline university's approaching commencement promises to be of more than usual interest as commencements go. The class to be graduated is a large one, numbering twenty-four, and has made a fine record for itself. By commencement day the new Carnegie library will be well under way, and by the same date, June 10, it is likely that the names of two new professors will be announced.

The name of one of the members of the teaching force is already known, being included in the 1907 catalogue, which is just being issued. This is Miss Mattie D. Winston of St. Paul, who will have a part in the mathematical work. The graduation of a large class, the pushing forward of the new library, the cornerstone of which may be laid about commencement time, and the enlargement of the faculty, all mark growth for the institution and will be [illegible] in making the commencement a sort of jubilee occasion.

SAYS WIFE ELOPED.

Man Causes Arrest of Helpmeet and Her Alleged Companion.

Cupid did not reckon with the husband of Mrs. Ole Iverson of St. James when, it is alleged, he persuaded John P. Husom to yield to his love for the woman and elope with her to another part of the countryside, where they could continue their romance and incidentally work to keep away hunger that might mar their bliss. Mrs. Iverson took along her baby, a ten-months-old infant. It is charged, in her flight. Husom got work on a farm and when the officials went to arrest him they learned that Mrs. Iverson was employed by another farmer not far away. The employers said they had understood that the man and the woman were husband and wife. After their arrest, the pair were brought to Rochester and then taken to St. James.

BUYS LAND FOR ASYLUM.

Strip From Railroad to Anoka Hospital Grounds Is Secured.

A. Prescott of Oregon has sold to John Coleman, as superintendent of the Anoka state asylum for the insane, a strip of land on Rum river, extending north from the Northern Pacific tracks to the present asylum grounds and containing thirty-two acres, for $2,000. It is a valuable tract of land for the state to own, and will add greatly to the appearance and value of the asylum site.

THE FATAL GLOVE.

BY CLARA AUGUSTA

CHAPTER XVI.—(CONTINUED.)

"She gives me up! Margie renounces me! Strangers we must be henceforth! What does it all mean? Am I indeed awake, or is it only a painful dream?"

He read the few lines of the missive a third time. Something of the old dominant spirit of Archer Trevlyn came back to him.

"There is some misunderstanding. Margie has been told some dire falsehood!" he exclaimed, starting up. "I will know everything. She shall explain fully."

He seized his hat and hurried to her residence. The family were at breakfast, the servant said, who opened the door. He asked to see Miss Harrison.

"Miss Harrison left this morning, sir, in the early express," said the man, eyeing Trevlyn with curious interest.

"Went in the early train! Can you tell me where she has gone?"

"I cannot. Perhaps her aunt, Miss Farnsworth, or Miss Lee can do so."

"Very well;" he made a desperate effort to seem calm, for the servant's observant eye warned him that he was not acting himself. "Will you please ask Miss Lee to favor me with a few minutes of her time?"

Miss Lee came into the parlor where Archer waited, a little afterward. Archer, himself, was not more changed than she. Her countenance was pale, even to ghastliness, with the exception of a bright red spot on either cheek, and her eyes shone with such an unnatural light, that even Archer, absorbed as he was in his own troubles, noticed it. She welcomed him quietly, in a somewhat constrained voice, and relapsed into silence. Archer plunged at once upon what he came to ascertain.

"The servant tells me that Miss Harrison left New York this morning. I am very anxious to communicate with her. Can you tell me whither she has gone?"

"I cannot. She left before any of the family were up, and though she left notes for both her aunt and her business agent, Mr. Farley, she did not in either of them mention her destination."

"And did she not speak to you about it?"

"She did not. I spent a part of last evening with her, just before you came, but she said nothing to me of her intention. She was not quite well and desired me to ask you to excuse her from going to the opera."

"And did you not see her this morning?"

"No. I have not seen her since I left her room to come down to you last night. When I returned from my interview with you, I tapped at her door—in fact, I tapped at it several times during the evening, for I feared she might be worse but I got no reply, and supposed she had retired. No one saw her this morning, except Florine, her maid, and Peter, the coachman, who drove her to the depot."

"And she went entirely alone?"

"She did from the house. Peter took her in the carriage."

"From the house! But after that?" he asked, eagerly.

"Mr. Trevlyn," she said, coldly, "excuse me."

"I must know!" he cried; passionately grasping her arm; "tell me, did she set out upon this mysterious journey alone?"

"I must decline to answer you."

"But I will not accept any denial! Miss Lee, you know what Margie was to me. There has arisen a fearful misunderstanding between us. I must have it explained. Why will you trifle with me? You must tell me what you know."

"I do not wish to arouse suspicion, Mr Trevlyn, which may have no foundation to rest on. Only for your peace of mind do I withhold any information I may possess on the subject."

"It is a cruel kindness. Tell me everything at once, I beg of you!"

"Then, if it distresses you, do not blame me; Peter saw Mr. Louis Castrani at the depot, and is confident he went in the same train, in the same car with Miss Harrison."

"Castrani! Great Heaven!" he staggered into a chair. "Is it possible? Margie, my Margie, that I thought so good and pure and truthful, false to me! It cannot, cannot be! I will not believe it!"

"I do not ask you to," said Alexandrine, proudly. "I insinuated nothing. I only replied to your question."

"Pardon me, Miss Lee. I am not quite myself this morning. I will go now. I thank you for what you have told me, and trust it will all be explained."

"I trust so," answered Miss Lee, turning to leave the room.

"Stay a moment! To what depot did Peter drive her?"

"The Northern, I think he said."

"Again I thank you, and good morning."

He hurried away, got into the first coach he came across, and was driven to the Northern depot.

He was somewhat acquainted with the ticket agent, and assuming as nonchalant an air as was possible in his present disturbed state, he strolled into the office. After a little indifferent conversation, he said.

"By the way, Harris, do you know Mr. Castrani, the young Cuban, who has turned the heads of so many of our fair belles? Some one was telling me he left town this morning."

"Castrani! Yes, I think so. He did leave for the north this morning in the early express. I marked his baggage for him. He had been hurried so in his preparations, he said, that he had no time for it."

"Indeed? It's a bore to be hurried. Where was he checked to?"

"Well, really, the name of the place has escaped me. Some little town in New Hampshire or Maine, I think. We do so much of this business that my memory is treacherous about such things."

"Were you speaking of Castrani?" asked Tom Clifford, a friend of Archer's, removing his cigar from his mouth. "Deuced fine fellow! Wish I had some of his spare shillings. Though he's generous as a prince. Met him this morning just as he was coming down the steps of the Astor. Had to get up early to see after that confounded store of mine. Walker's too lazy to open it mornings."

"You met Mr. Castrani?" said Archer, referring to the point.

"Yes. He told me he was going away. Woman somewhere mixed up in the case. Said he expected to find one somewhere—well, hanged if I can tell where. There's always a woman at the bottom of everything."

"He did not mention who this one was?"

"Not he. But I must be going. It's nearly lunch time. Good morning."

Trevlyn stopped a few moments with Mr. Harris, and then went back to his rooms. He was satisfied. Hard as it was for him to believe it, he had no other alternative. Margie was false, and she had gone away from him under the protection of Castrani. He could have forgiven her anything but that. If she had ceased to love him, and had transferred her affections, he could still have wished her all happiness, if she had only been free and frank with him. But to profess love for him all the while she was planning to elope with another man, was too much! His heart hardened toward her.

If there had been, in reality, as he had at first had supposed, any misunderstanding between him and her, and she had gone alone, he would have followed her to the ends of the earth, and have had everything made clear. But as it was now, he would not pursue her an inch. Let her go! False and perfidious! Why should her flight ever trouble him?

But though he tried to believe her worthy of all scorn and contempt, his heart was still very tender of her. He kissed the sweet face of the picture he had worn so long in his bosom, before he locked it away from his sight, and dropped some tears that were no dishonor to his manhood, over the half dozen elegant little trifles she had given him before he committed them to the flames.

There was a nine days' wonder over Miss Harrison's sudden exodus. But her aunt was a discreet woman, and it was generally understood that Margie had taken advantage of the pause in the fashionable season to visit some distant relatives, and if any one coupled her flight and the departure of Castrani together, it was not made the subject of remark. Alexandrine kept what she knew to herself, and of course Archer Trevlyn did not proclaim his own desertion.

For a week, nearly, he managed to keep about, and at the end of that time he called at Mrs. Lee's. He wanted to question Alexandrine a little further. The idea possessed him that in some way she might be cognizant of Margie's destination. And though he had given the girl up, he longed desperately to know if she were happy. He had felt strangely giddy all day, and the heat of Mrs. Lee's parlors operated unfavorably upon him. He was sitting on a sofa conversing with that lady and her daughter, when suddenly he put his hand to his forehead, and sank back, pale and speechless.

In the wildest alarm, they called a physician, who put him to bed, and enjoined the severest quiet. Mr. Trevlyn, he said, had received a severe shock to his nervous system, and there was imminent danger of congestive fever of the brain.

His fears were verified. Archer did not rally, and on the second day he was delirious. Then the womanly nature of Alexandrine Lee came out and asserted itself. She banished all attendants from the sick room, and took sole charge herself of the sufferer. Not even her mother would she allow to take her place. When tempted by intense weariness to resign her post she would take that stained glove from her bosom, and the sight of it would banish all thought of admitting a stranger.

"No," she said to herself, "people in delirium speak of their most cherished secrets, and he shall not criminate himself. If he did that terrible deed, only I of all the world can bring a shadow of suspicion against him, and the secret shall never be revealed to any other."

So she sat the long days and longer nights away by the side of this man she loved so hopelessly, bathing his fevered brow, holding his parched hand, and lingering fondly over the flushed, unconscious face.

He sank lower and lower day by day—so very low that the physician said he could do no more. He must leave the case. There was nothing for it but to wait with patience the workings of nature.

At last the day came when the ravings of delirium subsided, and a deadly stupor intervened. The crisis of the disease. The sundown would decide, Dr. Grayson said; he would be better, or death would ensue.

Alexandrine heard his opinion in stony silence. She sat by the bed's head now, calm and silent; her powers of self-control were infinite. Her mother came in to watch for the change, as did several of Archer's friends, heretofore excluded. She was not afraid for them to come; there was no danger of Mr. Trevlyn criminating himself now. He had not spoken or moved for twelve hours.

The time passed slowly. The sun crept down the west. The ticking of the watch on the stand was all that broke the silence of the room. The last sun ray departed—the west flamed with gold and crimson, and the amber light flushed with the hue of health the white face on the pillow. Alexandrine thought she saw a change other than that the sunlight brought, and bent over him.

His eyes unclosed—he looked away from her to the vase of early spring flowers on the center-table. His lips moved. She caught the whispered word with a fierce pang at her heart:

"Margie!"

The physician stepped forward, and sought the fluttering pulse. His face told his decision before his lips did.

"The crisis is passed. He will live."

Yes, he would live. The suspense was over. Alexandrine's labors were shared now, and Archer did not know how devotedly he had been tended—how he owed his very existence to her.

He mended slowly, but by the middle of May he was able to get out. Of course he was very grateful to the Lees, and their house was almost the only one he visited. Alexandrine was fitful and moody. Sometimes she received him with the greatest warmth, and then she would be cold and distant. She puzzled Archer strangely. He wanted to be friends with her. He felt that he owed her an immense debt of gratitude, and he desired to treat her as he would a dear sister.

Perhaps it was because time hung so heavily on his hands, that Trevlyn went so frequently to Mrs. Lee's. Certainly he did not go to visit Alexandrine. We all know how the habit of visiting certain places grow upon us, without any particular cause, until we feel the necessity of going through with the regular routine every day. He was to blame for following up this acquaintance so closely, but he did it without any wrong intention. He never thought it possible that any one should dream of his being in love with Alexandrine.

But the world talked. They said it was a very pretty romance. Mr. Trevlyn had been deserted by his lady love, had fallen ill on account of it, had been nursed by one whom of course he would marry. Indeed, they thought him in duty bound to do so. In what other way could he manifest his gratitude?

Vague whispers of this reached Trevlyn's ear, but he gave them at first little heed. He should never marry he said; it was sinful to wed without love. But as he saw Alexandrine's pale face and strangely distraught manner day by day, he came to feel as if he had in some way wronged her, though how he did not exactly understand.

One day he entered the sitting-room of Mrs. Lee with the freedom of a privileged visitor, without rapping, and found Alexandrine in tears. He would have retreated, but she had already seen him, and he felt that it would be better to remain. He spoke to her kindly.

"I trust nothing has occurred to distress you?" She looked up at him almost defiantly.

"Leave me!" she said, impetuously; "you, of all others, have no right to question me!"

"Pardon me!" he exclaimed, alarmed by her strange emotion, "and why not I question you?"

"Because you have caused me misery enough already—"

(TO BE CONTINUED.)

POSTOFFICE SECRECY.

Against the Rules for Letter-Carriers to Give Addresses.

It is not generally known that Uncle Sam looks upon the address or whereabouts of one of his citizens as an inviolable secret. Such, however, is the case, says the New York World.

A New Yorker who had been out of the city for some time found upon his return, a few days ago, that one of his intimate friends had changed his residence without leaving his exact new address. All he could gather was that his friend now lived in a flat on the north side of a certain street.

When he arrived at the block in question he found to his dismay that every house in it was a flat house. He would have to go from door to door until he found his friend's name over one of the door-bells.

He had not proceeded far when he met a letter-carrier making his usual delivery. Here, he thought, was the man who could save him a lot of time and trouble.

"Yes, sir," replied the postman, in response to his query. "I know the party very well. But I am sorry to say I cannot give you his number. It is against the rules."

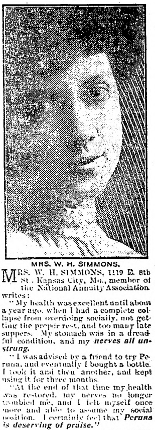
The same secrecy is observed at the post office. The postal address of anybody will not be given by the federal authorities even to a state officer. This rule is in accordance with the general principle that a man's dealings with the government are of a confidential nature.

Antiquity of Mosaic Floors.

Mosaic floors, laid with small pieces of different colored stones in regular patterns, were known to the Egyptians 2300 B. C. In Babylon floors of this kind dated from 1100 B. C. They were common in the Athenian and Roman houses.

A SOCIAL LEADER OF KANSAS CITY

Attributes Her Excellent Health to Pe-ru-na.



MRS. W. H. SIMMONS.

MRS. W. H. SIMMONS, 1119 E. 8th St., Kansas City, Mo., member of the National Annuity Association writes:

"My health was excellent until about a year ago, when I had a complete collapse from overdoing socially, not getting the proper rest, and too many late suppers. My stomach was in a dreadful condition, and my *nerves all unstrung.*

"I was advised by a friend to try Peruna, and eventually I bought a bottle. I took it and then another, and kept using it for three months.

"At the end of that time my health was restored, my nerves no longer troubled me, and I felt myself once more and able to assume my social position. I certainly feel that *Peruna is deserving of praise.*"

There are many reasons why society women break down, why their nervous systems fail, why they have systemic or pelvic catarrh. Indeed, they are especially liable to these ailments. No wonder they require the protection of Peruna. It is their shield and safeguard.

A Slight Loss.

Giving an account of the assassination of a certain M. Durand, the reporter proceeded thus:

"The murderer was evidently in search of money, but most fortunately M. Durand had lodged all his funds the day before in the bank, so at that after all, he lost nothing but his life."

Flies On It.

Traveler (at a station restaurant)—You say there is a piece of cheese on that plate? I can't see anything but flies.

Walter—Well, there must be some cheese underneath, else the flies wouldn't settle there.

Is Slow Traveler.

A New Haven man was praising the late Judge David Torrence of Derby, Conn.

"Judge Torrence," he said, "uttered many an epigram from the bench. In a case concerning a noise nuisance a scientist was once testifying before him about the speed of sound.

"'Sound,' said the man, 'travels at the rate of 400 yards a second.'

"'All sound?' asked Judge Torrence.

"'All,' replied the scientist.

"The judge smiled.

"'I'm sure you're wrong,' he said. 'I have noticed a great difference between the speed of certain kinds of sound. Thus, slander travels at the rate of quite 1,000 yards a second; flattery, 500 yards, while truth makes only a few feet a second, and, slow as its progress is, truth often fails to reach the goal, no matter how short the distance.'"

ROMANTIC DEVONSHIRE.

The Land Made Famous by Philpotts' Novels.

Philpotts has made us familiar with romantic Devonshire, in his fascinating novels, "The River," "Children of the Mist," etc. The characters are very human; the people there drink coffee with the same results as elsewhere. A writer at Rock House, Orchard Hill, Bideford, North Devon, states:

"For 30 years I drank coffee for breakfast and dinner but some 5 years ago I found that it was producing indigestion and heart-burn, and was making me restless at night. These symptoms were followed by brain fag and a sluggish mental condition.

"When I realized this, I made up my mind to quit drinking coffee and having read of Postum, I concluded to try it. I had it carefully made, according to directions, and found to my agreeable surprise at the end of a week, that I no longer suffered from either indigestion, heart-burn, or brain fag, and that I could drink it at night and secure restful and refreshing sleep.

"Since that time we have entirely discontinued the use of the old kind of coffee, growing fonder and fonder of Postum as time goes on. My digestive organs certainly do their work much better now than before, a result due to Postum Food Coffee, I am satisfied.

"As a table beverage we find (for all the members of my family use it) that when properly made it is most refreshing and agreeable, of delicious flavor and aroma. Vigilance is, however, necessary to secure this, for unless the servants are watched they are likely to neglect the thorough boiling which it must have in order to extract the goodness from the cereal." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Three Golden Gates.

If yon are tempted to reveal
  A tale some one has told you
About another, make it pass
  Before you speak, three gates of gold.
Three narrow gates, first "Is it true?
  Then "Is it needful?" In your mind
Give truthful answers: And the next
  Is last and narrowest, "IS IT KIND?"
And if to reach your lips at last
  It passes thru these gateways three,
Then you may tell the tale, nor fear
  What the result of speech may be.
--Anonymous

THERE is not an application for a seed grain loan in Red Lake county. Creameries are what did the work, remarks the St. Hilaire Spectator.

THE Hazel correspondent, in the last issue of the Plummer Pioneer, sizes the petition theft up as follows: "Hazel people think that the big paper that was lost at Red Lake Falls was taken just in time to get a new one by the time the boys get home from the woods and just before the sawmill starts up. It might help some but you can't most always somtimes tell."

Japanese Lacquer.

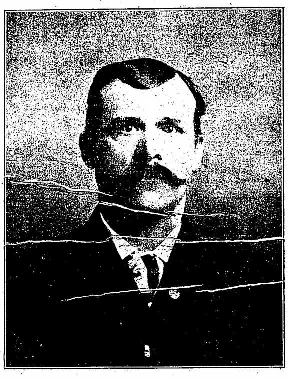
This is the most beautiful material of the kind in the world, and it has recently been the subject of a special study by two great chemists. The special qualittes of Japanese Lacquer are its brillancy, its great hardiness and toughness, and its resistance to acids, alcohol and boiling water. It is made of the gum of the Rhus verniciferna which grows and is cultivated in China as well as in Japan. For the weak and overworked we suggest the dally use of golden grain belt beer. Its daily use will build up and feed your nerves and induce sleep. Order of your nearest dealer or be supplied by Alex Thompson, Crookston, Minn.

Evergreens For Sale.

I have a large number of evergreens that I will sell this spring at low prices. Trees from 1 foot to 18 feet in height, 10c to 25c each: gauranteed to grow if planted as per directions; will replace trees that fail. These trees should be set out between now and May 15 and not later. Call on or address Wm. C. L. Demann, Red Lake Falls. 3w

Rheumatic sufferers can have a free sample ot Dr. Shoop's Rheumatic Remedy with book on Rheumatism by simply writing Dr. Shoop, Racine, Wis. This book will explain how Dr. Shoop's Rheumatic Remedy successfully drives Rheumatism out of the blood. This remedy is not a relief only. It aims to clear the blood entirely of Rheumatic poisons, and then Rheumatism must die a natural death. Sold by all dealers.

Thousands have pronounced. Hollister's Rocky Mountain Tea the greatest healing dower on earth. When medical science fails, it suceeds. Makes you well and keeps you well. 35 cents. Tea or Tablets.



JOSEPH BELAIR, AUCTIONEER

Twenty Years' Successful Experience in Red Lake Co.

A Merchants State Bank Idea.

You will, I believe, agree with me when I say that wheat growing is no longer profitable in this section.

If not when—what then?

Corn, clover, cows, creameries snd a good bunch of hogs to turn your skim milk into money.

There are a few farmera in this neighborhood who are now making money out of cows and hogs.

Most of the farmers in this neighborhood can at once, if they will, own a sufficient number of high grade cows and hogs to place themselves in this money-making position.

There are very few, if any, farmers here who can not, if they manage right, within a few years' time work themselves into this money-making position.

This bank has more than eight hundred thousand dollars loaned out for itself and its clients in the counties of Red Lake and Polk, and it is therefore vitally interested in the development of this section and in the financial welfare of its farmers.

We are here to do our share towards bringing about the change from unprofitable wheat growing to the unquestionably more profitable dairy farming and hog raising. We are always glad to make loans to farmers, whose credit standing warrants it, for the purchase of high-grade dairy cows, cream separators, hogs and for the growing of the necessary feed.

If the people of this neighborhood will take hold of this proposition with the vigor and determination which a matter of such great bearing upon their prosperity deserves, they can bring about a wonderful change for the better within the next five years. Not alone a change to much more profitable farming, but also the naturally following increase in land values—an increase of probably fifty to one hundred per cent.

Think it over. Come in and talk it over.

MERCHANTS STATE BANK

of Red Lake Falls.

J. A. DUFFY, Cashier.

CITY COUNCIL MEETS.

Official Proceedings of the Session for the Past Month.

Buy your legal blanks at the COURIER office.

We make farm loans at lowest rates, with privilege payments. First State Bank, Red Lake Falls.

Don't neglect your cough.

Statistics show that in New York City alone over 200 people die every week from consumption.

And most of these consumptives might be living now if they had not neglected the warning cough.

You know how quickly *Scott's Emulsion* enables you to throw off a cough or cold.

ALL DRUGGISTS; 50c. AND $1.00.

Statement of the Condition of

The First State Bank

OF RED LAKE FALLS, MINN.

At the close of business March 22, 1907.

Recognizing the fact that a bank statement is more or less of a puzzle to many people whom it might otherwise interest, we have appended brief explanations covering each of the items, and will be pleased to supply further information to depositors or prospective depositors at any time.

RESOURCES	
LOANS AND DISCOUNTS This item represents money loaned to responsible parties on notes, mortgages and other first-class security, etc.	$157,230.73
OVERDRAFTS This represents accounts that have been overdrawn. This item we try to keep as small as possible.	609.35
BANKING HOUSE, FURNITURE AND FIXTURES This represents the valuation at which we are carrying our building, furniture, fixtures, burglar alarm, safe, vault, etc.	7,600.00
OTHER REAL ESTATE This represents real estate outside of our office building owned by us.	1,417.59
CASH AND DUE FROM BANKS Actual cash in our safe and money belonging to us in State, National and correspondent banks.	45,147.59
	$212,005.58

LIABILITIES	
CAPITAL STOCK This amount of money invested and paid into this bank by the owners or stockholders when we began business. As long as a bank continues in business this is not repaid to stockholders but is held as a safeguard to depositors in case any of our securities should depreciate in value.	$25,000.00
SURPLUS This represents earnings which have been carried to the surplus account and adds to the value of our stock.	5,000.00
UNDIVIDED PROFITS Our net earnings or profits since November 1, 1906. An additional safeguard to depositors.	2,522.19
DEPOSITS Money deposited in our care by people who appreciate the advantages of doing business through a reliable and conservative bank. Part of this represents checking accounts, against which the depositor draws checks in payment of his bills, etc., and a part is in the form of time deposits in large and small amounts on which we pay the depositor interest.	179,483.39
	$212,005.58

We appreciate the business you have done with us in the past, and solicit your future business. WE MAKE FARM LOANS.

GREAT ART EXHIBIT.

Opportunity of a Lifetime Coming to Your Very Door.

On Monday April 29 Prof. Ball, formerly principal of schools in St. Paul, will be here with an immense art exhibit consisting of the Collier Ellson and Prung collection of photogravures and carbon prints from the best of old masters.

This will be placed in the high school room Monday noon and be on exhibit Monday afternoon and evening; A small fee of 10 and 15c will be charged and the proceeds used to purchase pictures for the different rooms. All come and see this mammoth exhibit.

Eck. Hathaway, whose home is at Crookston, but who was implicated in the box car robberies at Thief River Falls a year and a half ago and sent to the penitentiary, has been paroled, and is at present at Crookston. Hathaway has several mouths to serve yet but on good behavior will be allowed his freedom. Charley Erickson, another of the same gang, who was committed in April, 1906 for two years, has made application for parole and his case will be taken up by the state board of pardons within a few weeks.

Harry Mitchell's EDITORIAL.

I'm after your Spring Suit order, and when I tell you that I'll make you a better Spring suit for $15.00, $20.00 or $25.00 than your local tailor would make for $30.00, $35.00 and $40.00, don't you think I've a license to butt in?

It don't cut any ice where you live, I'll absolutely guarantee to fit you and give you perfect saitsfaction. I do the biggest mail-order business in the country, and I know what I'm talking about.

Write me today and tell me about the kind of Spring suit you have on your mind, and by return mail I'll send you samples of my spring fabrics, also self-measurement blank. Don't be afraid to ask questions. I want to be of service to you any way I can.

Remember, I absolutely guarantee perfect fit and satisfaction or refund your money—you run no risk whatever. I pay all express charges, so your clothes will cost you no more than if you bought them right here in Minneapolis.

Write me today and let me save you a bunch of money.

Yours truly,

HARRY MITCHELL,
310 Nicollet Ave., MINNEAPOLIS, MINN.

When you call for a smoke bear in mind that nothing but the best tobacco is used in the manufacture of

"B. B." CIGARS

They have stood the test—they are better than the best. The "I Lead" is still a favorite among the 5c cigars. Smoke home made cigars always.

Leading Hardware **G. A. KANKEL** Red Lake Falls.

IF YOU TOUCH your tongue to ALUM

and look in the glass—you will see the effect—You can't help puckering—it makes you pucker to think of tasting it.

By the use of so called cheap Baking Powders you take this puckering, injurious Alum right into your system—you injure digestion, and ruin your stomach.

AVOID ALUM

Say plainly—

ROYAL BAKING POWDER

Royal is made from pure, refined Grape Cream of Tartar—Costs more than Alum but you have the profit of quality, the profit of good health.

In the Local Line

Go to the Merchants State Bank or real estate loans.

Fruend's confectionery is the best in the city.

Fresh fruits and vegetables received at Fruend's daily.

Wanted—200 cords green poplar, oak, or elm. See Al. Roy.

Best line of confectionery, nuts, notions, etc., at Freund's.

Go to Spillane's—The Right Store—for your teas and coffees.

Go to Spillane's for groceries, candies, nuts, fruits, cigars, etc.

For sale –Good dray wagon. In first class shape. See A. L. Roy.

Joseph Brohman, of Lambert, was a business visitor here Tuesday.

Master Carpenter Mills, of the Great Northern, visited here yesterday.

County Superintendent McAnulty visited at Dugdale over Monday night.

C. F. Gray leaves today for his Canadian home where he will spend the summer.

Dr. J. E. Argue went up to St. Paul yesterday on his regular weekly professional visit.

For Rent—Nine room house; good well, stable room, etc. Call on J. W. Bourdon for particulars.

H. T. McAnuly returned home Friday evening from a several days sojourn at Thief River Falls.

Postmaster Arther Laniel, of Brooks, was a business caller here Friday and Saturday of last week.

Norman Schreiter arrived home last Saturday after a couple of weeks' visit with friends at the Twin cities.

Wanted: Person to travel in home territory; salary $3.50 per day and expenses. Address, J. Alexander, 125 Plymouth Place, Chicago, Ill.

Dentist F. F. Fletcher will be at the office of Dr. J. C. Wilkinson on Saturday and Monday, April 27 and 29. 2w.

Sylvan Hall arrived here yesterday and is a guest at the home of his wife's parents, Mr, and Mrs. T. A. Crompe.

Druggist A. L. Reichert arrived home Monday from a weeks sojourn at the cities and points in central Minnesota.

Eugene Bray came over from Crookston last Friday and remained between trains with his parents and friends here.

Several cases of scarlet fever are reported at St. Hilaire. but they are well under quarantine and no epidemic is feared.

Merchant and Mrs. Theo. LaBissoniere and daughter, Erin, spent Sunday with Mrs. LaBisscniere's parents at Crookston.

Banker C. L. Hansen passed through town Tuesday on his way home, after spending a week at the cities on a real estate deal.

Henry Hennemuth went up to St. Hilaire yesterday to make some repairs at the elvator of the Red Lake Falls Milliny company there.

A. P. Toupin arrived home Saturday after spending several days of last week at Duluth, where he had some business to look after.

D. D. Daly, general agent of the St. Paul Fire and Marine Insurance company, spent Tuesday in the city conferring with local agent Duffy.

Editor H. L. Dudly, of the Gazette arrived home yesterday, after a weeks sojourn at the cities and other points in central Minnesota.

J. B. Armstrong and L. P. Berthon went down to Crookston last evening, where they met a traveling man and bought a bill of goods.

Frank Jeffers went up to Thief River Falls Tuesday to spend a few days soliciting orders for the Miller Davis company which he represents.

Mrs. Joseph Cyr is still quite low at her home in this city, and her recovery is not nearly as fast as her family and friends would like to have it.

A. H. Cowles, of Great Bend, North Dakota, arrived today to take charge of the work at the Northern Pacific depot here during the absence of agent Mizen.

Mr. and Mrs. O. Noel left last evening for North Yakima, Washington where they will spend a year or so with their relatives and old-time friends residing there.

D. P. O'Neil spent Saturday night in this city. He was on his way overland from Thief River Falls to to his big farm in Norman county where he will put in the summer.

Mr. and Mrs. Fred Brossean and Mrs. G. B. Morin of Crookstou were guests at the Ed Bray home Tuesday. Mesdames Morin and Brosseau are sisters of Mr. Bray.

William Clancy: who has officiated as stenographer for the Northern Minnesota 'Milling company for the past few months, departed Monday evening for his home in Minneapolis.

Sheriff Nelson arrived home Tuesday evening from the northern part of the county, where he had been looking after business matters for several days. He also visited at Warren Monday.

John Keifenbeim, the city herder announces that he will start the city herd May 1, Mr. Keifenheim has had charge of the city herd for several years past and has always given good satisfaction.

Mrs. Con Short was in from Lillo Tuesday doing some trading and visiting friends. Mrs. Short is now postmistress at Lillo and is also running the store there, and reports business as good out east this spring.

John A. Pochzwenski arrived here from Perham Saturday and has accepted a position with Ed Bray for the summer. Mr. Pochzwenski is a base ball pitcher and will greatly strengthen the local team this season.

The fire boys received their new coupling this week, and the couplers are already out practicing with their new device. The running team will get out next week to begin active training for the big tournament races.

Mrs. Sylvan Hall arrived Tuesday from Cass Lake and will spend some time with her parents, Mr. and Mrs. T. A. Crompe. Mr. Hall has accepted a position in Crookston and will shortly move there to take up his new work.

Attorney Chas. E. Boughton went over to Warren and spent a couple of days trying a law suit. He returned home Monday. The Courier might add that Charley won his case but that is a foregone conclusion with those who know him best.

Fred Zaiser returned home Tuesday from the central part of the state where he went last week on business. Mr. Zaiser is figuring on doing some contract work on the new Duluth-Glenwood Soo line, and will go down again within a short time.

A new operator's table has been added to the fixtures at the Great Northern depot for the use of operator Hall. The table is oak finished and is a thing of beauty. Mr. Hall bought a handsome office chair to match the table and naturally feels a little big over his new possessions.

Fred Richards came in from Dorothy last Friday to attend the Senior class play at the opera house, and remained over Saturday with his many Red Lake Falls friends. Fred has been sticking close to his school work this winter and enjoys his occasional touches of city life.

Sheriff Nelson was out at the extreme eastern limits of the county the first of the week, and arrested a couple of fellows who were charged with stealing grain from the barn of a neighbor. There seemed to be quite a mixup in the affair, and after an investigation the charges were withdrawn and the case dismissed.

Tim Hastings, a prominent Crookston horseman, drove over here Saturday and remained to attend the meeting of the Odd Fellows in the evening. Mr. Hastings is one of the most enthusiastic "three linkers" in the valley, and is always a welcome visitor at the meetings of Clearwater lodge.

Anything which tends to better or brighten the news service of the home paper makes it of so much more value to the community, and the subscribers are the ones most benefitted thereby. If you know or hear of any interesting item in your locality make it a point to see that we learn of it. We should much appreciate your effort.

A party of young men from Thief River Falls were here last Friday evening to take in the Senior class play at the Met. Those who came down were Willis Aker, Will Prichard, Thomas Lonson and Ernest Richards. The first three were guests at the Floan home while in the city, and Mr. Richards was entertained at S. A. Swanson's.

Mrs. E. F. Marshall went down to Minneapolis Tuesday evening to spend several days with her son, Drew, and friends there. The Conreid grand opera company, one of the greatest in the country, is holding forth at the mill city this week and Mrs. Marshall couldn't resist this opportunity of hearing the star singers of the world.

A. E. Sorenson, of Lambert, took the train here Tuesday for Grand Forks to accompany his wife back to the Lambert home. Mrs. Sorenson has been at the Forks at the Deaconess hospital for several weeks past, where she underwent a delicate operation, but is nearly well again and able to return to her home.

Joseph Baril leaves today for his home in Crossfield, Alberta, after having spent a month in this neighborhood. Mr. Baril ships a car of horses from Brooks this week to that place, where he will dispose of them. During the past few years, Joe has sold lots of horses in that part of Canada, and has a good business worked up. He will not return here again before fall.

George Hennings has been having some extensive improvements made on his north side residence property of late, and the place presents a greatly improved appearance. One of Nick's phonographs gently whispers that George is contemplating catching the bird now that he has the cage fixed up so cosily—but of course The Courier cannot vouch for the accuracy of the statement.

Base Ball Meeting

A meeting will be held at the city hall Saturday evening at 8 o'clock to discuss the outlook and organize a base ball team for the coming season. Everyone interested is invited to turn out.

Miss Clara Zaiser has been very ill at her home this week with a serious attack of appendicitis. It was thought that an operation was necessary, and Dr. Dunlap was summoned from Crookston Tuesday but her improvement seemed certain without it and it was posponed until she gets stronger. The young lady is reported as much better today.

For Lale—$300 high grade piano for $200; Royal Wilton velvet rug, $25; china closet, $20; writing desk and book case, $15; $35 graphaphone, 32 inch horn, 30 records, all for $15; center table, $10; two fine rockers, $12; 2 fine iron beds, new springs, sea moss mattresses, all for $35. cost $60; must be sold before May 1; this is your last chance. Mrs. Louis Seiff.

G. G. Kinseth is having extensive improvements added to his north side residence this spring, and when the work is finished will have one of the prettiest homes in the city. A substantial addition has been added to the house, a fine porch built around the front and other convenient improvements made. Joe Lachance has been doing the work which assures Mr. Kinseth a good job.

Mort McKnight, a prominent Poplar River farmer, was in town Monday and hauled out a ton of feed from the Red Laks Falls Milling company. The McKnights are in the dairy business in dead earnest and will milk nearly fifty head of cows from now on. They have had lots of experience in the dairy line and have long since found out where stock farming beats the old wheat raising lottery. J. T. McKnight, with his two sons, Mort and Bert, own a half section in Poplar River and have one of the prettiest stock farms in the Red River valley today.

F. A. Mizen left yesterday on an extended trip through the west and south, and intends to spend a month and a half taking in the sights and travelling. He will go from here to Portland, stopping at several places and from there he will proceed to San Francisco by boat. From San Francisco he will go south and then east to New Orleans, visiting all the larger cities and noted resorts between these places. From New Orleans he will go to St. Louis and thence directly home, and he looks forward to a very enjoyable trip. Mr. Mizen has been closely confined to his work for some time past, and the outing will no doubt be beneficial as well as highly enjoyable. The Courier wishes him bon voyage with safe return.

The class play "Sweet Girl Graduates" given by the members of the class of '07 of the Red Lake Falls high scool at the Met. Friday evening was attended by an exceptionally large crowd of people and was thoroughly enjoyed by each and every one. So well did each mem- conduct his or her part that individual mention would be an injustice. The young poeple were admirably drilled, and the play was carried through without a hitch and with great credit to the participants. After the play a social dance was held which was equally enjoyed. The local orchestra provided the music for the evening. The class netted nearly $100 by their efforts which will be expended in defraying the graduation expenses.

INDUSTRIAL CONTEST.

Young People Given Chance To Secure Prizes.

The State Grain Growing contest promoted in 1906 by Prof. D. D. Mayne will be continued under the general supervision of the Farmers' Cbub of Minnesota. Contests in cooking, sewing and in growing fruit and vegetables will be added to the three grains, used last year, This makes the name "Grain Growing Contest" inadequate, and the name 'Minnesota Boys and Girls Industrial Contest" has been chosen instead.

There is almost no limit to the good results which may be expected from this work. Not alone is educational feature of the contest important, but the practical and economic results which will certainly follow where the plan is successfully carried out, should and will interest every public spirited citizen.

The plan of the county contest is very similar to that followed in many of the counties before the state contest was started, that is, the contest under the supervision of the county superintendent of schools. Where the County Farmer's Clubs are organized the members will co-operate with the county superintendent in every possible way to help make the contest a success.

Any boy or girl in Minnesota under eighteen years of age or any public school student, is eligible to enter this contest. All that is necessary to enter the contest is to send your name to the county superintendent and state in which of the classes you wish to compete.

The county superintendedt or members of the Farmers' Club or both, will solicit from the business men and other citizens of each county reasonable prizes for the various exhibits made. This will insure substantial prizes for several of the best exhibits in each class. The winners of the first three prizes in each class in the county contest may compete in the state contest.

The county contests should all be held before the first of December if possible. It is planned to hold the state contest at St. Paul December 19-20-21.

County Superintendedt McAnulty wishes to encourage a conuty contest in Red Lake county again this year, and requests that all the boys and girls who wish to enter any of the contests send in their name and address to him at once, stating at the same time where they desire to have the county seed grain fair held this fall—in Red Lake Falls, Thief River Falls or St. Hilaire. If a sufficient number of contestants enter the race, county prizes will be offered which will be announced later in the season.

The contest this year is open to all boys and girls under eighteen years of age, and covers several different features.

Besides the grain contest there is a cooking contest, sewing contest, vegetable contest and fruit contest and one may compete for the prizes in any or all.

The county superintendent requests the co-operation of the teachers throughout the county in an effort to get a large number of contestants. Circulars and other information bearing on this matter will be furnished upon application to Mr. McAnulty.

ANOTHER WESTERN CANADA RECORD.

The Way in Which a Swan River Farmer Became Wealthy.

Swan River, Manitoba, Nov. 21, 1906.

Two weeks ago we gave an account of the prosperity of a farmer in Western Canada, and this week we reproduce another.

"I have been asked regarding this year's work on my farm, and I herewith willingly submit the following statement:

"Three years ago I purchased an improved farm of 186 acres on Section 9, Township 36, Range 27 west of the First Meridian—two miles from the town of Swan River.

I plowed and cropped 122¼ acres of land during this year (1906), 80 acres in wheat, 30 acres in oats, and 12½ acres in barley.

"The cost of putting in and taking off this crop this season is as follows:

Cash paid for blue stone.....$	1.50
Cash paid for binder twine...	39.00
Cash paid for hired help.....	125.00
Cash paid for threshing......	175.00
Total ....$	340.00

"Receipts for the year as follows—

80 acres of wheat (yielded 30 bushels per acre)—Total..	2,460 bu.
80 acres of oats (yielded 40 bushels per acre)—Total..	1,200 "
1 stack of oats in sheaf.....	200 "
12½ acres barley (48 bu. per acre)	600 "
Crop potatoes...............	300 "
Hay, tons	15
Sold.	
1,168 bu. wheat at 62c.......$	724.16
1,232 bu. wheat in granary at 62c	763.84
300 bu. barley at 35c........	105.00
300 bu. barley in granary at 35c	105.00
1,200 bu. oats in granary at 25c	300.00
100 bu. potatoes at 30c.......	30.00
200 bu. potatoes in root house at 30c.........	60.00
1 stack of oats in sheaf for feed	50.00
15 tons of hay at $3.00.......	45.00
Garden roots and vegetables.	30.00
Total	$2,213.00
Cost of above, besides my own labor	340.50
Balance	$1,872.50

I have in all, 125 acres ready for crop next year, including 10 acres cleared and broken this season.

Total Assets.	
186 acres land, with house, stable and outbuildings, etc.	$5,000.00
Implements	500.00
4 head of horses, and harness	800.00
15 head of cattle..............	375.00
20 pigs	200.00
Receipts of this season's crop	1,872.00
Total	$8,747.50
Liabilities are	1,000.00
Total assets	$7,747.50

I have made the above amount by farming in Manitoba. I think it has paid. This is my standing to-day. I am a single man, a Canadian, and 26 years of age.

For particulars how to secure low railway rates to the free homesteads of Western Canada apply to any Canadian Government agent.

For constipation, biliousness, liver disturbances, and diseases resulting from impure blood, take Nature's remedy, Garfield Tea. It is made wholly of health-giving herbs.

Only a Bluff.

Country Cousin—How awfully busy everybody seems up in London.

Londoner—Yes, that's a characteristic of the city.

Country Cousin—What, being busy?

Londoner—No, seeming to be.

When a mistake turns out to be profitable it is no longer called a mistake.

FIVE ARE KILLED IN TRAIN WRECK

GREAT NORTHERN PASSENGER TRAIN DERAILED AT BARTLETT, N. D.

COACHES DESTROYED BY FIRE

Lakota, N. D., April 17.—Five men were killed and several injured by the derailing of Great Northern Train No. 1 at Bartlett, N. D., at 1:15 o'clock yesterday morning. Those killed were: W. B. Jones, mail clerk, of Grand Forks, N. D., and four identified foreign laborers riding in the second-class coach.

The following were injured: C. H. Fodness, mail clerk, of Grand Forks, N. D., badly injured; Archie Saunders, Clarence, Mo., leg broken; Max Nielson, Fosston, Minn., back injured; Thomas Ellis, Larimore, N. D., right leg bruised.

Cars Are Burned.

Several other passengers were slightly injured but their names have not been secured. The injured passengers were taken to hospitals at Grand Forks and Devils Lake.

Immediately after the train was wrecked it caught fire and seven passenger cars were destroyed.

The cause of the accident has not been ascertained, but officials went on the ground to make an investigation. The train was running at a speed of forty miles an hour on a straight track, which apparently was in first-class condition.

WANTS DEMOCRATIC MEET.

St. Paul After National Convention—Minneapolis Helping.

St. Paul, April 17. — Minneapolis Democrats are rallying to the idea of securing the national convention for St. Paul in 1908 with as much enthusiasm as if an attempt was to be made to get the big convention for their own city. The Jefferson club of Minneapolis has thrown itself heartily into the work, and a meeting will be held this evening to discuss plans and appoint a committee to put the project into definite shape.

Minneapolis citizens generally have it figured out that there will be glory enough to go around between both cities and that all feelings of personal pride in one or the other city should be laid aside in the joint effort to secure the convention.

STEAMER RUNS ON ROCKS.

Louis Pahlow and Consort Wrecked During Blinding Snow Storm.

Green Bay, Wis., April 17. — The steamer Louis Pahlow ran on the rocks at Clay Banks, six miles south of here, during a blinding snow storm yesterday afternoon and is fast pounding to pieces. Her consort, the Delta, is also at the mercy of the storm, but managed to anchor near the wrecked steamer and may be saved. The crews have been taken off by the lifesavers of this port and are safe.

SNOW BLOCKS TRAIN.

Langdon Line in North Dakota Is Tied Up by April Storm.

Grand Forks, N. D., April 17.—The Langdon line of the Great Northern is again tied up by an April snow storm. The passenger train that left Grand Forks this morning is stuck in a drift two miles east of Easby, and there is a snow plow stuck about a mile west of Langdon. A freight train has been stuck all day between Langdon and Dresden.

HOLD SENATORIAL CAUCUS.

Four Ballots Taken and No Agreement is Reached.

Madison, Wis., April 17. — After having taken four ballots and being unable to agree on a senatorial candidate, the Republican legislative caucus last night adjourned until to-night. The fourth ballot was as follows:

Lenroot, 19; Stephenson, 18; Esch, 17; Cooper, 17; Hatton, 15; Baensch, 5; Winkler, 4; Fairchild, 4; Rogers, 1; Hudnall, 1.

ROOSTER SPURS CHILD.

Lockjaw Develops From Wound Pet Inflicts on Lip.

Clarion, Iowa, April 17. — Clyde Johnson, the four-year-old son of J. G. Johnson, is ill from tetanus and it is believed that he cannot recover. Some time ago the boy was spurred through the lip by a pet bantam rooster and lockjaw developed from the wound.

Letter His Death Warrant.

Edgerton, Minn., April 17.—Receiving a letter of dismissal from the sweetheart he had left in the old country, Herman de Koning, a Hollander, twenty-three years old, committed suicide by shooting himself in the heart.

Loses Hand by Blast.

Riceville, Iowa, April 17. — While tamping frozen dynamite into a drill hole in a rock Joe Richeter had his hand blown off and his face filled with pieces of rock by the explosion.

ROBBER GETS OFF WITH $25,000 WAD

CLERK IN NORTHERN EXPRESS OFFICE AT ST. PAUL HELD UP AT POINT OF GUN.

FORMER EMPLOYE DOES TRICK

St. Paul, April 18. — Fred Zimmerman, clerk in the Northern Express company's office at the union depot, was held up and robbed of $25,000 at 9:40 o'clock last night. Zimmerman says that the man who got the money from the safe at the point of a revolver was John Gunderson, who formerly was employed by the company and recently discharged. He had not been captured early this morning.

Mr. Zimmerman was at work in the depot office of the company last evening when the would-be robber appeared. As the latter was well known to Zimmerman and had worked in the office, nothing was thought of his presence there.

Is Real Entertaining.

He remained an hour or more, talking to Zimmerman and others employed about the place. He apparently had been drinking and seemed to be in a very entertaining mood.

He awaited his opportunity and when all others had left except Zimmerman and a porter, the young man gave the porter some money and asked him to go for a bottle of whisky. The visitor explained that he expected to go out on an evening train and wanted the liquor to take with him.

As soon as the porter had left the office the robber pulled a revolver on Zimmerman and ordered him to open the safe. As the young man seemed in earnest and had been drinking Zimmerman feared to temporize and obeyed the command. The robber took from the safe a package containing $25,000. He left the office, ran down the tracks and disappeared in the darkness before Zimmerman could give the alarm.

Was Discharged Employe.

The police were notified at once, and in a few minutes every member of the city detective force was at work on the case.

The young man who secured the money recently was employed by the company and was discharged for drunkenness. The officials of the company say that he was aware, from his recent connection with the office, that the $25,000 package was to be sent to the Cloquet Lumber company at Cloquet last night.

CART HITS STREET CAR.

Cousin of H. H. Rogers of Standard Oil Is Injured.

Great Falls, Mont., April 18.—Hubert D. Chevigne is in the hospital suffering from severe injuries received in a runaway accident. Chevigne and another man were in a breaking cart to which was attached a team of bronchos. The horses became unmanageable and bolted into a street car, wrecking the cart and throwing its occupants out. Chevigne is a cousin of Henry H. Rogers, the Standard Oil millionaire.

PETRIFIED IN GRAVE.

Body Exhumed From Cemetery Found to Have Turned to Stone.

St. Cloud, Minn., April 18. — The body of Mrs. J. J. Salfinger, buried in the Melrose cemetery in 1900, was exhumed and buried in another lot. The men making the disinterment finding the box and casket decayed expected to find nothing but the skeleton to remove, when, to their surprise they found a well preserved body. Upon touching it they discovered that it had turned to stone.

LEFT FORTUNE IN POLAND.

Farmer's Wife Gets Draft for $60,000 From Russia.

Granville, N. D., April 18.—Mrs. Ostrowsky, the wife of Anton Ostrowsky, a well known Deep River farmer, has received news from Poland announcing that she had been left a fortune through the death of a wealthy relative. The amount bequeathed to Mrs. Ostrowsk was $60,000, and she has just received a draft for the full amount.

Butter Coloring Kills.

Miller, S. D., April 18.—The three-year-old child of Jacob Weise got hold of the bottle of butter coloring that the mother had been using to color butter, drank about a tablespoonful, and died from the effects of it, after great agony.

Three Hurt in Wreck.

Altura, Minn., April 18.—While running about fifty miles an hour a Great Western train was wrecked near here yesterday. The two rear coaches of the train plunged down a steep embankment. It is reported that three persons were seriously injured.

Robbers Loot Bank.

Hazleton, Iowa, April 18.—Robbers forced an entrance to the State bank of Hazleton, blew open the vault with nitroglycerin, secured $4,400 in cash and escaped.

SPLENDID APRIL TONIC.

Easily Prepared at Home and Harmless to Use.

This is known as "Blood-Cleaning Time," especially among the older folks, who always take something during this month to clean the blood of impurities and build it up.

The following is the recipe as given by a well-known authority, and anyone can prepare it at home:

Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces.

Get these simple ingredients from any good pharmacy and mix by shaking well in a bottle. The dose is one teaspoonful after meals and at bedtime.

Everybody should take something to help the blood, which becomes impoverished and almost sour after the winter season, especially those who are subject to Rheumatism, Catarrh, Kidney and Bladder trouble.

It is said that one week's use of this mixture will clear the skin of sores, pimples or boils.

This is sound, healthy advice, which will be appreciated by many readers.

Pickpockets are unable to convince themselves that it's a shame to take the money.

The supposedly witty man who fails to impress others is apt to consider them half-witted.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

ANOTHER WESTERN CANADA RECORD.

The Way in Which a Swan River Farmer Became Wealthy.

Swan River, Manitoba, Nov. 21, 1906.

Two weeks ago we gave an account of the prosperity of a farmer in Western Canada, and this week we reproduce another.

"I have been asked regarding this year's work on my farm and I herewith willingly submit the following statement:

"Three years ago I purchased an improved farm of 186 acres on Section 9, Township 36, Range 27 west of the First Meridian—two miles from the town of Swan River.

"I plowed and cropped 122½ acres of land during this year (1906), 80 acres in wheat, 30 acres in oats, and 12½ acres in barley.

"The cost of putting in and taking off this crop this season is as follows:

Cash paid for blue stone	$ 1.50
Cash paid for binder twine	29.00
Cash paid for hired help	125.00
Cash paid for threshing	115.00
Total	$ 340.00

"Receipts for the year as follows—

80 acres of wheat (yielded 29 bushels per acre) Total	2,360 bu.
30 acres of oats (yielded 40 bushels per acre) Total	1,200 "
1 stack of oats in sheaf	[illegible]
12½ acres barley (48 bu. per acre)	600 "
[illegible] potatoes	300
Hay, tons	15

Sold.

1,168 bu. wheat at 62c	$ 724.16
1,232 bu. wheat in granary at 62c	763.84
300 bu. barley at 35c	105.00
[illegible] bu. barley in granary at 35c	[illegible]
1,200 bu. oats in granary at 25c	300.00
150 bu. potatoes at 30c	45.00
[illegible] bu. potatoes in root house at 30c	[illegible]
1 stack of oats in sheaf to feed	20.00
15 tons of hay at $3.00	45.00
Garden roots and vegetables	70.00
Total	$2,213.00
Cost of above, besides my own labor	340.50
Balance	$1,572.50

"I have in all, 135 acres ready for crop next year, including 10 acres cleared and broken this season.

Total Assets.

145 acres land, with house, stable and outbuildings, etc.	$5,000.00
Implements	500.00
7 head of horses, and harness	890.00
13 head of cattle	375.00
17 pigs	100.00
Receipts of this season's crop	1,572.00
Total	$8,747.50
Liabilities are	1,000.00
Total assets	$7,747.50

"I have made the above amount by farming in Manitoba. I think it has paid. This is my [illegible]. I am a single man, a Canadian, and [illegible] years of age."

For particulars how to secure low railway rates to the free homesteads of Western Canada apply to any Canadian Government agent.

For constipation, sallowness, liver disorders, and diseases resulting from impure blood, take Nature's remedy, Garfield Tea. It is made wholly of health-giving herbs.

Only a Bluff.

FIVE ARE KILLED IN TRAIN WRECK

GREAT NORTHERN PASSENGER TRAIN DERAILED AT BARTLETT, N. D.

COACHES DESTROYED BY FIRE

Lakota, N. D., April 17.—Five men were killed and several injured by the derailing of Great Northern Train No. 1 at Bartlett, N. D., at 1:15 o'clock yesterday morning. Those killed were: W. B. Jones, mail clerk, of Grand Forks, N. D., and four identified foreign laborers riding in the second-class coach.

The following were injured: C. H. Fodness, mail clerk, of Grand Forks, N. D., badly injured; Archie Saunders, Clarence, Mo., leg broken; Max Nielson, Fosston, Minn., back injured; Thomas Ellis, Larimore, N. D., right leg bruised.

Cars Are Burned.

Several other passengers were slightly injured but their names have not been secured. The injured passengers were taken to hospitals at Grand Forks and Devils Lake.

Immediately after the train was wrecked it caught fire and seven passenger cars were destroyed.

The cause of the accident has not been ascertained, but officials went on the ground to make an investigation. The train was running at a speed of forty miles an hour on a straight track, which apparently was in first-class condition.

WANTS DEMOCRATIC MEET.

St. Paul After National Convention—Minneapolis Helping.

St. Paul, April 17. — Minneapolis Democrats are rallying to the idea of securing the national convention for St. Paul in 1908 with as much enthusiasm as if an attempt was to be made to get the big convention for their own city. The Jefferson club of Minneapolis has thrown itself heartily into the work, and a meeting will be held this evening to discuss plans and appoint a committee to put the project into definite shape.

Minneapolis citizens generally have it figured out that there will be glory enough to go around between both cities and that all feelings of personal pride in one or the other city should be laid aside in the joint effort to secure the convention.

FREE TO MINISTERS
AND
Students for the Ministry

Under the will of the late L. C. Iungerich, of Philadelphia, a large fund was provided for the free distribution to ministers of the writings of Emanuel Swedenborg, entitled "The True Christian Religion" and "The Apocalypse Revealed." To these, other donors have added "Heaven and its Wonders, and Hell," and "Life of Emanuel Swedenborg." They are offered FREE OF COST, except for postage, to Ministers and Students who are studying for the ministry.

Arrangements have been made for the distribution of these volumes through the J. B. LIPPINCOTT COMPANY, PHILADELPHIA:

To whom all orders for the books must be sent, accompanied by the postage, and a statement that the applicant is a minister, or student for the ministry,

JULIEN SHOEMAKER
WM. McGEORGE
Committee of Distribution.

Postage as follows:
"The True Christian Religion" . . 20 cents
"The Apocalypse Revealed" . . 18 "
"Heaven and its Wonders, and Hell" 13 "
"Life of Swedenborg" . . . . . . 10 "

☞ REMEMBER, YOU ARE REQUIRED TO PAY THE POSTAGE ONLY.

Canadian Government Free Farms
FARMS IN WESTERN CANADA FREE
Over 200,000 American farmers who have settled in Canada during the past few years testify to the fact that Canada is, beyond question, the greatest farming land in the world.
OVER NINETY MILLION BUSHELS
of wheat from the harvest of 1906 means good money to the farmers of Western Canada when the world has to be fed. Cattle Raising, Dairying and Mixed Farming are also profitable callings. Coal, wood and water in abundance; churches and schools convenient; markets easy of access. Taxes low.
For advice and information address the Superintendent of Immigration, Ottawa, Canada, or any authorized Canadian Government Agent, CHARLES PILLING, Clifford Block, Grand Forks, North Dakota.

FREE To convince any woman that Paxtine Antiseptic will improve her health and do all we claim for it. We will send her absolutely free a large trial box of Paxtine with book of instructions and genuine testimonials. Send your name and address on a postal card.
PAXTINE cleanses and heals mucous membrane affections, such as nasal catarrh, pelvic catarrh and inflammation caused by feminine ills; sore eyes, sore throat and mouth, by direct local treatment. Its curative power over these troubles is extraordinary and gives immediate relief. Thousands of women are using and recommending it every day. 50 cents at druggists or by mail. Remember, however, IT COSTS YOU NOTHING TO TRY IT. THE R. PAXTON CO., Boston, Mass.

DEFECTIVE PAGE

INTENTIONAL DUPLICATE EXPOSURE

A TERRIBLE EXPERIENCE.

How a Veteran Was Saved the Amputation of a Limb.

B. Frank Doremus, veteran, of Roosevelt avenue, Indianapolis, Ind., says: "I had been showing symptoms of kidney trouble from the time I was mustered out of the army, but in all my life I never suffered as in 1897. Headaches, dizziness and sleeplessness, first, and then dropsy. I was weak and helpless, having run down from 180 to 125 pounds. I was having terrible pain in the kidneys, and the secretions passed almost involuntarily. My left leg swelled until it was 34 inches around, and the doctor tapped it night and morning until I could no longer stand it, and then he advised amputation. I refused, and began using Doan's Kidney Pills. The swelling subsided gradually, the urine became natural, and all my pains and aches disappeared. I have been well now for nine years since using Doan's Kidney Pills.

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

He Knew.

A teacher in an isolated school situated in the cattle country of Wyoming, where the children learn their letters from the brands on cattle before they learn the alphabet, was endeavoring to teach her pupils the different sounds of a as denoted by the marks above the letter.

"Now, children," she inquired hopefully, pointing on the blackboard to the letter and the mark signifying the long sound, "what is this?"

There was long and discouraging silence; then an embryo cowboy cried excitedly, as he waved his hand: "I know, teacher, that's Bar A."

ILL FROM OVERWORK

NERVOUS PROSTRATION CURED BY DR. WILLIAMS' PINK PILLS.

By Toning up the Blood and Nerves Patient Recovered Weight, Strength and Good Spirits.

When the nervous system is broken down from overwork, or whatever cause, life loses its joys. Not only is the nervous victim a sufferer himself but he is usually a trial to the whole family. Nervous breakdown is often gradual, appearing at first to be merely an unusual fretfulness. Dr. Williams' Pink Pills tone up the nerves in the most direct way and not only cure minor troubles but serious disorders as well.

Mr. W. W. Munroe, of 16 Hazel Park, Everett, Mass., says: "About four years ago this September I became all run down from overwork and from confinement to work during warm weather. For two months I grew steadily worse. I lost in weight and strength and had no appetite. My memory failed me quite rapidly and I became in a very low state, both physically and mentally. I took no interest in life, neither in business nor recreation. In my position, as foreman in a large manufacturing chemist's establishment in Boston, a good memory is absolutely essential to success because of the immense amount of detail that must be carried in the head.

"I grew very despairing, could not bear to have people meet me and my friends remarked on my condition. About the middle of December a friend told me one day that he had tried Dr. Williams' Pink Pills and found them reliable. I commenced taking them and at the end of two weeks the change for the better was remarked by friends. I continued using the pills until I was thoroughly recovered. I regard them as a fine remedy and make this statement voluntarily in gratitude for the benefit I received from them."

These pills actually make new blood and have cured such diseases as rheumatism, nervous and general debility, indigestion, nervous headache, neuralgia and even partial paralysis and locomotor ataxia. As a tonic for the blood and nerves they are unequalled.

If you are a sufferer from any disorder of the blood and nerves write for proof of what Dr. Williams' Pink Pills have accomplished in cases similar to yours. Every testimonial used by this company is carefully investigated before being published and is authentic.

Dr. Williams' Pink Pills are sold by all druggists, or direct by mail, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

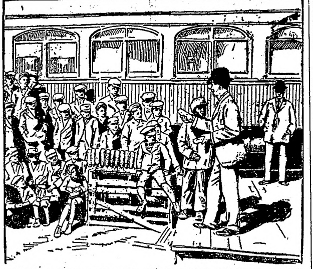
An Interested Audience of Coming Farmers



Not the least interested portion of the audiences which have gathered at the stations where the special agricultural trains in the different states have stopped has been the boys of the farm, who eagerly listen to the talks of the lecturers. This was specially true recently at Warrenton, Mo., where the "seed and soil" train made one of its stops. The two lecture cars were filled with the farmers and so the boys gathered in a sort of overflow meeting on the platform and one of the lecturers appreciating the opportunity and the eager earnestness of the youngsters, gave them a talk on corn-growing. A fine yellow ear of corn was in each hand, and the way those boys drank in the points about seed selection, etc., augurs well for the future. And this is only one incident of what is being done to set the boys on the farm to thinking.

THE VALUE OF MANURE

By M. L. Fisher, Asst. Professor of Agronomy, Purdue (Ind.) University.

The theoretical value of a ton of manure is likely to differ somewhat from its practical value. For example a ton of clover hay fed to mature fattening steers ought to return in the animal's excrement fertilizing elements worth about $9.80; a ton of oats about $7.65. As a matter of fact, no farmer ever has a ton of manure whose value based on its chemical composition is anything like the above figures. The average chemical composition of a large number of samples of average farm manures gives a value computed at 17½ cents for nitrogen and six cents for phosphoric acid, and potash at $2.75.

In some experimental work by the Indiana station the returns from applying ordinary manure in a certain series show it to be worth from 40 cents to four dollars for a single crop, and from 75 cents to $1.50 where results from three crops have been obtained. In another series where a heavy application has been made and then cropped with continuous corn the increased yield from 13 crops gave a value of about one dollar per ton for each crop. It is well known that the effect of manure lasts a long time, and, consequently, one or two crops does not measure its value.

Various factors operate to influence the value of manure. The food given young and growing animals has more of its nitrogen and phosphoric acid removed and built into the animal's organisms than that given to more mature animals. Consequently their excrement is not so valuable as that from the maturer animals. The kind of food fed influences the quality of the manure. Evidently a ration of straw and corn stover cannot be converted into as rich manure as a ration of clover hay and oil meal. The manurial element in the bedding also adds to or subtracts from the value of the manure. Corn stover possesses about twice as much fertilizing material as wheat straw. Besides the above factors it is evident that the season, kind of soil and the crop to which applied affect the returns derived from applying manure.

THE TESTING OF CREAM

By Carl E. Lee, of the University of Illinois.

The cream and preservatives should be well mixed and after each new addition of cream to the composite sample, the sample should be thoroughly mixed by a rotary motion of the bottle.

Keep the jar covered to prevent drying. Prepare the samples for testing by placing them in warm water at a temperature of 120 degrees. Do not get the water too warm. After the cream has been warmed it becomes less viscous and will more readily mix when poured from one vessel to the other.

Weigh out 18 grams of cream, by pipette. It must not be measured, because the amount of fat contained in cream is large enough to change the specific gravity and variation becomes greater as the per cent. of fat and acidity increases.

Use the straight neck Babcock bottle, graduated to half per cents. Never weigh out nine grams of cream in a bottle graduated for 18 grams and double the reading. Bottles can be obtained which will give direct reading when nine grams are used.

To each bottle containing the 18 grams of cream add 17.6 c.c. of acid and thoroughly mix by gentle rotation of the bottle and before placing the bottles in the machine add to each a sufficient amount of water at a temperature of 120 to 140 degrees to float the fat to the neck of the bottle, whirl for five minutes at regulation speed 1,000 R. P. M. for a 24-bottle machine. Add enough water of the same temperature as before to bring the column of fat within the graduation, and whirl another minute or two. Make the reading while the temperature of the fat is between 120 and 140 degrees. Avoid getting the sample too warm. The cream tests are often dark, having a burnt appearance due to the tester overheating the sample.

Buying Trees and Shrubs

If possible the purchaser of trees or shrubs should choose his purchases from growing stock that he views and considers with regard to his especial requirements. A gardener should select with the utmost care everything of a permanent nature that he puts in his garden. Especially is this the case with fruit bearing trees and shrubs. The best is the cheapest, it being more economical to destroy a poor specimen than to waste time and effort trying to make a good plant of it. The same applies to a rose bush or any ornamental plant.

The buyer that orders haphazard from a nurseryman's catalogue without either seeing the plants he is purchasing, or giving the seller an idea of his special requirements, will be lucky if disappointment is not his lot. Quality, and not quantity should always be the watchword of the gardener, since a single rose bush of surpassing beauty will give more pleasure than a dozen that are failures. If it is impossible for the purchaser to visit a nursery and make his own selections, he should obtain expert advice from someone who understands how to order with specifications that will insure stock of the right sort being delivered, and who knows what variety will be best suited to the given conditions.

Advice of this sort may be obtained from the nurserymen themselves and the purchaser will do well to write for suggestions on all points he does not thoroughly understand. But a trip to the nursery where all varieties may be seen growing, and the various specimens compared will be productive of information enough to make it profitable to any amateur wherever it is possible.

Shade for the Strawberry Picker.—A Pennsylvania strawberry grower has made a movable screen under which he can pick his strawberries in the hottest days. The screen is supported on four uprights, and these are fastened to a frame mounted on four wheels. Above the wheels is an arrangement for holding many boxes of strawberries, so the picker will not have to leave his shade when he has finished picking his box. The inventor finds this arrangement a great help when the sun is so hot that it would drive the pickers out of the field. It is of great importance in the strawberry business to have the berries picked at the time they are just right to go to market.

Strawberries in Hills.—One of the best ways for the farmer to grow strawberries is in the hill system. Each plant is kept by itself and all runners are kept cut off. This develops the parent plant. When the garden devoted to strawberries contains only these detached plants they can be cultivated both ways with the wheeled hoe and thus much labor is saved. Hand-pulling weeds is expensive labor, and the less of it the better.

Be Thankful.—Some day when you feel blue and discouraged just pause and compare your lot in life with the thousands of those in different lands who barely have enough to eat to sustain life, with perhaps no place to lay their weary heads. Then thank God that you are one of His favored family who enjoy such privileges as are really your own. Haven't we a whole lot to be thankful for, after all?

In a Pinch, Use ALLEN'S FOOT-EASE. A powder. It cures painful, smarting, nervous feet and ingrowing nails. It's the greatest comfort discovery of the age. Makes new shoes easy. BABY WASTED TO SKELETON.

In Torments with Terrible Sores on Face and Body—Tore at Flesh —Cured by Cuticura.

"My little son, when about a year and a half old began to have sores come out on his face. They began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in cloths at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton and was hardly able to walk. I sent to the drug store and got a cake of Cuticura Soap and a box of Cuticura Ointment, and at the end of about two months the sores were all well. He has never had any sores of any kind since, and only for the Cuticura Remedies my precious child would have died from these terrible sores. I used only one cake of Soap and about three boxes of Ointment. Mrs. Egbert Sheldon, R. F. D. No. 1, Woodville, Conn., April 22, 1905."

Wouldn't Go Quietly.

Magistrate—But you cannot maintain that your wife abandoned you wilfully; you hounded her out of the house.

Jorgel—Yes; because she wouldn't go quietly.

Garfield Tea, which is guaranteed under the Pure Food and Drugs Act, is the best remedy for constipation, sick-headache, and indigestion. It purifies the blood and cleanses the system.

Different Points of View.

She—Sympathize with me, baron, I found a gray hair in my head this morning.

He—Congratulate me, countess, I found a black one in mine.

Little deeds tell more than the largest, plainest bumps of character.

BACKACHE AND DESPONDENCY

Are both symptoms of organic derangement, and nature's warning to women of a trouble which will sooner or later declare itself.

How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition.

They do not realize that the back is the main-spring of woman's organism and quickly indicates by aching a diseased condition of the feminine organs or kidneys, and that aches and pains will continue until the cause is removed.

MISS LENA NAGEL

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs has been for many years the most **successful remedy** in such cases. No other medicine has such a record of cures of feminine ills.

Miss Lena Nagel, of 117 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired. Lydia E. Pinkham's Vegetable Compound completely cured me."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, and all Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and tones the Stomach. Cures Headache and Indigestion and invigorates the whole feminine system.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs Pinkham, Lynn, Mass. Her advice is free.

NO MORE MUSTARD PLASTERS TO BLISTER.
THE SCIENTIFIC AND MODERN EXTERNAL COUNTER-IRRITANT.

CAPISICUM VASELINE

EXTRACT OF THE CAYENNE PEPPER PLANT

A QUICK, SURE, SAFE AND ALWAYS READY CURE FOR PAIN.—PRICE 15c.—IN COLLAPSIBLE TUBES—AT ALL DRUGGISTS AND DEALERS, OR BY MAIL ON RECEIPT OF 15c. IN POSTAGE STAMPS. DON'T WAIT TILL THE PAIN COMES—KEEP A TUBE HANDY.

A substitute for and superior to mustard or any other plaster, and will not blister the most delicate skin. The pain-allaying and curative qualities of the article are wonderful. It will stop the toothache at once, and relieve Headache and Sciatica. We recommend it as the best and safest external counter-irritant known, also as an external remedy for pains in the chest and stomach and all Rheumatic, Neuralgic and Gouty complaints. A trial will prove what we claim for it, and it will be found to be invaluable in the household and for children. Once used no family will be without it. Many people say "it is the best of all your preparations." Accept no preparation of vaseline unless the same carries our label, as otherwise it is not genuine. SEND YOUR ADDRESS AND WE WILL MAIL OUR VASELINE PAMPHLET WHICH WILL INTEREST YOU.

The General Condemnation of So-Called Patent or Secret Medicines

of an injurious character, which indulge in extravagant and unfounded pretensions to cure all manner of ills, and the

National Legislation Enacted to Restrict Their Sale

have established more clearly than could have been accomplished in any other way

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

SKIN DISEASES
HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the Winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Fifty-Two and 50-100 ($52.50) Dollars, interest, which became due May 6, 1906, and which is claimed to be due and is due at the date of this notice upon a certain Mortgage duly executed and delivered by Brede M. Thoreson and Marie Thoreson, his wife, Mortgagors, to De Nederlandsch-Amerikaansche Hypotheekbank (The Netherlands American Mortgage Bank) of Uithuizen, The Netherlands, Mortgagee, bearing date the 6th day of May, A. D., 1904, and with the power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 9th day of May, A. D. 1904, at 10:00 o'clock a. m., in Book 29 of Mortgages, on page 393 thereof.

And Whereas, It is provided in and by the terms of said mortgage that if default be made in any of the terms and conditions thereof, the mortgagee or holder of said mortgage might declare the whole principal sum of said mortgage due and payable.

And Whereas, under the terms and conditions of the said mortgage and the power of sale therein contained, the said mortgagee and holder of said mortgage has duly elected and does hereby duly elect to declare and does hereby declare the whole principal sum of the said mortgage due and payable at the date of this notice.

And Whereas, There is actually due and claimed to be due and payable thereon at the date of this notice the sum of Eight Hundred Fifty-one and 65-100 ($851.65) Dollars, and the power of sale having become operative and no action or proceeding having been instituted at law or otherwise, to recover the debt remaining secured by said Mortgage, or any part thereof.

NOW, THEREFORE, NOTICE IS HEREBY given, that by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz.:

The East half of the Southeast quarter of Section Twenty-nine (29) and the Northeast quarter of the Northeast quarter of Section Thirty-two (32) in township one hundred fifty-one (151) North of range forty-one (41) West of the 5th principal meridian, containing according to the United States survey one hundred twenty (120) acres, be the same more or less, in the county of Red Lake State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Red Lake County, at the front door of the Court House, in the city of Red Lake Falls in said County and State, on the 11th day of May, 1907, at 11:00 o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of Eight Hundred Fifty-one and 65-100 Dollars, and interest, and the taxes, if any, on said premises, and Fifty Dollars, attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated March 21st, 1907.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Nine Hundred Nineteen and 32-100 ($919.32) Dollars, which is claimed to be due and is due at the date of this notice upon a certain Mortgage, duly executed and delivered by Samuel W. Lee, a single man, Mortgagor to Swante W. Larson, Mortgagee, bearing date the third day of October 1901, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 10th day of October, 1901, at 11:30 o'clock A. M., in Book 25 of Mortgages, on page 308,

Which said mortgage, together with the debt secured thereby, was duly assigned by said Swante W. Larson Mortgagee, to Merchants State Bank of Red Lake Falls, Minn., by written assignment, dated the 24th day of January, 1907, and recorded in the office of said Register of Deeds, on the 12th day of April, 1907, at four o'clock P. M., in Book 15 of Mortgages, on page 372, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof;

NOW THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: The Northeast quarter (ne¼) of Section twenty-six (26), in Township one hundred fifty-two (152), north of Range forty-four (44) West of the Fifth Principal Meridian. Containing one hundred and sixty acres, more or less, according to the United States Government survey thereof, in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the Sheriff of said Red Lake County at the West front door of the Court House, in the City of Red Lake Falls, in said County and State, on the first day of June, A. D., 1907, at 10 o'clock A. M., of that day at public vendue, to the highest bidder for cash, to pay said debt of Nine Hundred Nineteen and 32-100 Dollars, and interest, and the taxes, if any, on said premises, and Twenty-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated April 17th, 1907.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of ninety-seven and 50-100 dollars, ($97.50) interest due November 26, 1905, and the further sum of ninety-seven and 50-100 dollars, ($97.50) interest due November 26, 1906, and in the payment of taxes for the years 1904, 1905 and 1906 all which is now due, upon a certain mortgage, duly executed and delivered by Odilion Gauthier and Marie Gauthier his wife, Mortgagors, to the Edinburgh American Land Mortgage Company, Limited, Mortgagee, bearing date the 26th day of November, 1904, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake, State of Minnesota, on the 14th day of December 1904, at 11:30 o'clock A. M. in book 14 of Mortgages, on page 552; which said mortgage was given to secure payment of the sum of fifteen hundred dollars and interest, upon the premises hereinafter described:

And Whereas, said mortgage provided as one of its conditions that in case of failure to pay any part of the interest upon said debt when the same becomes due, or to pay any taxes levied upon said real estate before the same becomes delinquent, the whole sum of money or indebtedness thereby secured shall at once become due and payable, and by reason of the defaults hereinbefore mentioned, the said the Edinburgh Land Mortgage Company, Limited, Mortgagee, chooses to declare, and hereby does declare the whole debt secured by the aforesaid mortgage due and payable, and there is now due and claimed to be due at the date of this notice upon said mortgage the sum of seventeen hundred forty-two and 65-100 dollars, ($1742.65), principal and interest, and the further sum of $50.71 taxes paid on said premises by said mortgagee; and no action or proceeding having been instituted at law or otherwise, to recover the debt secured by said mortgage or any part thereof;

Now, Therefore, Notice is hereby given that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

North half of Northeast quarter (n½ of ne¼) and North half of Northwest quarter, (n½ of nw¼) of section twenty-three (23), in township one hundred fifty-one (151), North, of Range forty-two (42) west of the 5th principal meridian for Minnesota, in Red Lake County and State of Minnesota; with the hereditaments and appurtenances: which sale will be made by the Sheriff of said Red Lake County, at the west front door of the courthouse in the City of Red Lake Falls in said county and state, on the

25th day of May, A. D., 1907

at ten o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt, of $1742.65, and $50.71 taxes, and seventy-five dollars attorney's fees as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the date of sale, as provided by law.

Office Hours:
Monday 11 a. m. to 8 p. m. Tuesday, 9 to 10 a. m.

FREE

This Institute in order to introduce their new Medical Discoveries and X-Radium System, sends at its own expense these eminent specialists to give to those who call on the above date, consultation, examination, advice and all medicine required to complete a cure, absolutely free.

These specialists will diagnose your case and give you the benefit of their medical knowledge. There is no experimenting or guess work. You will be told whether you can be cured or not. If your case is curable, they treat you; if incurable they will give such advice as may prolong your life.

Their treatment gives quick relief and positively cures. Being prepared to suit each individual case, the human system is thoroughly cleansed of the disease in a natural and direct manner and improvement is noticed at once; even the worst cases are treated without any inconvenience to the patient or the pursuing of his daily vocation. If you are improving under your family physician do not come and take up their valuable time. They wish to give each one plenty of time, but cannot listen to long stories not pertaining to your case.

They have discarded the old remedies used for ages by the medical world, and which it would be folly to depend upon any longer, for they do not cure, as thousands die depending on them for relief.

The fact that these Specialists have discovered entirely new treatments and natural cures, gives them control of the Nervous System, Heart, Stomach, Lungs, Kidneys, Catarrh, Consumption, Epilepsy, Deafness, Male and Female Weaknesses, Cancers, Tumors, Piles and other Chronic Diseases.

They treat deafness by an entirely new method, and hearing in many cases is restored at once. Catarrh in all its varied forms cured so that it will never return. If you have weak lungs or consumption do not fail to be examined.

All cases treated can and will be cured, no difference who you have seen or treated with heretofore Thousands who have given up all hope of being cured, now have an opportunity to consult specialists of reputation.

Don't fail to call, as a visit costs you nothing and may save your life.

If you suspect kidney trouble, bring a two-ounce bottle of your urine for chemical and microscopical analysis.

REMEMBER:—The free offer is during this visit only and will not be given again. Persons commencing any treatment after this trip will be required to pay, but not one cent will be asked of those commencing treatment during this visit for any medicine necessary to effect a cure; also a positive guarantee to cure will be given to patients accepted under their system of treatment. Those having long standing and complicated diseases, who have failed to get cured and become discouraged, are especially invited to call, as thousands who have given up all hopes can testify to permanent cures obtained.

NOTICE:—Married Ladies without their Husbands and Minors without their Fathers, will positively not be admitted to consultation.

Don't Forget the Date.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

VOL. IX—NO. 28. RED LAKE FALLS, MINNESOTA, THURSDAY, MAY 2, 1907. WHOLE NO. 444.

VALUES ARE FIXED

County Assessors Held Annual Meeting Here Last Thursday Afternoon.

The assessors from the various towns, cities and villages of the county met at the court house last Thursday afternoon to fix the schedule of values and talk over the work of the coming assessment.

County Auditor O'Brien was elected chairman of the meeting and Sam S. Haislet secretary.

The matter of fixing a schedule of values to govern the personal property assessment this year was taken up, and the following is the schedule as agreed upon:

Horses, mules and asses—one year old, $25; 2 years old, $40; 3 years old or over, $75; stallions, fine bred mares, race horses, etc., discretion of assessor.

Cattle—1 year old, $10; 2 years old, $17.50; cows, $25; working oxen, $37.50; all other cattle over three years, 40 per cent.

Sheep of all sizes, $2.50.

Hogs of all ages, $2.00 per cwt., valued at $5.00.

Wagons, carriages, sleighs, and bicycles, 40 per cent.

Automobiles and other power vehicles, 40 per cent.

Sewing and knitting machines, 40 per cent.

Watches and clocks, 40 per cent.

Melodeons and organs, 40 per cent.

Piano fortes, 40 per cent.

Household goods and wearing apparel 40 per cent.

Office furniture, 40 cent.

Farm machinery, etc., threshing machines and engines, 50 per cent.

Gold and silver plated ware, diamonds and jewelry, 40 per cent.

Steamboats, sailing vessels, etc., 40 per cent.

Goods and merchandise, wholesale and retail, 50 per cent.

Manufactures, materials and manufactured articles, 40 per cent.

Manufacturers tools, implements and machinery, 40 per cent.

Credits of banks, bankers, brokers, or stock jobbers, etc., 40 per cent.

Moneys of banks, bankers, brokers, etc., 40 per cent.

Moneys other than banks, etc., 40 per cent.

Credits other than banks, 40 per cent.

Bonds and stocks other than bank stock, 40 per cent.

Shares of stock of companies and associations not incorporated in this state, 40 per cent.

Stock and furniture of sample rooms saloons, eating houses, etc. 40 per cent.

Elevators, warehouses and improvements on right of way, 40 per cent.

Dogs over six months old, valued $5 to $25, 40 per cent.

Total value of all other articles of personal property not included in the preceeding items, 40 per cent.

The meeting was very well attended, although several of the north end assessors returned home Thursday morning and did not remain to attend.

The schedule this year was gone over carefully and the aim was to try and fix it so that a just and equal assessment can be made. The state board of equalization last year raised Red Lake county quite heavily, but it is believed that if the schedule arranged this year is closely adhered to there will be great deal better results obtained.

The assessors commence their work May 1, and have until June 24 to get their books in readiness for the town board of review.

Class of M. B. A.'s.

Through the work done by District Deputy Leighton during the last few weeks, the local lodge of the Modern Brotherhood of America will be strengthened by the addition of a large class of new members next Monday evening. The secret work will be given by Mr. Leighton, recognized as one of the leading Brotherhood men in the state. It is desired that a large number of the members be present at the meeting as a first-class time will be had.

Following the work a social dance will be given, for the members only. All are requested to come and bring a lunch and thereby insure the success of the meeting.

Dr. Spofford makes his next regular visit at Red Lake Falls May 7, at the Grand View hotel. He has been making regular visits here now for over a year and his work speaks for itself. Those wishing to have glasses fitted should not miss this opportunity

TWO CENTS A MILE

Travellers In Minnesota Can Go at Less Rate Than Formerly.

The two-cent rate bill passed by the Minnesota legislature this winter went into effect yesterday, and from now on people in Minnesota can ride anywhere within the state for two cents per mile.

The railroads have accepted the new order of things without a murmur and have issued instructions to the agents covering the matter thoroughly.

The new law promises to make some peculiar tangles before the matter of inter-state commerce can be straightened out. Under the new regime the price of a ticket from East Grand Forks to Minneapolis, will be $6.35 and $9.55 from Grand Forks, North Dakota, to Minneapolis, so that crossing the state boundary passengers will save $3.20. The same thing will apply to tickets purchased at any point outside of Minnesota to points within the state as applies at Grand Forks. It will be possible for the inter state passengers to take advantage of the reduced fare by paying cash fare to the inter-state boundary and then purchasing a ticket but if very much of this is done it will force the railroads to make long stops at East Grand Forks, Moorhead and other like places while the passengers get out and buy tickets.

A party desiring to buy a ticket from here to Omaha, unless he pays the old rate, could only buy a ticket as far as St. Paul, or the farthest transfer point and then stop off and have his baggage re-checked. Under no circumstances can the baggage be checked clear through.

In going to Grand Forks, baggage could be checked only as far as East Grand Forks and would have to be rechecked there. The new rate to East Grand Forks is $1.13, and the old rate to Grand Forks is $1.75, so that it will plainly be seen all manner of trouble will result.

According to instructions received the local office here is under no circumstances to base their rate on the sale of passenger tickets to points outside the state on the 2-cent fare basis.

The new rates affect only stations within the state, and until such time as the matter can be regulated through the federal lawmakers there promises to be much confusion.

The new fare makes quite a reduction for travel within the state, however, and the following figures will show what the reduction means. The fare in each case represents from Red Lake Falls to the point mentioned:

	Old	New
Bemidji....	$2 50	$1.68
Crookston...	.97	.64
Duluth....	7 48	5.00
E. G. Forks	1.70	1.13
St. Paul....	8.81	6 61
Minneapolis	8.61	6.41
T. R. Falls.	.51	.35

Evergreens For Sale.

I have a large number of evergreens that I will sell this spring at low prices. Trees from 1 foot to 18 feet in height, 10c to 25c each: gauranteed to grow if planted as per directions; will replace trees that fail. These trees should be set out between now and May 15 and not later. Call on or address Wm. C. L. Demann, Red Lake Falls. 3w

A SUMMER SCHOOL

Four Weeks' Session of Training School for Teachers to Be Held Here.

County Superintendent H. T. McAnulty received word today from State Superintendent Olsen announcing that a four weeks' session of training school for Red Lake county will be held in this city, beginning Monday, July 1, and continuing until July 27.

The corps of instructors will be as follows; C. S Yeager, Fosston, conductor: Marie King, Morris; A. M. Dunton, Fertile; Mary Gardner, Duluth, instructors. These people are all experienced in this line of work, and are generally recognized as among the ablest teachers in the state.

The summer school is an excellent thing for the teachers of the county, and they will no doubt turn out in large numbers to this session.

There was considerable question as to whether Red Lake county would get a summer school at all this year, but the efforts of County Superintendent McAnulty and the citizens here were successful, which is pleasing news to all.

Ralph Is Promoted.

George A. Ralph, the Crookston surveyor, was last week reappointed state engineer by the state drainage board, and has been engaged for the ensuing two years at a substantial increase in salary. Mr. Ralph is moving to St. Paul and will occupy an office in the old capitol building.

Under the new drainage law the commission will have available $100,-000 for state drainage, and it is expected to result this year alone in the placing of drainage contracts that will aggregate $2,000,000. Of the first named amount, $50,000 is for county drainage. For every dollar in aid given by the state the counties must contribute an equal amount. This, with assessments to be levied against benefited property, Mr. Ralph thinks will make available about $300,000 a year for drainage work. In several counties drainage contracts involving over $100,000 each county have already been placed.

Steve Gets Promotion.

Conductor Steve Withey, who has had charge of the Greenbush run the past couple of years, has been given charge of the work at the Great Northern gravel pit at Bagley, a job that pays big, and does not require the work this one does. The Crookston papers announced that William Remshardt was to have charge of this run, but so far this week "Billy" Clark has been the manager of things. The people along this line are sorry to lose Steve, but as long as we get either Clark or Remshardt we will have no kick coming.

Emardville Loses.

Last week the supreme court handed down a decision in the case of E. Pederson vs. the town of Emardville sustaining the decision of the district court and verdict of the jury in the case.

It will be remembered that Pederson sued the township of Emardville to recover for the board of one Samson Helland, a pauper, and that a verdict was awarded him in the municipal court at Thief River Falls and later in the district court at Red Lake Falls.

Wonderful South American Cataract.

The falls of Ignazu, near the meeting place of Brazil, Argentina and Paraguay, seldom visited by foreigners, are among the most wonderful cataracts in the world. They are particularly interesting on account of their greater extent and far more varied character than those of Niagara. It is a well known fact that golden grain belt beer is the ideal table beverage. Take a glass of this delicious beverage before each meal and you will not have to deprive yourself of things you have to eat. Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

DATE IS FIXED.

Graduation Exercises Will Be Held On June 4.

The annual commencement exercises of the Red Lake Falls high school will be held at the Metropolitan opera house on Tuesday evening, June 4. This much has been decided upon, and the class is now at work preparing the program for the occasion.

The COURIER several weeks ago announced the class honors which are as follows, and will publish the complete program as soon as it is announced.

The honors earned are: Valedictorian, Lucy Hunt: salutatorian, Alyce Erickson; class poem and prophecy, Ina Linnihan; class historian, Edna Swanson; orators, Paul Brunelle and Viola Longtin.

Leland Healy has charge of the musical part of the program for the occasion, and this feature will by no means be the least enjoyable.

The Juniors and Alumni have not yet announced their plans for commencement week, but it is highly probable that they will give the usual banquets and receptions for the graduating class.

But four more weeks remain before the close of the term and naturally they will be busy ones for the young people who will finish their school labors.

Star Route Discontinued.

Yesterday marked the termination of the contract between the carrier and the government for the star route between this city and Lambert, and as announced several weeks ago, this route is discontinued at this time. A new route has been established between Red Lake Falls and Terrebonne with Louis Mathew of Terrebonne as carrier for the first two months. The mail will come in from Terrebonne in the morning and and go out in the afternoon, and the free delivery will be continued as formerly between here and there. A two years' contract will be awarded for this work in the near future, and already several bids have been filed asking for the job.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note that it is made alone for Piles, and its action is positive and certain. Itching, painful protruding, or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by all dealers.

BALL TEAM IS SURE

Meeting Saturday Night Largely Attended and Much Interest Shown.

The meeting called Saturday night for the purpose of organizing a base ball team for the coming summer was largely attended and a sufficient amount of enthusiasm was on tap to ensure Red Lake Falls a champion aggregation on the diamond this year.

John J. Padden, one of the most enthusiastic "fans" in the northwest, was chosen as manager of the new team and Ernest Buse was elected to the captaincy.

There is plenty of material to make a strong team, and as soon as weather conditions permit active practice will commence and games arranged. New suits—black with maroon trimmings—have been ordered and are expected in a short time, so that in the first game of the year the boys can come out in their new togs and make a reputation that will be sustained throughout the season.

It has been quite a while since Red Lake Falls had a good ball team and the people should rally to the support of the boys in good shape.

Sorenson Gets New Contract.

A. E. Sorenson, of Lambert, who has so faithfully carried the mail on the Lambert Red Lake Falls star route for the past several years, has been awarded the contract as mail carrier on rural route No. 1 out of Brooks, which commenced operations yesterday. The route is 27½ miles long and covers territory east of Brooks to Lambert, taking the mail for Lambert postoffice also. The new route is quite well populated, and with mail service from Brooks the people out there will get their mail early every day. Mr. Sorenson expects to move to Brooks within a short time to take up his residence. His new contract is a good paying one and the people here are pleased that he landed it.

Artists have no trouble in securing models. The famous beauties have discarded corsets and have become models in face and form since taking Hollister's Rocky Mountain Tea. 35 cents. Tea or tablets. A. L. Reichert.

THE COURIER

JOHN E. KING, Publisher.

RED LAKE FALLS, MINNESOTA

NEWS OF WEEK SUMMARIZED

IMPORTANT EVENTS AT HOME AND ON FOREIGN SHORES BRIEFLY TOLD.

Washington Notes:

The state department received a dispatch announcing the death of George W. Roosevelt, a cousin of the president, at Brussels, where he was consul general.

John W. Yerkes, commissioner of internal revenue, has resigned, and his resignation has been accepted by the president. He leaves the service of the government to enter the practice of law.

For writing an impertinent letter to the president of the United States Charles A. Eckstromer, the Swedish vice consul at St. Louis, has been kicked out of the consular service of his country.

People Talked About.

O. E. Abel, a resident of Iowa Falls, Iowa, since 1855, died at his home, aged eighty-four years.

Through the death of a great-uncle in Norway, C. J. Thoreson of Ellsworth, Iowa, has fallen heir to $250,000.

James Gillett, at one time Bret Harte's mining partner and the original of that author's "Truthful James," died at Sonora, Cal.

Frank M. Thorn, one of the best known lawyers and newspaper writers of Western New York, died at his home near Buffalo.

Mrs. J. Wyman Jones, a sister of the late Marcus A. Hanna of Ohio and widow of a well known mine owner, died in New York.

James Addison Quarles, D. D., LL.D. for the past twenty-one years professor of moral philosophy at Washington and Lee university, died at Lexington, Va.

James M. Welsh of Hornell, N. Y. for the last twenty-five years the supreme treasurer of the Catholic Benevolent association, is dead from appendicitis.

John Sundvall, editor of the Swedish Monitor, was found dead in bed at Sioux City. It is believed that he swallowed wood alcohol and ammonia by mistake.

Mrs. Nancy McClure, mother of Win McClure, a well known railroad Y. M. C. A. evangelist, died at Cedar Falls, Iowa. She was a pioneer of the county and ninety years old.

From Other Shores.

Aaron Frisch, who in June last succeeded Count Solsky as the president of the council of the Russian empire or upper house of parliament, is dead.

The hundredth anniversary of the death of Fragonard, the painter, who was a native of Grasse, France, was celebrated at that place. A monument to the memory of the dead man was unveiled.

Positive assurances have been given by the Vatican to Bishop O'Gorman of South Dakota that the next consistory held by Pope Pius will see the appointment of one and perhaps two American cardinals.

It was announced at Warsaw in the course of police investigations into the recent murder of a physician here by a hired terrorist, it was established that $15 each is the price paid by terrorists of Warsaw for murders.

In consequence of the attitude of the authorities of the Jassy district of Roumania, 2,000 petitions have been presented to the Jewish assistance committee by local Jews asking for means to enable them to emigrate to America.

The Madrid newspapers published a dispatch from Las Palmas, Canary islands, asserting that a whole family there had been poisoned as the result of eating American preserves. Three of its members, it is said, are dead and two are dying.

A terrible tragedy is reported from Leonberg, in Silesia. A miller named Ka zer, who suffered from an incurable malady, killed three of his children during the mother's absence. The man afterward took his own life by shooting himself in the head.

There was a serious mutiny in the prison at Riga, Russia, Saturday. Thirty-three inmates attacked and overpowered the superintendent and the warden of the establishment. Troops were summoned and they fired, killing seven of the mutineers and wounding twelve. Nine soldiers sustained wounds in the affray, which lasted an hour.

Casualty.

The three-year-old daughter of John Rover, living near Victor, Iowa, was fatally burned by falling into a pan containing a mixture of hot water and lye.

Claus Doose, owner of a hotel at Marengo, Iowa, pitched head foremost from the second-story window. He struck on a rock below and lived only a few hours.

Fritz von Sorenson was instantly killed and A. J. Lizee terribly injured by the explosion of a delayed blast on the Billings & Northern grade near Arlington, Mont.

Arthur, the eighteen-months-old child of Napoleon Archambault of Holyoke, Mass., left alone in the kitchen, fell into a kettle of clam chowder and was literally boiled alive.

Latchford, a mining town in the Cobalt district, in Ontario, was destroyed by fire.

The Great Northern flyer for St. Paul was ditched in the city limits of Winnipeg. Although the cars left the track no one was injured.

The schooner Elizabeth Day capsized in Lake Michigan off Pyramid Point during a storm, and is a total loss. The crew of four men left the schooner just before it went over.

Prof. Jackson of the Memorial university at Mason City, Iowa, was dangerously burned by an explosion of gas inside the furnace of his home. It is feared that he may not recover.

Bert Hoskens is lying at the point of death at Clarinda, Iowa, as the result of being thrown from a horse. His head struck against a log with such violence that his skull was crushed in.

An explosion which occurred on the dredger George W. Allen, engaged in extensive work on the Florida East Coast railway, caused the death of two Spaniards and injured eight others.

Eight persons, seven of them members of the family of J. C. Price, were burned to death in a fire when an explosion occurred at Gunter, Tex. The bodies of the victims were burned beyond recognition.

Crimes and Criminals.

Robbers forced an entrance to the State bank at Hazleton, Iowa, blew open the vault with nitroglycerin, secured $4,400 in cash and escaped.

The station of the Kokomo, Marion & Western Traction company at Greentown, Ind., was robbed of tickets, mileage books and money to the value of $1,100.

Percy Janis, brother of Elsie Janis, the young star of "The Vanderbilt Cup," disappeared from the steamer Minneapolis at sea. It is believed that he either fell or jumped overboard.

Harvey B. Hutchinson, former money order clerk at the Peoria postoffice, indicted for embezzlement of $10,000, was sentenced by Judge Otis Humphrey to two years' imprisonment.

In a crowded coach on a Burlington fast train near Burlington, Iowa, Paul Bouvia, nineteen years of age, drank an ounce of carbolic acid and died soon afterward. Despondency was the cause.

George Shambacher, a wealthy real estate dealer of New York, was shot and mortally wounded while in the dining room of his home. His family believe that a burglar, surprised by Shambacher, shot him.

Peter Papas, the principal witness against three Greeks charged with assault at Davenport, Iowa, has disappeared, and the authorities are inclined to the belief that the Black Hand society has made away with him.

Pat Crowe, who is under indictment at Council Bluffs, Iowa, with Arthur Levi for the robbery of two street car crews in the western part of that city, is to be tried May 10. His case, which has been continued from term to term, has now been assigned.

One day in the Anamosa penitentiary was the remarkable sentence passed by a judge in the district court at Davenport, Iowa, upon Samuel Delitt, an eighteen-year-old boy, accused of forgery. Delitt pleaded guilty to the charge, and expressing a desire hereafter to lead an honest life, the judge gave him the lightest sentence possible.

J. H. Edgemont committed suicide by cutting his throat, a mile east of Arlee, Mont. He was walking along the railroad in company with Henry Matt of Arlee, when he drew a pocket knife from his pocket, and before his companion could interfere cut his throat from ear to ear. No cause is known for his act.

General.

David Billington, a professional swimmer, created a new world's record at Sydney, N. S. W., by swimming three-quarters of a mile in 17 minutes and 36 2-5 seconds.

More than 100 millmen at Sioux City, Iowa, have struck for higher wages. The employing millers refuse to meet the demands of the strikers and have put at work a force of nonunionists.

A. Busse was installed as mayor of Chicago at the regular meeting of the city council last week. His inauguration marked the accession of the first Republican mayor to hold the office in twelve years.

A crowd of young people at Bunkirk, Ohio, made up several effigies of the jurors in the Thaw trial who voted for conviction, strung them up and burned them amid cheers of the spectators.

The Cleveland Electric Railway company has reported to the Cleveland city council that the operation of cars at a 3-cent fare, in accord with the city administration's policy, is a losing venture.

The magnificent new headquarters of the United Engineering societies, mechanical, electrical and mining, in Thirty-ninth street, New York, donated and erected by Andrew Carnegie at a cost of $1,500,000, was formally dedicated last week.

An agreement has been reached between representatives of the Lake Carriers' association and the seamen's and firemen's unions. By the terms of the agreement seamen and firemen employed on the Great Lakes are given a 10 per cent advance in wages.

J. A. McCreery, who pledged himself that if elected mayor of Mason City, Ill., he would serve for 50 cents a year, was defeated in the election. The candidates for aldermen who agreed if elected to serve for 25 cents a year each also were defeated.

PRESIDENT HITS BACK AT CRITICS

ACCUSES DEFENDERS OF MOYER AND HAYWOOD OF FLAGRANT IMPROPRIETY.

STICKS TO HIS OPINIONS

INDIFFERENT TO CONDEMNATION OF EITHER CAPITAL OR LABOR.

Washington, April 25.—In a letter addressed to Honore Jaxon, chairman of the "Cook County Moyer-Haywood conference," made public yesterday, President Roosevelt replied to the criticisms of his recent letter, in which he referred to Moyer and Haywood, officials of the Western Federation of Miners, charged with implication in the murder of Former Governor Steunenberg of Idaho, as "undesirable citizens." The president says he regrets any body of men should so far forget their duty to their country as to, by formation of societies and in other ways, endeavor to influence justice and coerce court or jury; that they, not he, are trying to influence justice, and he condemns what he calls their flagrant impropriety in the matter.

No Opinion on Guilt.

He says that he indicated no opinion as to their guilt of the Steunenberg murder, but that it was a simple absurdity to suppose that because a man is on trial he is free from criticism as to his manner of life. He said he might as well be accused of trying to influence the suits against Harriman, some of whose friends had also criticized him. He said that Moyer and Haywood stand as representatives of those who habitually appear as guilty of incitement to or apology for bloodshed and violence. He added that he was profoundly indifferent to the condemnation of him for his criticisms of the undesirable types of citizens, regardless of the power of either labor or capital.

BARGE LOST WITH 14 ABOARD.

Lumber Craft Bound for Two Rivers Wrecked on Lake Michigan.

Manistee, Mich., April 25. — The wooden lumber barge Arcadia, which left this port April 12 for Two Rivers with a cargo of hard wood, has been lost in Lake Michigan with her captain and owner, Harry May, and about thirteen others. Marine men here would not be surprised to hear that her wreck was caused by a boiler explosion. Some hold the theory that she went down as the result of the big storm of April 14.

While it has been impossible to learn absolutely how many persons were on the wrecked barge, it is generally believed that the number was between ten and fifteen, with a majority of the reports agreeing on fourteen.

Fierce Storm Raged.

The Arcadia left Manistee April 12. April 13 and 14 Lake Michigan was swept by such a severe storm that navigation was almost completely tied up. It was during this storm that the Arcadia probably was lost. Wreckage was sighted four miles off Ludington, in the direct course to Milwaukee immediately after the gale, but until the bulwarks bearing the steamer's name washed ashore yesterday it was impossible to identify the wrecked craft.

M. & S. L. TARIFF KNOCKED OUT.

General Passenger Agent Sends Instructions From Washington.

St. Paul, April 25.—The Minneapolis & St. Louis block 100 tickets offered for $600, which have been a disturbing factor among the St. Paul-Chicago lines for several weeks, are now definitely off the market. A. B. Cutts, general passenger agent of the road, sent a telegram from Washington yesterday giving instructions that the tariff be withdrawn. No explanation is given as to the withdrawal, but it is stated that the interstate commerce commission has declared the issuance of the tickets illegal, on the supposed grounds of discrimination.

KING NABBED IN CHICAGO.

President of Scotland, S. D., Bank Captured by Federal Marshals.

Chicago, April 25.—Charles C. King, president of the First National bank of Scotland, S. D., was arrested here by United States marshals. King was recently indicted by the federal grand jury in South Dakota on charges of having misapplied the funds of the bank and of having issued certificates of deposit in his own favor amounting to $95,000.

Four Swept to Death.

Raleigh, N. C., April 25—Swept over the falls, four men were drowned in Cape Fear river yesterday at Buckhorn Falls. The men were coming from the river in a naphtha launch which was caught in the current and carried over the falls.

Ptomaine Poisoning Is Fatal.

Charlotte, N. C., April 25.—As the result of ptomaine poisoning two members of the family of S. Jordan are dead and all the others of the family are suffering from the same cause.

LAW MILL WINDS UP BUSINESS

WORK OF LEGISLATURE COMES TO CLOSE IN RIOT OF HILARITY.

St. Paul, April 24.—After an evening of riotous proceedings the house of representatives of the Minnesota legislature closed its work last night. The senate turned back the clock and worked on until long after midnight. To-day both bodies will meet to correct the journal and adjust affairs among members and will adjourn at noon. According to the constitution the time for passing bills ended at midnight.

The disorder in the house started in the afternoon, when the anti-pass bill was on its final passage. Members began throwing spitballs and paper wads at each other and started a general confusion. Not half the members were in their seats, but gathered in the aisles and corners talking so loud that it was next to impossible for the clear voice of Reading Clerk J. T. Jones to be heard. The speaker called them to order repeatedly. He pleaded with them to take their seats and do business. "You are acting worse than schoolboys," he shouted.

The disorder was kept up during the entire evening.

In the Senate.

The senate passed the omnibus appropriation bill after amending it as it came from the house by adding various items amounting to about $94,000. The bill as reported to the house by the committee carried appropriations of $11,500,000. The house added net additions of about $36,900. The senate made few changes in the house amendments, the notable one being putting back the appropriation for a power plant at the state fair grounds, which the house cut out. An effort to cut down the appropriation for a capitol approach failed.

The house last evening agreed to the senate amendments without much discussion. The state tax levy was increased from 1.5 mills to 1.7 mills.

The report of the conference committee on the tax commission bill was adopted by the senate yesterday and the bill as amended was passed.

The bill providing for a special tax to raise $700,000 for the state university in the next four years for the purpose of acquiring additional buildings was passed by the senate in the form in which it came from the house. Senator Schaller withdrew his amendment appropriating $75,000 for a ladies' dormitory and announced that a wealthy Minneapolis citizen, whose name he was not at liberty to use, would build the dormitory.

The senate passed the house bill covering back into the treasury $35,000 of the $50,000 recently appropriated as a contingent fund for the attorney general to enable him to employ special counsel to assist in fighting the freight rate cases pending in court. The announcement of the railroads that they would accept the freight and passenger rates fixed by the legislature made the fund no longer necessary.

In the House.

The house spent some time yesterday repassing house bills which had been amended by the senate. The drainage bills were passed. There were four of them, a bill for a judicial system, a bill for a state system, a bill amending the county system and a bill providing for an increase of the price of state land to cover the cost of drainage. They will all become law.

The municipal ownership bill was passed. It is intended to facilitate the acquisition of public utilities and permits the issuance of certificates of indebtedness which are a lien on the property only instead of a mortgage on the whole city.

On recommendation of the conference committee the house accepted the senate amendments to Speaker Johnson's sleeping car tax bill. The bill now provides for a gross earnings tax of 4 per cent, with the option of an ad valorem tax.

The hotel inspection bill passed the house.

The stock train bill received its finish in the house yesterday when a motion for indefinite postponement went through by an overwhelming vote.

The bill requiring deaf and dumb children to attend the school at Faribault, which was defeated in the house Saturday, was reconsidered yesterday and passed.

The game and fish bill was amended to require license of hunters only when outside of their own counties and then passed.

An anti-pass bill, effective Jan. 1, 1908, was reported by the conference committee and passed in the house. The bill embodies the essential features of the bill passed by the senate last week, except that the house provision for free transportation for members and employes of the state railroad commission is left in the bill.

The bill proposing a constitutional amendment by which the state may go into the hail insurance business passed the house last night.

Plague Is Raging.

Madrid, April 25.—According to an evening newspaper the ministry of marine has received a telegram from the captain general at Cartagena saying the plague is raging at that port and that 300 persons have been sent to hospitals.

Jack London Sets Sail.

San Francisco, April 25.—Jack London's sailboat, the Snark, started yesterday for Honolulu, the first port to be touched, on a six-year cruise around the world.

READY TO OPEN JAMESTOWN SHOW

PRESIDENT AND DISTINGUISHED PARTY WILL TAKE PART IN EXERCISES.

ROOSEVELT TO PRESS BUTTON

REVIEW OF WARSHIPS AND SOLDIERS AND SAILORS—PRESIDENT TO TALK.

Washington, April 27. — President Roosevelt, members of his family and a party of friends, left yesterday afternoon aboard the yacht Mayflower for a visit to the Jamestown exposition. They are to return Sunday morning.

The congressional party, comprising a joint committee of the senate and the house and their families, preceded the presidential party yesterday morning. Secretary and Mrs. Metcalf and other members of the cabinet left earlier in the afternoon on the United States steamship Dolphin, and the diplomatic corps, whose members are to be the guests of the Jamestown tercentennial commission, followed last night.

Take an Important Part.

The president will take an important part in the opening of the exposition and the exercises incidental thereto, which are to begin soon after he arrives at Hampton Roads to-day. In the morning there is to be the review of the assembled men-of-war and the reception of the flag officers and commanding officers of the foreign ships. At half past 10 the president is to leave the Mayflower and go to the reviewing stand, where a

Program of Exercises,

including the addresses of President Tucker of the exposition and of President Roosevelt and the pressing of the gold button opening the exposition, are to take place. In the afternoon there is to be a lunch to the president and his party, review of a parade of the soldiers and sailors and the national guard and a reception to the president.

IS SHORT $92,000.

Woonsocket Electric and Power Company Is Robbed.

Woonsocket, R. I., April 27. — A shortage of about $92,000 in the accounts of the Woonsocket Electric Machine and Power company was revealed yesterday by the issuance to the stockholders of the company of a circular letter announcing that a heavy shortage had been discovered. The letter, which was issued by order of the directors, further stated that the resignation of Levi Cook Lincoln, secretary-treasurer and general manager of the company, had been accepted.

LOEB FOR RAILROAD CHIEF.

Roosevelt's Secretary Slated for President of Railway Concern.

Washington, April 27. — An important change in the control of the Washington Railway and Electric company of this city will occur at the annuel meeting next January. It became known yesterday that a number of local capitalists had purchased a majority of the stock. Simultaneously with this announcement it was rumored that William Loeb, Jr., secretary to the president, had been decided upon for president of the corporation. No one in authority would confirm or deny the story.

SHEDS SKIN; IS DEAD.

Worcester Man Dies From Third Attack of Strange Disease.

Worcester, Mass., April 27.—Norry J. Myott, who was at the city hospital for treatment for dermis exfoliatisa, an unusual and singular disease, which is a shedding of the skin, died yesterday.

Myott, when admitted to the hospital six weeks ago, was shedding his epidermis. This was the third time in his short life that this phenomenon had been noted. Authorities here say it is without precedent in this country.

MARVIN SUSPECT SET FREE.

Deckhand Arrested for Murder of Kidnapped Child Is Released.

Dover, Del., April 27. — Frank H Butler, the steamboat deckhand arrested on the charge of murdering four-year-old Horace Marvin, who disappeared March 4, was released from custody yesterday because of insufficient evidence.

Churches Are United.

Argyle, Minn., April 27.—The Presbyterian and Methodist Episcopal churches have united and organized as the Union Congregational Church society. The society has been formally recognized by a conference of neighboring churches called for that purpose.

Carnegie "Holding His Own."

New York, April 27. — Andrew Carnegie, who has been ill for several days with an attack of bronchitis, was reported yesterday as "holding his own." He probably will be confined to his house several days longer.

Postmostress at Fairbanks.

Washington, April 27.—Katie Huber is appointed postmistress at Fairbanks, St. Louis county, vice Helena Riess, resigned, and Carl B. Ovnes at Syre, Norman county, vice Lars Biorgkness, resigned.

BIG FIRE IN MINNEAPOLIS

WISCONSIN CENTRAL FREIGHT DEPOT DESTROYED—LOSS, $400,000.

Minneapolis, April 27.—Minneapolis was visited with a disastrous fire yesterday afternoon which completely wrecked the large freight depot of the Wisconsin railroad.

The fire was one of the most spectacular seen in the city in years, sweeping through the long building with lightninglike rapidity and sending columns of flames and sparks high into the air to threaten the adjoining property and make the work of the firemen doubly hard. It was only by prompt and efficient work that valuable wholesale houses in the immediate vicinity were not also destroyed.

The fire started about 3:30 in the afternoon and by 5 o'clock the entire building was a total loss, besides several freight cars standing on tracks under part of the depot. Estimates of the loss on both building and freight stored within are varying, but a conservative estimate places the total amount at $400,000.

The flames originated in the dynamo room, where some oil was ignited.

HERDER SHOT ON PLAINS.

Companions Are Bound and Left by Masked Man.

Montrose, Colo., April 27.—While on their way to the sheep range in this county with a large herd from Frisco, Utah, three herders, Grover Cornell, Peter Swanson and A. Swanson, were set upon by seven masked men at Whitewater, Colo. Peter Swanson was shot and mortally wounded and his companions bound hand and foot and left helpless on the prairie. News of the shooting has stirred the cattlemen and sheep owners of this section to high indignation, and a diligent search for the perpetrators of the outrage is being prosecuted.

BANK WALL FALLS OUT.

Half of Structure Falls Into Excavation.

Valley City, N. D., April 27.—About two-thirds of the east wall of the Bank of Valley City gave way and toppled over into the excavation being made for the new Lee & Rushford block.

The cracking of the wall and timbers of the building gave the workmen and the inmates of the bank and the rooms above time to get out.

TOT IS STRANGLED.

Son of Farmer Is Caught in Rope Noose in Revolving Windmill

Elkader, Iowa, April 27.—The two-year-old son of Ole Olson was playing near the windmill tower and was using a small rope. A sudden gust of wind set the wheel in motion and the cord became fastened in it. In endeavoring to free it, the boy got the rope about his neck and the rapidly revolving wheel twisted it so tight that he was strangled to death.

COLLISION AT HANLEY FALLS.

Slippery Tracks Caused a Wreck — Lumber Car Telescoped.

Hanley Falls, Minn., April 27.—Two freight trains collided at the station owing to slippery tracks caused by the snow storm. One engine was badly damaged, several cars of lumber were telescoped and several immigrants were slightly bruised.

PERISHED MISERABLY IN WOODS.

Saloonkeeper Broke From Attendants While Being Taken to Asylum.

Bessemer, Minn., April 27. — John Nordquist, a saloonkeeper at Ramsey, while being taken to a sanatorium for treatment, jumped from the train and escaped.

After two days' search he was found dead under an old log, where he had evidently crawled for shelter.

BOY'S ARM IS TORN OFF.

Menomonie Lad Is Caught in Shafting and May Die.

Menomonie, Wis., April 27.—Walter Green, nine years old, son of William Green, was caught in some shafting which tore his right arm completely from his body and broke his left arm in several places. He is in a critical condition.

JILTED LOVER ENDS LIFE.

Miner Drinks Acid Immediately After Hearing From Sweetheart.

Butte, Mont., April 27.—Half an hour after receiving a letter from the woman he loved telling him that she loved another, James Arthur Cobb, a miner, employed at the High Ore mine, drank the contents of a small phial of carbolic acid and died soon afterward.

New Bank Is Family Property.

Pierre, S. D., April 27. — Another state bank has been launched in the First State Bank of Nunda, which has filed articles of incorporation, with a capital of $10,000. The incorporators are all members of one family, being John Coldon, Rosa Coldon and John W. Coldon, all of Brookings.

Excavate for School.

Bismarck, N. D., April 27.—Ground has been broken for the new government Indian school located on the banks of the Missouri river in this city and buildings are contracted to be finished by Nov. 1.

Elopers Caught.

Oelwein, Iowa, April 27. — Maurice Smith, a former restaurant man of this place, who eloped with Mrs. George Fretig, has been arrested at Rockford. Both Smith and the woman were put under bail.

A MISSOURI WOMAN

Tells a Story of Awful Suffering and Wonderful Relief.

Mrs. J. D. Johnson, of 603 West Hickman St., Columbia, Mo., says: "Following an operation two years ago, dropsy set in, and my left side was so swollen the doctor said he would have to tap out the water. There was constant pain and a gurgling sensation around my heart, and I could not raise my arm above my head. The kidney action was disordered and passages of the secretions too frequent. On the advice of my husband I began using Doan's Kidney Pills. Since using two boxes my trouble has not reappeared. This is wonderful, after suffering two years."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

His Experience as Hamlet.

"How are you getting along?" asked a traveling man of an acquaintance who had gone on the stage.

"Oh, I have met with a share of success. I played Hamlet for the first time."

"Did you get through all right?"

"Yes, except that I happened to stumble and fall into Ophelia's grave."

"That must have been embarrassing."

"It was; but I wouldn't have minded it if the audience hadn't seemed so disappointed when I got out."

SKIN SORE EIGHT YEARS.

Spent $300 on Doctors and Remedies but Got No Relief—Cuticura Cures in a Week.

"Upon the limbs and between the toes my skin was rough and sore, and also sore under the arms, and I had to stay at home several times because of this affection. Up to a week or so ago I had tried many other remedies and several doctors, and spent about three hundred dollars, without any success, but this is to-day the seventh day that I have been using the Cuticura Remedies (costing a dollar and a half), which have cured me completely, so that I can again attend to my business. I went to work again to-night. I had been suffering for eight years and have now been cured by the Cuticura Remedies within a week. Fritz Hirschlaff, 24 Columbus Ave., New York, N. Y., March 29 and April 6, 1906."

Examining Railroad Men's Vision.

According to some new regulations the employes of the railroads in Prussia—which are government property—must have their eye sight tested when they enter the service, again when they enter another branch of work which makes greater demands on the eye sight, and again when appointed to an official position. Besides this, the eye sight must be tested anew every five years, at which time the men are also to be examined for ocular and constitutional affections and also for injuries to the head.

Cricket Players on Skates.

A dozen years ago—the date was Feb. 20, 1905—a cricket match was actually played on Loch Lomond. So keen had been the frost at this particular period that the "Queen of Scottish lakes" was covered with a substantial sheet of ice, and the day in question being favored with bright sunshine a goodly gathering graced the vicinity of the "bonnie, bonnie banks" to witness the novel spectacle of a cricket match on ice.

The wickets were placed on wooden stands fixed to the frozen surface, and all the players were mounted on skates. In bygone times cricket has been played under similar conditions south of the Tweed, but the game above referred to is probably the only one of its kind that ever took place in Scotland.—Glasgow News.

APPENDICITIS.

Not at All Necessary to Operate in Many Cases.

Automobiles and Appendicitis scare some people before they are hit.

Appendicitis is often caused by too much starch in the bowels. Starch is hard to digest and clogs up the digestive machinery—also tends to form cakes in the cecum. (That's the blind pouch at entrance to the appendix.)

A N. H. girl had appendicitis, but lived on milk for awhile—then Grape-Nuts and got well without an operation.

She says: "Five years ago while at school, I suffered terribly with constipation and indigestion." (Too much starch, white bread, potatoes, etc., which she did not digest.)

"Soon after I left school I had an attack of appendicitis and for thirteen weeks lived on milk and water. When I recovered enough to eat solid food there was nothing that would agree with me, until a friend recommended Grape-Nuts.

"When I began to eat Grape-Nuts I weighed 98 lbs., but I soon grew to 115 lbs. The distress after eating left me entirely and now I am like a new person."

(A little Grape-Nuts dissolved in hot water or milk would have been much better for this case than milk alone, for the starchy part of the wheat and barley is changed into a form of digestable sugar in making Grape-Nuts.) Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs "There's a Reason."

THE STATE LEGISLATURE

Transactions in the Senate and House of Representatives.

St. Paul, April 17.—The house yesterday passed the anti-pass bill after long discussion. The bill goes into effect Dec. 31, 1908. Under the terms of the bill passes are prohibited, but a long list of exceptions is tacked to it. The list includes agents, lawyers, surgeons, members of charitable organizations, railroad employes and numerous others. Saugstad, Opsahl and Wold cast the only votes against the bill.

The house passed the bill prohibiting discrimination among communities by the Standard Oil company. The bill provides that no dealer in petroleum shall sell oil cheaper in one community than in another, except to make allowance in quality and for difference in freight. Four negative votes were cast against the bill, E. W. Gates, Thayer, Orne and White.

The bill providing that the location of the county seat may be omitted from petitions for the division of counties was passed by the house.

The tax commission bills, which were a special order for the house yesterday, were laid over until Thursday afternoon.

The house passed the bill transforming the labor bureau into a bureau of labor, industries and commerce, and also the committee bill creating a woman inspector in the department.

The house passed the senate bill creating a state immigration bureau.

In the Senate.

The senate yesterday passed the bill providing for an increase in the salaries of the members of the legislature, with an amendment proposed by the senate committee, which provides that the increase shall not take effect until the expiration of the terms of the present members of the house. The bill makes the salaries of the members of the legislature $500 a year. It also provides that the speaker of the house and the president of the senate shall receive $5 a day during the session of the legislature, in addition to the regular salary. Twenty-two votes were cast against the bill.

The bill providing for the payment of pensions to the citizen soldiers and others who suffered by reason of the Indian massacre in 1862, passed Saturday, was laid on the table yesterday on motion of Senator Peterson. He said that he had been informed that the bill would cost the state about $140,000 a year, and he thought it ought to be investigated before being disposed of.

The bill to regulate the hours of labor of railway employes was advanced to the calendar.

The senate passed the house bill providing for the establishment of a hospital farm for inebriates and authorizing the state board of control to purchase land for this purpose.

The senate killed the bill to provide for the establishment of six agricultural high schools and branch experiment stations.

St. Paul, April 18.—The house yesterday killed the bill providing for the issuance of $250,000 of certificates of indebtedness for improvements at the state fair. There were 38 votes for the bill and 68 against it. The bill was introduced after the bill providing $1,000,000 for a semi-centennial had been killed by the senate. The same arguments that defeated the exposition bill were used to defeat the new bill. The argument was frequently used that the Twin Cities got all the benefit and should therefore stand the greater part of the expense. The bill came up as a special order and was the subject of a long debate.

The house passed the senate file of the bill drawn by the joint committee which visited Wisconsin to formulate a compromise law relating to the fishing in the waters between the two states. The same bill is being passed by the Wisconsin legislature, so there will be no conflict regarding the fishing in the waters of the St. Croix and Mississippi rivers.

The house refused to concur in the senate amendments to the sleeping car tax bill and conferees were appointed.

A bill was passed under suspension of the rules permitting the board of control to borrow 75 per cent of the revolving fund of the state prison instead of 50 per cent as at present. It was explained that the board intends to increase the twine output at the prison and needs more capital to do the work.

In the Senate.

The senate yesterday passed the bill increasing the governor's salary from $5,000 to $7,000 a year. The bill now goes to the governor for signature.

A bill providing for the acquisition and preservation of the buildings erected by H. H. Sibley and Alexander Faribault in the village of Mendota was introduced yesterday. The houses are to be preserved as historical landmarks. The bill carries an appropriation of $5,000.

The senate yesterday refused to confirm the appointment of John Keating of Wabasha to be inspector of boilers and steam vessels for the Third district.

The senate passed the Tighe bill providing for the resubmission of the wide-open tax amendment which was voted on at the last general election and the result of which has been cast in doubt by the recount now in progress.

Senator Nelson's automobile bill was passed after amending it so as to make the maximum speed in cities fifteen miles an hour instead of eight.

The house bill limiting the continuous hours of labor of railroad employes to sixteen was passed by the senate without a dissenting vote.

The senate refused to reconsider the vote by which the Indian massacre pension bill was passed.

The Heron Lake agricultural school and subexperiment station bill was passed in the senate. The section containing the appropriation, however, had been cut out by the finance committee.

St. Paul, April 19.—The house yesterday killed both the bill extending the primary system to state officers and the bill for the election of delegates to county conventions by a primary election system. The two bills were before the house on special order and were discussed at great length. Everybody agreed that the present system is full of faults, yet nobody could suggest a system that would be better for all classes.

The house passed the senate tax commission bill. The house amended the bill so as to give the equalization board power to review the work of the commission. The bill in its present form provides a commission of three members at a salary of $4,000 to be appointed by the governor for six-year terms.

A bill intended to put the Minnesota Shippers and Receivers' association out of business as a political organization was introduced in the house by the special committee which has been investigating that organization. The bill accompanied a report of the committee which set forth that George S. Loftus was in complete control of the political and financial affairs of the association.

The committee appointed to investigate the charges made in connection with the passage of the pure paint bill reported that they were unable to find any ground upon which to base the charges.

The house passed under suspension of the rules a bill to encourage the consolidation of rural schools.

The house yesterday passed the consolidated automobile bill. The bill makes eighteen miles the maximum speed and eight miles the maximum at crossings, on dangerous roads and while passing churches, school houses and postoffices.

In the Senate.

The senate again passed an anti-pass bill yesterday, but it was not the one passed by the house. The senate bill will go into effect upon its passage and will contain only one addition to the list of exemptions from the bill as it was passed by that body the first time. The only addition to the exemptions was that of widows and dependent children of employes of the railroads killed while in its service. There were fifty-six votes for the bill and none against it.

The capitol approach bill authorizing St Paul to issue bonds not to exceed $1,000,000 for the purpose of acquiring the ground and improving a suitable approach to the new capitol was passed in the senate yesterday.

Under suspension of the rules a bill was passed authorising cities of over 50,000 inhabitants to condemn lands to be used for school purposes.

The senate passed the bill to prohibit the employment of children under fourteen years of age in any public labor and to prohibit the employment of children between fourteen and sixteen years during the school year unless they secure permits from the school authorities.

The senate in committee of the whole recommended for passage the bill changing the labor bureau to the bureau of labor, industries and commerce.

St. Paul, April 20.—The girls' training school bill was passed by the senate yesterday as it came from the house, and the bill will now go to the governor for his signature. The bill provides for the location of the girls' training school at some place to be selected by the board of control. The fight on the location of this bill has been probably the hardest and most extended of any of this session. The Red Wing people put up a hard fight for the retention of the girls' school in that city. The Federation of Women's Clubs were persistent in urging their claim that the two schools should not be located in the same city, and they won the fight.

The senate killed the house resolution calling upon the railroad and warehouse commission to investigate the rates charged for transporting ore on the iron range railroads and to reduce the rates, suggesting a cut of 40 per cent as fair. The resolution charged that the range railroads were charging excessive rates and in consequence were earning enormous dividends.

The senate refused to concur in the house amendments to the tax commission bill, and a conference committee was appointed.

The senate passed under suspension of the rules the house bill which provides for the establishment of township consolidated rural schools. The bill relating to bounties for killing wolves was passed. The bill requires the person killing the wolf to cut off the toes of the front legs in the presence of the town clerk.

In the House

The house yesterday passed the bill for the extension of the university campus and the erection of buildings, after cutting the appropriation 30 per cent and cutting out the ladies' dormitory and the dental and pharmacy buildings entirely. The amount provided was cut from $1,000,000 to $700,000, of which $250,000 is to be used for the new engineering building and laboratory, and the remaining $450,000 for the extension of the campus.

The bill for a new fish hatchery at Deerwood was passed by the house yesterday.

The house passed the bill providing for a commission to inquire into the question of adding to the grounds in the immediate vicinity of the captol and to expend any money that may be appropriated later, if any is appropriated. The vote on the bill stood 62 to 49.

Gov. Johnson yesterday signed the last of the insurance bills, and now Minnesota has on its statute books all the recommendations made by the committee of fifteen appointed to look into insurance matters last winter.

The bill giving electric railways the right of eminent domain in cities and villages was killed in the house after its friends had tried to amend it so that the right was in some degree limited. The vote was 38 to 59.

St. Paul, April 22.—The house committee which has been investigating the Great Northern ore deals reported in the house Saturday. The conclusions of the committee are that the ore land lease "melon" was unlawful, and the millions of dollars in ore certificates involved should have been turned in as assets of the Great Northern Railway company, instead of being distributed to the Great Northern stockholders. The committee finds that the ore lands, though bought by the Lake Superior company, were purchased with the Great Northern funds; that the former company is controlled absolutely by the latter, and that only a reasonable dividend should have been turned over to the stockholders, the balance being used by the Great Northern in the interests of the road.

The leaders in the tonnage tax fight got together Saturday and passed two bills relating to the iron ore land. One was the bill defining the ownership of minerals beneath meandered lakes, and the other the new mineral lease law.

The bill requiring deaf and dumb children to attend the state school at Faribault was killed.

The house passed the bill providing for a system of publicity for the prices paid for grain in elevators.

The house passed the bill providing for a fruit-breeding farm.

The bill imposing a license fee of $100 for buffet and dining cars where liquor is sold passed the house.

The bill prohibiting the marriage of cousins was passed.

In the Senate.

The joint road and bridge committee reported the bill cutting up the $400,000 appropriation for the next two years among the counties. The bill was ordered placed at the head of the senate calendar on Monday. The bill designated the places where the money, or a part of it, is to be expended in some counties and in the others it simply specifies the amount the county shall receive.

When the university bill came back from the house Saturday it was amended so as to include the provision for a ladies' dormitory, which was stricken in the house. As amended the bill increases the amount to be raised annually from $175,000 to $194,000. The bill will now go back to the house and if that body does not concur in the amendment it will have to go to conference.

The senate refused to adopt the report of the conference committee on the game and fish law, and a motion to appoint another conference committee was adopted and saved the bill from defeat.

WILL MAKE CONTEST.

Vast Estate of "Silent" Smith Will Be Contested For by Relatives.

New York, April 21.—The immense fortune, estimated at $75,000,000, left by James Henry Smith when he died suddenly in Japan a few weeks ago, while on a wedding tour around the world, may cause a hard legal contest for its possession. More than a score of Smith's relatives have reached a determination to insist upon a division of the estate.

Embezzlement Is Charged.

Muskogee, I. T., April 21. — Lyman K. Lane, former financial clerk for the United States Indian agent, has been indicted by the federal grand jury, charged with embezzling $7,800 of government funds.

Jumps to Her Death.

Boston, April 21. — Miss Mary E. Tomlinson committed suicide here yesterday by jumping from a window in an upper story of the Parker house. It is believed that she was demented.

Bonfire Kills Widow.

Dubuque, Iowa, April 21.—Mrs. Johanna Frenzel, an aged widow, was burned to death yesterday while cleaning up rubbish in her yard. She started a bonfire, and it is supposed that the wind blew her skirts into the flame, igniting her clothing.

South Carolina Shaken.

Charleston, S. C., April 21.—A slight earthquake shock was felt in Charleston and Summerville at 3:25 o'clock this morning. No damage is reported.

In Minnesota

State News of the Week Briefly Told

Mike Conley was instantly killed by being hit by a falling boulder at Akeley.

: : : :

An unknown man was run over and probably fatally injured by a freight train at Alden. Both legs were cut off.

: : : :

Judge James Oscar Pierce, one of the oldest and best known lawyers in the state, died at Hotel Buena Vista, Mount, Lake Minnetonka.

: : : :

The new city council of Faribault has increased the salaries of all policemen and the drivers of the fire department team $5 a month.

: : : :

Mrs. Elizabeth Timmer, aged seventy-two, was killed by Great Northern Flyer No. 8 at Melrose. She was on her way to early mass, and did not hear the train.

: : : :

The new mayor of Faribault has had the chief of police notify the saloonkeepers that the lid will be on tight, and the closing law will be strictly enforced.

: : : :

The directors of the Canby Creamery association voted to build a one-story 30x60 brick creamery. C. L. Sorenson of Waukegan, Ill., has been employed as buttermaker.

: : : :

W. M. Trkilla and Ernest Kicker of New York Mills pleaded guilty to the charge of selling liquor without a license in the district court at Fergus Falls and paid fines of $60 each.

: : : :

Dr. Elton B. Crowell, the Minneapolis physician who died recently, left a specal request that his body be given to Dr. Aldrich for use in scientific purposes at the university.

• • •

Thomas McDonald was crushed to death in the Hartley mine at Chisholm. He was loading a rock onto a car when the huge mass slipped and fell, catching him beneath it and crushing out his life.

: : : :

According to the census of the population with the new city directory, Red Wing has a population of 9,610. The census shows that the city increased 1,465 since the state census was taken in June, 1905.

: : : :

While running about fifty miles an hour, a Great Northern train was wrecked near Altura. The two rear coaches of the train plunged down a steep embankment. It is reported that three persons were seriously injured.

: : : :

Dr. H. A. La Moure, one of the resident physicians of the Minnesota school for the feeble-minded at Faribault, has been elected as the superintendent of the state school for the feeble-minded of North Dakota at Grafton.

: : : :

Al Smith, a Winnebago barber, was found unconscious near the road three miles south of Winnebago, and he died five minutes after he had been taken into the town. A verdict that death was due to alcoholism was returned by a coroner's jury.

: : : :

Johann F. Kilp, a farmer, was killed while taking a load of cream to a creamery near Le Sueur. On his way up a hill the team became unmanageable, and he was thrown from the wagon, the wheels passing over his head and crushing his skull.

: : : :

W. S. Whitcomb of the state board of health condemned six more horses belonging to W. Quesnel of Clarkfield, making a total of ten lost within the month. As the state reimburses only to the extent of $50 per head, the loss to Mr. Quesnel will be about $1,000.

: : : :

All differences between the striking carpenters and the master builders of Minneapolis were adjusted at a conference of union men and builders recently, and the men will resume work at once. A compromise minimum scale of 42 1-2 cents an hour will be paid all union men.

: : : :

The lifeless form of Mrs. Anna O'Donnell, sixty years old, was found face down in a small pool of water on the West side flats at St. Paul. Death is believed to have been accidental. The aged woman is thought to have fallen in the pool and was unable to extricate herself.

: : : :

While driving a team of four horses attached to a seed drill on the farm of P. H. Peterson of Litchfield Thomas Burns was thrown by a sudden lurch of the machine among the horses. This startled the animals, and they plunged forward, Burns being doubled up under the drill and his neck broken.

: : : :

Enrollment at the university has passed the coveted 4,000 mark for the first time in the history of the institution. Registrar Pierce announced that the enrollment at present is 4,126. To this number a few more may be added when complete returns from some of the departments are secured.

: : : :

Frank Zerman, a young man about thirty years old, dropped dead in Carl Zuhl's saloon at Browerville. His death is supposed to have resulted from heart failure, superinduced by drink.

WEIGHT AND HEALTH

THIN, NERVOUS PEOPLE NEED THE TONIC TREATMENT.

This Woman Took Dr. Williams' Pink Pills, Gained Thirty Pounds and Has Been Well Ever Since.

How many women—and men too—are suffering from a general decline in health which the ordinary remedies seem unable to check! How many husbands see their wives wasting away, steadily losing health and beauty, and are powerless to help! Consumption and other germ diseases find in these debilitated systems easy prey, for the lowered vitality is unequal to the task of fighting off the infection of these diseases to which most of us are almost daily exposed.

The symptoms indicating the decline which may have results so fatal could scarcely be better described than in the statement of Mrs. William Manley, of 92 Court street, Utica, N. Y. Her case is a typical one. She says:

"For six months after the birth of my baby, I suffered from sick, dizzy headaches, which seemed like a rush of blood to my forehead, just back of my eyes. Some days they twitched so I could hardly see and black spots floated before them. The least exertion brought on this sickness. My appetite was poor and I was often sick to my stomach.

"If I tried to work my feet soon became swollen, paining me terribly. I had sinking spells and grew pale and nervous. I was so thin that I weighed only 95 pounds.

"One day when at the drug store to get headache powders I decided to try Dr. Williams' Pink Pills instead. I soon noticed that my headache was disappearing and my nerves gradually grew stronger. The pills gave me a hearty appetite and I now weigh over 130 pounds. I believe the pills to be the best tonic and builder a woman can take, as they certainly helped me when my condition was critical and I have never been seriously ill since."

The great value of Dr. Williams' Pink Pills lies in the fact that they actually make new blood and this carries health and strength to every portion of the body. The stomach is toned up, the nerves are strengthened, every organ is stimulated to do its work.

If you are ill and the treatment you are taking does not cure you, write for proof of what Dr. Williams' Pink Pills have done in similar cases.

Your druggist sells them or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

At the Butcher's.

"Some venison to-day, ma'am?"

"No, I don't care for it."

"But it's very cheap, ma'am."

"It may be cheap, but venison is deer at any price."

Sure Turn.

"I see be the sarmon this marnin' that Lot's wife looked back and turned into a pillar of salt."

"It may be, but wid me own eyes I see Dennis McGovern's wife look back and turn into a saloon."

BLOOD GETS SOUR.

Every Family Should Make Up This Home Mixture and Take Now.

At this time of year, says a well-known authority, the Kidneys become weak, clogged and inactive, failing to filter out the poisons and acids, which sour the blood, causing not only facial and bodily eruptions, but the worst forms of Rheumatism, Nervous and Stomach troubles, Backache and painful, annoying Urinary afflictions.

It is worth anyone's time now to get from some good prescription pharmacy the following ingredients: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after your meals and at bedtime.

This simple home-made mixture will force the Kidneys to normal, healthy action, so they will filter and strain all uric acid and poisonous waste matter from the blood, and expel this in the urine, at the same time restoring the "full blood count"—that is, 95 per cent. red blood corpuscles—which is absolutely indispensable to perfect health.

His Love.

"George," said she, tragically, "your love is growing cold."

"But, Helen! I protest! It is not so! What can I do to——"

"You might stir the fire, and I'll be warmer."

Famous Book Free.

Every reader of this paper can get free of charge one of Dr. Coffee's famous books which tells of a new method by which persons afflicted with Deafness, Head Noises, Sore Eyes, Failing Sight from any cause, can cure themselves at home at small expense.

Write a letter immediately to Dr. W. O. Coffee, 360 Century Bldg., Des Moines, Ia.

Excused.

Foreman Waterville Hose Company No. 1—Hurry up an' come on, Sil Woolsey's barn's burnin'.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

It's easy to convince the world that you have sense if you have an unusually large number of dollars.

A job on your hands is better than two in your mind.

FIVE
REASONS WHY
CALUMET
BAKING POWDER

has obtained the confidence of the public.

1. It complies with the Pure Food Laws of all states.
2. It is the only high-grade Powder sold at a moderate price.
3. It is not made by a Baking Powder Trust.
4. Food prepared with it is free from Rochelle Salts or Alum.
5. It is the strongest Baking Powder on the market.

$1,000.00 given for any substance injurious to health found in Calumet

Calumet is so carefully and scientifically prepared that the neutralization of the ingredients is absolutely perfect. Therefore, **Calumet** leaves **no** Rochelle Salts or Alum in the food. It is **chemically correct.**

All Grocers are Authorized to Guarantee this.

Calumet Baking Powder costs little. Costs a little more than the cheap, injurious powders now on the market, but is a big saving over the trust powders.

Red Lake Courier

BY JOHN E. KING
SAM S. HAISLET, LOCAL EDITOR

Printed Every Thursday at Red Lake Falls Minnesota

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year in Advance

IF Arbor day is to be observed in a practical manner it might be a good idea to advance the date a couple of weeks, as we have not heard that the observance of the day this year has been a marked success.

THREE RIVER FALLS wants an Elks' lodge, and Karl M. Hansen has been engaged to take the census of the town in order that the required 5,000 inhabitants may be found. This will be easy for Happy, and the leaders up there were foolish at not making the desired mark 10,000, as Karl would have found that number before he quit if they said so.

THE Thorpe bill, having passed both houses of the legislature, was signed last week by Gov. Johnson. This is known as the act to discard private banks in Minnesota. The new law goes into effect April 1st 1908, and allows the private banks of the state that time to adjust themselves to the requirements of the new state banking law.

THERE seems to be a "joker" in the anti-pass bill after all. The first section declares that the provisions ot the bill shall go into effect on January 1, 1908, while the enacting clause places the date at December 31, 1908. There is a question whether or not the conflict of dates will not invalidate the law, and at any rate it will not become effective until the date named in the enacting clause.

THE new tax commission appointed by Governor Johnson meets with universal approval. It is made up of a Democrat, a Republican and a college professor whose political proclivities are uncertain. Messrs. Hall and Lord are well known lawyers whose political and personal probity are beyond cavil. They ought to be able to work out a satisfactory scheme of taxation, and there is great need for a reform in that direction.

THE railroads have decided to accept without parley the two-cent rate fare and commodity rate laws, and both of these measures mean great relief to the people of the northern part of the state, where the distances are "magnificent." The new passenger rate means a saving of six dollars on the round trip to St. Paul or Minneapolis and four dollars to Duluth. On most of the merchandise schedules the new commodity rate makes a decrease of about fifteen per cent.

THE Crookston agricultural school comes in for about $80,000 in the omnibus approprirtion bill. Fifty thousand of this is for the erection of a new dormitory and dining hall, and the increased amount for maintenance will enable the school to hire a number of additional instructors. This school promises to become a great blessing to the farmer boys and girls of northern Minnesota. In passing it might be well to add that the Crookston people owe a great debt to Senator Andy Stephens for his persistent and effective work in behalf of the school.

PRESIDENT ROOSEVELT is entitled to and will receive the plaudits of the people for his stand in behalf of political righteousness, but he is human after all and it is hardly fair to impute to him the celestial virtue of infallibility. His recent action in prejudging Moyer and Haywood, charged with the murder of a former governor of Idaho, was unnecessary and unfair. Under the constitution every man is entitled to the presumption of innocence until proven guilty. The president allowed his prejudice to get the better of his judgment, and he ought to be great enough and fair enough to admit it.

THE Plummer Pioneer takes the following sensible view regarding the county seat removal petition: "On next Wednesday the new petition for the removal of the county seat will be started out among the defenseless people of Red Lake county, and the only way the average voter can dodge it is to get out of the county for the next sixty days. It is a question if the necessary number of signatures can be obtained at this time as the people are pretty well tired of the way the last one was handled. About the only thing the average man can see in signing is that it will furnish a bunch of attorneys with a good paying job for a few years to come, and then if it turns out like it did before the people will be called upon to pay the bills."

THE members of the recent legislature have sacrificed their political ambitions on the altar of public duty. The constitution says that no member of the legislature is eligible to an office the emoluments of which have been raised during the session of the legislature of which he was a member until one year after the expiration of his term of office. This means that no member of the present house of representatives can be a candidate for governor or state auditor until 1910, and no senator is eligible to either of these positions until 1912. This would seem to decrease the Republican gubernatorial field materially, as it is generally understood that three or four of the house members have aspirations in that direction. It is intimated that speaker Johnson has already started a newspaper propaganda. But this isn't all. There is a grave question whether the members of the legislature are eligible to re-election owing to the provisions of the constitution mentioned above.

Of all the fruits there are in the land,
That grow on bush or tree,
I would give up the choicest ones
For Hollister's Rocky Mountain Tea,
A. L. Reichert.

OFFICIAL PROCEEDINGS

Of The Board of County Commissioners of Red Lake County.

Red Lake Falls, Minn.,
March 19th, 1907.

Pursuant to call, the board of county commissioners of Red Lake county, Minnesota, met at the office of the county auditor, at the court house, at ten o'clock a. m.

Present, Commissioners Lindquist, Aubol, Shaw, Pigeon and Demann.

Minutes of the meeting of February 26th and 27th. 1907, read and approved.

On motion duly carried the application for correction and abatement of taxes of Conrad Lajambe was granted, subject to the approval of the state auditor.

On motion duly carried the application for correction and abatement of taxes of Octave Morisette was granted, subject to the approval of the state auditor.

On motion duly carried an auctioneer's license was granted to Daniel Patterson.

On motion duly carried the petition of W. H. Quist et al. for organizing township 154, range 39, was granted and the following order was made:

State of Minnesota, }
County of Red Lake } ss.

Upon receiving a petition of a majority of the male resident freeholders who are legal voters of Congressional Township number 154, north, of range number 39 west, in said county, asking that the same be organized as a new town under the township organization law, to be named "Reiner," we, the county commissioners of said county, did, on the 19th day of March, A. D., 1907, proceed to fix and determine the boundaries of such new town, and to name the same "Reiner" in accordance with said petition, and designate Reiner postoffice as the place for holding the first town meeting in such town, to be held on Saturday, the sixth day of April, A. D, 1907.

The boundaries of said town of Reiner as fixed and established by us are as follows: Beginning at the north corner of southeast quarter of section 12 in township number 154, north of range number 39, west in said county, thence west on the quarter line to the northwest corner of the southwest quarter of section 7, said township and range, thence south on the township line to the southwest corner of the southwest quarter of section 31, said township and range thence east on the township line to the southeast corner of the southeast quarter of section 36, said township and range; thence north along the township line to place of beginning.

By order of the board of county commissioners.

—C. A. Lindquist,
(Seal) Chairman, Board of County Commissioners, Red Lake county, Minn.
Attest: John B. O'Brien,
County Auditor and Ex-Officio Clerk of Board.

Motion made by Commissioner Shaw and seconded by Commissioner Aubol that the employment of additional attorneys by the board was ill advised and unnecessary, and that we recind the resolution passed at the last meeting, appointing F. A. Grady and Chas. E. Boughton as attorneys for this board.

Commissioners voting aye are Shaw and Aubol.

Commissioners voting nay are Demann, Pigeon and Lindquist.

On motion duly carried the following resolution was adopted and made a part of the record:

March 19, 1907.

We, Chas. E. Boughton and F. A. Grady, having been employed by the board of county commissioners of Red Lake county, Minnesota, to cause the judgment entered against said Board in Mandamus Proceedings in District Court April 12th, 1906, to be re-opened, vacated, and set aside and to interpose and answer therein and litigate said action, do hereby agree that there will be no charges for attorneys' fees against said board of Red Lake county for such services, and no expenses or costs of said action to be paid by said county.

Chas. E. Bougnton,
F. A. Grady.

On motion duly carried a recess was taken until one o'clock p. m.

Meeting called to order by the chairman at one o'clock p. m. All members present.

On motion duly carried the following bills were allowed:

On motion duly carried, the board adjourned sine die.

C. A. Lindquist,
Chairman Board of
Attest: County Commissioners.
John B. O'Brien
County Auditor and Ex-officio
Clerk of Board.

Free samples of "Preventics" and a booklet on Colds will will be gladly mailed you, on request, by Dr. Shoop, Racine, Wis., simply to prove merit. Preventics are little candy cold cure tablets. No quinine, no Laxative, nothing harmful whatever. Preventics prevent colds—as the name implies—when taken early or at the "Sneeze Stage." For a seated cold or Lagrippe, break it up quickly with Preventics. Sold by all dealers

NEW LANDS OPENED.

Crookston Land Office Receives Official Notification.

The Crookston landoffice has received official notice from Washington of the opening of the lands in this state which were mentioned in the dispatches some days ago.

Following are the number of acres which will be thrown open in each district: Duluth, 2,666,87; Cass Lake, 6,687,20, and Crookston 229,943,250 acres. It will be seen from this that the land in the Crookston district thrown open is much more extensive than that in the other two districts. The land to pe thrown open in the Crooktton is out almost directly east of Greenbush. It is in the southeast corner of Roseau county and the northwest corner of Beltrami. The conditions under which this land may be taken are the same as that under the old homestead law. $1.25 must be paid per acre for the land and homestead entry and duties must be performed on it before title is granted by the government. it is also subject to the drainage tax. These lands will be opened July 1st at 9 o'clock a. m. in the Crookston land office. The officials state that they do not expect to get any schedules' or lists of land for at least three or four weeks.

Let me send you free, for Catarrh, just to prove merit, a trial size Box of Dr. Shoop's Catarrh Remedy. It is a snow white creamy, healing antiseptic balm. Containing such healing ingredients as Oil Eucaliptus, Thymol, Menthol, etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by all dealers.

It's too bad to see people who go from day to day suffering from physical weakness when Hollister's Rocky Mountain Tea would make them well. The greatest tonic known. 35cents, Tea or tablets. A. L. Reichert.

Mrs. Georgiana Marchand went to Thief River Falls Monday and spent a couple of days looking after business matters.

Mrs. E. W. Chamberlain arrived home Saturday from Tracy, where she has visited with her parents for the past three weeks.

P. B. Gaass has been quite ill the past week with an attack of colitis, but is reported greatly improved at the present writing.

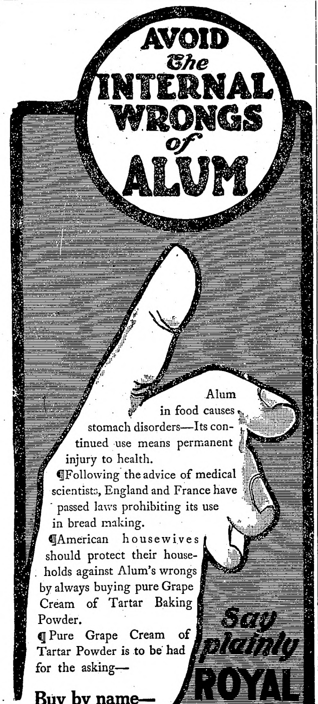
Mrs. Henry Rosch returned to St. Paul Saturday evening, after a month's visit with Mr. and Mrs. Ben Rosch, of this city.

Mrs. E. F. Marshall returned home from the cities this morning where she had spent a week visiting and taking in the grand opera.

County Surveyor J. K. Wood was here a couple of days this week attending to some work in connection with his official capacity.

There will be work in the first and second degrees at the meeting of the Woodmen next Wednesday evening. A large attendance is desired.

John Kehoe came down from Middle River Saturday night and spent Sunday with his family who are visiting at the Con Kehoe home here.



AVOID *The* INTERNAL WRONGS *of* ALUM

Alum in food causes stomach disorders—Its continued use means permanent injury to health.

¶Following the advice of medical scientists, England and France have passed laws prohibiting its use in bread making.

¶American housewives should protect their households against Alum's wrongs by always buying pure Grape Cream of Tartar Baking Powder.

¶Pure Grape Cream of Tartar Powder is to be had for the asking—

Buy by name—

Royal

Say plainly ROYAL BAKING POWDER

All kinds of fresh vegetables and strawberries for Saturday, at Freunds,

Chas. N. Bourdon left last evening for Waubun, Mahnomen county, where he expects to remain several days looking after his banking affairs.

J. B. Armstrong left last evening for a couple of weeks' business trip to the twin cities and Chicago, where he will buy some goods for their new store at Missoula.

Mrs. J. C. Wander and Miss Maggie Wander will leave this evening for Spring Hill, Stearns county, where they will spend six weeks with relatives ank friends.

Mrs. Pat Roark went to Thief River Falls Monday morning and from there returned to her home at Kelliher, after having spent several weeks with relatives in this vicinity.

Cash Brunelle came over from Blackduck this morning for a visit of several days with relatives here. Cash had been at Crookston attending the funeral of Mrs. Brunelle's father.

Sylvan Hall left Tuesday night for Crookston take up his work as pharmacist for the Wallace Drug company, of that place. Mrs. Hall will remain here for a week before joining Mr. Hall there.

Spectator; K. O. Gigstad received the sad news last Monday that his mother was dead and left on for Valders, Wisconsin, to attend the funeral which was held on Thursday, He expects to be gone a week or ten days.

C. O. Kankel, Terrebonne's popular miller, spent Sunday and Monday with his many friends here. Charlie came in to meet Mrs. Kan- who returned Monday from a several weeks' visit with relatives at Fertile and Crookston.

Fred and Otto Zaiser were at Thief River Falls Monday and purchased several head of heavy horses, which they will put at work on the new Soo line near Royalton very shortly. Fred Zaiser will spend most of the summer on the work.

E. J. Lynch, a prominent Equality farmer, spent Sunday in the city. Mr. Lynch has been down to Fargo looking up some railroad work, and returned by the way of Grand Forks. He expects to put several teams at work east of Fargo this summer.

H. W. Ollig, of Winthrop, this state, spent a couple of days looking after his farm in Black River township. He was accompanied by A. E. Erickson of the same place, who will probably invest in some Red Lake county dirt this spring.

John Keifenheim announces that owing to the backward season he will not start the city herd for a week or so yet. John says that the cattle here are unused to a snow diet in May, and therefore will have to be kept at home awhile yet.

A fine new baby girl of standard weight arrived at the home of Mr. and Mrs. G. A. Kankel Tuesday noon, and was given royal welcome. The babe and its mother are doing finely, and Gus—well, the COURIER will let those who know him best judge how high he is stepping.

Arthur Ittner, the presiding genius of Harry Ives' St. Hilaire Spectator office, spent last Wednesday night in the city getting the assessment books and blanks for St. Hilaire village. Art was elected to this office at the spring election and it goes without saying that he will do the work well.

Pat Sullivan, the favorite river boss, has spent the past ten days in this neighborhood. Mr. Sullivan is now engaged in taking down a small drive of logs that have been near St. Hilaire all winter, and has a good-sized crew at work. Pat will hurry this drive through and will later in the season bring down a big drive from the Red Lake country.

Judge of Probate Tarrant went up to Thief River Falls yesterday on a combined business and pleasure trip. Nick has been contemplating visiting Thief River for the past month but waited until May 1 so that he might enjoy the novelty of riding on Jim Hill's steam cars for 2c a mile. Sheriff Nelson went along with him to keep him out of too much mischief.

The firemen received a consignment of new stuff Monday which was ordered for them by the city council a few weeks ago. A new $75 service hose cart, 500 feet of extra quality hose and a bunch of "slicker" coats were received, which will add materially to the equipment of the fire fighters' apparatus. The new cart is one of the latest service carts made, and is an extra good one.

Say girls, if your best fellow, or any other fellow overstays his time when calling on you spring this on him and if he don't "take a tumble" he is too stupid to ever call on you again, says an exchange. Here it is—take any number between one and nine, add one, multiply by nine cross out left hand figure, add fourteen, add the number you started with and then watch the young man's countenance.

Prof. Ball, of St. Paul, was here Monday and exhibited at the school house an immenee art exhibit, consisting of the Collier, Ellson and Prung collection of photogravures and carbon prints for the old masters. The showing was a very fine one, but only a small number of people turned out, and the receipts were very small. Each of the grades were given a fine picture by Mr. Call.

Anton Lizotte, formerly a resident of Louisville, this county, died at his home in Crookston Sunday after a lingering illness. Mr. Lizotte had an operation performed several months ago, when one of his limbs was amputated and he never recovered from the shock to any extent. He has many relatives residing in the county and was well known here.

C. E. Patterson, of St. Paul, spent yesterday in the city a guest of Ed. L. Healy. Mr Patterson and Mr. Healy were former partners in the general mercantile business at Marshall, and the visit was mutually enjoyable. Mr. Patterson is at present general manager of the Motor Transit company of the Twin cities. While here he looked at several pieces of Red Lake county land, and will probably invest in a farm here in the near future.

Thief River Press: County Attorney Germo was called here Tuesday to take up a case brought against August Yonke by his step daughter who charged Mr. Yonke with calling her names to which she took serious exception. After talking the matter over it was amicably settled out of court and Mr. Germo's servicss were not required. Yonke paid all the costs incurred, apologized to the woman and peace and harmony now prevail.

During the past two weeks Nick Drees has drilled several wells in this neighborhood and in every instance secured a good flow of water. Last week he put down a fine well for Mose and Pete Emard, in Gervais, and also one each for Will and Stephen Quesnelle in Terrebonne, striking a fine flowing well at the Will Quesnelle farm. Mr. Drees has had good success with his well drilling work in this vicinity.

The Merchants State Bank has an interesting new ad. in today's paper. The bank has taken up the very good idea of encouraging the farmers to buy cows and hogs, and offers to loan money to responsible parties for this purpose. The countries that are getting into dairy and hog business exclusively are the places where prosperity reigns supreme, and the people of this vicinity can make no better move than to change at once to this more profitable mode of farming.

This is the clean-up season and property owners should make a special effort to get the piles of manure, refuse, etc., hauled out as soon as possible. There is a special reason for Red Lake Falls having clean streets and alleyways this year—as at tournament time thousands of visitors will be entertained here and a town is many times judged by its looks. If the people will unite they can make our city one of the prettiest in the northwest, and as "cleanliness is next to Godliness' there should be a double object. Clean up now.

Dr. J. C. Wilkinson recently received a fine driving mare from W. S. Hart, of Wankon, Iowa. The animal is a high bred one and was considered one of the finest in northern Iowa. She comes from the Wilkes strain and her dam and sire both had fast track records. Dr. Wilkinron has not yet decided whether or not he will track her, but at any rate he has an excellent piece of horse flesh, that will rank with the best of them in Minnesota. P. B. Gaass also purchased a pair of mare colts at the same time, 1 and 2 years old respectively, half sisters of Dr. Wilkinson's mare. He will break them to harness and will have a fine team within a short time.

E. M. Hoff concluded a deal this week whereby he becomes the owner of a large farm in Walsh county county, N. D, near Adams, and C. A. Jenglum and Arne Thompson become the owners of Mr. Hoff's entire strok of general merchandise. The store is closed this week to take an invoice and it is the intention of the owners to open for business next Monday. C. A. Jeglum is here taking the invoice but will not remain. He is the cashier of the 1st National Bank of Adams. M. Jeglum informs us that it is their intention to close out the stock here and that A. Johnson, assistant cashier of the State Bank of Edinburg N. D will have charge of the store as manager. Mr. Hoff has not yet decided what he will do but will remain here for the present.--St. Hilaire Spectator.

The final indoor concert by the Red Lake Falls band given at the Metropolitan opera house last Friday evening was largely attended, despite the disagreeable weather, and a highly enjoyable time was had. The band's work was particularly good and every number on the programme was rendered with a vim. The cornet solo played by Clem Brunelle was clearly the feature of the evening and elicted a hearty applause. Most towns in the country would go crazy with enthusiasm over a home product of Mr. Brunell's equal—and THE COURIER really thinks that this young man's excellent work is appreciated here a great deal more than was shown last Friday evening. At the conclusion of the program Leland E. Healy in a neat little talk presented Messrs. L. P. Berthon and J. B. Armstrong each with a handsome embossed fob locket, as a slight momento of the feeling the band boys have for them. Both gentlemen responded feelingly, and thanked the public and the band boys for the tribute paid them. Following the concert dancing was indulged in for several hours and the entire evening was one of greatest enjoyment to the many people present.

Wanted: Person to travel in home territory; salary $3.50 per day and expenses. Address, J. Alexander, 125 Plymouth Place, Chicago, Ill.

A May Day Festival.

Mesdames S. M. Sivertson, Frank E. Hunt L. C. Simons and J. E. Argue were the hostesses at a delightful afternoon party at the I. O. O. F. hall yesterday from three to six, and some seventy-five ladiss were right royally entertained. The affair was a "Bird's Carnival" and "May Day Festival"—and while the weather man conspired against them and made things resemble a November day instead—nevertheless all else was forgotten by the guests at the hall, but the idea predominent everywhere in the decorations and program. Two contests were engaged in—the first the "bird's carnival" in which names of birds were to be found in tiny verses prepared for the occasion. Mrs. Ovide Emard was the winner of the honors in this contest. In the flower contest Mrs. Theo. LaBissoniere was the winner of first honor. Before the contests and between each one music, recitations and readings were provided, all suggestive of the May day idea. The hall was very elaborately decorated with plants, flowers, and mounted birds, ribbon streamers and Japanese lanterns also being used. At five an elaborate luncheon was served, and ample justice was accorded it. The party was one of the most enjoyable ever held in the city, and the ladies who entertained were paid many compliments by the guests of the occasion.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, the Heart, or The Kidneys. Address me, Dr. Dr. Shoop, Racine, Wis. Troubles of the stomach, heart or kidneys are merely symptoms of deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means stomack weakness always. And the heart and kidndys as well, have their controllin or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, uss Dr. Shoop's Restorative. Write for my free book now Dr. Shoop's Restorative sold by all dealers.

THE BUSY STORE

GARCEAU & ZAISER.

GONE FOREVER.

Ten years ago a farmer put his initials on a dollar bill. The next day he went to the nearest town and spent it with a merchant. Before the year was out he got the dollar back. Four times in six years the dollar came back to him for produce and three times he heard of it in the pocket of his neighbors.

The last time he got it back four years ago. He sent it to a mail order house. He never has seen that dollar since, and never will. That dollar bill will never pay any more school or road tax for him, will never build or brighten any of the homes of the community. He sent it entirely out of the circle of usefulness to himself and his neighbors.

Patronize your local merchant who helps you to pay your taxes, supports your schools and churches, and lends a helping hand in times of sickness and trouble.

Not So Sure.

[illegible] (who rather fancies himself)—I suppose you've been 'round the links with worse players than me, eh? (Caddie takes no notice.)

Golfer (in his loudest voice)—I say, I suppose you've been 'round the links with worse players than me, eh?

[illegible]—I heard verra weel what ye said. I'm just thinkin' aboot it.

PATENTS.

List of Patents Issued Last Week to Northwestern Inventors.

Bella—And I always get to the club first, so as not to be talked about.

DON'T GRUMBLE AT TRIFLES.

Twenty-five Bushels Wheat and Forty-five Bushels Oats Per Acre Are in Western Canada.

Saltcoats, Sask.,
8th December, 1906.

To the Editor.

Dear Sir,

I willingly give you the result of my four and a half years' experience in the District of Saltcoats.

Previous to coming here I farmed in Baldwin, St. Croix County, Wisconsin, and as I have heard a great deal about the Canadian North-West, I decided to take a trip there and see the country for myself. I was so impressed with the richness of the soil that I bought half a section of land about five miles from the town of Saltcoats. I moved on to the land the following June and that year broke 90 acres, which I cropped in 1904, and had 39 bushels wheat per acre. In 1905, with an acreage of 160 acres, I had 24 bushels wheat and 35 bushels of oats per acre. In 1906, with 175 acres under crop, I had 25 bushels wheat and 45 bushels of oats per acre.

From the above mentioned yields you can readily understand that I am very well pleased with the Canadian West. Of course, I have had to work hard, but I don't mind that when I get such a good return for my labor.

To anyone thinking about coming to this country I can truthfully say that if they are prepared to work and not grumble at trifles, they are bound to get on. Some things I would like different, but take the country all round, I don't know where to go to get a better.

Yours truly,
(Signed) O. B. OLSON.

THE FATAL GLOVE.

BY CLARA AUGUSTA

CHAPTER XVI.—(CONTINUED.)

She stopped suddenly, and, rising, was about to leave the room. He took her hand, and closed the door she had opened, leading her to a seat.

"My dear Miss Lee, I do not comprehend you. Explain. If I have ever injured you in any way, it has been the very thing farthest removed from my intentions. Will you not give me a chance to defend myself?"

She blushed painfully; her embarrassment disturbed him, for he was generous to all, and he really felt very kindly toward her.

"I cannot explain," she said in a subdued voice. "I am sorry you came just now. But these slanders anger me, as well as wound my feelings."

"What slanders, Miss Lee?"

Her color grew deeper. Animated by some sudden resolve, she lifted her head steadily.

"I will tell you. Remember that you sought the information. Your coming here has been made the subject of remark, and I have been accused of having schemed to draw you here. You know if it be true."

His face flushed slowly. He recalled the silly stories that had some time before reached his ears. And because of them she had suffered. This woman whose unremitting care had saved his life! How thoughtless and cruel he had been! He was a man of honor; if any woman's reputation had been injured through his means, there was but one course for him to pursue. He must made reparation. And how? For a moment his head whirled, but glancing at the pale, distressed face before him, he made his decision.

"Alexandrine," he said quietly, "you know just what my course has been. You know my lowly origin—you know how life has cheated me of happiness. You know how dear Margie Harrison was to me, and how I lost her. I loved her with my whole soul—she will be the one love of my lifetime. I shall never love another woman as I loved her. But if my name and the position I can give my wife, will be pleasant to you, then I ask you to accept them, as some slight recompense for what I have made you suffer. If you can be satisfied with the sincere respect and friendship I feel for you, then I offer myself to you. You deserve my heart, but I have none to give to any one. I have buried it so deep that it will never know a resurrection."

She shuddered and grew pale. To one of her passionate nature—loving him as she did—it was but a sorry wooing. His love she could never have. But if she married him, she should be always near him; sometimes he would hold her hands in his, and call her, as he did now, Alexandrine. Her apparent struggle with herself pained him. Perhaps he guessed something of its cause. He put his arm around her waist.

"My child," he said, kindly, "do you love me? Do you indeed care for me? Cold and indifferent as I have been? Tell me truly, Alexandrine?"

She did tell him truly; something within urged her to let him see her heart as it was. For a moment she put aside all her pride.

"I do love you," she said, "God only knows how dearly!"

He looked at her with gentle, pitying eyes, but he did not touch the red lips so near his own. He could not be a hypocrite.

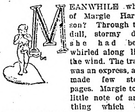
"I will be good to you, Alexandrine. God helping me, you shall never have cause for complaint. I will make your life as happy as I can. I will give you all that my life's shipwreck spared me. Will that content you? Will you be my wife?"

Still she did not reply.

"Are you afraid to risk it?" he asked, almost sadly.

"No I am not afraid! I will risk everything!" she answered.

CHAPTER XVII.



MEANWHILE what of Margie Harrison? Through the dull, stormy day she had been whirled along like the wind. The train was an express, and made few stoppages. Margie took little note of anything which occurred. She sat in her hard seat like one in a trance, and paid no heed to the lapse of time, until the piteous whining of Leo warned her that night was near, and the poor dog was hungry. At the first stopping-place she purchased some bread and meat for him, but nothing for herself. She could not have swallowed a mouthful.

Still the untiring train dashed on. Boston was reached at last. She got out, and stood, confused and bewildered, gazing around her. It was night and the place was strange to her. The cries of the porters and hackmen—the bustle and dire confusion, struck a chill to her heart. The crowd hurried hither and thither, each one intent on his own business, and the lamps gave out a dismal light, dimmed as they were by the hanging clouds of mist and fog. Alone in a great city! For the first time in her life she felt the significance of the words she had so often heard. She had never traveled half a dozen miles before, by herself, and she felt almost as helpless as a little child.

"Carriage, ma'am?" said a hackman, touching her arm.

"Yes," she said, mechanically, and put her hand in her pocket for her porte-monnaie, with a vague idea that she must pay him before she started.

She uttered a low cry of dismay! Her pocket-book was missing! She searched more thoroughly, but it was not to be found. Her pocket had been picked. She turned a piteous face to the hackman.

"My money is lost, sir!" she said, "but if you will take me to a place of shelter, I will remunerate you some way."

"Sorry to be obliged to refuse, ma'am," said the man, civilly enough, "but I'm a poor man with a family, and can't afford to keep my horses for nothing."

"What is it, driver?" queried a rough voice; and in a moment a crowd had gathered around poor, shrinking Margie, and growling, indignant Leo.

"The woman's lost her purse—"

"Oh, ho! the old story—eh? Beauty in distress. Should think they'd get tired of playing that game!" said the coarse voice, which belonged to a lounger and hanger-on at the depot.

"Looks rather suspicious, ma'am, for ye to be traveling on the train alone," began the hackman; but he was interrupted by the lounger.

"That's the way they all travel. Well, thank the Lord, I hain't so gallant as to git taken in by every decent face I see!"

"Thank heaven, I am not so lost to all sense of decency as to insult a lady!" said a clear, stern voice: and a tall, distinguished-looking man swept through the crowd, and reached Margie's side.

"Indeed, I am not mistaken!" he said, looking at her with amazement. "Miss Harrison!"

She saw, as he lifted his hat, the frank, handsome face of Louis Castrani. All her troubles were over—this man was a pillar of strength to her weakness. She caught his arm eagerly, and Leo barked with joy, recognizing a friend.

"I am so glad to see you, Mr. Castrani!"

His countenance lighted instantly. He pressed the hand on his arm.

"Thank you, my friend. What service can I render you? Where do you wish to go? Let me act for you."

"Oh, thank you—if you only will! I was going further, but the train I wished to take had been gone some hours, and I must stay here to-night. And on my way, somewhere, my money has been stolen."

"Give yourself no more uneasiness. I am only too happy to be of any use to you."

The crowd dispersed, and Castrani called a carriage, and put Margie and Leo inside.

"Have you any choice of hotels?"

"None. I am entirely unacquainted here. You know best."

"To the —— House," he said to the driver; and thither they were taken.

A warm room and a tempting supper were provided, but Margie could not eat. She only swallowed a little toast, and drank a cup of tea. Castrani came to her parlor just after she had finished; but he did not sit down. He had too much delicacy to intrude himself upon her when accident had thrown them together.

"I was called here on very urgent business," he said, "and shall be obliged to attend to it to-night, but I shall return soon, and will see you in the morning. Meanwhile, feel perfectly at home. I have engaged a chamber-maid to attend to you, and do not be afraid to make your wants known. Good-night, now, and pleasant dreams."

She was so weary, that she slept some, with Leo hugged tightly to her breast; for she felt a sense of security in having this faithful friend near her. Breakfast was served in her room, and by and by Castrani came up. He spoke to her cheerfully, though he could not fail to notice that some terrible blow had fallen upon her since last he had seen her, gay and brilliant, at a party in New York. But he forebore to question her. Margie appreciated his delicacy, and something impelled her to confide to him what she had not entrusted to the discretion of any other person. She owed him this confidence, for his disinterested kindness.

"Mr. Castrani," she said, quietly enough, outwardly, "circumstances of which I cannot speak, have made it necessary for me to leave New York. I do not desire that the place of my destination shall be known to any one. But to show you how much I appreciate your kindness, and how entirely I trust you, I will inform you that I am going to Lightfield, in New Hampshire, to stop an indefinite length of time with my old nurse, Mrs. Day."

Castrani was visibly affected by this proof of her confidence.

"From me, no one shall ever know the place of your refuge," he said, earnestly. "Your train leaves at ten. It is now nine. If you would only permit me to see you safely to the end of your journey!"

She flushed. He read a quite reproach in her eye.

"Pardon me. I know it may seem like officiousness, but I would try and not be disagreeable to you. I would not even speak to you, if you desired it should be so. But I could travel in the same car with you, and be there to protect you, if you should need me."

"I thank you greatly. But I had rather you went no farther. I shall meet with no difficulty, I think. I shall reach Nurse Day's by sunset."

"As you will. I will not press the matter. Your pleasure shall be mine."

A little later he assisted her from the carriage that had taken her to the depot. Her baggage was checked—he handed her the check, and her ticket, and then pressed into her hand a roll of bank-notes. She put them back quietly, but he declined taking them.

"I do not give it to you—I lend it to you. You can repay me at your convenience."

"On those conditions, I thank you, also."

She put out her hand. He took it, resisted the inclination to press his lips to it, and held it lightly in his.

"If you will give me permission—to call upon you—should I be in Lightfield during your stay there—I shall be more than happy!"

She was about to refuse, but the mute pleading of his eyes deterred her. He had been kind to her, and it could do her no harm. Probably, he would never come to Lightfield, so she gave him the permission he asked for.

The day passed without incident, and nightfall found Margie within ten miles of her destination. She was driven along a rough country road, to a square farm-house—looming up white through the dark—and a moment later, she was lying, pale and exhausted, in the arms of Nurse Day.

"My blessed child!" cried the old lady; "my precious little Margie! My old eyes will almost grow young again, after having been cheered by the sight of ye!" And she kissed Margie again and again, while Leo expressed his delight in true canine style—by barking vociferously, and leaping over the chairs and tables.

CHAPTER XVIII.

NURSE DAY was pleasantly situated. Her husband was a grave, staid man, who was very kind to Margie, always. The farm was a rambling affair—extending over, and embracing in its ample limits, hill and dale, meadow and woodland, and a portion of a bright, swift river, on whose banks it was Margie's delight to sit through the purple sunsets, and watch the play of light and shade on the bare, rocky cliff opposite.

Nature proved a true friend to the sore heart of the girl. The breezes, so fresh and sweet, and clear, soothed Margie inexpressibly. The sunshine was a message of healing; the songs of the birds carried her back to her happy childhood. Wandering through the leafy aisles of the forest, she seemed brought nearer to God and his mercy. Only once had Nurse Day questioned her of the past, and then Margie had said:

"I have done with the past forever, Nurse Day. I wish it never recalled to me. I have met with a great sorrow—one of which I cannot speak. I came here to forget it. Never ask me anything about it. I would confide it to you, if I could, but my word is given to another to keep silent. I acted for what I thought best. Heaven knows if I erred, I did not err willingly."

"Give it all into God's hands," said Nurse Day, reverently. "He knows just what is best for us."

The days went on slowly, but they brought something of peace to Margie Harrison. The violence of her distress passed away, and now there was only a dull pain at her heart—a pain that must always have its abode there.

She held no communication with any person in New York, save her aunt, and her business agent, Mr. Farley, and her letters to them were posted in a distant town, in a neighboring state, where Nurse Day had friends—and so Margie's place of refuge was still a secret.

(TO BE CONTINUED.)

A FAMOUS SOPRANO.

Two Continents Pay Tribute to Ellen Beach Yaw, the Great Singer.

In this closing of the nineteenth century there has dawned a star in the vocal firmanent which eclipses, in birdlike sweetness and phenomenal range all the voices of the past, says the New York World. History will write the name and fame of Ellen Beach Yaw as the greatest soprano singer the world has ever known—greater than Patti—greater than Nilsson—greater than Lind. The American people will find much satisfaction in the thought that Miss Yaw is an American girl: she was born in New York state and the greater portion of her early life was spent in California.

Miss Yaw is a tall, stately girl, whose wealth of blonde hair frames a face that is beautiful and expressive. Her bearing and manner indicate self-possession and are the embodiment of all that is graceful and refined. The beauty and phenomenal range of her voice became apparent some years ago, while under the tuition of Mme. Bjorksten of New York, and under whose guidance Miss Yaw went to Paris and studied with the famous Della Sedie and Bax. It was not until two years ago that her wonderful voice began to attract public attention—and in this brief period she has sung herself into a popularity that has taken others a lifetime to accomplish. Compared with other voices of world-wide fame, the scale stands thus.

Miss Yaw sings without the slightest perceptible effort, from E below the bar to E in the altissimo—a range of twenty-eight tones. Her famous note—the E above high E is five notes higher than Patti ever attained—and the highest note ever voiced from a human throat. Her singing and her methods cannot be likened to those of Patti or Nilsson—there is a distinctiveness and an individuality that has been created by and belongs exclusively to Yaw, who is now engaging the attention of the whole music-loving world.

MADE A DOMESTIC STORM.

Mary's Report Called for Exercise of Much Diplomacy.

"You never can tell what is liable to happen to a chap these days," said a well-known man about town to the Star rounder, while sitting in the lobby of a certain hotel the other evening. The aforesaid man about town is married and has a very pretty home on Columbia Heights. "You see, it makes no difference what precautionary measures a fellow takes to avoid any of those little storms that are liable to come up in one's home despite the predictions of the weather bureau. My wife went to visit some friends of hers out at Hyattsville one afternoon recently, intending to stay three days, with the understanding that I was to join her there on the day before her return home. Well, on the morning of the day I was to go out there she discovered that she had either lost a pretty neck pin I had given her or had left it at home. She thought that she may have left it on the mantelpiece in the sitting room, and being quite anxious about it she called up the house by 'phone. Of course, it was my luck to have come down town, and the call was answered by the maid."

"Mary," said the madame, "did you find anything when you cleaned up the sitting room this morning?"

"Mary's answer," said Mr. Man About-Town, "gave me a jolt that required diplomacy for settlement greater than that in the San Francisco-Japanese school muddle."

"What did Mary say?" asked the Star man, drawing closer to the narrator.

"Why, she told the madame that she found eight corks, three packs of cards and a lot of poker chips on the floor!"—Washington Star.

Honored Gen. Grosvenor.

Gen. Grosvenor, of Ohio, is very proud of an incident which occurred in the closing hours of the last session of congress. Shortly before adjournment Capt. McGrew, chief of the capitol police force, met the venerable Ohio congressman in the rotunda and with every evidence of regret placed him under arrest. "I trust you will come peaceably," he said with great respect, "for I should much regret to use force." The congressman went along, half inclined to be amused, but nevertheless somewhat impressed. The two proceeded to the captain's office, where every member of the police force had assembled. Thereupon Capt. McGrew presented to the congressman a handsome watch and Masonic charm, delivering a pretty little speech. Gen. Grosvenor was visibly affected by the incident and was hardly able to express his thanks. A day or two later the captain received a long letter expressing the general's appreciation.

No Capital People Present.

The visitors' galleries of both the house and the senate are filled from day to day during congressional sessions almost exclusively by visitors of the Washington excursionist type. A veteran Washington correspondent, familiar with the restraint which enables the Washingtonians to remain away from the galleries of congress, won a little bet from a new correspondent a while ago.

He surveyed the crowd of persons in the gallery alongside the press gallery of the house, and then he observed to the new correspondent that there probably wasn't a solitary resident of Washington in the gallery. The new correspondent regarded that proposition as beyond belief. The little bet was made.

The doorkeeper of the visitors' gallery politely inquired of all of the people—124—as they passed out upon the adjournment if they were Washingtonians. There were no Washingtonians in the crowd and the old-time correspondent easily took down the bet.

Secretary Always at Hand.

Henry O. Weaver, private secretary to Secretary Cortelyou, is a veritable fidus Achates to his chief. He has been with Mr. Cortelyou ever since the latter has been a member of the cabinet, first as secretary of the department of commerce and labor, then as postmaster general and now as secretary of the treasury. He accompanies his chief everywhere. Usually they lunch together and frequently at lunch the private secretary is seen to take out his notebook and scribble upon it as his chief talks in a low tone. It is believed that Mr. Cortelyou took from President McKinley the hint of the value of having his private secretary always in easy reach. When Mr. Cortelyou was secretary to Mr. McKinley the president had a habit of talking to him at leisure moments on subjects upon which the chief magistrate was preparing a speech or message and by this method the work of preparation was made less burdensome to both.

Privileged Youngster.

A rather acidulous-looking female called at the White House and requested one of the big policemen to carry her card to the president, as she had business of importance. The officer was explaining that just then Mr. Roosevelt was busy when a sound like an Indian war whoop was heard at the door, through which burst a boy of about seven years. He was on roller skates and after crashing around the room for a minute or so he disappeared. "Outrageous!" exclaimed the elderly party. "Why did you not arrest that boy, officer?" "Madam," gently explained the bluecoat, "that youngster can do anything he wants in this building so far as I am concerned. He can tear it down without any interference from me. His name is Quentin Roosevelt."

The Evolution of Household Remedies.

The modern patent medicine business is the natural outgrowth of the old-time household remedies.

In the early history of this country, EVERY FAMILY HAD ITS HOME-MADE MEDICINES. Herb teas, bitters, laxatives and tonics, were to be found in almost every house, compounded by the housewife, sometimes assisted by the apothecary or the family doctor. Such remedies as picra, which was aloes and quassia, dissolved in apple brandy. Sometimes a hop tonic, made of whiskey, hops and bitter barks. A score or more of popular, home-made remedies were thus compounded, the formulae for which were passed along from house to house, sometimes written, sometimes verbally communicated.

The patent medicine business is a natural outgrowth from this wholesome, old-time custom. In the beginning, some enterprising doctor, impressed by the usefulness of one of these home-made remedies, would take it up, improve it in many ways, manufacture it on a large scale, advertise it mainly through almanacs for the home, and thus it would become used over a large area. LATTERLY THE HOUSEHOLD REMEDY BUSINESS TOOK A MORE EXACT AND SCIENTIFIC FORM.

Peruna was originally one of these old-time remedies. It was used by the Mennonites, of Pennsylvania, before it was offered to the public for sale. Dr. Hartman, THE ORIGINAL COMPOUNDER OF PERUNA, is of Mennonite origin. First, he prescribed it for his neighbors and his patients. The sale of it increased, and at last he established a manufactory and furnished it to the general drug trade.

Peruna is useful in a great many climatic ailments, such as coughs, colds, sore throat, bronchitis, and catarrhal diseases generally. THOUSANDS OF FAMILIES HAVE LEARNED THE USE OF PERUNA and its value in the treatment of these ailments. They have learned to trust and believe in Dr. Hartman's judgment, and to rely on his remedy, Peruna.

The Glory Was His.

Poor Author—I see that that last novel which you sold, and which appeared under your name, has had an enormous success. May I remind you that you promised that I should benefit by it?

Successful Swindler—You forget my friend, that I have not deprived you of the glory of having written it.

No, Indeed.

"Is your wife fond of music?"

"I should say not. She wants me to buy her a phonograph."

Pure! Pleasant! Potent! Three interesting facts about Garfield Tea, the Natural laxative. It is made of Herbs and is guaranteed under the Pure Food and Drug Law.

When a man is getting fat out of the fall of others he is sure to be a warm advocate of their right to be free to fall.

Subsidized.

"Meet me at the old mill at midnight," whispered the villain hoarsely.

"Which one?" queried the sub-conspirator.

"The one where they make Grandpa's Rolled Wheat It Builds You Up," replied the fiend in human form.

"Of course, if we want to get rid of this sort of thing, we will simply have to pay our actors better salaries.

Everybody wants something for nothing, but few people are satisfied with what they get that way.

Instead of sending a friend on a fool's errand, go yourself.

BATH OF BEAUTY

Cuticura SOAP MEDICINAL AND TOILET PRICE 25 CENTS

EMOLLIENT, SANATIVE, ANTISEPTIC, FRAGRANT & REFRESHING, FOR SKIN PURIFICATION, FOR TOILET, BATH, NURSERY, FOR SHAVING AND SHAMPOOING

For Preserving, Purifying and Beautifying the Skin, Scalp, Hair, and Hands.

Cuticura Soap combines delicate medicinal, emollient, sanative, antiseptic properties derived from Cuticura, the great Skin Cure, with the purest of saponaceous ingredients, and most refreshing of flower odors. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney; India, B. K. Paul, Calcutta; So. Africa, Lennon, Ltd., Cape Town, etc.; Boston, 137 Columbus Ave., Potter Drug & Chem. Corp., Sole Props. Mailed Free, How to Preserve, Purify, and Beautify the Skin, Scalp, Hair, and Hands.

THE CANADIAN WEST IS THE BEST WEST

FARMS IN WESTERN CANADA FREE

The testimony of thousands during the past year is that the Canadian West is the best West. Year by year the agricultural returns have increased in volume and in value, and still the Canadian Government offers 160 acres FREE to every bona fide settler.

Some of the Advantages

The phenomenal increase in railway mileage—main lines and branches—has put almost every portion of the country within easy reach of churches, schools, markets, cheap fuel and every modern convenience.

The NINETY MILLION BUSHEL WHEAT CROP of this year means $60,000,000 to the farmers of Western Canada, apart from the results of other grains and cattle.

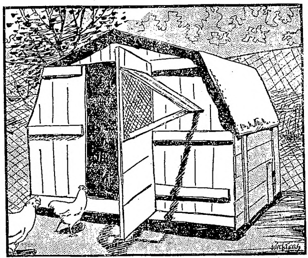
For advice and information address the SUPERINTENDENT OF IMMIGRATION, Ottawa, Canada, or any authorized Government Agent.

CHARLES PILLING, Clifford Block, Grand Forks, North Dakota.

WHAT CAN BE DONE WITH TWO PIANO BOXES

Frank H. Mark, Practical Poultryman, Tells How to Transform Them Into a Good Hen House.

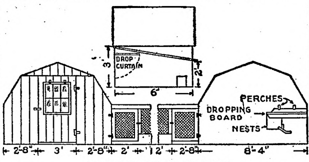
I have built several piano-box houses like the photo the last spring, with the intention of connecting them in pairs in the fall for the housing of winter layers. The demand and sale of stock was so great during the fall that I had ample room for all stock remaining on the farm without adding the scratching sheds, therefore have no photo of completed sheds and have sent plan instead. With the plan and photos I believe the entire scheme will explain itself. While simple in construction it has features better than I have found in any other piano-box house. A single house at the price here of boxes, $1.50 each, and the price of No. 1 lumber for inside furnishings, with the entire inside of house lined with tar paper, costs $6.75; and the double house with scratching sheds costs $18.



Poultry House Made from Two Piano Boxes.

The single house will hold a breeding pen, while in the scratching shed plan, from 25 to 30 layers can be housed in each side, which makes the building cost about 35 cents a head for each fowl housed. The floor space in single house is six by eight feet and every foot is available for the fowls. The dropping boards extend across one side six feet long and three feet wide, made of 12-inch planed boards that are put in separately and can be easily taken out, as they rest loosely on a one by four-inch piece screwed fast to front and back side of building. Two more pieces with notches for perches rest on top of dropping boards and these and perches are set up without fastening.

The nest boxes, five in number, built against the bottom side of the front board of dropping board, are 10 inches deep and 12 wide, being entered from side next to wall. They are dark and are not schools for egg eating; and eggs are gathered from in front by means of a hinged lid, which forms part of what is the back of the nest. The bottom of the nests are 16 inches from the floor and fowls can pass underneath. The scratching sheds are three feet high in front and two feet at back.—Orange Judd Farmer.



Details of Piano-Box Poultry House.

Milking Machines and Their Use

A late bulletin of the department of agriculture gives the results in many dairy herds using milking machines, and as to the cleaning machines, etc., summarizes these as follows:

1. Unless sufficient care is used in cleaning the machines, decaying milk and bacteria accumulate in the rubber tubes and contaminate the milk as it passes through them.

2. The few dairymen now using these machines are not exercising sufficient care in washing and sterilizing the machines to keep them in sanitary condition; their milk is therefore of poorer quality from the sanitary standpoint than that drawn by hand under the same stable conditions.

3. Good sanitary conditions in a stable may be completely counteracted by the insanitary condition of the milking machine.

4. When kept in fairly clean condition the machine-drawn milk contains decidedly smaller numbers of bacteria than the corresponding hand-drawn milk.

5. When the machines are not well cleaned both the number and percentage of acid-producing bacteria are higher than in the hand-drawn milk, but when they are fairly well cleaned both the total number and the percentage of these bacteria are decidedly lower than in the corresponding hand-drawn milk.

6. Both the total number and the percentage of liquefying bacteria found in the milk were in most cases greatly reduced by the use of the machines. This fact is of special significance in milk designed for direct consumption.

7. When properly cared for, drawing the milk by means of the machine increases in keeping quality.

8. Washing the machines with cold water and then with hot water containing sal soda is not sufficient to keep the rubber tubes clean. Under this treatment the inside of the tubes becomes coated with decaying milk, thus forming ideal conditions for the multiplication of various species of bacteria.

9. Scalding the machines by pumping boiling water through them just before use had little or no effect in reducing germ content of the milk.

10. Boiling in clear water for three-quarters of an hour was not sufficient to keep the rubber tubes in a sterile condition.

11. Subjection to steam without pressure for 30 minutes was not sufficient to sterilize the rubber tubes.

12. Placing the rubber parts in brine for several hours after being washed reduced the germ content of the machine-drawn milk to about one-half that of the milk drawn by hand.

13. Boiling in water containing a small amount of powdered borax had about the same effect in reducing the bacterial content of the milk as did the brine treatment, but the use of borax is dangerous unless extreme care is exercised.

14. The machines may be very effective in the production of sanitary milk if they are properly cleaned and sterilized.

15. The results of these experiments indicate that the machines may be kept in such an insanitary condition that the keeping quality will not be improved, but may be seriously impaired. They also indicate that with properly cleaned and sterilized machines the keeping quality of the milk may be very materially improved.

The Profitable Hog.—When one casts a glance over the prices of hogs during the past year, he is forced to the conclusion that no more attractive piece of property can be shown on a farm than a good breeding sow with a litter of curly-tailed pigs running after her. Hogs are being consumed faster than they can be grown, though the hog is one of the most prolific of quadrupeds.

Nest Egg Not Needed.—The old notion that a nest egg was needed to induce a hen to lay is merely one of the poultry superstitions. They cut no figure whatever in influencing the hen and were long ago discarded on all the large poultry farms.

The Well-Bred Animal.—A well-bred animal of any sort is a machine for utilizing raw products to the best possible advantage. It does this with less waste and consequently more profit than a scrub can.

Use Milk.—Use milk to mix the soft feeds with instead of water and it will give better results.

Water the Eggs.—Give the hen plenty of good clean water to drink. A large percentage of the egg is water.

FUNERAL OF INDIAN CHIEF.

Last of the Pottawatomies Laid to Rest With Unique Ceremonies.

The "Last of the Pottawattomies" is gone, and probably never again will the members of the tribe see a characteristic tribal funeral. Kack-Kack was buried last week with all the honors due to his age and condition. The tribal ceremony used had not been employed before for many years, and it is likely it never will be again. The body lay, or rather sat, in state from the time of his death until the funeral. Immediately after death it was placed in a sitting position so it would stiffen. It was then put in one corner of a room in his home. Here the funeral services began Sunday afternoon, to end Monday afternoon at the grave, which is in his front yard.

After the coffin, which was a square box had been made, the body was dressed in moccasins and leggings much beaded, being left bare from the waist up, except for much paint of many colors. A 2x4 scantling was placed across the top of the box, on which the chin rested to keep the body upright. The funeral feast was prepared Sunday and consisted of two hogs and ten turkeys cooked together with whole corn boiled with it. "Squaw bread" was also made in large quantities and other delicacies furnished were pies, cake, canned blackberries, dried peaches, tea and coffee.

This feast was spread upon the floor and all present, including the white people, were expected to partake of it. A long grace or prayer was said before eating and the peace pipe was smoked. The first feast was held on Sunday and another one at the house Monday, followed by one at the grave. Monday afternoon the box containing the body was taken to the grave, which was a hole only a foot deep, intended only to steady the coffin. The box was placed in here and a peaked top was put on with holes bored in it to furnish air. Kack-Kack's cane and arrows were buried with him.

His possessions were then all given away to his friends after the lengthy funeral orations had been given. His bereaved wife, who is nearly as old as he was, presided over the distribution. No tomtoms were beaten during the ceremonies, and from the time they began until he was left in his long home not a drop of liquor was drunk. Any one who knows the Indian character will understand that this was the supreme testimonial to the respect in which the memory of the dead chief is held.—Holton (Kan.) Recorder.

STORIES OF "SUNSET" COX.

Witty Resolution Offered During a Debate on the Tariff.

Cox was an uncompromising free-trader and one of the most interesting figures to congress. A graduate of Brown, he had first taken part in public life as the editor of the Statesman of Columbus, O. Here at the very start he earned his sobriquet of "Sunset Cox" by an editorial, which went all over the country, "A Great Old Sunset" it was called. It opened, "What a stormful sunset was that of last night! How glorious the storm and how splendid the setting of the sun."

His popularity sent him to congress in 1857. In 1866 he removed to New York city, which at once sent him back to congress as one of its representatives. The spirit and wit Cox could infuse into a tariff debate can only be understood by reading the Congressional Record. Perhaps his most successful sally at his opponents in this congress was his resolutions against free sunshine—made when there was a fight on against lowering the duty on coal:

"Resolved, That all windows, skylights, inside and outside shutters, curtains and blinds shall be permanently closed, as also all openings, chinks, clefts and fissures through which the light and heat of the sun have been allowed to enter houses to the prejudice and injury of meritorious miners and dealers in gas coal to protect domestic industry."

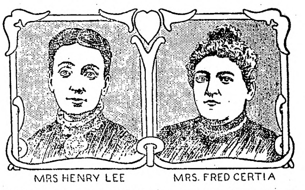
"For the sun is a foreigner," explained Mr. Cox. "He comes from abroad and we must shut out out light of the sun in order to gratify these Pennsylvania gentlemen who have a monopoly of this article of coal."—American Magazine.

The Best Dressed Man.

Of course, the best dressed man in the world is the English gentleman. If you enter the royal inclosure at Newmarket or visit the lawn at Goodwood on the day of a classic race; if you attend a fashionable orchid or horse show when some great personage presides, you will hardly see any one dressed otherwise than perfectly. But take the hurrying passengers in the city, on the street cars, trains or 'busses, go freely among the men in the street, and you will share the convicion I have arrived at—namely, that the American is in general dressed more stylishly and in better-fitting and better-cut clothes.

The Photograph Was Enough.

It is said that just before Mayor Sherwood went to Washington to see the president in regard to being reappointed postmaster at Okeene, he remarked to a friend: "I'm going up there, drink a glass of wine with the president and eat the glass. This will assure me of reappointment." Sherwood submitted his proposition to the president, who said: "That is not necessary, major. From a photograph of you sent me by a mutual friend I am thoroughly convinced that you can perform the feat." And Guun got the postoffice.



THE CHANGE OF LIFE

Sensible Advice to Women from Mrs. Henry Lee, Mrs. Fred Certia and Mrs. Pinkham.

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

This is the most critical period of her whole existence and every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition or she is predisposed to apoplexy or congestion of any organ, the tendency is at this period likely to become active and with a host of nervous irritations make life a burden. At this time also cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, melancholia, dread of impending evil, palpitation of the heart, irregularities, constipation and dizziness are promptly heeded by intelligent women who are approaching the period of life when this great change may be expected.

Mrs. Fred Certia, 1014 So. Lafayette Street, So. Bend, Ind., writes:

Dear Mrs. Pinkham:—

"Lydia E. Pinkham's Vegetable Compound is the ideal medicine for women who are passing through Change of Life. For several months I suffered from hot flashes, extreme nervousness, headache and sleeplessness. I had no appetite and could not sleep. I had made up my mind there was no help for me until I began to use Lydia E. Pinkham's Vegetable Compound, my bad symptoms ceased, and it brought me safely through the danger period, built up my system and I am in excellent health. I consider Lydia E. Pinkham's Vegetable Compound unsurpassed for women during this trying period of life."

Mrs. Henry Lee, 60 Winter Street, New Haven, Conn., writes:

Dear Mrs. Pinkham:—

"After suffering untold misery for three years during Change of Life I heard of Lydia E. Pinkham's Vegetable Compound. I wrote you of my condition, and began to take Lydia E. Pinkham's Vegetable Compound and followed your advice, and to-day I am well and happy. I can now walk anywhere and work as well as anyone, and for years previous I had tried but could not get around without help. I consider your medicine a sovereign balm for suffering women."

Women passing through this critical period should rely upon Lydia E. Pinkham's Vegetable Compound. If there is anything about your case you don't understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is free and has guided thousands to health.

When a medicine has been successful in restoring to health, actually thousands of women, you cannot well say without trying it, "I do not believe it will help me." It is your duty to yourself and family to try Lydia E. Pinkham's Vegetable Compound.

Reason to Be Grateful.

"I would like to get off early this afternoon," said the clerk, "as my wife wants me to beat some carpets."

"Can't possibly do it," said the employer. "We're too busy."

"Thank you, sir."

BAD BLOOD
THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

Sheriff's Sale.

State of Minnesota, County of Red Lake, ss.—District Court.

First State Bank of Brooks, Plaintiff,
vs
Tolof Torgeson, Defendant.

Notice is Hereby Given, That by virtue of an execution to me directed and delivered, and now in my hands, issued out of the District Court, Fourteenth Judicial District, State of Minnesota, in and for the County of Red Lake, upon a Judgment rendered in said Court in favor of First State Bank of Brooks, the above named plaintiff, and against Tolof Torgeson, the above named defendant, I have levied upon the following described real property of said defendant, towit:

The East Half (E½) of the West half (W½) of the Southeast quarter (SE¼), and the East half (E½) of the Southwest quarter (SW¼) of the Northeast quarter (NE¼), all in Section Six (6), in Township One Hundred and Fifty (150) North of Range Forty-one (41) West, in said Red Lake County and State of Minnesota, and that I shall on Saturday, the 15th day of June, 1906, at the hour of two o'clock p. m. of said day, at the west front door of the Court House, in the City of Red Lake Falls, in said County and State, proceed to sell all the right, title and interest of the above named defendant in and to the above described property, to satisfy said judgment and costs, amounting to One Hundred and Seventy Dollars and twenty-four cents, together with all accruing costs of sale, and interest on the same from the 8th day of March, A. D. 1907, at the rate of six per cent. per annum, at public auction, to the highest bidder for cash.

LEWIS A. NELSON,
Sheriff of Red Lake County, Minnesota.
by BENDIX ISAACSON,
Deputy.

Dated, Red Lake Falls, Minnesota, April 30th, 1907.

Notice of Expiration of Redemption.

State of Minnesota, County of Red Lake, ss. Office of County Auditor

To James E. Ford, Red Lake Falls, Minn.

You are hereby notified that the following described piece or parcel of land, situated in the county of Red Lake, State of Minnesota, and known and described as follows, towit:

Lot numbered 20 in Block numbered 15, of Champagne & Dow's Addition to Red Lake Falls is now assessed in your name; that on the 11th day of May, A. D. 1903, at a sale of land pursuant to the real estate tax judgment, duly given and made in and by the District Court in and for said County of Red Lake on the twenty-fifth day of March, A. D., 1903, in proceedings to enforce the payment of taxes delinquent upon real estate for the year A. D., 1901, for the said county of Red Lake, the above described piece or parcel of land was sold for the sum of Three Dollars and Thirty-six Cents; that the said land still remains unredeemed and that the tax certificate issued for said land at said sale has been presented to me at my office by the holder thereof for the purpose of having notice of redemption from said sale given and served; that the amount required to redeem said piece or parcel of land from said sale exclusive of the costs to accrue upon this notice, is the sum of Four Dollars and Ninety-six Cents and interest on Three Dollars and Thirty-six Cents, at the rate of 12 per cent per annum from the twenty-fifth day of April, A. D 1907, to the day said redemption is made, (said last named sum being the aggregate amount of said sum for which said land was sold at said sale and interest thereon at 12 per cent. per annum, delinquent taxes, penalties, costs and interest thereon, accruing subsequent to said sale and paid by said purchaser, and all unpaid delinquent taxes, interest, costs and penalties accruing upon said land subsequent to said sale); and the time of redemption of said piece or parcel of land from said sale will expire sixty (60) days after the service of this notice and proof thereof has been filed in my office.

Witness my hand and seal of office this twenty-fifth day of April, A. D. 1906.

(Seal) —JOHN B. O'BRIEN,
County Auditor,
m2-16 Red Lake County, Minnesota.

Notice of Application for Liquor License.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Fifty-Two and 50-100 ($52.50) Dollars, interest, which became due May 6, 1906, and which is claimed to be due and is due at the date of this notice upon a certain Mortgage duly executed and delivered by Brede M. Thoreson and Marie Thoreson, his wife, Mortgagors, to De Nederlandsch-Amerikaansche Hypotheekbank (The Netherlands American Mortgage Bank) of Uithuizen, The Netherlands, Mortgagee, bearing date the 6th day of May, A. D., 1904, and with the power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 9th day of May, A. D. 1904, at 10:00 o'clock a. m., in Book 29 of Mortgages, on page 393 thereof.

And Whereas, It is provided in and by the terms of said mortgage that if default be made in any of the terms and conditions thereof, the mortgagee or holder of said mortgage might declare the whole principal sum of said mortgage due and payable.

And Whereas, under the terms and conditions of the said mortgage and the power of sale therein contained, the said mortgagee and holder of said mortgage has duly elected and does hereby duly elect to declare and does hereby declare the whole principal sum of the said mortgage due and payable at the date of this notice.

And Whereas, There is actually due and claimed to be due and payable thereon at the date of this notice the sum of Eight Hundred Fifty-one and 65-100 ($851.65) Dollars, and the power of sale having become operative and no action or proceeding having been instituted at law or otherwise, to recover the debt remaining secured by said Mortgage, or any part thereof.

NOW, THEREFORE, NOTICE IS HEREBY given, that by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz.:

The East half of the Southeast quarter of Section Twenty-nine (29) and the Northeast quarter of the Northeast quarter of Section Thirty-two (32) in township one hundred fifty-one (151) North of range forty-one (41) West of the 5th principal meridian, containing according to the United States survey one hundred twenty (120) acres, be the same more or less in the county of Red Lake State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said Red Lake County, at the front door of the Court House, in the city of Red Lake Falls in said County and State, on the 11th day of May, 1907, at 11:00 o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said debt of Eight Hundred Fifty-one and 65-100 Dollars, and interest, and the taxes, if any, on said premises, and Fifty Dollars, attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated March 21st, 1907.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Nine Hundred Nineteen and 32-100 ($919.32) Dollars, which is claimed to be due and is due at the date of this notice upon a certain Mortgage, duly executed and delivered by Samuel W. Lee, a single man, Mortgagor to Swante W. Larson, Mortgagee, bearing date the third day of October 1901, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 10th day of October, 1901, at 11:30 o'clock A. M., in Book 20 of Mortgages, on page 305,

Which said mortgage, together with the debt secured thereby, was duly assigned by said Swante W. Larson Mortgagee, to Merchants State Bank of Red Lake Falls, Minn., by written assignment, dated the 24th day of January 1907, and recorded in the office of said Register of Deeds, on the 12th day of April, 1907, at four o'clock P. M., in Book 15 of Mortgages on page 372, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof;

NOW THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: The Northeast quarter (ne¼) of Section twenty-six (26), in Township one hundred fifty-two (152), north of Range forty-four (44) West of the Fifth Principal Meridian. Containing one hundred and sixty acres, more or less, according to the United States Government survey thereof, in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the Sheriff of said Red Lake County at the West front door of the Court House, in the City of Red Lake Falls, in said County and State, on the first day of June, A. D., 1907, at 10 o'clock A. M., of that day at public vendue, to the highest bidder for cash, to pay said debt of Nine Hundred Nineteen and 32-100 Dollars, and interest, and the taxes, if any, on said premises, and Twenty-five Dollars, attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated April 17th, 1907.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of ninety-seven and 50-100 dollars, ($97.50) interest due November 26, 1905, and the further sum of ninety-seven and 50-100 dollars, ($97.50) interest due November 26, 1906, and in the payment of taxes for the years 1904, 1905 and 1906 all which is now due, upon a certain mortgage, duly executed and delivered by Odilon Gauthier and Marie Gauthier his wife, Mortgagors, to the Edinburgh American Land Mortgage Company, Limited, Mortgagee bearing date the 26th day of November, 1904, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake, State of Minnesota, on the 14th day of December 1904, at 11:30 o'clock A. M. in book 14 of Mortgages, on page 552; which said mortgage was given to secure payment of the sum of fifteen hundred dollars and interest, upon the premises hereinafter described:

And Whereas, said mortgage provided as one of its conditions that in case of failure to pay any part of the interest upon said debt when the same becomes due, or to pay any taxes levied upon said real estate before the same becomes delinquent, the whole sum of money or indebtedness thereby secured shall at once become due and payable, and by reason of the defaults hereinbefore mentioned, the said the Edinburgh Land Mortgage Company, Limited, Mortgagee, chooses to declare, and hereby does declare the whole debt secured by the aforesaid mortgage due and payable, and there is now due and claimed to be due at the date of this notice upon said mortgage the sum of seventeen hundred forty-two and 65-100 dollars, ($1742.65), principal and interest, and the further sum of $50.71 taxes paid on said premises by said mortgagee; and no action or proceeding having been instituted at law or otherwise, to recover the debt secured by said mortgage or any part thereof;

Now, Therefore, Notice is hereby given that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

North half of Northeast quarter (n½ of ne¼) and North half of Northwest quarter, (n½ of nw¼) of section twenty-three (23), in township one hundred fifty-one (151) North, of Range forty-two (42) west of the 5th principal meridian for Minnesota, in Red Lake County and State of Minnesota; with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Red Lake County, at the west front door of the courthouse in the City of Red Lake Falls in said county and state, on the

25th day of May, A. D., 1907

at ten o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt of $1742.65, and $50.71 taxes, and seventy-five dollars attorney's fees as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the date of sale, as provided by law.

Dated April 11th, 1907.

An Ill Wind.

T. P. O'Connor, the Irish leader, began a brilliant after-dinner speech in Philadelphia in this way:

"I must confess that I dread to make after dinner speeches. At the most sumptuous dinners, even at such a dinner as this one, if I know that at the end I must make a speech, I am nervous, I have no appetite. I find little to admire in the best efforts of the chef.

"In truth, gentlemen, I can readily imagine Daniel, if he was at all of my mind, heaving a sigh of relief as the lions drew near to devour him—heaving a sigh of relief and murmuring:

"'Well, if there's any after-dinner speaking to be done on this occasion at least it won't be done by me.'"

SPECIALIST

From the Engelman Medico-Surgical Institue, Detroit

Will make their first visit

Red Lake Falls

and will be at the Grand View Hotel on

MONDAY-TUESDAY

May 6 and 7

Tell Your Sick Friends

TWO DAYS ONLY

Office Hours:—Monday, 11 a. m. to 8 p. m. Tuesday, 9 to 10 a. m.

FREE

This Institute in order to introduce their new Medical Discoveries and X-Radium System, sends at its own expense these eminent specialists to give to those who call on the above date, consultation, examination, advice and all medicine required to complete a cure, absolutely free.

These specialists will diagnose your case and give you the benefit of their medical knowledge. There is no experimenting or guess work. You will be told whether you can be cured or not. If your case is curable, they treat you; if incurable they will give such advice as may prolong your life.

Their treatment gives quick relief and positively cures. Being prepared to suit each individual case, the human system is thoroughly cleansed of the disease in a natural and direct manner and improvement is noticed at once; even the worst cases are treated without any inconvenience to the patient or the pursuing of his daily vocation. If you are improving under your family physician do not come and take up their valuable time. They wish to give each one plenty of time, but cannot listen to long stories not pertaining to your case.

They have discarded the old remedies used for ages by the medical world, and which it would be folly to depend upon any longer, for they do not cure, as thousands die depending on them for relief.

The fact that these Specialists have discovered entirely new treatments and natural cures, gives them control of the Nervous System, Heart, Stomach, Lungs, Kidneys, Catarrh, Consumption, Epilepsy, Deafness, Male and Female Weaknesses, Cancers, Tumors, Piles and other Chronic Diseases.

They treat deafness by an entirely new method, and hearing in many cases is restored at once. Catarrh in all its varied forms cured so that it will never return. If you have weak lungs or consumption do not fail to be examined.

All cases treated can and will be cured, no difference who you have seen or treated with heretofore. Thousands who have given up all hope of being cured, now have an opportunity to consult specialists of reputation.

Don't fail to call, as a visit costs you nothing and may save your life.

If you suspect kidney trouble, bring a two-ounce bottle of your urine for chemical and microscopical analysis.

REMEMBER:—The free offer is during this visit only and will not be given again. Persons commencing any treatment after this trip will be required to pay, but not one cent will be asked of those commencing treatment during this visit for any medicine necessary to effect a cure; also a positive guarantee to cure will be given to patients accepted under their system of treatment. Those having long standing and complicated diseases, who have failed to get cured and become discouraged, are especially invited to call, as thousands who have given up all hopes can testify to permanent cures obtained.

NOTICE:—Married Ladies without their Husbands and Minors without their Fathers, will positively not be admitted to consultation.

Don't Forget the Date.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

INJUNCTION DENIED.

Judge Watts Decides Case In Favor of Skala,

Tuesday Judge Watts from chambers at Crookston handed down his decision in the injunction proceedings of Grady et al vs. Skala, and in the findings denied the application for a permanent injunction restraining Mr. Skala from tearing down the building known as the North Side opera house.

Several weeks ago Mr. Skala started to tear down this building with the intention of using the material therein to build a handsome new residence on the north side, and to make improvements on his store property. When the work was but fairly commenced Attorney Grady and one or two stockholders in the old concern, secured a temporary injunction stopping Mr. Skala and applied for a permanent restraining order. Messrs. Germo & Farley appeared for Skala, and efter hearing the case the judge denied the motion and dissolved the injunction, leaving Mr. Skala free to proceed with the work of tearing down the building.

When this building was erected several years ago, a number of people of the city took shares of stock in the concern, although Mr. Skala owned the controlling interest and was the moving spirit in getting the thing started. For a while it paid fairly well, but since the erection of the Metropolitan opera houes on this side a few years ago there has been no demand for a building over there. Mr. Skala has kept up the taxes, and secured a tax title to the property.

He will now tear it down and with the material will erect a handsome new brick residence that will be a credit alike to the North Side and the city at large.

Dr. Spofford makes his next regular visit to Red Lake Falls June 7. At Grand View hotel. Remember the date if your eyes trouble you.

SMOOTH SCHEME

Sixty Thousand Dollar Court House to be Built at Thief River---Sign the Petition and Raise Your Taxes---A Diabolical Swindle on the Taxpayers Uncovered---Their Scheme is Exposed.

A prominent business man of Red Lake Falls this week received the following letter, which speaks for itself, and shows up the blackest scheme ever put up on the voters and taxpayers of Red Lake county

Crookston, May 4th, 1908

Mr.............

Dear Sir

While passing through Thief River Falls City the other day I overheard something which is of great interest to the people in your town I think, and as I have some property in Red Lake Falls and you did some business for me once I thought I better write you about it. It is about your county seat. I was in the hotel-office in Thief River Falls reading a newspaper. Two well-dressed men sat in the corner near me, talking. I didn't notice them at first, till I heard one speak of Red Lake Falls and say he thought they would soon kill that town off the map. This called my attention as I'd like to sell my town lots there if it's going to be wiped out. The man who spoke seemed to be a local man and the other an outsider, from their talk, though plainly a close friend.

So I listened. I can't tell you all they said but this is the most important. The local man said–yes. Red Lake Falls is giving us a hard fight but we think we've got them skinned now. And if we do beat them we're going to cinch them so they'll never get the county seat away again. You see, as soon as the election is over, if we win, we'll have the county officers move right up here. We elected them and they have got to do as we say. Then we'll have the county board let the job right away for building a big court house, one that will cost enough so the farmers won't want to move it. But, says the other man, if you try to vote bonds for a court house, won't the farmers vote it down? No, says the first one. That's the beauty of it. We've got it fixed so that the county board can issue bonds and build a fifty or sixty thousand dollar court house without having any election on it at all.

You see when we started our first petition in 1905, we helped get a law passed in the legislature so that in my county that don't have a court house at the county seat, the county board can issue bonds and build a court house without having a vote taken on it. Our petition was filed April 11th, 1905, and this law was passed three days later. That's why we are in a hurry to get a vote on the county seat. The minute we do, we're going to start building that court house and all the farmers in Red Lake county can't stop us. Of course its been kept awful quiet and the smart fellows at Red Lake Falls never caught on. We were afraid they would try to get the law repealed before we got the county seat but they never found us out. Then they talked lower and I couldn't hear any more.

Please excuse this long letter. I hope it will do you people some good to find out these things. I shall be up in this country again in a month or so and will call and see you.

Yours truly,
P. A. Blockstad.

Upon receipt of the above letter, search was immediately made for the law referred to, and sure enough, it exists.

The law is chapter 175, of the General Laws of Minnesota for 1905 and it was passed April 14th 1905.

Its title is "An act to authorize the board of county commissioners of any county not already owning a county court house, to issue its bonds and to use the proceeds thereof for the building of a county court house."

Its first section is "The board of county commissioners of any county of the state of Minnesota which does not own a court house is hereby authorized and empowered to issue the bonds of said county to such an amount in its judgment as may be necessary, but not exceeding one per cent. of the assessed valuation of its real and personal property, as fixed by the last preceeding assessment for general taxation, for the purpose of building a court house in said county."

There are seven other sections describing ths issue of bonds but nothing making it necessary to have a vote of the people before issuing the bonds.

There you have the scheme, voters and tax-payers. The lid is off and you can see it in all its nakedness.

That's why they want you to sign the county petition.

That's why they want you to vote for Thief River Falls for the county seat. So they can spend your money in putting up a big building to help Thief River grow.

Did you ever realize before, what a beautifully appropriate name Thief River Falls is? Thief city would be even more appropriate.

When they have stolen your sixty thousand dollars to build their fine court house, what are you going to do about it? Going to get out in your fields and dig and groan to pay your double taxes and help Thief River grow?

As they grow rich, you grow poor; as their city spreads your farm dwindles; while their prosperous city people stroll through the fine halls and offices you paid for, you follow the tail of your plow all day in your overalls.

Sign their county seat petition. Let them pat you on the back and tell you how much they like you—till after election. Vote for a change [illegible] county seat.

And when the election is over, [illegible] have no more use for you. You'll have to [illegible] cow to get a pleasant look from them.

What are you going

OFFICEIS ELECTED

Fire Department Held Annual Election Last Saturday Evening.

The annual election of officers of the Red Lake Falls fire department was held at the meeting in the fire hall Saturday evening last and a large number of the members of the members of the department were present.

The election of officers for the ensuing year was the first business taken up, and by a unanimous voice of the members present the old officers were again elected to head the department as follows:

Chief—Henry Hennemuth,
Asst. Chief—M. A. Converse,
Secretary—Fred Borchers,
Treasurer—Geo. F. Hennings.
Finance Committee—Joseph Salley

The report of the treasurer, showing the financial condition of the department was submitted and approved. The statement shows the department to be in the best of condition financially and totaled is as follows:

Receipts	
Bal. on hand May 1, 1906	$ 49.35
Total receipts for the year	280.24
Total	329.59
Disbursements	
Paid out during the year	$160.27
Bal. cash in treasury May 1st 1907	169.32
Total	329.

This is a very nice showing and should be gratifying to the people. The coming tournament of course is the leading subject with the fire boys these days, and if the weather man would only let up a little there would be a concerted movement toward getting ready for the big time. The various committees are all at work and while nothing has yet been done regarding the track work just as soon as possible this will be taken up and pushed to rapid completion.

Red Lake Falls has a fire department that any city might be proud of and every citizen shoud feel it his moral duty to stand by the boys at every turn.

CASH FOR BRIDGES

Omnibus Appropriation Gives Red Lake County $4850 In Next two Years.

The omnibus appropriation bill passed by the recent legislature deals very kindly with Red Lake county in the matter of appropriations for bridge work during the next two years, and a detailed statement of the amounts appropriated shows that the sum of $4850 state money will be available for bridge building during the next two years.

The exact provisions of the measure are not quite plain, but it is understood that this money will be handled through the county commissioners and state bridge commitee in each county, the bridges to be built under their supervision.

While the amounts appropriated are not in all instances sufficient to complete the bridges designated, they will aid materially, and with a good appropriation from the county fund and funds of each town there will be a sufficient amount to erect the structures desired.

The bill provides aid in the following amounts, and for the following bridges:

In 1908—For bridg over Clearwater between sections 31 and 32, Deer Park, $500; for bridge over Clearwater between sections 2and 3 Garnes, and sections 34 and 35, Mayfield, $500; for bridge over Clearwater between sections 19 and, 30, Emardville, $700; for bridge over Red Lake river on county road between Thief River Falls and Highlanding, $725.

In 1909—For bridge over Red Lake River [illegible] Thief River Falls, $1,212.50; for [illegible] over Clearwater river at Red Lake Falls, $1212.50.

THE COURIER

JOHN E. KING, Pulblisher.

RED LAKE FALLS, MINNESOTA

NEWS OF THE WEEK IN EPITOME

DIGEST OF THE NEWS WORTH TELLING CONDENSED FOR BUSY READERS.

Washington.

The state department has been notified that a vote will probably be reached next week by the Dominican congress upon the pending treaty with the United States.

The navy department has decided to have but one wireless naval station in Alaska instead of two, as was recently authorized by the department, owing to the fact that the expense of installing and maintaining two stations is not justified. It was proposed to have one at Sitka and another at Valdes. The new station will be at Sitka.

Personal.

Lord Arthur Laurence Haliburton, for a number of years under secretary of state for war, died in London.

Dennis Kearney, who in the late '70s headed the sand lot agitation in California against the Chinese, is dead at his home in Alameda, Cal.

E. M. Gilman, a prominent citizen of McIntyre, Iowa, fell dead while in the grounds about his residence. Heart failure was the cause of death.

Gen. Henry R. Guss, who commanded the Ninety-seventh Pennsylvania regiment in the Civil war, died at Westchester, Pa., aged seventy-two years.

The Rev. Dr. William W. Lord, one of the oldest clergymen of the Protestant Episcopal church in this country and the minister and friend of Jefferson Davis, died in New York, aged eighty-three.

The body of George W. Roosevelt, a cousin of the president, who died recently while consul general to Brussels, will be interred at Arlington national cemetery, he having served in a Pennsylvania regiment during the war.

Criminal.

William Gooch and Henry Springer, union miners, engaged in a pistol duel in a pool room at Sturgis, Ky., and both were shot to death.

James White was shot and killed by Albert Watson over a trivial matter at Sturgis, Ky. Watson made his escape. Both men were miners.

Thinking he had killed his son, whom he had floored in a quarrel, William Robinson of Lexington, Ky., blew out his brains, dying instantly.

Robbers dynamited the safe of the Farmers & Merchants' Bank of Bixby, I. T., and secured several thousand dollars in currency. They escaped, leaving no clue.

Buck Nigh, a twenty-year-old negro who, on March 25, assaulted four-year-old Mary Donnell near McDonough, Ga., was convicted and sentenced to be hanged May 29.

William Havens, a boy seventeen years old, disappeared with $7,000 while carrying the money from the cashier's office of the Independent Packing company to the Drovers' Deposit National bank in Chicago.

Four Italians were shot in the home of John Falato, Hackensack, N. J. An unidentified man broke a pane of glass in a front window; thrust a revolver into the room and fired five shots. Those wounded were not dangerously hurt.

Ed Tate, well known safeblower, who was held in Peoria, Ill., on the charge of blowing the school board safe and destroying the N. C. Dougherty script, escaped from the St. Francis hospital, where he has been for several days suffering from blood poisoning.

Jasper Mason, who was sentenced to the penitentiary at Fort Madison, Iowa, for life on Oct. 27, 1876, and was transferred to Anamosa on April 16, 1895, was granted a parole by Gov. Cummins in conformity with the order of the Iowa legislature which has just adjourned.

Two are dead and one critically injured as a result of a love affair in Bedford, Iowa, which came to a focus when Ovit Thompson, a prominent farmer, murdered Mrs. Sallie Morgan, mortally wounded Roscoe Thompson and then ended his own life with a bullet. Roscoe Thompson, the only present survivor of the tragedy, cannot live.

Accidental Happenings.

Mrs. Will Way, living east of New Sharon, Iowa, is near to death as the result of being gored by a vicious cow.

In a collision between a freight train and a light engine on the Chicago & Alton road at Dwight, Ill., Engineer Bruce Goodman and Fireman C. F. Taylor were killed and Fireman Brown was fatally injured.

Twelve persons were seriously injured, several of whom, it is reported, will die, when a street car ran into a wagon heavily loaded with timber at Pittsburg.

Three persons, two women and a man, were seriously injured as the result of an explosion of a gas retort at the plant of John and James Dobson at Philadelphia.

As the result of ptomaine poisoning two members of the family of S. Jordan of Charlotte, N. C., are dead and all the others of the family are suffering from the same cause.

Three persons were drowned in the Delaware river a few miles below Chester, Pa., by the capsizing of the schooner Eben.

Peter Frazer, a brakeman on the Copper Range railroad, fell between two rock cars and was ground to pieces at Houghton, Mich.

The fishing tug Searchlight of Harbor Beach, Mich., is missing and is believed to have sunk in Lake Huron with her crew of six men.

A three-story brick building, occupied as a pattern shop and store house at the navy yard at Kittery, Me. was ruined by fire. Loss, $150,000.

Two children are dead and one is dying as the result of a fire which destroyed the home of Charles Bradwell in Mystic, a mining camp near Ottumwa, Iowa.

The pulp mill of the Lake Superior corporation, located in the Canadian Soo, across the river from Sault Ste Marie, Mich., was burned. The loss will be about $100,000.

Walter Beverly, a horse trainer of Mason City, Iowa, was attacked by a vicious horse. His arm was mangled and his body was trampled so badly that he may die.

The Zoeller Packing company, occupying two acres of ground on Spring Garden avenue, Allegheny, Pa. was totally destroyed by fire, causing an estimated loss of about $300,000.

Three young women employed at T. C. Wheaton & Co.'s glass factory at Millville, N. J., were killed by the collapse of a smokestack which crashed through a room in which they were working.

A. G. Hunt of Elizabeth, N. J., was instantly killed near State Center, Iowa. In company with H. B. Bachus he was riding in an auto car on the tracks of the North-Western railroad. The car was struck by the fast mail and both men were hurled a distance of 100 feet. Hunt was dead when picked up, but his companion escaped serious injury.

Foreign.

Prayers were offered in all the churches throughout the island of Cuba for rain, which has not fallen in six months.

A band of Servians defeated a band of Bulgarians at Isver, near Uskab, killing and beheading ten of their opponents.

Severe volcanic eruptions continue in the southern part of Chile. The town of Valdiva is covered with ashes and overhung with clouds.

Prince Ibrahim Pasha, an uncle of the khedive of Egypt, while driving a motor car at Naples, ran over a woman and child, mortally injuring both of them.

Recent earthquakes in Northern Portugal have revealed a cave on the coast containing valuable treasures, including old coins, jewelry and antique arms.

While maneuvering during a night attack outside the grand harbor at Valletta, Island of Malta, the British torpedo boat destroyer Ariel collided with the breakwater and sank. One man was drowned.

The British admiralty has issued orders forbidding any naval band to play selections from Sullivan's "Mikado" during the coming visit to England of Prince Sadueru Fushimi, a cousin of the emperor of Japan.

According to an evening newspaper at Madrid the ministry of marine has received a telegram from the captain general at Cartagena saying the plague is raging at that port and that 300 persons have been sent to hospitals.

The Swedish cruiser Fylgia, commanded by Prince Wilhelm, duke of Sodermanland, King Oscar's grandson, will visit the Jamestown exposition for a week during July and then will go to New York, Boston and other American ports.

Antonio Infante, a negro, died at Santiago, Cuba, at the age of 150 years. Despite his great age, the greatest recorded in modern times, he retained his faculties unimpaired to the end. He was born in 1757, nineteen years before the beginning of the American revolution.

Domestic.

Jack London's sailboat, the Shark, started from San Francisco last week for Honolulu, the first port to be touched, on a six-year cruise around the world.

Wolfram C. Fuchs, an expert in the use of X-ray, died in Chicago of cancer, which he contracted three years ago through coming in contact with the X-ray apparatus.

Harry Loupe, sixteen years old, who has been missing from Monmouth, Iowa, for three years, was found at Tulsa, I. T. He was thought to have been kidnapped, but says he ran away

About 200 carriage drivers are idle at Toronto as a result of the employers refusing to grant their demands for an advance of $3 a week, 25 cents an hour overtime and a "closed shop."

A. F. Carpenter, a general merchant of Petosia, Iowa, has sued Oliver King, a retired farmer, for $10,000 for alienating the affections of plaintiff's wife. He charges a deliberate plan to possess the woman.

During the progress of the meeting of the board of directors of the Hebrew orphan asylum at Baltimore, the president, Moses J. Oppenheimer, began to read his annual report. He had finished the first page when he suddenly fell dead, a victim of heart disease.

Until next January Rhode Island will have but one United States senator—Nelson W. Aldrich—as the result of the failure of the Republicans in the legislature to agree upon a candidate. The joint assembly adjourned at the end of the eighty-first ballot, which showed that the deadlock was as complete as before.

CROOKED WORK IN RISK ELECTIONS

FRAUD IN ELECTION OF DIRECTORS OF NEW YORK LIFE COMPANY.

IMPORTANT ARRESTS ARE MADE

SENSATIONAL RESULTS FOLLOW INQUIRY BY DISTRICT ATTORNEY OF NEW YORK.

New York, May 2.—Sensational results have followed the inquiry by the district attorney's office into the recent election of directors of the New York Life Insurance company.

George R. Scrugham, manager of the international policyholders' committee, which inspired the investigation by making grave charges against those who conducted the election, was himself arrested at Albany last night.

Conspiracy Charged.

Scrugham was charged with conspiracy and was the third man identified with the international policyholders' committee to be taken since noon yesterday. The others are Charles Stirrup and Charles F. Carrington. These two were employed as watchers at the election. Stirrup was a watcher at the directors' election of the Mutual Life Insurance company, while Carrington acted in a similar capacity at the New York Life election.

Ugly Charges Made.

They are specifically charged with having unlawfully conspired together for the perversion and obstruction of the due administration of the laws of the State of New York with relation to the election of directors of the New York Life Insurance company.

Earlier yesterday Jacob Frank, a New York Life Insurance company agent, was arrested, charged with forgery in the third degree.

Frank, it is said, made a statement to Assistant District Attorneys Smyth and Howe that had an important bearing on later developments.

Investigate Crooked Work.

Since the elections in both the New York and Mutual companies on Dec. 18 the district attorney's office has been looking into the counter charges of crooked work. Complaints were made by the policyholders' committee of wholesale forgeries by agents of the companies. The companies made counter-charges against the employes of the policyholders' committee.

Assistant District Attorneys Howe and Smyth have been in charge of the matter. The first result of their labors was the arrest, on evidence furnished by Manager Scrugham of the policyholders' committee, of Agent Frank. This was quickly followed by yesterday's arrests.

ENTOMBED MEN RESCUED.

Shut Off From World for Over Four Days by Flood in Mine.

Pittsburg, May 2. — After being entombed since Friday noon in the Berwind-White Coal company's mine at Foustwell, seven miners who were shut off from the world by a sudden rush of water caused by the breaking of a wall of an abandoned mine were rescued at 10 o'clock last night.

The men were greatly exhausted. Owing to their weakened condition it was decided not to bring them out until after the mine had been drained.

Cheer, Laugh and Cry.

Never in the history of the mining region has such a joyous scene been witnessed as when the men were reached. Hundreds of persons who were watching the work of rescue cheered, laughed and cried.

The men were reached by Stiney Rodon and Charles Ream, who made a dash through fifty feet of water filled heading. Earlier in the day John Bolya, a brother of one of the imprisoned men, and three comrades made a futile attempt to reach the imprisoned men. They came back half-drowned and reported that portions of the heading were still filled and that more pumping would have to be done. The pumping was then redoubled.

Men Found Alive.

At 10 o'clock the water had so far gone down that it was resolved to make another attempt to break through to the overcast, where the men were imprisoned. Stiney Rodon and Charles Ream volunteered. Like the first party, they plunged into the water and darkness. An hour elapsed before Ream came swimming back, bringing the first news of the imprisoned seven. The effort had nearly exhausted Ream. He reported that the seven men were alive and in good shape, but that until more pumping was done the passage to the place where they had taken refuge was impassable to those who could not swim.

IMITATES GIRL'S FATE.

Lover Returns From Trip and Follows Example of Suicide.

Huntington, W. Va., May 2.—Samuel Rittenour committed suicide yesterday by taking carbolic acid. Saturday Rose Spears ended her life in the same manner because she thought Rittenour had deserted her.

Rittenour returned from Kentucky, where he had been on business, and learning of her death drank the deadly acid in the room in which the girl had ended her life.

GRAVE CRISIS APPROACHING

UNITED STATES AND MEXICO VIEW SITUATION WITH SERIOUS CONCERN.

Washington, May 2. — Ambassador Creel of New Mexico and Assistant Secretary of State Bacon yesterday conferred at length concering the situation at Guatemala. Advices agree on the point that affairs are approaching a crisis in Guatemala and any moment there may be an unrising which the present forces there would be unable to control.

The assassination of Former Guatemalan President Barralis in Mexico, the atttempt yesterday on the life of President Estrada Cabrera in Guatemala City and anti-American feeling that

Has Been Engendered

in the Cabrera government have caused complications in Central American politics which, it is believed here, must be handled by a firmer hand than can be found in Guatemala.

Indications of an uprising against the Cabrera government are giving the United States and Mexico some concern, as a revolutionary movement now probably would embroil the whole republic in conflict.

Attempt to Assassinate.

Guatemala City, May 1.—Estrada Cabrera, president of Guatemala, narrowly escaped assassination yesterday. He left his private residence at 7:30 in the morning for his customary drive.

On Seventh avenue an explosion killed the horses and wounded the coachman and several staff officers.

The president was not injured. The explosion was caused not by a bomb, but a mine. The conspirators dug a tunnel, placed explosives under the roadway and connected them by a wire with a battery in a house nearby. Many suspects have been arrested.

COMPLAIN TO COMMERCE BOARD.

Coast Manufacturers Suffer by Hill and Harriman Rivalry.

Washington, May 2. — Rivalry between the Hill and Harriman railroad lines in the Northwest finally has culminated in the presentation of the matter to the interstate commerce commission. For several months lumber dealers and manufacturers in Washington, particularly, and in the Puget sound territory generally, have complained informally to the commission that, owing to the refusal of the Hill and Harriman lines to make them through routes and joint rates they were unable to get their products east of the Cascade mountains. Finally it was suggested that they institute formal proceedings under the new rate law to compel the railroads to make such through routes and joint rates.

A formal complaint has been filed with the commission against the Northern Pacific, the Great Northern, the Union Pacific, the Oregon Short Line and fifteen other railroads, requesting the commission to issue orders providing that the railroads shall make through routes and joint rates on lumber products from points in Washington, via Portland, Ore., to points east of the Cascade mountains.

It is understood that the commission will take up the case at an early date.

THREE MEN ROASTED TO DEATH.

Freight Train Goes Through Bridge and Wreckage Takes Fire.

Port Arthur, Ont., May 2.—A Canadian Pacific freight train ran through a small bridge near here last night, carrying to their death Engineer William Fixter, Fireman Veadrey and Brakeman Villineauve. The locomotive and seven cars of flour, which crashed into the ravine, burying the three members of the crew, immediately caught fire, and the torture of the men pinned under the wreckage, which ended in their death, was frightful.

Conductor Cross, who escaped injury, was one of the first to reach the wreckage, which was partly hidden by volumes of steam. The cries of Fixter were pitiful, but all efforts of the conductor to relieve him were unavailing, and he was scalded and roasted to death.

DENIES $10,000 BRIBE.

Man Declares He Got Money in Exchange for His Note.

Harrisburg, Pa., May 2. — Former Congressman S. Marshall Williams of Pittsburg yesterday refused to answer a direct question as to whether he was advanced $10,000 by Congressman Cassel in connection with contracts for the metallic furniture for the new state capitol.

He was under examination by the state investigating commission. Mr. Williams admitted receiving $10,000, but declared that it was given him for his note and that it came from New York.

It is charged that the money was given to Mr. Williams to keep after he had been refused by John H. Sanderson, general contractor, a share in the $2,000,000 electrical fixtures award.

CALL PUGILIST SLAYER.

Coroner's Jury Accuses Palmer of Manslaughter.

London, May 2. — A coroner's jury yesterday declared "Pedlar" Palmer, the English pugilist, guilty of manslaughter in causing the death of Robert Choat, a gashouse stoker of Depford. Palmer struck Choat in a railroad car coming from the Epsom races April 24 because the man refused to stop singing when requested by Palmer to do so.

UNDER PALL OF TRAGIC MENACE

FEAR OF VIOLENCE AT BOISE IDAHO, AS HAYWOOD TRIAL DRAWS NEAR.

GOV. GOODING THREATENED

MANY BELIEVE OUTLAW HARRY ORCHARD WILL DIE IN WITNESS CHAIR.

Boise, Idaho, May 4.—Apparently unconscious of the almost intangible pall of tragic foreboding and menace that hangs over this community, counsel for prosecution and defense in the Steunenberg murder case have settled down to their final preparatory work, and there is every reason for believing that the trial of William Haywood, first of the accused, will be commenced Thursday next.

Fear of Violence.

This oasis of the American desert to which the leaders of the Western Federation of Miners have been brought to answer to the capital charge that they encompassed the murder of a former governor in revenge for his activity in suppressing disorder, in the days of violence in Coeur d'Alene seems to grow in exterior placidity as the date of opening of the first trial closely approaches.

But under the surface of calm there is a strong undercurrent of apprehension and nervousness, tragic in many of its aspects. Violence is the ever present fear.

Letters Threaten Death.

Letters that threaten every form of violence aro pouring into Boise from all over the country by hundreds, and most of them are directed to Gov. Frank B. Gooding, who is made largely to bear the brunt of all that this celebrated case invites.

Another Marked Man.

Another man similarly marked, in the belief of many men, is Harry Orchard, alleged to be the assassin hired by the three prisoners and whose alleged confession is the basis of the state's case. Perfectly reasonable men here look at the high witness chair in the county court house, shake their heads seriously and tell you that Harry Orchard will die in it. They tell you, too, that if he were turned out of prison to-morrow his body would be found within a week.

HARBOR WORK BEGUN.

Lake Frontage at Superior Is Undergoing Changes.

Superior, Wis., May 4.—The government engineers here have started work on the improvements to the Superior entry of the local harbor which were authorized in the last river and harbor bill. When completed this work will cost about $2,000,000 and will greatly improve the harbor.

The plans call for two concreate revetments with a 500-foot channel. Outside of these are to be two long breakwaters, extending out into the lake and converging so that they are about 600 feet apart at the outer end. Thus a stilling basis is formed, inside of which the waves calm themselves.

HAS ROOSEVELT'S PROMISE.

Sculptor Trentanove Says President Will Be in Oshkosh July 4.

Milwaukee, May 4.—According to a letter from Cavaliere Trentanove, the Italian sculptor, President Roosevelt and members of his cabinet will be in Oshkosh, Wis., on July 4. The sculptor says he has a promise from the president to attend the unveiling of the soldiers' monument which he made for Oshkosh.

NEW LAND FRAUDS BIG.

Evidence in Washington Overshadows Old Oregon Timber Deals.

Seattle, Wash., May 4.—Six secret service operatives are working in western Washington, unearthing a series of land frands that are thought to be more astounding in their far-reaching character than the discoveries made in Oregon, or California.

Injured in Explosion in Fire.

Menominee, Mich., May 4. — Fire caused by an explosion of wax and turpentine broke out in the rear of H. C. Myers & Co.'s paint store. Mr. Myers was severely burned about the hands and arms by an explosion. The property damage was $600.

Woman Sleeps Three Weeks.

Junction City, Wis., May 4.—Three weeks ago the young wife of August Buelow, a farmer living near here, fell asleep and she has not yet been awakened. Doctors have used every means possible to arouse the sleeping woman, but without success.

Child Hit by Train.

Chippewa Falls, Wis., May 4. — George Albeith, five years old, was struck by an Omaha passenger train running at full speed. The child was tossed off the track. When the engineer picked up the child he was surprised to find it alive.

Smallpox Epidemic in Iowa.

Mason City, Iowa, May 4. — Fifty cases of smallpox are reported within a radius of twenty miles of this city. The town of Plymouth alone has twenty-five cases.

"BARONESS" IS FOUND GUILTY

TRIED FOR KILLING WEALTHY SHIRTWAIST MANUFACTURER IN NEW YORK.

New York, May 4.—"aroness" Anisia Louise de Massy, the pattern designer, tried for the killing of Gustav Simon, a shirtwaist manufacturer, was convicted of manslaughter in the first degree, with a recommendation of mercy. The jury, to which the case was given at 3 o'clock yesterday afternoon, returned a verdict a few minutes before midnight, and the prisoner was remanded to the Tombs until May 9 for sentence. Gustav Simon, a wealthy shirtwaist manufacturer, was shot in his office on Nov. 19, and died a few hours afterward. Mme. de Massy, known as "Baroness" de Massy was employed by Simon as a shirtwaist designer and was arrested while leaving the building in which Simon's office was located a few minutes after the shooting. She acknowledged she had a disagreement with Simon over a question of wages and had left the manufacturer's office a few minutes before her arrest, but has consistently maintained throughout her trial that she had nothing to do with the shooting.

RUEF FEARS RESULT.

San Francisco Boss Asks for Change of Venue.

San Francisco, May 4.—No progress was made yesterday toward the completion of the jury that is to try Abraham Ruef on the charge of extorting money from keepers of French restaurants.

Ruef yesterday moved for a change of venue, declaring under oath that he believed the sentiment against him in the comunity to be so general that he cannot obtain an impartial jury or a fair trial in San Francisco.

The motion will be argued or submitted after the jury has been completed.

OVATION TO GEN. KUROKI.

Seattle People Turn Out by the Thousand to See Him.

Seattle, Wash., May 4.—Gen. Kuroki and his staff, representatives of Japan to the Jamestown exposition, arrived in this city from the Orient at 3:30 o'clock yesterday afternoon.

They received a royal and picturesque welcome by both local Japanese and Americans, who crowded dock on the water front and lined the streets which the Japanese party passed through in a string of automobiles.

In the evening a brilliant reception was given at the Ranier club, at which Gov. Albert E. Mead and prominent business men were present.

SET BY TOTS AND MICE.

Fire Evidently Results From Using Matches While Playing.

Sioux Falls, S. D., May 4.—M. J. Enright, a farmer residing in McCook county, suffered a heavy loss as a result of a combination of children, matches and mice. A fire starting in a mysterious manner and late at night destroyed one of his farm building and 900 bushels of grain. The only way the starting of the fire can be accounted for is that some of the children while playing in the building during the afternoon dropped some matches on the floor and that mice afterward found the matches and ignited them by gnawing them.

COMING 200,000 MORE.

Remarkable Increase in Immigration to the Canadian West.

Ottawa. Ont., May 4. — Official announcement is made of the remarkable increase in the immigration figures for eight months ending March 31 over the same period of last year. One hundred and twenty-four thousand new settlers entered Canada between July, 1906, and March, 1907, an increase of 36,000, or 40 per cent. All indications point to an influx of 200,000 before the vance many commodity rates.

STOPS GOVERNMENT JOB.

Duluth Electricians' Strike Is Felt in Superior.

Superior, Wis., May 4.—Superior is threatened with a strike of electrical workers. All the inside workers in Duluth have gone out and there is considerable talk that those in this city may do the same. The contract for the wiring of the new federal building is held by a Duluth firm, and as a result of the strike across the bay all the wiring in the building has been stopped.

BUREAU FALLS ON WOMAN.

Aged Victim of Accident Is Injured on Head and Loses Finger.

Hudson, Wis., May 4—Mrs. Van Bergen, aged eighty years, mother of Mrs. W. H. Phipps, met with a serious accident while moving a bureau. In some way the bureau fell upon her, wounding her forehead and hand and making necessary the amputation of a finger. She is progressing favorably.

Icemen's Strike Ends.

Minneapolis, May 4. — Peace has been declared between the ice drivers and the companies in Minneapolis. All the men are to go back to work this morning. The men are given an increase in wages through the winter months.

Sees Twenty-five Miles of Ice.

Superior, Wis., May 4.—Manager C. P. White of the Pittsburg Coal company has just returned from Port Arthur, and says that there is still twenty-five miles of ice off the harbor there.

REBATE FINES ARE AFFIRMED

FEDERAL COURT OF APPEALS SUSTAINS JUDGMENT AGAINST PACKERS.

FOUR FINED $15,000 EACH

WERE INDICTED FOR ACCEPTING CONCESSIONS ON EXPORT SHIPMENTS.

St. Paul, May 1. — Judge Sanborn yesterday filed the opinion of the United States circuit court of appeals, which he had written, affirming the judgments of the United States district court for the western district of Missouri against the packers for accepting concessions of 12 cents per hundred pounds from the portion of the established rate for the transportation of provisions on through bills of lading from Kansas City to Christiania and other points in foreign countries. Judges Hook and Adams concur in the opinion.

Violate Elkins Law.

The four companies which were convicted of violating the Elkins act are the Armour Packing company, Swift & Co., Morris & Co. and the Cudahy Packing company. Each company was fined $15,000. They were charged with obtaining from the Chicago, Burlington & Quincy Railway company, upon an export shipment of their products from Kansas City, Kan., to Christiania, Norway, a rate concession of 12 cents per hundred pounds upon that portion of the route between the Mississippi river and New York.

Decision Important.

The decision is an important one, as it deals with a number of questions presented for the first time since the passage of the act. Its effect is to make the act answer the purposes for which it was intended, and its liberal constructions will render its evasion difficult.

SERIOUS FLOOD IN OKLAHOMA.

Crops Ruined and Much Stock Drowned—Many Towns Cut Off.

Oklahoma City, May 1. — With Lightning creek out of its banks and the Canadian river rising steadily, the people in the lowlands of Capitol Hill, a suburb of Oklahoma City, are facing a situation that will become critical if the heavy rains of the last twenty-four hours continue.

The lowlands have been converted into a veritable swamp, crops have been ruined and much stock drowned. No human lives have been lost, so far as can be learned. Residents of the bottoms were forced to leave their homes Sunday night and several persons were kept in trees all night.

Four inches of rain, accompanied by heavy hail and high winds, fell throughout Southwestern Oklahoma and the Texas Panhandle early yesterday. Telephone and telegraph wires are down and communication with many towns is cut off. The rain will be of great benefit to the cotton crop. The wind damaged several houses in Walter and Mangum.

REVOLT IN MONTENEGRO.

Several Killed in Serious Street Fights.

Vienna, May 1. — Dispatches received here last night report the outbreak of a revolt and grave political crisis in Montenegro. A military government has been proclaimed and Premier Tomanovich has tendered the resignation of the cabinet, which Prince Nicholas has refused to accept.

Armed bands are reported to be marching on Cettinje. Serious street fights have occurred at Pedgoritaza, thirty-eight miles north of Soutari, and having a population of about 7,000. Several persons are reported to have been killed or wounded. The militia has been called out there and further conflicts are feared.

TAX COMMISSION MEETS.

O. M. Hall Gets Long Term—Rukard Hurd Secretary.

St. Paul, May 1. — O. M. Hall of Red Wing gets the six-year term on the state tax commission; Samuel Lord of Kasson gets the four-year term, and Franklin McVey of Minneapolis gets the two-year term. The three recently appointed commissioners met in Gov. Johnson's office yesterday afternoon and organized. They drew straws to see who was to get the long and short term.

The members of the board qualified and filed their oaths of office with the secretary of state. The commissioners elected Rukard Hurd of St. Paul as secretary.

NEW CARDINAL CERTAIN.

Bishop O'Gorman Convinced "the One Man" Will Be Named.

Rome, May 1. — Bishop O'Gorman left here for America Saturday, convinced this time that the Vatican has really decided to create another American cardinal at the next consistory, but is entirely in the dark about who will receive the red hat. He thinks, however, that on reflections the Vatican will see that there is only one man who can thus be honored.

BATTLE RAGES IN CAPITAL CITY

A COMIC OPERA WAR AGAIN BREAKS OUT BETWEEN HONDURAN FACTIONS.

Puerto Cortez, Honduras, May 1. — Fresh fighting has occurred in Honduras, the latest being a battle in the streets of the capital city between the factions of the victorious Honduran rebels who, a few weeks ago, helped Nicaragua overthrow the government.

The fighting was brought on because of the unusual kind of government which the leaders had tried. Three of these leaders, Rosales, Bustillo and Castro, agreed to take turns as president, each serving fifteen rays. It is veloped, however, that each during his term attempted to strengthen his party by dividing up the patronage where it would do him most good.

Then the Fighting Began.

Finally the friends of Policarpo Bonilla proclaimed Bustillo provisional president without any fifteen-day clause, and the opposing factions did the same for Rosales. Then fighting began.

Badly aimed bullets showered upon the houses, but caused only seven deaths. A dramatic, almost comic opera, ending closed this battle, when Gen. Leguel R. Davila, who is now provisional president, rushed among the combatants and persuaded their leaders to stop the fighting.

Gunboats Must Stay.

Later another battle was started near the town, but this time the Nicaraguan invaders marched up and literally arrested all the troops of both factions. This effectively stopped the fighting. Later Davila became president with the faction leaders holding the ministerial offices.

The Nicaraguans continue to police the capital and it is safe to say that if President Zelaya withdraws his forces from Honduras the strongest faction will take possession and proclaim a president of its choice. Those same conditions make it necessary for the American gunboats to continue indefinitely their protection over foreign interests.

OIL COMPANIES ASK RELIEF.

Higher Rates Charged on Interstate Than on Intrastate Freight.

Washington, May 1. — An interesting case involving a question passed upon by the state railroad commission of Minnesota and South Dakota as regards interstate business was brought before the interstate commission yesterday in a complaint brought by the Bartles Oil company and the Cornplanter Oil company, engaged as dealers in oil in St. Paul and Minneapolis, involving interstate business.

The Chicago, Milwaukee & St. Paul, Chicago & North-Western and Minneapolis & St. Louis companies are named as defendants. The complainants allege that the defendant railroads charge fourth-class rates on interstate shipments of illuminating oil in less than carload lots by virtue of decisions of the railroad commissions in Minnesota and South Dakota, but impose third-class or higher rates on like shipments between points in Minnesota and points in South Dakota.

OUTRAGE IN SHEEP CAMP.

Masked Men Explode Dynamite, Killing 700 Sheep.

Cheyenne, Wyo., May 1. — An explosion of dynamite at John Linn's sheep camp, in Big Horn county, Saturday night, killed 700 sheep and completely destroyed camp wagons and other possessions. The story of the outrage was yesterday told by a herder, who said that a band of masked men raided the camp and after binding him securely arranged for the work of destruction.

LOSES LIFE AND SAVINGS.

Philadelphia Woman's Attempt to Quicken Fire Results Fatally.

Philadelphia, May 1. — Mrs. Kate Kearner, aged sixty years, was burned to death at her home here while preparing breakfast, and $700 in notes which she carried in a pocket of her dress were destroyed. Mrs. Kearner poured oil into the kitchen stove to quicken the fire and a burst of flames set her clothes ablaze.

BLOWN HIGH BY BLAST.

Civil Engineer Is Seriously Injured by Explosion.

Twin ridges, Mont., May 1. — Harry Hoover, civil engineer employed on construction by the Milwaukee road, was seriously if not fatally injured by the explosion of a blast. Hoover was blown high into the air and fell some distance away. That he was not instantly killed is almost a miracle.

Faces Serious Charge.

Washburn, Wis., May 1. — Amanda Gunderson, nineteen years old, was brought to this city from Spooner and placed in jail on a charge of infanticide. The infant had been choked to death with a cork and the body was found in a ravine directly under the window of Miss Gunderson's room.

Mortgaged Horse Thirteen Times.

Barron, Wis., May 1. — Charles Hoffman, who mortgaged one horse thirteen time to as many different parties, and mortgaged other stock in like manner, was arrested at Leeds, N. D., and brought here for trial.

Horses Cremated.

Charles City, Iowa, May 1. — Fourteen horses were burned to death at midnight Saturday evening, when the Woodbury livery barn burned to the ground before the fire companies arrived on the scene.

REVIEW OF THE WORK OF THE LEGISLATURE

Much of Importance Accomplished—Railroad Questions Have Lead in List of New Laws—Start Made Looking Toward Tax Reforms.

Entire Insurance Reform Program Placed on Statute Books —Public Ownership Law Passed—State Board of Immigration Established.

The Thirty-fifth legislature of Minnesota has passed into history and its deeds are before the people for their judgment. Much of importance has been accomplished. No Minnesota legislature has ever undertaken to do so many things. Few have equaled it in performance. Railroad, insurance and taxation matters occupied the most prominent place in the attention of the members. Much of lasting benefit to the state is expected to result from the legislation enacted along these lines.

A list of about thirty measures can be cited that compares in significance and importance with any state legislation in recent years.

Summary of the Work.

Briefly summarized the important things accomplished are:

Reduced rates on grain, coal, lumber and live stock an average of 10 per cent.

Established 2 cents a mile as a maximum passenger rate.

Abolished railroad passes.

Passed a reciprocal demurrage law.

Provided for a separate girls' training school.

Created a permanent tax commission.

Passed a law for a registry tax on mortgages.

Taxed gross earnings of freight line companies.

Abolished private banks.

Passed the entire insurance reform program, also codes for fraternal and assessment life associations.

Raised pay of members of legislature to $500 a year.

Raised supreme court judges to $7,000 and district judges to $4,200 a year.

Raised governor's salary to $7,000 a year.

Participated in agreement for reduction of express rates 25 per cent.

Authorized manufacture of harvester machinery at state prison.

Provided a hospital building for the criminal insane.

Created a state hospital farm for inebriates, to be built and supported out of liquor license fees.

Resubmitted wide open tax amendment.

Divided $40,000 among the counties, to be spent on roads and bridges.

Provided for extension of state university grounds.

Passed a new and stringent child labor law.

Created commission to acquire more land for capitol grounds.

Abolished fraternities in high schools.

Authorized bond issue to acquire Minneapolis gas plant.

Passed new code of drainage laws, and doubled provision for state drainage work.

Created a legislative reference bureau.

Turned Itasca park over to the state forestry board and university school of forestry.

Passed a "Mueller law" for acquirement of public utilities by cities.

Passed a law to prohibit cut-throat competition in sale of petroleum products.

Passed a law to expedite enforcement of the railroad commission's orders.

Re-elected Knute Nelson United States senator.

Investigated the coal, lumber and grain trades, the railroad business, express rates, state land and timber holdings, iron ore taxation, the Great Northern ore deal, delays in publishing supreme court reports, finances of the state university, the state fair, complaints against management of insane hospitals, and the Minnesota Shippers' and Receivers' association.

Railroad Rates.

The 2-cent passenger fare bill provides that after May 1 no railroad doing business in Minnesota shall charge a passenger fare of more than 2 cents a mile. The bill provides that any agent of a railroad company who shall demand more than 2 cents a mile will be guilty of felony and subject to punishment by imprisonment and a fine not exceeding $5,000.

The commodity rate bill provides for an average reduction of 10 per cent in the freight rates within the state. The law contains a penal clause like the passenger fare bill. Already the railroads have indicated their acceptance of both the freight law and the passenger fare law.

Must Pay Share of Taxes.

The private car companies and the sleeping car companies have long been escaping the payment of their share of taxes in Minnesota—the former absolutely not having been obliged to pay a cent, while the latter have paid a very small proportion of their share of the just burdens. At this session a bill has been passed requiring the private car companies to certify once a year the amount of the gross receipts on business done in this state, and the auditor is instructed to draw on the different companies for 4 per cent of their gross earnings each year. A heavy penalty clause is attached. The tax on sleeping car companies has been raised, so that instead of receiving from $1,000 to $2,000, as has been previously the case, the state will receive from $8,000 to $35,000 annually from this source.

In Farmers' Interest.

Legislation for the great agrarian masses of the state is seen in the law authorizing the board of control to construct and operate a factory for the manufacture of binders and mowers in connection with the prison at Stillwater. A machinery trust exists, and it is believed that the prices are exorbitant and that, as far as Minnesota is concerned, if harvesting and other farm machinery can be manufactured at Stillwater, the board of control may at once install a plant and give to the farmers of Minnesota another such a boon as has been given in the binding twine plant in that institution. The board is empowered, after marking the proper investigation, and finding that a plant can be successfully conducted, to proceed with the work of installation and operation of the plant.

Important Revenue Law.

A revenue measure of vast importance to the people of the state is the registry tax law, enacted by the present session. Heretofore mortgages have been taxed where they have been held by residents of the county wherein the mortgage was filed, and this was discrimination against the local residents and in favor of the non-resident, who could not be reached under the old system. Under the new system the only tax will be on the registration of the mortgage, 50 cents on each $1,000 contained in the mortgage, and to be paid only once. The money so derived is to be turned into the county treasury, and the state is to receive a certain proportion of the same. It is estimated that the latter will amount to over $500,000 annually, and the non-resident money loaner is placed on the same basis as the resident owner.

Insurance Legislation.

The insurance legislation enacted by the present legislature has been comprehensive and far-reaching; at the same time every interest has been treated with absolute fairness. Most of the measures recommended by the committee on uniform legislation have been enacted into law.

For years past Minnesota has suffered from the evils of tax inequality, and the effort of individuals at various sessions came to naught. This year a tax commission has been created, and Gov. Johnson named three commissioners, whose duty it will be to get at the vast amount of property in this state which has heretofore escaped taxation and place the same upon the assessment rolls.

Again Put Up to People.

The wide-open tax amendment, definite and certain as to taxation of church property, is once more submitted to the people. Certain corporation interests have been engaged ever since the last election in proving that the amendment was not ratified by the people. These interests have been recanvassing the vote of the state at their own expense.

An immigration bureau has been established, with the governor, auditor and secretary of state as ex-officio members. Thirty thousand dollars has been appropriated to carry out the work intended under this bureau, and at last something is to be done towards holding out inducements for the settlement of Minnesota—of making the lands already under cultivation more valuable and of opening thousands of acres in the central and northern portions of the state, which are still virgin to the plow.

Many Bills Handed In.

Bills rolled in all winter at an unprecedented rate. The house received a total of 1,215 and the senate 916, or 2,131 in all. This was 50 per cent more than in 1905, when the total was 888 house bills and 524 senate bills, or 1,412 for both houses.

The house held sessions on seventy-seven days, and the senate seventy-five. Members and employes drew pay for 106 days.

TOT OBEYS; IS KILLED.

Tries to Put Out Fire in Pail and Is Fatally Burned.

Royalton, Minn., April 26. — The 8-year-old daughter of Victor Sawdy is dead as the result of burns. The child and a companion had started a fire in an old tin pail. The girl's mother bade her extinguish the fire, but in doing so the child's clothing took fire.

The little one was so badly burned that she survived only a few hours.

TWENTY YEARS' HARD LABOR.

Seaman Who Killed Officer Gets a Twenty-five Year Sentence.

Washington, April 26.—Twenty-five years of imprisonment, twenty of which shall be at hard labor, is the sentence of the court-martial which tried Maurice Burke, a seaman attached to the cruiser Tennessee, for murdering James A. Douglass, chief master at arms, and attempting to kill William McCool, master at arms, both of that vessel.

State News of the Week Briefly Told

C. W. Hayden, former sheriff of Sherburne county and a pioneer resident of Elk River, died from heart disease.

: : : :

G. W. Montgomery was instantly killed at Alexandria by the caving in of a cistern which he was engaged in building.

: : : :

Six buildings in the heart of the business district of Tenstrike, together with their contents, were totally destroyed by fire.

: : : :

Antonio Costello was struck by a passenger train in St. Paul. His left arm was so badly crushed that it had to be amputated.

: : : :

Fire, which started in the old wing of the hospital at Breckenridge, did damage estimated at $7,000 before it finally was extinguished.

: : : :

Arvid Dahlin of Hallock is dead from blood poisoning caused by an injury which he received while he was running a slab saw at Williams.

: : : :

The livery barn and buggy shed of Mrs. Sarah Schemerhorn at Winnebago, was destroyed by fire. Three horses were burned. The loss was 2,000.

: : : :

The safe of the general store of A C. Roberts of Oak Park, near Stillwater, was opened and $90 in cash taken There is no clue to the perpetrators.

: : : :

Arthur Johnson, a young man employed as a brakeman on the Towner Lumber company's logging road, was instantly killed near Lake Vermillion.

: : : :

While the cadets of Shattuck school (at Faribault) were at drill a sneak thief entered one of the rooms in Phelp's cottage and stole articles to the value of $100.

: : : :

The body of Theodore Matchel, who committed suicide at Monticello last November by drowning himself in the Mississippi river, has been discovered in the water near Anoka.

: : : :

The trustees of Albert Lea college report finances in fine shape. The college has had the most prosperous year in its history. Some additions to the faculty will be made for the new year.

: : : :

Charles Johnson, sixty-four years of age and residing near Maple Island, fell from a load of straw and broke his neck, dislocating the axis and the third vertebrae. His physician says he cannot live.

: : : :

Announcement of the appointment of George P. Tawney as postmaster of Winona has been made public. Mr. Tawney has been deputy postmaster for the past sixteen years. He will take hold May 1.

: : : :

Triplets have arrived at the home of Emil Montke and wife at Cottage grove. The trio consist of two girls and a boy, who weigh ten pounds, the boy weighing the least. Mr. and Mrs. Montke are parents of ten children.

: : : :

In a saloon row at Monticello Ray Peshla, a saloonkeeper there, was badly cut in the face and several of his teeth were knocked out by rocks thrown by a drunken man whom he refused to furnish with any more liquor.

: : : :

Dr. D. M. McDonald, field veterinarian working under the supervision of the state live stock board, killed seven horses inflicted with glanders on the farm of Ole Hoffton, near Belgrade. He believes that the disease, which has been epidemic, now has been fairly stamped out.

: : : :

Two colored men were shot with the same bullet during a scuffle in a Minneapolis gambling house. John Sterrett was probably fatally wounded, while Henry Mosely, proprietor of the place, was slightly wounded, the bullet striking his breastbone and glancing off into Sterrett's abdomen.

: : : :

All of the 200 employes of the N Ludington company (the I. Stephenson company) at Marinette were surprised when getting their pay envelopes to find their wages had been raised 10 per cent. The increase was made without any request by the men or any public announcement and was a complete surprise.

: : : :

J. G. Dodsworth, a man about seventy-five years old and a resident of Granite Falls for nearly twenty-five years, met death by fighting a prairie fire on the outskirts of Granite Falls, near his home. He was alone, and seeing the fire coming fiercely toward his home he met it with all the resistance he could command, and in so doing his clothes caught fire, from which he was terribly burned. He lived about two hours and died in terrible agony.

: : : :

Paul Fournier, the Beltrami lifer, has entered the prison at Stillwater. He has been very sick of stomach trouble and is weak and depressed. He insists on his innocence, but declined to talk, saying that he leaves that to his attorneys.

: : : :

Another daylight robbery, one of the most daring in years, occurred at Minneapolis, when James St. John, a collector for Thorpe Bros., real estate dealers, was attacked and robbed of several bills and checks at First avenue northeast and Fourth street.

TAX COMMISSION IS NAMED

SAMUEL LORD, O. M. HALL AND PROF. M'VEY ARE THE COMMISSIONERS.

St. Paul, April 26.—Gov. Johnson appointed the three members to the permanent tax commission which has been created by the legislature. The first members of the commission will be Samuel Lord of Kasson, O. M. Hall of Red Wing and Prof. Franklin L. McVey of Minneapolis.

According to the provisions of the bill one member shall be appointed for two years, one for four years and one for six years. Gov. Johnson stated yesterday that he has not yet examined the bill fully, and therefore he has not yet decided as to which members he will name for the long and short terms.

Mr. Lord is a Republican in politics. He was a candidate for the Republican nomination for governor last fall.

O. M. Hall is a former congressman, has taken an important part in Democratic state politics and at present is president of the Minnesota State Tax league.

Prof. McVey is head of the department of political economy at the state university and is said to be non-partisan.

TAX COMMISSION IS NAMED.

Samuel Lord, O. M. Hall and Prof. McVey Are the Commissioners.

Minneapolis, April 27.—Minneapolis was visited with a disastrous fire yesterday afternoon which completely wrecked the large freight depot of the Wisconsin railroad.

The fire was one of the most spectacular seen in the city in years, sweeping through the long building with lightninglike rapidity and sending columns of flames and sparks high into the air to threaten the adjoining property and make the work of the firemen doubly hard. It was only by prompt and efficient work that valuable wholesale houses in the immediate vicinity were not also destroyed.

The fire started about 3:30. in the afternoon and by 5 o'clock the entire building was a total loss, besides several freight cars standing on tracks under part of the depot. Estimates of the loss on both building and freight stored within are varying, but a conservative estimate places the total amount at $400,000.

The flames originated in the dynamo room, where some oil was ignited.

O'BRIEN WILL QUIT OFFICE.

State Insurance Commissioner to Retire Soon.

St. Paul, April 28.—Insurance Commissioner T. D. O'Brien stated yesterday that he will resign his position, but he will stay in office two or three more days until the work in connection with the recent legislation is in shape. Then he will retire to practice law.

J. A. Hartigan, the actuary of the department, it is generally understood, will succeed Mr. O'Brien as insurance commissioner.

PERISHED MISERABLY IN WOODS.

Saloonkeeper Broke From Attendants While Being Taken to Asylum.

Bessemer, Minn., April 27. — John Nordquist, a saloonkeeper at Ramsey, while being taken to a sanatorium for treatment, jumped from the train and escaped.

After two days' search he was found dead under an old log, where he had evidently crawled for shelter.

COLLISION AT HANLEY FALLS.

Slippery Tracks Caused a Wreck — Lumber Car Telescoped.

Hanley Falls, Minn., April 27.—Two freight trains collided at the station owing to slippery tracks caused by the snow storm. One engine was badly damaged, several cars of lumber were telescoped and several immigrants were slightly bruised.

HURT BY LEAP IN SLEEP.

Man's Jump From Second Story Breaks Legs, Ribs and Jaw.

Walker, Minn., April 28. — John P. Leef of Pine River, while walking in his sleep, jumped from the second story of the Lake Shore hotel, alighting on the stone pavement, sixteen feet below, breaking his left leg in two places, three ribs and his lower jaw.

Long Revel Ends in Death.

New York, April 28. — An all-night drinking bout ended in a general fight yesterday, in which one man was shot to death and another arrested on a charge of murder, and eight others held as witnesses. None of the men arrested will tell what led to the killing.

College Is Prospering.

Albert Lea, Minn., April 26. — The trustees of Albert Lea college report finances in fine shape. The college has had the most prosperous year in its history. Some additions to the faculty will be made for the new year.

Snow Storm in Wisconsin.

Green Bay, Wis., April 26.—The second severe snow storm of the spring raged here yesterday. Six inches of snow were recorded with flakes still falling last night. Traffic is suffering great delay.

Tawney Gets Postoffice.

Winona, Minn., April 26. — Announcement of the appointment of George P. Tawney as postmaster of Winona has been made public. Mr. Tawney has been deputy postmaster for the past sixteen years. He will take hold the first of May.

The Seasons.

The calendar says May
But there must be some mistake:
The winds that blow so keenly
Chill my blood and make me shake.
The calender is twisted
And I reckon pretty soon
We'll welcome January
When the calender says June.
—"Bill" Squire

SPRING is taking a kindlier mood this week, and after a while we can hope for some real summer.

GRANDFATHERS used to tell of the wintry summer of 1816, which they called "eighteen hundred and froze to death" says the Duluth Herald. Nobody wants to see that particular history repeat itself.

RED LAKE FALLS will have a lot of visitors during the tournament week, and it behooves the house-holders to clean up, that the city can show off its material and natural beauties to the best advantage.

THE old saw: "He who often has deceived, will seldom be believed," might appropriately be quoted in answer to the Thief River News' latest diatribe concerning Red Lake Falls. The News has never told the truth in the county seat matter heretofore, and it would take a bushel of affidavits to convince an often-deluded public that he has reformed.

THE farmer with ten or fifteen cows in his barn and a creamery within easy reach does not need to worry about the weather, a backward spring, and how he shall get his seed in the ground, subjects that often make the all-grain farmers lay awake nights, says the Warren Sheaf. He knows that the season whether early or late is plenty long enough to grow grass and fodder for his stock, and that every day whether it be winter or summer, rain or shine, cold or warm, his cows always bring him a good income. While the all-wheat farmer is nervously waiting for spring and for a chance to get into his fields, the dairy farmer unconcernedly milks his cows, sells his cream, feeds his calves and pockets the money. Which kind of farming do you prefer?

The Wireless.

The first cable was laid in 1858 and now less than fifty years later, Dr. Alexander Graham Bell predicts that the wonder of its age will be rendered obsolete by wireless telegraphy. Do you that golden grain belt beer is the best tonic for your stomach nerves? It gives them strength to digest and assimilate the food you eat. Take a glass before each meal and you will not have to deprive yourself of the things you like to eat. Order a case of your nearest dealer or be supplied by Alex Thompson, Crookston.

Evergreens For Sale.

I have a large number of evergreens that I will sell this spring at low prices. Trees from 1 foot to 18 feet in height, 10c to 25c each: gauran eed to grow if planted as per directions; will replace trees that fail. These trees should be set out between now and May 15 and not later. Call on or address Wm. C. L. Demann, Red Lake Falls. 3w

FARMER ENRIGHT TALKS TO FARMER ENGELSTAD-EASTMAN

Gives the People Some Pointers That Engelstad-Eastman Forgot to Mention.---Many Reasons Why Farmers Should Refuse to Sign the County Seat Removal Petition.

Black River Township,
May 7th, 1907.

Brother Farmers of Red Lake County:

I had no intention of again giving you my views in print, but the abusive letter signed by P. Engelstad, a so-called "answer" to mine, now being circulated through the county, seems to require a reply.

I was both surprised and sorry that Mr. Engelstad should at the beck and call of Thief River Falls boosters, try to slur and abuse a brother farmer. We farmers have troubles enough without trying to abuse each other to help out some town. If Mr. Engelstad has any views of his own on the county seat question, he is certainly entitled to them, and I am entitled to mine. I have lived and farmed in this county a good many years, and what I've got I earned myself by good, hard labor, and am not dependent upon any man or any town. What I stated in my former letter was honestly stated from a farmer's standpoint, and I don't believe we farmers should look through the colored glasses furnished by either Thief River Falls or Red Lake Falls.

But I am told by those who claim to know, that Mr. Engelstad did not write the "answer" at all; that John Eastman, editor of a Thief River paper wrote it, and Engelstad let them use his name to fool the farmers with; that it appears plainly from the language of the letter, the use of the editor's "we," time and again, and the words "Red Lake Falls gang," so dear to Eastman's heart and pen.

But, whether Engelstad wrote it or not, I leave it to the farmers of this county if he has anything to be proud of, in the act.

He asks, what about the building of the jail and buying of cells and proceeds of jail-bonds? I have inquired and find that the jail has been inspected by every grand-jury, and reported allright; that it has saved the county a good many dollars sheriff's travelling fees, and board of prisoners, board at the Polk county jail being much higher under the law. and also that the money raised by jail bonds was paid over to the contractors upon the order of County Commissioner Hansen of Thief River Falls. If there was anything crooked about it, Mr. Engelstad had better ask Mr. Hansen who is now out circulating the Thief River county seat petition. He might know.

So bitter is Mr. Engelstad that he even hates the hill on which the jail is built, and so takes his grudge out in dirt.

Mr. Engelstad then states that the $164 paid by the county for costs recently was in the suit started by Wm. Erb against the county. This shows how much you can depend on his statements. He should either look things up before he speaks so he will know what he is talking about, or have Eastman lie for him about something not so easily proven.

The $164 was a judgment against the county auditor in the suit begun by L. A. Kaufer, and was the costs of the Supreme Court trial won by Red Lake Falls. The county auditor was defended by A. A. Miller, employed by Thief River Falls, and I have been shown a letter written by Mr. Miller to the county auditor in which he says that Thief River Falls would pay all costs in that case. When the bill was brought before the county board, Commissioner Shaw of Thief River Falls said his town expected to pay it but had not had time. That was several months ago and they have had lots of time but they have not paid it yet.

Next, as to the Jarman bill of $90. This was work done for Thief River Falls. Jarman put in his bill to the county board, it was allowed by Commissioners Shaw, Johnson and Eckstrom, and ordered paid out of taxpayers money. Red Lake Falls people appealed to the District Court from the allowance of the bill, and the District Court threw it out. The records are there to speak for themselves, where every one may see. If Thief River Falls people have since paid Jarman, it was because they had to, after Jarman had failed to get his money out of us taxpayers.

Next, Mr. Engelstad-Eastman attacks my statement that a change of county seat may mean an additional tax on us farmers of $5.00 to $8.00 per year each for the next 15 years. He argues that as there are 4212 quarter-sections in the county, there must be that many farmers.

If he would look up the last census report, he would find that outside of cities and villages there are just 1974 farmers, which, at $5.00 each per year would make less than ten thousand dollars per year, and if that would pay for the sixty thousand dollar courthouse Thief River Falls intends to make us build, and the ten thousand dollar furniture to furnish it, and the expenses of removal, and interest on the debt, there wouldn't be enough left to pay the Thief River lawyers what they have made us pay already, and what they will stick us for in the future.

In short Mr. Eastman-Engelstad's letter is based on nothing but wind. Every statement I have made is verified by the public records, and if you doubt it, go and look for yourself.

If there is anything wrong with anything I have said I would like to have them SHOW ME.

I am not going to sign any petition or anything else for either Red Lake Falls or Thief River Falls, which will get Red Lake county into trouble or into debt. This county seat petition will do both.

Therefore, I believe it is for the best interest of every one of us farmers to REFUSE TO SIGN THE COUNTY SEAT PETITION.

We have a court house in Red Lake Falls which is good enough. We have used it ten years, and it is in better shape now than it was when we first moved into it in 1897. It is paid for and the county don't owe a dollar on it. It's good enough so that you may notice what a scramble there is every election to get offices in it.

But Thief River Falls don't think it is good enough. Why? Because they want us farmers to help them get the county seat to their own town, where there is no court house so they can force the county to build a more expensive one, and tax us sixty thousand dollars for it to help build up their town.

Farmers, if we're going to pay for any buildings, let's have them on our own farms, and spend the money on our roads and bridges.

If there is going to be any fighting, let the two towns fight it out themselves, and pay their own lawyers.
—Ed Enright.

RIDING ON A SURF BOARD.

..Hawaiian Beaches Afford a Sport That Is Not Known Elsewhere.

At Waikiki, near Honolulu, is a famous bathing beach. Here winter and summer the surf canoes, or, better yet, the surf boards, come dancing in on the long rollers and men become amphibious.

There is no sensation quite comparable to riding a surfe board on a Pacific roller. It is tobogganing on a moving hillside of water, or, if you are clever enough to stand up on four board, it is taking this hillside on a single big ski. The beach runs far out before it shelves into deep water, and the breakers begin to mount almost half a mile, at high tide, from the shore line. You go out there with your surf board and wait for the wave.

You learn to catch it at the right moment, throw your board inshore, and climb upon it just as the crest of the roller mounts and catches you. Then, on this crest, you sail in toward the shore, to slide down at last when the wave breaks, down the foaming incline into shallow water and churning foam. It is royal sport.

HER FIRST BANK BOOK.

How She Escaped Drawing Checks for Odd Cents.

She was very proud of her first bank book, and determined to make none of the silly mistakes she had read about in the joke columns of newspapers. There was no danger of overdrawing her account, says the New York Sun. Every check was duly recorded on the stub, and every four checks a balance was correctly struck.

"But how is it?" asked the man one day when looking over her book; "how is it that your checks always come out in even dollars? Do you ever have a sum like $5.11 to pay?"

"Yes, often; but I have a famous scheme," she explained gleefully. "It's such a bother to add up the cents that I just make the check out for $5 and send the 11 cents in postage stamps."

A Spinster.

Rev. Amos Fletcher was a keen and accomplished naturalist. His specialty was a quite remarkable knowledge of different classes of fungi. His enthusiasm, however, was but indifferently appreciated by certain members of his parish, and one day, when calling upon one of them, old Miss Locke, he was considerably embarrassed when she reminded him of the exact length of time that had elapsed since he last paid her a visit.

He began to make excuse for the delay, when she cut him short. "If I was a toadstool," she said with grim irony, "you'd have been to see me long ago!"

First Insane Asylum.

In 1796 Mr. William Tuke, a Quaker, opened the first rational asylum for the insane in York, England. A few years earlier a Frenchman named Pinel had made a similar effort to restore the mentality deficient to the rank of human beings. Pinel's plan was that of non-restraint, a system then unheard of and, of course, to be ridiculed as a preposterous heresy. It is now being followed everywhere.

For sale--some good seed buckwheat. Address Treffle Grandoois, Red Lake Falls or call at the COURIER office. 2w.

Mrs. C. R. Rassmussen, of Thief River Falls was a guest at the home of her nephew, Sheriff Nelson, while on her way for a visit at Fergus Falls, Monday.

Mr. and Mrs. Cash Brunelle departed Monday evening for their home at Blackduck, after a pleasant visit at the home of Mr. and Mrs. George Brunelle, in this city.

Mrs. O. Thomas arrived from Moorhead Tuesday morning and will spend several weeks with Red Lake Falls friends. She is a guest at the home of Mrs. F. A. Mizen.

The Misses Winnie Herron, Anna Soards and Agnes Kelly came down from Thief River Falls Tuesday evening and remained over yesterday to attend the funeral of their friend Miss Clara Zaiser.

Rev. Herbert Knox left Tuesday evening for a visit of two weeks in the Twin cities and at Green Bay and Milwaukee. Wisconsin. He will be absent until the 24th or 26th inst.

Mike McNamara arrived here from Great Falls, Montana, last Friday and spent a day attending to some important business matters. Mike reports his railroad work as progressing finely.

Little Miss Bella Bray accompanied her aunt, Mrs Maher, to Crookstsn Tuesday evening and from there went to Grand Forks for a visit with her grandparents, Mr. and Mrs. M. Verboncour.

Will Leman, who was braking on the passenger train on this line several years ago, is now in charge of one of the freight crews on the Greenbush line. "Billy" has lots of friends here who are glad to see him progressing.

Wanted—Gentleman or lady to to travel for Mercantile House of $250,000.00 capital. If desirable the home may be used as headquarters. Weekly salary of $1,092.00 per year and expenses. Address J. A. Alexander, 125 Plymouth Place, Chicago, Illinois.

Roadmaster Regan went up to Strathcona Monday, to oversee the opening operations of the Great Northern gravel pit near there. The entire Greenbush line will be fixed up in good shape this year, and a large amount of gravel will be used in ballasting.

Peter Nimesgern left Monday evening for Oklahoma City, Oklahoma, intending to spend several months of the coming summer working at his trade. Peter was undecided as to whether he will remain that long but if conditions suit him it is likely that he will.

Mr. and Mrs. Harry E. Ives came down from St. Hilaire and spent Sunday at the home of Grandpa and Grandma Pirath. This was Harry's first visit here since he acquired the honors of a fond parent, but instead of adding a careworn look, it has made his smile all the more evident.

Miss Agnes Schaper, daughter of William Schaper, living south of town, was a member of a class of twelve young ladies and gentlemen that graduated from Prof. Sathre's Crookston business college last Friday evening. Miss Agnes is an exceptionally bright young lady, and will make a success of her new work.

Tom Whalen came up from LeSueur Tuesday morning and will spend several weeks with his sons, who reside north of town. Mr. Whalen stated that the people here have no reason to feel discouraged at the late spring, as the same condition prevails all through southern Minnesota. The Whalens will farm on an extensive scale this year.

During the absence of the pastor, the Sunday morning service will be omitted on next Sunday and also the week following. The Sunday school and young peoples' meeting will be held as usual. Next Sunday evening service will be conducted by the session of the Church and will be in charge of L. C. Simons.

Fire Warden Drier desires the COURIER to remind the people that it is strictly against the ordinance to build bonfires within the city limits, and that the provisions of the ordinance will be strictly enforced. Rubbish of all sort should be raked up and hauled to the city dumping ground. Mr. Drier intends to see that back alley fires are stopped at once.

Clem Brunelle went over to Blackduck Monday evening, to spend a week with his brother Cash. Clem went on the invitation of Bandmaster Romdenne, of that place, and tonight at the concert to be given by the band there will play a cornet duet with Mr. Romdenne, and also a cornet solo. Clem is gaining a reputation throughout the valley as a star cornetist, but merits the honor thus conveyed.

Contractor August Morin left Monday evening for Rolla, North Dakota, where he has a large job of contract work for the government, which was told of in the COURIER several weeks ago. Mr. Morin was accompanied by Joseph Lachance, Alvah Morin and Homer Laurent, who will spend the summer working with him there. The COURIER will keep them posted on Red Lake Falls happenings during their absence.

At the regular meeting of the Crookston fire department Monday evening, it was decided to organize a running team to represent that department at the tournament to be held here in June. Crookston has always participated in these tournaments and it would not seem like a meeting at all if Crookston was not represented this year. Red Lake Falls is particularly desirous of having Crookston with us on these three June days, and will guarantee them a dandy good time.

The first wreck of the season in the Great Northern cut here occured Monday evening when the trucks on a refrigerator car jumped the track and became lodged under the rear trucks. The train was brought to an abrupt halt and fortunately no other cars were thrown off the track. The wrecker was sent for and arrived at about six o'clock but it took the crew until eleven to clear the track and let the passengers through This is the first trouble to occur this year in the cut, but it is not expected to be the last.

Joseph Paranteau the popluar Terrebonne cheese maker, called here Saturday on business. He informed the COURIER that the demand for the output of their factory is greater than ever in its history, and that they find a ready sale at big prices for all the cheese they can manufacture. While the season is backward and no grass is yet to be had, Mr. Paranteau stated that the receipts of milk have been very satisfactory and he looks for a record-breaking year. He is deserving of all the success he is meeting with, as there is no better fellow or more competent cheese maker in the county than this same little Joe.

The members of the recently organized base ball team met Monday evening and talked on some matters of interest to the team. Word is received that the new uniforms will be along in a few days, and a plan was formulated whereby aid will be solicited to pay for them. The boys are also planning to give a benefit dance at an early date for the necessary expenses of getting the organization under way. Several games are in sight and if the weather man is at all kind during the next couple of weeks the old favorite expression "play ball" will again be heard. The material is at hand this year for a splendid team and Red Lake Falls will make a reputation on the diamond before the season ends.

Plummer Pioneer: The clearwater Mercantile Co. expects that the manager for their store will be here about the 15th and they will begin at once to make preperation for active business. The Board of Managers met yesterday and issued a lot of shares of stock which have been subscribed for and during the day took in enough money to easily satisfy the demands of the law requiring that 20 per cent of the captial stock shall have been subscribed and paid in before the company can begin actual business. In addition to the money taken in yesterday a lot more shares have been subscribed for that are not yet paid for. They expected that the man who will run the store would be here yesterday but he wrote that he was ill with a bad attack of the grip and would not be able to come for several days.

Deputy Dairy Inspector Joel G. Winkjer passed through here Tuesday on his way to St. Hilaire, where he was going to confer with Buttermaker Austin and other creamary hustlers at the Saintly city. Mr. Winkjer in conversation with the COURIER, stated that never before in the history of the valley was there such interest manifested in the dairy and creamery business as there is this spring, and he looks to see a record-breaking year in the matter of the output of the dairy products. Everywhere you go, says Mr. Winkjer. you can notice the farmers getting ready to raise new stock and instead of the old grain idea are raising grasses and food stuffs altogether. At the present rate of progress it will be but a very few years until northern Minnesota will be far ahead of all other sections of the county as a dairy and creamery section. Red Lake county is right in line and according to Mr. Winkjer the people here have excellent reasons to be proud of the showing made.

Free samples of "Preventics" and a booklet on Colds will will be gladly mailed you, on request, by Dr. Shoop, Racine, Wis., simply to prove merit. Preventics are little candy cold cure tablets. No quinine, no Laxative, nothing harmful whatever. Preventics prevent colds—as the name implies—when taken early or at the "Sneeze Stage." For a seated cold or Lagrippe, break it up quickly with Preventics. Sold by all dealers

Did He Ever Do It?

Walker Pilot: We wonder if our governor ever sat down and scribbled "John A. Johnson, President of the United States" just to see how it would look in black and white.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, the Heart, or The Kidneys. Address me, Dr. Dr. Shoop, Racine, Wis. Troubles of the stomach, heart or kidneys are merely symptoms of deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means stomack weakness always. And the heart and kidndys as well, have their controllin or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now Dr. Shoop's Restorative sold by all dealers.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note that it is made alone for Piles, and its action is positive and certain. Itching, painful protruding, or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by all dealers.

CLARA ZAISER DIES.

At the home of her parents in this city Monday afternoon at 1:30 occurred one of the saddest deaths in the history of Red Lake Falls, when Clara Dell, the second daughter of Mr. and Mrs. William Zaiser passed peacefully to "the sleep that knows no awakening." While for several days but little if any hope had been held out as to her recovery, yet the people of the city hoped against hope that she might be spared, but it was not to be, and after a valiant struggle with the reaper, the spirit gave up and returned to its maker.

Clare, as she was generally called, was a universal favorite with the people here. For three years past she had been in charge of the switchboard at the local telephone exchange and her duties brought her in daily contact with all the business people, who learned to admire her more each day for her womanly traits an obliging manners. She was ever ready and anxious to favor the people, and never hesitated to go out of her way to accommodate the patrons of the exchange.

Four weeks ago she was taken sick with what turned out to be an attack of appendicitis, and while she was given the best of medical care and the attention of loving relatives and friends, she did not seem to gain and grew worse until it was found necessary to operate in order to try and save her. Drs. Dunlap and Bertleson, of Crookston, were called in consultation with Dr. Watson and the operation was performed last Thursday. She recovered from the first effects of the shock all right but her strength was not sufficient to pull her through and she failed gradually until the end was reached.

Clara Dell Zaiser was born and raised in Red Lake Falls. She was nearly twenty years old, having been born July 1, 1887. Her life was an open book and to know her was to admire her. She numbered her friends and admirers only by the number of her acquaintances, and her sudden death, while only just starting out in life, cast a deep sorrow all over.

She leaves to mourn her a father, mother, four sisters and two brothers, and it is a sadhearted circle that sits today around the fireside.

The funeral services were held from St. Mary's church yesterday morning, the remains being interred in the Catholic cemetery east of town. The floral offerings were very numerous and beautiful, and the remains were followed to the place of final rest by a large number of sorrowing friends. The out of town relatives here were Mrs. Otto Kankel, of Fertile; C. T. Kankel, of Ulen; Mr. and Mrs. C. O. Kankel, of Terrebonne.

To the bereaved family the sympathy of a sorrowing public is extended in the fullest measure, but it is indeed cold consolation.

Wanted: Person to travel in home territory; salary $3.50 per day and expenses. Address, J. Alexander, 125 Plymouth Place, Chicago, Ill.

WALL PAPER

Our new spring stock is here, and if you need anything in this line you should see our styles. In new and exclusive designs at from............ 10c to 50c

CURTAINS

We have a very nice line at popular prices. Our 25c cloth shade is a dandy for the price.

GARCEAU & ZAISER—RED LAKE FALLS

"THE MARRYING SQUIRE."

Justice Geo. E. Law, of Brazil, Ind., Has Married 1400 Couples.

Justice Geo. E. Law, of Brazil, Ind., has fairly earned the title "The Marrying Squire," by which he is known far and wide, having already married some 1400 couples. Ten years ago he was Deputy County Treasurer. "At that time," said Justice Law, "I was suffering from an annoying kidney trouble. My back ached, my rest was broken at night, and the passages of the kidney secretions were too frequent and contained sediment. Three boxes of Doan's Kidney Pills cured me in 1897, and for the past nine years I have been free from kidney complaint and backache."

Sold by all dealers. 50 cents a box Foster-Milburn Co., Buffalo, N. Y.

His Lucky Horse Chestnut.

J. G. Simpson, who had been arrested recently as an alleged bookmaker, tearfully begged Lieut. Wheeler, after he had been released for want of evidence against him, to return a horse chestnut which the Lieutenant had taken from him.

"Please let me have it," he pleaded, "I might just as well try to play the races without money as without that horse chestnut. I can't lose if I carry it." When it was restored to him he seemed more glad to get it back than he was to obtain his discharge from custody.

Questions of Age.

Jokesmith—Yes; when I find my den too stuffy I go out in the woods and write jokes.

Critic—Indeed! Aren't you afraid the squirrels will steal them from you?

Jokesmith—Squirrels?

Critic—Yes; you know they are gathering all the stale chestnuts they can find.

IN WESTERN CANADA.

Delicate in the Old Home; Better Health in the New.

Churchbridge, Sask.,
December 1st, 1906.

To the Editor.
Dear Sir,

I came to this country from the State of Wisconsin three years ago, and must say that I am greatly pleased with the outlook in this western country. For my own part I am entirely satisfied with the progress I have made since coming here. I have raised excellent crops of grain of all varieties. Last season my wheat averaged 48 bushels of wheat to the acre, oats 40 and barley 40.

We had a splendid garden this year, ripening successfully tomatoes, muskmelons, water melons, sweet corn and kindred sorts.

The country is well adapted to wheat growing and mixed farming, and to my mind it is the best country under the sun for a man with a family and small means, as it is possible for a man to commence farming operations with much less capital than is required in the older settled countries.

The climate is all that could be desired, being very healthy and invigorating.

My wife came out about six months ago, and although inclined to be delicate in the old home, she has enjoyed the best of health since coming here.

In short, I am more than satisfied with the land of my adoption, and I am also satisfied with the laws of the country.

Yours very truly,
(Signed) JOHN LANGDON.

Write to any Canadian Government Agent for literature and full particulars.

His Wish.

"My daughter tells me that you are anxious to become my son-in-law?"

"No, sir."

"Why—ahem—I understood her to say you wished to marry her?"

"I do—that's just what I do wish; the fact that so doing will cause me to be your son-in-law is merely unavoidable."

BABY IN TERRIBLE STATE.

Awful Humor Eating Away Face—Body a Mass of Sores—Cuticura Cures in Two Weeks.

"My little daughter broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away. Her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents. Mrs. George J. Steese, 701 Coburn St., Akron, O., Aug. 30, 1905."

Nine to Account For.

Thomas Caterwaul—I love you better than my life, pet!

Kitty Mouser (cautiously)—Which one, Tommy, dear?

It is a pity to be ill! Take Garfield Tea, the laxative exactly suited to the needs of men, women and children; it is made wholly of herbs; it purifies the blood, eradicates disease, overcomes constipation, brings Good Health.

People are usually willing to do their duty, but they do not like to do too much of it.

THE FATAL GLOVE.

BY CLARA AUGUSTA

CHAPTER XVIII.—(Continued.)

It was August now, and the weather at its hottest. Margie spent a large portion of her time out of doors, with only Leo for a companion. She sat, one lovely afternoon, on the banks of the river, dividing her time between the charming panorama of sunshine and shadow before her, and a book of poems in her lap, when there was a step at her side. She looked up, and saw the face of Louis Castrani.

"Miss Harrison, you will, I trust, excuse me for seeking you here. But my wish to see you was so strong, that, on my way to the White Mountains, I left my party and turned aside here, to gratify the desire. You know you gave me permission?"

"I did; but I hardly thought you would take advantage of it."

"Perhaps I ought not to have done so. Indeed, I tried hard not to. Are you very angry?"

"No, I am not angry at all. I am glad to see you." She held out her hand. "So is Leo, too—only see him caper."

The dog was leaping upon Mr. Castrani, with the liveliest demonstrations of joy. He patted the silky head.

"It is something to be welcomed by a brute, Miss Harrison; their instincts are seldom at fault, I believe. Have you been well, Miss Harrison?"

"Very well, thank you. And you? But I need not ask. Your looks answer for you. When did you leave New York?"

"I have been in New York only a fortnight since I last saw you. Business has kept me elsewhere. I came from New York three days ago. What a beautiful spot you have hidden yourself in!"

"I am pleased to hear you say so. Isn't it lovely? But you must tell me about home. How are all my friends?"

"They are all well. How mellowly the sunshine falls on the rough crags opposite, and what a picture for a painter to transfer to canvas!"

"Yes, I have wished I were an artist, over and over again. But I have no talent in that direction. My friends are all well, you say? What of Miss Lee? Did you see her?"

"Yes, she is well. What are you reading?" lifting the book from the ground where it had fallen.

Margie turned suddenly upon him and regarded him searchingly.

"Why do you evade answering my questions, Mr. Castrani? It is natural that I should want to hear something of the home from which I have been so long away, is it not? Why do you refuse to satisfy my reasonable curiosity on that subject?"

Castrani's handsome face clouded—He looked at her with tender pity in his eyes.

"Miss Harrison, why will you press me further? Your friends are all well."

"I know, but there is something behind that. Tell it to me at once."

"I cannot—indeed, I cannot. You must hear it from other lips. I would rather die than cause you one single pang of sorrow."

"You are very kind, Mr. Castrani—you mean generously—but I want to know." Some subtle instinct seemed to tell her what she was to hear—for she added, "Is it of Miss Lee?"

"I told you Miss Lee was well."

"Mr. Castrani, I have given you more of my confidence that I have ever bestowed on any other person, because I respect you above all men, and because I have perfect confidence in your honor. Has this matter, of which you hesitate to tell me, anything to do with—with Archer Trevlyn?"

Her voice sank to a whisper, before the sentence was finished, for she had never spoken his name since that fearful night on which his guilt had been revealed to her.

"I will reply to your question by asking another: and, if it seems impertinent, remember that it is not so intended, and that I do not ask it from any vulgar feeling of curiosity."

"You can ask nothing impertinent, Mr. Castrani," she replied, earnestly.

"Thank you. I do not intend to. Are you betrothed to Archer Trevlyn?"

She grew very pale, but her eyes met his fearlessly.

"I was once, but it is all over now," with a dreary sigh, that was like the breath of the autumn wind through the dead leaves.

"Before you left New York—was it over before that?"

"Yes, before I left New York. It was why I left there. I cannot tell you how it was—I can never tell any human being. But a terrible necessity arose which forced us apart."

"Did he—did Arch Trevlyn desert you, Miss Harrison?" asked Castrani, his brow contracting, his dark eyes glowing with indignation.

"No; it was my hand that severed the engagement; do not blame him for that. It was impossible that it should be fulfilled."

"You, Miss Harrison? You broke the engagement?" he asked, eagerly.

Perhaps she read something in the beautiful hope that sprung up in his heart from the glad light in his eye, and she crushed it at once.

"Yes, I. But not because I had ceased to love him. O, no. He was—is—and will be always—the one love of my life-time. I shall never love another. Now, I have trusted you. Be frank and free with me."

"Well—since you ask it, Mr. Trevlyn and Miss Lee are to be married in September."

"To Miss Lee—married to Miss Lee? Great Heaven! And she is aware of his—What am I saying? What did I say? O, Mr. Castrani, excuse me—I am so—surprised—" She groped blindly for something to cling to, fell forward, and he received her senseless form in his arms.

He held her silently a moment, his face wearing a look of unutterable love and sadness; then he put her down on the grass, and brought water in a large leaf from the stream. He bathed her forehead, tenderly as a mother might, murmuring over her words of gentleness and affection.

"My poor Margie! My poor little darling!"

He pressed the little icy hands in his, but he did not kiss the lips he would have given half his life to have felt upon his. He was too honorable to take advantage of her helplessness. She revived after a while, and met his eyes as he knelt beside her.

"Are you better?" he asked, gently.

"Yes, it is over now. I am sorry to have troubled you. I must depend on you to go to the house with me. Nurse Day will be glad to welcome you. And I must ask you not to alarm her by alluding to my sudden illness. I am quite well now."

He gave her his arm, and they went up to the house together, followed by Leo.

CHAPTER XIX.

ARCHER TREVLYN and Alexandrine Lee were married in September. It was a very quiet wedding, the bridegroom preferring that there should be no parade or show on the occasion. Alexandrine and her mother both desired that it should take place in the fashionable church where they worshiped, but they yielded to the wishes of Mr. Trevlyn. He deserved some deference, Mrs. Lee declared, for having behaved so handsomely. His presents to his bride were superb. A set of diamonds, that were a little fortune in themselves, and a settlement of three thousand a year—pin money. The brown stone house was furnished, and there was no more elegant establishment in the city.

Trevlyn House, the fine old residence of the late John Trevlyn, was closed. Only the old butler and his wife remained in the back wing, to air the rooms occasionally, and keep the moths out of the upholstery. For some reason, unexplained to himself, Archer never took his wife there. Perhaps the quiet rooms too forcibly reminded him of the woman he had loved and lost.

Alexandrine's ambition was satisfied. At last she was the wife of a man whose love and admiration she had coveted since her first acquaintance with him. From her heart she believed him guilty of the murder of Paul Linmere; but in spite of it, she had married him. She loved him intensely enough to pardon even that heinous crime.

Her husband's admiration Alexandrine possessed, but she soon came to realize that he had told her the truth, when he said his heart was buried too deep to know resurrection. He was kind to her—very gentle, and kind, and generous—for it was not in Archer Trevlyn's nature to be unkind to anything—and he felt that he owed her all respect and attention, in return for her love. Her every wish was gratified. Horses, carriages, servants, dress, waited her command, but not what she craved for more than all—his love.

He never kissed her, never took her hands in his, or held her to him when he said good-by, as he frequently did, for several days' absence on matters of business. He never called her Alexandrine—it was always Mrs. Trevlyn; and through the long winter evenings, when they were not at some ball or party, and sat by their splendid fireside, he never put his head in her lap and let her soft fingers caress his hair, as she had seen other husbands do.

In September Louis Castrani again appeared in New York society. His appearance revived the old story of his devotion to Margaret Harrison, and people began to wonder why she had staid away from home so long.

As soon as he heard of Castrani's arrival Archer Trevlyn sought him out. He thought he had a right to know if his suspicions touching Margie were correct.

Castrani received him coldly but courteously. Trevlyn was not to be repelled, but went to the point at once.

"Mr. Castrani," he said, "I believe I have to deal with a man of honor, and I trust that you will do me the favor of answering the questions I may ask, frankly."

"I shall be happy to answer any inquiries which Mr. Trevlyn may propound, provided they are not impertinent," replied Castrani haughtily.

Trevlyn hesitated. He dreaded to have his suspicions confirmed, and he feared that if this man spoke the truth such would be the case.

"I am listening, Mr. Trevlyn," said Castrani.

"Excuse me. In order to make you understand my position, I must beg you to indulge me in a little retrospection. You are doubtless aware that at one time I was engaged to Miss Margaret Harrison?"

"Such was the rumor, sir."

"It was correct. I loved her deeply, fondly, with my whole soul—just as I love her still—in spite of it all."

"Mr. Trevlyn," said Castrani, with cold reproof in his voice, "you have a wife."

"I am aware of it, but the fact does not change my feelings. I have tried to kill all regard for Margaret Harrison, but it is impossible. I can control it, but I cannot make it die. My wife knows it all—I told her freely—and knowing it, she was willing to bear my name. For some reason, unknown to me, unexplained by Margaret, she cast me off. I had seen her only the day before the fatal note reached me—had held her in my arms and felt her kiss upon my lips." He stopped, controlling his emotion, and went on resolutely. "The next day I received a letter from her, a brief, cold, almost scornful letter. She renounced me utterly—she would never meet me again but as a stranger. She need make no explanation, she said. My own conscience would tell me why she could no longer be anything to me. As if I had committed some crime. I should have sought her, from one end of the earth to the other, and won from her an explanation of her rejection, had it not been for the force of circumstances, which revealed to me that she left for the North, in the early express—with you—or equivalent to that. She entered the train at the same time, and you were both in the same car. This fact, coupled with your well-known devotion to her, and her renunciation of me, satisfied me that she had fled from me, to the arms of—another lover."

"Villain!" cried Castrani, starting from his chair, his face scarlet with indignation. "If it were not a disgrace to use violence upon a guest, I would thrash you soundly! You loved Margaret Harrison, and yet believed that damnable falsehood of her! Out upon such love! She is, and was, as pure as the angels! Yes, you say truly, I was devoted to her. I would have given my life, yea, my soul's salvation, for her love! But she never cared for me. I never enticed her to do evil—I would not, if I could, and I could not, if I would! Who repeated this vile slander? Show him to me, and by heaven, his blood shall wipe out the stain!"

All Trevlyn's pride and passion left him. His face lost its rigid tenseness, his eyes grew moist. He forgave Castrani's insults, he told him Margaret was pure. He put out his hands and grasped those of his companion.

"O, sir," he said, "I thank you—I thank you! You have made me as happy as it is now possible for me to become. It is like going back to heaven after a long absence, to know that she was pure—that I was not deceived in her. O, Margie! Margie! my wronged Margie! God forgive me for indulging such a thought of you."

Castrani's hard face softened a little, as he witnessed the utter abandonment of the proud man before him.

"You may well ask God to forgive you," he said. "You deserve the depths of perdition for harboring in your heart a thought against the purity of that woman. Archer Trevlyn, had she loved me as she did you, I would have cut off my right hand before I would have entertained a suspicion of sin in her! It is true she went North on the same train as I did, but I did not know it until the journey was ended. Previous to that time I had not seen her for more than a fortnight, and I did not know she was near me, until in Boston my attention was attracted by a crowd of 'roughs' gathered around a lady and a greyhound. The lady had lost her portmonnaie, and the crowd made some insulting remarks which I took the liberty of resenting, and when I saw the lady's face, to my amazement I recognized Margaret Harrison!"

(TO BE CONTINUED.)

The "Wacht am Rhein."

Of the martial songs more particularly connected with the various periods of storm and stress in Germany, one of the most celebrated is that of the "Rhine," composed by Becker and answered by Alfred de Musset in other well known verses. The "Wacht am Rhein," by Max Schneckenburger, was composed about the same period as the Rhine song, but attained its widest popularity during the war of 1870. Unlike Becker's song, it cannot boast of having been set to music by seventy composers.

The patriotic song of "Deutschland, Deutschland uber Alles," was the work of the popular writer, poet, philologist and historian, August Hoffmann, who was born at Fallersleben in the year 1798. For a time we find him acting as librarian and later as a professor at the university of Breslau, but the liberal tendency of some of his writings caused him, in 1838, to be deprived of his professional chair. For many years he was librarian to the duke of Ratibor and died in this sheltered post in 1874. The German national anthem, "Heil Dir im Siegerkranz," was written originally for the birthday of Christian VII., king of Denmark, by a Holstein clergyman. The words were written to the air of "God Save the King" in 1790, and a few years later were modified for Prussian use.—Chambers' Journal.

Rich and Poor.

None but the dissolute among the poor look upon the rich as their natural enemies, and desire to pillage their houses and divide their property. None but the dissolute among the rich speak in opprobrious terms of the vices and failings of the poor.—Rev. W. T. Veale.

CURIOS OF ETRUSCA

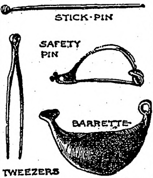
INTERESTING COLLECTION NOW IN SMITHSONIAN.

Dainty Ornamental Safety Pins Among the Relics of Many Centuries Ago—Designs Are as Fine as Those of To-Day.

An exceedingly interesting collection of Etruscan curios is being placed on exhibition for the first time in the Smithsonian institution. All those who think that hair pins, pins to keep garments in place when the buttons are gone, safety pins, tweezers and articles for the manicure table are of modern invention should examine these relics, dating back 4,000 and 5,000 years.

The modern safety pin is a poor affair when viewed beside the dozen or more varieties brought from Etruria. The most ornate were obtained in Chiusi, the ancient Clusium, city of Macaulay's Lars Porsena, who was so versatile in the fine art of swearing that his name is immortal. The men of Clusium used the safety pin with as much ease as their womankind. Some of the long bronze articles could keep the heaviest blanket in place and some were undoubtedly to keep the trappings of horses in order. Others are so delicate and finely wrought in silver, gold and bronze, that their owners must have been far advanced in the art of looking pretty. Some are of twisted wire, looking very much like the modern filigree brooch, with rings and ornaments pending, just as they do now from the bangle bracelet of the modern belle. The savants at the Smithsonian think that some dozen or more of these dainty pins were used to confine the loose flowing robe of the Etruscan grande dame. Then here are long slender safety pins, much like those in use in every civilized home of the world. There are heavy coarse looking bronze pins evidently for slaves and poor people, but the belles in Etruria, in the year 1500, B. C., had as fine wrought and graceful brooches and toilet aids as the woman who patronizes the most renowned Parisian goldsmith.

Hair pins, hair ornaments, cute little ivory catches to keep the back hair from straying on the neck, all were old to these women of that past era. They had such costly hair ornaments that they would easily be counted among the well coiffured women of to-day. Bronze hair pins in those days were what bone and steel are to-day. But the lady of quality in Clusium, in Vulci and other Etruscan cities had her gold and jeweled hair ornaments just as the grande dames now have their tiaras. Some of the pins held large rubies and pearls. One in the Smithsonian collection shows that a large stone of some sort adorned the ball at the end. They are all of graceful design, quite comparable to the best efforts of the jeweler to-day.



Safety Pin, Tweezers, Barrette and Other Things Worn and Used by Women Who Lived Thousands of Years Ago.

SQUIRREL ROBBED THE MAIL.

Small Marauder Carried Off Property of Uncle Sam.

The robbing of the United States mail by a squirrel was a most unusual incident which occurred in this city recently.

Martin Daszkowski, one of the oldest mail-carriers in the city, was on his regular rounds, and had among his mail to be delivered an advertising card to which was attached a large walnut, inside of which was the matter advertised. A little squirrel, of which there are many in Winona, seeing the nut, jumped upon Mr. Daszkowski's shoulder and running down his arm with lightning speed, took the nut and card from his hand and then climbed a near by tree, where it investigated the contents of the nut.

Fortunately, upon discovering that the nut was not the kind it wanted, the squirrel dropped it and the card without damaging either, and they were later delivered to the proper address.—Winona Cor. St. Paul Dispatch.

Met Death in Oven.

An old woman who lived alone in a cottage near Zurich, Switzerland, was in the habit, when feeling unwell, of getting into a hot oven for a sort of Turkish bath. When inside she used to close and reopen the oven door by means of a small cord. The other day she was taking one of these baths, and in attempting to open the door she broke the string. Some days later she was found dead in the oven—suffocated or starved. From the woman's distorted body she apparently had a desperate death struggle.

EVEN IF DISCOURAGED

TRY DR. WILLIAMS' PINK PILLS FOR YOUR RHEUMATISM.

The Pills Have Cured the Disease in Almost Every Form and Even in Advanced Stages.

Rheumatism is a painful inflammation of the muscles or of the coverings of the joints and is sometimes accompanied by swelling. The pain is sharp and shooting and does not confine itself to any one part of the body, but after settling in one joint or muscle for a time, leaves it and passes on to another. The most dangerous tendency of the disease is to attack the heart. External applications may give relief from pain for a time but the disease cannot be cured until the blood is purified. Dr. Williams' Pink Pills are the best medicine for this purpose as their action is directly on the blood, making it rich, red and healthy. When the blood is pure there can be no rheumatism.

Mrs. Ellen A. Russell, of South Goff St., Auburn, Me., says: "I had been sick for fifteen years from impure blood, brought on by overwork. My heart was weak and my hands colorless. I was troubled with indigestion and vomiting spells, which came on every few months. I had no appetite and used to have awful fainting spells, falling down when at my work. I frequently felt numb all over. My head ached continuously for five years.

"About two years ago I began to feel rheumatism in my joints, which became so lame I could hardly walk. My joints were swollen and pained me terribly.

"Dr. Williams' Pink Pills were recommended to me by a friend, after I had failed to get well from the doctor's treatment. When I began taking the pills, the rheumatism was at its worst. I had taken only a few boxes, when the headaches stopped and not long afterward I felt the pain in my joints becoming less and less, until there was none at all. The stiffness was gone and I have never had any return of the rheumatism."

Dr. Williams' Pink Pills have cured such diseases as nervous and general debility, indigestion, nervous headache, neuralgia and even partial paralysis and locomotor ataxia. As a tonic for the blood and nerves they are unequalled.

A pamphlet on "Diseases of the Blood" and a copy of our diet book will be sent free on request to anyone interested.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

An Old Will Found.

A will dated 1745 and deposited in the Bank of England has just been discovered in that establishment. The testator left his property, worth $25,000, to a family named Windel, living in Fuerstenburg, a village near Baden. In all the years that the will was forgotten the money has been increasing at compound interest, and the sum is now $7,250,000. People at Fuerstenburg bearing the name of Windel have heard of the will and have sent agents to London with papers that they contend show their descent from the Windel family.

A Growler.

"Many a man," said Brother Williams, "growls 'kaze he ain't got nuttin' ter growl 'bout. I once knowed a man what growled 'kaze de spots on de sun wuzn't big enough ter be a shady umbreller for him while he wuz ploghin' in July."

Important to Mothers.

Points of View.

"Beautiful memorial window," remarked her husband, as they left the church.

"I didn't notice particularly," said his wife, "but the light from it fell on the Jones' pew, and it made her complexion a fright."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

MISS DORA HAYDEN.

"Without hesitation I write to thank you for the great relief I have found in your valuable medicine, Peruna, and will call the attention of all my friends suffering with catarrh to that fact. Besides I cheerfully recommend it to all suffering with catarrh in any form."—Miss Dora Hayden, 819 6th St., S. W., Washington, D. C.

A Case of Spring Catarrh.

Mrs. N. P. Lawler, 423½ N. Broadway, Pittsburg, Kas., writes: "Last spring I caught a severe cold, which developed into a serious case of catarrh. I felt weak and sick, and could neither eat nor sleep well.

"A member of our club who had been cured of catarrh through the use of Peruna advised me to try it, and I did so at once. I expected help, but nothing like the wonderful change for the better I observed almost as soon as I started taking it. In three days I felt much better, and within two weeks I was in fine health. Peruna is a wonderful medicine."

Out West.

"Why can't I get my number?" demanded the man.

"Line's busy," replied the telephone girl.

"I don't believe it."

"It's so, just the same. Some cowboys have borrowed it to hang a horse thief with."

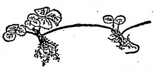
THE GROWING OF PEDIGREED STRAWBERRIES

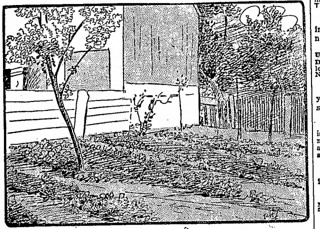
Simply a Matter of Selection and Propagation of Best Plants—By T. B. Hoyt, Prominent Minnesota Horticulturist.

In speaking of "pedigree" strawberry plants, I mean high grade plants that have been selected for a series of years with the view of improvement. A pedigree plant is one with a known ancestry. Webster's definition for pedigree is: 1, Lineage; line of ancestors from which a person or tribe descends. 2, An account or register of a line of ancestors. A pedigree plant is not understood to be the same as a pedigree animal, although many of the laws and principles of breeding are practically the same with plants as with animals. The term pedigree is used simply as a means of distinguishing high grade plants of a known selection from plants of ordinary breeding. I believe it is as important for the plant propagator to keep a record of his plants for propagating purposes as it is for the stock breeder to keep a record of his breeding stock.



Parent Strawberry and Young Plant.

My aim has been from the first to improve the best varieties of strawberries adapted to the Northwest by a continual selection of ideal plants each year. I have set a new propagating bed every spring and my plants for this work have always been selected with the greatest care, never using an exhausted plant from a fruiting bed, but always plants selected from the propagating beds set the previous year.



A Backyard Strawberry Patch.

Only the ideal specimens, the same as ideal ears of corn, are selected for our breeding plot, and we find that the improvement is usually in proportion to the standard of the plants used for that purpose.

Variation in plants is continually going on. No two plants are exactly alike, and when planted in good soil and given the best cultivation some are going to outdo the others, and these should be staked. These individual variations are of the greatest importance to the plant breeder, and by selecting these properly, a distinct strain may often be produced. New varieties are not often produced in this manner, but the best varieties can be greatly improved or at least kept up to a high standard.

Planting the propagating bed is done as early as possible in the spring so as to give the plants as long a season as possible to become established and send out their new runners, which furnish the plant for the next spring's setting, as we always discard the mother plants.

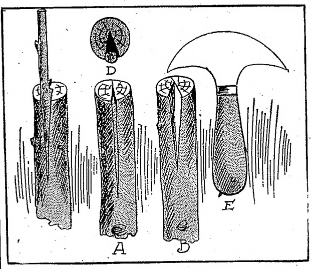
We take great care in setting plants to have the roots well spread out and firmed, after which a Planet Junior 12-tooth harrow cultivator, with pulverizer, is run as near the plants as possible to loosen up the soil so as to prevent evaporation from the surface. We try to cultivate after every rain, as we then get the best soil conditions. We have a number of the 12-tooth cultivators, and find them the best tool for strawberries we have ever been able to find. As the runners begin to grow the cultivator is closed up and the outside pulverizers taken off.

As fast as the blossoms appear they are pinched off and the young runners will then soon start to grow. We have our propagating beds laid out both ways and do as much cross cultivating as possible to get the soil in a mellow condition to receive the young plants, as I have found the cultivator leaves the soil in better shape to receive the young layers than a crew of men with hoes.

We layer the first runners by hand, filling up the rows as evenly as possible and still not getting the plants too close. The quicker a young runner takes root the quicker there will be another new one. Plants must be kept growing and not allowed to crowd one another if the best development is expected. It is a good plant to clip the the last runners that appear late in the fall to allow those already set to have all the strength and become better plants.

As soon as the ground freezes in the fall we start covering our propagating beds. We do this to prevent the alternate freezing and thawing which often damages plants. We have tried all kinds of covering, but this year used coarse marsh hay almost exclusively. While strawberry plants may often winter through without covering, we have found that it pays to put on a covering each year, even at a large expense.

A New Method of Grafting



Before a meeting of the American Pomological society the following method of grafting was described by a gentleman from Colorado, who stated that it was the most successful method that he had employed in top working old orchards, and that it could be used on branches as large as four inches in diameter with great success. It impresses one as being possibly better than ordinary cleft grafting for large stocks, from the fact that the surfaces of the union were all smooth and the scions held more firmly. The method of procedure is as follows: After determining where the graft had better go the stock is cut off with a fine saw and the cut made in the side of the stock, as shown at "A." This is then cleaned out with a knife, as shown at "B:" a saddler's knife is used for this purpose, outline of which is shown at "E." The scion is cut as is usual in cleft grafting and is driven with some little force into the groove of the stock as shown at "C" and in cross section at "D." It will be found that after this graft has been driven in it can only be pulled out by using considerable force and it is held much more firmly than in the ordinary cleft graft.

All wounds should be covered with wax as in ordinary cleft grafting.

For Scaly Legs.—Coal oil and lard are excellent for scaly legs caused by parasites. A scaly-legged fowl is a detriment to any flock, and this is the time of the year when they are apt to be overlooked.

Same Thing.

"Yes," said Miss Markley, "he told me I was the only girl he ever loved."

"Oh! come now!" exclaimed her friend.

"Well, he said I was the only girl with light hair and brown eyes and a mole on her left ear that he ever loved.

HEALTH OF WOMEN

In this nineteenth century to keep up with the march of progress every power of woman is strained to its utmost, and the tax upon her physical system is far greater than ever.

In the good old-fashioned days of our grandmothers few drugs were used in medicines. They relied upon roots and herbs to cure weaknesses and disease, and their knowledge of roots and herbs was far greater than that of women today.

It was in this study of roots and herbs that Lydia E. Pinkham, of Lynn, Mass., discovered and gave to the women of the world a remedy more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value.

This medicine made from native roots and herbs contains no narcotics or other harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.

Mrs. C. E. Fink, of Carnegie, Pa., writes:—Dear Mrs. Pinkham:—"I wish every suffering woman would take Lydia E. Pinkham's Vegetable Compound and write to you for advice. It has done me a world of good and what it has accomplished for me I know it will do for others."

When women are troubled with Irregularities, Displacements, Ulceration, Inflammation, Backache, Nervous Prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case.

Men think they can fool some women all of the time and all women some of the time, but as a matter of fact they can't fool any of the women any of the time.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

RHEUMATISM
CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acrid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.

Sheriff's Sale.

State of Minnesota, County of Red Lake, ss.—District Court.

First State Bank of Brooks, Plaintiff,
vs
Tolof Torgeson, Defendant.

Notice is Hereby Given, That by virtue of an execution to me directed and delivered, and now in my hands, issued out of the District Court, Fourteenth Judicial District, State of Minnesota, in and for the County of Red Lake, upon a Judgment rendered in said Court in favor of First State Bank of Brooks, the above named plaintiff, and against Tolof Torgeson, the above named defendant, I have levied upon the following described real property of said defendant, towit:

The East Half (E½) of the West half (W½) of the Southeast quarter (SE¼), and the East half (E½) of the Southwest quarter (SW¼) of the Northeast quarter (NE¼), all in Section Six (6), in Township One Hundred and Fifty (150) North of Range Forty-one (41) West, in said Red Lake County and State of Minnesota, and that I shall on Saturday, the 22nd day of June, 1907, at the hour of two o'clock p. m. of said day, at the west front door of the Court House, in the City of Red Lake Falls, in said County and State, proceed to sell all the right, title and interest of the above named defendant in and to the above described property, to satisfy said judgment and costs, amounting to One Hundred and Seventy Dollars and 24 cents, together with all accruing costs of sale, and interest on the same from the 8th day of March, A. D. 1907, at the rate of six per cent. per annum, at public auction, to the highest bidder for cash.

Notice of Expiration of Redemption.

State of Minnesota, County of Red Lake. } ss. Office of County Auditor

To James E. Ford, Red Lake Falls, Minn.

You are hereby notified that the following described piece or parcel of land, situated in the county of Red Lake, State of Minnesota, and known and described as follows, towit:

Lot numbered 20 in Block numbered 15, of Champagne & Dow's Addition to Red Lake Falls is now assessed in your name; that on the 11th day of May, A. D. 1903, at a sale of land pursuant to the real estate tax judgment, duly given and made in and by the District Court in and for said County of Red Lake on the twenty-fifth day of March, A. D., 1903, in proceedings to enforce the payment of taxes delinquent upon real estate for the year A. D. 1901, for the said county of Red Lake, the above described piece or parcel of land was sold for the sum of Three Dollars and Thirty-six Cents; that the said land still remains unredeemed and that the tax certificate issued for said land at said sale has been presented to me at my office by the holder thereof for the purpose of having notice of redemption from said sale given and served; that the amount required to redeem said piece or parcel of land from said sale exclusive of the costs to accrue upon this notice, is the sum of Four Dollars and Ninety-six Cents and interest on Three Dollars and Thirty-six Cents, at the rate of 12 per cent per annum from the twenty-fifth day of April, A. D 1907, to the day such redemption is made, (said last named sum being the aggregate amount [illegible] and interest thereon at 12 per cent. per annum, all delinquent taxes, penalties, costs and interest thereon, accruing subsequent to said sale and paid by said purchaser and all unpaid delinquent taxes, interest, costs and penalties accruing upon said land subsequent to said sale); and the time of redemption of said piece or parcel of land from said sale will expire sixty (60) days after the service of this notice and proof thereof has been filed in my office.

Witness my hand and seal of office [illegible] day of April, A. D. 1906.

Notice is hereby given that application has been made in writing to the city council of said city of Red Lake Falls and filed in my office, praying for license to sell intoxicating liquors for the term commencing on May 7, 1907, and terminating on May 6, 1908, by the following person, and at the following place, as stated in said application, to-wit:

JOSEPH H. PARADIS, in that certain brick building situate on lot 19 of block 3, in Champagne & Dow's addition to Red Lake Falls, Minn.

Said applications will be heard and determined by said city council of the city of Red Lake Falls at the city hall in the city of Red Lake Falls, in Red Lake county and state of Minnesota, on Thursday, the 1.th day of May, 1907, at 8 o'clock p. m. of that day.

Witness my hand and seal of the city of Red Lake Falls this 25th day of April A. D. 1907.

m2-9 A. P. TOUPIN, City Clerk.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Nine Hundred Nineteen and 32-100 ($919.32) Dollars, which is claimed to be due and is due at the date of this notice upon a certain Mortgage, duly executed and delivered by Samuel W. Lee, a single man, Mortgagor to Swante W. Larson, Mortgagee, bearing date the third day of October 1901, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 10th day of October, 1901, at 11:30 o'clock A. M., in Book 20 of Mortgages, on page 305,

Which said mortgage, together with the debt secured thereby, was duly assigned by said Swante W. Larson Mortgagee, to Merchants State Bank of Red Lake Falls, Minn., by written assignment, dated the 24th day of January, 1907, and recorded in the office of said Register of Deeds, on the 12th day of April, 1907, at four o'clock P. M., in Book 15 of Mortgages, on page 372, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof;

NOW THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: The Northeast quarter (ne¼) of Section twenty-six (26), in Township one hundred fifty-two (152), north of Range forty-four (44) West of the Fifth Principal Meridian. Containing one hundred and sixty acres, more or less, according to the United States Government survey thereof, in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the Sheriff of said Red Lake County at the West front door of the Court House, in the City of Red Lake Falls, in said County and State, on the first day of June, A. D., 1907, at 10 o'clock A. M., of that day at public vendue, to the highest bidder for cash, to pay said debt of Nine Hundred Nineteen and 32-100 Dollars, and interest, and the taxes, if any, on said premises, and Twenty-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated April 17th, 1907.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Last Mountain Valley Lands

We own thousands of acres of Choice Selected Land in this district, which is right in the heart of the Great Wheat Plains of Saskatchewan. The richness of the soil in this district is shown in the reports of the Government which give an average of 26¾ bushels of wheat to the acre for 1906. The great development of this part of Western Canada has brought about the competition of 3 railways. Ample timber for fuel and fencing. Send 15c for beautiful, new souvenir book, entitled "The Lake and the Land of the Last Mountain Valley." Also 20th Century Atlas of Canada sent with souvenir book. Write to-day. IN PUBLIC RECITAL

Music Class of St. Joseph's Parochial School to Give Musicale Monday Evening.

The music class of Sister Cecilia, of St. Joseph's school, will give a musicale at the Metropolitan opera house on Monday evening of next week, May 20, at 8 o'clock.

The entertainment will be free to all and a cordial invitation is extended to the public to turn out and hear the program. No seats will be reserved, and the only restriction will be that children must be accompanied by their parents to be admitted.

Sister Cecilia's music class has made rapid progress this year, and Monday evening's entertainment promises to be one of the finest ever held in the city.

The following is the program:

Opening Chorus..........Glover
"Gathering Flowers in May."
Class.
Duet "Pizzicate"..........Delibes
Cora Paul, Lea Latendresse.
Solo, (a) "Vesper Hymn"
(b) "Melody"..........Mathews
Donald Marshall.
Solo, "March"..........Hale
Hazel Bourdon.

Miss Eva Paradis.
Solo, "Flowers of Spring"..........LaFarge
Cora Paul.
Duet, "Galop de Concert"..........Blake
Miss Eva Paradis, Lea Latendresse.

Accompanist, Miss Eva Paradis.

Drag The Roads.

The following verses written by an Eastern farmer for his local paper are appropriate to this locality. Get a split log drag for the roads and—

When you've nothing else to do,
Drag the roads;
If but for an hour or two,
Drag the roads;
It will keep them as good as new,
With a surface firm and true,
Fall in line! It's up to you;
Drag the roads.

Would you do the proper thing
Drag the roads;
Set the system on the wing,
Drag the roads.
Give the drag a lively swing,
Toss the laurel wreath to King!
Hat off! Everybody sing.
"DRAG THE ROADS"

Just received a fresh consignment of fancy cookies. See them before you buy.—Freund's confectionery.

CREAMERY DOING WELL.

Business Done So Far is Very Satisfactory.

The Red Lake Falls creamery is making a particularly good record so far this year, and while the backward season has kept the milk production down yet the receipts are very satisfactory to those interested in the plant, and indications are that before the year is over the local creamery will rank with the best of them in the valley.

There are now sixty patrons bringing cream to the factory, and this number is being increased every week. When the grass gets out in good shape the cream receipts will be materially increased and the factory will be a busy place all the year around from now on.

Buttermaker Malvin is proving a popular manager, and the patrons of the creamery are very much pleased with his work. He understands his business thoroughly and his finished product does not take a back seat for any butter made in the state.

The creamery is the salvation of the Red River Valley and every farmer living tributary to Red Lake Falls should join in the good work and become a patron at once.

The first payment from the local plant will be made about the 20th, and the checks will prove that the Red Lake Falls creamery is a good thing to tie to,

STATE FAIR JOB.

Dailies Say The Red Lake Falls Band Has Been Engaged.

According to the Minneapolis dailies the Red Lake Falls Concert band will play an engagement of three days at the Minnesota state Fair at Hamline this fall. The papers state that the Fairmont and Red Lake Falls bands are the only two outside the cities that will be engaged this year.

When seen regarding the matter, Manager Tracy of the local organization, stated that such an offer had been made, though not officially, and a few details were to be arranged before he could say whether or not the band would accept the offer.

This is surely a good advertisement for Red Lake Falls and demonstrates beyond a doubt that the city receives untold good from a musical organization such as Red Lake Falls boasts. For these fair jobs there is keen rivalry among the bands outside the cities, and that our organization should be selected as one of two country organizations speaks well for the reputation it has made.

If the band accepts the offer they will be at the fair the last three days of the first week in September, and without doubt a goodly delegation of citizens will accompany them on their trip.

Wanted—person to travel and collect in home territory; weekly of $1072 per year and expenses. Address Jos. Alexander. Red Lake Falls.

SHOT HIS BROTHER

Four-year-old Son of Walt McAndrees Gets Killed By Rifle Ball.

A terrible accident happened at the farm home of Walter McAndrees in Highlanding township Monday morning, which resulted in the death of a bright four-year-old son of Mr. and Mrs. McAndrees, and which cast a gloom over the entire neighborhood.

It seems that last week Mr. McAndrees gave his nine-year-old son a 22-calibre rifle as a present, and the boy had been having great sport shooting muskrats in the river. On Monday he went down to the river for the same purpose and his little four-year-old brother accompanied him. The older boy cocked the rifle in readiness to shoot, but before he got near enough the rat disappeared. They returned to the farm yard, but the older boy had forgotten to let the hammer of the rifle down and in some manner it was discharged, the bullet striking the smaller boy in the temple and coming out of his forehead. His parents immediately summoned medical aid from Thief River Falls, but long before it could arrive the little fellow was dead, having lived but a few hours.

The funeral was at Thief River Falls Tuesday, the remains being interred in the cemetery there.

The family and neighborhood are all broken up over the affair, as the little fellow who met such an untimely fate was a universal favorite.

It is a sad, sad lesson, but one nevertheless that should be a forceful reminder that the 22-rifle and the small boy are two things that it is well to keep as far apart as possible.

ANNUAL TAX SALE

County Auditor O'Brien Disposes of Large Amount of Property For Taxes.

The annual delinquent tax sale was held at the office of County Auditor O'Brien Monday, and one of the best sales in the history of the county resulted.

The tax list contained some fifteen hundred descriptions, and while much of the city property in the cities and villages was not bid upon, all the farm lands wer bid off rapidly.

A big crowd of bidders was present, and from the way they went after the choice pieces offered it is evident that there is plenty of money at hand to place in safe investments.

The sale was continued nearly all day, and the clean-up was a very satisfactory one to County Auditor O'Brien. Among those bidding were Theo. Garceau, of the First State Bank, J. A. Duffy of the Merchants State Bank for himself and G. Vandertuuk, of Minneapolis; Jas. E. Ford for F. H. Wellcome of Minneapolis; E. L. Quist, for Keine & Son, Dubuque; M. O. Sortedahl, P. B. Gaas, L. C. Simons and several others.

The Tindes- Box.

The tinder-box and its accompanying flint have not yet gone out of date. In spite of the cheapness of matches the ancient fire-producers are still in such demand among travellers in out of the way places—and among the natives of those places—that the English town of Brandon devotes itself entirely to the manufacture of them. To the daily user, golden grein belt beer, the ideal home beverage brings health, strength and happiness. It is pure, wholesome, and delicieus. Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

It's too bad to see people who go from day to day suffering from physical weakness when Hollister's Rocky Mountain Tea would make them well. The greatest tonic known. 35cents, Tea or tablets. A. L. Reichert.

MURPHY WAS HERE

Minneapolis Magnate Spends Several Hours In Red Lake Falls Last Friday.

W. J. Murphy, publisher of the Minneapolis Tribune, and one of that city's most prominent millionaires, spent Friday afternoon in this city, in company with Electrician Peterson, of Crookston.

The object of Mr. Murphy's visit here was not given out, but both he and Mr. Peterson spent the greater part of the afternoon at the Healy dam, and made an extensive investigation of the power. They took measurements, etc., and went over the ground carefully from way below the dam to the county bridge, taking notes on conditions as they found them.

In a manner, Mr. Murphy's visit to this power at this time is significant. It is a well known fact that he has had in mind a project of building a large dam on the Red Lake river at Louisville, and on good authority it is stated that a company of capitalists with whom Murphy is identified are planning on building electric lines throughout several parts of the valley. Mr. Murphy also owns the Crookston water and light company and is anxious to get additional power that he may care for his lighting business.

While nothing definite is known, it is surmised that Mr. Murphy has a notion of investing in the power here, and if he should do so it would mean a great deal for Red Lake Falls.

TEACHERS MEETING

Red Lake County Association to Gather at St. Hilaire on June 21 and 22.

The Red Lake County Teachers' association will hold their next regular meeting at St. Hilaire Friday and Saturday, June 21 and 22, and President Moller and the other members of the committee are working hard to make this meeting one of the most successful ever held.

The chief event at this meeting will be a spelling contest between the teachers, and this feature promises to be one of great interest both to the school workers and the public. Aside from the spelling contest there will be a varied program, consisting of musical numbers, papers, discussions, etc.

The program committee is endeavoring to secure several outside speakers for the occasion, and if the plans do not miscarry they will have more than one prominent educator with them on these dates.

The Red Lake county association is one of the live ones of the Valley, and is of great help to the teachers.

Harry's Soliloqy.

St. Hilaire Spectator: To sign or not to sign; whether it is better to endure the ills we now have, or sign that county seat petition and bring upon ourselves troubles we know not of; is the question the average citizen is meditating upon these days. It is something like those roads in Texas. If you take one you will wish you had tried the other. The taxpayer will be the chief mourner—either way.

Lace Curtains or Draperies

Made like new by our special process. Why throw away a pretty pair of lace curtains or portiers, just because they have become soiled, when we can clean them at a small cost, and return to you almost as good as new?

Information booklet free. Return express paid on orders $3 or more

BAND LEADER COMING.

Manager Tracy Has Secured Services of Good Musician.

Prof. R. C. Hogue, of Des Moines, Iowa, band and orchestra leader, vocal instructor and all around musician, will be the dirrctor of the Red Lake Falls Concert band within a few days. The final arrangements with Mr. Hogue were made by Manager Tracy this week, and the band boys are naturally pleased that they have secured a man with the ability the new leader is recommended to have.

Prof Hogue is a man of family and expects to move here and take up a permanent residence. This is what the band has always wanted, but could never before get, and on this account there is added cause for satisfaction.

Prof. Hogue has had a great many years experience as a band and orchestra leader and plays both clarionet and violin. His recommendations are gilt-edged, and from every indication Manager Tracy feels that he has secured a leader that will make this his home and keep the band up to its high standard of excellence.

The people of Red Lake Falls are interested in the welfare of their prize musical aggregation, and the news that a permanent leader has been secured is pleasing to all.

FIXING THE GROUNDS.

Work on the Track and Ball Ground Begins in Earnest.

The work of making the track for the firemen's races in June, and of fixing up the ball diamond and grounds was started in dead earnest yesterday, when Exerie Chatel with a dozen men and teams started things moving.

The track will be about 250 yards long, and is located in the road running south of the ball grounds. It is being plowed and scraped and will be leveled off as soon as possible, when cinders will be added to make it one of the finest tracks in the valley.

The ball ground is also, being scraped off and will be a fine one when finished.

Dan J. Doran, who has the contract to build the grandstand, expects to get to work on this structure very shortly. The grandstand will be erected south of the race track, and both the races and ball games can be watched from there.

The work of fencing in the grounds will be rushed along so that it will be in readiness on the first day of the tournament.

Mrs. Marshall Entertains.

Mrs. E. F. Marshall was the hostess at a six o'clock dinner party given at her home last Saturday evening, when fourteen young people of the city were most royally entertained. The dinner was in the nature of a progressive affair and was served in seven courses. After each course the gueets progressed a chair, and during the interim conversation was carried on. At the conclusion of the feast the ladies were asked to vote ts to which gentleman gresent was the best entertainer, and H. H. Zaiser carried off the honors by a unanimous vote. Helmuth had the other male members of the party at a decided disadvantage, however, inasmuch as he has long since acquired the art of talking and eating at the same time, but the vote of the ladies at the party only expressed the general sentiment of all the feminine population at that. Vocal and instrumental music was part of the evening's pleasure, and it was one of the most enjoyable parties of the year. Those present were the Misses Alice Coughlin, Laura Detert, Etta Garceau, Elene Hanson, Mary Lamb, Louise Twinam, Eliza Prudo; Messrs. N. M. Watson, H. W. Anderson, Lee E. Healy, Sam E. Hunt, Norman Schreiter, [illegible] D. Padden and H. H. Zaiser.

Artists have no trouble [illegible] the famous beauties [illegible] corsets and have bec[illegible] in face and form since taking H[illegible]ter's Rocky Mountain Tea. 35 cents. Tea or tablets. A. L. Reichert.

SERIOUS ACCIDENT

Master Leo Steinert Loses Two Fingers By Explosion of Dynamite Cap.

A serious and what might easily have been fatal accident happened in the third grade room of the Lafayette school last Friday afternoon, when Master Leo Steinert had part of one hand blown away and was otherwise badly injured by the explosion of a dynamite cap.

It seems that last week some of the little fellows in the same grade as young Steinert found quite a number of dynamite caps in an ash pile near the school house, and not realizing what they were they distributed them around among their playmates. Several who got them dug the powder out and were using the shells for whistles, while others were carrying them around with other pocket trinkets.

From the information at hand it seems that Master Steinert had one on his desk at school Friday afternoon and was picking away at it with a nail when the thing exploded with terrific force. The school was thrown into a panic, and the youngsters in the room made a hasty exit. When the excitement had subsided sufficiently to allow an investigation it was found that young Steinert was quite badly hurt and some of the older boys hurried with him to the office of Dr. Lemieux. The doctor put the lad under the influence of ether and proceeded to dress the wounds. He found the thumb and forefinger of the left hand completely torn off and dressed the thumb at the first joint and the finger at the second joint. The other fingers on that hand were badly cut and his right hand also received bad usage. His face was a mass of cuts and scratches, several pieces of the cartridge having hit him there. Young Steinert was later taken home, and while still very sore his wounds are healing very nicely.

Just how the dynamite caps came to be in the ash pile is a mystery, but it will be remembered that a box of them were found by some boys in the room vacated by the O'Brien hardware last summer, and it is likely that they were thrown in the ash heap without a thought of the consequences. Something over twenty youngsters each had from one to a dozen in their possession when the accident happened, and that they made quick disposition of them is not to be wondered at. How it happened that one or more of the boys were not killed is indeed a mystery, as they were very careless in handling them, some even putting the loaded caps in their mouths and biting on them.

The accident was an unfortunate one for Master Leo, and the people sympathize with him in his affliction but considering the kind of explosive the youngsters were handling it is mighty fortunate that several were not killed outright.

The Celebrated Percheron Stallion

BOB

Will at Guerin Bros.' Barn, Red Lake Falls, on

Thursday, Friday and Saturday of Each Week

for the balance of the season.

"Bob" is a gray Percheron, young and sound, and is considered as one of the best horses in the county.

RED LAKE FALLS, MINNESOTA

NEWS OF WEEK SUMMARIZED

IMPORTANT EVENTS AT HOME AND ON FOREIGN SHORES BRIEFLY TOLD.

Washington.

Last month was the coldest April in the last twenty-six years, and within a degree of the coldest April ever experienced, according to the weather bureau.

A grand total of 13,319 new governmental positions were created by congress at its last session. The salaries for these places aggregate $8,851,775. This is an average of a trifle more than $600 for each.

The secretary of the navy has given permission to the naval academy to allow the midshipmen eight-oared crews to enter the Poughkeepsie regatta. The naval academy alumni of New York has agreed to furnish the necessary funds.

The monthly comparative statement of the government receipts and expenditures shows that for the month of April, 1907, the total receipts were $53,260,591 and the expenditures $48,071,134, leaving a surplus for the month of $5,189,457.

Personal.

Rev. J. D. Simmons of Parkersville, W. Va., editor of the Baptist Banner, is dead from apoplexy.

David J. Cook, a noted pathfinder and detective, died suddenly at Denver of heart disease, aged sixty years.

Capt. George H. Cottrell, one of the pioneer captains of the Great Lakes, died at his home in Marine City, Mich., aged ninety years, after an illness of one week.

John Kells Ingram, the political economist, is dead in Deblin. He was born in 1823, and was an honorary member of the American Economical association.

George Henry Daniels, general passenger agent of the New York Central, who has been connected with the company for twenty-one years, has retired from active service.

Maj. Gerald Rathbone died at San Francisco after a brief illness. He was consul at Paris under the first Cleveland administration. During the war Maj. Rathbone was aide on the staff of Gen. Scofield.

Accidental Happenings.

A prairie fire north of Glencoe, Iowa, caused a loss estimated at $10,000 before it was checked.

Fire in the building occupied by the Union City Chair company at Union City, Pa., caused a loss of $300,000.

A train was wrecked at Collett, Ind., and about a dozen passengers were injured. Only two were seriously hurt.

While hunting ground squirrels in the cemetery at Burlington, Iowa, Paul Hiltman, thirteen years old, accidentally shot himself and will die.

Frightened by a policeman entering her home in Philadelphia to arrest her husband, Mrs. Josephine Hess, aged forty-six years, dropped dead.

Nine women and three children were injured, one woman seriously, in the collapse of a sidewalk at the opening of a 5 and 10 cent store at Rock Island, Ill.

A revolver falling from the pocket of Hilario Hernandez, a priest at Puebla, Mex., sent a bullet through the heart of N. Joaquin Casarrato, a young millionaire.

Mrs. William Jones was struck by a Milwaukee flyer while driving across the tracks at Cedar Rapids, Iowa, during the recent blinding snow storm. She was instantly killed.

Foreign.

A Portuguese Jew was murdered at Tangier by a negro in the pay of a Moor. The murderer received 1 franc (about 19 cents) for his crime.

It has been finally decided that the body of Pope Leo shall be transferred to the Church of St. John Latern at night and as privately as possible.

Jose Battle y Ordonez, ex-president of Uruguay, and Juan Pedro Castro have been appointed to represent Uruguay at the peace conference at The Hague.

Rich deposits of thorium, used in the manufacture of incandescent filaments, have been discovered in an abandoned mine in the province of Perm, Russia.

Through the agency of the American consul general at St. Petersburg, a train of twenty-nine Siberian sledge dogs has been secured for the Wellman expedition.

Emperor William has purchased from Princess Leopold of Bavaria the Villa Achilleoion, on the Island of Corfu. The object of the emperor is to have a residence in a warm climate.

Gov. Magoon has suspended Ygnacio Contalvo, collector of the port of Guantanamo, who is charged with demanding a tribute from the railroads and importers.

The revolutionary movement in Montenegro, which is a military government, has been proclaimed and armed bands are reported to be marching on the capital. The movement is assuming a serious character, according to dispatches arriving at Vienna by way of Ragusa. Disorder is said to be rapidly spreading throughout the country.

Prince Edward of Wales, son of the prince of Wales, has joined the royal naval college at Osborne as a cadet. He will occupy a bunk in the college dormitory and will be restricted to the 25 cents weekly pocket money allowed by the regulations.

An enterprising shopper of Vienna, who found two hands insufficient for shopping in wet weather, has invented a light steel frame to be attached to the upper part of the body to support an umbrella. He claims it to be a complete success. It leaves both arms free.

Criminal.

Carroll B. Short, a prominent attorney, was shot and instantly killed at Center, Tex., by Dr. Buck Paul. The shooting grew out of a feud of several months' standing.

Because he was refused a job which he had left in sympathy with the striking mill workers, Joseph Menzel, a carpenter of Dubuque, Iowa, committed suicide by hanging.

David Martin, sixty-five years old, was killed by a freight train, and Mabel Martin, aged eighteen months, a granddaughter, met death under a traction car at Kokomo, Ind.

A spectacular suicide was attempted at Webster City, Iowa, by Mrs. Madge Olmstead, who swallowed a bottle of strychnine containing forty-eight grains. A physician with a stomach pump saved the woman's life.

Henry Williams and his uncle, Abraham Miles, farmers residing near Gallipolis, Ohio, quarreled because of the alleged attentions of Williams to Mrs. Miles. Williams, with a shotgun, blew Miles' head off his shoulders.

An attempt was made to wreck the flyer on the Illinois Central between Nashua and Plainfield, Iowa, by unknown persons, who piled ties on the track. A north-bound engine passed over the obstruction and crashed it down so that it failed to wreck the train.

The Penny Arcade building and picture display at Riverside Park, near Sioux City, burned. Loss, $4,700. It was for running this place in the city that John Spencer was indicted, but the jury disagreed. J. G. Blake had purchased it to run at the park. The fire was incendiary.

On a charge of pouring oil over a dog and setting fire to it, Grace Wilson of Lexington, Ky., was fined $100 and costs. She acknowledged the deed of cruelty and asked the mercy of the court, claiming she had been suffering from nervousness and was extremely angry at the time. The dog, a water spaniel, died from its injuries.

L. D. Strong walked into the printing office of Henry D. Smith at Macon, Ga., and fired five bullets into his body. While the tragedy was being enacted the grand jury found an indictment against the man slain for the seduction of Miss Lillian Strong, sister of the slayer. A coroner's jury rendered a verdict of justifiable homicide under the "unwritten law."

Domestic.

The second biennial session of the Missouri Federation of Woman's Clubs was held at Joplin, Mo.

Edward Johnson, is dead at a Billings hospital as a result of the shock of awakening and finding a burglar in his room.

Ten transatlantic liners brought more than 15,000 aliens to New York in one day, which is the record number for one day.

Frank P. Sargent, commissioner of immigration, has received notice that 1,050 Spanish immigrants have sailed for Honolulu with the intention to locate in the Hawaiian islands.

Mrs. Tena Menesko, a Polish woman who came to the La Porte county (Ind.) infirmary in 1876, when she was eighty-two years old, died there at the age of 113 years.

To carry on the construction of the Michigan Central railroad tunnel under the Detroit river, the Detroit River Tunnel company has given a blanket mortgage on its property for $15,000,000.

The State of New Hampshire will be the headquarters of the British and German embassies during the coming summer. Both ambassadors have taken summer residences in that state.

Petitions have been filed with the Polk county (Iowa) supervisors for the construction of a drainage ditch which will be known as the Skunk river drain, which it is estimated will cost $1,000,000.

Vice Chancellor Wiggin of the University of the South at Sewanee, Tenn., announced a donation of $60,000 from Andrew Carnegie, to be devoted to the erection of a science hall for the university.

Keorge H. Phelps has filed a suit in the common pleas court at Findlay, Ohio, against the Standard Oil company, its subsidiary companies and directors of the companies, asking that they be enjoined from doing business in Ohio, and claiming that they are operating against the Valentine anti-trust law.

The Hamburg-American steam packet company has issued a circular announcing that the Prussian government has abolished the requirement that Russian emigrants be bathed and disinfected at sanitary stations after passing the frontier.

Statistics collected by the interstate commerce commission show that 24,499 casualties occurred to passengers and employes on railroads during the three months ending Dec. 31, 1906. This is an increase of 104 over the preceding three months. The damage to equipment aggregated $3,099,228.

BLOODY FIGHT IN FRISCO STREETS

STRIKE OF STREET CAR MEN DEVELOPS INTO A FIERCE RIOT.

MANY ARE FATALLY INJURED

ATTEMPT TO MOVE CARS STARTS TROUBLE—MISSILES OF MOB MET WITH BULLETS.

San Francisco, May 9.—The strike of the 1,700 union motormen and conductors of the United Railroads developed yesterday afternoon into a riot, in which more than a score of persons were severely hurt, some fatally wounded and others hurt to a lesser extent.

One of the injured subsequently died in a hospital.

At 2:30 o' clock the company made its first attempt to resume the operation of its system by sending out seven passenger cars manned by between thirty and forty strikebreakers wearing the uniform of car inspectors and each carrying a .38-caliber revolver strapped around his waist outside of his coat.

Bricks and Stones Are Hurled.

Twenty-seven policemen, five mounted officers and several sergeants, under the command of Capt. Mooney, were on patrol guard. The appearance of the cars was the signal for an immense outburst of jeers and howls from the crowd of about 5,000 men and boys. Before the cars had gone a block they were made the targets of stones and bricks. A guard on the rear platform answered the flying stones with a pistol shot. The bullet struck one of the union sympathizers in the arm.

Fierce Fighting.

This transformed the crowd into a wild mob and thence forward for twelve blocks there was fierce fighting. The strikers and their friends, aided by hundreds of youthful hoodlums, kept up a running shower of missiles. The guards on board the cars responded with fusillade after fusillade of pistol shots.

Eight men received bullet wounds, some of which will prove fatal.

Many Were Shot.

Finally a dozen or more of the guards were arrested by the reserves from the central police station and a union crowd boarded the rearmost car and started it back to the barns. Arriving there the strikers charged that revolver fire was opened upon them from the barns. In this encounter several more men were shot.

The mere appearance of relief squads to reinforce Police Captain Mooney's men resulted about 4:40 o'clock in the partial dispersing of the crowds.

SIX MURDERED BY MADMAN.

Crazy Carpenter Thought Victims Were Plotting for His Money.

San Francisco, May 9. — Walter Charles Davis, a carpenter, in a fit of insanity yesterday shot and killed a family of six persons, with whom he resided.

One lodger in the house escaped. She was a girl of seventeen. Davis pointed his gun at her and was preparing to shoot when he said she resembled his daughter, so he spared her.

Davis and victims all resided with the Bush family, who conducted a boarding house.

The shooting was done with a double-barreled shotgun. Davis, who slept in the same room with young Bush and Beard, arose shortly after 5 o'clock, and after arming himself with the gun shot his roommates. Then he visited each room in turn, killing the occupants. The shots attracted a large crowd.

Davis was overpowered by the police and taken to the detention ward of the hospital.

Davis fancied that the people in the house had formed a plot to kill him and take his money.

LYNDHURST IN HOCK.

Prentientious Pittsburg Home of Mrs. Thaw Is Mortgaged.

Pittsburg, Pa., May 9.—"Lyndhurst," the pretentious home of Mrs. William Thaw in the East end section of this city, has been mortgaged for $100,000. The mortgage was secured some time ago, the book containing the record has been hidden and information concerning the document did not become public until yesterday. The interest charged is 5 1-2 per cent, and the mortgage is held by the Fidelity Title and Trust company. It will mature in three years.

The paper was drawn in New York city on March 7, 1907.

SHIP IN STATE OF MUTINY.

Chinese and Russian Steerage Passengers in Battle.

San Diego, Cal., May 9.—With 921 Chinese steerage passengers, all on their way from Vladivostok and Shanghai to Mazatlan and Guaymas, the British steamer Maori King put in here yesterday in distress. A state of mutiny exists on board the vessel and the ship is now at quarantine, under guard of immigration and custom officials while awaiting settlement of the matter.

IRISH BILL AT LAST PRESENTED

CONFERS LITTLE SELF-GOVERNMENT UPON IRELAND—IRISH DISAPPOINTED.

London, May 9. — The government yesterday presented its long-awaited Irish bill to the house of commons and the country. This bill is designed to meet the demands for Irish home rule. It was presented by the chief secretary for Ireland, Mr. Birrell, to a crowed house.

Compared with the home rule bills of 1886 and 1906 this measure confers little self-government upon Ireland, merely giving to the council control of the eight departments now managed by government boards.

The council is to be appointed by the crown, and while the lord lieutenant of Ireland is given power to nullify its measures, the crown retains control of five of the eight departments, including the constabulary. The control of this branch always has been a thorn in the flesh of the Irish people.

It is natural and quite to be expected that this half way measure is wholly pleasing to no political party. The Unionists regard it as a step toward home rule. The Radicals are disappointed that the measure falls so short of actual home rule and the Irish members are even more disappointed with it.

Irish Are Diplomatic.

The Irish leaders, however, are maintaining a diplomatic attitude until they have time to study the provisions of the bill and learn the sentiment of the people.

A Nationalist convention will be held in Dublin soon to decide upon the policy of the Irish party. The laborites will support the measure because they are all home rulers.

To prevent the first reading of the bill being deferred until to-day, and while Walter Hume Long was still speaking, Mr. Birrell moved the closure. Then amid great uproar and protests and shouts of "gag" the closure was carried by 417 votes to 121, and the bill passed its first reading by 416 votes to 121.

The house then adjourned.

NINE DEAD IN TEXAS TORNADO.

Crops Are Badly Damaged and Property Loss Will Be Great.

Mount Pleasant, Tex., May 9. — Heavy damage and loss of life was wrought by the tornado which swept Northern Texas late Monday. The towns of Ridgeway and Birthright are reported practically destroyed.

All telegraphic and telephonic communication is suspended and details are lacking.

Nine persons are reported killed in the two villages and vicinity. Several persons were injured by flying debris.

Birthright, a town of 500 inhabitants, is reported to have been completely destroyed. Great damage is reported at Caney, a negro settlement, and loss of life may have occurred there.

Crops in the path of the tornado are badly damaged and fences have been destroyed.

LEAVES WEALTH TO KIN.

Will of "Silent Smith" Disposes of $25,000,000 Estate.

New York, May 9.—The will of the late James Henry Smith—"Silent Smith"—was made public in this city yesterday. The value of the estate is estimated at not more than $25,000,000.

All his near kin receive legacies and there are bequests to two local hospitals. The will provides for a direct heir, but of this it is said there is not a remote possibility.

His nephews, George Grant Mason and William Smith Mason, are the principal beneficiaries of the estate, receiving two-thirds and one-third, respectively, of the residue.

BIG LOSS TO UNDERWRITERS.

Steamship Dakota Will Cost London Companies About $3,750,000.

Liverpool, May 9.—An agent of the Liverpool Salvage association sent to Japan to make a report on the prospects of refloating the Great Northern Steamship company's transpacific line steamer Dakota, which ran ashore in the bay of Tokio March 3, cables that it is hopeless to attempt to salvage the vessel, though part of her cargo may be saved.

The Dakota is said to represent a loss to the London underwriters of $3,750,000.

DUEL IS FATAL TO BOTH.

Aspirants for Hand of Mexican Young Lady Fight Duel.

Pueblo, Mex., May 9. — Lauro Janders, millionaire owner of several haciendas, and Jose Maria Beltran, municipal director of Tlatanqui, both aspirants for the hand of the daughter of a prominent planter of this district, fought a duel with pistols in the streets, in which both were mortally wounded. Both men fell at the first fire.

Girl's Hand Is Crushed.

Prairie due Chien, Wis., May 9. — Mary Ludwig, twenty-two years old, a helper in the Disman house laundry, accidentally had her right hand crushed to the wrist in a power wringer and but for timely assistance would have lost her arm.

118 Foot Fall Is Fatal.

Minot, N. D., May 9.—Jess Skidner of Bird Island, Minn., lost his life by stepping out of a freight car and falling from a bridge 118 feet high, five miles west of the city.

BRENNAN SLAYER, SAYS WIFE, STELLA

WOMAN IN STATE PRISON FOR MURDER OF STEPCHILDREN SEEKS FREEDOM.

CONFESSION IS CHIEF WEAPON

MRS. BRENNAN HAS ALLEGED NOTE FROM HUSBAND, OWNING TO CRIME.

Minneapolis, May 10.—"I knew you were innocent. I didn't intend to shoot you. I was excited and didn't know what I was doing. —"Jim."

Armed with a note bearing these words and insisting that her husband, James Brenan, was the murderer of his three children, and that she, an innocent woman, is serving a life sentence in Stillwater for a crime which she never committed, Stella Brennan has commenced a fight for freedom.

Sequel to Horrible Tragedy.

The declaration of Mrs. Brennan, in which she charges her husband with comes as a sequel to one of the most horrible tragedies in the history of Hennepin county.

Elizabeth, Alice and Arthur Brennan, three young children, were murdered in their beds on the night of Nov. 4, 1905. Tommy Brennan, a brother of the three children, was shot through the head, and Mrs. Stella Brennan, their stepmother, received a flesh wound in the breast. Tommy, the boy, asserted that Mrs. Brennan had shot his brother and sisters, then turned the gun on him and finally on herself.

Given Life Sentence.

The woman protested her innocence, but was convicted of murder in the second degree and given a life sentence in Stillwater. Last July a daughter was born to Mrs. Brennan in prison.

Mrs. Brennan now asserts that she has evidence to show that the real murderer of the children was James Brennan, their father, and she offers as proof of her assertion a note which she says she received from James Brennan since her imprisonment at Stillwater. In the note Brennan admits that he did the shooting.

James Brennan is in Minneapolis. He denies the charges made by his wife.

REWARDS FOR BANDITS.

Montana Offers Reward for Men Who Attempted to Hold Up Train.

Helena, Mont., May 11.—The State of Montana offered a reward of $1,000 for the arrest and conviction of the men who in attempting to rob the North Coast limited passenger train at Welch's Spur Tuesday, killed Engineer Clow. This makes the total reward for the murderers $3,000, the railroad company having offered $2,000.

Missula, Mont., May 10.—Two men believed to be Northern Pacific train robbers have been arrested at Arlea, twenty-seven miles west of here. Sheriff Noff and posse have left for that city.

RUSH SEEDING WORK.

Red River Valley Farmers Find Soil in Prime Condition.

Crookston, Minn., May 11. — The weather conditions have been ideal throughout the length and breadth of the Minnesota Red River valley since Tuesday and the farmers are hastening to get their grain into the ground. Thousands of acres already have been seeded in the immediate vicinity of Crookston and old farmers of the valley claim that the soil has not been in better shape for seeding in years.

MAN AND WOMAN SHOT.

Michigan People Are Murdered and Teamster Is Arrested.

Au Sable, Mich., May 11. — Joseph Turcott and a woman known as Mrs. Laplonte were ambuscaded last night near Oscoda and shot by an unknown person. The woman died almost instantly and the man is dying. Jealously is suspected to have been at the bottom of the shooting. Eugene Munday, a teamster, has been arrested on suspicion.

FORGER GETS THREE YEARS.

Man Caught in Texas Is Sentenced in Montana.

Helena, Mont., May 11.—J. A. Mitten, who was convicted in Bozeman on the charge of forgery while ostensibly representing an Eastern firm of school supplies manufacturers by "raising" an order into a promissory note, was sentenced to three years in the penitentiary by Judge Stewart. He was captured in Texas.

Library for Helena.

Helena, Mont., May 11. — Senator Thomas H. Carter, who returned from the East yesterday, announced that just prior to his sailing for Scotland Andrew Carnegie had promised Helena a $30,000 library building.

Babe Burned to Crisp.

Stillwater, Minn., May 11.—The two-year-old daughter of Peter Lohmen was burned to a crisp yesterday. The child's clothes caught fire from a bonfire while the parents were absent from home.

TRIAL OF HAYWOOD BEGINS

EXAMINATION OF PROSPECTIVE JURORS IS TAKEN UP AT BOISE.

Boise, Idaho, May 11. — William D. Haywood, first of the alleged participants in the avenging conspiracy by which it is averred the assassination of Former Governor Frank Steunenberg was plotted and executed, was placed on trial for his life yesterday. Counsel for state and prisoner entered at once in a businesslike way on the examination of prospective jurors, and kept at the task for five hours. No juror was finally accepted, but substantial progress was made, and the indications at the close of the session were that a jury could be obtained by the end of next week. The opening day of the trial went through to its conclusion in harmony, unmarked by unusual incident. Its striking feature was the entire absence of crowds or demonstration in any form.

The case was halted shortly before 5 o'clock by the exhaustion of the jury panel and adjournment was taken until Monday morning. Meantime the sheriff will summon a special venire of 100 men. The eleven men under examination but not yet finally accepted or rejected were locked up and will be closely guarded.

WISCONSIN LEGISLATURE.

Senate Discusses Galveston Plan and Lays Bill Over One Week.

Madison, Wis., May 10.—A proposition to authorize cities to abolish the system of government by aldermanic boards and substitute therefor a system of government by commissioners elected at large was discussed in the senate yesterday and the bill was laid over for a week in order to give an opportunity for more thorough reviewing and study of its provisions.

The bill was on the calendar with a recommendation for passage by the committee on villages and cities. Senator Page asked that the roll be called upon the question of advancing it to engrossment and third reading, and Senator Noble made an argument in favor of the measure.

He said it was not true, as charged, that the bil is a new thing or a revolutionary measures, because the aldermanic system of city government came in only about 1830, and prior to that time cities had been governed by small boards substantially as proposed in the bill. Iowa, Kansas, Texas and South Dakota have laws similar to this bill, and in Texas, where the system has had a thorough trial, it has been found most successful, bettering the government and saving vast sums of money to the taxpayers, particularly in Galveston.

Senator Husting announced his dissent from the favorable report of the committee on cities and villages, and declared that he understood the committee to be determined to report the bill without recommendation. He declared the measure revolutionary and not sanctioned by any demand from the people of the state. The bill was laid over for a week.

BOASTS ABOUT HEALTH; DIES.

Iowa Pioneer Falls Dead From Witness Chair.

Des Moines, May 11.—"I am sixty-five, but sound as a dollar and good for at least eighty-five."

With the sound of his own voice still lingering on his lips, James Hadfield, a pioneer of Polk county, testifying as a witness in a civil action, gave a sudden gasp, slipped forward on the chair and dropped to the floor dead. Heart disease was the cause of his death.

Apparently Hadfield was in the best of health. He was answering the usual question as to age put to a witness when he jocularly boasted of the future. The death created a scene in the court room.

SEIZED AS UNDER WEIGHT.

Coffee and Spices Shipped From Chicago Are in Hock.

Preston, Minn., May 11.—Inspector Fowler of the state dairy and food commission confiscated all the coffee and spices included in a car of groceries shipped here by Hitchcock, Hill & Co., of Chicago. It is alleged that the packages were short in weight from two ounces to two pounds.

TRUE BILLS FOR FIVE.

Alleged Timber Trespassers Indicted at Fergus Falls.

Fergus Falls, Minn., May 11. — The federal grand jury rounded up quite a number of alleged timber trespassers yesterday, indictments being returned against Joseph Quinlan, John Burns, P. G. Peterson, Peter Vizener and Antoine Yellowhead.

Train Kills Laborer.

Minneapolis, May 11.—An unidentified laborer was yesterday morning found dead under the Northern Pacific bridge near Washington avenue. It is believed he was struck by a train during the night as he was crossing the bridge.

Sonwballed Off Train.

West Liberty, Iowa, May 11.—While dodging snowballs thrown at him by some boys, B. E. Peacock, a brakeman, lost his balance and fell from a car of a freight train. It is feared that his injuries will prove fatal.

Killed in Mine.

Calumet, Mich., May 11.—While at work in No. 5 shaft of the Calumet & Hecla mine Adolph Blom, a roller fixer, was struck by the skip and instantly killed. He was eighteen years old.

The State Day by Day

AT WORK ON THE STATE FAIR.

New Buildings to Be Put Up on the Recently Acquired Ground.

With the state fair four months away the board of managers has taken the task of making improvements to cost $100,000 in time for the opening, Sept. 2.

The board had an all-day session. President C. N. Cosgrove was in the chair and Vice Presidents B. F. Nelson and C. M. Griggs and Directors William E. Lee, J. M. Underwood, D. S. Hall and G. W. Patterson and Secretary E. W. Randall were present.

Most important was the prompt action looking to the construction of the new dairy and poultry buildings authorized by the last legislature, and the competion of the purchase of land also provided for by legislative act. The new land comprises forty acres immediately north of the northeast corner of the present grounds. Although the appropriation is not available until 1909, the owner, Mrs. E. A. Hendrickson, agreed to give immediate occupancy and take the state's promise to pay. By this arrangement the fair can have the much needed room for the fair this year.

The space will be utilized for the extension of the farm machinery division of the fair, which has been for several years much crowded. The two new buildings will also go to the northeast part of the grounds, the dairy building directly opposite the present farm machinery pavilion and near Snelling avenue, and the poultry buildings a few hundred yards further on and just over the line of the new property. With the new manufactures building now under construction there will be a fine line of buildings along the Snelling avenue frontage of the grounds.

The attitude of the board during the entire meeting was one of enthusiasm for a larger meeting than ever, and all plans are being laid with reference to caring for a greater number of exhibits and visitors than ever before. Suggestions for a bridge to span the street railway terminals, ideas for the sewerage system, plans for the electric light plant and means of enlarging and repairing the grand stand were discussed.

A most liberal amusement program is being formulated and the reports and recommendations of C. M. Griggs, chairman of the amusement committee, were indorsed without any objection. Mr. Griggs reported the plans for a great automobile day on Saturday, Sept. 7, and the board directed him to close arrangements with the automobile clubs.

His recommendation of a ladies' relay riding race was indorsed, as was a contract for an airship for the entire fair week.

The aidship will be brought to the fair by Charles J. Strobel of Toledo, Ohio. He is under bonds to make frequent flights and has apparatus which will insure a great display of aerial navigation. Mr. Griggs has also engaged Howard's dog and pony show as one of the attractions for the grand stand program in addition to those already announced.

Music for the fair will be furnished by five bands—one from Minneapolis one from St. Paul, one from Duluth, one from Fairmont and one from Red Lake Falls. Miss Hope's Ladies orchestra of St. Paul will also furnish music in several buildings.

Additional fire protection for the buildings was authorized by the purchase of four additional alarm boxes. Several of the barns will have new coats of paint on the roofs and a new blacksmith shop will be built near the speed barns. There will be several extensions of the water mains, sprinkling stand pipes will be rected and drinking fountains will be placed at convenient points. There will also be some tree planting in various parts of the grounds.

WARNING TO "BANKS."

Public Examiner Calls Attention to Proper Use of Terms.

A warning against the illegal use of the words "savings" or "trust" or "safe deposit" has been issued by Public Examiner Anton Schaefer.

He issued a circular quoting the law on the subject, section 2978 of the code, which says that no person or firm, other than a savings bank or safe deposit and trust company, subject to and complying with all the laws relating to such institutions shall in any manner display any sign, advertisement or printed matter representing that it is authorized to transact the business of a savings bank, safe deposit or trust company.

Prof. Sverdrup Dies Suddenly.

Minneapolis, May 5. — Prof. George Sverdrup, president of Augsburg seminary for more than thirty years, died suddenly at his home in this city. He had been complaining for a day or two, but it was not thought his illness was serious.

MAY AVOID A DEFICIT.

Narly a Million More in Revenue Fund Than There Was a Year Ago.

Some consolation for the fact that the appropriations for the next two years by the legislature exceed the anticipated revenue for that time is found in the present condition of the state treasury. The amount of money on hand is larger than the estimated deficiency for the next biennial period, so that the expenditures do exceed the receipts the state may still finish the period without an actual deficiency.

The monthly statement made up by the state treasurer shows that the state revenue fund is nearly $1,000,000 better off than it was at the close of April a year ago. Some of the other funds are a little better than they were then, but the whole amount of cash in the state treasury is about $750,000 larger than a year ago.

The cash on hand at the close of business yesterday was $2,092,520, while a year ago it was $1,344,960. Two years ago at the same date the revenue fund was down to $156,000.

The following is a comparative statement of balances in each of the funds on April 30 for the two years:

	1906.	1907.
Revenue fund......	$533,937	$1,579,344.74
Soldiers' relief fund	26,828	14,766.06
Funding tax fund..	109,470	96,506.32
State road and bridge fund.........	....	7,896.84
Perm't school fund	113,876	89,944.12
General school fund	16,398	38,081.50
Permanent university fund..........	15,628	3,344.53
General university fund	34,449	38,431.50
Internal improvement fund..........	25,062	27,741.88
Internal improvement land fund..	46,159	48,980.71
Internal improvement land fund interest	5,482	5,525.09
State institutions fund	20,066	1,581.56
State institutions fund interest.....	66,600	87,519.42
Swamp land fund..	15,715	1,985.16
Swamp land fund interest	7,189	10,682.02
Hay inspection fund	1,744	2,864.02
Grain inspection fund	78,515	37,232.05
Agricultural college fund	227,929	....
Totals	$1,344,960	$2,092,520.41

LITTLE FOR FACULTY.

Gen. Andrews Reviews Work of the Legislature.

Gen. C. C. Andrews, forestry commissioner, said:

"The only additional things which the legislature did for forestry beyond what was done two years ago was to appropriate $2,500 for planting evergreen seedling trees on the state's 1,000 acres reserve in Cass county and $2,000 for forestry demonstration work in Itasca Stat ePark.

"The forestry board requested an appropriation of at least $25,000 annually to carry into effect a law passed four years ago to enable the board to purchase land at not exceeding $2.50 per acre for forestry purposes, and not exceeding in any one township one-eighth of its area, but no money for this purpose was appropriated. The forestry board also recommended an appropriation for a nursery, buildings, trails and roads on the Burntside forest of 20,000 acres, west of Ely, but no money was appropriated. The board also recommended an examination of the remaining vacant public lands of the United States in Minnesota to determine which are available for agriculture and which are only suitable for forestry, but no money was appropriated for this purpose."

MANY WANT DITCHES.

Applications for Nearly Half the Drainage Appropriation.

A number of applications to share in the money appropriated for state drainage were received by the state drainage commission at their recent meeting. Applications were received for nearly half of the $50,000 available for county drainage.

Representative L. C. Spooner of Morris made application for aid to care for the overflow of the Mustinka river in Traverse county, and also for a cut-off ditch in Stevens county. Representative R. J. Wells of Breckenridge spoke for $5,000 for aiding a cut-off ditch in Wilkin county. Others who asked for aid were Senator Rice of Norman county. Representative William Dower of Wadena, Senator L. O. Cooke of Wabasha county and Senator H. F. Wels of Le Sueur county.

None of them had any formal application nor had any action been taken by the boards of the counties they represetned. They will have to make formal application, and the commission will act.

George A. Ralph, state engineer, was voted a salary of $3,000.

BUSINESS AND PROFESSIONAL MEN HOLD PARK "BEE" TO AID IN BEAUTIFYING THEIR VILLAGE

LAMBERTON (MINN.) CITIZENS AT PARK "BEE."

Residents of progressive village, who excavate for walks and haul gravel for work of construction, are (from right to left): "The Kid" (helpful but unidentified by proper name), C. F. Waterman, John Frasch, Eugene Terry, C. H. Anderson, A. J. Gebhard, Ole Kaal, Charles Gamman, L. O. Clement, Young Wolfe, C. C. Walker, Wensel Lang, John Blake, P. N. Kuske, E. Clausen, Henry Mayer, E. N. Englund, George Kluegel, L. Redding, C. A. Koenig, Albert H. Enerson, Henry Gebhard, Henry Schaffran, Henry Asmus, Adolph Beyer.

The citizens of Lamberton again have displayed their loyalty to home. Last Friday, at the request of the village council, the business and professional men turned out with spade, shovel, team and wagon and spent the whole day in digging trenches for gravel walks diagonally across the village park located immediately east of "Crocus Hill." After the trenches were dug teams were called into use and gravel was hauled from a near-by gravel pit.

The force of men divided, one squad operating the spade and shovel in the park and the other loading the gravel at the pit. The above picture is taken of the crew at the park after a strenuous afternoon. Those who did not get out on the above day will be out as soon as the roads recover from last Saturday's snowstorm, and the work then will be completed.

The park in question was given to the village by a land company about ten years ago. Trees were planted in the block donated, but not until this spring has it been thought wise to open the park to the public. Preparations now are going on for the building of a band grandstand in the center, and the citizens are donating money for that purpose. While the work of beautifying the park cannot all be completed this year, as some parts of it must be leveled off more smoothly and seats and resting places built, yet it is safe to say that there will be a pleasant little resting place for citizens and visitors by the Fourth of July.

The Lamberton band has arranged to give concerts at the new bandstand on certain Sundays during the summer, and, all in all, Lamberton will be repaid for the time and money spent on this little park.

SOON MAY SERVE UNDER WEST POINTER

OFFICERS OF PILLSBURY CADETS.

Left to right:

Standing—Maj. Ezra Colquhoun of Blooming Prairie, Minn.; Lieut. Col. Clayton H. Sterns, N. G. M., commandant of cadet forces.

Sitting (second row)—Adjt. John Jensen of Albert Lea, Second Lieut. Claude Morton of Minneapolis, Capt. Allan H. Dunton of Blooming Prairie, captain of Company A; Capt. Homer Rugg of Owatonna, captain of Company B; First Lieut. Merton Hamilton of Owatonna.

Bottom Row—Second Lieut. Leroy Uptegraft of Spirit Lake, Iowa; First Lieut. Thomas B. Frizelle of Bemidji, Minn.

The Pillsbury academy cadet corps this year has about 110 members. It is probable that a West Pointer soon will be secured to drill the battalion. At present the cadets are in charge of Clayton H. Stern, lieutenant colonel in the Minnesota national guard, and an excellent drill master. Under his direction the cadets have reached a high point of efficiency until they now are considered to be among the best drilled bodies of men in the state.

The uniform worn is the regulation cadet gray and the men are required to wear their uniform four days of each week, upon which days drill is held. The school is only semi-military in character, as both young men and women are admitted to its rolls and the sexes are about evenly divided.

With only one exception every officer whose photograph appears above played on the football team of the school, and six of the eight have won their initials.

ISANTI COUNTY WANTS SCHOOL.

Cambridge, Isanti county, is the latest candidate seeking to have the new industrial school for girls located in its neighborhood. A committee of four, headed by Senator C. J. Swenson of Anoka, appeared before the state board of control and presented the formal application of the village for the school. The members of the board of control, however, say they will not take any action until later in the summer, perhaps in August.

So far Elbow Lake is the only other place that has made formal application, althought a number of towns have made inquiries and intimated that they will enter the race. Among these are Rush City, Litchfield, Redwood Falls, Fairmont, Le Sueur, Waterville and the Chisago county villages, Lindstrom, Center City and Chisago City. New Ulm, Royalton and Pine City presented bills at the legislative session to have the school located in those towns, and they will probably come in later.

Willmar made an offer yesterday to obtain the inebriate hospital farm which was provided for by the last legislature. A site of 640 acres is to be purchased for the farm. Willmar is the first applicant.

INDIANA PEOPLE IN WESTERN CANADA.

What Shall We Do?—I've Got to Build Granaries.

A letter written to a Canadian Government agent from Tipton, Indiana, is but one of many similar that are in the hands of the Canadian government agents whose privilege it is to offer one hundred and sixty acres of land free, and low railway fares. But here is a copy of the letter:

"Tipton, Ind., Nov. 28, 1906.

"At your earnest solicitation a party of us from Tipton left May 15 for Western Canada. Our interviews with you and a careful study of your literature led us to expect great things of your country when we should arrive there, and we were not disappointed. We went prepared to make a careful examination of the country and its resources, and we did so. At early dawn the second morning out of Tipton we awoke in a new world. As far as the eye could reach was an apparently limitless expanse of new sown wheat and prairie grasses. The vivid green of the wheat just beginning to stool out, and the inky blackness of the soil contrasted in a way beautiful to see. An hour or two later we steamed into Winnipeg. Here we found a number of surprises. A hundred thousand souls well housed, with every convenience that goes to make a modern up-to-date city—banks, hotels, newspapers, stores, electric light, street railways, sewerage, waterworks, asphalt pavements, everything. With eyes and ears open we traveled for two thousand miles through Manitoba, Saskatchewan and Alberta, going out over the Canadian Pacific railway, via Calgary to Edmonton, and returning to Winnipeg over the Canadian Northern railway. In the meantime we made several side trips and stopped off at a number of points where we made drives into the surrounding country. On every hand were evidences of prosperity. The growing wheat, oats, rye, flax, barley, not little patches, but great fields, many of them a square mile in extent, the three, five and sometimes seven-horse teams laying over an inky black ribbon of yellow stubble, generally in furrows straight as gun barrels and at right angles from the roads stretching into the distance, contrasted strangely with our little fields at home. The towns both large and small were doubly conspicuous, made so, first by their newness and second by the towering elevators necessary to hold the immense crops of wheat grown in the immediate neighborhood.

The newness, the thrift, the hustle, the sound of saw and hammer, the tents housing owners of buildings in various stages of completion, the piles of household effects and agricultural implements at the railway stations waiting to be hauled out to the "Claims," the occasional steam plow turning its twenty or thirty acres a day, the sod house, the unpainted house of wood, the up-to-date modern residence with large red barn by, all these were seen everywhere we went, an earnest of prosperity and wealth to be. We talked with men and visited their places that four years ago was unbroken prairie. Their houses, barns, implements and live stock were the equal of anything in Tipton County, and why not, when they were raising five, ten and twenty, yes, in one instance, forty thousand bushels of wheat a year. The fact that such large yields of wheat are raised so easily and so surely impressed us very favorably. And when we saw men who four or five years ago commenced there with two or three thousand dollars, and were now as well fixed and making money much easier and many times faster than lots of our acquaintances on Indiana farms fifty years cleared and valued at four times as much, we decided to invest. So we bought in partnership a little over two thousand acres, some of it improved and in wheat.

Before leaving Indiana we agreed that if the opportunities were as great as they were represented to be, that we would buy, and own in partnership a body of land, and leave one of our number to look after and operate it. This we accordingly did.

Just before time to thresh I received a letter from him. "What shall we do?" said he; "I've got to build granaries. There's so much wheat that the railways are just swamped. We can't get cars and the elevators are all full. I never saw anything like it." In reply we wrote, "Good for you. Go ahead and build; your story sounds better than the letters we used to get from our friends in Kansas when they bewailed the fact that the hard wheat had been destroyed by the chinch bugs and the corn by hot winds, and that they must sell the stock for means to live on. Yes, build by all means." And he did, and our wheat put in by a renter made twenty-seven bushels per acre.

Very truly yours,

(Sd) A. G. BURKHART.
(Sd) J. TRELOAR-TRESIDDER.
(Sd) WALTER W. MOUNT.

Courtship fills a man with conceit, but marriage takes it all out of him.

If a man has one enemy he has enough

Unnecessary.

"Why don't you get something to talk about?"

"What for?" asked the orator. "People don't fully understand what I have been talking about for the last ten years."

With a Sting.

"Your town has a Carnegie library, I see."

"Oh, yes."

"Free reading for everybody?"

"Well, scot free."—Puck.

An Exception.

Knicker—The child is father to the man.

Booker—Not much; the baby who rouses the neighborhood at night becomes the man who takes his shoes off so as not to wake his wife.

Poor Father.

Father—It is incredible what a lot of money you need.

Son—I don't need any, father, it's the other people who are always wanting some from me!

Waking Up.

Rarely has our leading morning newspaper done itself more proudly than over the Jamaican earthquake. On the morrow of the calamity it managed to print not only the actual facts but also some messages about it from New York.

Black and Blue.

She (practically)—I wonder what makes the Black sea look so blue?

He—You'd look blue if you had all the Cossacks to wash.

Hardly Possible.

The Baron—I had such a beautiful dream last night. I thought I was in the Garden of Eden.

The Countess—And did Eve appear as generally represented, baron?

The Baron—I—I—didn't look.

A Practical Wife.

Poetical Husband—Oh, if I only knew how I could throw my troubles overboard.

Practical Wife—Well, let us take a sea voyage.

Past Saving.

Lady—Couldn't you possibly have saved your friend who was captured by the cannibals?

African Traveler — Unfortunately not. When I arrived he was already struck off the menu.

Conditional.

"Are you a vegetarian?"

"That depends."

"Depends on what?"

"On whether or not the theory that all flesh is grass is to be accepted."

Down in those prohibition towns in southern Minnesota you ask for a "Roosevelt soda" and get a "big stick" in it.

The weather still shows some freakish tendencies. In Minneapolis they had a snowstorm Friday and Sunday there was a death from sunstroke.

THE Hutchinson Leader has not lost any of its snap and vigor by the exportation of Carlos Avery to St. Paul. Carlos seems to find plenty of time to get up a mighty interesting editorial page, and the veteran Burt Day has taken a new hitch in the newspaper enterprise and ingenuity and is holding down the local end in good shape.

THE state board of control expects this summer to erect the first buildings of the proposed state sanitarium for consumptives at Walker. The legislature amended the law governing the institution. Only those residents of the state for a year preceding the application, and afflicted with incipent pulmonary tuberculosis, can be admitted. There are to be three medical examiners in each county, whose fees are to be $3 for each examination, payable by the state.

COLLIER'S WEEKLY is just now waging war on the wild-cat mining and oil companies, and proves that not one in a hundred of the various enterprises so widely advertised has any chance of paying dividends. People who are thinking of investing money in any of these corporations should realize at the outset that it is a gamble pure and simple and that their chances of realizing profit are very small. By the way, dear reader, do you know of your own knowledge of any person who has made a profit on mining stock bought of any of the companies that are using page upon page of the great dailies in exploiting the schemes?

GOVERNOR JOHNSON is just now receiving attention from eastern newspapers, and it is generally acknowledged that he is in the presidential class and would make an exceptionally strong leader for Democracy. The eastern papers all argue that Johnson's two magnificent victories in a strong Republican state show that he has the vote-getting propensities, and besides has a charm of manner and a record for honesty and integrity which brings him in the forferont of American statesmen. Henry Watterson has invoked the star-eyed goddess of of the Louisville Courier-Journal and declares that Johnson is the most available of any of the prospective candidates so far brought forward.

The Plummer Pioneer of last week says: Several cruisers for Thief River Falls are working the eastern part of the county with their new county seat removal petition. Several parties from the country have called at this office and told us that they had met these fellows but had refused to sign their petion because they had found out that Thief River Falls had not kept their promises of two years ago in the fight on the old county seat removal petition. Such being the case they had no faith in any more of their promises from that town and they were well enough satisfied to leave the county seat where it is and save any additional taxes. This is the view taken by many of those who signed the old petition and it is entirely justifiable from the standpoint of the country taxpayers.

THE St. Paul News indulged in a pipe dream to the effect that under a law passed by the recent legislature the public examiner has authority to examine the accouuts of every township and school district officer in the state. The News also insinuated that this would provide a field for five or six hundred special examiners during the next campaign, making a nice little army of Democratic campaign workers. The only trouble with the story is that it is not true. The public examiner has no power or authority to investigate the accounts of any school or township official except on the request of the board of county commissioners. This means that there will be no examinations under this act except in cases where misappropriation or laxity of duty is apparent.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note that it is made alone for Piles, and its action is positive and certain. Itching, painful protruding, or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by all dealers.

Evergreens For Sale.

I have a large number of evergreens that I will sell this spring at low prices. Trees from 1 foot to 18 feet in height, 10c to 25c each: gauranteed to grow if planted as per directions; will replace trees that fail. These trees should be set out between now and May 15 and not later. Call on or address Wm. C. L. Demann, Red Lake Falls. 3w

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, the Heart, or The Kidneys. Address me, Dr. Dr. Shoop, Racine, Wis. Troubles of the stomach, heart or kidneys are merely symptoms of deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means stomack weakness always. And the heart and kidndys as well, have their controllin or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, uss Dr. Shoop's Restorative Write for my free book now Dr. Shoop's Restorative sold by all dealers.

Inhospitable Trees.

Some trees are much more unfavorable to the growth of plants beneath them than are others. The worst are the yew and the ash.

Rickets.

Simply the visible sign that baby's tiny bones are not forming rapidly enough.

Lack of nourishment is the cause.

***Scott's Emulsion* nourishes baby's entire system. Stimulates and makes bone.**

Exactly what baby needs.

S'MORE LOCAL.

Carl Pochart, of Marshall, Lyon county, who owns several farms in this neighborhood, has spent the past week here looking after his interests.

Mrs. William Eickoff, of Crookston, was a guest at the home of her daughter, Mrs. Arthur Zaiser, Tuesday and yesterday, returning home last evening.

Dr. Spofford makes his next regular visit to Red Lake Falls June 7. At Grand View hotel. Remember the date if your eyes trouble you.

The Commercial Club held its regular monthly meeting Monday evening and several matters of importance were discussed. A good sized crowc was present.

Miss Mary Moe, of Osage, Iowa. was an over-Sunday guest of her friend Miss Amelia Berget of this city. Miss Moe had been visiting friends at Crookston for several weeks.

George F. Hennings left last evening for Williston, North Dakota, where he had some business matters to look after far the First State Bank. He will be away until Sunday or Monday.

William Findeisen has a dandy new planter he wants to sell quick and his ad in today's COURIER tells you about. If you want it say so quick as COURIER ads are always productive.

Mrs. Theo. Garceau was very low Sunday and fears were entertained as to her recovery. However, she is greatly improved at the present writing, which is pleasing news to the Red Lake Falls people.

Mr. and Mrs. William Zaiser and family desire THE COURIER to express their most heartfelt thanks to the kind friends and neighbors who so kindly tendered their aid and comfort in their recent dark hour.

Engineer Matt Milligan has been off duty this week, having gone to Illinois where he has some real estate interests. Matt is one of the steady men on the Great Northern system and earns a brief vacation occasionally.

Fred Zaiser left last Thursday evening for Royalton, near which place he has a grading contract on the new Soo line. Several men from here accompanied him, and they will put in the next few months slinging dirt in good shape.

The first half of your real estate taxes are due and payable before June 1st, to avoid the penalty that will attack if not paid. By paying the first half before June 1st, the second half does not have to be paid until November 1st.

The ladies aid society of the Presbyterian church will hold a business meeting at the church parlors Wednesday, May 22, at 2:30 p. m. Every lady of the congregation is urged to be present as business of great importance will be transacted.

Troubles Not Over.

St. Hilaire Spectator: It would seem that the trouble at Plummer is still far from being settled as on last Wednesday Oscar Carlson drove over here with a large number of letters which were mailed at this office. The mail was from the office of Julius Pleth the land man, and Postmaster Post informs that the package contained over five thousand letters the postage amounting to over one hundred dollars.

CITY COUNCIL MEETS.

Official Proceedings of the Session of Thursday, May 2.

Regular meeting os the City Council held at the city hall May 2nd 1907.

Meeting called to order by President Borchers.

Roll called.

Aldermen all present.

Minutes of three previous meetings read and approved.

On motion duly carried the following bills were allowed:

Joseph Perras, for boarding a pauper..	$ 13 50
Dr I Lemieux, for medical services to pauper..............................	6 00
T A Crompe, fare paid to pauper ...	1 25
John Deforge, for street work..........	21 45
Adelor Bisson, " "	6 00
Julius Keuhl, " "	13 50
John Drier, for salary as fire warden...	24 00
Aime Benoit, for water.................	2 00
James Brady, for labor................	4 50
Red Lake Falls Gazette, printing and stationery..............................	26 32
Waterous Engine Works Company, for hose cart....	66 87

On motion the meeting adjourned.

FRED BORCHERS, President

Attest: J. A. DUFFY

A. P [illegible]upin Mayor.

City Clerk.

Let me send you free, for Catarrh, just to prove merit, a trial size Box of Dr. Shoop's Catarrh Remedy. It is a snow white creamy, healing antiseptic balm. Containing such healing ingredients as Oil Eucaliptus, Thymol, Menthol ,etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by all dealers.

Nothing to Gain.

Her Mother—May, why do you treat Jerrold so shabbily, while he treats you so good? May—Why, the dear boy couldn't treat me any better, no matter how I treated him.—Judge.

Changes In Game Laws.

An open circular from Executive Agent Carlos Avery of the state game and fish commission gives the new provisions of the law as to shooting and fishing. Mr. Avery writes:

"A number of bills were passed at the recent session of the legislature relating to game and fish, but the changes as far as they effect the duties of wardens are not numerous. A new addition of the game laws, embodying all the enactments and amendments of the recent session will be printed as soon as possible, I would now call your attention to some of the new provisions, as follows:

Wardens are now specifically empowered to arrest without warrant parties caught in the act of violating any of the provisions of the game law.

The use of artificial lights in spearing pickerel or rough fish is made unlawful during May and June. The purpose of this provision is to protect bass during the sprawling months. this being a common practise for unprincipled persons to spear bass under cover of night during this season.

Wardens should obtain all the publicity they can for this provision at once, so that law-abiding people may not become violaters through ignorance. Your local newspapers will undoubtedly assist in giving this feature, and the reason for it, publicity.

The season for taking muskrat and mink has been changed and is now from November 15th to April 15th following.

The new law authorizes payment of the following rewards:

For information leading to conviction for any violation of the law respecting moose or caribo, fifty ($50) dollars; relating to deer twenty-five ($25): dollars relating to game birds or fish ten ($10) dollars: Salaried wardens are not entitled to receive any rewards.

An entire new law has been passed governing the licensing of fishermen in interstate waters, the provisions of which are contained in application blanks which may be had on application to this office.

Other new provisions of the law are not of immediate importance and will be contained in the new edition of the Game Laws.

You Are Out of Place

If you are a clerk and hate the yardstick.

If you do not love your work and the not enthusiastic in it.

If you do not long to get to it in the morning and hate to have the time come to leave it.

If you do not see something more in it than making a living—if you do not see the making of a life.

If you are not growing broader, deeper.

If you are being dwarfed in any part of your nature.

If your faculties are being stunted, your ideal dulled.

If it strangles your ambition.

If you work mechanically and without heart.

FARMERS

When the Children come home from School

They usually want something from the pantry

You remember the hunger you had—Home cooking counts for much in the child's health; do not imperil it with *alum* food by the use of poor baking powder.

Have a delicious, pure, home-made muffin, cake or biscuit ready when they come in. To be sure of the purity, you must use

ROYAL BAKING POWDER

Royal makes a difference in your home—a difference in your health—a difference in your cooking.

ROYAL is absolutely Pure.

A law passed by the Minnesota legislature this spring provides that no dead body may hereafter be buried without a permit from the health officer of the village or town clerk of the town, as the case may be. This law is now in force and applies to deaths from all causes and of persons of all ages. Undertakers and all persons in charge of burials are charged with a strict observance of this law under a heavy penalty.

The running team of the local department are at work in dead earnest for the coming tournament and are out every evening now practicing and while the season has been backward and hindered practice some, the boys are all in good condition as they have had good training in the gymnasium all winter. They will put in some hard licks from now on, however, and expect to be in shape to hold their title when tournament time arrives.

The program given by Damon's colored minstrels is varied and contains many interesting numbers. The great A. M. Damon, violin, cello, mandolin, harp, banjo, pipe organ and piano soloist, is supported by a company of artists seldom got together, and they present entertainment that is in every respect high class and worthy of the public's patronage. They will appear at the Metropolitan opera house Tuesday evening, June 4.

"Bad Bill" Ittner distinguished himself in athletics at the University of Minnesota again last week. In the annual track meet between the Nebraska and Minnesota Universities he won first in the discus throw making a record of 106 feet 5 inches, and second in the shotput, 36 feet 6 inches. "Bill" has earned his honors nicely at the big 'varsity, and that he has participated in these events for the last time causes regret on the campus.

According to the Pioneer Plummer is to have a small sawmill next year that will run for a number of years to come. L. Parker is interested in the deal, and has a lot of logs on the cut over lands out east that he will drive down and manufacture into lumber. As the Thief River saw mill will only operate a few years more, Plummer should make a first-class point for a small mill, bring the only one on the Soo line between the Peg and the cities.

Clem Brunelle returned home on Tuesday from Blackduck, where he had been visiting with relatives and friends. Thursday night last he assisted the Blackduck band in their first concert. Clem speaks very highly of the Blackduck organization, and says that within a short time they will have a band that will rank with the best on the state. The leader, Louis Romdenne, is one of the most successful band men in the northwest, and every organization he has been connected with has been a hummer.

The rear of the small drive of logs for the Grand Forks mill passed through here Sunday, and a large number of townspeople went down to see the wanagan "jump the dam." As soon as foreman Sullivan gets the drive in boom at Grand Forks he will proceed to the Red Lake, where he will start down the big drive of the year. Strange as it may appear the water in the Red Lake river is lower at present than it has been at this season for several years past, and the drivers have found it slow work to keep the logs moving.

Ovide Cailler, of Gentilly township, Polk county, and Miss Eva Benoit of this city, were married at St. Joseph's church Sunday afternoon at three o'clock by the Rev. Father Fayolle in the presence of the members of their families. In the evening a wedding reception and feast was held at the A. L. Roy home, and the young people were showered with congratulations. They left on the evening train Monday for Crookston and will reside on a farm near that place with an uncle of the groom.

It was announced last Saturday that the Great Northern would put the "mud train" in commission here again this week, but inquiry of the "powers that be" elicits the information that as long as Jupiter Pluvius keeps his flood gates closed there is no immediate need for such action. Last year the G. N. had a large crew of men here from early in April until late in June, but the present season is making a new record for dryness and until it commences to rain in good shape the Great Northern will save this annual expense.

THE COURIER is in receipt of a communication from H. N. Johnson—better known as "Jing"—threatening dire and diverse things if his paper is not sent to Lankin instead of Park River, North Dakota. H.N. is now cashier of the First State Bank of Lankin, a thriving new town on the Soo, and from all reports has found a very satisfactory oasis in the desert of existence. However, his friends here know that he is deserving of any good things that come his way and will join with the COURIER in wishing that the bird of success may continue to perch upon his roost.

The Great Northern railway company has issued a circular to its agents, urging that fuel dealers throughout the northwest and people generally lay in an ample supply of coal early in the year, in order that a fuel famine such as existed in some sections of the country last winter might be averted in the future. While this particular section of the northwest did not actually suffer any serious effects from the fuel shortage last winter, it came close enough to it, and considering how much more fortunate we were than our neighbors further west, it would seem that the Great Northern's advice is timely and could be heeded with good results.

Word was received from Frank Brouillet yesterday, conveying the news that an operation had been performed the day previous for the removal of a growth on his under lip. The operation was performed at the Rochester hospital, where Frank has been for the past two weeks, and was a success in every particular. He states that he will be home within the next ten days. Mr. Brouillet has been troubled for several months with this growth, and while the exact nature of it was not known it was thought to be of a cancerous nature. His friends here will hope that he may forever be rid of the trouble now that the operation is over.

A new kind of swindle is being worked on the farmers in southern Minnesota, northern Iowa and Wisconsin. Complaints have come in from many sections where the swindlers have plied their trade successfully. The new game is unique. The men offer to install a new eight strand wire fence with iron posts for only 8 cents a foot. No deposit is required on taking the order, but a promissory note is given, to be paid after the fence is up. When the fence has been constructed, the price turns out to be 8 cents a foot a wire, or 64 cents a foot for the fence. Many farmers have been caught by the new game, which promises to be worked as successfully as the lightning rod enterprise.

Spectator: G. W. Hooper came up from Crookston last Monday and met with the village council the same evening and the council granted him a twenty-year telephone franchise as had been previously agreed upon. Mr. Hooper has deposited a draft of one hundred dollars as a forfeit and has already accepted the franchise, so we are assured of a telephone exchange before the end of this year. It is the intention of Mr. Hooper to move here and take charge of the work and he informs us that he will build lines into the country at any time a sufficient number of patrons can be secured. Telephones for farmers are beginning to be a necessity and we hope that the progressive farmers in this vicinity will soon have phone connections with the outside world.

Corn Planter Bargain

I have on hand a brand new No. 8 Deere Corn Planter, complete with check-rower and wire, which I will sell at less than cost.

WM. FINDEISEN.

Memorial Day comes two weeks from today, May 30, and if Red Lake Falls intends observing the day this year it is high time that preliminary arrangements be made. There are only a few of the "old guard" left in this neighborhood and it would seem that the burden of arranging the proper program of the day should nat be left entirly to them, but that the citizens should take hold and help make the day what it should be made. In the past Red Lake Falls has always had appropriate exercises on this occasion and it is the general understanding that there will be the same done this year. It is time, however, to get at it and not leave the details until the last moment.

The cow is a much desired beast, and contributes in a large measure, no doubt, to the happiness and success of a community, but roaming at large at all times of the day and night such as they are allowed to do this spring in Red Lake Falls, they become nothing more nor less than an infernal nuisance. The lateness of the season has prevented the city herd from starting on schedule time, and as a result a long suffering public has been obliged to put up with a nuisance that incites just profanity and thoughts harsher. Just why the public streets and alleyways, private yards and every other imaginable place should be made a constant playground for the gentle boss—with the accompanying "side issues" so plainly evident everywhere—is sometimes beyond comprehension, and it would seem that in justice to all that steps be taken to check it at once.

Joseph Perras, a well-known resident of this city, died Friday last, after an illness of a few weeks with tubercular laryngitis. Mr. Parras never had been strong but it was not thought that he was so weak until the final attack came on a short time ago. Deceased was born an St. Michel, P.Q. Canada and came to Red Lake county with his parents in 1881, locating in the town of Poplar River where he remained until 1901 when they moved to this city. Mr. Perras conducted the City hotel at the time of his death. Joe was a straightforward young man well-liked by all and his untimely death caused general sorrow. He leaves an aged mother and several brothers and sisters to mourn him. The funeral was held from St. Joseph's church Monday, the remains being interred in the cemetery at Terrebonne.

In the Local Line

Go to the Merchants State Bank for real estate loans.

Fruend's confectionery is the best in the city.

N. J. St. Aubin spent Sunday at Crookston.

Buy your legal blanks at the COURIER office.

W. A. Schreiter spent yesterday at Thief River Falls.

Nightwatchman Art Lizee visited at Plummer Monday.

Big Joe Morrisette was in from Plummer Monday night.

Fresh fruits and vegetables received at Fruend's daily.

Wanted—200 cords green poplar, oak, or elm. See Al. Roy.

Best line of confectionery, nuts, notions, etc., at Freund's.

Go to Spillane's—The Right Store—for your teas and coffees.

Register of Deeds Quist spent Sunday at Thief River Falls.

Go to Spillane's for groceries, candies, nuts, fruits, cigars, etc.

Dr. Argue made his regular weekly trip to St. Hilaire yesterday.

For sale—Good dray wagon. In first class shape. See A. L. Roy.

Damon's colored minstrels at the Metropolitan on Tuesday evening, June 4.

Miss May Lee, of Grand Forks, is a guest of Miss Elida Peterson this week.

Julius Pleth and Oscar Carlson drove over from Plummer Friday and spent the day here on business.

Miss Bertha LaFreniere went to Thief River Falls Friday and remained until Monday with friends there.

Merchant Theo. LaBissoniere spent last Friday night at Crookston.

Attorney Frank A. Grady was a professional caller at Thief River Falls Monday.

Barber Nap Miller was here from St. Hilaire over Sunday, guest of relatives and friends.

County Auditor O'Brien was a caller at St. Hilaire Friday, shaking hands with his old friends.

James E. Ford arrived home Saturday morning from a several days' sojourn at the Twin cities.

Fred Craig of East Grand Forks, general agent for the Duluth Brewing company, spent Tuesday in the city.

Mrs. C. L. Grey, who is conducting a millinery store at St. Hilaire, spent Sunday with her daughter here.

Miss Bella Bray returned home Monday from a several days' visit with her grandparents at Grand Forks.

The Royal Neighbors will hold their regular meeting at the Woodman hall Friday evening at 8 o'clock.

County Surveyor J.K. Wood came down from Thief River Falls Monday evening to do some work at the courthouse.

Miss Agnes Kelley returned to her home at Thief River Falls Saturday after a several days' visit with friends here.

Robt Eitel, of Marshall, Lyon county, arrived yesterday to spend a day or two looking after his realty interests in this section.

The board of county commissioners will meet on the 27th inst., when a large amount of accumulated county business will be attended to.

George Singer, a prominent resident of Rhoda, on the reservation, spent Tuesday and yesterday here attending to business matters.

Notice the new ad of Delorme Bros. in today's paper. Their Percheron stallion "Bob" will stand for the season at Guerin Bros.' barn.

James Egan left Monday evening for Dickinson, North Dakota, to spend a few days looking up some real estate deals he is interested in.

Rev. I. T. Aastad, of Thief River Falls, condutced services in the Norwegian Lutheran church here Sunday, returning to his home on Monday morning.

Fred Richards was in from Dorothy and spent Sunday with his many friends Fred has only three more weeks of school when he will return to spend the summer in Red Lake Falls.

Drew Marshall came up from St. Paul yesterday to spend a week or so with his mother, Drew is getting along fine with his work in the cities which is pleasing news to the people here.

Damon's colored musical company of twelve artists will appear at the Metropolitan opera house for one night, Tuesday, June 4. This company comes recommended as one of the cleverest in the business and are drawing big crowds wherever they show.

A big dance and general jollification will be held at the Claus Hinrichs home northeast of town Saturday night, and several people from town are planning on attending. Mr. Hinrichs has recently had a fine new barn built, and will dedicate it with a big blowout.

Ed Bray desires the COURIER to state that the rumors that he would leave Red Lake Falls are absolutely without foundation. Ed says that he has spent twenty-four happy years in Red Lake Falls now and will spend twenty-four more if the hand of Fate deals kindly with him.

Miss Mabel and Master Wilber Gervais arrived from Olympia, Washington, Saturday to spend a month with their relatives and old-time friends here. They are children of Mr. and Mrs. Horace Gervais former residents of this place, and their visit will undoubtedly be highly enjoyable.

L. P. Berthon returned home Saturday morning from his ten days' business visit at Chicago and the Twin cities. His partner, J. B. Armstrong, who joined him in Chicago stopped off in Minneapolis on the return trip to take in the convention of Knights of Pythias and look after some other matters. He is expected home tomorrow.

Dairy Inspector Joel G. Winkjer spent yesterday in the city looking over the local creamery and visiting with the chief dairy movers of this section. Mr. Winkjer is one of the most enthusiastic creamery men in the business and his work in behalf of this enterprise throughout the valley has resulted in great good to all.

The COURIER is in rebeipt of a card from Frank A. Mizen, who on May 7 was in El Paso, Texas. He reports himself as having a most enjoyable trip. At Oakland a couple of weeks ago he met W. S. Cox, formerly of this city, and enjoyed a good visit with him. He has also met several other former residents of Red Lake Falls on his trip.

RED LAKE FALLS, MINN.

THE BUSY STORE is showing the most elaborate line of Summer Dress Goods in all the latest creations and effects that has ever been brought to the city. Hot weather apparel of all kinds is here in profusion.

SEEDING COMMENCED IN WESTERN CANADA.

The Prospects for a Large Acreage to Be Sown in Wheat.

St. Paul, April 24, 1907.—Word has been received at the office of the Canadian Government in St. Paul that seeding has commenced at various points throughout Manitoba, Saskatchewan and Alberta.

The heavy snowfall during the past winter has left the ground in splendid shape for successful seeding operations. The fine weather of the past few days has taken much of the frost out of the ground and during next week there will scarcely be a district in which the seeder is not being operated. The most optimistic conditions exist and in all districts the farmers are busy getting things in shape. There will be a very large acreage sown in spring wheat, oats and barley. At many points throughout the three provinces the newcomers are busy unloading their stock and effects, working night and day in order to get on their farms and become active agencies in the effort to make the year 1907 the banner year in grain producing in Western Canada. As compared with districts many hundred miles further south than this, it will be seen that Western Canada ranks amongst the first in the line of seeding operations for the present year. It is safe to say that farmers who get in their crop before the 20th or 24th of May, will receive magnificent returns. A number of those coming in this spring, who had not their land prepared last fall, will break up enough land to get in a crop of oats and barley and probably some flax. This, together with the vegetables they will plant, will give them ample food for themselves and stock during the coming summer and winter. These early seeding operations are not confined to one district, but are spread over a country 900 miles long by 400 miles in width.

The agents of the Canadian Government, located at different points throughout the United States, are busy giving information regarding the many new districts that are being made available for settlers. Low railway rates, information and literature are given on application to the agent, whose name appears in advertisement elsewhere in this paper.

It doesn't take the average man half as long to tell what he knows as it does to tell what he thinks he knows.

LONDON CLUB LIFE.

The Tendency in Regard to Conviviality and Gambling.

In London club life on the whole there is a tendency toward a more moderate conviviality, while a chastened effect is to be observed in regard to gambling. Yet clubland has not lost altogether its old time characteristics, says a writer in the Fortnightly Review.

There are cakes and ale still, even if we become virtuous; bohemian clubs still prosper and greatly increase in favor. Some remain true to the conditions under which they were created and are still ragged but jovial, as unspoiled as the potatoes in their jackets that flank the smoking chops and foaming flagons, the buck rabbits, the cold pork and port wine that are among their favorite viands.

Others have taken to dress suits and the entertainment of persons of the nicest consideration. We can never forget one old haunt of roystering character nor the story of the demure country parson who, arriving by a night train, appeared seeking breakfast and was told by a sleepy waiter that no suppers were served after 6 a. m.

It is of the same club that another story is told of a member who dropped a £5 note on the floor in the writing room and hurrying back when he discovered his loss found a waiter had picked it up and restored it, remarking sententiously: "Lucky one of the members did not see it."

FRIENDS HELP

St. Paul Park Incident.

"After drinking coffee for breakfast I always felt languid and dull, having no ambition to get to my morning duties. Then in about an hour or so a weak, nervous derangement of the heart and stomach would come over me with such force I would frequently have to lie down.

"At other times I had severe headaches; stomach finally became affected and digestion so impaired that I had serious chronic dyspepsia and constipation. A lady, for many years State President of the W. C. T. U., told me she had been greatly benefited by quitting coffee and using Postum Food Coffee; she was troubled for years with asthma. She said it was no cross to quit coffee when she found she could have as delicious an article as Postum.

"Another lady, who had been troubled with chronic dyspepsia for years, found immediate relief on ceasing coffee and beginning Postum twice a day. She was wholly cured. Still another friend told me that Postum Food Coffee was a Godsend to her, her heart trouble having been relieved after leaving off coffee and taking Postum.

"So many such cases came to my notice that I concluded coffee was the cause of my trouble and I quit and took up Postum. I am more than pleased to say that my days of trouble have disappeared. I am well and happy." "There's a Reason." Read "The Road to Wellville," in pkgs.

THE FATAL GLOVE.

BY CLARA AUGUSTA

CHAPTER XIX.—(Continued.)

"And you protected her? You gave her money and took her to a place of safety?" said Trevlyn, anxiously.

"Of course. As I should have done by any other lady—but more especially for her. I took her to a hotel, and on the morrow saw her start on her journey. I would have gone with her, but she declined my escort."

"O, I thank you—I thank you so much! I shall be your friend always for that. You will tell me where she is?"

"No. I cannot."

"Cannot! Does that imply that you will not?"

"It does."

"Then you know her present place of sojourn?"

"I do. But she does not desire the knowledge to become general. I have pledged my word to her not to reveal it. Neither is it best for you to know."

"You are right. It is not. I might be unable to hinder myself from seeing her. And that could do no good. I know that she is innocent. That shall suffice me Only tell me she is well, and agreeably situated."

"She is both. More, I think she is at peace. She is with those who love her."

"I thank you for bearing with me. I shall be happier for knowing she was not false to me. Whatever might have caused her to break the engagement, it was not because she loved another. Good night, Mr. Castrani."

He wrung the hand of the Cuban warmly and departed.

CHAPTER XX.

IT WAS an afternoon in May. Everything without was smiling and at rest, but Mrs. Trevlyn was cross and out of humor. Perhaps any lady will say that she had sufficient reason. Everything had gone wrong. The cook was sick and the dinner a failure; her dressmaker had disappointed her in not finishing her dress for the great ball at Mrs. Fitz Noodle's, that evening, and Annie, her maid, was down with one of her nervous headaches, and she would be obliged to send for a hairdresser.

Louis Castrani was a guest in the house, by Archer's invitation—for the two gentlemen had become friends, warmly attached to each other, and Mrs. Trevlyn could not help fretting over the unfortunate condition of her cuisine.

She was looking very cross, as she sat in the back parlor, adjoining the tasteful little morning room, where she spent most of her time, and where the gentlemen were in the habit of taking their books and newspapers when they desired it quiet. If she had known that Mr. Castrani was at that moment lying on the lounge in the morning room, the door of which was slightly ajar, she might have dismissed that unbecoming frown and put her troubles aside. Mr Trevlyn entered, just as she had for the twentieth time that day arrived at the conclusion that she was the most sorely afflicted woman in the world, and his first words did not tend to give her any consolation.

"I am very sorry, Mrs. Trevlyn, that I am to be deprived of the privilege of attending the ball to-night. It is particularly annoying."

"What do you mean, Mr. Trevlyn?"

"I am obliged to go to Philadelphia on important business, and must leave in this evening's train. I did not know of the necessity until a few hours ago."

Mrs. Trevlyn was just in the state to be wrought up by trifles.

"Always business," she exclaimed pettishly. "I am sick of the word!"

"Business before pleasure, Mrs. Trevlyn. But, really, this is an important affair. It is connected with the house of Renshaw & Selwyn, which went under last week. The firm were under obligations to—"

"Don't talk business to me, Mr. Trevlyn. I do not understand such things—neither do I desire to. I only hope it is business you are going for!"

Mr Trevlyn looked at her in some surprise.

"You only hope it is business?" he said, inquiringly. "I do not comprehend."

"I might have said that I hoped it was not a woman who called you from your wife."

The moment the words were spoken she repented their utterance, but the mischief was already done.

"Mrs. Trevlyn, I shall request you to unsay the insinuation conveyed in your words. They are unworthy of you and a shame to me."

"And I shall decline to unsay them. I dare affirm they are true enough."

"What do you mean, madam? I am, I trust, a man of honor. You are my wife, and I am true to you. I never loved but one woman, and she is dead to me."

The allusion to the old love was extremely unfortunate just at this time, for Mrs. Trevlyn was just sore enough to be deeply wounded by it, and angry enough to throw back taunt for taunt.

"A man of honor!" she ejaculated scornfully. "Honor, forsooth! Archer Trevlyn, do you call yourself that?"

"I do; and I defy any man living to prove the contrary!" answered Archer, proudly.

"You defy any man! Do you also defy any woman? Tell me, if you can, whose glove this is?" and she pulled from her bosom the blood-stained glove and held it up before him.

He looked at it, flushed crimson and trembled perceptibly. She laughed scornfully.

"Archer Trevlyn, your guilt is known to me! It has been known to me ever since the fatal night on which Paul Linmere met his death. I was there that night, by the lonely graveyard. I saw you kiss her hand! I heard the dreadful blow, listened to the smothered groan, and saw through the gloom the guilty murderer as he fled from the scene of crime! When the victim was discovered, I went first, because I feared he might have left behind something that might fix his identity—and so he had. This glove I found lying upon the ground, by the side of the wretched victim—marked with the name of the murderer, stained with the blood of the murdered! I hid it away. I would have died sooner than it should have been torn from me, because I was foolish enough to love this man, whose hand was red with murder! Archer Trevlyn, you took the life of Paul Linmere, and thus removed the last obstacle that stood between you and Margaret Harrison!"

Trevlyn's face had grown white as death while she had been speaking, but it was more like the white heat of passion, than like the pallor of detected guilt. His rigid lips were stern and pale; his dark eyes fairly shot lightnings. He looked at his wife as though he would read her very soul.

"Alexandrine!" he said, hoarsely, "you believed this of me? You deemed me guilty of the crime of murder, and yet married me?"

"Yes, I married you. I was not so conscientious as your saintly Margaret. She would not marry a man who had shed blood—even though he had done it for love of her!"

Trevlyn caught her arm fiercely.

"Madam, do you mean to say this shameful story ever came to the ears of Margie Harrison?"

"Yes, she knew it. I told it to her myself. Kill me if you like," she added, seeing his fearful face; "it will not be your first crime!"

He forced himself to be calm.

"When did you make this revelation to Margaret?"

"The night before she left New York—the night she was to have gone to the opera with you. I deemed it my duty. I did not do it to separate you, though I am willing to confess I desired you to be separated. I knew that Margaret would sooner die than marry you, if the knowledge of your crime was possessed by her."

"And she—Margaret—believed me guilty?"

"Why should she not? Any jury of twelve impartial men would have committed you on the evidence I could have brought. You were in love with Miss Harrison. She was under a solemn obligation to marry Mr. Linmere—yet she loved you. Nothing save his death could release her. You were then, at night, in a lonely graveyard where none of your kin were slumbering. There, at that hour, the murder was done, and after its commission, you stole forth silently, guiltily. By the side of the murdered man was found your glove, stained with his blood; and a little way from his dead body a handkerchief bearing the single initial 'A.' Whose name commences with that letter? Could anything be clearer or more conclusive?"

"And you believe me guilty?"

"I do."

He took a step toward her. She never forgot the dreadful look upon his face.

"I scorn to make any explanation. I might, perhaps, clear myself of this foul accusation, but I will make no effort to do so. But not another day will I live beneath the same roof with the woman who believed me guilty of murder, and yet sunk herself so low as to become my wife."

"As you please," she said, defiantly. "I should be quite as happy were it so."

He bowed coldly, courteously—went out, and closed the door behind him. The sound struck to the heart of his wife like a knell. She staggered back, and fell upon a chair.

Had she been mad? She had wounded and maddened him beyond all hope of pardon—him, whom in spite of everything, she held more precious than the whole world! She had lost his respect—lost forever all chance of winning his love. And she had eagerly cherished the sweet hope that sometime he might forget the old dream, and turn to the new reality. But it was past!

She went up to her chamber, and locking the door, threw herself, dressed as she was, on the bed. How long must this continue? How long would he remain away? His business would not, probably, keep him more than a few days, and then, surely, he would return. And she would throw herself at his feet, acknowledge her fault and plead—yes, beg for his forgiveness. Anything, only to have peace between them once more!

She could not write to him, for he had not left his address. The next morning, she went down to the store, but they knew nothing of his destination, or his probable time of absence. So all she could do was to return home and wait.

A week passed—ten days—and still he did not return, and no tidings of him had reached his agonized wife.

CHAPTER XXI.

LOUIS CASTRANI received one day an urgent summons to Boston. It was the very day following that on which he had been an unwilling listener to the difficulty between Mr. and Mrs. Trevlyn. He knew from whom the summons came. Once before he had been suddenly called in like manner.

A wretched woman she was now—but once the belle and beauty of the fair Cuban town where Castrani's childhood and youth had been spent. She had been a beautiful orphan, adopted by his parents, and brought up almost as his sister.

She welcomed him brokenly, her eyes lighting up with the pleasure of seeing him—and then the light faded away, leaving her even more ghastly than before.

"They tell me I am dying," she said, hoarsely. "Do you think so?"

He smoothed back the hair on the forehead—damp already with the dews of death. His look assured her better than the words he could not bring himself to speak.

"My poor Arabel."

"Arabel! Who calls me Arabel?" she asked, dreamily. "I have not heard that name since he spoke it! What a sweet voice he had! O, so sweet!—but falser than Satan! O, Louis, Louis! if we could go back to the old days among the orange groves, before I sinned—when we were innocent little children!"

"It is all over now, Arabel. You were tempted; but God is good to forgive if repentance is sincere."

"O, I have repented! I have, indeed! And I have prayed as well as I knew how. But my crimes are so fearful! You are sure that Christ is very merciful?"

"Very merciful, Arabel."

She clasped her hands, and her pale lips moved in prayer, though there was no audible word.

"Let me hold your hand, Louis. It gives me strength. And you were always a friend, so true and steadfast. How happy we were in those dear old days—you, and Inez and I! Ah, Inez—Inez! She died in her sweet innocence, loving and beloved—died by violence; but she never lived to suffer from the falsity of those she loved! Well, she is in paradise—God rest her!"

The dark eyes of Castrani grew moist. There arose before him a picture of the fair young girl he had loved—the gentle-eyed Inez—the confiding young thing he was to have married, had not the hand of a cruel jealousy cut short her brief existence. Arabel saw his emotion, and pressed his hand in hers, so cold and icy.

"You have suffered also, Louis, but not as I have suffered—O, no! O, the days before he came—he, the destroyer! What a handsome face he had, and how he flattered me! Flattered my foolish pride, until, deserting home and friends, I fled with him across the seas! To Paris—beautiful, frivilous, crime-imbued Paris. I am so faint and tired, Louis! Give me a drink from the wineglass."

He put it to her lips; she swallowed greedily, and resumed:

"I have written out my history fully. Why, I hardly know, for there are none but you, Louis, who will feel an interest in the poor outcast. But something has impelled me to write it, and when I am dead you will find it there in that desk, sealed and directed to yourself. Maybe you will never open it, for if my strength does not desert me, I shall tell you all that you will care to know, with my own lips. I want to watch your face as I go on, and see if you condemn me. You are sure God is more merciful than man?"

"In His word it is written, Arabel."

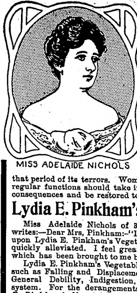
(TO BE CONTINUED.)

The Whole Teaching of Life.

The whole teaching of his life, indeed, is to leave us free and to make us reasonable, and the supreme lesson of his life is voluntary brotherhood, fraternity. If you will do something for another, if you will help him or serve him, you will at once begin to love him. I know there are some casuists who distinguish here, and say that you may love such an one, and that, in fact, you must love every one; but that you are not expected to like every one. This, however, seems to be a distinction without a difference. If you do not like a person you do not love him, and if you do not love him you loathe him. The curious thing in doing kindness is that it makes you love people even in this sublimated sense of liking. When you love another you have made him your brother; and by the same means you can be a brother to all men

Pulpit Just Right.

In a very handsome little church, not 200 miles from Indianapolis, the reading platform is adorned by a remarkably beautiful pulpit, flanked by equally decorative chairs. The artistic oaken pulpit, hand carved in passion flowers and lilies, and bordered with trefoil, is almost the "graven image" in the eyes of the association of church women who earned and purchased the pulpit furnishings when the edifice was built. Recently a new minister came into charge of the congregation. He was a little fellow, and one day casually remarked to one of his feminine church members: "Mrs. Badger, that pulpit is entirely too high for me; think it had better be cut down a trifle." "Cut down?" the horrified woman exclaimed. "Cut that pulpit down? No, indeed; it would ruin it; it would be much easier to get a taller preacher."



MISS ADELAIDE NICHOLS

PERIODS OF PAIN

While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

Thousands of women, have found relief from all periodic suffering by taking Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, as it is the most thorough female regulator known to medical science.

It cures the condition which causes so much discomfort and robs that period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking

Lydia E. Pinkham's Vegetable Compound

Miss Adelaide Nichols of 324 West 22nd Street, New York City, writes:—Dear Mrs. Pinkham:—"If women who suffer would only rely upon Lydia E. Pinkham's Vegetable Compound their troubles would be quickly alleviated. I feel greatly indebted for the relief and health which has been brought to me by your inestimable remedy."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases. Headache, General Debility, Indigestion, and invigorates the whole feminine system. For the derangements of the Kidneys of either sex *Lydia E. Pinkham's Vegetable Compound* is excellent.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

And Small Wonder.

"Were you really crazy?" they asked of Hamlet.

"I'll tell you the truth," answered that worthy. "After listening to the experts for a week, I was."

FAMILY'S SKIN TROUBLES.

Eczema, Heat Rash, and Scalp Affections Afflict Different Members, But Cuticura Cures Them.

"My wife had eczema for five or six years. It was on her face and would come and go. We thought we would give the Cuticura Remedies a trial. We did so and she has never had a sign of eczema for four years. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment, it would dry the heat up so much quicker than anything else. Mr. H. B. Springmire, 823 So. Capitol Street, Iowa City, Ia., July 16, 1905, and Sept. 16, 1906."

About the time a man gets used to himself the undertaker gets busy with him.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

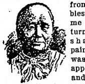
TEN YEARS OF PAIN.

Unable to Do Even Housework Because of Kidney Troubles.



Mrs. Margaret Emmerich, of Clinton St., Napoleon, O., says: "For fifteen years I was a great sufferer from kidney troubles. My back pained me terribly. Every turn or move caused sharp, shooting pains. My eyesight was poor, dark spots appeared before me, and I had dizzy spells. For ten years I could not do housework, and for two years did not get out of the house. The kidney secretions were irregular, and doctors were not helping me. Doan's Kidney Pills brought me quick relief, and finally cured me. They saved my life."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

COSTLY RAZORS.

Some Gold Handled That Sell for $50—Handles of Silver and Ivory.

If a man were content to shave himself with a razor having a hard rubber handle, as indeed most men are, he could buy one with a blade of excellent quality for a dollar; but there are razors far more expensive than this.

Thus there are sold razors with handles of 18 karat gold, and of plain smooth finish that bring $50 each—a pair of such razors in a plain silver box can be bought for $100.

But $50 is not the limit of what one may pay for a gold-handled razor. If the handle were elaborately chased its cost might mount up to twice that, or $200 for a pair.

There are also silver among those more expensive silver handled razors, which range in price for from $6.50 to $30 each; $6.50 being the price for one with a plain silver handle, while those more costly have their handles more or less elaborately chased or carved.

A man who did not altogether like a hard rubber handled razor might find his fancy suited with one having a handle of ivory, and an ivory handled razor need not necessarily be expensive; a razor with a plain ivory handle can be bought for $2. Of course any carving would add to the cost.

Costly razors are unsually sold for gifts.

MORE BOXES OF GOLD

And Many Greenbacks.

325 boxes of Gold and Greenbacks will be sent to persons who write the most interesting and truthful letters of experience on the following topics:

1. How have you been affected by coffee drinking and by changing from coffee to Postum?
2. Give name and account of one or more coffee drinkers who have been hurt by it and have been induced to quit and use Postum.
3. Do you know any one who has been driven away from Postum because it came to the table weak and characterless at the first trial?
4. Did you set such a person right regarding the easy way to make it clear, black, and with a snappy, rich taste?
5. Have you ever found a better way to make it than to use four heaping teaspoonfuls to the pint of water, let stand on stove until real boiling begins, and beginning at that time when actual boiling starts, boil full 15 minutes more to extract the flavor and food value. (A piece of butter the size of a pea will prevent boiling over.)

This contest is confined to those who have used Postum prior to the date of this advertisement.

Be honest and truthful, don't write poetry or fanciful letters, just plain, truthful statements.

Contest will close June 1st, 1907 and no letters received after that date will be admitted. Examinations of letters will be made by three judges, not members of the Postum Cereal Co., Ltd. Their decisions will be fair and final, and a neat little box containing a $10 gold piece sent to each of the five writers of the most interesting letters, a box containing a $5 gold piece to each of the 20 next best, a $2 greenback to each of the 100 next best, and a $1 greenback to each of the 200 next best, making cash prizes distributed to 325 persons.

Every friend of Postum is urged to write and each letter will be held in high esteem by the company, as an evidence of such friendship, while the little boxes of gold and envelopes of money will reach many modest writers whose plain and sensible letters contain the facts desired, although the sender may have but small faith in winning at the time of writing.

Talk this subject over with your friends and see how many among you can win prizes. It is a good, honest competition and in the best kind of a cause, and costs the competitors absolutely nothing.

Address your letter to the Postum Cereal Co., Ltd., Battle Creek, Mich., writing your own name and address clearly.

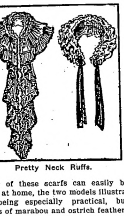
FASHION'S LATEST FANCIES

Ruffs Always Becoming

TULLE, LACE, CHIFFON AND FEATHERS REPLACE FUR.

Some of the Popular Fancies in Scarfs Can Easily Be Made at Home—Little Capes are Smart.

To many women, and especially to those past their youth, a boa or neck ruff is so becoming that even after winter furs are laid aside baos of tulle, lace, chiffon or feathers, such as ostrich or marabou, are adopted.



Pretty Neck Ruffs.

Many of these scarfs can easily be made at home, the two models illustrated being especially practical, but scarfs of marabou and ostrich feathers are also very fashionable, and can be had in the shops at quite moderate prices.

There are, too, some very attractive scarfs of soft lace laid over sheer silk, with a veiling of chiffon, and bordered by a narrow line of ostrich or marabou or by a ruching of little frills of lace or silk.

For the fluffy neck ruches plain tulle and the ring-dot net are favorite materials, and, although fancy prices are asked for these ruches in the fashionable millinery shops and large stores, they can be made at home at a fraction of the expense. Such a ruche is sketched in the drawing, the model pictured showing a deep plaited ruff of brown tulle mounted on a stiffened silk band, and finished by silk loops and bows in front.

Another very pretty model was made of black ring-dot net, four deep plisse frills being used, with another of tulle next the face. A cluster of black silk poppies with yellow centers was tucked among the tulle in the front, which was finished with many ribbon loops and ends of black velvet and net.

Another very odd ruff was also made of ring-dot net, each ruffle being bordered with satin ribbon. On the ribbon at intervals were set little satin-covered buttons, encircled by frills of the narrowest valenciennes edging.

Little capes of broadcloth, usually with a touch of black somewhere about them, are made up on the "Carrick" lines, and are very smart and becoming for driving or for use in the country and at the seaside. One very pretty model made in the Carrick style was of bright cherry broadcloth, each of three circular capes being finished by a stitched band of the same. The trimming consisted of a small rounded collar of black, showing scanty touches of gold braid, the lower points of the wrap also showing rounded tabs of black velvet.

HERE ARE SOME GOOD FORFEITS

Bound to Furnish Amusement at Evening Party.

Some weeks ago a young correspondent wrote for a list of forfeits to be used at an evening party. I think the following will prove acceptable as they are all "doable" and good ones for any occasion:

1. Act in pantomime the visit of a doctor.
2. Make a fool's cap and place on the head of the most dignified person present.
3. Deliver an oration lasting ten minutes on "George Washington."
4. Sing "Mary Had a Little Lamb" in operatic style.
5. Draw a picture of a cow.
6. Tell a pathetic story.
7. Sing a comic song.
8. Sing a lullaby to a sofa pillow.
9. Compose a jingle of four lines.
10. Tell a laughable story.
11. Make a shadow picture on the wall.
12. Show an imitation of a small boy being sent to bed.
13. Sneeze in five different ways.
14. Shake hands in ten different styles.
15. Recite "The Boy Stood on the Burning Deck" in dramatic manner.
16. Laugh in five different ways.
17. Imitate two cats fighting.
18. Show how a man acts when he is lost.
19. Smile in five different ways.
20. Tip your hat in as many ways as possible.
21. Imitate the walk of a dude.
22. Auction off an umbrella.
23. Be a book agent and sell a book.
24. Show how a chap writes his first love letter.
25. Name the things you would do with a million dollars.

A Spinster Tea.

This party was given by a dozen bachelor maids as the farewell party to one of their number who had just announced her engagement. It was very funny, each girl was requested to bring the photograph of a man whom she was supposed to have "refused" and to tell her reasons why she preferred to be a spinster. They were also asked to come dressed as typical old maids, with corkscrew curls, glasses, etc. Bachelor's buttons were used on the table and a few blossoms attached to the favors, which were tiny kettles. After the dainty repast cards were passed with the following contest:

1. Always in pairs. (Cup and saucer.)
2. Would they were here. (Jolly boys) boy dolls.
3. Front curls. (Kid curlers.)
4. Objects of envy.. (Preserved pears—pairs.)
5. Warranted to pop. (Bottle of ginger ale.)
6. A solace. (Tea.)
7. Sadly missed. (Sugar kisses.)
8. Cause of woe. (A bit of spiced tongue.)
9. Courtship. (A bowl of mush, two spoons, sugar.)
10. A lover. (A diamond ring.)
11. Our tears. (Salt.)
12. Left over. (A heart.)

These objects were on a table in the dining-room and the hostess said it was the "spinster menu." Afterwards the time was spend in hearing why the maidens had refused their offers and their reasons for preferring "spinsterhood." Of course it was all done to jokingly try to make the engaged girl repent her bargain. The guests reported "the best fun ever" and at last accounts the little bride-to-be was busy with the joyful wedding preparations.

A Sewing Party.

A correspondent writes that she wishes to give a surprise party for her sister who is to be married late in May and wishes to know if it would be proper for her to give a linen shower or should such an affair be left for the friends?

I should advise letting the "shower" be given by some one outside the family, but the sister may arrange a very pleasant surprise by following out these suggestions: Write the invitations on heart-shaped cards, with "thimbles" in one corner, so all will be prepared to sew. Have ready for hemming a half dozen dish towels, dusters, roller towels and heavy muslin for shoe cloths, which will be greatly appreciated by both the new housewife and the liege lord. This will be a pleasant surprise for the bride-elect. For refreshments, pass chicken salad sandwiches, chocolate and tea (it is always well to give a choice of beverages), olives, nuts, heart-shaped cakes iced in pink and white, decorated with blanched almonds, ice cream or a sherbet. It would be pretty to lay a pink or white rose on each plate.

MADAME MERRI.

FOULARD RIPPLES INTO FAVOR

Material Promises to Be Extremely Popular This Season.

Foulard, from all present indications, will be extremely smart this year, although it has been rather out of favor for some time. So many of the newest models call for a material that is rather soft and clinging and easily draped that soft silks will be in nearly as great demand as was the case last year.

For rough and ready shirt waist dresses foulards are excellent. Even the less expensive quality wears admirably and the silk is delightfully light and cool.

The polka dots of last spring and summer have given way to stripes of all widths and colors. There is the wide one-inch stripe and the narrowest threadlike band of colors, and some of the foulards have strips of graduated widths arranged in clusters or verging gradually from wide to narrow.

Good effects can be obtained in the wide tucks by placing the solid colors together wherever the material needs to be gathered in, as about the waist and hips. Sometimes the stripes are in two or more tones of the same shade and again the white stripe against any color design is seen.

BELIEVE IN AIRSHIP

WASHINGTON RESIDENTS HOPE FOR ANOTHER TRIAL.

Prof. Langley's "Buzzard," Now in the Smithsonian Institution at the Capital May Prove the Wished-For Success.

A great deal of interest has been aroused not only in Washington but all over the country by the announcement thata C. M. Manley, the engineer who did the mechanical designing of "The Buzzard," the late Prof. Langley's great airship, is expecting to give the machine another trial.

At a meeting of the American Academy of Sciences last December there was a paper read by Alexander Graham Bell on his work up in Nova Scotia with the tetrahedral kite. It was a general contribution to the subject of aerial locomotion, as well. Mr. Manley was present at the meeting, and in the discussion that followed Dr. Bell's paper he said it was the general belief that the aerial experiments of the Smithsonian Institution had been dropped. This, he said, was not correct; that they had been merely suspended; and he hoped in the not very distant future to take out the big airship and give it another trial.

The situation with the big airship in the Smithsonian is rather complicated. The war department has some rights in it, having furnished the officers and had the supervision of some of the expenditures connected with it. The machine is the property of the Smithsonian Institution in point of possession, and from the fact that it was made by Prof. Langley, the former secretary. The government, not being much in touch with the subject of aerial navigation, has little faith in the machine, it is stated, and it is regarded as a certainty that there will not be another dollar appropriated for experiments. The scientific world, on the other hand, is almost wholly convinced that the machine is all right, and if it were a sporting proposition the scientists probably would be willing to make a wager of five to three that the ship would fly the next trial.

Mr. Manley, as stated, is the engineer who built the airship. When the subject of a lightweight engine was under discussion Prof. Langley went personally to the most expert engine builders in this country and in Europe and tried to get an engine built on the general lines he had laid down. None of them would undertake the contract, and the result was that Mr. Manley, then a young man in Prof. Langley's employ, did the work himself, and produced a 52-horsepower engine at considerably less than five pounds weight per horsepower. Manley stipulated but one thing, and that he should have the honor of navigating the machine on her first trial. This was granted him, but the attempt was a failure, and now he wants to take another try at it.

How long it will be before the trial is actually made is a question. However the machine is still there, and the principal thing lacking is some one with the nerve and money to risk the initial trip.

Resourceful Capital Newsboy.

"Verily, this is the era of roller skates in the national capital," remarked an old resident, "and the whirr of the wheels is in the air. Although I am not in it myself for physical reasons, I take pleasure in the evident enjoyment of those who are. The saying that there are queer things on skates is true. The other day I saw an enterprising newsboy put his skates to a novel use. He had a big bundle of papers to serve to customers at a distance from the office. The bundle was really too heavy for him to carry without great exertion. To meet that difficulty and save carfare he had in some ingenious manner fastened it to a pair of skates and was rolling it along the smooth pavements at a good pace. It was a labor-saving device sure enough, and showed that the youngster was capable of putting to practical use articles usually employed only for pleasure."

Speaker in Jovial Mood.

Speaker Cannon returned to Washington with a face of such blazing hue as to excite wonder among his friends. This is the result of constant exposure to the sun in tropical waters. "Yes, my face is red," he acknowledged, "but it's because of my youth and good health. I've been plowing the Spanish main and haven't had a pain since I left here—that is, except Sereno E., and he doesn't count."

Advice for "Uncle Joe."

A postal card addressed "Uncle Joe, Care Uncle Sam, Washington, D. C.," arrived in the capital recently. The post office authorities promptly sent it to Speaker Cannon. The writer, a citizen of Columbus, O., urged the speaker to "give us fewer battleships and railroad wrecks, smaller salaries and mileage bills, briefer congressional records, more postal routes and one-cent postage.

Fewer Visitors in Washington.

The cutting off of free passes has made a difference in the number of visitors to Washington. The hotel keepers note this.

Millions for Carrying Mail.

The government this year will pay to railroads $76,000,000 for carrying the mails. This is a record-breaking figure.

Secretary Cortelyou a Hard Worker.

Secretary of the Treasury Cortelyou works more hours a day than any other member of the cabinet.

Springfield, Me., Jan. 19, 1907.
I have run one of your Separators for twelve years with $1.65 for repairs, and I think it can't be beat.
(R.F.D. 7) L. E. CHAPPELL.

One Cent a Month
to maintain a U. S. Separator!
Sure, that's a little sum for you to pay to maintain a machine that gets ALL the cream out of your milk. That's what a U. S. does!

Holds the World's Record for CLEAN SKIMMING.
Time has proved it is durably built. Not "how cheap," but "how good," is our watchword, and the record of the U. S. during the past sixteen years proves we've stuck to it. "The best is cheapest in the end." Buy the U. S.

Yes, sir! that's the U.S.

We'll send you free our large handsome catalog. Lots of pictures showing just how the U. S. is built and how it works. See for yourself why it wears longer than any other separator. Write us today—now.
Just say: "Send new 1907 Catalogue No. Y."

CATARRH BLOOD DISEASED AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame the different membranes and tissues of the body, and the contracting of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pains above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered and affected by this disease. It is a waste of time to try to cure Catarrh with sprays, washes, inhalations, etc. Such treatment does not reach the blood, and can, therefore, do nothing more than temporarily relieve the discomfort of the trouble. To cure Catarrh permanently the blood must be thoroughly purified and the system cleansed of all poisons, and at the same time strengthened and built up. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the very bottom of the trouble and makes a complete and lasting cure. S. S. S. removes every particle of the catarrhal poison from the blood, making this vital stream pure, fresh and healthy. Then the inflamed membranes begin to heal, the head is loosened and cleared, the hawking and spitting cease, every symptom disappears, the constitution is built up and vigorous health restored. S. S. S. also tones up the stomach and digestion and acts as a fine tonic to the entire system. If you are suffering with Catarrh begin the use of S. S. S. and write us a statement of your case and our physicians will send you literature about Catarrh, and give you special medical advice without charge. S. S. S. is for sale at all first class drug stores.

I had Catarrh for about fifteen years, and no man could have been worse. I tried everything I could hear of, but no good resulted. I then began S. S. S., and could see a little improvement from the first bottle, and after taking it a short while was cured. This was six years ago, and I am as well today as any man. I think Catarrh is a blood disease, and know there is nothing on earth better for the blood than S. S. S. Nobody thinks more of S. S. S. than I do. M. MATSON, Lapeer, Mich.

Sheriff's Sale.

State of Minnesota, County of Red Lake, ss.—District Court.

First State Bank of Brooks, Plaintiff,
vs
Tolof Torgeson, Defendant.

Notice is Hereby Given, That by virtue of an execution to me directed and delivered, and now in my hands, issued out of the District Court, Fourteenth Judicial District, State of Minnesota, in and for the County of Red Lake, upon a Judgment rendered in said Court in favor of First State Bank of Brooks, the above named plaintiff, and against Tolof Torgeson, the above named defendant, I have levied upon the following described real property of said defendant, towit:

The East Half (E½) of the West half (W½) of the Southeast quarter (SE¼), and the East half (E½) of the Southwest quarter (SW¼) of the Northeast quarter (NE¼), all in Section Six (6), in Township One Hundred and Fifty (150) North of Range Forty-one (41) West, in said Red Lake County and State of Minnesota, and that I shall on Saturday, the 22nd day of June, 1907, at the hour of two o'clock p. m. of said day, at the west front door of the Court House, in the City of Red Lake Falls, in said County and State, proceed to sell all the right, title and interest of the above named defendant in and to the above described property, to satisfy said judgment and costs, amounting to One Hundred and Seventy Dollars and 24 cents, together with all accruing cost of sale, and interest on the same from the 8th day of March, A. D. 1907, at the rate of six per cent. per annum, at public auction, to the highest bidder for cash.

LEWIS A. NELSON,
Sheriff of Red Lake County, Minnesota.
by BENDIX ISAACSON,
Deputy.

Notice of Expiration of Redemption.

State of Minnesota, County of Red Lake. } ss. Office of County Auditor

To James E. Ford, Red Lake Falls, Minn.

You are hereby notified that the following described piece or parcel of land, situated in the county of Red Lake, State of Minnesota, and known and described as follows, towit:

Lot numbered 20 in Block numbered 15, of Champagne & Dow's Addition to Red Lake Falls is now assessed in your name; that on the 11th day of May, A. D. 1903, at a sale of land pursuant to the real estate tax judgment, duly given and made in and by the District Court in and for said County of Red Lake on the twenty-fifth day of March, A. D., 1903, in proceedings to enforce the payment of taxes delinquent upon real estate for the year A. D., 1901, for the said county of Red Lake, the above described piece or parcel of land was sold for the sum of Three Dollars and Thirty-six Cents; that the said land still remains unredeemed and that the tax certificate issued for said land at said sale has been presented to me at my office by the holder thereof for the purpose of having notice of redemption from said sale given and served; that the amount required to redeem said piece or parcel of land from said sale exclusive of the costs to accrue upon this notice, is the sum of Four Dollars and Ninety-six Cents and interest on Three Dollars and Thirty-six Cents, at the rate of 12 per cent per annum from the twenty-fifth day of April, A. D. 1907, to the day said redemption is made. (said last named sum being the aggregate amount of said sum for which said land was sold at said sale and interest thereon at 12 per cent. per annum, delinquent taxes, penalties, costs and interest thereon, accruing subsequent to said sale and paid by said purchaser, and all unpaid delinquent taxes, interest, costs and penalties accruing upon said land subsequent to said sale); and the time of redemption of said piece or parcel of land from said sale will expire sixty (60) days after the service of this notice and proof thereof has been filed in my office.

Witness my hand and seal of office this twenty-fifth day of April, A. D. 1906.

(Seal) —JOHN B. O'BRIEN,
County Auditor,
m2-16 Red Lake County, Minnesota.

Notice of Application for Liquor License.

State of Minnesota, County of Red Lake, City of Red Lake Falls, ss:

Notice is hereby given that application has been made in writing to the city council of said city of Red Lake Falls and filed in my office, praying for license to sell intoxicating liquors for the term commencing on May 7, 1907, and terminating on May 6, 1908, by the following person, and at the following place, as stated in said application, to-wit:

JOSEPH H. PARADIS, in that certain brick building situate on lot 19 of block 3, in Champagne & Dow's addition to Red Lake Falls, Minn.

Said applications will be heard and determined by said city council of the city of Red Lake Falls at the city hall in the city of Red Lake Falls, in Red Lake county and state of Minnesota, on Thursday, the 1th day of May, 1907, at 8 o'clock p. m. of that day.

Witness my hand and seal of the city of Red Lake Falls this 25th day of April A. D. 1907.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Nine Hundred Nineteen and 32-100 ($919.32) Dollars, which is claimed to be due and is due at the date of this notice upon a certain Mortgage, duly executed and delivered by Samuel W. Lee, a single man, Mortgagor to Swante W. Larson, Mortgagee, bearing date the third day of October 1901, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 10th day of October, 1901, at 11:30 o'clock A. M., in Book 20 of Mortgages, on page 308,

Which said mortgage, together with the debt secured thereby, was duly assigned by said Swante W. Larson Mortgagee, to Merchants State Bank of Red Lake Falls, Minn., by written assignment, dated the 24th day of January, 1907, and recorded in the office of said Register of Deeds, on the 12th day of April, 1907, at four o'clock P. M., in Book 15 of Mortgages, on page 372, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof;

NOW THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: The Northeast quarter (ne¼) of Section twenty-six (26), in Township one hundred fifty-two (152), north of Range forty-four (44) West of the Fifth Principal Meridian. Containing one hundred and sixty acres, more or less, according to the United States Government survey thereof, in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the Sheriff of said Red Lake County at the West front door of the Court House, in the City of Red Lake Falls, in said County and State, on the first day of June, A. D., 1907, at 10 o'clock A. M., of that day at public vendue, to the highest bidder for cash, to pay said debt of Nine Hundred Nineteen and 32-100 Dollars, and interest, and the taxes, if any, on said premises, and Twenty-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated April 17th, 1907.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of ninety-seven and 50-100 dollars, ($97.50) interest due November 26, 1905, and the further sum of ninety-seven and 50-100 dollars, ($97.50) interest due November 26, 1906, and in the payment of taxes for the years 1904, 1905 and 1906 all which is now due, upon a certain mortgage, duly executed and delivered by Odilon Gauthier and Marie Gauthier his wife, Mortgagors, to the Edinburgh American Land Mortgage Company, Limited, Mortgagee, bearing date the 20th day of November, 1904, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake, State of Minnesota, on the 14th day of December 1904, at 11:30 o clock A. M. in book 14 of Mortgages, on page 552; which said mortgage was given to secure payment of the sum of fifteen hundred dollars and interest, upon the premises hereinafter described:

And Whereas, said mortgage provided as one of its conditions that in case of failure to pay any part of the interest upon said debt when the same becomes due, or to pay any taxes levied upon said real estate before the same becomes delinquent, the whole sum of money or indebtedness thereby secured shall at once become due and payable, and by reason of the defaults hereinbefore mentioned, the said the Edinburgh Land Mortgage Company, Limited, Mortgagee, chooses to declare, and hereby does declare the whole debt secured by the aforesaid mortgage due and payable, and there is now due and claimed to be due at the date of this notice upon said mortgage the sum of seventeen hundred forty-two and 65-100 dollars, ($1742.65), principal and interest, and the further sum of $50 71 taxes paid on said premises by said mortgagee; and no action or proceeding having been instituted at law or otherwise, to recover the debt secured by said mortgage or any part thereof;

Now, Therefore, Notice is hereby given that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, to-wit:

North half of Northeast quarter (n½ of ne¼) and North half of Northwest quarter, (n½ of nw¼) of section twenty-three (23), in township one hundred fifty-one (151), North, of Range forty-two (42) west of the 5th principal meridian for Minnesota, in Red Lake County and State of Minnesota; with the hereditaments and appurtenances: which sale will be made by the Sheriff of said Red Lake County, at the west front door of the courthouse in the City of Red Lake Falls in said county and state, on the

25th day of May, A. D., 1907

at ten o'clock A. M. of that day, at public vendue, to the highest bidder for cash, to pay said debt, of $1742.65, and $50.71 taxes, and seventy-five dollars attorney's fees as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the date of sale, as provided by law.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.
Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Last Mountain Valley Lands

We own thousands of acres of Choice Selected Land in this district, which is right in the heart of the Great Wheat Plains of Saskatchewan. The richness of the soil in this district is shown in the reports to the Government which give an average of 26½ bushels of wheat to the acre for 1906. The great development of this part of Western Canada has brought about the competition of 3 railways. Ample timber for fuel and fencing. Send 15c for beautiful, new souvenir book, entitled "The Lake and the Land of the Last Mountain Valley." Also 20th Century Atlas of Canada sent with souvenir book. Write to-day. Maps, descriptive matter, etc., on request.

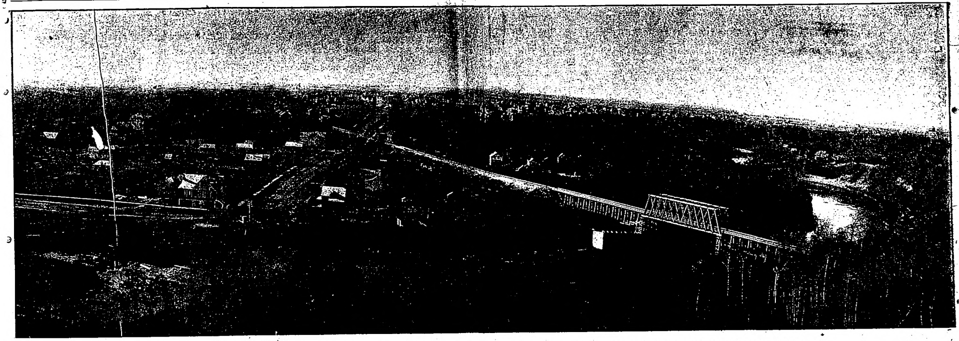
RED LAKE COURIER.

VOL. IX—NO. 31. RED LAKE FALLS, MINNESOTA. THURSDAY, MAY 23, 1907. WHOLE NO. 447.



Picturesque City of Red Lake Falls---where the Firemen's Tournment will be held four merry days in June.

OUTDOOR CONCERT

Local Organization Will Give Open Air Recital Tuesday Evening.

The first open air concert of the season by the Red Lake Falls band will be given Tuesday of next week on Main street, and a nice program of music, popular and heavy, has been prepared.

On this occasion La Signor L. Pulle Berthoni, X. P. D. Q., late of Paree, will wield the baton. Signor Berthoni is a leader of world renown (although the public didn't know it) and were it not for the fact that his medals are all tarnished and are in "hock" for his last week's laundry, he would appear in full uniform on this occasion.

Anyway the concert will be good, and the people should turn out and listen attentively.

The following is the program:

March .... Bagley
"National Emblem"
Selection .... Recker
"Popular Jingles"
Intermezzo.......... E. Buffington
"Floating Along"
March.................. Ramsdell
"The Adventurer"
Selection..................... Verdi
"La Traviata"
Waltz .... Rosas
"Impassioned Dream"
March .... Clement
"The Annihilator"

Pittsburg to Be Novel's Center.

A southern novelist of celebrity is now in Pittsburg getting "local color" for a story of that city's iron workers. It is understood that Charles M. Schwab is to be the central figure.

WILL PROBABLY GO.

State Fair Job Is Being Looked After By Friends of Band.

From the correspondence at hand it is highly probable that the Red Lake Falls band will play an engagement at the state fair the last three days of the first week of September, and within a few days the matter will be settled definately. D. S. Hall, superintendent of fair police and an influential member of the fair board has interested himself in the matter and in a letter to his friend Dr. N. M. Watson, of this city he states that there is hardly any question but that matters can be arranged satisfactorily. Mr. Hall was here a year or so ago and heard our band in concert work and what he is doing now in their behalf is certainly showing that he has a warm feeling for the boys here.

Dr. Watson is lending a hand as is Hon. Marcus Johnson, and as both have many personal friends connected with the fair, there is every reason to feel encouraged.

There is always keen competition among the bands in the cities for these jobs and a country band generally stands no show whatever. With the good friends working in behalf of our organization, however there is every reason to hope for success.

If the job is landed, this will be one of the best ads Red Lake Falls ever had, and the people generally hope that the efforts of those interested may be successful.

Lost--Thursday between Red Lake and Terrebonne on south road, a new Peking gang plow lathe. Finder please leave at this office.

FIRE TOURNAMENT IS BUT THREE SHORT WEEKS AWAY

Three weeks from Tuesday next and the thirteenth annual tournament of the Northern Minnesota Firemen's Tournament association will be on at Red Lake Falls. The fun opens on the morning of June 18, and for four days the city will be turned over entirely to the visitors.

The preparations for the big event are being pushed with all possible speed and the different committees are hard at work at the details. The big track for the races is completed and is surely a dandy. It is built where the rainy weather wont effect it to any extent and some new records for the association can be expected. The baseball diamond is also in readiness and during the four days several exciting ball games will take place there.

This week the work of building the immense grand stand was commenced and within a week the big structure will be in readiness. The grounds are also being fenced and and otherwise fixed up, and will be in excellent shape when tournament time arrives.

The week will be an enjoyable one to all who come to Red Lake Falls, and from the dawn of the first day until the close of the fun there will be something doing at all times.

Every evening there will be dances and entertainments galore. Frank Mahara's minstrels—one of the best troupes on the road will be here two nights of the week and other equally as good attractions are booked.

Red Lake Falls is ideally situated for a tournament of this kind. It nestles among the hills along the banks of two of the prettiest rivers in Minnesota, and not only will the tournament offer the people a good time but fishing, boating and other diversions can easily be found. There are numerous desirable places for rest in the cool shade and it can safely be said that no town in the northern part of the state can present better advantages.

There will be plenty to eat and a place to sleep for all who come. The different church societies are arranging to serve meals as the hotels and retaurants will be taxed to their capacities. The firemen have bought five hundred new cots, which will be put in commission for these three nights. Besides this there will be many private homes where rooms can be secured, and no one will be left unfed or uncared for.

Red Lake Falls extends a hearty invitation to the people of Northern Minnesota to come here for these three days in June and if any luck is had at all and the weather man behaves the least bit decent a standing guarantee of "the time of your life" is made.

Come—by all means come.

BROOKS IS AWAKE.

Will Have Big Celebration On St. John's Day.

Zatique Bray, one of Brooks' foremost rustlers, spent Tuesday in the city looking after some business matters. This was Mr. Bray's first visit here in several months and naturally he found plenty to do shaking hands with his many friends.

Mr. Bray made The COURIER a brief call, and informed us that Brooks was arranging for a gigantic celebration on St. John's day—June 24. They will have a big program of sports, etc, a bowery dance day and night, and are also planning to have the Red Lake Falls band present on this occasion.

Brooks has celebrated this day for several years past, and always does the thing up right. Incidently Mr. Bray stated that a big delegation of people from out east was coming to Red Lake Falls tournament week.

BUYS CITY PROPERTY

Joe Prudhome, of Lake Pleasant, Will Move Here.

Joseph Prudhomme, of Lake Pleasant township closed a deal yesterday for the purchase of the City Hotel property and will take possession within a very short time.

On Monday, June 3, he will hold a public sale of live stock farm machinery, etc. and has bills issued this week giving a list of the property.

Mr. Prudhomme is well known to the people of southern Red Lake county and will without doubt make a success of his business venture here.

BALL GAME SUNDAY

Thief River Falls Will Be Here for the First Game of the Season.

Manager Padden, of the Red Lake Falls aggregation of ball tossers, announces that the first game of the season will be played here Sunday afternoon next (providing, of course, that the field is free from snow) when the Thief River Falls team will cross bats with the locals.

This announcement will be joyfully received by the "fans," and it is natural to expect that a big crowd will turn out. The local team is practicing every evening, and while the Thief River team in the past few years has been a hard one to cope with the boys here hope to give a respectable account of themselves.

The game will be played on the new ball field and it is expected that the big grandstand for the tournament will be sufficiently completed to be used on Sunday.

The game will be called at 3 o'clock, and an admission of twenty-five cents will be charged. Every body turn out and help cheer for the home boys.

It's too bad to see people who go from day to day suffering from physical weakness when Hollister's Rocky Mountain Tea would make them well. The greatest tonic known. 35cents, Tea or tablets. A. L. Reichert.

Just received a fresh consignment of fancy cookies. See them before you buy.—Freund's confectionery.

We Want to Help You Buy Cows Now

No doubt you have read our offer in the columns of this paper during the past two weeks, and we are very desirous that you give us an opportunity to get your farm stocked with cattle and hogs. To this end we would earnestly request you to call in and talk the matter over before the season becomes too far advanced.

The Secret of Success Lies in Dairying and Hog Raising

Why not now abandon the wheat raising lottery and adopt the surer method of providing revenue for yourself and family? This bank is interested in your welfare and stands ready to help you get started in profitable dairying. Call [illegible] and we will talk it over.

SUICIDE UP-RIVER

Joe Werstlien, of Thief River Falls Hangs Himself In His Barn.

Coroner Belair was summoned to Thief River Falls Saturday morning by a message announcing that a fellow hadbeen found dead the day before. Joe went up on the morning train but on reaching the scene of the affair and making inquiries he found the case so plain a one of suicide that no inquest was deemed necessary.

It appears that Joe Werstlein, who lived withh is family at that place, has been partly "off his balance" all spring and while not violent [illegible] bored under the impression that he was being pursued. Friday afternoon his wife missed him and when school was she sent her boy to the barn to see if he was there. The [illegible] p into the left and [illegible] anging by the neck [illegible] and immediately [illegible] act when aid was [illegible] stlein had gone to the barn, [illegible] astened a rope over the crossbeam, put the noose around his neck and kicked the barrel that he stood on out from under him. The suicide evidently occured early in the afternoon as the victim had been dead several hours when found.

No cause is evident for the fellows rash act other than that he had not been well and was off mentally. He was in fair circumstances and had no troubles to drive him to such a deed. He leaves a wife and eight children but they are left in fair condition financially.

The funeral was held at Thief River Monday.

Mirror for Automobiles.

The latest accessory for the automobile is a small mirror set in a strong frame and suitably protected at the back, and placed where the driver can watch it. The mirror enables the occupants of the car to see what is coming from behind without turning the head. Are you aware that the daily use of golden grain belt beer will aid your digestion, steady your nerves and build you up physically? Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

FARMERS

WE ARE HERE TO HELP YOU MAKE FARMING A SUCCESS.

Jas. J. Hill made money raising cattle, hogs and sheep--so can you

Take advantage of this opportunity. Buy Cows. Take you cream and milk to the Creameries and Cheese Factories from now on.

We Will Loan You Money To Buy Cows. Call on Us

RED LAKE FALLS, MINNESOTA

NEWS OF WEEK SUMMARIZED

IMPORTANT EVENTS AT HOME AND ON FOREIGN SHORES BRIEFLY TOLD.

Washington.

Wilber J. Carr has been appointed chief clerk of the state department, to succeed Charles Denby, who will go to Shanghai as consul general. Mr. Carr is now chief of the consular division.

Rural delivery service petitions up to May 1 numbered 54,873, of which 15,537 adverse reports have been made. There are 37,597 rural routes, served by 47,447 carriers. A balance of $1,340,478 remains of the appropriation for new service.

During the last fiscal year 6,258 men deserted from the United States army. That number is equivalent to six regiments. Out of the 24,083 enlistments only 8,849 were re-enlistments. This condition is causing considerable discussion among army officers. Most of them agree that it is on account of service in the Philippines.

Viscount Aoki, the Japanese ambassador to the United States, has decided to visit the Pacific coast and make a number of addresses to his countrymen for the purpose of soothing the feelings of the Japanese on the coast because of the San Francisco school incident and on account of the new law barring Japanese from the United States.

Personal.

Miss Mattie Watterson, said to be a niece of Rear Admiral Evans, was found dead at El Paso, Tex. Heart failure caused her death.

Charles E. Halliwell, vice president of the American Tobacco company, died suddenly of apoplexy in the Holland house in New York. He was worth $20,000.

Mrs. Anna Chase Deppen, the Louisville novelist and poet, is dead at Brooklyn. Mrs. Deppen was a niece of Salmon P. Chase, late chief justice of the United States supreme court.

G. A. Van Wyck, chief of the fire department of Sault Ste. Marie, Mich., is dead as the result of pneumonia, contracted while assisting the Canadian Soo department at the time of the pulp mill fire, a short time ago.

Edmund C. Ross, former United States senator from Kansas, whose vote saved President Andrew Jackson from impeachment, died at Albuquerque, N. M. After his retirment from the senate he was governor of New Mexico.

Criminal.

Three men were wounded, two probably fatally, in a feud fight twelve miles southwest of Nevada, Mo.

Mrs. Carrie Fogelson, a milliner of Shelby, Ind., was shot and killed last evening by her husband, who afterward killed himself.

The safe in the postoffice and store of Thomas Van Eaton at Eatonville, Wash., was robbed and $1,000 in school warrants, $115 in cash and $19,000 worth of mortgages and other valuable papers taken.

Michael Casey of Chicago cut the throat of his brother, John Casey, with a razor, following a quarrel over a phonograph. The injured man died a half-hour later. Both had been drinking. The murderer was arrested.

Thomas Troy, who came ashore at West Palm Beach, Fla., from the steamer Cecilia, bound from South America, with a cargo of lumber for New York, shot and instantly killed George G. Newcombe in a saloon row there.

James Leftwich, a wealthy cattleman of Loce, I. T., and candidate for state senator on the Democratic ticket, shot and killed T. J. Clark, also a wealthy cattleman, at the entrance to the court house in Duncan, I. T., as a result of a feud which has existed between the two men for a long time.

W. R. Haymaker, aged sixty-five years, formerly an alderman in Fort Worth, Tex., committed suicide in the Monarch hotel in Kansas City because of despondency induced by ill-health and the anticipation of being placed on trial in St. Louis next month on the charge of shooting a man there.

Foreign.

A fire at Bocas del Toro, Panama, practically destroyed the town. It has a population of 4,000.

The lower house of the Netherlands parliament has voted $40,000 for the reception of delegates to the second peace conference.

At Antofagasta, Chile, where the bubonic plague is raging, there were 124 deaths from the dread disease during the first six months of this year.

Sir Henry Norman, the author and traveler, and Miss Priscilla, daughter of Sir Charles McLaren, a wealthy ironmaster, were married in London.

Another mine of explosives has been found in the vicinity of the national assembly at Guatemala City. The authorities have released several prominent women who had been detained on suspicion of conniving in the plot to assassinate President Cabrera.

It is announced at Tokio that President Rooosevelt's proposal to hold an international conference at Tokio to consider plans looking to the stamping out of the plague will soon be accepted by the department of home affairs on behalf of the Japanese government.

It is believed at Tokio that one of the principal objects of the Franco-Japanese entente is the facilitation of the introduction of French capital in the Far East.

The German richstag passed the first reading of the commercial modus vivendi between the United States and Germany and referred the agreement to a committee.

Col. George Vincent Fosbery, V. C., inventor of the paradox gun, an automatic revolver, etc., is dead in London. He won the Victoria cross during the Umbeyla campaign of 1863.

The high water on the Dnieper has inundated no less than 180 villages. Dwellings, stores of grain and cattle have been swept away by the flood. The people of this town are in flight.

An important step in the educational affairs of Chile has been decided upon by the government. Five hundred new public elementary schools are to be erected as soon as possible.

The imperial disciplinary court at Berlin sentenced Former Gov. Horn of the Togoland colony to dismissal from the service because, in 1903, he punished a native so severely that the man died.

The British government has decided to make Jamaica a gift of $750,000 and to guarantee a Jamaican loan of $4,000,000 to assist the inhabitants of Kingston to recover from the effects of the recent earthquake.

Accidental Happenings.

Victor Malainen, a miner, was killed in the Pabst mine at Ironwood by falling timbers.

Two persons were killed and over a score injured in a collision of two cars on the Toledo Urban and Interurban Electric road at Toledo.

John Schreiner and Norman Heindecker were killed at Fostoria, Ohio, when a hand car on which they were going home was backed into a freight train.

Struck by a falling tree, Andrew Machinga, a sawyer, was instantly killed at Doyle's logging camp in Schoolcraft county, Mich. His neck was broken.

While at work on the 600-foot level of the St. Lawrence mine at Butte, Dennis Murphy was caught by a fall of rock which cut off the top of his head and killed him instantly.

Loaded with lumber, the German schooner Arthur Fitger, lying outside Salmon bay, near the West Point light house, at Seattle, was burned. The cargo, worth $30,000, was destroyed.

"Billy" Kimball, one of the oldest and best known stage drivers in Montana, was fatally injured by being thrown from his seat while taking the Great Falls-Lewiston stage to the former place.

One woman was seriously hurt and fifty other persons slightly injured in a panic at a circus at White Plains, Iowa. The panic was caused by the collapsing of the reserved seat section, the cause of the collapse being unknown.

Train No. 7 on the Baltimore & Ohio collided with a fast freight at Rosby's Rock, W. Va. Four men were killed out. ht. The engineer of the passenger train was fatally injured. The accident is alleged to have been caused by a misunderstanding of orders.

Fay Nutting, thirteen years old, of Marshalltown, Iowa, saved the life of her baby sister but was herself badly burned in doing so. The child's clothing took fire from a kitchen stove. Both children were seriously burned, but it is not thought that either received fatal injury.

Domestic.

The Missouri house passed the senate bill prohibiting pool selling by telephoning bets into another state.

The Susan B. Anthony memorial fund of $60,000 to promote the cause of equal suffrage has been completed.

A reunion of descendants of the signers of the Declaration of Independence will be held at the Jamestown exposition on July 4.

Henry R. H. E. McIver, a soldier of fortune, whose exploits have been carried on in many lands, was found dead in bed in his home in New York.

Receiver Fry of the failed Farmers and Drovers' Bank of Seymour, Iowa, announces that depositors will realize about 70 per cent on their claims.

The Illinois senate has passed a 2-cent fare law. The bill provides that 3 cents a mile shall be charged when passengers fail to buy tickets before boarding a train.

Dr. John Watson (Ian McLaren) died at Mount Pleasant, Iowa. The cause was blood poisoning, resulting from tonsilitis. He was taken ill at Mount Pleasant April 25.

As a tribute to a workman who has been in their employ for nearly forty years, the plant of the Willard Sons & Bell Boiler company of Chicago was closed down for five hours.

President Roosevelt was elected an honorary vice president of the American Seamen's Friend Society of New York. President Roosevelt, it was said, made his first public speech when a young man in the society's room.

Tony Burns of Los Angeles defeated "Philadelphia Jack" O'Brien before the Pacific Athletic club at Los Angeles after twelve rounds of fighting that was for the most part a foot race. O'Brien running away from Burns from the first round to the finish.

John Armstrong, the negro hanged at Columbus, Tex., April 19, for wife murder, revived after being placed in the coffin. It is declared that Armstrong is now living and that friends and relatives are keeping the matter quiet, fearing the state will again step in.

FEDERATION OF CENTRAL AMERICA

THE PRESENT DIFFICULTIES IN GUATEMALA MAY BRING IT ABOUT.

START WITH A REVOLUTION

BELIEVED THAT MEXICO AND UNITED STATES WILL APPROVE OUTCOME.

Mexico City, May 16.—As forecasted in these dispatches May 8, there is now further reason to believe that the present difficulties in Guatemala may lead to the greatest even in the annals of Central American history, namely, the federation of all the republics of Central America. There is also reason to believe that such an outcome would not be unacceptable to either Mexico or the United States.

The first step to this end will be a revolution against President Cabrera of Guatemala, headed by Gen. Toledo and backed actively by President Zelaya of Nicaragua and the chief executives of Honduras and Salvador.

Toledo Will Be Chief.

It is expected that Cabrera will be driven from the presidency of Guatemala within the next ninety days. Gen. Toledo probably will be the new president of the republic, but he will act only long enough to have the country agree formally to enter the federation. Honduras and Salvador will thereupon follow suit. Zelaya is to be the president of the four republics upon giving pledge to Mexico and the United States that he will call a general election shortly after the scheme is perfected.

Costa Rica and Panama Also.

The republics of Costa Rica and Panama will be invited to join the federation, and it is believed that expediency will result in the acceptance of the invitation.

Preparations for the revolution against President Cabrera are being pushed with activity.

President Cabrera, foreseeing his danger, has endeavored to make concessions to the Mexican government. He has offered to surrender Col. Onofre Bone, a witness in the Barrillas assassination case, and to try Gen. Lima, who is implicated in the recent murder of Former President Barrillas of Guatemala. Mexico received these proposals coldly and replied that the case is now closed, so far as this government is concerned.

FORTUNES MADE IN WHEAT.

Speculators Quietly Unload at High Prices on Chicago Board.

Chicago, May 16.—Many men took small fortunes from the board of trade yesterday morning by quietly unloading wheat at the high prices made possible by Monday's extraordinary bull movement. The pit, however, was less spectacular than it was Monday, and the gallery, crowded to its utmost capacity by visitors of both sexes, waited in vain for a burst of pandemonium like that which existed for hours Monday.

December wheat touched a dollar for a single sale at the opening, but promptly retreated from this conspicuous position. The profit-taking movement carried July down to 93 3-4 cents and December to 97 cents.

Supply and Demand.

London, May 15. — The European wheat situation, according to the generally accepted view here, has resolved itself into questions of supply and demand. It is explained that it is not speculation alone which has brought about the present high prices. From all Europe, France excepted, the advices are unfavorable. The Russian crops are not only bad, but the political uncertainty of that country is also having a depressing effect on trade.

TWO ARE ELECTROCUTED.

Man Who Attempted to Rescue Comrade Is Also Killed.

Chicago, May 16.—In an attempt to rescue Frank Slevic, a laborer employed by the Metropolitan Elevated Railway company, who had been instantly killed last night by falling across the third rail of the company's tracks, Ura Mattha, a fellow employe of the dead man, came in contact with the heavy charge of electricity and before he could loosen his grasp on the body was also electrocuted.

Bridge Trust Indicted.

Lima, Ohio, May 16. — The grand jury here yesterday returned thirty-nine indictments against individuals and corporations alleged to be parties to the so-called bridge trust. They are charged with conspiracy in restraint of trade and in violation of the Valentine anti-trust law.

One Killed on Scaffolding.

Detroit, Mich., May 16.—One man was killed, two were seriously injured and a third had a remarkably narrow escape from death when a scaffolding gave way.

Ended His Trouble by Shooting.

Marquette, May 16. — His mind unbalanced, the result of brooding over the loss of a hand crushed in machinery a year ago, Charles Larson, pumpman in the employ of the Newport Mining company, put an end to his life by shooting himself in the temple.

SIXTY FIREMEN ARE OVERCOME

NEW YORK FIREMEN FACE ONE OF THE HARDEST FIGHTS THEY EVER HAD.

New York, May 16.—Sixty firemen, practically every man in seven fire companies, were overcome by smoke in fighting a fire in the Remington typewriter building yesterday. More than a score of men were taken to hospitals, where sixteen of them still remain.

It was one of the hardest fights New York firemen have had, and never was there more bravery shown. The fire was in the sub-basement of the building, and for more than two hours the men fought desperately. But for the heroism shown many would have lost their lives.

Face Fearful Odds.

The fire originated in an unexplained way in the sub-basement, which was filled with desks packed in excelsior, oil and carbon paper. These threw off great masses of choking smoke, which made it impossible for the men to reach the seat of the fire. By companies the men attempted to descend into the basement, only to be overcome by the smoke, and the next detachment was compelled to carry the unconscious men up to the sidewalks.

Scores Are Overcome.

Men, half conscious themselves, groped in the smoke-choked cellar by the light of lanterns, found their comrades and struggled with them up the ladders to the sidewalk, only to fall swooning, but ready to return to the fight after they had got a breath of fresh air.

Scores of the firemen were overcome time and time again, each one rushing back into the building as soon as he recovered consciousness. Nothing could stop them until hospital doctors bundled them into ambulances and hurried them away to the hospitals. Among those in the hospitals several are in a serious condition, although it is thought all will recover.

MANY HURT BY FLYING STONES.

San Francisco's Streets Are Again the Scene of Mob Violence.

San Francisco, May 16.—Yesterday was the worst day of violence in the street car strike since the Turk street battle. The forenoon passed with little disturbance, but throughout the hours of the afternoon from 12 o'clock until 7, stones flew on Mission street from Fifth street to Twentieth, a distance of about three miles.

Though nearly 100 policemen, few of them mounted, were stationed along Mission street, violence was not prevented and comparative few arrests were made.

Several passengers were assaulted by the crowds, numerous strikebreakers were struck and panes of glass were smashed and persons alighting from cars were chased and in some instances knocked down and beaten.

Mayor Schmitz and the committee of fifty have spent the day in persistent efforts to formulate some definite plan that will make for industrial peace and the restoration of normal commercial activity, but without success.

Gov. Gillett decided yesterday to make his headquarters in this city indefinitely for the purpose of giving the situation his personal observation.

ALL IN THE FAMILY.

Triplets, One a Doctor, One an Undertaker and Another a Preacher.

Appleton, Wis., May 16.—One of the strangest examples of "all being in the family" ever noted in this district occurred this week when three sons, triplets, of James Brogan filled the principal capacities during the illness and subsequent death and burial of their father. Louis Brogan is a doctor and attended his father during his illness, while Lawrence is an undertaker and laid out the body after the demise. Eldor, the third of the triplets, is a divine, and preached the funeral sermon at the home in this city. In addition to this the triplets, with three other sons acted as pallbearers of the casket.

IS SON-IN-LAW'S SLAYER.

Aged Wisconsin Man Admits Crime in Third Degree.

Chippewa Falls, Wis., May 16.—Ira Stewart, charged with murdering his son-in-law, Fred Miller, at Stanley Jan. 29, 1901, and whose second trial was set for this term of court yesterday before Judge Vinje pleaded guilty to manslaughter in the third degree, District Attorney Connor having changed the charge to this form. Difficulty in getting witnesses and Stewart's age of sixty-eight were factors in making the charge lenient. Stewart, in a fit of jealousy and insanity shot Miller while they were eating dinner.

Stray Ball Hits Girl.

Neenah, Wis., May 16.—While gathering flowers in Riverside Park Helen Ulrich, eight years old, was struck by a stray bullet and seriously if not fatally wounded.

Manslaughter Charged.

Elkhorn, Wis., May 16.—Henry Roe, a Wisconsin Central engineer, charged with falling asleep on duty March 25, resulting in a wreck, causing the death of Brakeman Jordan at Beulah station, was bound over.

Babe Cremated.

Leon, Iowa, May 16.—The infant son of Dwight Freeman, aged fifteen months, overturned a lamb connected with an incubator and was burned to death. The body was burned to a crisp, the flesh falling from the bones.

ABE RUEF TELLS ABOUT BRIBERY

ASSISTS PROSECUTION IN CAMPAIGN AGAINST CORRUPTION.

HE TURNS STATE'S EVIDENCE

TELLS GRAND JURY ABOUT BRIBING OF SCHMITZ AND SUPERVISORS.

San Francisco, May 18. — Abraham Ruef yesterday made good his declaration of Wednesday that he would, following his change of plea to guilty in the extortion case against him, turn state's evidence and assist the bribery-graft prosecution in its campaign against municipal corruption. Ruef, obeying a subpoena, went to the grand jury chamber, where he submitted to an examination that lasted from 3:20 o'clock until after 5 p. m. When the ordeal was over he said that he had promised the grand jury to divulge nothing.

Tells About Bribery.

From Special Agent Burns it was learned that the only matter in which Ruef was questioned was the alleged bribing of Mayor Schmitz and eighteen supervisors by the United Railroads to grant to that corporation a change in its franchise allowing the electrifying of its 250 miles of street railway system in this city.

If Burns' understanding of Ruef's testimony is correct the fallen boss told the grand jury that Patrick Calhoun, Assistant to President Thornwell Mullalley; Chief Counsel Tirey L. Ford and Assistant Counsel William M. Abbott of the United Railways, paid or caused to be paid the sum of $200,000 for the provision named; that $61,000 of this amount was Ruef's "fee;" that $50,000 went to Mayor Schmitz, and that the remaining $89,000 was handed to the eighteen supervisors.

Big Guns Indicted.

After the examination of Ruef was concluded the grand jury remained in executive session until 6:30 o'clock. Subsequently the statement was made, but not officially confirmed, that indictments had been voted against four high officials of the United Railroads and Schmitz.

Force Schmitz Out.

It was rumored last night that a movement is on foot to bring about a change in the municipal administration by forcing the resignation of Mayor Schmitz and choosing in his stead Frederick W. Dorhemann. The report lacks official confirmation.

JAP SAILORS HAVE GOOD TIME.

Go Sightseeing in New York and Are Models of Deportment.

New York, May 18.—While high officers of the Japanese fighting forces, just now the guests of New York city, made official calls yesterday, 700 sailors, just one-half of the crews of the Japanese battleships Tsukuba and Chitoes, had a holiday in Manhattan. Each with a canteen filled with straight croton water slung around his neck, they swarmed ashore and tumbling into automobiles provided by their Americanized cousins, saw the sights with undisguised enjoyment, conducting themselves the while in a manner that will remain a shining example to visiting sailors.

Steal Prisoner and Whip Him.

Bloomington, Ind., May 18. — Five masked men at Ellettsville, this county, bound and gagged the town marshal, took from him the jail keys and secured the only prisoner, Oscar Morris, whom they dragged to a tree and whipped severely. Morris is the son of a highly respected citizen and was caught recently in a dice game, put to work on the street to pay a fine, broke loose and was recaptured.

Will Make Reparation.

Paris, May 18. — The sultan of Morocco has decided to comply with France's demands for reparation as the result of the murder of Dr. Mauchamp, according to a letter from Fez, which was handed to M. Regnault, the French minister at Tangier by Abdelkim Ben Sliman, the Moroccan foreign minister. The occupation of Oudja will continue until an absolute settlement has been reached.

Killed by an Explosion.

St. Paul, May 18.—While clearing a piece of land at Dellwod Patrick Hanlon received injuries which cost him his life. He was chopping roots with an ax when a violent explosion occurred. He was thrown twenty feet, both arms and legs were broken and he died shortly after. It is supposed that dynamite had been placed under the root last year and had been forgotten.

Killed by Unknown Man.

Albany, N. Y., May 18.—Alonzo Hewitt was shot and killed by an unknown man at his home in Renssalaer last night. The police suspect a relative and are searching for him. They believe a family feud was the cause of the murder.

Man Kills Himself.

Valley City, N. D., May 18.—Olive M. Lee, an employe of the Swanson livery barn of this place, committed suicide by shooting himself through the head.

MILWAUKEE ROAD IS FINED

PLEADS GUILTY TO CHARGE OF REBATING—PAYS $20,000 FINES.

New York, May 18.—The Chicago. Milwaukee & St. Paul Railway company, through its general counsel, Charles B. Keeler of Chicago, pleaded guilty before Judge Holt in the United States circuit court yesterday on two indictments recently returned against the road for the granting of rebates in violation of the Elkins anti-rebating law. The court assessed a fine of $10,000 on each count pleaded to, or $20,000 in all, which Attorney Keeler paid.

The grand jury returned fifteen indictments against the Chicago, Milwaukee & St. Paul, charging the granting of rebates on coffee shipments in favor of the Woolson Spice company, an Ohio corporation, on Western shipments from New York to Toledo. After a consultation with United States Attorney Stimson and his assistants, who have been prosecuting the rebates cases, Mr. Keeler arranged to plead guilty to two of the indictments with the understanding that the remaining counts be dismissed.

ORCHARD SAYS HE TELLS TRUTH

Idaho's Chief Witness Denies Charges of Duress.

Boise, Idaho, May 18. — Harry Orchard, the prisoner-witness upon whom the State of Idaho chiefly relies to prove its charge that an inner circle of the Western Federation of Miners conspired to murder Gov. Steunenberg, broke his long silence yesterday.

Orchard denied that he had been subjected to any mistreatment during him long confinement; denied that duress or force had been used upon him to secure the statements he had made, and denied that Detective McPartland and the officers of the state have promised him immunity for his confessed crime or reward for the value of his alleged confession in the hands of the state.

During the one session of the Haywood trial held yesterday eleven talesmen were examined before a satisfactory juror was secured to replace William Van Orsdale, who was released Wednesday on a peremptory challenge from the state.

TWO DEAD; TWO DYING.

Girls in Suicide Pact Take Their Own Lives at the Same Hour.

Des Moines, Iowa, May 18.—Bound by an oath taken at school together that when one died all should die, four Iowa girls attempted suicide yesterday. Two of them are dead. The girls live in different parts of the state, but developments show that all the attempts were made at the same hour, in precisely the same way and for the same reason. The dead are:

Kate Farrell of Birmingham and Kittie Broell of Cox Creek. Elizabeth Fletcher of Bonaparte and Lilly Milburn of Darby are dying.

All the girls took strychnine at the same time. Ill health is reported to have been the cause of the suicide in each case.

SHOOTS SLEEPING SPOUSE.

Woman Examines Gun and Accidentally Discharges It.

Butte, Mont., May 18.—B. H. Rumsey is in the hospital here, probably fatally injured, with a small caliber rifle bullet in his brain. His wife, in whose hands the weapon was accidentally discharged, is almost prostrated with grief. Mrs. Rumsey is the only one who knows the exact details of the shooting. She says that while her husband was lying on the bed in their cabin near Walkerville she took down the rifle from the peg on which it was hanging and was examining it when it was accidentally discharged, the bullet entering the sleeping husband's head.

LEDGER PAGES MISSING.

Water Works Scandal Probe Reveals Disappearance of Accounts.

Dubuque, Iowa, May 18.—Investigation of the McArthur water works scandal has revealed that five sheets are missing from the consumers' ledger, including the page containing the account of John Ellwanger, formerly president of the board of trustees. One of the other missing sheets contains the accounts of the Chicago Great Western railway, which should show $1,000 in credits in five months. Ellwanger, who is president of a wholesale liquor company, has a statewide reputation for honesty, and it is not likely that anything reflecting on him will be disclosed.

Kaufmann Trial Next Monday.

Sioux Falls, S. D., May 18. — The date for calling the case of Mrs. Emma Kaufmann, charged with the murder of Miss Agnes Polreis, her sixteen-year-old domestic, in the state circuit court in this city, has finally been fixed. The case will be called for trial next Monday.

Saw Negroes Shoot Up Town.

Washington, May 18. — Two witnesses in the Brownsville investigation before the senate committee on military affairs yesterday testified they saw negro soldiers shooting up the Texas town on the night of Aug. 13.

Killed by Rock Fall.

Red Lodge, Mont., May 18.—John Bertati was killed and Joseph Envico was badly injured by a fall of rock in the coal mines near here, where the men were employed as miners.

In Minnesota

State News of the Week Briefly Told

Mrs. Anna Schmid, eighty-nine years old and bedridden, was suffocated by a fire at Springfield, which broke out in the house while she was its only occupant.

Seeding is again under way around Warren. Less wheat will be sown this year than usual, due to the lateness of the season. Flax and barley will take its place.

The Mahlum hotel, in Southeast Brainerd, owned by A. Mahlum, was damaged by fire. The entire roof and third story were destroyed. Loss, $2,000; insurance, $1,500.

Harry C. Burdette, chief lineman of the St. Paul police alarm and signal system, committed suicide by shooting himself in the head. No motive for the deeds is known.

Fire which for a time threatened destruction to the plants of two companies did $25,000 damage to the stock and building of the Harrison & Smith Printing company in Minneapolis.

Thomas J. French, a switchman in the employ of the Minnesota Transfer Railway company, was run over by a car in the transfer yards at St. Paul, and he will lose his right leg.

The imperial council of the Ancient Arabic Order of the Nobles of the Mystic Shrine has selected St. Paul as the place for holding the next annual meeting. The date was fixed for July, 1908.

Frederick C. Scherfenberg, a veteran who served with the First Minnesota regiment in the Civil war, was found dead, his body suspended from a rope in a woodshed in the rear of his home in St. Paul.

Prof. George Sverdrup, president of Augsburg seminary for more than thirty years, died suddenly at his home in Minneapolis. He had been complaining for a day or two, but it was not thought his illness was serious.

Hans Lund, sixty-four years old, a well-known farmer, has been found dead in a swamp near Aitkin. It is supposed that in returning to his home he got off the road, wandered into the swamp and died from exposure.

The office and plant of the Faribault Journal were destroyed by fire. The loss is estimated at $10,000, with $2,000 insurance on the building, which was owned by C. M. Wall. The fire started from defective wiring in the basement.

Mrs. Charlotte McFarland was burned to death in Minneapolis while attempting to extinguish a small fire which broke out in a bedroom in her home. It is supposed that she was overcome by smoke. She was dead when found.

A six-year-old son of Lucius Giese of Sherburn, fell from a tree and was picked up unconscious. No bones were broken, but it is feared he has received spinal or internal injuries. He recognizes those around him, but cannot talk.

Deputy Game Warden H. P. Felgate has arrested Frank Cisewski and Frank Modrzejeweski for using a hoop net in a fishway at Winona. He also found another net containing seventy pounds of bass, and is on the trail of the owner.

The grand jury in the federal court at Fergus Falls returned its first batch of indictments. Joseph H. Newton of Roosevelt was indicted on a charge of cutting timber on government land. John Zwack, a rural mail carrier, was indicted on a charge of embezzling funds intrusted to him, and Anton Potter is accused of having failed to cancel revenue stamps on packages of liquors.

John Ungers, an insane man who escaped from the Fergus Falls hospital, arrived at Melrose without a stitch of clothing on his body. He made his way to Melrose by stealing a ride in a box car. He was discovered by the train crew. Unger asked a brakeman the name of the town, and when told it was Melrose he jumped from the car and ran to his parents' home.

Charles Ruppert, a retired farmer, formerly residing in the Waumandee valley in Wisconsin, but who makes his home in Winona and is reputed to be worth $100,000, was swindled out of $2,640 on the old three-card monte game. He won all right, but the other fellows got the money. He won his bet, but in place of the money he supposed he would receive he secured only a tin box filled witih paper and a brick.

A teamster named Samuel Ibsen, aged thirty years and single, was shot and instantly killed while dancing in a resort near the Holman mine, two miles from Bovey, Itasca county. A man named Toney Talerubes is accused of the shooting. It has not yet developed what the motive was. Talerubes escaped, and the authorities of Itasca county are seeking him. It is believed that Tulerubes fled toward Grand Rapids.

Judge Lovely of Albert Lea contines to improve somewhat, and is able to be about the city and in his office. He looks after his private business to some extent, but has not taken up any work of the law firm of Lovely & Dunn.

A fire at midnight burned a Milwaukee car partly loaded with hay, and also partly burned a new coal shed owned by the Rosemount Lumber company at Rosemount. The heroic efforts of the citizens saved the old coal shed, containing about eighty tons of coal.

GENEROUS TO DEPARTMENTS.

Last Legislature Dealt Kindly With Administration.

That the last legislature dealt generously not only with itself but with the Democratic administration is shown by a comparison of the appropriations for the different state departments for the years ending July 31, 1906, and July 31, 1908. While some increases were made in almost every state department, the large increases were in the departments which are under the control of the administration.

The public examiner's department and the bureau of labor had their salary and expense funds practically doubled, and the dairy and food commission had its fund increased considerably. The only Republican department that gets any large fund is the railroad commission, but that was given for a special work, the valuation of the railroad properties. Of the $65,000 for the biennial period, $50,000 is to be used the first year and for the next year the commission goes back to $15,000, which is less than it had for 1906.

The following table shows some of the amounts that were increased, but does not include the standing appropriations provided in the code, which remain the same each year.

The increase in the salaries of legislative members will mean an addition to the legislative expense account of over $85,000 for the biennial period, so that while the 1907 legislature, which was the most expensive the state has had, cost only $191,536, the legislature of 1909 will cost the state approximately $276,000. Some comparisons:

	1906.	1908.
Governor's salary........	$5,000	$7,000
Supreme court judges....	25,000	35,000
Stenographers	4,000	4,500
District court judges....	122,500	155,400
State Auditor—		
Salary	3,600	4,200
Extra land clerks........	3,900	5,400
Additional salary, accountant and chief land clerk	....	600
Expense collecting inheritance taxes.........	....	2,000
Attorney general, contingent	3,500	7,000
Adjutant General—		
Additional contingent....	....	500
Additional for support of guard	....	10,000
Additional for stenographer	....	100
Additional land for camp.	....	5,000
Insurance Commissioner—		
Special examiner	....	2,000
State Treasurer—		
Deputy treasurer	2,000	2,500
Additional contingent	....	500
Additional clerk	....	600
Public Examiner—		
Salaries and contingent..	18,900	32,800
Secretary of State—		
Additional contingent	....	1,000
Additional clerks	....	3,100
Assistant secretary	2,000	2,500
Department of Public Instruction—		
Additional clerk	....	600
Assistant superintendent.	1,800	2,400
Advertising state lands...	7,000	5,000
Immigration bureau (two years)	....	30,000
Tax commission	....	30,000
Dairy and Food Department—		
Salaries and expenses....	36,500	46,200
Railroad and Warehouse Commission—		
Contingent (two years)...	40,000	65,000
Bureau of Labor—		
Salaries and expenses....	16,200	30,800
Employment bureaus	1,750	10,000
Board of visitors to state institutions	....	1,000
State Board of Health—		
Additional for expenses..	....	1,500
Fire marshal	1,800	1,800
Deputy	....	1,800
Legislative expense	169,517	191,536

SUCCESSFUL FARMING.

What One Man Realized on Eighty-Acre Farm.

George Maltby, one of the progressive and up-to-date farmers of New Avon township, about six miles southwest of Redwood Falls, makes the following statement that is very interesting and shows what can be done when a farm is cared for and worked to the best advantage:

Sales made from eighty acres from April 1, 1906, to April 1, 1907:

Poultry	$92.24
Butter	81.11
Hogs	431.55
Cattle	373.65
Vegetables	11.36
Berries	216.31
Grain	225.45
Miscellaneous	30.27
Horses	145.00
Total	$1,607.24
Stock and grain purchased during the year	378.44
Net sales	$1,228.80

In addition to the above Mr. Maltby has fed five to six horses on the place the entire year and used for family living all that was necessary from the farm during the year.

NEW PARK HEAD.

W. R. Williams Succeeds J. B. Hodge as Superintendent.

The state auditor has made a change in the superintendent of the Minneopa State Park at Mankato, naming W. R. Williams to succeed J. B. Hodge, who has held the position since the park was established. Mr. Williams has resided in the county for fifty years and owns a farm adjoining the park. His selection receives general approval. He had the backing of the Blue Earth county delegation in the legislature and also of Senator T. M. Pugh of Duluth, to whom he is related.

BODY GROUND TO A PULP.

Cornelius Wall of Langdon met a terrible death while returning to his home from work.

The man was run down by a passenger train on the Edmore line, and his body was ground to pieces. Fragments of flesh and bone were strewn along the track for a distance of fifteen miles.

Wall is employed as a pumper at the pumping station at Calvin. Late Monday night he left his work and started to walk to his home at Sarles. When half way home and while passing through a cut the passenger train overtook him. The night was stormy, and this accounted for the fact that the engineer or fireman on the train failed to see the man

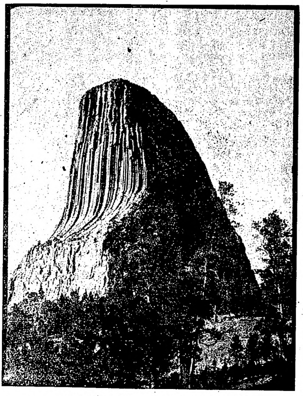
CRADLES AND NURSERY OF SPANISH PRINCE

e historic royal cradle used after the infant has been presented to the king (curtains closed). 2. The dainty baby's basket. 3. The basket in which the infant is presented to the officials. 4. One of the royal cradles, draped with very fine lace and silk.. 5. The historical cradle used after the infant has been presented.

CHARMING NURSERY FOR THE ROYAL PRINCE.

The swinging bassinet is the same that was used for King Alfonso XII., the father of the present monarch. The curtains are of real old Brussels lace, one of the heirlooms of the palace, and they are lined with soft pink silk. Formerly, on the top of the curtain rod there was a gold crown, but the queen feared that this might fall upon the infant, so it has been replaced by a large bow of ribbon. —The Illustrated London News

THE DEVIL'S TOWER—800 FEET HIGH



A MOUNTAIN IN NORTHWEST WYOMING,
Which by a recent order of President Roosevelt will be made a reserve.

Sour Grapes.

"New-wed seems to be awfully proud of his wife," said the old bachelor.

"Well," rejoined the unsuccessful suitor, "he hasn't much to be proud of. She only weighs ninety pounds."

The Eternal Feminine.

"The ship will float but a few moments longer. Trust yourself to me and jump. Quick."

"Is my hat on straight?"

"Yes, yes, but come."

"Tell me first how does my life preserver set in the back?"

At the Picnic.

"We've only got a knife or two packed in the basket with the pie. What shall we do?"

"That's all right. Up yonder I think you will find a fork in the road."

More Room Needed.

"Surely, you're not going to give up your cozy little flat?"

"Have to, by the doctor's orders. He insists that every morning when I rise I must stand perfectly erect and expand my chest a dozen times or so."

Stained.

"You look worried, Billy," said the broker's boy.

I should say so," replied the banker's boy. "The boss came in and caught me smoking a cigarette."

"Huh! Caught you red handed, eh?"

"No, caught me yellow fingered."

Cruel.

"Do you think Miss Antique is as old as she looks?"

"How could she be? The age of miracles is past."

RAISING OF FINE POULTRY.

Growth of Industry in United States a Marvelous One.

The growth of the poultry industry in the United States is one of the marvels of the time. The American standard of perfection as drafted and copyrighted by the American Poultry association names over 100 varieties of fowls, all of which are due to the development of man except one.

The original fowl was a homely, wild thing which made its home in the jungle along with the rest of primeval creation. It is a long call from this ancient fowl of ungainly proportions to the lordly Langshan or the massive Cochin of the present day, but the ancestry is certain. The relation can be traced back farther than the time of Christ.

Europe, Asia and America have all contributed to the development of the poultry family, and the many and varied strains that now exist are the result of centuries of improvement. England and America have been foremost in the work, however, and the results accomplished by the fanciers in these two countries in recent years have been nothing short of remarkable.

By intelligent breeding these fanciers have produced fowls of all sizes, from the diminutive bantam to the mammoth bronze turkey, one a tiny bit of feathered vanity weighing only a few ounces, and the other a bulky fowl weighing from forty to sixty pounds.

Results equally wonderful have been accomplished in color effects. There are varieties in red, black brown and white, with nearly all possible combinations, besides buff and Andalusian blue. Not content with this, the fanciers have shown that they can lace, stripe, spangle or bar the feathers of their birds in any way to satisfy their individual fancy.

In fact it seems that about all that was left for them to do along this line is to put their initials on the feathers of their birds, which, in the light of what they have already done, is not as impossible as it may sound.

Diplomatic Remus.

Remus blazed away at a blackbird and riddled his wife's silk skirt that had been hanging on the line.

"Dah, now man!" exclaimed Chloe, indignantly. "Yo's done ruined my dress."

But Remus only grinned.

"Now, doan' yo' go worryin', gal," he chuckled. "Dat dah dress hab dess changed in style, dat's all."

"Changed in style?"

"Ye-as. Et was dess plain befo', en now et am one ob dem fashionable shot silks."

PRAIRIE FIRE RAGES.

Two Men Badly Burned While Fighting Flames.

Steele, N. D., May 16. — A prairie fire was started about eighteen miles northwest of here, being set by sparks from the stovepipe of Ole Oleson's shack. A great gale was blowing and the fire soon had assumed alarming proportions. The grass was dry and the fire burned up to the fireguard about two miles out of town.

Peter Sorenson, a farmer living about fifteen miles out of town, was severely burned while fighting the flames.

George Johnson, living about eight miles from town, also was burned while fire fighting.

JURY FOR MRS. CRAMER.

Box Is Filled and Woman's Murder Trial Will Go On.

Fargo, N. D., May 16.—The jury in the Cramer murder case was finally decided upon just before the evening adjournment. No testimony was taken, but the work of the second trial will be resumed immediately on the opening of court in the morning. The sixteen-year-old son of Mrs. Laura Cramer, who shot his father at her command, was exonerated at the last term of court and will not be placed on trial.

BUY ORE LANDS.

Prospectors Will Develop Tracts Near Deerwood, Minn.

St. Cloud, Minn., May 16. — Two deals have been closed on ore lands in the Rabbit Lake country, north of Deerwood, and it is said that development work will be begun at once. One forty-acre tract on which drilling has shown a good body of ore sold for $40,000, while another tract nearby, on which no exploration work had been done, but which had surface indications of iron, brought $14,000.

BAD BILLS PASSED.

Two Men Arrested, Charged With Passing Old Georgia Notes.

Redfield, S. D., May 16. — Charles Decker and James Morris have been arrested here on the charge of securing money under false pretenses. The crime alleged consisted in the passing of old bills issued and guaranteed by the State of Georgia before and during the Civil war.

MAN SLOWLY COOKED.

Engineer Pinioned in Wreck Coolly Directs His Rescuers.

Bemidji, Minn., Ma. 16.—While the flesh slowly was being cooked from his body by steam as he lay pinioned between the derailed car and tender of his engine, Engineer Ed Garrigan coolly directed the work of his release. Fully ten minutes were consumed in extricating the man. Garrigan is in a critical condition.

BOY SMOTHERS IN SAND.

Lads Tunnel in Bank and Cave-in Buries One.

Guthrie Center, Iowa, May 16. — A number of boys were engaged in digging a tunnel into a sand bank when the earth caved in and buried Richard Ellis, aged eighteen years. The other boys made frantic efforts to dig their comrade out, and finally succeeded, but not until he had been smothered.

LIGHTNING BURNS BARN.

Animals, Grain and Farm Machinery Lost in the Flames.

Fergus Falls, Minn., May 16. — A barn on the farm of Swen Helquist, near Parkers Prairie, was struck by lightning and burned to the ground. Three horses, four cows and a number of hogs were cremated, and farm machinery and grain were destroyed.

Receives Free Scholarship.

Montgomern, Minn., May 16.—Miss Irene O'Malley, of this city, has received a certificate from the Hamline university entitling her to one year's free tuition in that institution. Miss O'Malley is a graduate of the class of 1907 in the Montgomery high school, having carried off the highest honors of the class.

Buys Four Elevators.

Madelia, Minn., May 16.—The C. S. Christiansen company of this place has added four more elevators to its line, making seven in all. It has purchased the Peavey elevators at James, Lake Crystal, Vernon Center and Winnebago.

Hold-up Men Get 15 Cents.

Hastings, Minn., May 16.—A daring hold-up took place in the railway yards at East Hastings last night. A stranger named Thomas Mahoney was assaulted by a negro and white man and robbed of 15 cents, all the money he carried.

Tot Drowned in Tank.

Atlantic, Iowa, May 16.—While its mother was busy with her household affairs the eighteen-month-old son of Clyde Smiley wandered into the barnyard and fell into a tank used for watering the stock and was drowned.

Smallpox in New Ulm.

New Ulm, Minn., May 16.—Quite a commotion was created yesterday by the announcement that two smallpox cases had developed in the city and that there was a case in each of the towns of Cottonwood and Sigel.

She Had Misunderstood.

"Marie, since I've been away you've been wearing my dresses."

"But didn't madam give me explicit orders that they should be aired?"

Printed Every Thursday at Red Lake Falls Minnesota

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year in Advance

MR. ENGELSTAD objects to the character of "journalism" of the Red Lake Falls papers. Considering that we have a literary genius like Engelstad in the county, the "journalistic" efforts others do look decidedly weak. Selah!

GOVERNOR JOHNSON's name is still frequently mentioned by eastern and southern papers in connection with the Democratic presidential nomination. It is generally agreed that no man would be so satisfactory to the various factions of the party as the governor of Minnesota, and none has a better record as a public official or as a vote-getter.

GOVERNOR JOHNSON and his military staff are at Vicksburg, Miss., this week to dedicate the monument erected by the state of Minnesota in commemoration of the heroes who lost their lives in the civil war battle near that city. The monument is to be unveiled by Mesdames Johnson and Vardaman, the first lady, respectively, of Minnesota and Mississippi. Addresses are to be made by the governors of each state.

THE jealousy of the local country merchant against the catalogue house is painful.—Northwestern Agriculturist.

Yes, painful to implications like the Agriculturist whose principal business consists of foreign advertising and painful to the catalogue houses, prospering on misrepresentation. There could be no objection, in principle, to any outside concern coming into competition with home trade if it were conducted honestly. But it is a well-known fact that some of the catalogue houses are an imposition and a fraud. Our own state pure food department has so declared officially and repeatedly. Why is it that one of these houses has gone out of the grocery business since the adoption of the national pure food law? No honest dealer can compete with adulteration and home dealers are quite right when they object to that kind of competition.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, the Heart, or The Kidneys. Address me, Dr. Dr. Shoop, Racine, Wis. Troubles of the stomach, heart or kidneys are merely symptoms of deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means stomack weakness always. And the heart and kidndys as well, have their controllin or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, uss Dr. Shoop's Restorative. Write for my free book now Dr. Shoop's Restorative sold by all dealers.

Sheriff on Salary.

One of the laws passed by the recent legislature places the sheriffs in counties of a population between five and thirty thousand on a salary basis. In Red Lake county Sheriff Nelson will draw an annual salary of $1000 for taking care of the county business. This does not include pay for any civil work and will mean a comfortable increase in the salary of the sheriff. Another section of the laws makes it compulsory for the county commissioners to pay the expenses of the county superintendent of schools and also provides that the judge of probate shall receive at least $300 per year for clerk hire and this sum may be increased to $900 at the option of the board of county commissioners. A new law was also passed regulating the pay of the county commissioners and in this county it means that the annual pay of each commissioner will hereafter be $175 as compared with $150 per year as formerly. The commissioners are also allowed mileage for attending twelve meetings during the year. Under the new law the board of commissioners can create a contingent fund for the county attorney up to $1000 per year, but the setting aside of any money for this purpose is at the option of the board.

Regan's Brother Dies.

Monday's Crookston Times gives the following account of the death of Timothy Regan, a brother of Roadmaster E. J. Regan of this city:

Timothy Regan who came to Crookston in 1884, died at his home on Jackson Ave., Jerome's addition on Saturday afternoon at 3:30. Mr. Regan has been a sufferer from asthma for the past three years and since he was taken sick with the disease he has been unable to work. Previous to that time and during all his residence in Crookston with the exception of the past three years he has been an employee of the Great Northern railroad.

He was born in Tipperary county, Ireland and was 63 years of age. Forty years ago he was married to Margaret English, also of Tipperary county, and they had six children, four of whom are living. They are Edward and John, and Mrs. Frank Andrist of this city and Mrs. Timothy Labier of Edmore, North Dakota. His brother Edward Regan, formerly of this city is now roadmaster running out of Red Lake Falls.

Let me send you free, for Catarrh, just to prove merit, a trial size Box of Dr. Shoop's Catarrh Remedy. It is a snow white creamy, healing antiseptic balm. Containing such healing ingredients as Oil Eucaliptus, Thymol, Menthol, etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by all dealers.

SIX TO GRADUATE

Commencement Exercises of the Red Lake Falls High School June 3.

One week from next Monday evening, June 3, will occur the annual commencement of the Red Lake Falls high school, which event will mark an epoch in the lives of six young people that means to them far more than is realized at first thought. It means the laying down of what may really be termed the "child life," the putting aside of the joys and the pleasures of the comradeships that go with the happy school days, and at the same time taking up the cares and burdens that the modern business life today presents. It means to these young people the first stepping stone to what must prove success or failure, and while it fits them to a certain extent for what is before them, nevertbelss their future will depend upon them and them alone.

The class this year, while one of the smallest in the school's history, is composed of exceptionally bright young people, and THE COURIER has no fear but what with health spared them they will round out their careers creditably to themselves and to those who made it possible for them to acquire so good a start in the race for the goal of success.

The valedictorian, Miss Lucy Hunt, comes from one of Red Lake Falls' oldest families, and is known and admired by all of the people of Red Lake Falls. She has grown to young womanhood amongst them, and that her future will be a bright one is the earnest wish of all.

Miss Alice Ericson, the salutatorian, has been a resident of Red Lake Falls for five years past, and during this time has attended the public school. She in bright and full of energy, and that she will be successful in whatever she chooses to do is not questioned by those who know her.

Miss Ina Linnihan, class poet and prophet, is another young lady well known to all of the people here. Since girlhood she has attended the public schools here, and that she completes her course with high honors is gratifying to her friends.

Edna Swanson, class historian, is a daughter of Mr. and Mrs. P. Swanson, of Black River township, but has completed her high school course here. Miss Swanson is a bright student and her advancement in the business world is certain.

Paul Brunelle and Viola Longtin, the other members of the class, are both so well known to our readers that nothing could be said that would be new. Both are young, full of life and are strictly Red Lake Falls products and their careers from now henceforth will be watched carefully by those who have known them since childhood.

The program for commencement week will commence on Sunday evening, June 2, when the Very Rev. Father E. Fayolle will deliver the baccalaureate sermon at St. Joseph's church. June 3 is commencement night, and either prior to this or right after will come the Junior banquet, alumni reception and other class week events. The program for commencement night is as follows:

(a) March—"Floating Along" .... Buffington
(b) Flower Song, "Tulips and Pansies" .. Benner
Orchestra
Invocation .... Rev. Father Ambrose
Vocal Solo, "Happy Days" .... A. Strelezki
Miss Pauline Nieland
Salutatory—Oration .... "Lest We Forget"
Alice L. Erickson
Oration .... "Pursuit of Happiness"
Paul T. Brunelle
Saxaphone Solo, Grand Fantasia "Maritana" ....
Leland E. Healy
Oration .... "Preparation"
Viola Longtin
Class History and Will .... "By the Fireside"

Corn Planter Bargain

I have on hand a brand new No. 8 Deere Corn Planter, complete with check-rower and wire, which I will sell at less than cost,
WM. FINDEISEN.

NEW TEACHERS CHOSEN.

School Board Selects Several To Fill Vacancies.

The school board held a meeting Monday evening and selected several teachers to fill the vacancies left in the teaching force of the Red Lake Falls school for next year.

Miss Antoinette Johnson, of Adrian, was selected as English teacher. Miss Johnson's recommendations were gilt edged, and she has had several years of very successful experience.

Miss Henrietta Henenmuth was elected as first grade teacher in the Washington school. Miss Hennemuth thought some of teaching elsewhere this year but decided that home was best after all.

Miss Lulu Cross, of Warren, was also chosen as one of the teaching force. Miss Cross is a St. Cloud Normal graduaae and is highly recommended.

The school board is particularly anxious to secure competent teachers to fill the vacancies this fall and feel that the two new ones elected Monday night are well fitted for the places.

A Good Showidg.

The statement of the condition of the Merchants State Bank is published in today's COURIER. The showing made at this time is particulaly gratifying to the officers and shareholders and speaks volumes for the good judgment and executive ability of Cashier J. A. Duffy. But few banks of the age of the Merchants State in the northwest show up so well, and its success is naturally gratifying to the Red Lake Falls people.

Hurt in Runaway.

"Baldy" Dubuque figured in a runaway yesterday which might easily have resulted in his death, but from which he escaped with only a badly wrenched back and numerous bruises. He was hauling manure with the Kreuger team and when near the Harren shoe store the dash board broke throwing him onto the tongue behind the horses. The team started to run and when crossing the sidewalk near Borchers' place "Baldy" was thrown out and narrowly escaped being run over by the heavy load. The team was caught near the elevator and no serious damage was done.

Appearances Are Deceiving.

Chicago has only 7,353 saloons. This will hardly be believed by people who have been there.

MERCHANTS STATE BANK.

STATEMENT OF THE CONDITION OF MERCHANTS STATE BANK, at Red Lake Falls, Minn., at close of business on May 20, 1907.

Date of call by Supt. May 20, 1907.

(Seal) P. F. POULIOT,
Notary Public, Red Lake County.
My commission expires March 13, 1908.

Notice to Stallion Owners.

The legislature at its recent session, passed a law regulating the public service of stallions. Owners of stallions used for public service are now required to have the name enrolled and the pedigree examined by the Stallion Registration board, at St. Anthony Park, St. Paul, and secure from the board a license certificate. The law is operative at once and stallion owners should secure a license certificate at the earliest possible date. Full information and a copy of the law can be obtained by addressing the Secretary of the board; Prof. Andrew Boss, St Anthony Park, St. Paul, Minn.

Petitions Cost Money.

Thief River News: Joseph Juneau has made application for a license to sell liquor in the Northern hotel building. This license, if granted, will make seventeen saloons in Thief River Falls and the council has limited the number to sixteen. Just how the council is going to dispose of the matter is a question not easily decided. It would appear that he has as much right to secure a liquor license as any of the other sixteen, and the city always needs the $1,000 license fee.

Notice,

Anyone having a room or rooms to let during the tournament week are requested to report the same to Mayor Duffy or G. F. Hennings at once.

Dr. Spofford makes his next regular visit to Red Lake Falls June 7. At Grand View hotel. Remember the date if your eyes trouble you.

Many people still entertain the idea that because some cigars are made in the eastern cities they are better than ....

"B. B." CIGARS

This is clearly wrong. The money spent in selling the foreign article goes into QUALITY in the home brands. Try them and see ....

In the Local Line

Buy your legal blanks at he COURIER office.

G. G. Kindseth visited at Grand Forks last Friday.

The county commissioners will meet next Monday.

Go to the Merchants State Bank er real estate loans.

S. M. Sivertson was a visitor at Crookston last night.

Michael Draeger, of Wylie, was a caller here yesterday.

Miss Elene Hanson spent Sunday at her home in Fertile.

Wanted—200 cords green poplar, oak, or elm. See Al. Roy.

Best line of confectionery, nuts, notions, etc., at Freund's.

Go to Spillane's—The Right Store—for your teas and coffees.

J. L. Cyr was a business caller at Thief River Falls Monday.

Go to Spillane's for groceries, candies, nuts, fruits, cigars, etc.

For sale—Good dray wagon. In first class shape. See A. L. Roy.

W. A. Schreiter transacted business at Thief River Falls Monday.

Attorney F. A. Grady was a professional caller at St. Hilaire Monday.

Damon's colored minstrels at the Metropolitan on Tuesday evening, June 4.

E. H. Gerlach came in off the road and spent Sunday with his many friends here.

Rev. Father Adolph, of Thief River Falls spent last night in the city, a guest of Father Ambrose.

Rev. Father Roi of Lambert, spent Tuesday in the city a guest of Rev. Father Fayolle.

Mrs. Harry E. Ives of St. Hilaire was a guest of her parents over Monday night.

Mrs. C. W. Johnson visited with friends at Crookston from Thursday until Monday.

S. L. Lewis spent Monday at St. Hilaire, talking life insurance to the citizens of the Saintly city.

E. A. Nelson gazed at the street cars and automobiles at Thief River Falls a few hours Monday.

Chas. N. Bourdon spent several days of this week looking after his banking affairs at Waubun.

County Attorney Germo was a caller at Thief River Falls this morning on some criminal business.

Ralph Green, Equality's handsomest citizen, spent Saturday night and part of Sunday in the city.

The Dan J. Doran home in the south part of town is being brightened up by a new coat of paint.

George Hennings returned home Saturday night from his business visit at Williston, North Dakota.

The home of J. P. Harren is being improved in appearance by the addition of a handsome coat of paint.

Court Commissioner S. T. Johnson called here Monday evening on business connected with his office.

Ernest Buse, sr., spent several days at Grand Forks last week, returning home Saturday morning.

P. E. Smidesang, Wylie's enterprising merchant, was a business caller at the county seat yesterday.

Travelling Freight Agent Mitchel of the Great Northern, spent yester day in the city intervieweng the trade.

Mrs. Frank Brouillet returned home this morning after a several weeks' visit with relatives at Dugdale.

A social dance was given at the K. of P. hall Monday evening, which was largely attended and immensely enjoyed.

Sheriff Nelson spent a couple of days at Thief River Falls this week, doing some work on his residence property there.

E. A. Moran returned home yesterday morning from St. Paul, where he went last week with a car of stock for market.

Frank Martin, of Crookston, spent several days of this week with his sister Mrs. Theo. LaBissoniere in this city.

Rev. I. T. Aastad of Thief River Falls was here Monday night and conducted services in the Norwegian Luthern church.

Painter Nick Helm is at work painting and decorating the city hall and will fix it up so that even its best friends won't know it.

Miss Kate Martin, of Crookston and Mrs. Thielen, of Drayton, North Dakota, sisters of Mrs. Theo. LaBissoniere, spent Monday in this city.

Miss Mary Lamb spent Sunday at her home at Moorhead. Miss Mabel Hannay, of St. Hilaire, accompanied her and was a guest at the Lamb home.

Mr. and Mrs. E. J. Regan went down to Crookston Monday evening to attend the funeral of Mr. Regan's brother, Timothy, which was held Tuesday.

Mrs. Albert Raycraft and babe arrived this morning for a several weeks' visit at the home of Mrs. Raycraft's parents, Mr. and Mrs. Joseph Belair.

Miss May Hamel and Miss Mabel Hansen, of Grafton, North Dakota, arrived here Monday for a visit at the home of Miss Hamel's cousin, Miss Lillian Buse.

Merchant E. Arneson, of East Grand Forks, spent Tuesday evening in the city. Mr. Arneson is out through this part of the valley buying up several car loads of potatoes.

John Pokezwenski left last evening for Moorhead, where he was called as a witness in a damage suit against the Nortnern Pacific railroad copmany. He will return Saturday.

Rev. H. W. Knox writes that he will be home from his vacation Friday and regular morning and evening services will be conducted at the Presbyterian church on Sunday.

Mr. and Mrs. L. C. Simons and children departed Tuesday evening for Minneapolis and from there will go to Granite Falls for a visit with Mrs. Simons' parents. They will be absent a week.

Peter Beaulieu came over from Grand Forks Saturday and spent Sunday with his many friends here. Pete is attending the Union Commercial college at the Forks and will graduate in June.

THE COURIER is a trifle shy on local news this week, but an extraordinary rush of work in the job deptatment has made it impossible for the force to devote much time to the paper. However we will try to keep up with the job orders and at the same time give the public a readable paper, and admonish all to bring in their printing.

J. B. Armstrong arrived home Saturday from his several weeks' absence at Chicago and the cities. He attended the grand lodge meeting of the Knights of Pythias at Minneapolis last week.

John Meissner, a prominent citizen of Rugby, Morth Dakota, spent Tuesday and yesterday in the city. Mr. Meissner owns some farm property in this neighborhood and was here to look after his interests.

The base ball boys received their new suits today, and in the first game of the season next Sunday, they will appear rigged out to beat the band. The suits are black with maroon trimmings and are decidedly nobby.

The interior of Fruend's confectionery has been neatly papered this week, which makes this store one of the swellest in the city. Mr. Fruend has also repapered and refurnished his ice cream parlor, and is ready for the hot weather trade.

H. W. Anderson, H. H. Zaiser, Lee Healy and the Misses Detert and Coughlin went over to Grand Forks last Friday and took in the festival and concert by the Minneapolis Symphnoy orchestra which was held there that afternoon and evening.

Damon's colored musical company of twelve artists will appear at the Metropolitan opera house for one night, Tuesday, June 4. This company comes recommended as one of the cleverest in the business and are drawing big crowds wherever they show.

August Morin arrived here Saturday from Belle Corte, North Dakota and spent the day attending to some important business matters. He reports his work near that place as progressing nicely, although weather conditions have not been the best so far.

Joseph Brohman, of Lambert, who traded his farm out east for the Seiff property in this city, has moved into town and will be a resident here from now on. Mr. Brohman has served his time at hard farm work, and deserves the rest he will now enjoy.

Theo. Jacobson will hold an auction sale at his farm home in Lake Pleasant township, 2½ miles south of Red Lake Falls on Tuesday, May 28. Mr. Jacobson will sell a large amount of farm machinery, live stock etc. Full particulars are given on the big bills. Joseph Belair will be auctioneer and A. P. Toupin, clerk.

The local tennis enthusiasts are having their new tennis grounds fixed up at the corner of Main and Third streets. When finished these courts will be as fine as any in the northwest. The old grounds on south Main street are no longer fit for use without a whole lot of repairing, and as long as new grounds had to be built anyway the club members figured the down-town location the most suitable.

Mrs. Theo. LaBissoniere entertained a party of young people at her home last Thursday evening, at which the bidden guests thoroughly enjoyed themselves. Cards, contests and other forms of amusement were indulged in, and during the luncheon hour phonograph selections were rendered. The party broke up about midnight, but the time passed all too quickly for the young folks. The following were present: Misses Mary Lamb, Elene Hanson, Mollie Allard, Lillian Buse, Etta Garceau, Kate Berthiaume, Alice Boyd, Rose Harren, and Messrs. N.M. Watson, Clem Brunelle, Harry Healy, Leland Healy, Joe Harren, Noel Delorme, William Erickson.

H. Clement, proprietor of the Terrebonne cheese factory, reports that he is receiving some fine offers for his products these days, and will get the top price for all the cheese he can produce this summer. Mr. Clement has won many medals and prizes for fancy work as a cheesemaker and his patrons and friends are pleased to see him prosper.

Mrs. Phileas Roi returned home Tuesday from the Crookston hospital, where she has been for the past several weeks. While there Mrs. Roi underwent a second operation for the trouble that nearly caused her death early in the winter, and is recovering from its effects very nicely. She is a great deal stronger than she has been for some time, and the physicians are of the opinion that she will now soon regain her lost vitality.

The program given by Damon's colored minstrels is varied and contains many interesting numbers. The great A. M. Damon, violin, cello, mandolin, harp, banjo, pipe organ and piano soloist, is supported by a company of artists seldom got together, and they present entertainment that is in every respect high class and worthy of the public's patronage. They will appear at the Metropolitan opera house Tuesday evening, June 4.

The musicale given by the pupils of Sister Cecelia of St. Joseph's church at the opera house Monday evening was a particulary pleasing entertainment, and the large hall was taxed to its capacity to accommodate the crowd that attended. The program was a lenghty and varied one, but was carried out without a hitch and generous applause was accorded each number. The work of the young folks showed that rapid progress has been made in the music line during the past winter.

J. Leo Spillane arrived here Monday to spend a week or so with his parents. Leo gave up the publication of the Callaway Boomer, a paper he assumed charge of in February, having came to the conclusion after a few months' trial that the profits of the country newspaper in a small town consisted mostly of glory—and he couldn't eat the glory. He went from there to Minneapolis where be worked several weeks. He has not decided where he will go from here, but as he is a artist with the types he will have no trouble in finding steady employment.

Thief River Press: Announcement made by Mr. and Mrs. Wm. Herron of the marriage of their daughter, Winnifred, to Mr. Harry B. Purdy on Tuesday, June 4th. Miss Herron is a popular and lovable young woman who makes friends wherever she goes and has scores of well-wishers in this city, where for several years past she has been employed as telephone girl. Mr. Purdy is an engineer on the Soo. He also has made many friends during his stay here. The young people will be at home at Glenwood, Minn., July 15th.

Frank A. Mizen arrived home Saturday morning from his four weeks' trip throughout the western and southern states. Mr. Mizen covered a lot of territory while he was away, and visited at the principal interest points on his ronte. He went from here to Seattle and Portland, thence by boat to San Francisco and from there scuth and east, stopping off at several places between there and New Orleans. From there he came north and east to the cities returning by way of St Louis. Mr. Mizen had a very enjoyable trip, and his rest faom active work did him a lot of good.

Crookston Times: P. T. McNally superintendent of schools at Mandan North Dakota, is in the city today as the guest of T. J. Malone, of the Times force. Mr. McNally was formerly engaged in school work in Minnesota having been superintendent at Red Lake Falls in 1897–1900. It is seven years since his last visit to Crookskon and he notes with some interest the growth the city has made in the intervening years. Mr. McNally has been attending the conference of North Dakota high school superintendents at Grand Forks this week, which made his visit convenient.

Through the Ed. L. Healy agency last week a deal was closed whereby C.E. Patterson, of St. Paul, becomes owner of the east half of section two, Lake Pleasant township, known as the old Demarais farm, but owned by Theo Jacobson for the past three years. The consideration was a very satisfactory one to Mr. Jacobson. Mr. Patterson is manager of the Twin city motor company but has great faith in the future of southern Red Lake county. Mr. Jacobson will return to Lyon county, and settle at Marshall. During the three years he has been here he has had very good success, and is well satisfied with Red Lake county. However, his sons desire to get into other lines, and Mr. Jacobson will quit farming. He is a good farmer and the people here are sorry to see him leave.

Brunelle Bros. have a change of ad. in today's COURIER. Many peo- who would not think of patronizing catalogue houses entirely forget the home factory when calling for a cigar. There is really no difference as money spent for these foreign cigars does not help in in any extent to build up Red Lake Falls. If every smoker when asking for a cigar would insist on having a home made product the result would mean more than at first imagined. It would mean that Brunelle Bros. would have to hire at least one and maybe two men more to keep up wtih tneir work, which wonld bring additional families here. It is very true that one isn't much but yet if every home institution is patronized exclusively it will mean a whole lot more. Think it over.

Osakis Review; The deepest sympathy is felt for Mr. Carl M. Borgen and family of Alexandria, in the loss of their youngest daughter, Alta, age 10 years, who died of appendicitis at Boyd's hospital in that village. The little girl was taken ill last Wednesday a week ago; death followed 12 hours after an operation performed Saturday forenoon. The remains were taken to Evansville Tuesday and laid to rest in the family cemetery. The little girl was a pupil in the fifth grade of the Alexandria schools and was an exceptionally bright child. Mr. Borgen, for the past month, has been in the employ of the Review and will remove his family to Osakis June 1st to take up permanent residence here. The Review cannot find words to express the deep sympathy for him and his heartbroken wife in this great sorrow. No one fully realizes what such a loss means until it is brought home to them through the death of a loved one. May the Great Architect of the Universe give them strength to bear the burden with resoluteness and fortitude.

For Sale

Wishing to retire from business, I offer my restaurant, lunch room and confectionery at a very reasonable price. Small payment down and balance on easy terms. For particulars, etc., call on Mrs. M. R. Hall, Red Lake Falls. 2w.

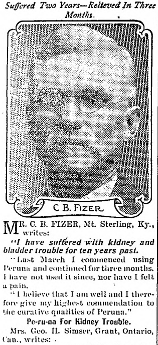
KIDNEY TROUBLE

Suffered Two Years—Relieved In Three Months.



C. B. FIZER

MR. C. B. FIZER, Mt. Sterling, Ky., writes:

"I have suffered with kidney and bladder trouble for ten years past.

"Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt a pain.

"I believe that I am well and I therefore give my highest commendation to the curative qualities of Peruna."

Pe-ru-na For Kidney Trouble.

Mrs. Geo. H. Simser, Grant, Ontario, Can., writes:

"I had not been well for about four years. *I had kidney trouble, and, in fact, felt badly nearly all the time.*

"This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Manalin.

"I took only two bottles of Peruna and one of Manalin, and now I feel better than I have for some time.

"I feel that Peruna and Manalin cured me and made a different woman of me altogether. I bless the day I picked up the little book and read of your Peruna."

It is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the time, else the system suffers. There are times when they need a little assistance.

Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own burdens.

Almost any man thinks that it's up to him to get his hands on all the tainted money he can for the purpose of removing the taint.

SHIP YOUR CREAM
to Crescent Creamery Co., St. Paul, Minn. Write to-day for tags and prices.

The only time a man wishes he were a girl is when he sees one met by her girl friends at a train.

TEXAS GULF COAST LANDS
No blizzards, no heat prostrations, growing crops all year. Live agents wanted.
THEODORE F. KOCH, ST. PAUL, MINN

HE TOOK HIS AT THE BAR.

Escort of Fashionable Woman at the Opera Gave Her a Surprise.

A student of human nature who is also a lover of music and has been attending the performance of the grand opera now being given here has been getting considerable entertainment out of the audiences. The other evening he says he observed a fashionable-looking woman accompanied by a man who might have been her country cousin, and as he sat close to them he heard some of their conversation, which tended to confirm that impression. When the curtain fell at the end of the first act the woman turned to her companion and said:

"Wouldn't you have time to go out and get a libretto?"

The man looked puzzled for a moment, but finally the light seemed to break and smiling in a gratified way he said:

"Oh, yes."

Then he went out.

"Where is the libretto?" asked the woman when he returned.

"Oh, did you want one, too?" he said, looking puzzled once more.

"No, of course not," was the reply; "yours will do for both of us. Where is it?"

"Why," stammered the man, "I drank mine at the bar."—Philadelphia Record.

CHANGE IN FOOD

Works Wonders in Health.

It is worth knowing that a change in food can cure dyspepsia. "I deem it my duty to let you know how Grape-Nuts food has cured me of indigestion.

"I had been troubled with it for years, until last year my doctor recommended Grape-Nuts food to be used every morning. I followed instructions and now I am entirely well.

"The whole family like Grape-Nuts, we use four packages a week. You are welcome to use this testimonial as you see fit."

The reason this lady was helped by the use of Grape-Nuts food, is that it is predigested by natural processes and therefore does not tax the stomach as the food she had been using; it also contains the elements required for building up the nervous system. If that part of the human body is in perfect working order, there can be no dyspepsia, for nervous energy represents the steam that drives the engine.

When the nervous system is run down, the machinery of the body works badly. Grape-Nuts food can be used by small children as well as adults. It is perfectly cooked and ready for instant use.

Read, "The Road to Wellville," in pkgs. "There's a Reason."

THE FATAL GLOVE.

BY CLARA AUGUSTA

CHAPTER XXI.—(CONTINUED.)

She kissed an ivory cross laying on her bosom, and proceeded with evident difficulty.

"Well, I fled with Paul Linmere. For a time I was very happy. He was kind to me, and I loved him so! We lived in a little vine-wreathed cottage, on the banks of the Seine, and I had my tiny flower-garden, my books, my birds, my faithful dog Leo—and Paul! Every pleasant night he used to take me out on the river in the little boat which bore my name on its side. I lived in a sort of blissful waking trance, that left me nothing to desire, nothing to ask for. Fool that I was! I thought it was to last always. After a while Paul wearied of me. Perhaps I was too lavish of my caresses and words of love; it might tire him to be loved so intensely. But such was my nature. He grew cold and distant; at times positively ill-natured. Once he struck me: but I forgave him the blow, because he had taken too much wine. He laughed me to scorn, and called me by a foul name that I cannot repeat. That night he asked me to go out boating with him. I prepared myself with alacrity, for I thought he was getting pleased with me and perhaps would comply with my request. Are you weary of my story, Louis?"

"No, no. Go on. I am listening to you, Arabel."

"It was a lovely night. The stars gleaming like drops of molten gold, and the moon looked down, pure and serene and holy. Paul was unusually silent, and I was quiet, waiting for him to speak. Suddenly, when we reached the middle of the river, he dropped the oars, and we drifted with the current. He sprang up, his motion nearly capsizing the frail boat, and taking a step toward me, fastened a rough hand upon my shoulders. 'Arabel,' he said, hoarsely, 'your power over me is among the things of the past. Once I thought I loved you, but it was merely a passion which soon burned itself out. After that, I grew to hate you; but, because I had taken you away from home and friends, I tried to treat you civilly. Your caresses disgusted me. I would gladly have cast you off long ago, if I had had but the shadow of a pretext. I am to be married to a beautiful woman in America before many months shall elapse—a woman with a name and a fortune which will help me to pay those cursed debts that are dragging me down like a millstone. For you I have no further use. There is no disgrace in the grave—and I consign you to its dreamless sleep!' The next moment the boat was capsized, and I was floating in the water. I cried aloud in his name, beseeching him to save me, and got only his mocking laugh in return, as he struck out for the shore. I could not swim, and I felt myself sinking down—down to unfathomable depths. I felt cold as ice; there was a deafening roar in my ears, and I knew no more."

"My poor Arabel, I could curse the villain who did this cowardly thing, but he is dead; and in the hands of God."

"When I woke to consciousness, I was lying in a rude cottage, and two persons, unknown to me—a man and a woman—were bending over me, applying hot flannels to my numbed limbs and restoratives to my lips. I had some articles of jewelry on my person, of some considerable value, and with these I bribed the persons who had taken me from the river to cause Mr. Linmere to believe that I had died. They were rough people, but they were kind-hearted, and I owe them a large debt of gratitude for their thoughtful care of me. But for it I should have died in reality. As soon as I was able to bear the journey I left France. Linmere had already closed the cottage and gone away—none knew whither, but I was satisfied he had departed for the United States. I left France with no feeling of regret, save for Leo, my faithful hound. I have shed many bitter tears when pondering over the probable fate of my poor dog."

"Be easy on that subject, Arabel. I saw the hound but a few weeks ago. He is the property of a lady who loves him—the woman Paul Linmere was to have married, if he had lived."

"I am glad. You may laugh at me, Louis, but the uncertain fate of Leo has given me great unhappiness. But to continue—I engaged myself as nursemaid with an English family, who had been traveling on the continent and were about returning home. I remained with them until I had accumulated sufficient funds to defray my expenses across the Atlantic, and then I set out on my journey. I came to New York, for that had been Mr. Linmere's home before we went to France. I soon got upon the track of him, and learned that he was about to be married to a Miss Margaret Harrison, a young lady of great beauty, and with a large fortune. I wanted to see her; for you must know that I had registered a fearful vow of vengeance on Mr. Paul Linmere, and I desired to judge for myself if it would fall heavily on the woman he was going to marry. For even violently as I had loved him I now hated him.

"I saw Miss Harrison. I accosted her in the street one day, as any common beggar would have done, telling her a pitiful story of my poverty. She smiled on me, spoke a few words of comfort, and laid a piece of gold in my hand. Her sweet face charmed me. I set myself to find out if she cared for the man she was to marry. It had all been arranged by her father years before, I understood, and I felt that her heart was not interested.

"After learning that, nothing could have saved Paul Linmere. His fate was decided. Twice I waylaid him in the streets, and showed him my pale face, which was not unlike the face of the dead. And as he believed that I was drowned, the sight of me filled him with the most abject terror. How I enjoyed the poor wretch's cowardly horror!

"The night that he was to be married, I lay in wait for him at the place where the brook crossed the highway. I had learned that he was to walk up alone from the depot to the house of his expectant bride, and there I resolved to avenge my wrongs. I stepped before him as he came, laid my cold hand on his arm and bade him follow me. He obeyed, in the most abject submission. He seemed to have no will of his own, but yielded himself entirely to me. He shook like one with the ague, and his footsteps faltered so that at times I had to drag him along. I took him to the lonely graveyard, where sleep the Harrison dead, and—" She covered her face with her hands and lapsed into silence.

"Well, Arabel, and then?" asked Castrani, fearfully absorbed in the strange narrative.

"I dropped the hood from my face and confronted him. I had no pity. My heart was like stone. I remembered all my wrongs; I said to myself this was the man who had made my life a shipwreck, and had sent my soul to perdition. He stood still, frozen to the spot, gazing into my face with eyes that gleamed through the gloom like lurid fire. 'I am Arabel Vere, whom you thought you murdered!' I hissed in his ear. 'The river could not hold my secret! And thus I avenge myself for all my wrongs!'

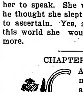
"I struck one blow; he fell to the ground with a gurgling moan. I knew that I had killed him, and I felt no remorse at the thought. It seemed a very pleasant thing to contemplate. I stooped over him to assure myself he was dead, and touched his forehead. It was growing cold. It stuck me through and through with a chill of unutterable horror. I fled, like one mad, from the place. I entered a train of cars which were just going down to the city, and in the morning I left New York and came here. I fell sick. The terrible excitement had been too much for me, and for weeks I lay in a stupor which was the twin-sister of death. But a strong constitution triumphed, and I came slowly back to health. I had some money on my person at the time I was taken ill, and happening to fall into the hands of a kind-hearted Irish woman, at whose door I had asked for a glass of water, I was nursed with the care that saved my life.

"But I have never seen a moment of happiness since. Remorse has preyed on me like a worm, and once before this I have been brought face to face with death. Now I am going where I sent him. God be merciful!"

"Amen," responded Louis fervently.

It was very still in the room. Castrani sat by the bedside, waiting for her to speak. She was silent so long he thought she slept, and stooped over to ascertain. Yes, she did sleep. In this world she would never waken more.

CHAPTER XXII.



CASTRANI remained in Boston, and saw the remains of the unfortunate Arabel Vere consigned to decent burial, and that duty accomplished he took the first train for Lightfield.

It was sunset when he reached the dwelling of Nurse Day. Margaret was sitting on the veranda, with Leo by her side. The hound ran down to the gate to give the visitor a joyful greeting, and Margaret descended the steps and held out her hand. She was very kind, and almost cordial, for she respected Castrani with her whole heart, and she was pleased to see him.

"I am very glad to see you, Mr. Castrani," she remarked, leading him into the sitting room, "and so also will be Nurse Day when she returns. She has gone to a prayer meeting now. And I am especially pleased to see you just at this time, because I am thinking of returning to New York, and I hope to persuade you to give me your escort, if it will not be asking too much."

"To New York? Indeed that is delightful intelligence for the five hundred dear friends who have deplored your absence so long! I had feared sometimes that you intended to remain here always."

"I almost wish I could—life has been so peaceful here. But I must go back sooner or later, as well now as at any time. I think I am strong enough to bear it," she added, sadly.

"Miss Harrison, I want to tell you a story."

She drew back from the hand he laid on hers, and her air became cold and repelling. He divined her fears, and smiled a melancholy smile.

"No, not that. Do not fear. I shall never again trouble you with the story of my unfortunate passion. I must go through life without the blessing that would have made this world a paradise. It is not that of which I would speak, and you need have no apprehension for the future. God helping me, I will never say to you a single word that a brother might not say to a dearly beloved sister."

She put her hand into his.

"I wish I could love you, Louis Castrani," she said, solemnly. "You deserve my heart's best affections; but for me love is over! I have had my day, and it is set. But you shall be my brother, my dear, kind brother, Louis! Oh, it is sweet to know that in this false world there is one heart loyal and true!"

"Margaret, there is more than one true heart in the world, as you will acknowledge when I have told you my little story. I know now why you discarded Archer Trevlyn. You thought him guilty of the murder of Paul Linmere!"

A ghastly pallor overspread her face; she caught her breath in gasps, and clutched frantically the arm of Castrani.

"Hush!" she said. "Do not say those dreadful words aloud; the very walls have ears sometimes! Remember their utterance puts the life of a fellow mortal in peril!"

"Have no fear; I am going to right the wrong!"

"Leave his punishment to God. It would kill me to see him brought before a hissing crowd to be tried for his life. Oh, Mr. Castrani, I implore you—"

"Calm yourself, child. I shall never knowingly injure Mr. Trevlyn. He deserves no punishment for a sin he never committed. He is guiltless of that deed as you are yourself!"

"Guiltless—Archer guiltless!" she cried, her face wearing the pitiful, strained look of agonized suspense. "I do not quite comprehend. Say it again—oh, say it again!"

"Margaret, Archer Trevlyn never lifted a hand against Paul Linmere—never! He is innocent before God and the angels!"

She dropped her head upon her hands and burst into tears—the first she had shed since that terrible night when that blasted revelation had, as she thought, sealed up the fountain of tears forever. Castrani did not seek to soothe her; he judged rightfully that she would be better for this abandonment to a woman's legitimate source of relief. She lifted her wet face at last—but what a change was there! The transparent paleness had given place to the sweet wild rose color which had once made Margie so very lovely, and the sad eyes were brilliant as stars through the mist of tears.

"I believe it—yes, I believe it!" she said softly—reverently. "I thank God for giving me the assurance. You tell me so. You would not unless it were true!"

"No, Margaret; I would not," replied Castrani, strongly affected. "Heaven forbid that I should raise hopes which I cannot verify. When you are calm enough to understand I will explain it fully."

"I am calm now. Go on."

"I must trouble you with a little, only a little, of my own private history in order that you may understand what follows. I am, as you know, a Cuban by birth, but my father, only, was Spanish. My mother was a native of Boston, who married my father for love and went with him to his Southern home. I was an only child, and when I was about twelve years of age my parents adopted a girl, some four years my junior. She was the orphan child of poor parents, and was possessed of wonderful beauty and intelligence. Together we grew up, and no brother and sister loved each other more fully than we. It was only a brotherly and sisterly love—for I was engaged at sixteen to Inez de Nuncio, a lovely young Spanish girl, who was cruelly taken away from me by the hand of violence, as you know. Arabel grew to girlhood, lovely as an houri. She had many suitors, but she favored none, until he came—Paul Linmere! Ill health had driven him to Cuba to try the effect of our Southern air, and soon after his arrival he became acquainted with Arabel. He was very handsome and fascinating, and much sought after by the fair ladies of my native town. Arabel was vain, and his devoted attentions flattered her, while his handsome face and fascinating address won her love. And before my parents had begun to ascertain any danger from Linmere's society she had left everything and fled with him.

"My mother was plunged into grief, for she had loved Arabel like an own child, and the uncertainty of her fate I think hastened my mother's death. My father left no means untried to discover the whereabouts of the erring girl—but in vain. For years her fate was shrouded in mystery. My parents died, Inez was taken from me, and weary and heartsick I came to New York, hoping to find some distraction in new scenes and among a new people.

"The day before you left New York I received a message from Arabel Vere. She was in Boston ill unto death. She wanted to see me once more; and she had a sin upon her conscience which she must confess before she died, and she must confess it to no person but myself. In obedience to this summons I hurried to Boston, and the same train that carried me carried you also.

"I found Arabel but a mere wreck of her former self. Her countenance told me how fearfully she had suffered. She was ill, in a wretched room, with no attendants or medical aid. I had her immediately removed to lodgings suitable for her, and provided a nurse and a physician. From this time she began to mend, and in a couple of days the physician pronounced her out of immediate danger. When she knew her life was to be prolonged she refused to make the confession she had summoned me to hear. So long as there was any prospect of her recovery, she said, she must keep the matter a secret. But she could not die and leave it untold. Therefore, she promised that whenever she should feel death approaching she should send again for me, and relieve her soul by the confession of her sin. A few days ago came her second summons.

"Previous to this, only a little while, I had been inadvertently a listener to an altercation between Archer Trevlyn and his wife, during which Mrs. Trevlyn, in a fit of rage, denounced her husband as the murderer of Paul Linmere. She produced proofs, which I confess struck me as strangely satisfactory, and affirmed her belief in his guilt. She also told him that because the knowledge of his crime had come to you, you had discarded him, and left New York to be rid of him forever!

"So knowing this, when I listened to the dying confession of Arabel Vere, I knew that this confession would clear Archer Trevlyn from all shadow of suspicion. Arabel died, and I buried her. Previous to her death—perhaps to guard against accident, perhaps guided by the hand of a mysterious providence to clear the fair fame of an injured man—she wrote at length the history of her life. She gave it to me. I have it here. It will explain to you all that you desire to know."

He gave her the manuscript, wrung her hand and left her.

(TO BE CONTINUED.)

POCKETED HIS PRIDE.

Cuban Patriotism Prevented Him from Speaking, but Not Walking, Spanish.

"Madam," said the tattered wretch, as the woman of the house came to the door, "you see before you a victim of the worst governmental tyranny on the face of the globe."

"You look it," answered the woman, according to the Buffalo Express.

"My looks do not deceive you. Yet, madam, I can assure you it humbles me greatly to be compelled to ask alms of you. Two short months ago, madam, I was rich enough to have bought all the houses on this street."

"Indeed," said the woman, growing interested.

"Yes," pursued the wanderer. "I had a great plantation, acres of sugar cane and tobacco, hundreds of negroes to do my bidding. I spent my time in idleness and luxury. I never had a want that I could not gratify by a wave of my hand."

"Where was all this?"

"In Cuba, madam. I am a Cuban refugee. My plantation was burned by the cruel Spaniards because I had given aid to the patriots. My wife and children were murdered, my dependents all scattered, and I——"

"If you're a Cuban," interrupted the woman, "prove it by talking Spanish."

"Madam," said the tramp, with a pained expression, "in the part of Cuba where I lived the people were such patriots that they never used the Spanish language. They talked only English."

"Oh," said the woman, "then there's one other way in which you can prove what you say."

"It is humiliating to me to have my word doubted. My Cuban pride revolts against it, but my hunger for the mince pie which I can smell from your kitchen forces me to pocket my pride. Name your other test and it shall be fulfilled."

"You might walk Spanish," said the woman, with a smile, as she shut the door.

Trivial Things.

"It may seem a trivial thing to you," said a well-known druggist, "but one of our greatest annoyances is about corks. I have been in the drug business for nearly fifteen years, and I feel sure that my experience is no different from that of every other druggist. The trouble I complain of is that almost ninety-nine out of every 100 persons when presenting a bottle for medicine will invariably retain the cork until you have filled the bottle, put a new cork in it and tied it up, when they will say: 'I have the cork.' This may seem a trifle to kick about, but corks cost money, and then there is trouble occasionally to find one to fit a bottle properly. The amount of money we lay out annually for corks might be cut down fully 50 per cent if our customers would only think."

Interesting Statistics.

An analysis of 2,000 accident policies on which benefits were paid shows 531 persons injured by falls on pavements, 243 by carriages or wagons, seventy-five by horse kicks or bites and forty-seven by horseback riding; 117 were cut with edge tools or glass; ninety-six were hurt by having weights fall on them, and seventy-six were hurt in bicycle accidents, while seventy-two were hurt by falling downstairs.

Hawaiian Idols.

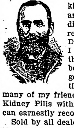
The collection of Hawaiian idols belonging to the American board, and which were sent to this country as curiosities by the early missionaries to the Sandwich islands, has been sent back to Hawaii to be deposited in the National museum. They are said to be the only specimens of the original deities of the islands now in existence.

British Tramways.

The tramways of Great Britain and Ireland receive in fares annually at the present time about £2,600,000, and the omnibuses about £2,000,000. There are about 45,000 cabs in the United Kingdom, which altogether earn in fares about £8,200,000 per annum.

DOES YOUR BACK ACHE?

Profit by the Experience of One Who Has Found Relief.



James R. Keeler, retired farmer, of Fenner St., Cazenovia, N. Y., says: "About fifteen years ago I suffered with my back and kidneys. I doctored and used many remedies without getting relief. Beginning with Doan's Kidney Pills, I found relief from the first box, and two boxes restored me to good, sound condition. My wife and many of my friends have used Doan's Kidney Pills with good results and I can earnestly recommend them."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A FITTING PUNISHMENT.

Served Him Right for Coming Home Late.

Although she didn't look it, the lady on the platform possessed the secret of everlasting happiness—at least, as regarded married life.

The bills which advertised his lecture said so, and everyone knows advertisements never lie.

Follow her advice, and happiness was yours for the asking; ignore it, and misery had you in its grasp forever.

"I try to enter into my husband's amusements and pastimes," she cried. "If he comes home at 3 in the morning, do I scowl and nag at him? No, I throw my arms about his neck and kiss him—"

"And serve him jolly well right, too!" said a cynical villain at the back of the room.

Whereupon "uproar" ensued.

Sandy's Kicks.

Sandy Pikes—Yes, I'm a friend of de horse. I wish dese automobiles had never been invented.

Gritty George—Why not, pard?

Sandy Pikes—Because when I used to steal a night's sleep in a stable all I had to do was to brush de straw out of my ears next morning and I would be all right. Now when I sleep in a garage it takes two or three days to get the gasoline out of my clothes.

STOMACH ON STRIKE

SUCCESSFUL TONIC TREATMENT FOR INDIGESTION.

Dr. Williams' Pink Pills Cured This Woman and Have Cured Many Hundreds of Other Cases of Common Ailments

Loss of appetite, coated tongue, bad taste in the mouth, heavy dull headache and a dull, sluggish feeling—these are the symptoms of stomach trouble. They indicate that the stomach is on a strike; that it is no longer furnishing to the blood the full quota of nourishment that the body demands, hence every organ suffers.

There are two methods of treatment, the old one by which the stomach is humored by the use of predigested foods and artificial ferments, and the new one by which the stomach is toned up to do the work which nature intended of it. A recent cure by the tonic treatment is that of Mrs. Mary Stackpole, of 81 Liberty street, Lowell, Mass. She says:

"I suffered constantly for years from stomach trouble and terrible backaches and was confined to my bed the greater part of three years. I was under the care of our family physician most of the time, but did not seem to get better.

"I was completely run-down and was not able to do my work about the house. My blood was impure and my complexion pale. I suffered from flashes of heat, followed suddenly by chills. I had awful headaches, which lasted from three to four days. I could get but little rest at night, as my sleep was broken and fitful. As a result I lost several pounds in weight and became very nervous.

"I was in a wretched condition when I heard about Dr. Williams' Pink Pills. I started to take the pills at once and began to gain in weight and health. I was encouraged by this to keep on until I was cured. My friends and neighbors often remark what a changed woman I am and I owe it all to Dr. Williams' Pink Pills."

These wonderful pills are useful in a wide range of diseases such as anæmia, rheumatism, sciatica, neuralgia, nervous headaches, and even locomotor ataxia and partial paralysis.

The great value of Dr. Williams' Pink Pills lies in the fact that they actually make new blood and this carries health and strength to every portion of the body. The stomach is toned up, the nerves are strengthened, every organ is stimulated to do its work.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

GOOD CROPS GROWN BY DRY FARMING METHODS

Prepare the Soil to catch the Rainfall, and then Cultivate to Hold the Moisture for Crops.—By J. J. Vernon, Professor Agricultural College, New Mexico.

Soil moisture is lost either by the free water percolating downward until it reaches the ground water table and passes into ditches, or streams, or by returning by capillary action to the surface of the ground where evaporation takes place and it passes off into the atmosphere. Since for our present discussion we are dealing with conditions where the rainfall is not large it is improbable that any considerable amount of water, if any at all, is lost by downward percolation, and therefore, the loss in that direction may be entirely ignored.

As soon as the surface layer of the soil becomes dryer than that portion lying immediately below it, the moisture from below moves toward the surface to replace that removed by evaporation. It is evident, then, that if we are able to check this upward movement of the moisture, and therefore, check the surface evaporation, we have reached a most important result. This we are able to do, not completely stopping all upward movement of the moisture from below, but so materially checking that movement and thus lessening the amount of moisture which reaches the surface of the soil and which is sure to be evaporated as soon as it comes in contact with the air, that it forms one of the most important aids to crop production under practically all conditions of agricultural operation.

The principal means employed in the conservation of moisture are first, loosening the soil to great depths so that the water can penetrate deeply into the soil; second, adding humus to the soil either by applying manure directly or by plowing under all stubble and other litter; and third, surface cultivation. While the first and second means are important and should never be neglected, yet the third, that of surface culture, must necessarily remain the most important method for checking the loss of soil moisture from the surface. This is most quickly and cheaply accomplished by repeated cultivations, thus forming what is known as a "dust mulch" upon the surface. Next to the storage of moisture in the soil the conservation of soil moisture by surface cultivation is most important to dry farming operations.

For convenience dry farming may be divided into three main systems: 1. Crops annually,—a system whereby a crop, whether heavy or light, is grown every year. Probably crops may be grown every year with say 18 inches of rainfall, provided the proper methods are followed and the rainfall is properly distributed for storage and cropping. 2. Crops biennially,—a system under which crops are grown only every other year. In Utah yields of 30 bushels of wheat per acre have been obtained every other year with an annual rainfall of 12 inches and good crops biennially have been reported with an annual precipitation of only eight inches. The soil was of an excellent character and the methods employed were up to date. 3. A modification of combination of the first and second. Under this class may be mentioned the production of two crops in three years, three crops in five years, or two crops in one year, one being a catch or cover crop, sown for its effect upon the soil or the soil moisture, to be plowed under before the regular crop is sown.

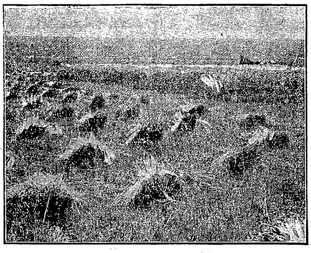
The system chosen for any section must necessarily depend upon a number of conditions, among which may be mentioned: The rainfall; the distribution of the fainfall; the length of the growing season; the general climatic conditions, such as the humidity of the atmosphere, the number of cloudy and clear days, the day and night temperature, and the windsweep; the elevation; the general aspect of the country and the farm; the character of the soil and subsoil; the depth of the soil and subsoil; the machinery available; and last but not least, the means for the disposal of the products.

Plowing is the most important factor connected with dry farming operations. If the plowing is not properly done an adequate water reservoir will not be formed in which to store the rain or snow fall. Should this feature of the work be neglected much of the rain and melting snow will run off from the surface of the ground and be lost instead of sinking into the soil, there to be stored.

Plowing, if possible, should be performed when the soil is fairly moist, so that it will come up mellow and can easily be leveled and fined. Discing immediately after the crop is removed will aid materially in this respect.

The character of the soil and the season of the year will largely determine the depth to which it is best to plow. Usually the plowing should be from eight to 12 or more inches deep if done in the fall, obviously somewhat shallower if done in the spring.

The subsoil plow may follow the plow if after due trial upon small areas it proves beneficial upon that particular soil and subsoil and under the conditions prevailing. The plow should be followed by the subsurface packer, especially if the plowing has been very deep. If a subsurface packer is not available the field should be run over with the disc set straight but well weighted down. The subsurface packer should be followed by the acme harrow or toothed harrow, thus pulverizing and fineing the surface so as to form a good mulch and at the same time provide against any surface run off of the water that subsequently falls.



Wheat Grown by Dry Farming.

The subsurface packing and the formation of a surface mulch should be performed each half day. If the soil is left loose and a large surface exposed to the air for only a few hours, large quantities of moisture will be evaporated, pass off into the atmosphere and be lost to the crop. Success often lies in the proper performance at the right time of these seemingly insignificant operations.

Experiments, often repeated, have proven that the evaporation of moisture from a soil surface is least when that surface is least exposed to the air. It follows, therefore, that any irregularities in the surface increases the surface exposure, which in turn increases the evaporation of moisture. The reason for laying so much stress upon following the plow immediately with the harrow is to prevent the loss of moisture from the irregular surface. Level culture with a fine even surface has proven the best method for conserving moisture and for moist crops this condition is the most favorable for root development and expansion. There may be conditions of a peculiar nature where this rule will not hold good, though it is difficult to think of such a condition.

Level culture should mean not only a level surface exposure when the work is completed but it should also be made to mean the cutting or stirring of a slice or layer of the surface to practically the same depth at all points. This is usually best accomplished by using a long, flat blade which is run so as to cut an even depth and at the same time stir the soil before it falls back in position. Another means almost as effective is the use of a large number of small shovels. Even small shovels leave an uncut ridge underneath, and a slight corrugation on the surface. Large shovels are extremely harmful since they leave the surface in great ridges and portions of the uncut under-surface exposed to the air.

All seeding and planting should be done with a machine that will deposit the seed in the moist soil at an even depth and leave a loose surface over it. The depth at which the seed should be sown will vary with the size and viability of the seed quite as if sown under humid conditions, but in dry farming the seed must be deposited not a certain depth below the surface of the soil, but a certain depth below the top of the moist soil. This is an important point. Not infrequently, deep planting will be required, but there is little danger in planting deep under dry farming conditions for the reason that the young plants readily push to the surface through the loose dry surface mulch. Should the seed be deposited in the dry surface mulch it will lie there until a shower comes or until the moisture from below is brought up to it by rolling or other similar treatment.

COLONEL HAD A GRIEVANCE.

Important Business That Took Him to the National Capital.

Col. Pete Hepburn of Iowa is one of the few members of the house of representatives to be found in Washington just now. The other day the colonel was strolling down the avenue wearing his deceptive permanent-grouch expression, when a friend drifted alongside and fell in step with him.

"In town late, aren't you, colonel?" the friend inquired.

"Umph," remarked Mr. Hepburn, somewhat briefly.

"Doing chores for the boys at home, I guess," the unabashed friend continued.

"No," said the colonel, becoming more loquacious.

"Then, what are you doing?"

"My dear young friend," said Mr Hepburn, "ever since the winter of 1903 there has been a busted place about as big as a soup plate in the concrete in front of my house. Last session I made seven speeches on the floor of the house of representatives on the subject of the outrageous, contemptible, horrible, scandalous and incompetent manner in which the city is run and the terrible, insanitary, cowardly and inhuman way in which the streets of this city are neglected. Last session I made nine speeches on the same subject. I am now pestering the commissioners, and have reason to believe that by the Fourth of July I'll get that place fixed."

And with a parting growl Col. Hepburn continued on his way to the district building.—Washington Star.

SHAPE SET BY GOVERNMENT.

Women Employes of Uncle Sam Must Conform Thereto.

There is considerable breezy comment among certain women employes of Uncle Sam's two print shops—the government printing office and the bureau of engraving and printing—over what is termed by some of the fair workers the "government shape." It is said this shape was created by the civil service commission for the women employes of the bureau where the paper money and stamps are printed, and that it is now the proper thing for women in that branch to refer to their figures as the "government shape."

According to regulations of the civil service commission the measurements call for women who are "tall, slender and sinuous;" height, five feet eight inches; weight, 154 pounds; bust, 36 inches; waist, 25 inches; hips, 43 inches, and back, 15½ inches.

A case of the rejection of a young woman from Michigan is cited because she was not tall enough for her width to meet the requirements, although her percentage in other directions was said to have been high. It is explained that it is necessary for a woman to be tall in order that she may reach the notes while on the press. A woman of short stature could not reach the notes, while one of unusual girth would not have room to stoop between the presses in the process of printing.

Bifurcated Boss.

There has not yet been appointed any director for the geological survey, and Col. Charles D. Walcott, who has been elected secretary of the Smithsonian, is still holding down both jobs and spending part of his time at each building, says a Washington correspondent. One of the workers in one of the institutions—it is not necessary to say which—called the other day on one of the workers in the other, and they were just exchanging the time of day. Said the one:

"Well, how's your shop getting on now?"

"Fine," said the other; "but it's the first time in my experience that I ever had the pleasure of working for a bifurcated boss."

Just then Col. Walcott walked in the door, and, patting him on the shoulder, said:

"Glad to see you. It's the first time I ever heard myself described that way; but I believe, under all the circumstances, the description fits."

One Night Session Assured.

The wives of two western representatives were lunching together in the house restaurant. "My husband is working very hard," said one. "I shall be glad when congress adjourns, as these night sessions are pulling him down dreadfully."

"Night sessions!" exclaimed her companion in surprise. "Why—er didn't you know that there have been no night sessions this session?"

"You don't say so! My husband has been out at least three night every week, saying he had to attend night sessions! Well," she added, after a moment's pause, "he will have one tonight, all right."—Washington Post.

Baron Rosen's Accomplishments.

Baron Rosen, Russian ambassador to this country, has had splendid training as a diplomat, having held important posts before coming to Washington. He is a chancellor of the Russian empire, a chamberlain at the court of Czar Nicholas and has been decorated with the orders of St. Vladimir, St. Ann and St. Stanislaus. He is an accomplished musician and speaks English, Russian, French, German, Italian and Japanese. His family is an old one and has produced many famous soldiers and diplomats for Russia.

To Make Study of Foods.

The department of agriculture this year will make a study of foods which make fat men lean and lean men fat.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs.

It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female sysem. It is an excellent remedy for derangements of the Kidneys in either sex.

Making It Worse.

Wife—I'm sorry I scolded you this morning, dear. It has affected my peace of mind all day.

Husband—Oh, then you have made the discovery at last, have you?

Wife—What discovery?

Husband—That you have only a piece of mind.

Gerald—I am going out to see a man.

Geraldine—You seem to have quite an extensive acquaintance.

BABY'S ECZEMA GREW WORSE.

Hospitals and Doctors Could Not Relieve Him—But Cuticura Remedies a Speedy, Permanent Cure.

"Eczema appeared when our baby was three months old. We applied to several doctors and hospitals, each of which gave us something different every time, but nothing brought relief. At last, one of our friends recommended to us Cuticura Soap and Cuticura Ointment. A few days afterwards improvement could be noted. Since then we have used nothing but Cuticura Soap and Cuticura Ointment, and now the baby is six months old and is quite cured. All that we used was one cake of Cuticura Soap and two boxes Cuticura Ointment, costing in all $1.25. C. F. Kara, 343 East 65th Street, New York, March 30, 1906."

It isn't difficult to form a fairly good idea of what people think of you by what they say of others.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the ***BLOOD CANNOT BE CUT AWAY.*** The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood. Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commenced its use and after taking it a while I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.

DR. ADLER'S TREATMENT
CURES AND PREVENTS
APPENDICITIS
LARGE DOLLAR BOTTLES AT DRUGGISTS

—W. A. Schreiter.

Catarrh

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative.

For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

Dr. Shoop's Catarrh Cure

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Nine Hundred Nineteen and 32-100 ($919.32) Dollars, which is claimed to be due and is due at the date of this notice upon a certain Mortgage, duly executed and delivered by Samuel W. Lee, a single man, Mortgagor to Swante W. Larson, Mortgagee, bearing date the third day of October 1901, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 10th day of October, 1901, at 11:30 o'clock A. M., in Book 20 of Mortgages, on page 308,

Which said mortgage, together with the debt secured thereby, was duly assigned by said Swante W. Larson Mortgagee, to Merchants State Bank of Red Lake Falls, Minn., by written assignment, dated the 24th day of January, 1907, and recorded in the office of said Register of Deeds, on the 12th day of April, 1907, at four o'clock P. M., in Book 15 of Mortgages, on page 372, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof;

NOW THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: The Northeast quarter (ne¼) of Section twenty-six (26), in Township one hundred fifty-two (152), north of Range forty-four (44) West of the Fifth Principal Meridian. Containing one hundred and sixty acres, more or less, according to the United States Government survey thereof, in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the Sheriff of said Red Lake County at the West front door of the Court House, in the City of Red Lake Falls, in said County and State, on the first day of June, A. D., 1907, at 10 o'clock A. M., of that day at public vendue, to the highest bidder for cash, to pay said debt of Nine Hundred Nineteen and 32-100 Dollars, and interest, and the taxes, if any, on said premises, and Twenty-five Dollars, Attorneys fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated April 17th, 1907.

VOL. IX—NO. 32. RED LAKE FALLS, MINNESOTA, THURSDAY, MAY 30, 1907. WHOLE NO. 448.

THE FIRST PAY DAY

Patrons of Local Creamery Receive Checks for Month of April.

The first pay day from the local creamery for the present season was made Saturday when the April payments amounting to $1400 were made.

The price paid for butter fat was 29½ cents, equal to the best and superior to many in this section.

A big bunch of patrons received substantial checks the biggest ones being as follows;

Ildage Baril, $75.03
Fred Behn, 63.54
Wm. Schaper, 60.06
D. Patnode, 58 54

There were ten or twelve more who received over forty dollars and many that received over twenty-five.

The business done at the local plant has been satisfactory so far, and the receipts of milk have increased every week.

With the grass out in good shape a big jump forward can be looked for, and the Red Lake Falls creamery will be second to none in this vicinity.

NEED EXTRA POLICE

Crookston Will Send Crowd For A Good Time.

Crookston Journal: The members of the Crookston fire department held an important meeting last evening in connection with several matters of vital interest not only to the department but to the city in general.

The first matter taken up was in connection with the tournament to be held at Red Lake Falls from June 18-21 by the Northwestern Firemen's association. It was decided that Crookston's department should send a fast team to compete and a movement was also started to secure a big delegation to attend the meeting from this city.

The latter movement was started in consequence of the loyal attendance at all of the former firemen's meets in Crookston by the people of Red Lake Falls and as a result it is safe to predict that when Crookston attends the Red Lake Falls tourney there should be an extra force of police sworn in.

I. O. O. F. Election.

The Odd Fellows elected officers for the ensuing term at their meeting last Satutday evening, as follows:

Noble Grand—Sam S. Haislet.
Vice Grand—R. H. Bourdon.
Secretary—Frank A. Mizen.
Trustee—Henry Hennemuth.

The installation will take place early in July. The Odd Fellows have added several new members of late, and have enough work to keep them busy most of the summer.

WE WIN THE FIRST

Thief River Falls Indians Scalped on Local Diamond Last Sunday.

The first ball game of the season on the home grounds was played Sunday, against a chilly northerner that made the players and public both wish for fur coats and dog skin mitts.

Nothwithstanding the disagreeable elements, the game was one of the best played here in a long time and from the first ball until the third man out in the last inning it was clearly "anybody's game."

McNiven, the long geared "heaver" for Thief River Falls was in the box for the visitors at the outset, and when he woke up to realization that he couldn't pitch, four innings had been played and six Red Lake Falls "gangsters" had circled the bases. After this Lofkins, a Carlisle Indian player, was put in the box and it was all off with Red Lake Falls for further tallies. Lofkins wasn't so many, either, but somehow or other the local batters couldn't connect with him for any great gains. The raw wind in the batters' faces made it extremely difficult to do much stick work, but of course it was as much of a disadvantage to one team as the other.

For Red Lake Falls, Pokezwinski (the fellow with the funny name) officiated as slab artist, and his work was very satisfactory to the fans. "Pucks" likes hot weather, and for this reason he didn t unlimber only on specific occasions but his benders were sufficiently deceiving to fool the Thief Riverites, and he had them on his list during the entire game.

Teief River scored first in the second inning, when a long fly was carried out o' bounds by the wind after it had been called a fair ball. It netted the batter three bases and brought in one run besides. The runner scored on the next play. In the third inning they scored two more runs on errors by a couple of Red Lake Falls players which put them near the top. In the seventh they scored again, and in the ninth had a couple of men on bases and the game looked lost to Red Lake Falls. However, the locals were equal to the occasion. Healy caught a high foul for the first out, Pauden nabbed a runner at second and Schreiter caught another stealing away from third and gave Healy a nab at him which was promptly done, bringing the game to a finish with the score 6 to 5 in Red Lake Falls' favor.

The contest was a particularly clean one and was entirely devoid of rag chewing of any sort. Both sides played good ball, and several fast plays were made.

The score by innings was as follows:

T. R. F.—0 2 2 0 0 0 1·0 0—5.
R. L. F.—3 1 1 1 0 0 0 0 x—6.

A return game will be played at Thief River Falls Sunday, and a big bunch of rooters will go up from here to see the game.

We Want to Help You Buy Cows Now

No doubt you have read our offer in the columns of this paper during the past two weeks, and we are very desirous that you give us an opportunity to get your farm stocked with cattle and hogs. To this end we would earnestly request you to call in and talk the matter over before the season becomes too far advanced.

The Secret of Success Lies in Dairying and Hog Raising

Wny not now abandon the wheat raising lottery and adopt the surer method of providing revenue for yourself and family? This bank is interested in your welfare and stands ready to help you get started in profitable dairying. Call in and we will talk it over.

MAY 30, 1907

9:30 a. m.—Formation of parade at Lafayette school building. Veterens, band, city officials, fire department, fraternal organizations, school children, etc. March through principal streets to Metropolitan opera house, where the exercises of the day will be held.

Music by the Band.
Invocation, Rev. H. W. Knox.
Opening remarks by Chairman Watson.
Song by the Quartette.
Lincoln's Gettysburg Address; Sigrud Anderson.
Selection by the Band.
Addresses, Thomas Germo, F. A. Grady.
"America" by the Audience.

EXERCISES ON MONDAY.

Class of 1907 will Finish School Labors Next Monday Evening.

The annual commencement exercises of the Red Lake Falls High School will be held at the Metropolitan opera house next Monday evening, June 3.

The class week program starts on Sunday evening, when the Rev. Father Fayolle will deliver the bacalaureate sermon at St. Joseph's church.

Monday evening the commencement exercises will be held at the opera house and Wednesday evening will occur the Junior banquet.

The program for commencement is as follows:

a) March "FLOATING ALONG"……*Buffington*
(b) Flower Song, "TULIPS AND PANSIES" *Bennet*
BAND ORCHESTRA

Invocation……
REV. H. W. KNOX

Vocal Solo, "HAPPY DAYS" ……*A. Strelezki*
MISS PAULINE NIELAND

SALUTATORY—Oration……
"LEST WE FORGET"
ALICE L. ERICKSON

ORATION……
"PURSUIT OF HAPPINESS"
PAUL T. BRUNELLE

Saxophone Solo……
Grand Fantasia, "MARITANA"
LELAND E. HEALY

ORATION……
"PREPARATION"
VIOLA A. LONGTIN

CLASS HISTORY AND WILL……
"BY THE FIRESIDE"
EDNA C. SWANSON

Vocal Duet……*Smith*
"OH, THAT WE TWO WERE MAYING"
MESDAMES MARSHALL AND KNOX

CLASS PROPHECY—Poem……
INA M. LINNIHAN

ORATION—VALEDICTORY……
"THE LAST LEAF"
LUCY B. HUNT

Vocal Solo……*Tosti*
"MATTINATA"
MRS. J. HENDRICKSON

Cornet Solo……*Hartmann*
Grand Fantasia "PRETTY JANE"
CLEMENT T. BRUNELLE

Presentation of Diplomas……
E. W. CHAMBERLAIN

Vocal Solo……*Granier*
"HOSANNA"
MRS. J. HENDRICKSON

Benediction……
REV. H. W. KNOX

Overture……*Solomon*
"REMINISCENCES OF THE SOUTH"
BAND ORCHESTRA

Mermaids in History.

Nearly all nations have folk-lore and fairy-tale accounts of mermaids, and some times of mermen. Even the American Indians had their "woman-fish" and "man-fish." The Chinese tell stories about their sea-women of the Southern seas. Sometimes mermaids and mermen are represented as leaving the water and living with human beings, but more frecuently they are pictured as being so attractive that they sometimes will lure human beings to destruction in the depths of the sea. These myths have been utilized by many poets, and have even been used for stories "with a moral."

NEW OFFICERS ELECTED.

Study Club Prepares For Busy Year.

A meeting of the Study Club was held at the home of Mrs. E. F. Marshall Wednesday evening last, and a very profitable and pleasant time resulted.

New officers for the ensuing year were elected, as follows:

President—Mrs. E. F. Marshall.
Vice-President—Thomas Germo.
Treasurer—L. C. Simons.
Secretary—Mrs. Thomas Germo.
Chairman program committee—Mrs. H. W. Knox.

English literature will be the topic taken up by the Club during the next few months, and some highly interesting meetings with instructive programs are planned.

The Club members are also arranging for a banquet to be given in in the near future, and intend to keep the good times coming regularly during the summer.

Have Got Enough.

The Thief River papers announce that enough signatures have been secured on their removal petition to make it more than valid, and claim that they will have nearly twenty-five hundred when filing time comes. Of course there is no reason to dispute their word. While twenty-three hundred is a whole lot, and it must have kept Happy busy thinking up so many names, they do say that had he been given four or five more days over in Marshall county he would have easily reached the three thousand mark. Everything is easy—sometimes.

PROCLAMATION.

In accordance with the usual custom, I desire to call attention to the observance of Memorial Day, May 30th. The observance of this day appeals strongly to the patriotism of all true American citizens, I therefore, as mayor of the city of Red Lake Falls, desire that the day be duly observed. The exercises will serve to instill in the minds of the rising generation what sacrifices were made for the sake of the country by the veterans who give their all for its preservation. Now, therefore, I urge that there be general observance of Memorial day, May 30th.

J. A. Duffy,
Mayor,

Monument for Schurz.

German organizations have decided to erect a monument in honor of Carl Schurz in New York and also establish at the new library of the city of New York a Carl Schurz section, where Schurz's writings and all that has been published about his works may be collected.

COUNTY DADS MEET

A Two Days Session Is Held at Auditor's Office Early This Week.

The board of county commissioners held two days session at Auditor O'Brien's office Monday and Tuesday of this week and turned out a bunch of business.

Six or eight petitions for new school districts were presented and hearing was set for next meeting of the board.

Aid from the road and bridge fund was granted in the following amount: Garnes, $150; Mayfield, $100; Polk Center, and Black River $200; Sanders $150; North, $150; Rocksbury, $200; Terrebonne, $50; Red Lake Falls, $350; River Falls, $200.

The extension made on Garnes ditch No. 1 was accepted and the contractor, J. W. Lycnh was ordered paid in full and bondsmen discharged.

A liquor license application was granted to A. Paquin of Lambert.

Auctioneers' licenses were granted to N. O. McKircher, of St. Hilaire, and Joseph Belair of Red Lake Falls.

Several corrections of assessments and abatements were ordered.

The bid of the First State Bank for $10,000 refunding bonds, at 5 per cent; with a premium of $105 was accepted as offered. These bonds were formerly held by the Harris Investment company, of New York, but expired in April.

HURT IN RUNAWAY.

Dan Bray the Victim of a Serious Accident.

Dan Bray had the misfortune to break his left arm in several places and get otherwise cut up and injured, Monday evening by being thrown from a buggy.

He hired a livery rig and was driving about town, and when over on the north side in attempting to turn a sharp corner, the rig struck a telephone pole and tipped the buggy over throwing Bray to the ground and badly injuring him.

He was brought over town and Dr. Wilkinson was summoned. It was found that several bones of the arm were shattered, and one at the elbow joint was broken square off. It was dressed up in good shape and the young man taken to his home, where he is resting as easy as might be expected.

The break was a particularly bad one, and will lay Bray up for several months in all probability.

Will Put Life Into Him.

John W. Gates says an auto is just the thing to put new life into a tired man. There is no doubt that a skillfully-guided machine will make many a weary pedestrian do some astonishing leaps to safety.—Denver Republican.

OPPOSE NEW DITCH

Lambert Farmers Don't Want Judicial Waterway No. 7.

The farmers of Lambert and other towns out east are objecting very strenuously to the building of the proposed new Judicial Ditch No. 7, and at the hearing held at Crookston last week they were down in force to file their objections.

It seems that the new waterway is supposed to drain waste lands in Polk county, and would have for an outlet Lambert ditch No. 1. The Lambert people object to this on the grounds that the old ditch is not large enough to care for the extra water it would thus have to handle, and that to widen it would mean much work, inasmuch as the bridges are already in and would have to be all changed.

The Crookston Times gives the following account of last Saturday's hearing;

About twenty farmers from Chester, Lambert and Hill River arrived in the city Saturday morning, the largest number being from Lambert. The latter came in to protest against the construction of Judicial ditch No. 7, which is now under way. They claim that the ditch will bring too much water from the lands above onto the farm lands of Lambert and will do a great deal of harm to those lands. They were represented by County Attorney Germo of Red Lake Falls. There were a number of farmers from Hill River and Chester also came down to uphold the ditch. A long argument was held in Judge Watts' chambers that morning and it was decided to continue the case until a week from next Saturday. This will give the farmers who are making the protest time to have a complete survey made and they will be able to give more accurate testimony as to the damage if any, that will be done by the ditch. It was evident from the testimony taken that the Lost River into which the ditch will empty will have to be deepened for some distance it order to handle the water of the new ditch.

Insane Man up North.

County Attorney Germo, Judge of Probate Tarrant and Sheriff Nelson were called to Thief River Falls yesterday to examine a settler from the reservation for insanity. He was adjudged insane and taken to Fergus Falls on the evening train. It is said that the fellow was rational up until a week or so ago, when Happy and the Thief River committee got after him to make him sign their petition. He refused to do so at first and it is probable that when he recovers he will wish he had signed, as their eternal persecution caused him to lose his balance.

NEWS OF THE WEEK IN EPITOME

DIGEST OF THE NEWS WORTH TELLING CONDENSED FOR BUSY READERS.

Washington Notes.

The president has appointed Lawrence Y. Sherman of Illinois to succeed G. J. Diekma of Michigan as a member of the Spanish treaty claims commission. Mr. Sherman is now lieutenant governor of Illinois.

That the trade of the United States with Germany and France will probably reach about $700,000,000 in the fiscal year ending June 30 next is predicted in a statement issued by the bureau of statistics in Washington.

People Talked About.

H. S. Fairall, for many years a well known newspaper man in Iowa and Wisconsin, died in Milwaukee after a week's illness.

John Duryea of New York died at Staunton, Va., aged eighty-one years. He had accumulated a fortune in the starch industry.

Edward Kemeys, distinguished as an animal sculptor, died at his home in Washington after a prolonged illness, aged sixty-four years.

Charles H. Kimball, a prominent lawyer, former member of the Kansas legislature and a well known railroad organizer, died at Parsons, Kan.

Brig. Gen. Orlando B. Wilcox, U. S. A., retired, former governor of the national soldiers' home at Washington, died at Coburg, Ont., aged eighty-five.

State Senator Charles N. Hughes of Illinois died at Excelsior Springs, Mo. Senator Hughes was thrown from his horse two weeks ago and sustained the injury which caused his death.

Elias Hartz of Berks county, Pennsylvania, widely known as "the goosebone weather prophet," whose forecasts were religiously believed and looked forward to annually by thousands of people all over the county, died at the Friends' asylum at Philadelphia. He was ninety-two years old.

From Other Shores.

Grand Duke Nicholas was married at Yalta to Princess Anastasia of Montenegro.

Emperor William and Emperor Nicholas have arranged for an early meeting on the Baltic sea.

A decree dissolving the Portuguese chamber of deputies has been published. The date of the new general elections has not yet been detrmined.

At least 100,000 inhabitants of the Midi met at Beziers, France, to protest against the lamentable state into which the wine industry has fallen.

The French academy has awarded Henry Vignaud, secretary of the American embassy at Paris, a prize of $400 for his work on Christopher Columbus.

It is asserted in well informed circles in Brussels that the question of the annexation of the Congo Independent State to Belgium probably will come up in the chamber of deputies within a week.

The British government has acceded to the wish of Australia to rescind her annual contribution of $1,000,000 toward a naval squadron for Australia. The commonwealth will equip and maintain its own navy.

The French bark Martha Roux has been in collision with the German steamer Osiris at Hamburg, and had her plates stove in and rail damaged. The Martha Roux will be surveyed. The damage to the Osiris is believed immaterial.

It is rumored at Melilla, Morocco, that the army of the sultan has won a victory over the forces of the pretender near Marchica. The casualties on both sides are reported to be heavy and the government troops are said to have captured 200 prisoners.

Crimes and Criminals.

Two masked robbers entered a saloon at Saltese, Mont., and after gagging and binding the bartender, robbed the cash register of $100.

B. F. Peter and Cecanus Van Trees, both from Butler, Mo., pleaded guilty in the federal court at Kansas City to violations of the homestead law and were fined $1,000 each.

The mutilated bodies of two men in the Chicago river have furnished the Chicago police with a double murder mystery. The police believe that the men were murdered and their bodies thrown into the river.

Angered because her son-in-law, Frank Albright, had come home drunk and run the family away from home by his violent actions, Mrs. Connelly of Huntsville, Ala., murdered the man as he lay in a drunken stupor on his bed.

W. R. Fulton of Wichita, Kan., who Friday night made an attempt on the life of his former wife, committed suicide early Saturday by shooting himself. His body was found in the railroad yards four blocks from where he attacked Mrs. Fulton and shot her three times. The woman is not dangerously injured.

Unknown persons set off a charge of some high explosive at Ruston, La., under the house of Samuel Cook, a negro, blowing the house to pieces and killing Cook and four other negroes sleeping in a front room. There is no clue to the perpetrators.

Walter Smith, a farmer, died at Iowa City, Iowa. He was struck on the head recently by a policeman's billey while resisting arrest.

A "barn dance" held near Harper, Iowa, resulted in a tragedy, one man being fatally shot and another badly cut about the head. Some young men quarreled regarding the favors of a young woman and a free-for-all fight followed.

Walter F. Copple and wife were murdered on their farm near Rosalie, Neb., and the woman was thrown into the hog pen. The animals devoured her head. Bert Phillips, the hired man, is missing. Copple is supposed to have had $1,000 at home.

Ralph Atkins of Harris, arrested at Menominee, Mich., by Deputy Sheriff Kell on a charge preferred by Miss Nora Carl of Harris, escaped from the officers and after an exciting chase was finally captured in a swamp, where he got stuck in the mud.

Mrs. Jane Frisbie was acquitted in the court of criminal correction in St. Louis of a charge of writing policy tickets on the plea that her husband compelled her to write the tickets, and that when he married her she promised to "love, honor and obey" him. Mrs. Frisbie confessed to writing the tickets. Judge Taylor held that in misdemeanor cases a wife could not be held responsible when acting under command of her husband.

Casualty.

Fire broke out in the Centennial block at Cresco, Iowa, entirely consuming the structure.

Three men were killed by Lake Shore Train No. 10, which hit a handcar about a mile west of the station at Ashtabula, Ohio.

Fire at Mason City, Iowa, destroyed the dressing room of the Wilson theater and for a time endangered the entire block, including two large hotels.

One man was killed, two were seriously injured and a third had a remarkably narrow escape from death when a scaffolding gave way at Detroit.

Earl Hoar, the three-year-old son of Walter K. Hoar of Council Bluffs, Ia., mistaking lye crystals for sugar, ate a quantity of them and probably will not recover.

Frank Husemir, formerly of Menominee, Mich., met death by drowning at Oconto, Wis., while fishing in the Oconto river. His companions in the boat, which capsized, were saved.

The distillery and grist mill of the H. Corby company at Belleville, Ont., were destroyed by fire originating, it is believed, from spontaneous combustion. The loss is placed at $250,000.

North bound Portland Passenger Train No. 12 on the Southern Pacific was run into by two light engines at Copley, Cal. William Jones of Sacramento, a brakeman, was killed. No other was injured.

While its mother was busy with her household affairs the eighteen-months-old son of Clyde Smiley of Atlantic, Iowa, wandered into the barnyard and fell into a tank used for watering the stock and was drowned.

Three hundred people were crushed to the ground by a collapse of the seats in a circus tent at Mount Pleasant, Iowa, and nearly fifty were hurt. Cecil Traut and Miss Alma Lessenger were most seriously injured and may die.

A story has reached Los Angeles of the accidental burning of a stage coach in Death Valley, near Ash Meadows, in which $15,000 in bank bills and $13,000 in registered mail were consumed. The stage is supposed to have caught fire from a cigar which the driver, Ed Love, was smoking.

O number of boys were engaged in digging a tunnel into a sand bank at Guthrie Center, Iowa, when the earth caved in and buried Richard Ellis, aged eighteen years. The other boys made frantic efforts to dig their comrade out, and finally succeeded, but not until he had been smothered.

General.

Smallpox has broken out in numerous places in Southwestern Iowa, and quarantines are being established in different towns.

The Illinois legislature raised the salary of the governor from $6,000 to $12,000. The salaries of the other state officers were increased proportionately.

The steel freight steamer Henry Phipps, 600 feet long, was successfully launched at the yards of the American Shipbuilding company at Bay City, Mich.

The Geary street road at San Francisco has granted the demand of the striking carmen and resumed operations on a basis of $3 for an eight-hour day.

The street car strike which has been in progress at Waterloo, Iowa, more than two months has been amicably settled, both sides having made concessions.

Nearly 2,000 members attended the eleventh annual convention of the National Cotton Manufacturers' association in Philadelphia. "The labor situation is the most important problem," said President Lowe.

After having dissipated $100,000 he had earned as a steeplechaser, Joseph Norris, sixty-five years old, applied at the Chicago police station last night for a night's lodging.

At the commencement exercises in Union Theological seminary in New York, President C. C. Hall announced that an unnamed donor had made a gift of $200,000 to the institution.

A contract for 150,000 tons of steel rails, representing a gross business of close to $5,000,000, for the use of the Harriman lines, has been given to the Tennessee Coal and Iron company.

TWO ARE LYNCHED; FOUR ARE KILLED

NET RESULT OF ATTEMPTED CRIMINAL ASSAULT ON WHITE WOMAN.

REAL BRUTE MAKES ESCAPE

EFFORTS OF POSSE TO CAPTURE HIM RESULTS IN BLOODSHED.

Reidsville, Ga., May 23. — Two negroes lynched and four other persons dead and six injured is the net result of an attempted criminal assault made last night on Mrs. Laura Moore, white, widow, six miles from here, by Flem Padgett, a negro. Two members of the Padgett family are the ones lynched and the death or injury of the others followed the efforts of a posse to capture Padgett.

News of the attempted assault aroused the citizens, who immediately went to the home of the negro's father. He assured the crowd that his son was not in the house and invited the posse to search for themselves.

Four Are Killed.

As they approached the house Flem Padgett fired on the crowd, killing a white man named Hare and wounding four others. The crowd fired a volley into the house, killing the old negro Padgett and two of his daughters and wounding two of his sons, one of whom was Flem Padget, the man wanted.

After the cooler heads had left the scene of the killing, the hot-headed element employed a young man to take Padgett's wife and one of the Padgett boys, who was shot through the lungs, to the Reidsville jail, but later the party followed, took the prisoners from the young man and riddled them with buckshot.

Mob Would Force Jail.

It is stated that a crowd of about 300 started for Reidsville to force the jail and lynch the other Padgett boy, who had been taken there by the deputy sheriff.

It is not believed that this will be accomplished, as Reidsville has a substantial jail and the citizens will not permit such an act. Those involved in the affair are influential citizens. Further trouble is feared.

Flem Padgett, who attempted the assault, and for whom the posse went in pursuit, escaped. He was slightly wounded. One of his brothers was brought here and placed in jail.

REPUDIATE THE IRISH BILL.

Home Rule or Nothing Sentiment of Convention at Dublin.

Dublin, May 23.—The largest, most representative and most harmonious convention which ever assembled in Ireland yesterday repudiated the plan for a limited Irish council, which was all the Liberal government had to offer in fulfillment of its campaign promises. This action killed the hope of any home rule legislation by the pressent parliament, created a serious split in the government's forces and may have far-reaching results.

The temper of the convention was plain from the beginning. No one had a word to offer in behalf of the bill. Home rule or nothing was the unanimous sentiment, and the resolution rejecting the measure proposed by John E. Redmond commanded every vote.

The Irish parliamentarians had been deluged with resolutions from town councils and all sorts of official and unofficial bodies since they arrived in Dublin, all denouncing the bill. The country spoke in an unmistakable voice, and the Irish members of parliament cheerfully acquiesced in its will.

ALL LEADING CEREALS GO UP.

Alarming Reports Concerning Crops Send Prices Skyward.

Chicago, May 23.—The price of all leading cereals advanced sharply on the board of trade because of alarming reports concerning alleged serious damage to the growing crop by drouth, "green bugs' and cold weather. All deliveries of wheat, with the exception of the July option, touched new high record marks. At the close July wheat was up 3 3-4@3 7-8c, September showed a net gain of 4 1-8c and December a gain of 3 7-8c. July closed 1 1-4c higher. Oats were up 1-8c and provisions 15@17 1-2c to 25c higher.

The wheat market opened excited and strong, with prices ranging from 1-4@5-8c to 1 1-8c higher than Monday's final quotations. As trading progressed prices continued to mount higher until all deliveries excepting the July option had sold at a higher price than previously recorded this season.

COAL MAN GOES SCOT FREE.

State Fails to Prove Deliberate Short Weight Sales.

Black River Falls, Wis., May 23. — Much interest was felt here over the trial of B. W. Hicks, charged with selling coal at short weight. Judge O'Neill ruled that the state must prove that Hicks not only gave short weight, but that he knew he was selling at light weight. The state failed to satisfy the jury and Hicks was acquitted.

FIVE BURNED ON LAKE STEAMER

ONE PASSENGER AND FOUR COAL PASSERS LOSE LIVES ON MICHIGAN.

Grand Haven, Mich., May 23.—Five lives were lost and about seventy-five people had a perilously close escape from death when the passenger and freight steamer Naomi burned early yesterday in the middle of Lake Michigan.

Four of the victims were coal passers, penned down in the forecastle by the flames, where many of the rescued passengers from the decks of the freighter Kerr and the steamer Kansas saw them at the portholes vainly imploring for help.

Was Terribly Burned.

J. M. Rhoades of Detroit, a passenger, was the fifth victim. He was terribly burned in his berth and died soon after reaching a hospital at Grand Rapids, Mich.

The steamer was burned to the water's edge and has been towed into this harbor, where she lies a smoldering hulk.

The fire broke out about 1:30 o'clock between decks in the forward end of the steamer. It spread with tremendous rapidity and it was apparent almost from the first that it was vain for the crew to fight the flames. They immediately turned their attention to arousing the passengers and getting them on deck.

Worked Like Heroes.

Headed by Stewart Philip Rossbach and Purser William Hanrahan, the members of the crew worked like heroes to save the sleeping men, women and children.

Capt. Traill sent up signals for help and in a few moments three steamers whose lights could be seen a few miles away came to the rescue. They were the steel freighter Kerr, the Kansas, a sister ship of the Naomi, and the Saxonia.

The Kansas took on board the half-clad and terribly shocked and frightened passengers and brought them to this port. All of them were loud in their praise of the Naomi's crew and their bravery and coolness.

CREMATED BY MOLTEN METAL.

Explosion Occurs in the Furnace of Steel Company at Pittsburg.

Pittsburg, May 23.—Two Americans well known mill men, and three foreigners were cremated and four foreigners were seriously burned last night when an explosion occurred at the Eliza furance of the Jones & Laughlin Steel company, limited, in the Hazelwood district of the city. Of a crew of ten men at the furnace when the accident happened only one, a foreigner, escaped uninjured.

The men were about ready to draw off the molten metal when the ore slipped, falling to the bottom of the furnace. The heavy weight of the ore forced the gas with terrific pressure through the first dust catcher, which was unable to stand the strain and burst, and before the men could escape they were caught by the flames.

SIX WHITE MINERS KILLED.

Heavily Loaded Freight Cars Crash Into Cars Carrying Miners.

Dayton, Tenn., May 23.—While returning to their homes in Dayton from the mines of the Dayton Coal and Iron company, six white miners met death yesterday afternoon and several others were injured.

About 200 men were in coke cars on the short line of the company. Two heavily loaded freight cars that a yardman had been switching got beyond his control and plunged down a thirty-five foot grade into the rear end of the train carrying the miners.

Miners in the rear coke cars saw the runaway cars coming and endeavored to signal the engineer, but he did not understand whether he was wanted to stop or go ahead. At last, noticing the frantic signals of the men behind him, he came to a stop, just as the heavy cars struck his train.

HEGEMAN IS INDICTED.

Grand Jury Finds Ten Bills Against President of Metropolitan.

New York, May 23. — The special grand that has concerned itself with the conduct of the insurance business in New York county has concluded its investigation of the Metropolitan Life Insurance company, and yesterday returned ten indictments against the company's president, John R. Hegeman. Seven of the indictments charge forgery in the third degree, while the other three charge perjury.

WAR IN SALVADOR.

Meager Reports Received of Breaking Out of Revolution.

New Orleans, La., May 23.—A cablegram from President Zelaya of Nicaragua stating that a revolution yesterday broke out in Salvador was received here by the Nicaraguan consul. The cable said that Prudencio Alfarla leads the revolution. It contained no further information.

Mixed Poison Kills.

Charles City, Iowa, May 23.—Fearing that he was about to lose his sanity, Herbert Sanders, a wealthy retired farmer living near here, yesterday committed suicide by taking carbolic acid and paris green.

Pays Heavy Ransom.

Smyrna, Asia Minor, May 23.—Baron von Heemstran, a member of a well known Dutch family, who was captured outside this city May 13, has been released on the payment of a heavy ransom.

POLICE MIXED UP IN GOULD CASE

PLOT AGAINST MRS. GOULD ALLEGED, IN WHICH POLICE ARE INVOLVED.

OFFICER MAKES CLEAN BREAST

ADMITS THAT HE WORKED SEVERAL WEEKS GETTING EVIDENCE IN CASE.

New York, May 25.—There were developments of moment last night in the investigation recently begun by Commissioner Bingham to determine what part was played by certain members of the police department in the domestic troubles of Mr. and Mrs. Howard Gould. In papers served a few days ago upon counsel for her husband, indicating Mrs. Gould's purpose to institute suit for separate maintenance, it was alleged that there had been a conspiracy against the plaintiff in which high officers of the police department were involved.

Makes Clean Breast.

Last night Lieut. William Frank Peabody, who, with Capt. (formerly inspector) William F. McLaughlin, had been frequently mentioned in the case, met by appointment an official high in the police department, and according to the latter made a clean breast of his connection with the Gould affair. A stenographer was present at the interview, the result of which was later made public by the representative of the police department.

Worked on Gould Case.

According to this man Peabody admitted that he had worked for several weeks on the Gould case, not only in this city, but in Washington and Baltimore, and that he sent the telegram to Edward Sholes in this city on March 26, in which a woman named Harriet Londale was reported married to a man named George Dawson.

Commissioner Bingham has sought to determine the author of this message, which it has been intimated grew out of a search of marriage records, through which it was sought to establish that Mrs. Gould, while still Katherine Clemmons, had married one George Dawson.

ABDUCTED AND ABUSED.

Girl Lured From Home by Two Thugs —Sheriff in Search.

Albert Lea, Minn., May 25. — After being lured from her place of work by a note saying her mother was dying, Bertha Tiedman was abducted, bound and outraged by two fellows at some hour between 9 o'clock and midnight. The perpetrators of the crime have not been apprehended. It was 2 o'clock yesterday morning when Miss Tiedman was found by the roadside in the country by a party of young people returning from a dance. She was exhausted, but when taken care of soon revived and will be able to identify her assailants. The sheriff is in pursuit. Arrests are expected soon, as the parties are believed to be residents of this city.

WOULD TRY ANOTHER JAIL.

King, Charged With Bank Wrecking, Asks to Be Transferred.

Sioux Falls, S. D., May 25.—Becoming discouraged over the slim prospect of being able to furnish a bond of $7,500 for his release, Charles C. King, the alleged Scotland bank wrecker, has made formal application to Judge Carland for his transfer to the Yankton county jail.

It is supposed that King desires the transfer for the purpose of being nearer his attorneys, F. D. Wicks of Scotland and W. H. Farnsworth of Sioux City.

BABY FALLS ON STOVE.

Child Overturns High Chair and Is Probably Fatally Burned.

Mason City, Iowa, May 25.—During the absence of its mother from the kitchen the infant child of Mrs. George Elder, which had been left sitting in a high chair beside the stove, managed to overturn the chair, throwing the little fellow onto the hot surface of the stove. The child had fallen face foremost onto the stove and it was terribly burned. It is not likely that it will survive.

HEAD GASHED ON PIANO.

Saloon Row Almost Causes Laborer's Death.

Grand Forks, N. D., May 25.—Gust Hanson, a railroad laborer, nearly bled to death yesterday after being knocked to the floor of an East Grand Forks saloon by a bartender. Hanson's head struck against the sharp corner of a piano and a big artery was severed. A physician arrived just in time to save Hanson's life.

Lightning Causes Loss.

Janesville, Wis., May 25.—Lightning electrical and wind storm, accompanied by torrents of rain, caused a loss of $5,000 at Westby, where a church, a barn and tobacco stripping shed were destroyed by lightning.

Lightning Causes $10,000 Loss.

La Crosse, Wis., May 25.—A severe yesterday destroyed $10,000 worth of property on the McDonald farm, near here, including four blooded horses forty sheep, barns and farm implements.

IS CALLED LIAR, USES FISTS

LIVELY ROW AT MEETING OF PUBLIC UTILITIES COMMITTEE AT FRISCO.

San Francisco, May 25.—At a meeting yesterday afternoon of the public utilities committee of the board of supervisors, called to consider a resolution declaring forefited the franchises of the United Railroads, President Patrick Calhoun of that corporation, was virtually called a liar by F. P. T. Troy, a municipal ownership advocate. Mr. Calhoun's reply was a blow that caught his antagonist in the face and nearly knocked him down. Supervisor Boxton, from the chairman's seat, ordered Troy from the room. Troy's reply was that Boxton had taken bribe money from Calhoun. Boxton threatened to throw Troy out, but others intervened and Troy was forced to take a seat outside of the rail.

The reslution was drawn at the instance of the San Francisco Labor council and yesterday's meeting of the utilities committee was to give opportunity for both sides to present their case.

No action was taken on the resolution, which probably will be brought before the supervisors to-day.

WISCONSIN LEGISLATURE.

Senate Favors Big Park Bill—$1,600,000 Involved.

Madison, Wis., May 24.—The proposition to extend Capitol Park by the addition of six blocks lying between the present park and Lake Monona, as involved in a bill to empower the building commission to acquire this property by condemnation or otherwise and issue mortgage certificates for the purchase price, meets the approval of the joint committee on capitol and grounds, and was reported to the senate.

The bill was referred as a matter of course to the committee on claims, to which all bills carrying appropriations must go. The project would cost some $1,600,000 to execute, but by the plan of mortgage certificates the property could be acquired eventually without cost.

The plan is for the state to acquire the property now, but to rent the buildings for some years, and as fast as the income allows it redeem the mortgage certificates and remove the buildings and complete the park. Thus far there is no formal opposition to the enterprise.

The committee on banks and insurance introduced a bill providing in effect for the destruction of all proxies of policyholders now held by the Wisconsin Life Insurance Company of Madison. The Fairchild bill to appropriate $10,000 to the members of the committees that investigated the university and life insurance companies was advanced without opposition.

The state fire marshal bill was concurred in.

The assembly debated the question of abolishing straight ticket voting at general elections and requiring the voter to make a mark after the name of each candidate for whom he votes. The straight ticket side won, and the Peterson ballot bill was sent back to the committee on election for change, so that the party circle at the top of the column would be preserved.

LOADER CRUSHES MINER.

Man Is Caught in Machinery and Neck Is Broken.

Albia, Iowa, May 25.—Ernest Miller, a miner, was crushed to death yesterday while handling box car loaders. Noticing that one of the clutches which couples the loaders was closed, he reached in to unfasten it. His clothing became entangled and he was drawn in between the loader and the shaft house and horribly mangled. He cried for help, but when taken out was dead, his neck being broken.

Dr. S. H. Ward Quits.

St. Paul, May 25.—Dr. S. H. Ward, secretary of the state live stock sanitary board, has resigned and will be succeeded by Dr. Morton S. Whitcomb of St. Paul. At a meeting of the board Dr. Ward's resignation was received and accepted, although the members of the board were reluctant to dispense with the services of Dr. Ward.

Sawmill Burns Down.

Prentice, Wis., May 25.—The C. F. Stout Lumber company's sawmill at Westboro was destroyed by fire. The loss is $5,000, with no insurance.

Six Killed by Falling Buildings.

Mexico City, May 25.—Six persons have been killed and seven injured in this city within the past twenty-four hours by collapsing buildings.

Troops to Preserve Order.

Pretoria, May 25. — Some imperial troops have been dispatched to Johannesburg in view of possible strike disturbances at the mines.

Syrup Kills Child.

Elk River, Minn., May 25. — The three-year-old son of George W. Youso is dead as the result of eating fermented corn syrup.

Gets $2,250 for Arm.

Winona, Minn., May 25.—Roy A. Anderson secured a verdict in the United States court for $2,250 in a damage suit against the Milwaukee railway for the loss of an arm.

Broods Over Killing.

Des Moines, May 25.—Brooding over the fact that twenty-seven years ago he shot and killed a man in Salt Lake City, Utah, Tom Hughes, a head line setter on the Register and Leader, killed himself by blowing his brains out.

In and About the State

WINNERS WILL GET FINE TRIPS.

Prizes in Butter and Cheese Scoring Contest.

Complying with the general demand among those interested for another butter and cheese scoring contest, E. K. Slater, state dairy and food commissioner, has sent out notices to the butter and cheesemakers of the state announcing the dates of the contest, which begin May 31. A number of prizes have been decided upon, including a first prize in the whole milk butter class of a round trip ticket to New York city.

Under the rules of the contest, butter may be entered under two classes; that made entirely of hand separator cream may be entered in the hand separator class and all other butter must be entered in the whole milk class. Butter after arriving in St. Paul after the date set for its arrival will be given a complimentary scoring only. Inspectors J. C. Joslin and H. T. Sondergaard will score the butter each month and will score separately, the scores being averaged. The cheese contest will be conducted along the same lines as in previous contests, the cheese being scored by Inspector A. W. Parkin and C. C. Emerson of St. Paul.

The dates for the scoring are as follows: First, butter and cheese must reach St. Paul not later than May 31; second, butter and cheese must reach St. Paul not later than June 28; third, butter and cheese must reach St. Paul not later than Aug. 2; fourth, to be held in connection with state fair contest; fifth, butter and cheese must reach St. Paul not later than Oct. 4; sixth, to be held in connecton with the contest conducted by the Minnesota State Butter and Cheesemakers' association.

The winner of the highest average in the whole milk butter class will be presented with a round trip railroad ticket to New York city, with stopover privileges in Chicago. Recipient is to go as Minnesota's champion buttermaker and to make an official report to the department concerning his observations in the butter markets of New York and Chicago.

The winner of the second highest average in this class will be presented with a railroad ticket to Chicago and return.

The winner of the third highest average in this class will be presented with free tuition at the Minnesota dairy school for the 1907 term, such prize to be donated by Prof. T. L. Haecker.

The winner of the highest average in the hand separator class will be presented with a ticket to Chicago and return.

The winner of the second highest average will visit six of the best creameries in the state at the expense of the department for railroad fares, these creameries to be selected by the department.

The winners of the last three mentioned prizes are to make official reports to the department of their observations.

The cheese prizes will be announced later.

Winners of the three highest scores in each class will be presented with diplomas each month.

All those receiving an average score of 92 and above in the whole milk class and those receiving an average score of 90 and above in the hand separator class for the six months will be awarded a diploma approved by the governor of the state and the dairy and food commissioner.

WILL NOT SEND FOR HIM.

State Will Take Care of David if Brought to Minnesota.

Minnesota will not send a man to other countries to bring back insane residents of the state, although it will care for them if they are brought here, says Gov. Johnson in a letter written to the state department at Washington, referring to the case of William David, who is insane in British Columbia. A letter from Robert Bacon, acting secretary of state, was received by the governor, in which he states that he has two telegrams from the consul at Vancouver, B. C., asking what disposal to make of David. David recently went there from Beltrami county, Minn., it is said, and became violently insane.

The state pays for the deportation of non-residents who become public wards, but does not want to pay transportation both ways.

Swindling Farmers.

Winona, Minn., May 23.—Farmers are warned against a barb wire fence swindle, which is being used at the present time by agents. They agree to furnish a good eight-wire fence for 8 cents per foot. When the bill is presented it proves to be 8 cents per foot per wire, or 64 cents in all per foot.

Silver Fox Trapped.

Fosston, Minn., May 23.—The first silver fox trapped in Minnesota for many years was captured recently on the Red Lake reservation. The skin is of good size and quality and at the current rate of quotations probably will bring $200.

Pioneer Lawyer Dead.

Janesville, Wis., May 23.—Cornelius N. Carpenter, a pioneer lawyer and banker of Southern Wisconsin, died at his home in Broadhead yesterday, aged eighty-one.

MAY DESTROY PURE FOOD.

Dairy and Food Commissioner Has Wider Powers.

A synopsis of the food laws recently passed by the legislature is contained in Bulletin No. 25, which the state dairy and food commissioner has sent out. The two most important laws are chapters 384 and 424, the former giving the commissioner authority to destroy unwholesome food wherever it is found, and the latter giving him full authority to prescribe labels. The bulletin says:

"The recent legislature passed several laws and amendments to existing laws which affect the manufacture and sale of foods in this state. The attention of the parties interested is called to the following new laws:

"Chapter 384 gives the commissioner and his employes authority to seize any unwholesome food or dairy products, or in his or their discretion to render the same unsalable for use as food.

"Chapter 424 authorizes the commissioner to formulate rulings requiring certain labels on food products for the purpose of securing uniformity between the food laws of this state and the laws of the federal government.

"Chapter 455 provides for the inspection of canning factories and fixes a grade for 'Minnesota standard' canned goods. It provides that an inspector of the department must be present while the goods are being packed. The expense of such inspection is to be borne by the canner.

Quality of Ice Cream.

"Chapter 124 provides that all ice cream manufactured and sold within the state must contain not less than 12 per cent by weight of butterfat, and must not be colored to make the article appear better than it really is. The use of all injurious ingredients is prohibited in its manufacture.

"Chapter 383 provides for the inspection of concentrated commercial feedstuffs. This is the famous 'stock food bill' which caused so much discussion during its consideration.

"Chapter 421 is the new paint law which requires that the true ingredients of all paints shall be plainly printed on the labels of all paint packages.

"Amendments to the present laws are as follows:

"Chapter 237 prohibits the sale of adulterated spices. Heretofore adulterated spices have been sold when labeled 'mixed and adulterated.'

"Chapter 258 includes among the prohibited ingredients in foodstuffs coal tar dye and saccharin.

"Chapter 337 amends the present milk and cream license law so that parties keeping not more than three cows are exempted from the provisions of the law. Heretofore the exemption has been one cow.

"Chapter 347 reduces the required percentage of acetic in vinegar from 4.5 per cent to 4 per cent. The latter is the standard set by the federal authorities.

"Under chapter 424 rulings will be issued between the label provisions of the state and federal laws. An article labeled to comply with the federal pure food and drugs act should be allowed on sale within the state without further label requirements, provided that it does not contain ingredients specifically prohibited by our state laws. Additional state requirements only tend to confuse the manufacturer and adds to the cost of production which must be borne by the consumer without giving him added protection."

LARGE SUMS FOR DRAINAGE.

Expenditure of $100,000 Authorized by State Commission.

An expenditure of over $100,000 has been authorized by the state drainage commission in aid of overflowed and swamp lands. Part of it is in aid of the counties as provided for in the drainage laws passed at the last session and the balance is for the drainage of lands owned by the state.

In the case of the counties and the reclamation of state swamp lands, both will be supplemented by the usual assessment for private lands benefited which will bring the total expenditure for drainage up to about $300,000. Throughout the state now it is estimated that fully $500,000 is being invested in drainage ditches and overflowed land reclamation.

For the reclamation of state lands the following amounts were set aside:

Roseau county,	$31,033.32.
Kittson county,	$10,000.
Marshall county,	$2,500.
Beltrami county,	$2,143.
Koochiching county,	$15,750.
Itasca county,	$6,000.
St. Louis county,	$10,000.
Aitkin county,	$500.

For aid of these counties now constructing private ditches and which will be paid for by assessment against the lands benefited the following sums were voted:

Aitkin,	$8,000 a year for two years.
Polk,	$3,000.
Norman,	$3,000.
Wilkin, two ditches,	$6,000.
Traverse,	$5,000.
Steele,	$5,000.
Wabasha,	$3,000.
Nicollet,	$7,500.
Todd,	$6,000.
Wadena,	$2,000.

Before making an appropriation it was decided to investigate the proposed drainage of Heron lake and the construction of a cut-off in Stevens county.

WIN FIRST PLACES IN DECLAMATION CONTEST

RUTH HOLCOMB
of Akeley, who is winner in recitation of serious selection in Cass Lake declamation contest.

ROXIE UTLEY
of Cass Lake, who takes first place in recitation of humorous selection in high school contest at Cass Lake.

The declamatory contest between the Grand Rapids, Akeley, Bemidji and Cass Lake high schools took place in the Methodist church at Cass Lake. Each school was represented by two contestants, one of whom recited a serious selection, the other something humorous.

Ruth Holcomb of Akeley secured first place among those who recited serious selections, with Corwin Myers of Park Rapids second. Of those who recited humorous selections, Roxie Utley of Cass Lake received first mention. Frieda Rice of Park Rapids was second.

The judges were W. D. Haradon of Park Rapids, R. F. Pray of Akeley, Prof. L. C. Hefron of Nymore and Rev. H. F. Parshall and H. L. Hartley of Cass Lake. It took them a long time to decide the contest.

Park Rapids, by winning two places won the declamatory banner of North Central Minnesota, and will keep it until in the future some other school succeeds in winning it away by superior work.

A large number of persons from out of town attended the contest. It is likely that the meeting next year will be held at Park Rapids.

The selections recited by the winners of the first and second places were as follows: "Uncle Ben" (Anon), Ruth Holcomb; "Harve Riel" (Browning), Corwin Myers; "A Bear Story" (Riley), Roxie Utley; "Dickey at the Dancing School," Frieda Rice.

NINE SONS IN FARMER'S FAMILY

SONS OF A. T. KJOS OF KENYON, MINN.
Boys in whom their father, a prominent farmer and for several terms commissioner of Goodhue county, takes pride in testimonial of their anti-race suicide views.

CANNOT ESCAPE REGISTRY TAX.

Insurance Companies Are Not Exempt by New Law.

Insurance companies will not escape paying the registy tax on mortgages on real estate in this state. The attorney general's department gives the opinion that the provision which was supposed to exempt insurance companies from paying the tax cannot be construed in that way, but holds that the insurance companies will have to pay the tax when filing mortgages. The law exempts mortgages taken by persons or corporations which pay a commuted tax in lieu of all other taxes, but as the 2 per cent tax which the insurance companies pay is not in lieu of all other taxes the provision does not apply to them.

Royal A. Stone, assistant attorney general, who writes the opinion, says in a letter addressed to the public examiner:

"I have before me three inquiries from as many county attorneys as to the operation of the mortgage registry tax law (chapter 328, General Laws, 1907) upon mortgages executed on or after May 1, and running either to domestic or foreign insurance companies. Inasmuch as this question is continually arising and is one of importance, I take the liberty of addressing this letter to you so that the question may be settled so far as the state officials are concerned, and in so far as this office can settle it.

"If mortgages running to insurance companies are exempted from the tax it is by virtue of the concluding provision of section 3 of the act, which is as follows:

"'Provided, that this act shall not apply to mortgages taken in good faith by the persons or corporations whose personal property is expressly exempted from taxation by the law, or is taxed upon the basis of gross earnings, or other methods of commutation in lieu of all other taxes.'

"Inasmuch as the personal property of insurance companies is not exempted from taxation by law, and because such companies are not taxed by any commuted method 'in lieu of other taxes,' they are not exempted from the registry tax by the above provision.

"Section 1625, Revised Laws of 1905, does not provide for an exemption of the personal property of insurance companies from taxation. It does, however, impose a 2 per cent premium tax, which, in the case of domestic companies, is in lieu of taxes on personal property. That is, the personal property only of the domestic companies is taxed upon the commuted basis. Both the real and the personal property of foreign companies is subject to taxation in the ordinary manner.

"There is, therefore, neither an exemption of their personal property from taxation nor a commuted system of taxation 'in lieu of all other taxes' which can exempt mortgages running to insurance companies from the registry tax."

FARMERS IN TROUBLE.

Homestead Lands May Be Taken by Eviction Proceedings.

Itasca county is about to bring to the attention of the state authorities the plight of about thirty or more settlers who are in danger of losing their homes because of threatening eviction.

These settlers took up claims under the government homestead law and improved them, but now face ejectment as a result of a claim by the State of Minnesata that they are swamp lands, and are therefore set aside for the benefit of the school fund. The national government, it is understood, is about ready to acknowledge its mistake, and as a result the settlers will lose their holdings.

Some of the claims were taken up years ago and those on them have made rather extensive improvements. One farmer is said to have erected buildings that represent an investment of nearly $5,000.

Comes in Handy.

"I see where an Eastern poet scribbled his spring verses on his cuffs, and then sent them to an editor," remarked the chronic loafer in the editorial sanctum.

"That so?" replied the editor of the Wild Cat Beason. "Then I reckon we better encourage poetry. I haven't had a pair of cuffs for a year."

DE LAITTE LAW CASE.

Increase of $25,000 in Assessment Is Fought in Court.

Aitkin, Minn., May 17. — The spring term of court opened here yesterday, Judge McClennahan presiding. There are about forty civil cases on the docket, the most interesting one being the De Laitte tax case. The board of county commissioners, acting as county board of review, raised his assessment $25,000 over the assessor's figures.

KILL; PUT BODY ON RAILS.

Murder Evidence Is Found on Corpse of Man Hit by Train.

Perry, Iowa, May 17.—The body of an unidentified man was found in the ditch alongside the Milwaukee tracks near here. The man's head was gashed and the body gave evidence of having been hit by a train. Other wounds on the body, however, indicate that the man may have been foully dealt with and the body placed on the track to conceal the crime.

In Minnesota

State News of the Week Briefly Told

Burglars blew two safes in Kolseth & Anderson's general store at Cloquet, obtaining about $40.

: : : :

John Garrigan, the Red Lake line engineer, who was badly scalded in the derailment of his engine, died of his injuries at Bemidji.

The grand jury at Faribault has returned four indictments against A. W. Norton of Northfield, for his connection with the failure of the Nerstrand bank. Mr. Norton is now serving a term at Stillwater, having been sent up in November last.

FIGHT OVER NEW COUNTY.

Koochiching Case Is Argued in Supreme Court.

The question of the legality of the proceedings for the establishment of Koochiching county was argued in the supreme court. The case involves the question whether the new code or the old statutes should govern, the petitions having been submitted before the code went into effect, although the governor's proclamation was made afterward.

The case also involves some legal questions, especially the question whether a writ of quo warranto will stand when the attorney general, as the representative of the state, is not a party to the proceedings. This question, it seems, has never been passed upon. The case was started by F. E. Reusswig against the board of county commissioners of Koochiching county. The relator requested the attorney general to become a party to the suit, but he refused to do, so as he had previously ruled that the proceedings were legal.

George Spear argued the case for the relator and A. A. Tone and McCarthy & Stanton for the defendants.

When the petition asking for the creation of Koochiching county was filed with the governor last year petitions praying for the division of Itasca county on different lines also were filed, one asking for a county to be called Forest and another making three new counties out of the old county. They were all filed prior to the date when the code went into effect, but no action was taken, nor was it possible to vote upon either until after March 1, when the new code took effect.

Under the old law all the petitions which were in proper form had to be submitted at once, while under the new law only one petition could be submitted. The governor, upon the advice of the attorney general, proclaimed an election to vote upon the Koochiching petition, and it carried. The contention of the relator is that the new law affected only petitions filed after it went into effect, that the petitions which were pending March 1 should all have been voted on at once and that the governor had no right to select one and thereby kill the others.

MAY QUIT LIVE STOCK BOARD.

Dr. S. H. Ward, Secretary and Executive Agent, May Resign.

The resignation of S. H. Ward, secretary and executive agent of the live stock sanitary board, is contemplated and will probably be acted upon at the meeting of the board next week.

Dr. Ward wants to go back to Canada, his former home. He has been holding the position on the board at a pecuniary sacrifice for some time and has come to the conclusion that it will be better for him to return to the practice of his profession.

Rumors of the resignation became current a couple of days ago when it was reported that Dr. S. F. Foster of Huron, S. D., had been offered the position. Dr. Ward at the time denied the rumor and said there was nothing to it. But recently members of the board who were in St. Paul said that Dr. Ward was contemplating resigning. They hoped that they could persuade him to stay, as they considered him a very valuable man. The position at present pays $2,400.

NEARLY ALL PLASTER.

Stuff Sold as Cream of Tartar Is Bad Mixture.

"Cream of tartar," composed largely of plaster, is one of the latest discoveries of the state dairy and food department. A sample of cream of tartar that looked suspicious was recently picked up by one of the department inspectors at Danvers, in Swift county. The sample was sent to the state chemist and he reported that it "contains little cream of tartar and is composed mostly of plaster." The card gives the name of the manufacturer as unknown, but John McCabe, the assistant commissioner, says that the department will go after the retailer and reach the manufacturer or jobber through him.

Inspector J. G. Fowler reported some large seizures of box car goods at Harmony. Short weight was the charge against the goods. He says that there is lots of this stuff peddled out through the southern part of the state.

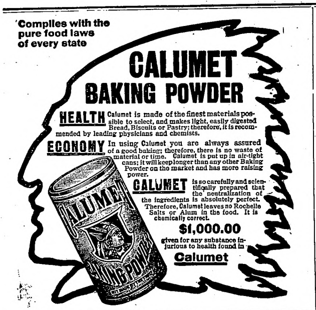
Dead by the Track.

Winona, Minn., May 22. — William Shearn was found dead beside the Burlington track, he having apparently been run down and killed by a train in the night.

Plans are being made for the convention of the Red River Valley Old Settlers' association, which will take place in Crookston some time in July, the exact date to be set at a meeting which will be held by the Polk county auxiliary of the organization next week. The old settlers' organization was effected in 1879, and it now numbers hundreds of members throughout the valley. It is necessary to have been a resident of the valley prior to Jan. 1, 1881, to be eligible to membership. William Anglin of Crookston is the president of the organization.

One Family—Twenty-Nine Medals.

A unique record for regular school attendance has been established by a family named Redhead, residing at Northampton, England, five of the children having earned 29 medals.



'Complies with the pure food laws of every state

CALUMET BAKING POWDER

HEALTH Calumet is made of the finest materials possible to select, and makes light, easily digested Bread, Biscuits or Pastry; therefore, it is recommended by leading physicians and chemists.

ECONOMY In using Calumet you are always assured of a good baking; therefore, there is no waste of material or time. Calumet is put up in air-tight cans; it will keep longer than any other Baking Powder on the market and has more raising power.

CALUMET is so carefully and scientifically prepared that the neutralization of the ingredients is absolutely perfect. Therefore, Calumet leaves no Rochelle Salts or Alum in the food. It is chemically correct.

$1,000.00 given for any substance injurious to health found in Calumet

OUR HEROES SLEEP.

"Sleep soldiers: still in honored rest
Your truth and valor wearing:
The bravest are the tenderest.
The loving are the daring."

In shadows created by divine omnipotence and in the silence and stillness of peaceful nature like unto the silence of eternal space, the people of this country gather today in devout reverence. and raise their voices over the peaceful ashes of our slumbering heroes, of our fallen soldiers, of our loyal dead, who lie buried from corner to corner of this great nation.

Let us hope that our voices may not disturb their peaceful slumber, and that nothing may be done on this most sacred day, to disturb our thoughts from the purposes of the hour.

The past like a sad sorrowful dream comes back to us, and we once again see all the dead whose resting places we now strew with beautiful flowers, parting with those they love to do battle for right.

We see the pale cheeks, and the trembling lips, and the tearful eyes, and the quivering forms of loving women, and we see the stern, anxious faces of determined men, and we hear the tremulous beatings of the throbbing hearts of both.

Some are walking in quite places with maidens whom they love, others are kissing tender babes nestling in their little cradles, others still are receiving final benediction of anxious mothers, expressed in silence and in bitter tears, and each and all are vainly striving to drive back the awful fear that forces itself upon them, that this parting, the first to many, is to be the last to all.

They go from their homes in the great bright cities, on the broad treeless prairies, and in the beautiful vine clad forests, they part with weeping lovers, wives. and others, and at the last turn in the old road they look back for the last time and see an uplifted hand, a waving handkerchief, and they are gone forever.

Now they are proudly marching under bold battle-flags, presented by loving hands and loyal hearts, keeping time to the enthusing and stimulating music of war, ready and willing to fight and to die for what they know to be right in that struggle for national life.

Now we see them upon the picket line in the furious storm, or under beautiful canopy of a starlit heaven with no communicant save their own memories of loved ones left behind.

And now we hear the roar, and the shriek, and the hiss of the bursting shell, the whirling grape and cannister, and the deadly bullet.

We see them in the stormy whirlwind of the reckless charge, pierced by ball and torn by shell, falling in the field between friend and foe. lying among the burnt and withered and trodden leaves, burned and withered by the hot and scorching blast from the cannon's mouth, and trodden by the crazed and furious charger, goaded to desperation by his maddened rider, they lie there bathing all of these with their life blood, wild with thirst, and crazy with pain, stubbornly refusing to utter a groan, always under the control of the same heroic stoicism which resulted in their being there. Men of iron with nerves of steel will yield their lives but not their fortitude.

Life is beautiful beyond the power of human tongue to express, and while life's pathway may be a never ending pathway strewn with beautiful flowers. dearer than such life as this to those heroic men, was that love of country, love of liberty, and of a national honor. that makes it possible for nations to live.

But for all the weary years since those lives were surrendered up for our country's sake, all over this country, upon the hillsides of old Vermont, and the never ending plains of historic Kansas, upon the rocky shores of Massachussets, and from corner to corner of old Minnesota, the beautiful grasses along a thousand pathways leading from church to cemetery have been washed by mothers' and widows' tears.

Again we see them on the weary march, over scorching hills, winding through the never ending canyons, crossing the dismal and miasmatic swamps, trudging, trudging, ever trudging. Oh! how weary and oh! how worn, with aching heads and weary limbs, failing by the wayside food for vultures and wolves. We open the door of southern prisons we shade our eyes and gaze into the gloomy darkness, and we scarcely comprehend what we see, but we slowly realize that we see them there, wasted in body even to the form of a veritable skeleton, wild of eyes, almost demoniac of expression, weak, childlike, and puerile of speech no more or no longer an animate, conscious, rational, thinking human being. but almost imbecile, made so by suffering of body and of mind which can never be told or comprehended this side of the grave, once proud of spirit, firm of step, conscious of great strength and endurance, firm, brave, loyal, kind; loving, good, pleasing to look upon, to know and to love, now wasted, with nothing left but a living burning, God given soul, hastening on to certain death.

Almost forty-five years have passed and gone since that black cloud of war was driven from our country's skies, forty five years of peace and plenty, and of national prosperity, forty-five years since the last prison door was thrown back upon its hinges, and peace was declared throughout all the land and yet the spirit is with us today, in all its strength and vigor, which leads us to do honor to these, our soldiers dead.

And thus we cultivate in the youth of our country and keep alive in all the people a spirit of patriotism, which makes a republic strong and which is the very foundation of a nation's strength. Patriotism, a thing of life and beauty, a living animate spirit, lifting one up, and leading him on to greater and to better things. It is with us everywhere, it is born and thrives on the broad prairies where the soft breezes blow and the clear waters run, where the green grasses and the crimson flowers lie mirrored in the deep blue of the beautiful heavens, on the grand mountain sides, down in the beautiful valleys, upon the peaceful river's breast, in the great halls of instructions where science and art are taught, studied and learned, in the houses of worship where hope and mercy and human sympathy have an abiding place, where the souls of men are opened to the holy truth, and divine goodness is made known to the wayward humanity.

It is born and thrives in the breast of the sturdy woodman as he fells the mighty oak; in the heart of the peaceful tiller of the soil, as he turns the furrow, garners the sheaf, gathers the grasses from the meadow, and feeds the lowing kine, and it may well and easily be planted and cultivated in the palpitating heart of the schoolboy, as he bends to his daily task under the waiving flag of of the only true republic on earth and as well also in the sanctuary where is taught the holy precept "Peace on earth, good will to men".

In such places as these it may be planted and nourished, and it gains its rarest perfection, and there and everywhere it whispers to the sighing breezes and to the laughing waters, to the turbulent ocean and to the volcanic mountains, and it speaks in a thousand voices of listeners that it is glorious to live and to die for one's country.

Those whom we honor today are dead; they died for their country, for the national honor, for you and for all.

They sleep on beautiful hillsides and along the shady slopes, and in the warm valleys of that country, and among those people which they made free.

They sleep under a stainless flag, covered and protected by the limitless canopy of God's universe, under the shadows of fleeting clouds, and they are in sweet repose, and at complete rest.

We face the storm of public strife, the earth may see here and there bitter strife and cruel bloodshed, endless cycles of time may come and go, people and nations may disappear from the face of the earth, but our soldier heroes are at peace, and in quiet and everlasting sleep, not today, not tomorrow, but forever, and forever.

"God giveth his beloved sleep."

'Let them sleep, let them sleep on,
Till the stormy night be gone,
And the eternal morrow dawn:
Then the curtains will be drawn,
And they wake into that light,
Whose day shall never die in night."

That hacking cough continues
Because your system is exhausted and
your powers of resistance weakened.
Take *Scott's Emulsion.*
It builds up and strengthens your entire system.
It contains Cod Liver Oil and Hypophosphites so
prepared that it is easy to take and easy to digest.
ALL DRUGGISTS: 50c. AND $1.00

THE Mankato Journal asks what effect dollar wheat will have on breakfast food manufactured from that cereal? Breakfast food from wheat? We had always entertained the belief that breakfast food was made from denatured sawdust. But then it's never too late to learn, says the Princeton Union.

SONS and daughters of Norway residing in the northwest propose to raise a fund of one million dollars to be expended in beautifying and improving the hills and vales of the dear old motherland, on the occasion of the hundreth anniversary of Norwegian independence three years hence. Love of their native land is a commendable trait of character in sturdy Norwegians. A man is none the less a good American citizen who cherishes an affection for the land that gave him birth.

All Alike.

"It is quite truly said," remarked the man who was fond of quoting ancient things, "that fire is a good servant, but a bad master."

"And so is water," returned the thin little man.

"And," chimed in the quiet man, "so is firewater."

Corn Planter Bargain

I have on hand a brand new No. 8 Deere Corn Planter, complete with check-rower and wire, which I will sell at less than cost.

WM. FINDEISEN.

CLEAN UP NOTICE

Notice is hereby given to the people of Red Lake Falls to clean up.

All manner of rubbish to be hauled to the city dumping grounds, at the old saw-mill site. All dead animals to be buried on the dumping grounds must be buried deep enough to prevent their being eaten up by dogs.

Everything should be cleaned up by June 1st, and the city given a clean appearance at the tournament.

J. C. Wilkinson,
Health Officer.

An Ingenious Beacon.

This beacon is located at Arnish Rock, Stonoway Bay, in the Hebrides, Scotland. It is a cone of cast iron plates, surmounted by an arrangement of prisms and a mirror which reflects the light from the lighthouse on Lewis Island, 500 feet distant across the channel. Lest you forget we wish to remind you that golden grain belt beer is the ideal table beverage. It will strengthen the weak build up the run down and cheer the depressed, Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

Youngest General in the World.

Probably the youngest general in the world is a nephew of the late Shah of Persia, a boy not yet fourteen years old. He holds the rank of full general in the Persian army.

The Soldier's Wedding.

Among the many good stories in Sir Evelyn Wood's autobiography is one concerning Gen. Sir Alfred Horsford, who believed in a celibate army. When in command of a battalion of the Rifle brigade, a soldier sought his permission to marry, as he had two good conduct badges and £5 in the savings bank.

"Well, go away," said Sir Alfred, "and if you come back this day year in the same mind you shall marry. I'll keep the vacancy."

On the anniversary the soldier repeated his request.

"But do you really, after a year, want to marry?"

"Yes, sir; very much."

"Sergeant major, take his name down. Yes, you may marry. I never believed there was so much constancy in man or woman. Right face; quick march!"

As the man left the room, turning his head, he said: "Thank you, sir; but it isn't the same woman."

An Embarrassing Gift.

Dr. W. G. Grace, the famous English cricketer, has been the recipient of many gifts from lovers of cricket as tangible proofs of their admiration of his prowess. Some of them have been remarkable in character, but perhaps the most embarrassing gift he ever received was one of three young pigs which a Worcestershire farmer sent to him in recognition of a great batting feat which he had witnessed.

One Point Settled Long Ago.

In view of the impending trouble in Europe the people of this country may well congratulate themselves that the fathers settled the relations of church and state at the very beginning of our existence as a nation, and settled it for all-time, for no one wishes to interfere with the conclusion arrived at.

Horses Still Have Their Day.

The number of horses is steadily increasing in England notwithstanding the multiplication of motor cars.

Many people still entertain the idea that because some cigars are made in the eastern cities they are better than . . . .

"B. B." CIGARS

This is clearly wrong. The money spent in selling the foreign article goes into QUALITY in the home brands. Try them and see . . . .

Mrs. J. B. O'Brien visited with her St. Hilaire friends between trains Saturday.

James Egan returned home yesterday from a several days' sojourn at points in North Dakota.

Mrs. J. E. Argue went to Duluth last Friday evening to spend a week or so with friends there.

S. A. Swanson returned home Saturday from Minneapolis, where he had spent the past month.

Mrs. C. N. Bourdon returned home Monday from a several days visit with Crookston relatives.

H. H. Zaiser and Verne Healy attended the club dance at Thief River Falls las. Friday evening.

Mr. and Mrs. Omer Hall spent Sunday at Crookston, guests at the home of Mr. and Mrs Sylvan Hall.

W. B. Fuller was down from Thief River Falls over last Friday night, looking up some matters at the court house.

Miss Laura Lizee came over from Crookston Saturday and is spending the week with her parents and friends here.

Henry J. Enderle and Jack Pahlen drove over from Plummer Sunday to take in the ball game on the local diamond.

Miss Wanda Gaass left Tuesday evening for Oskaloosa, Iowa. where she will spend the summer with her grandparents.

Mrs. Fred L. Farley and children left last night for Stewartville, where they will visit with relatives for the next few weeks.

Mrs. W. A. Schreiter went up to Thief River Falls yesterday for a few days' visit with her sister, Mrs. Carl Kretzschmar.

J. A. Pokezwinski returned home Saturday morning from Moorhead, where he was called last week as a witness in a lawsuit.

Mrs. Theo. LaBissoniere went down to Crookston last evening to spend Memorial Day with her parents, Mr. and Mrs. P. H. Martin.

J. B. Armstrong went down to St. Paul Sunday via Plummer and the Soo, and spent a couple of days there attending business matters.

Mrs. Arthur Zaiser went over to Crookston last evening and will spend Sunday at her home there. Art expects to go down Saturday night.

County Superintendent H. T. McAnulty went to Thief River Falls Tuesday morning to spend a few days attending to school matters in that neighborhood.

County Surveyor J. K. Wood came down from Thief River Falls Monday evening, and will spend most of the week here. He has considerable work to do in this neighborhood.

L. C. Simons returned home yesterday from a week's visit to the cities and Granite Falls. Mrs. Simons and children remained at Granite Falls for a longer visit.

Editor Harry E. Ives and wife, of St. Hilaire, and Mr. and Mrs. James H. Cross, of Grand Forks, spent Sunday in the city, guests at the home of Mr. and Mrs. P. E. Pirath.

S. M. Sivertson and J. J. Padden of the Red Lake Falls Milling company, spent last Saturday at Bemidji, where they looked after some business concerning the local plant.

Eli Lasha has finished plastering the George F. Hennings residence property on the North Side. Eli is one of the best "lime slingers" in the business, and his work always speaks for itself.

School will close tomorrow for the summer vacation of three months. The present week has been devoted to examinations, and the scholars have been busy getting their final work finished up.

Fred Richards came in from Dorothy Sunday and officiated as "his umps" in the ball game played here that day. Fred will finish his school work this week, and will return here to spend the summer.

E. G. Storaasli came up from Minneapolis yesterday and spent the day looking after business matters. Mr. Storaasli has a lucrative position at Minneapolis and reports himself as well pleased with his work.

Conrad Lajambe leaves this week for Norman county, where he has a big piece of ditch contract work to do. He will put several men and teams at work on the job, and expects to rush it through very fast from now on.

Olof Tande, A. J. Hemstad, P. S. Medchill, Sam Lovass and several other prominent Garnet and Emardville farmers spent Monday in the city, appearing before the board of county commissioners regarding a new bridge over the Clearwater out their way.

Quite a number of people from town attended the auction sale at the Jacobson farm Tuesday. The sale was largely attended, and everything brought a satisfactory price. Mr. Jacobson expects to leave shortly for his old home at Marshall, Lyon county.

J Drew Marshall left Friday evening last for St. Paul, after spending a couple of weeks with his mother and many friends here. Drew leaves this week for Friend, Nebraska, where the electrical concern he is employed with will install a complete light plant He expects to be down there most of the summer.

A handsome new baby girl was born to Mr. and Mrs. S. L. Lewis last Friday morning, and was given a hearty welcome. The young lady is of standard weight, hale and hearty, and the many friends of her happy parents will join THE COURIER in the wish that she may live long as a blessing and comfort to the Lewis home.

Damon's colored musical company of twelve artists will appear at the Metropolitan opera house for one night, Tuesday, June 4. This company comes recommended as one of the cleverest in the business and are drawing big crowds wherever they show.

John Patnode, a twenty-two year old son of Mr. and Mrs. Marcel Patnode, of Louisville died at the family home Monday after a lingering illness with consumption. The funeral was held from St. Joseph's church here Tuesday, the remains being interred in the cemetery east of town.

Joseph Prudhomme will hold a public sale at his farm in Lake Pleasant on Monday June 3, and will offer an exceptional list of live stock and farm machinery. Mr. Prudhomme has a large amount of stock to sell and this sale will be one of the biggest ever held in the county. See bills for particulars.

The infant son of Mr. and Mrs. Frank Brouillet has been very ill with an attack of lung fever, and for several days it was feared that he could not survive the attack. However, he is reported as much better at the present writing, and hopes are now held out that he will completely recover.

Attorney Charles E. Boughton went down to Ada last Thursday evening, where he had a case before the session of the District Court held there last week. From there he went on to Minneapolis and spent Saturday in the mill city attending to some business matters. He returned home Monday.

The first open air concert of the season was given by the local band organization Tuesday evening, and a big crowd turned out to hear the music. The program was quite short but was good from start to finish and was appreciated by those present. These concerts will be regular features during the hot weather months.

Frank Brouillet returned home Tuesday from Rochester, where he has been in the hospital for the past several weeks. While there he submitted to an operation for the removal of a growth on his lip, and while he is not entirely well, he found great relief and will shortly be o. k. again.

Thief River Press: H. Fant has incorporated his telephone exchange, the change to take effect June 1 t. This was the announcement made by Mr. Fant on Monday afternoon before leaving for Grand Forks. The incorporators, as given out, are H. Fant, Daniel Shaw, Olof Ramsted and Andrew Stenseth. The capitalization of the new company is placed at $50,000.

State Librarian John E. King, of this city, is in the south and east on an extended trip. Last week he attended the national congress of librarians at Ashville, North Carolina, and from there he proceeded to Washington, New York and other eastern cities. He expects to be away until about June 10, and from all reports is enjoying himself immensely.

The program given by Damon's colored minstrels is varied and contains many interesting numbers. The great A. M. Damon, violin, cello, mandolin, harp, banjo, pipe organ and piano soloist, is supported by a company of artists seldom got together, and they present entertainment that is in every respect high class and worthy of the public's patronage. They will appear at the Metropolitan opera house Tuesday evening, June 4.

About thirty Thief Riverites, aside from the ball team, spent Sunday here to watch their home boys get beat on the local diamond. The game was close enough, however, so that the up-river crowd got a good chance to exercise their lung power, and they returned come feeling well pleased with their trip—though of course they would liked to have had the result the other way.

Joseph Grandbois, an old and highly respected resident of southern Red Lake county, died Tuesday at the city hotpital, after an illness of several months duration. Deceased was 87 years of age and had lived in this neighborhood for a long time. One son, Treffle Grandbois resides in Gervais, and several other relations live in the neighborhood. The funeral was held from from St. Joseph's church yesterday interment being made in the cemetery east of town.

Freund's oschestra went went up to Thief River Falls Friday evening to furnish music for the big dance at the Antlers' Club there. The trip was made on a handcar and great difficulty was had making headway, owing to the heavy wind. One or two of the members got a plenty on the up trip and remained until the following day. Sheriff Nelson accompanied the boys back and they are telling that Lew's farm experience is what saved the day.

Thief River News: Sheriff Nelson was up from Red Lake Falls last Saturday. A law passed by the late state legislature places all sheriffs in counties having a population of less than 35,000 upon a salary basis. The Red Lake county sheriff receives $1000 a year in the future for doing all county work. Mr. Nelson states that this is more than he received formerly for this work and as he will continue to be paid as before for all civil work, the salary of the sheriff will be in the neighborhood of $2,500 in the future. There is no one we are more willing to see draw this sum than Mr. Nelson.

THE COURIER this week issued the commencement programs and invitations for the senior class of the Red Lake Falls high school, and aside from this turned out a bunch of other job work for local people who appreciate the best work. On this account, and from the fact that Memorial Day occurs on Thursday and the paper is printed earlier than usual this week, it is hoped that the readers will overlook any shortcomings in the news line in today's paper. Additional help has been secured for the future, and THE COURIER will try and strike a newspaper gait henceforth that will please the most particular.

Notice,

Anyone having a room or rooms to let during the tournament week are requested to report the same to Mayor Duffy or G. F. Hennings at once.

Dr. Spofford makes his next regular visit to Red Lake Falls June 7. At Grand View hotel. Remember the date if your eyes trouble you.

Let me send you free, for Catarrh, just to prove merit, a trial size Box of Dr. Shoop's Catarrh Remedy. It is a snow white creamy, healing antiseptic balm. Containing such healing ingredients as Oil Eucaliptus, Thymol, Menthol, etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by all dealers.

Mesdames Tracy, Wilkinson and Gaass entertained a party of ladies at the K. of P. hall yesterday afternoon in a charming manner. Two amusing and entertaining contests furnished the diversion. The first was a guessing contest in which answers to some thirteen questions were to be made by naming a cloth. At this Mrs. R. H. Bourdon was the winner of first honors, and received a handsome prize. The second contest was a unique one and furnished great amusement. A bottle was passed around and the guests were allowed to smell of it, look at it and handle it. After all had seen it they were asked to cut large corks down to fit it, and much amusement was furnished. Mrs. Wm. Harlow was the prize winner having been lucky on the draw when several were tied. Elaborate refreshments were served at five thirty, during which time the orchestra discoursed sweet music. The affair was one of the most enjoyable of the season, and the hostesses were complimented for their excellent judgment as entertainers.

For Sale

Wishing to retire from business, I offer my restaurant, lunch room and confectionery at a very reasonable price. Small payment down and balance on easy terms. For particulars, etc., call on Mrs. M. R. Hall, Red Lake Falls. 2w.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, the Heart, or The Kidneys. Address me, Dr. Dr. Shoop, Racine, Wis. Troubles of the stomach, heart or, kidneys are merely symptoms of deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means stomack weakness always. And the heart and kidndys as well, have their controllin or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, uss Dr. Shoop's Restorative. Write for my free book now Dr. Shoop's Restorative sold by all dealers.

HER FIRST BANK BOOK.

How She Escaped Drawing Checks for Odd Cents.

She was very proud of her first bank book, and determined to make none of the silly mistakes she had read about in the joke columns of newspapers. There was no danger of overdrawing her account, says the New York Sun. Every check was duly recorded on the stub, and every four checks a balance was correctly struck.

"But how is it?" asked the man one day when looking over her book; "how is it that your checks always come out in even dollars? Do you ever have a sum like $5.11 to pay?"

"Yes, often; but I have a famous scheme," she explained gleefully. "It's such a bother to add up the cents that I just make the check out for $5 and send the 11 cents in postage stamps."

Inhospitable Trees.

Some trees are much more unfavorable to the growth of plants beneath them than are others. The worst are the yew and the ash.

WANTED

Information regarding good farm that is for sale and which can be bought of owner. NO AGENTS NEED ANSWER. WORN TO A SKELETON.

A Wonderful Restoration Caused a Sensation in a Pennsylvania. Town.

Mrs. Charles N. Preston, of Elkland, Pa., says: "Three years ago I found that my housework was becoming a burden. I tired easily, had no ambition and was fading fast. My complexion got yellow and I lost over 50 pounds. My thirst was terrible, and there was sugar in the kidney secretions. My doctor kept me on a strict diet, but as his medicine was not helping me, I began using Doan's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A QUEER SCRAPBOOK.

If You've Had Appendicitis Perhaps You Are in It.

Probably the oddest scrapbook in New England is that of William F. Fernald of Old Orchard, Me.

It is devoted exclusively to newspaper notices of appendicitis cases. Mr. Fernald figured in an operation himself and it was a fellow feeling for the rest of the appendicitis legion which made him commence to collect clippings.

"A while ago," he said to a Boston Herald man, "I talked of organizing an appendicitis club in Maine, its members to be composed of persons who have been under the knife. A number of persons to whom I mentioned the project approved, but I didn't get around to carrying it into execution. I think I shall revive the scheme."

ITCHING RASH 18 YEARS.

Girl's Rash Spread and Grew Worse Under Specialist's Care—Perfect Cure by Cuticura Remedies.

"When my daughter was a baby she had a breaking out behind the ears. The doctor said that she would outgrow it, and it did get somewhat better until she was about fifteen years old, and after that she could get nothing that would drive it away. She was always applying something in the way of salves. It troubled her behind the knees, opposite the elbows, back of the neck and ears, under the chin, and then it got on the face. That was about three years ago. She took treatment with a specialist and seemed to get worse all the time. We were then advised to try the Cuticura Remedies, and now I don't see any breaking out. M. Curley, 11-19 Sixteenth St., Bay City, Mich., May 20, 1906."

CATASTROPHE IN A CHURCH.

Woman in Mourning Loses Her Hat, With Awful Consequences.

"The most embarrassing thing that ever happened to me," said Mrs. Peters when the Ibsen club was exchanging harrowing experiences, "happened, of course, in church while I was wearing black for my father-in-law. I was leaning forward during prayer one morning when my new heavily trimmed hat fell off, dropped to the floor of the pew ahead and rolled out of sight.

"Fortunately, I had an umbrella. Getting down as flat as I could, I reached under the next pew, reached out with the umbrella handle and fished about for my hat. When my hand finally touched it I knelt in my place, closed my eyes—I suppose I reasoned as an ostrich does, that if I could see nobody, nobody could see me—and tried to look as devout as if my mind had never been off the service.

"With my eyes still devoutly closed I pinned that wretched hat in place, using a hairpin because the hatpin was missing, and feeling quite proud of myself to think that I had managed the affair so well.

"When we stood up for the last hymn I suddenly became conscious that all the women in the congregation were staring at me and trying hard not to smile. The moment I got outside I took that hat off and looked at it. My dears, it wasn't my hat at all. I had helped myself to little Flossie Slocum's bright red sunshade, trimmed with infantile white daisies—and me in black!"—Youth's Companion.

FIT THE GROCER

Wife Made the Suggestion.

A grocer has excellent opportunity to know the effects of special foods on his customers. A Cleveland grocer has a long list of customers that have been helped in health by leaving off coffee and using Postum Food Coffee.

He says, regarding his own experience: "Two years ago I had been drinking coffee and must say that I was almost wrecked in my nerves.

"Particularly in the morning I was so irritable and upset that I could hardly wait until the coffee was served, and then I had no appetite for breakfast and did not feel like attending to my store duties.

"One day my wife suggested that inasmuch as I was selling so much Postum there must be some merit in it and suggested that we try it. I took home a package and she prepared it according to directions. The result was a very happy one. My nervousness gradually disappeared and to-day I am all right. I would advise everyone affected in any way with nervousness or stomach troubles, to leave off coffee and use Postum Food Coffee." "There's a Reason," Read, "The Road to Wellville," in pkgs.

THE FATAL GLOVE.

BY CLARA AUGUSTA

CHAPTER XXIII.

FAR into the night Margie sat reading the closely written sheets, penned by the hand now pulseless in death. All was made clear; Archer Trevlyn was fully exculpated. He was innocent of the crime which she had been influenced to believe he had committed. She fell on her knees and thanked God for that. Though lost to her it was a consolation ineffable to know that he had not taken the life of a fellow-mortal.

Her resolution was taken before morning. She had deeply wronged Archer Trevlyn, and she must go to him with a full confession, confess her fault, and plead for his forgiveness.

Castrani, who came in the morning, approved her decision, and Nurse Day, who was told the whole story, and listened with moist eyes, agreed with them both. So it happened that on the ensuing morning Margie bade farewell to the quiet home which had sheltered her through her bitterest sorrow, and accompanied by Castrani set forth for New York.

She went to her own home first. Her aunt was in the country, but the servants gave her a warm welcome, and after resting for an hour, she took her way to the residence of Archer Trevlyn, but a few squares distant.

A strange silence seemed to hang over the palatial mansion. The blinds were closed—there was no sign of life about the premises. A thrill of unexplained dread ran through her frame as she touched the silver-handled bell. The servant who answered her summons seemed to partake of the strange, solemn quiet pervading everything.

"Is Mr. Trevlyn in?" she asked, trembling in spite of herself.

"I believe Mr. Trevlyn has left the country, madam."

"Left the country? When did he go?"

"Some days ago."

"Mrs. Trevlyn—take me to her! She was an old friend of mine."

The man looked at her curiously, hesitated a moment, and motioning her to enter, indicated the closed door of the parlor.

"You can go in, I presume, as you are a friend of the family."

A feeling of solemnity, which was almost awe, stole over Margie as she turned the handle of the door and stepped inside the parlor. It was shrouded in the gloom of almost utter darkness.

Margie stopped by the door until her eyes became accustomed to the gloom, and then she saw that the center of the room was occupied by a table, on which lay some rigid object—strangely long and still and angular—covered with a drapery of black velvet, looped up by dying water lilies.

Still controlled by that feeling of strange awe, Margie stole along to the table and lifted the massive cover. She saw beneath it the pale, dead face of Alexandrine Trevlyn. She dropped the pall, uttered a cry of horror, and sank upon a chair. The door unclosed noiselessly, and Mrs. Lee, the mother of the dead woman, came in.

"Oh, Margie! Margie!" she cried, "pity me! My heart is broken! My darling! My only child is taken from me!"

It was long before she grew composed enough to give any explanation of the tragedy—for tragedy Margie felt sure it was.

The story can be told in a few brief words. Alexandrine and her husband had had some difficulty. Mrs. Lee could not tell in relation to what, but she knew that Alexandrine blamed herself for the part she had taken. Mr. Trevlyn left her in anger to go to Philadelphia on business. He was expected to be absent about four days. Meanwhile his wife suffered agonies of remorse, and counted the hours until his return should give her the privilege of throwing herself at his feet and begging his forgiveness.

But he did not return. A week, ten days passed, and still no tidings. Alexandrine was almost frantic. On the eleventh day came a telegraphic dispatch, brief and cruel, as those heartless things invariably are, informing her that Mr. Trevlyn had closed his business in Philadelphia and was on the eve of leaving the country for an indefinite period. His destination was not mentioned, and his unhappy wife, feeling that if he left Philadelphia without her seeing him, all trace of him would be lost, hurried to the depot and set out for that city.

There had been an accident about half way between New York and Philadelphia and Alexandrine had been brought back to her splendid home—a corpse! That was all.

CHAPTER XXIV.

THE summer days fled on and brought the autumn mellowness and splendor. Margie, outwardly calm and quiet, lived at Harrison Park with her staid maiden aunt.

A year passed away thus monotonously, then another, and no tidings ever came of Archer Trevlyn. Margie thought of him now as we think of one being dead, with tender regret, and love almost reverent. He was dead to her, she said, but it was no sin to cherish his memory.

In the third year Margie's aunt married. It was quite a little romance. An old lover, discarded years before in a fit of girlish obstinacy, came back, after weary wanderings in search of happiness, and seeking out the love of other days, wooed and won her over again.

There was a quiet wedding, and then the happy pair decided on a trip to Europe. And, of course, Margie must accompany them. At first she demurred; she took so little pleasure in anything, she feared her presence might mar their happiness, and she dreaded to leave the place where she had passed so many delightful hours with him. But her aunt and Doctor Elbert refused to give her up, and so, one beautiful September morning, they sailed for Liverpool in the good ship Colossus.

For many days the voyage was prosperous, but in mid-ocean they fell upon stormy weather and the ship was tossed about at the mercy of the winds and waters. It was a terrible storm, and great apprehensions were entertained that the vessel might founder, but she would doubtless have weathered the blast in safety if she had not sprung a leak.

The fearful intelligence was announced just at the closing in of a dark dismal night, and every heart sank and every face was shrouded in gloom. Only for a moment! The men sprang to the pumps and worked with a will—as men will work for their lives—but their efforts were vain. The water increased in the hold, and it soon became evident that the Colossus would hardly keep afloat until morning.

But just when they were most helpless, most despairing, the lights of a strange ship were seen. They succeeded in making their desperate condition known, and by day-dawn all were safe on board the steamer, for the stranger proved to be a steamer on her way to New York.

The decks were crowded; Doctor Elbert was looking after his wife, and Margie, clinging to a rope, stood frightened and alone. Some one came to her, said a few words which the tempest made inaudible, and carried her below. The light of the cabin lamps fell full on his face. She uttered a cry, for in that moment she recognized Archer Trevlyn.

"Margie Harrison!" he cried, his fingers closing tightly over hers. "Margie! Mine! Mine at last! The ocean has given you up to me!"

"Oh, Archer, where have you been? It has been so weary! And I have wanted to see you so much—that I might tell you how I had wronged you—that I might ask you to forgive me. Will you pardon me for believing that you could ever be guilty of that man's death? If you knew all—if you knew how artfully it was represented to me—what overwhelming proofs were presented, you would not wonder—"

"I do know all, Margie; Alexandrine told me. My poor wife! God rest her. She believed me guilty and yet her fatal love for me overlooked the crime. She deceived me in many things, but she is dead, and I will not be unforgiving. She poisoned my mind with suspicions of you and Louis Castrani, and I was fool enough to credit her insinuations. Margie, I want you to pardon me."

"I do, freely, Castrani is a noble soul. I love him as I would a brother."

"Continue to do so, Margie. He deserves it, I think. The night I left home Alexandrine revealed to me the cause of your sudden rejection of me. We quarreled terribly. I remember it with bitter remorse. We parted in anger, Margie, and she died without my forgiveness and blessing. It was very hard, but perhaps at the last she did not suffer. I will believe so."

"If she sinned it was through love of you, Archer, and that should make you very forgiving toward her."

"I have forgiven her long ago. I know the proofs were strong against me. I am not sure but that they were sufficient to have convicted me of murder in a court of law. You were conscious of my presence that night in the graveyard, Margie?"

"Yes. I thought it was you. I knew no other man's presence had the power to thrill and impress me as yours did."

"I meant to impress you, Margie. I brought all the strength of my will to bear on that object. I said to myself, she shall know that I am near her, and yet my visible presence shall not be revealed to her. I had found out which was your window from one of the servants, and I watched its light which burned through the dusky twilight like the evening star. I wonder if you had a thought for me that night, Margie—your wedding night?"

"I did think of you—" she blushed, and hid her face on his shoulder—"I did think of you. I longed inexpressibly to fly to your side and be forever at rest."

"My darling!" he kissed her fondly, and went on: "I saw you leave your room by the window and come down the garden path. I had felt that you would come. I was not surprised that you did. I had expected it. I followed you silently, saw you kneel by the grave of your parents, heard you call out upon your father for pity. O, how I loved and pitied you, Margie—but my tongue was tied—I had no right to speak—but I did kiss your hand. Did you know it, Margie?"

"Yes."

"You recognized me then? I meant you should. After that I hurried away. I was afraid to trust myself near you longer, lest I might be tempted to what I might repent. I fled away from the place and knew nothing of the fearful deed done there until the papers announced it next day."

"And I suspected you of the crime! O, Archer! Archer! how could I ever have been so blind? How can you ever forgive me?"

"I want forgiveness, Margie. I doubted you. I thought you were false to me, and had fled with Castrani. That unfortunate glove confirmed you, I suppose. I dropped it in my haste to escape without your observation, and afterward I expected to hear of it in connection with the finding of Linmere's body. I never knew what became of it until my wife displayed it, that day when she taunted me with my crime. Poor Alexandrine! She had the misfortune to love me, and after your renunciation, and your departure from New York—in those days when I deemed you false and fair—I offered her my hand. I thought perhaps she might be happier as my wife, and I felt that I owed her something for her devoted love. I tried to do my duty by her, but a man never can do that by his wife, unless he loves her."

"You acted for what you thought was best, Archer."

"I did. Heaven knows I did. She died in coming to me to ask my forgiveness for the taunting words she had spoken at our last parting. I was cruel. I went away from her in pride and anger, and left behind me no means by which she could communicate with me. I deserved to suffer, and I have."

"And I also, Archer."

"My poor Margie! Do you know, dear, that it was the knowledge that you wanted me which was sending me home again? A month ago I saw Louis Castrani in Paris. He told me everything. He was delicate enough about it, darling; you need not blush for fear he might have told me you were grieving for me; but he made me understand that my future might not be so dark as I had begun to regard it. He read to me the dying confession of Arabel Vere, and made clear many things regarding which I had previously been in the dark. Is all peace between us, Margie?"

"All is peace, Archer. And God is very good."

"He is. I thank Him for it. And now I want to ask one thing more. I am not quite satisfied."

"Well?"

"Perhaps you will think it ill-timed—now that we are surrounded by strangers, and our very lives perhaps in peril—but I cannot wait. I have spent precious moments enough in waiting. It has been very long, Margie, since I heard you say you loved me, and I want to hear the words again."

She looked up at him shyly.

"Archer, how do I know but you have changed?"

"You know I have not. I have loved but one woman—I shall love no other through time and eternity. And now, at last, after all the distress and the sorrow we have passed through, will you give me your promise to meet whatever else fortune and fate may have in store for us, by my side?"

She put her face up to his, and he kissed her lips.

"Yours always, Archer. I have never had one thought for any other."

So a second time were Archer Trevlyn and Margie Harrison betrothed.

On the ensuing day the storm abated, and the steamer made a swift passage to New York.

Doctor and Mrs. Elbert were a little disappointed at the sudden termination of their bridal tour, but consoled themselves with the thought that they could try it over again in the spring.

Trevlyn remained in the city to adjust some business affairs which had suffered from his long absence, and Margie and her friends went up to her old home. He was to follow them thither on the ensuing day.

And so it happened that once more Margie sat in her old familiar chamber dressing for the coming of Archer Trevlyn. What should she put on? She remembered the rose-colored dress she had laid away that dreadful night so long ago. But now the rose colored dreams had come back, why not wear the rose-colored dress?

To the unbounded horror of Florine, she arrayed herself in the old-fashioned dress, and waited for her lover. And she had not long to wait. She heard his well-remembered step in the hall, and a moment after she was folded in his arms.

CHAPTER XXV.

AT CHRISTMAS there was a bridal at Harrison Park. The day was clear and cloudless—the air almost as balmy as the air of spring. Such a Christmas had not been known for years.

The sun shone brightly, and soft winds sighed through the leafless trees. And Margie was married and not a cloud came between her and the sun.

Peace and content dwelt with Archer Trevlyn and his wife in their beautiful home. Having suffered, they knew better how to be grateful for, and to appreciate the blessings at last bestowed upon them.

At their happy fireside there comes to sit sometimes, of an evening, a quiet, grave-faced man. A man who Archer Trevlyn and his wife love as a dear brother, and prize above all other earthly friends. And beside Louis Castrani, Leo sits, serene and contemplative, enjoying a green old age in peace and plenty. Castrani will never marry, but sometime in the hereafter, I think he will have his recompense.

(THE END.)

THE BIGGEST POLICEMAN.

He Is Said to Be Philadelphia's Capt Malin.

Philadelphia has cause for civic pride in the possession of the biggest and strongest guardian of the public peace in the country over—Police Captain Edward W. Malin of the Second division, says the Philadelphia Press. There may be heavier wearers of the blue uniform, but mere avoirdupois is not a thing to be proud of.

Capt. Malin measures in height 6 feet 6¾ inches. His weight is 200 pounds, which makes him splendidly proportioned. Beside him the 6-foot 200-pounder looks small enough to be coxswain of a university crew.

The labor of growing heavenward so tremendously has not taxed his brain and vitality, for Capt. Malin is strong and hardy, and when he shakes your hand warmly you think of the great steam hammer in the Krupp gun works at Essen. As for a hearty slap on the back, a timid man would prefer a tap from a trolley car.

Capt. Malin will have been connected with the police force of Philadelphia nineteen years on the 26th of next October and has passed through the several grades of duty from that of a "sub" patrolman to the responsible position of one of the five captaincies of the Philadelphia police department—from "sub" to regular patrolman, to sergeant, to lieutenant, and to captain. His record has been an honorable one, and it goes without saying that Capt. Malin has had a comparatively peaceful career, although he has always been courageous and faithful to duty. But the most reckless lawbreaker or a syndicate of him would well hesitate to mix up in a personal encounter with a giant who would be more than likely to tuck the company under his arms and save the patrol wagon the trouble of carrying the victims of misguided confidence to the station.

He has been injured more than once in the performance of his duty, but, as the small boy said after the fight, "You ought to have seen the other chap." It is told of the big captain that when acting as lieutenant in the old police headquarters at Fifth and Chestnut streets, he was one day sitting by the door that led into the cellroom. Capt. Malin was alone and was trying to read a newspaper. In one of the cells a man with a many horse-powered voice was shouting aloud his yearning to get out and whip "anything with brass buttons on it."

"You got me in here when I was drunk and helpless. Now I'm sober and I can eat up any two coppers in the precinct. Only give me a show at them."

Lieut. Malin was patient until he deemed patience was a drug in the market. The bellicose prisoner was spoiling for blood. Nothing else would quiet him. The lieutenant sent for the jailer and told him to open the cell door, and as the hinge grated the fighter flew into the roll-call room with an incandescent glow in his eyes. The lieutenant slowly rose from his chair until he was looking down at the prisoner far below. He said gently:

"Were you looking for something?"

"I—I—I—thought I——"

"Hadn't you better go back and keep quiet?"

"Yes, sir; yes, sir. Don't hit me, please," and the war was averted by arbitration.

Capt. Malin was born and "raised" on a farm near Gradyville, in Delaware county. He worked out of doors through his boyhood and didn't know what a cigarette was. Lots of work, sleep, fresh air, and healthful food made a man of him and gave him a famous start in life.

A DANGEROUS BIRD.

What Will Happen Some Day to an Incautious Hunter of Blue Herons.

"Some of these days," said the 'longshore hunter, "I expect to open my daily paper and see a headline something like this: 'Killed by a blue heron,' and I'll tell you why. The blue heron is a big, powerful bird which has already disfigured the faces of several men. The men have wounded a bird and then thinking to capture it alive they went up to it. Why I'd as soon try to kiss a wounded grizzly. The birds grow as tall as six feet and have necks like a fish rod and just the kind of muscles to move it the quickest with the most strength. They could drive their bill points through a quarter-inch panel.

"The hunter goes up to the bird and sees it lying there looking as innocent as a robin, with only a broken wing. 'What a fine pet it would make,' the fool hunter thinks. Then he picks the bird up and starts for home in a wagon or a boat, with the bird between his knees. The bird's neck is drawn back like a letter 'S.' All of a sudden the bill shoots up and gives the man a gash alongside the eye three inches long. That is what always has happened. The wounded bird has missed its aim, but sometimes, and you want to remember it, this feathered spearman will drive its bill far into its enemy's eye, and like a steel umbrella stick the point of the bill will penetrate the man's brain. I guess the bird's aim has always been spoiled by the pain of its wounds, and so many a human life has been saved. I don't monkey with wounded bitterns, or cranes—well, scarcely."

The Tramp's Answer.

When Mrs. Eddy, the head of the Christian Science church, was young she conducted a temperance campaign for a time.

A tramp asked her for help.

"I'll help you, my friend," said Mrs. Eddy, "but first you must answer me one question. Do you or do you not drink beer?"

The tramp, a hardened customer, looked at her in amazement.

"Why, lady," he said, "ye cert'n'y don't think I squirt it into me arm wid a syringe!"

Wise men always do a little hustling on their own account, while waiting for good luck to come and pay them a visit.

THE CANADIAN WEST IS THE BEST WEST

160 ACRE FARMS IN WESTERN CANADA FREE

The testimony of thousands during the past year is that the Canadian West is the best West. Year by year the agricultural returns have increased in volume and in value, and still the Canadian Government offers 160 acres FREE to every bona fide settler.

Some of the Advantages

The phenomenal increase in railway mileage—main lines and branches—has put almost every portion of the country within easy reach of churches, schools, markets, cheap fuel and every modern convenience.

The NINETY MILLION BUSHEL WHEAT CROP of this year means $60,000,000 to the farmers of Western Canada, apart from the results of other grains and cattle.

For advice and information address the SUPERINTENDENT OF IMMIGRATION, Ottawa, Canada, or any authorized Government Agent.

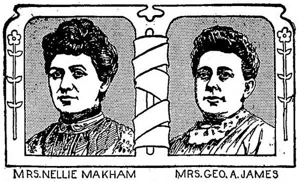
Tired Nervous Women Make Unhappy Homes



MRS.NELLIE MAKHAM MRS.GEO.A.JAMES

A nervous irritable woman, often on the verge of hysterics, is a source of misery to everyone who comes under her influence, and unhappy and miserable herself.

Such women not only drive husbands from home but are wholly unfit to govern children.

The ills of women act like a fire brand upon the nerves, consequently seven-tenths of the nervous prostration, nervous despondency, the "blues", sleeplessness, and nervous irritability of women arise from some organic derangement.

Do you experience fits of depression with restlessness alternating with extreme irritability? Do you suffer from pains in the abdominal region, backache, bearing-down pains, nervous dyspepsia, sleeplessness, and almost continually cross and snappy? If so, your nerves are in a shattered condition and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous troubles of women than Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Thousands and thousands of women can testify to this fact.

Mrs. Nellie Makham, of 151 Morgan St., Buffalo, N. Y., writes:—

Dear Mrs. Pinkham:—

"I was a wreck from nervous prostration. I suffered so I did not care what became of me, and my family despaired of my recovery. Physicians failed to help me. I was urged to try Lydia E. Pinkham's Vegetable Compound and I want to tell you that it has entirely cured me. I think it is the finest medicine on earth and I am recommending it to all my friends and acquaintances.

Mrs. Geo. A. James, a life long resident of Fredonia, N. Y., writes:

Dear Mrs. Pinkham:—

"I was in a terribly run down condition and had nervous prostration caused by female trouble, in fact I had not been well since my children were born. This condition worked on my nerves and I was irritable and miserable. I had tried many remedies without getting much help but Lydia E. Pinkham's Vegetable Compound brought me back to health and strength. It has also carried me safely through the Change of Life. I cannot too strongly recommend your medicine."

Mrs. Pinkham's Invitation to Women:

Women suffering from any form of female weakness are invited to communicate promptly with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Women's Ills.

Room for the Friend.

"You'll have to excuse the disorder here," said the flat dweller, "all these bundles are our summer clothes that we had to take out of the hall closet——"

"Surely, you don't need summer clothes this weather," said his friend.

"No," but we had to put up a cot in the closet for a friend who spent last night with us."

The Mistakes of Others.

"We should learn to profit by the mistakes that others make," said the philosopher.

"I do that right along," replied the humorist. "Bagley got into the wrong house when he came home from the banquet the other night, and I wrote a story about it which I have just sold to one of the comic papers for $9."

DR. J. H. RINDLAUB, (Specialist),
Eye, Ear, Nose and Throat,
Fargo, N. D.

Love is particularly blind when it comes to seeing danger signals.

"Get the Hook."

Gunner—Did you hear the celebrated basso sing "Rocked in the Cradle of the Deep?"

Guyer—Yes, and I thought it was pretty fishy.

Gunner—Fishy? How so?

Guyer—Why, wasn't it a deep-sea bass?

PATENTS.

UNDER FIVE FLAGS

HISTORY OF OLD STONE FORT AT NACOGDOCHES.

Historical Souvenir of the Building Recently Presented to the Alamo—Was Abiding Place of Many Patriots.

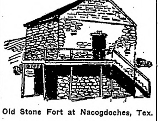
An historical souvenir of the old stone fort at Nacogdoches was recently presented to the Alamo by William H. and Walter T. Crouch, says the San Antonio Express.

This interesting souvenir is made of the historic wood of the old stone fort of Nacogdoches, Tex.

It is a gavel and block with photographs of William H. Crouch and Walter T. Crouch. The photographs are inlaid on the block in the shape of a five-pointed star. History states in the necessity for an official seal, Gov. Smith used a five-pointed brass button cut from his old coat, thus originating the beautiful emblem—the five-pointed star.

There is not another building perhaps in the United States besides the stone fort that could claim with certainty the peculiar distinction of having in its career floated from its ramparts at different times the national emblems of five different governments, of which two are foreign. The national emblem of the stone fort and those who claimed or sought protection therefrom was the Spanish flag—the dual ensign of Castile and Aragon. This flag had its origin in the uniform of Castile and Aragon by the marriage of Ferdinand and Isabella. It was under its protection that the final plans of the Fredonians were arranged after the expulsion and retreat of Piedros.

Here, also, in the summer of 1812 rested the army of Magee Guiterros. Tradition says the stone fort was Magee's headquarters and in one of its rooms he wrote three proclamations to the people of Texas. Under its folds Houston, Crockett, Bowie and other heroes rested at sundry times. It was here that Haden Edwards, the distinguished old patriot who was born in Virginia before the declaration of independence and came to Texas when Spain owned and ruled the land, established a colony, inaugurating a scheme of independent government here before independence had been thought of—naming it the Republic of Fredonia.



Old Stone Fort at Nacogdoches, Tex.

A street in Nacogdoches was named and is called Fredonia. It was in the old stone fort that Amos Edwards, the brother of Haden Edwards, stopped on his journey from Kentucky; and there Penelope Edwards, the great-grandmother of William H. and Walter T. Crouch, was stolen from the old stone fort by Col. I. D. Thomas and married in the second two-story house built in Texas, now standing in the town of St. Augustine. Capt. William Edwards, youngest brother of Penelope Edwards, was born in the fort about the year 1830. He afterward became a gallant soldier, organized the Houston Light Guards and became its first Captain.

Cradle Two Hundred Years Old.

The slumber place of seven generations is being rocked daily in a Minneapolis home, says the Minneapolis Journal. Mrs. Charles Sowle, of 3205 Park avenue, is the possessor of a valuable family heirloom in the shape of a cradle which is more than 200 years old. The cradle originally came from Holland, but has been in this country since 1668. Solidly built of mahogany, it has defied the ravages of time, and has successfully withstood the treatment of seven generations of children who have slept in it, played with it, and buffeted it after the manner of children of every century.

Most Remarkable Band.

Probably the most remarkable band on earth is that which is stationed in the imperial palace at Moscow, says Tit-Bits. A famous composer was recently taken into a darkened room to hear one of his new compositions played by this band. The composer was mystified until the lights were raised, when 200 soldiers were revealed each with a horn or trumpet in his hand varying in size from one and one-half inches to 20 feet. Each instrument and each performer produced only a single note, but the playing was so perfect that the sound was just as if from one grand instrument played upon by a master hand.

Head Caught in Rails.

During the course of a mission service by the Capuchin Fathers at St. Michael's Roman Catholic church at Kingstown, Ireland, the other night, a youth, who put his head through the communion rails and could not extricate it, alarmed the congregation by his cries. A priest called a doctor from the congregation, but he was unable to render assistance, and it was only when two crowbars were used to widen the rails that the boy's head was extricated. The boy, who was in a state of collapse, was removed to the hospital.

Famous Book Free.

Every reader of this paper can get free of charge one of Dr. Coffee's famous books which tells of a new method by which persons afflicted with Deafness, Head Noises, Sore Eyes, Failing Sight from any cause, can cure themselves at home at small expense.

Write a letter immediately to Dr. W. O. Coffee, 360 Century Bldg., Des Moines, Ia.

Desirable Location.

The House Hunter—I like this house well enough, but I don't like the idea of its being right next door to the police station, with all those staring policemen.

The Agent—Ah, sir, but that is really a great advantage. Think how easy it will be to keep a cook here.

To improve the general health, take Garfield Tea daily for a time; it purifies the blood, eradicates rheumatism and many chronic ailments, and keeps the health good. Garfield Tea is made of herbs; it is guaranteed under the Pure Food and Drugs Law. Garfield Tea Co., Brooklyn, N. Y.

No Lover of Tinned Music.

A phonograph had been introduced into the village "public" and the landlord, after running off several records, asked one of his audience—a big agricultural laborer—what he thought of the invention.

"Wey," he replied, "Aa nivver could get on wi' tinned meat, and Aa'm hanged if I like tinned music!"

Don't Sneeze Your Head Off.

Krause's Cold Capsules will cure you almost instantly. At all Druggists, 25c.

The Easy Position.

"What I want," said the out-of-work, "is a nice, easy position."

"My friend," answered the wise one, "give up that idea. When an easy position is discovered, so many people are after it that a man has to fight ten hours a day to get it and twelve hours a day to hold on to it."

Piscatorial.

An Italian scientist says fish can both hear and talk.

It would be highly interesting to hear this knowing authority make a noise like a fish.

Yes, Indeed.

"A woman makes a great change in a man's life."

"Yes, and she takes a great deal of change out of it, too."

Coming and Going.

"What kick have you against married life?"

"Well, if I don't keep my wife dressed in the height of fashion I have trouble with her, and if I do keep her dressed in the height of fashion I have trouble with her dressmaker."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

When You Want Pure White Lead, Get It

Probably there is no other article of commerce subjected to so much adulteration and misrepresentation as White Lead.

Out of 18 brands of "White Lead" recently analyzed by the Government Agricultural Experiment Station of North Dakota, 5 contained absolutely no White Lead, 5 less than 15% of White Lead, and only 3 over 90% of White Lead.

There is, however, a way to be certain of the purity and genuineness of the White Lead you buy, and that is to see that the keg you buy bears the Dutch Boy trade mark. This trade mark is a positive guarantee of absolutely Pure White Lead made by the Old Dutch Process.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: *"A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death."* The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. J. W. Dinsdale, of Chicago, Ill., says: "I use your Castoria and advise its use in all families where there are children."

Dr. Alexander E. Mintie, of Cleveland, Ohio, says: "I have frequently prescribed your Castoria and have found it a reliable and pleasant remedy for children."

Dr. J. S. Alexander, of Omaha, Neb., says: "A medicine so valuable and beneficial for children as your Castoria is, deserves the highest praise. I find it in use everywhere."

Dr. J. A. McClellan, of Buffalo, N. Y., says: "I have frequently prescribed your Castoria for children and always got good results. In fact I use Castoria for my own children."

Dr. J. W. Allen, of St. Louis, Mo., says: "I heartily endorse your Castoria. I have frequently prescribed it in my medical practice, and have always found it to do all that is claimed for it."

Dr. C. H. Glidden, of St. Paul, Minn., says: "My experience as a practitioner with your Castoria has been highly satisfactory, and I consider it an excellent remedy for the young."

Dr. H. D. Benner, of Philadelphia, Pa., says: "I have used your Castoria as a purgative in the cases of children for years past with the most happy effect, and fully endorse it as a safe remedy."

Dr. J. A. Boarman, of Kansas City, Mo., says: "Your Castoria is a splendid remedy for children, known the world over. I use it in my practice and have no hesitancy in recommending it for the complaints of infants and children."

Dr. J. J. Mackey, of Brooklyn, N. Y., says: "I consider your Castoria an excellent preparation for children, being composed of reliable medicines and pleasant to the taste. A good remedy for all disturbances of the digestive organs."

SKIN DISEASES

HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the Winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Nine Hundred Nineteen and 32-100 ($919.32) Dollars, which is claimed to be due and is due at the date of this notice upon a certain Mortgage, duly executed and delivered by Samuel W. Lee, a single man, Mortgagor to Swante W. Larson, Mortgagee, bearing date the third day of October 1901, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 10th day of October, 1901, at 11:30 o'clock A. M., in Book 20 of Mortgages, on page 308,

Which said mortgage, together with the debt secured thereby, was duly assigned by said Swante W. Larson Mortgagee, to Merchants State Bank of Red Lake Falls, Minn., by written assignment, dated the 24th day of January, 1907, and recorded in the office of said Register of Deeds, on the 12th day of April, 1907, at four o'clock P. M., in Book 15 of Mortgages, on page 372, and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof;

NOW THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: The Northeast quarter (ne¼) of Section twenty-six (26), in Township one hundred fifty-two (152), north of Range forty-four (44) West of the Fifth Principal Meridian. Containing one hundred and sixty acres, more or less, according to the United States Government survey thereof, in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the Sheriff of said Red Lake County at the West front door of the Court House, in the City of Red Lake Falls, in said County and State, on the first day of June, A. D., 1907, at 10 o'clock A. M., of that day at public vendue, to the highest bidder for cash, to pay said debt of Nine Hundred Nineteen and 32-100 Dollars, and interest, and the taxes, if any, on said premises, and Twenty-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated April 17th, 1907.

In Probate Court.

In the matter of the estate of Alexis Fournier, Deceased.

Letters of Administration of the estate of Alexis Fournier deceased, late of the Town of Terrebonne, in the County of Red Lake and State of Minnesota, being granted to Louis Paranteau.

It Appearing on proper proof by affidavit of the Administrator made and filed herein as provided by law, that there are no debts against the estate of said Alexis Fournier, deceased.

It is Ordered, That three months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands, against the said deceased are required to file the same in the Probate Court of said County, for examination and allowance, or be forever barred.

It is Further Ordered, That Monday, the 19th day of August, 1907, at ten o'clock A. M., at a special term of said Probate Court, to be held at the Probate Office in the Court House in the City of Red Lake Falls in said County, be and the same hereby is appointed as the time and place when and where the said Probate Court will examine and adjust said claims and demands.

And it is further ordered, that notice of such hearing be given to all creditors and persons interested in said estate by forthwith publishing this order once in each week for three successive weeks in the Red Lake Courier, a weekly newspaper printed and published in said county.

Dated at Red Lake Falls, Minnesota, this 18th day of May, A. D., 1907.

By the Court.
(Seal) —N. W. Tarrant.
m23-j6 Judge of Probate.

RESOLUTION.

By the City Council of Red Lake Falls authorizing the construction of sidewalks:

Whereas, the sidewalks now existing at the points hereinafter mentioned are out of repair and in bad condition and the city council do deem it necessary and expedient that a new sidewalk be built on the east side of Main Street between third and fourth street in Champagne and Dow's Addition in the city of Red Lake Falls along and adjoining Block 9 of said addition, Therefore Be it resolved by the City Council that the sidewalk at the aforesaid points be, and the same is hereby condemned and ordered removed and and that a new cement walk be and the same is hereby ordered to be built on the east side of Main Street along Block 9 in said addition in the following manner, to-wit:—

To be six feet wide, built of cement and sand in proper proportions laid upon gravel foundation with curbstone, and must be a good serviceable walk, to be completed on or before the 15th day of July, A. D., 1907; and further that this resolution shall be duly served on or before the 28th day of May, A. D. 1907, upon the owners of all the lots, parts of lots, and parcels of ground fronting on said Main street where said sidewalk is ordered to be built, and whose names with their respective holdings are hereinafter stated, said service to be made in accordance with the statute in such case made and provided:

CHAMPAGNE AND DOW'S ADDITION TO RED LAKE FALLS.

Description of property owned	Name of owner	Front feet
Lot 1, block 9	Kate R. Stuhr	25 feet
Lot 2, block 9	Peter Stuhr	25 feet
Lot 3, block 9	H. B. Kaufer	25 feet
Lot 4, block 9	A. P. Toupin	25 feet
Lot 5, block 9	Laura Toupin	25 feet
Lot 6, block 9	Napoleon Pouliot	25 feet
Lot 7, block 9	Patrick McNerthney	25 feet
Lot 8, block 9	F. R. Creglow	25 feet
Lot 9, block 9	Sophia Busch	25 feet
Lot 10, block 9 Lot 11, block 9 Lot 12, block 9	Robertson Lumber Co.	75 feet

Adopted, May 16. A. D. 1907.

Attest; FRED BORCHERS,
A. P. TOUPIN, Pres. City Council.
City Clerk. J. A. DUFFY,
Approved May 27, 1907. Mayor.

Order Limiting Time to File Claims, and for Hearing Thereon.

ESTATE OF CHARLES G. CARLSON.

STATE OF MINNESOTA, County of Red Lake. } In Probate Court:

In the matter of the estate of Charles G. Carlson, Decedent.

Letters of Administration this day having been granted to Frank Schirrick

It is ordered, that the time within which all creditors of the above named decedent may present claims against his estate in this court, be, and the same hereby is, limited to six months from and after the date hereof; and that Saturday, the 23rd day of November 1907, at 2 o'clock P. M., in the Probate Court rooms at the Court House at the City of Red Lake Falls in said County, be and the same hereby is fixed and appointed as the time and place for hearing upon and examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in the Red Lake Courier, a weekly newspaper printed and published in said County as provided by law.

Dated, May 23, 1907.

(Court Seal) N. W. TARRANT,
m23-j6 Judge of Probate Court.

Citation for Hearing on Petition to Sell, Mortgage or Lease Land.

ESTATE OF CHARLES G. CARLSON

State of Minnesota, County of Red Lake. } ss

In Probate Court.

In the Matter of the Estate of Charles G. Carlson, Decedent.

The State of Minnesota, To Sofie Carlson, Axel Carlson and Oscar Carlson and all persons interested in the sale of certain lands belonging to said decedent: The petition of Frank Schirrick as representative of the above named decedent, being duly filed in this court, representing that it is necessary and for the best interests of said estate and of all interested therein that certain lands of said decedent described therein be sold and praying that a license be to him granted to sell the same:

Now Therefore, you, and each of you, are hereby cited and required to show cause, if any you have, before this court, at the Probate Court Rooms in the Court House, in the City of Red Lake Falls, County of Red Lake, State of Minnesota, on the 15th day of June, 1907, at 2 o'clock p. m. why the prayer of said petition should not be granted.

Witness, the Judge of said Court, and the seal of said Court, this 23rd day of May, 1907.

[Seal] N. W. TARRANT,
m23-j6 Judge of Probate Court.

Mark Twain as a Critic.

A successful young novelist was praising the critical powers of Mark Twain.

"I once had the honor of reading a tale of mine to Mr. Clemens," he said, "and, thanks to his criticism, the tale was greatly improved. Originally it was too high-flown; he brought it down to earth, and made it homelier and truer.

"For instance, the tale concluded with these words:

"'Mabel's lovely eyes drooped for answer, a faint flush tinted her cheek, and she gave him both her hands; and there in the old orchard, in the shade of the heavy-fruited trees, he drew her to his breast, and, raising her long ringlets to his lips, kissed them reverently.'

"Mr. Clements, at this ending, blew a cloud of smoke thoughtfully into the air, and as he watched the smoke dissolve, he drawled:

"'What do you think, now, honestly, of a young man who would go nibbling at a girl's back hair when she had her face with her?'"

Titled Evangelists.

The earl and countess of Tankerville have been holding crowded religious meetings in Shropshire, England. Both are much interested in this kind of work. The countess was Miss Leonora Van Marter, an American girl, and the earl spent much of his youth in this country. He is an energetic member of the house of lords, and, like his wife, a great lover of art. They have two children.

Auto Fever at 106.

Mrs. Elizabeth Hunt of Brooklyn has caught the auto fever at 106, and is road-touring in Connecticut.

Between Literary Men.

"Ah, my dear fellow, how delightful the air is here in the park! The moment I get out of doors I seem to get ideas."

"Then why do you always write your magazine articles in your room?"

RED LAKE COURIER.

VOL. IX—NO. 33. RED LAKE FALLS, MINNESOTA, THURSDAY, JUNE 6, 1907. WHOLE NO. 449.

TWO BALL GAMES

Red Lake Falls Plays Twice and Loses Same Number in the Past Week.

The local base ball team has played two games of ball during the past week, and on both occasions has received a drubbing, although not very badly beaten.

The first game was with Thief River Falls on the diamond of the up-river burg Sunday, and nearly a hundred fans accompanied the team to the north end baliwick to see the game.

The week previous the Thief River team played here and were beaten by a score of 6 to 5. They expressed themselves as being well pleased with their treatment here, and the entire team conceded that a square deal had been given them in all cases.

However, the fans of the up-river town were not satisfied, and using our friend Bagley, of the Press, as a catspaw, insinuated all manners of crookedness on the part of Red Lake Falls and made a solemn vow that when the Red Lakers invaded the north end park there would be a change in tune, etc., and freely predicted that they would win—if not legitimately, why——?

The game was called early in the afternoon, and for the first four innings was as pretty a contest of ball as was ever witnessed anywhere, despite the fact that Red Lake Falls was playing against ten men. Along in the middle of the game the continual nagging and rotten decisions of his "umps" got some of the local players "up in the air" figuratively speaking, and before the fireworks ceased six Thief Riverites crossed home plate. Harry Healy went in the box after that and the boys steadied down to work and kept the tenth man from allowing Thief River any more runs. Red Lake Falls scored three runs during the game, making the final score 6 to 3 in favor of Thief River Frlls.

The locals have no kick coming, any more than they were given several (we might say numerous) very rank decisions at the hands of the umpire, but as Thief River Falls was determined to win at all hazards the boys here feel satisfied.

There is talk of the "rubber" of the series being played at St. Hilaire at some date in the near future.

The second game of the week was played on the home grounds yesterday afternoon between the Crookston club and the locals, and while the score was close, 7 to 8 in favor of Crookston, it does not tell half the story. The game was really a "comedy of errors" from start to finish, and the Red Lake Falls team played the leading part in the comedy. There were some very good plays made on both sides, as well as some decidedly rank ones, and the details are really too horrible to repeat here. Several times during the game the locals threw the thing deliberately away by bad mistakes and while the Crookston boys played very fair ball, yet the locals should have won out handily. In the last inning the score was 8 to 4 in Crookston's favor when Red Lake Falls came to bat, and by good hitting and sensational base running three scores were made, and Harry Healy was caught at home after having stolen way around from first. He made a great slide but the crowd was so near that he couldn't see the catcher and he was naobed by a narrow margin, ending the game with Crookston leading by one run. The contest was entirely free from rag chewing or dissension of any sort, and was thoroughly enjoyed by the spectators, although at times the groans at the rank errors could be heard a mile.

The score by innings was as follows:

Crookston—	1	0	2	0	1	0	1	1	2—8.
R. L. F.—	0	3	0	0	1	0	0	0	3—7.

Louis Seiff, George Bender and R. H. Bourdon left last evening for Blilings, Montana, and expect to put in the summer there.

JULIUS

PLETH

THE LAND MAN

Has closed another deal. I have secured the entire stock of Berthon & Armstrong of Red Lake Falls, Minnesota, consisting of

$8000 Worth of Clothing, Furnishings, Hats, Caps and Shoes............

which I will close out in the ***Kaus Building,*** opposite First State Bank.

I have decided to give the public generally the best, biggest, and without a doubt the grandest money-saving sale ever inangurated within a hundred miles. A bargain event that will be remembered, and one not likely to be imitated or attempted by anyone soon again. I have been able to retain Mr. Armstrong's services during the entire duration of the sale, thus giving the public a strong guarantee of courteous treatment and most honorable dealings. This sale will excel all previous sales in point of genuine money-saving possibilities, as Berthon & Armstrong have a reputation of carrying nothing but high grade, dependable merchandise and most of the stock having been bought this spring. I AM KNOWN TO DO AS I SAY

So WAIT! WAIT! WAIT! Till

Saturday, June 8th

Everything for Men, Youth and Boys cut down at and below the cost of manufacturing. Don't spend a dollar for wearing apparel until you see for yourself the truth of this unmatchable sale.

"WONDERFUL"

Will be the only word to truly express the mighty money-saving opportnnity of this big sale.

Sale continues until every article is sold.......

REGAN TRANSFERRED.

Roadmaster Regan of Great Northern Goes To Moorhead.

E. J. Regan, assistant roadmaster of the northern division of the Great Northern railroad, who has had charge of the work on this line for several years past, has been transferred to Moorhead and left Monday for that place to assume his new duties. J. A. Gibson, who has been assistant at Moorhead takes Mr. Regan's place here.

Mr. Regan has lived here with his family for the past two years, and during this time has made many friends among the people of this city. He is one of the best railroad men in the business, and during the past severe winter kept this part of the Great Northern system open, when nearly every other branch and main line was entirely tied up. He has been with the Great Northern practically all of the time for the past twenty seven years and stands high in the opinion of the officers of that company. His new work is in the nature of a substantial promotion, as he will have charge of the work from Crookston to Breckenridge, an important line. His family will remain here most of the summer. THE COURIER joins with the people in the wish that Ed may continue to prosper.

Obituary.

Alexis Grandbois, who died Tuesday of last week, was born at St. Anne, Canada, and was eighty-seven years of age at the time of his death He came to the United States when a young man and lived in various places in the east and west, settling down finally in Lake Pleasant township, twenty-eight years ago. Here he lived until a few years back when he went to Gervais, with his son Treffle, finally coming to town three years ago and remaining here until the time of his death. He leaves two sons, Treffle who resides in Gervais, and Prosper, a resident at the old home in Cansda; several grandchildren also reside in this neighborhood. The old gentleman had always enjoyed good health and his death was caused bv a general breakdown due to old age. The funeral was held from St. Joseph's last Wednesday the remains being laid at rest in the Catholic cemetery, east of town.

NEW LEADER HERE.

H. G. Maxwell, of New York City In Charge of Band.

H. G. Maxwell, an experienced band and orchestra leader and dir etcor from New York city, arrived here Saturday morning to assume the leadership of the local band organization, having been engaged last week by Manager Tracy.

Mr. Maxwell comes recommended as a first-class man in all respects, and at Tuesday evening's rehearsel took hold of the work like an old hand at the business. He plays both cornet and clarinet, and while he will not do much playing and will give his time to directing, yet he is able to help out when needed.

Mr. Maxwell is pleased with conditions as he finds them, and sees no reason why the Red Lake Falls concert band can't easily sustain their well-earned reputation as the prize band of the valley.

Pitcher's Castoria.

J. O. GJERBERG DEAD.

Old Resident Passes Away Yesterday Morning.

J. O. Gjerberg, an old and highly respected resident of Red Lake Falls died at his home on the north side yesterday morning after a lingering illness with catarrh of the stomach.

Mr. Gjerberg had been confined to his home for several months past, but prior to that time had attended regularly to his duties as janitor at the court house, although his health had failed rapidly for several years past.

Mr. Gjerberg was born in Norway Sept. 12, 1836, being nearly seventy one years of age. He was married forty-eight years ago to Miss Julia Solberg, and in 1882 they came to America, settling in Polk county, removing later to a farm near this city. They came into town sixteen years ago, and when Red Lake was set off from Polk county Mr. Gjerbeug was appointed janitor at the court house, a position he held with all the faithfulness of an honest servant up until the time his illness compelled him to retire from active work a few months ago.

Deceased leaves a wife and four children to mourn him, one son, John, and one daughter, Mrs. H. Kriel, reside here, a son resides in Washington and his eldest daughter is still in Norway. Besides these Mr. Gjerberg leaves seven brothers and sisters behind. He was the oldest of a family of eight children, and his is the first death to occur among them.

Mr. Gjerberg was of a kind and generous nature, and his life was filled with good deeds towards his fellowmen. No task was too great for him to undertake when it meant an accommodation for a friend, and today in Red Lake Falls there is a general sorrow that the familiar figure and pleasant voice of friend Gjerberg will be forever absent henceforth.

The funeral services will be held from the family home at 10 o'clock Friday morning, conducted by Rev. H. W. Knox, of the Presbyterian church. The remains will be laid at rest in the cemetery east of town.

The Junior Banquet.

The annual banquet of the Junior class of the Red Lake Falls high school occurred at the I. O. O. F. hall last evening, when the class of 1908 feasted and feted their advanced class mates, who had just completed the high school course.

The banquet was an elaborate one the menu being served in several courses. Between courses appropriate toasts were given, Leland Healy officiating as master of the ceremonies. Eight members of the class of '09 assisted as waiters. The local orchestra was present and discoursed sweet music while the banquet was in progress, and altogether the evening was one of great enjoyment to those present.

By the big ad on the first page of today's paper it will be seen that Julius Pleth, the popular Plummer land man, has bought out the clothing store of Berthon and Armstrong of this city and will close the same out in the Kaus building at cost price. Mr. Armstrong will remain with Mr. Pleth until the stock is sold out. Julius is a hustler and the people here know of no one they would rather see succeed Jim and Paul than the same Pleth. He intends to close out the stock at once and the people will get some rare bargains while they last.

KNOX WILL LEAVE

Presbyterian Pastor Has Been Offered Fine Field at Green Bay, Wisconsin.

Rev. Herbert W. Knox who has been pastor of the Presbyterian church for three years past, has been called by the church at Green Bay, Wisconsin, and has signified his willingness to accept, provided the Presbytery sees fit to release him.

The meeting of the Adams Presbytery will be held at Crookston, on the 17th inst, when the matter of Rev. Knox's resignation will be taken up, and as the new field means so much in advancement to Rev. Knox, it is very probable that he will be released.

Green Bay is a city twenty-five thousand people, beautifully located and is at present growing rapidly. The Presbyterians have an elegant church and manse there, and the new field offers a fine opportunity for Mr. Knox.

The people here are loath to see him leave, as he has been eminently successful in his church work at Red Lake Falls, but they feel that inasmuch as he will be greatly benefitted by the change, they can not reasonably expect to keep him here.

Rev. Knox expects to leave for Green Bay about July 1st, providing arrangements can be completed so that he can get away at that time.

CONSOLIDATE SCHOOLS

Graded School Advantages Given Rural Pupils at No Added Expense.

The question of rural school consolidation is being discussed at almost every meeting of school men. The plan is growing in favor wherever it has been tried. It is claimed for the plan that greater educational advantages is given the pupils and that the added expense is very light, if any, after the plan has been put in operation. The The plan has been in operation in Iowa and in other states, and in several cases in southern Minnesota, and is meeting with success. There are several localities in Red Lake county where the consolidated school plan might be operated very successfully. The plan was discussed at the recent state meeting of county superintendents held at St. Cloud. The Journal-Press says:

One of the interesting subjects taken up at the recent convention of the county superintendents was the consolidation of two or more school districts. The idea is to consolidate the school districts so that instead of having a small one-room school, semi graded or even graded schools can be installed. According to the present system the rural schools have but one room and one teacher must teach seven or eight grades at once. If the districts are brought together there will be more pupils for each school and consequently more money to pay for the expenses. Two or three teachers can be employed and it is believed that more attention will be given to the pupils attending. At the present time there are only two or three instances of consolidated districts in the state. Supt. Howard of Olmstead county reported that there are two or three cases of this kind in his county. He reports that the new system is meeting with great success and the taxpayers would not change back to the old system even if the expense were smaller. He states that when the pupils live very far from the schools omnibusses are used to convey them to the school and home again.

In some sections of the state the plan is meeting with opposition. Many of the farmers object because of the method of conveying the pupils. This is only true, however, in some sections. The school men stated at the convention that they would take the matter up with the people.

THE COURIER

JOHN E. KING, Pulblisher.

RED LAKE FALLS, MINNESOTA

NEWS OF WEEK SUMMARIZED

IMPORTANT EVENTS AT HOME AND ON FOREIGN SHORES BRIEFLY TOLD.

Washington.

Ships of the Pacific squadron have won highest honors of the United States navy for every class of which it contains a vessel. The Boston, a cruiser, has won the trophy over every ship in the entire navy for the highest general average made in target practice for this year.

The United States cruiser California has been towed from the Union Iron works to the Mare Island navy yard, where the big warship will be completed. On account of the strike of ironworkers the Union Iron works people were unable to go ahead with the almost finished cruiser.

There is good reason to believe that formal announcement will soon be made by the interstate commerce commission of its intention to inquire into the charges that the Standard Oil company, in operating its 40,000 miles of pipe line, is flagrantly violating the provisions of the new railroad rate act.

Personal.

Capt. August P. Piper, a prominent educator, died at Newberry, S. C. He was a member of Gen. R. E. Lee's staff.

Rev. Dr. James Patterson Sankey, aged sixty-eight, died at his home in Rochester, N. Y. Dr. Sankey was the oldest pastor in point of service in that city.

Former Governor George G. Sill of Conecticut died at his home at Hartford, Conn., following an attack of locomotor ataxia. He was seventy-seven years old.

A romantic courtship culminated at Dubuque in the marriage of Brad Hopkins, alderman-at-large and manager of the Wales hotel, and Miss Nellie Melroy, head waitress of the hotel.

Rev. Walter J. Hill, S. J., aged eighty-five, instructor in philosophy at St. Louis university, died in St. Louis. He was known as one of the most profound students of philosophy in the country.

Emperor William has conferred the crown order of the second class on Dr. Francis Greenwood Peabody, professor of Christian morals at Harvard university, who was selected by the University of Berlin as the first professor from Harvard in the international exchange of professors, which began in 1905.

Sir Benjamin Baker, one of the world's greatest engineers, is dead in London. It was he who invented the pneumatic shield which rendered so much assistance in tunneling under rivers. The two engineering works by which he will be best remembered are the Forth bridge in Scotland and the Assuan dam.

Foreign.

Gen. Carlos Roloff, treasurer of Cuba, died at his home in Guanabacoa after an illness of a few days.

Thomas J. O'Brien, American minister to Denmark, who will become ambassador to Japan in September, and Mrs. O'Brien, will leave for London June 5.

Baron von Heemstran, a member of a well known Dutch family, who was captured outside Smyrna May 13, has been released on the payment of a heavy ransom.

The 200th anniversary of the birth of Carolus Linnaeus, the Swedish botanist, was celebrated with imposing ceremony at the University of Upsala, at Upsala, Sweden.

The Stromboli and Mount Etna volcanoes are active again, especially Stromboli. Deafening explosions are of constant occurrence and the population of the island is in terror.

Owing to the many duties requiring her attention, Queen Victoria has given up the idea of nursing the prince of the Asturias and a nurse has been obtained for him from the province of Santander.

A tipsy laborer named Bruenning, who one morning last November put out his tongue at the kaiser as his majesty went by in an automobile, has just been condemned to nine months' imprisonment.

A detachment of Turkish troops May 19 succeeded in capturing the stronghold of the Bulgarian bands in the Yenidje lake region. The Bulgarians lost fifty men, due, it is alleged, to the fact that the Turks killed their prisoners. The Turkish loss was seven men killed.

Casualty.

Three young college students, two men and a girl, were drowned in an accident on Lake Washington, at Seattle.

Two persons were dangerously injured and twenty others slightly hurt when the Chesapeake & Ohio flyer was wrecked at Lawrence creek, near Cincinnati, the sleeper being thrown into the ditch by the buckling of the track under it.

Returning home at an early hour, John Erickson of Sault Ste. Marie, Mich., found his dwelling in flames. He fought his way through the flames to a bed room where his wife and baby girl were asleep. Wrapping them in blankets he again broke through the fiery wall and saved their lives. All sustained severe burns.

A passenger train crashed into a traction car at Cincinnati. One man was killed and two were seriously injured.

The Jermyn Breaker No. 2 of Old Forge was completely destroyed by fire at Scranton, Pa. The loss is about $150,000.

Mrs. N. V. Tyrell was instantly killed in Rice township, near Leon, Iowa, by the upsetting of a buggy in which she was riding.

A terrific and destructive electrical storm passed over Menominee, Mich., doing considerable damage in the country districts.

A passenger train went into the ditch near Hillsboro, Ga., and twenty-three persons were injured, none, it is reported, seriously.

While bear hunting near Neihart, Mont., John Govander, a miner, was accidentally shot by one of his companions and probably fatally wounded.

Frank Ellgeyer of Greenwood, Mich., was struck in the eye with a pitchfork, inflicting severe injuries. He is in a critical condition at the hospital.

Two children of John Goodlin were suffocated at Scott Haven, near Greensboro. A lamp left in the room where the children were sleeping had exploded, setting fire to the furnishings.

Five fatalities have occurred in mines at Negaunee, Mich., the past fortnight, the latest being James Marga and Frank Livere, killed by falling ground in the Cambria property of the Republic Iron and Steel company.

Criminal.

Four cracksmen blew the safe of the Winnebago City (Neb.) bank, getting away with money and securities worth $2,000.

Carlo Ciardi, who was convicted in Ithaca, N. Y., of the murder of Luigi Porzi on Nov. 30, 1904, was electrocuted in Auburn prison.

Clyde Fitch, a negro, charged with assaulting a ten-year-old negro girl at Chickasha, I. T., was tried by a jury of negroes and sentenced to the penitentiary for life.

Fearing that he was about to lose his sanity, Herbert Sanders, a wealthy retired farmer near Charles City, Iowa, committed suicide by taking carbolic acid and paris green.

Edward Manning, proprietor of a restaurant at Portland, Mich., was murdered while on his way home from his establishment. He was shot in the back. Robbery was evidently the motive of the crime.

A. A. McGehee shot and killed Geo Oyler, aged twenty-one, son of a prominent merchant at Southwest City, Mo. Oyler had been keeping company with McGehee's daughter against the father's wishes.

Ralph Beard, twenty-one years old, committed suicide at Bonaparte, Iowa, by shooting himself through the head with a revolver. He told several of his young friends that he intended to kill himself, but they thought he was jesting and made no effort to stop him.

H. P. Axelberg, an expert accountant, has just finished going over the accounts of Former Secretary Fred C. Wells of the school board of Iron River, and alleges that more than $4,000 was secured during the Wells regime by forged orders and other forms of crookedness and graft.

Two hundred Purdue students broke up the performance in a circus side-show at Lafayette, Ind., and afterward gathered to make an assault on the big show. A skirmish with circus employes followed, in which a number of the students were badly battered up. No serious injuries were reported.

Domestic.

Homer Williams of Menominee, Mich., caught a sturgeon in a pound net that weighed 100 pounds and measured six feet in length.

May Irwin, the comedienne, has confided to her friends in New York that she is about to marry Kurt Eisfelt, her manager for the last two seasons.

Fifty-two cadets were summarily expelled from the Blees military academy at Fort Blees, near Macon, Mo., because of insubordination resulting from the efforts of the authorities to break up secret societies.

Contracts were signed by the city officials of Menominee, Mich., and various contractors whereby the city will expend $160,000 for municipal improvements, principally street work, during the present season.

A request for an advance of 10 per cent in wages will be served on all mill owners in Rhode Island who have not already signified their intention of following the lead of Fall River and New Bedford in advancing wages.

Bishop Berry of the Methodist church, president of the Epworth league, in a sermon in Philadelphia, said Methodists must relax their discipline and permit dancing and card playing.

Maj. Edwin H. Conger, former United States minister to China and ambassador to Mexico during the early part of President Roosevelt's administration, died at his home in Pasadena, Cal., from acute intestinal trouble. He was sixty-four years old.

The immigrant faces an increase in steerage rates from Europe within six weeks, when the United States law increasing the head tax from $2 to $4 for every alien entering the country goes into effect.

Mayor Busse of Chicago, in an attempt to "renovate" the "tenderloin" district of Chicago, made the most sweeping change ever made in the local police department. He transferred the entire police force in the district from captain down, embracing 240 men, to other parts of the city and appointed other men.

ASKS PRESIDENT TO APOLOGIZE

THE AUTHOR OF ANIMAL BOOK CHARGES ROOSEVELT WITH INJUSTICE.

THE ISSUE IS ONE OF TRUTH

DR. LONG RESENTS ATTACK ON STATEMENTS IN HIS ANIMAL BOOK.

Stamford, Conn., May 30.—Dr. William J. Long yesterday made public a letter sent by him to President Roosevelt. The letter says in part:

"To His Excellency Theodore Roosevelt, President of the United States—Dear Sir: The issue between you and me is no longer of animals but of men. It is not chiefly a matter of natural history but of truth and personal honor. In a recent magazine article you deliberately attack me as well as my book.

Vouches for Accuracy.

"In my book I have given the result of long years of watching animals in the wilderness, with no other object than to study their habits, and so far as man can, to understand the mystery of their dumb life.

"If I have spoken falsely, if in book or work of mine, I have intentionally deceived any child or man regarding animal life, I promise publicly to retract every such word, and promise never to write another animal book. On the other hand, if I show to any disinterested person that you have accused me falsely you must publicly withdraw your accusation and apologize.

Wolf Kills Caribou.

"You base your recent charges chiefly on the matter of a big white wolf killing a young caribou by a bite in the chest, described by me in 'Northern Trails.'

"You declare the thing to be a mathematical impossibility, and declare 'not possibly could a wolf perform the act.'"

Dr. Long declares he knows from his own observation and from the testimoney of Indians that wolves do sometimes kill in this way, and quotes from signed statements to support his contention.

Asks Square Deal.

Continuing Dr. Long said: "If your talk of a square deal is not all a sham, if your frequent moral preaching is not hypocrisy, I call upon you as president and as a man to come out and admit the error and injustice of your charge in the same public way in which you made it."

PACKERS LOSE FIRST SKIRMISH.

Post-Mortem Inspection Prevents Their Buying Single Cow.

Chicago, May 30. — Because of the enforcement of their new rule requiring post-mortem inspection of cows and heifers as a condition of purchase, only the high-class grades of beef were sold at the stock yards yesterday for the Chicaeo trade.

It was the first day of the enforcement of the post-mortem rule, and the first skirmish between the packers and the shippers of live stock and the commission men. The big packing firms did not succeed in buying a solitary cow or heifer, according to the commission men, at the close of business.

All Sold Elsewhere.

None of the 3,000 animals numbered in the list of the day's receipts as "cow stuff" remained unsold, however, all being sent to other cities, and on this showing the commission men insisted that the big firms were routed in the first skirmish.

The sales, however, were at prices from 10 to 20 per cent below the range of prices at the close of last week's market.

In this slump the big packers professed to find evidence of their power. They were not sanguine of the final outcome, however, the commission men's failure to get "stuck" on the day's receipts being an unlooked-for development.

Keep Off Chicago Market.

Causes that contributed to the success of the commission men in their efforts to sell out everything were the co-operation of the shippers in the country and the demands of the "independent" trade. Renewed appeals to the country buyers and shippers to "keep their cows and heifers" out of the Chicago market for the present were sent out over the wires.

Angry Negro Uses Knife.

Denver, Colo., May 30.—Angered by comments said to have been made against his race, an unknown negro plunged a knife into the breast of Fred Thomson, an employe of the Western Packing company, fatally injuring him, last night. The assault occurred on a crowded street car.

Lake Sailor Drowned.

Sault Ste. Marie, Mich., May 30. — The steamer Mahanna, which passed the locks early yesterday reports that while in the storm on Lake Huron Seaman Bert Cable was washed overboard and drowned.

Got Away From Trouble.

Mason City, Iowa, May 30. — Mrs. Joe Navrital hanged herself to the rafters in a barn last night at her home near Plymouth. She left a letter stating that she wanted to get away from trouble.

INSURANCE MAN IS INDICTED

FORMER CRONTROLLER JORDAN OF THE EQUITABLE CHARGED WITH FORGERY.

New York, May 30.—The May grand jury, which has been investigating the affairs of the Equitable Life Assurance society, yesterday returned eighteen indictments against Thomas D. Jordan, formerly controller of the Equitable. Perjury and forgery in the third degree are charged. No indictments were found against the present officials of the society.

As in the case of John R. Hegeman, president of the Metropolitan Life Insurance company, who was indicted by the same grand jury, the indictments against Jordan are based on year-end transactions recorded in the books of the Equitable while Jordan was its controller. These consist of entries made prior to the annual report to the state department of insurance, and designed, it is charged, to mislead the superintendent of insurance as to the real condition of the company. Specifically the forgery indictments are founded on bookkeeping alterations and the charges of perjury on statements made to the insurance department.

ATTEMPT MURDER OF DOCTOR.

Dangerous Infernal Machine Is Sent by the "Black Hand."

New York, May 30.—Detectives are trying to obtain a clue to the sender of a dangerous infernal machine which was received yesterday by Dr. M. D. Dadirrian, a local physician. When the machine was opened at police headquarters it was found to contain three shells loaded with shot, arranged to explode when the lid of the box was lifted. On the inside of the box was drawn a crude skull and crossbones, with the following scrawl:

"We hope this will kill you. If it does not, we will get you yet.

—"Black Hand."

Dr. Marker G. Dadirrian is an Armenian and a physician of standing. For some time he has received "Black Hand" letters, in which demands for $10,000 were made. The police had been notified of the threats, and the physician has remained on his guard.

Dr. Dadirrian said that he could account for the plot only on the ground that because of his name he had been mistaken for an Italian from whom money might be extracted by "Black Hand" murderers.

ORDERS VOLIVA TO VACATE.

Receiver Notifies General Overseer to Give Up Zion Buildings.

Chicago, May 30. — General Overseer Voliva, who succeeded in ousting John Alexander Dowie from control of Zion City, has been ordered by Receiver John C. Hately to vacate all leases of buildings May 31.

This action was taken yesterday by Mr. Hately as a climax to a bitter quarrel between Voliva and the president of the Zion City bank. Voliva presented his check at the bank for $1,800 and demanded payment at once. The bank official declined to comply until he had some advice from Receiver Hately in the matter. When informed of Voliva's actions Receiver Hately ordered the cashier of the bank to withhold all moneys from Voliva, and then notified Voliva that, commencing June 1, the leases held by him on the tabernacle, administration building and public schools would expire and that Voliva must relinquish his control of them.

CUT OFF NEW YORK GAS.

Corporation Counsel Begins Action to Oust Companies.

New York, May 30.—Suit to compel the Consolidated Gas company and the eight other companies doing business in this city to relinquish their franchises and to take from them all the permits to use the streets which they now enjoy, was begun in the supreme court yesterday by Corporation Counsel Ellison on behalf of the city.

The corporation counsel alleges that all of the franchises originally granted the gas companies, with two exceptions, have expired by limitation.

Hundred Chinese Are Drowned.

Victoria, B. C., May 30.—News was brought from Shanghai that during the Ta Wang Miamo festival an immense crowd of spectators were on the bridge over Soo Chow creek and the police forcing back the crowd caused the mass to press against the flimsy rail, breaking it, with the result that over a hundred were thrown into the water and drowned.

Big Liner Runs Aground.

New York, May 30. — The North German Lloyd steamship Kaiser Wilhelm der Grosse inbound ran aground on the west edge of the main ship channel at 11:15 o'clock last night. She is resting easy and in no danger. It is believed that she can be floated without assistance at the next high tide.

Celebrates 102d Birthday.

Pana, Ill., May 30.—Dr. W. T. Lynn who has been a prominent physician here for years, celebrated the 102d anniversary of his birth yesterday by entertaining 500 guests at dinner. He is apparently hale and hearty.

Insane Girl Shoots and Burns.

Chicago, May 30. — Miss Philaner Swinnen, thirty years old, believed to be demented, shot and killed her mother, attempted to kill her father and then set fire to her garments and was burned to death.

PRESIDENT TALKS ABOUT RAILROADS

ADVOCATES COMPLETE CONTROL IN SPEECH IN INDIANAPOLIS.

LAWTON MONUMENT UNVEILED

PRESIDENT AND VICE PRESIDENT DELIVER ADDRESSES AT CEREMONIES.

Indianapolis, June 1. — President Roosevelt yesterday delivered the principal address at the unveiling of a monument to Gen. Henry W. Lawton. The speech was devoted to a discussion of railway problems and incidentally paid a warm tribute to Oliver P. Morton, the war governor of Indiana.

The president arrived at 10:48 a. m. from Canton, Ohio, accompanied by Vice President Fairbanks, and was driven to the Fairbanks home, where luncheon was served, after which he was escorted to the court house square by three battalions and a battery of United States troops, thirteen companies of the G. A. R. and other organizations. The parade route of two miles was lined with cheering masses of people.

Wants Government Control.

In his speech the president advocated the government regulation of railroads. Briefly outlined, his suggestions are: Give the government full control of interstate traffic; subject mail carrying roads to the same supervision; provide supervision of bond and stock issues; seek protection of investors in railroads; demand complete publicity in all business; hold officers criminally liable for misusing funds; permit traffic agreements benefitting the public; avoid confiscation of railroad property; secure shorter hours for train operators; provide for physical examination of roads; perfect uniform accounting system.

The president declares that census reports tend to show that railroad properties are worth as much as the securities representing them.

The Good Railroad Man.

According to the president the good railroad man operates his road for permanent profits; keeps in touch with people along the line; not so familiar with speculative market; seeks fair return for stockholders; does not seek temporary advantage; treats road as business, not speculation.

Vice President Fairbanks made a short adderss following the president.

At the conclusion of the exercises the president and vice president were driven to Crown Hill cemetery, where the president placed a wreath on the grave of Former President Benjamin Harrison.

The train bearing the president left here for Fort Wayne, Ind., where he was to pass the night on his car. Stops were made at Anderson and Muncie.

WRECK IS FATAL TO FOUR.

Trolley Car, Crowded With Holiday Passengers, in Collision.

Elyria, Ohio, June 1.—Four persons were killed and thirteen injured in a rear-end collision on the Cleveland & Southwestern traction road here last evening. The front car was filled with holiday excursionists, nearly all of whom received more or less serious injuries. Within a few minutes ambulances and doctors were summoned and the wounded taken to the Elyria hospital, where two of the injured subsequently died. Eight of the remaining thirteen had both legs cut off, one lost one leg and still another had both legs broken.

Motorman Fraundu, who was in charge of the car which caused the wreck, was arrested on a warrant sworn out by Prosecutor Stevens, charging him with manslaughter.

CLASS FIGHT ON ROOF.

Baseball Bats Used as Weapons in Scrimmage at Alton, Ill.

Alton, Ill., June 1. — Class rivalry resulted in ten youths in Upper Alton getting in a desperate fight with baseball bats on the roof of the high school building, sixty feet from the ground.

During the struggle one of them, Earl Megon, was struck on the head with a bat and knocked over the low rail that surrounded the roof.

Only the timely cessation of hostilities and the presence of mind of his antagonists prevented the young man from plunging to the ground.

Hermit Found Dead.

Grand Rapids, Wis., June 1. — Jack Sanderson, a hermit, who lived alone and apart from any neighbors, near Linwood, was found dead in his bed. He had lived in the neighborhood of Linwood for upwards of twenty years, and was always considered a recluse.

Cornell Defeats Harvard.

Ithaca, N. Y., June 1. — Cornell's 'varsity eight-oared crew defeated Harvard by three-quarters of a length late last evening in a thrilling two-mile race on Lake Cayuga. The official time was: Cornell, 11:01; Harvard, 11:03 1-2.

Kills Self on Wife's Grave.

Waukesha, Wis., June 1.—Dr. J. K. Jamison of Chicago committed suicide by shooting at the grave of his wife at the Catholic cemetery in the town of Genessee yesterday.

MEAT TRUST ROBS THE PUBLIC

SCHEME EXPOSED BY WHICH PUBLIC IS FORCED TO PAY FOR SHORTAGE.

New York, June 1. — A gigantic scheme by which the meat trust robs the public was revealed in the Myrtle avenue police court, Brooklyn, when Harry Schmidt, an employe of Armour & Co., the Chicago packers, was arraigned on a charge of having sold meat at short weight.

The arrest of Schmidt followed an extensive investigation made by inspectors of the bureau of weights and measures. They have found that on every box marked as containing fifty pounds of chickens there is a shortage of four pounds or more. The trust will only sell at "box weights."

Butchers throughout the country are paying 16 cents a pound for boxes supposed to contain fifty pounds of chickens. They receive only forty-six pounds and so lose 65 cents on every box.

It is necessary for the butchers to add this additional cost to the retail price, so the public has to foot the bill. This practice has been going on for nearly a year, but the butchers have feared to take action, knowing that the trust would retaliate by discriminating against them.

Magistrate Naumer, before whom the case against Schmidt was up for hearing, was indignant at the revelations made.

"I will hold this prisoner for trial in the general sessions," he said, "and in the meantime I trust steps will be taken to bring an action against the officials of Armour & Co., who have guilty knowledge of this fraud."

KIDNAPPING IS ALLEGED.

North Dakota Authorities Are After an Owatonna Man.

Fargo, N. D., June 1.—North Dakota officials are after Hans Yeager, said to be a representative of an orphan asylum at Owatonna, Minn. Some years ago G. R. Stowell and wife separated in St. Paul and were divorced. The children were placed in the orphan's asylum in Owatonna by the mother. Later the father brought them to Tower City, in this county. Two weeks ago it is claimed that Yeager went to Tower City and with the assistance of Ed Hill, a hackman, kidnapped Stowell's nine-year-old son and took it back to Owatonna. Hill has been arrested and efforts will be made to have Yeager arrested.

BOLD ATTEMPT AT HOLD-UP.

Would-be Robber Captured After Exciting Chase.

St. Paul, June 1.—A daring attempt to hold up the saloon of M. Solomon, 439 1-2 Robert street, was made at 11:40 last night and miscarried through the prompt arrival of several policemen and street car employes.

Charles Duncan, the bartender at the saloon, was slightly scratched on the right hand while trying to stop the bullet that was fired at him. The man accused of doing the shooting was captured after an exciting chase, during which the fugitive fired one shot.

FLOOR COLLAPSES.

Child Is Killed and Several Persons Are Injured.

Wilkesbarre, Pa., June 1. — At the laying of the corner-stone of St. Mary's Greek Catholic church yesterday afternoon a temporary flooring collapsed, precipitating about sixty persons into the cellar, twelve feet below. A five-year-old child of Kasper Kallunsky of this city, who was among the injured, died last night. Among the injured were six priests.

YOUNG BRAKEMAN KILLED.

Falls From Engine on Range and Is Run Over.

Eveleth, Minn., June 1. — Charles Kavender, seventeen years old, was killed while braking on a dinky engine for Drake & Stratton at the Fayal mine stripping.

Will Be the Arbiters.

Washington, June 1. — Mexico and the United States will arbitrate all future differences between Salvador and Honduras, the two nations having agreed to obligatory arbitration in a treaty negotated at Amapalo after the recent war between Honduras, Salvador and Guatemala.

Crushed to Death.

Two Harbors, Minn., June 1.—William Kivora, a mine laborer at the Winifred iron mine, was caught between a post and an ore car and crushed to death. He was so badly injured that he died before medical aid could arrive.

Kernel Chokes Child.

Aberdeen, S. D., June 1. — Frances Vellor, the five-year-old daughter of Anton Vellor, is dead as the result of swallowing a kernel of corn. The kernel lodged in the child's trachea and in spite of the efforts to dislodge it slowly choked her to death.

Out of Work; Ends Life.

Deadwood, S. D., June 1.—Despondent because he could not find work, Soren Rasmussen, better known as "Coal Oil Johnny," shot himself through the head while lying on his bed, dying instantly.

Fears Whitecaps' Lash.

Muscatine, Iowa, June 1. — Terrified by the threats of whitecappers and stricken with remorse at the ill treatment he had given his wife, Edward Kerbal last night ended his life by hanging.

News of the Northwest

DIETZ MAKES FRIENDLY CALL

FIRST VISIT OF CAMERON DAM MAN TO WINTER FOR TWO YEARS.

Chippewa Falls, Wis., May 28.—After a separation from the world for two years. John Dietz and his son Clarence caused a sensation yesterday afternoon at Winter by appearing among the residents. They said they were unarmed and had come to shop and learn how the world is getting along.

Practically every resident gathered about him, some of whom were members of Sheriff Clark's posse, to hear him relate his story.

He said he had friendsship for friends, but bullets for trespassers on his farm or persons attempting his arrest. He ridiculed the recent grand jury's action and tabooed the story that he is insane. He did not take seriously Sheriff Clark's declaration to raise 100 men to attempt his capture. and if it were true. he said, Clark's venture would only be another farce.

Dietz remained in Winter two hours and said he would hereafter make frequent visits there.

MYSTERY IN DEATH.

Body of a Woman Is Found in Lake Superior.

Duluth, Minn., May 28. — Mystery surrounds the fate of Mary Pierce, at least that is supposed to be her name, for she left a letter addressed to Gertrude Pierce, supposedly her sister, which was in the little handbag found near the body in the waters of Lake Superior near Seventieth avenue east yesterday afternoon by a stroller on the beach. It appears that she was not a Duluth woman and where her home was has not been established.

The once handsome face was severely bruised, and the question arises did the young woman commit suicide or was she the victim of foul play, and the letter a blind to lead the authorities to believe that it was a case of suicide.

BIG FIRE AT DECORAH, IOWA.

Neish & Sons, Dry Goods, Have Loss of $30,000.

Decorah, Iowa, May 28.—The worst fire Decorah has experienced in several years occurred last night, when A. Neish & Sons' dry goods stock was almost totally ruined and Larsen Bros., clothiers, sustained a large loss from water.

Neish & Sons carried a stock of about $40,000, on which there was $28,000 insurance. Local insurance men estimate the loss at about 75 per cent of the value of the stock.

Larsen Bros. carried a stock of about $15,000 and insurance of $9,000. The salvage here will be larger than on the Neish stock.

PANIC AT PICTURE SHOW.

Audience Frightened When Films Take Fire.

Williston, N. D., May 28. — A wild panic among women and children occurred in a local theater when the films of a moving picture machine caught fire.

The audience, mostly women and children, made a wild rush for the exits.

There was one or two cool-headed men in the crowd and they managed to allay the fright of the others before any one was seriously injured.

BOLT SHOCKS PARTY.

Lightning Adds Fireworks to Birthday Celebration.

Winona, Minn., May 28.—Lightning struck the residence of Davie Ball, in the town of Clyde, during a party given by Mr. Ball to celebrate his twentieth birthday anniversary. The entire company was shocked, but no one was seriously injured.

Falls Into Bonfire.

Hopkinton, Iowa, May 28. — Lloyd Huggins, three years old, son of a farmer living near here, was burned to death by falling into a bonfire.

Took Carbolic Acid.

Fergus Falls, Minn., May 28.—Chester Blood, a young man of this city, took a large dose of carbolic acid and died in a few minutes.

Killed In Runaway.

Miles City, Mont., May 28.—Samuel Miller, an employe of a ranchman near Shirley, was killed in a runaway accident on the ranch.

Baby Gets Poison.

Keota, Iowa, May 28. — Mistaking strychnine tablets for candy, Della Snyder, three years old, ate two and died two hours later.

Dines Heartily; Kills Self.

Charriton, Iowa, May 28. — J. E. Brown, prominent business man, after partaking of a hearty breakfast yesterday morning, went to his room and put a bullet through his brain. It is rumored that a sudden financial worry caused him to take his life.

Wins Gold Medal.

Frazee, Minn., May 28. — The gold medal contest was won by Miss May Rossmiller of Vergas, who will represent Frazee in the grand gold medal contest at Fergus Falls next month.

RUN TRAINS BY JANUARY.

President Earling Talks of Milwaukee's Extensions.

Milwaukee, May 30.—President A. J. Earling and a party of other officials of the Chicago, Milwaukee & St. Paul Railway company arrived in Milwaukee yesterday from a trip of inspection in automobiles over the route of the Pacific coast extension of that system. President Earling denies that there will be any cessation in the building of the big system.

Trains will be running between the Missouri river and Butte by Jan. 1, 1908, Mr. Earling says.

HERO AT THREE YEARS.

Boy Plunges Into Flood and Saves Tiny Girl.

Maitland, S. D., May 30. — Martin Berg, Jr., aged three years and five months, is probably the youngest hero in this state. While Gladys Swallow, aged three years, was crossing a creek which had been greatly swollen by the recent rains she lost her balance and fell in. Martin happening to pass along just as the accident occurred plunged into the water, seized her dress, and in some miraculous manner managed to get her safely to shore.

ENGINE FUMES KILL.

One Man Is Asphyxiated and Another Is Found Unconscious.

Lewistown, Mont., May 30.—Arthur Woods was asphyxiated and Everett Hall was rendered unconscious in a peculiar manner near the mouth of the tunnel of the Billings & Northern road near Stanford. Wood had charge of a gasoline engine and Hill was his helper. They used a small house built over the engine as a sleeping place, and in some way fumes from the engine got into the place where they were asleep and suffocated them.

SHEEP CAMP RAIDED.

Herders Bound and Beaten by Masked Men.

Billings, Mont., May 30.—News has been received here of another raid on a sheep camp in the range country west of Casper, Wyo. The sheep and camp equipage were not seriously damaged, but the herders were tied up and assaulted.

The raid was made by fourteen masked men, armed and mounted.

DEAD IN CISTERN.

Woman Missing Fifteen Months Is Found in Hotel Reservoir.

Linwood, N. D., May 30.—The body of Mrs. Wallin, who disappeared Nov. 30, 1906, was found yesterday in a cistern at the Merchants hotel by Miss Ada Keeley. Miss Keeley came here from Minneapolis Oct. 1, 1906. Mrs. Wallin lived twelve miles southwest of Lidgerwood.

BULL ATTACKS GIRL.

Three of Child's Ribs and One of Her Legs Are Broken.

Huron, S. D., May 30.—While herding cattle a few days since, during the absence of her father, the thirteen-year-old daughter of Herman Koplin, was attacked by a vicious bull and severely injured. Three ribs were fractured and one leg was broken above the knee.

FALL MAY PROVE FATAL.

Workman Is Knocked From Boom and Badly Injured.

Washburn, Wis., May 30.—While at work at the dock of a fuel company in this city, Matt Charron was knocked off the boom and fell a distance of thirty feet to the boat beneath. The man's head was badly injured and there its little chance of his recovery.

Foul Play Suspected.

Fargo, N. D., May 30. — The floater found in the river Sunday has been identified as Gust M. Thorne, a machinist of the Northern Pacific, who had been missing three weeks. There are many injuries on the body, but the coroner's jury has not determined the cause of his death. Foul play is suspected.

Prying Costs Finger.

Manchester, Iowa, May 30.—Curiosity proved disastrous to Charles Furman, a traveling salesman. Furman found a dynamite cap and thinking it was a rifle shell he picked at it with a toothpick. An explosion followed which cost Furman one finger and badly shattered his hand.

Jury Gives Him $7,750.

Winona, Minn., May 30. — In the United States court the jury returned a verdict of $7,750 in the suit of John Moore against the Chicago, Milwaukee & St. Paul railway for broken limbs caused by the breaking of a derrick on a car on which he was working.

Jury for Kaufmann Case.

Flandreau, S. D., May 30.—A special venire of 120 jurymen has been drawn by order of Judge Smith for the Emma Kaufmann case, which will be tried here June 4. It is not likely that it will be difficult to get an unbiased jury in this county.

Residence Burned.

Glenwood, Wis., May 30.—The residence of B. Brickley, in this city, burned to the ground, entailing a loss of about $1,800, with insurance of about $1,100.

IN MEMORY OF HEROS OF WAR

Minnesota Monument on Vicksburg Battlefield Is Dedicated.

The handsome obelisk that stands as Minnesota's memorial in the National Park at Vicksburg was dedicated Friday in the presence of Gov. John A. Johnson of Minnesota and Gov. James Vardaman of Mississippi, representatives of the national government and officials of various states. Weather conditions were perfect, and a large assemblage witnessed the ceremonies.

Addresses were made by Governors Johnson and Vardaman, Gen. A. E. Carman, who represented the secretary of war, and Gen. Lucius F. Hubbard, former governor of Minnesota.

STATUE OF "PEACE" AT BASE OF SHAFT.

The bronze figure of "Peace" at the foot of the monument was unveiled by Mrs. John A. Johnson, wife of the governor of Minnesota, and Miss Aletha Vardaman, daughter of Gov. Vardaman. Patriotic songs were sung by the school children of Vicksburg, and a national salute was fired by the Warden light artillery of Vicksburg when the monument was unveiled. The monument is of Southern granite, erected at a cost of $25,000. It is the conception of William Couper of New York.

Gov. Johnson's Address.

Accepting the memorial for the state, Gov. Johnson said:

"We are gathered here to-day to dedicate this memorial to the memory of the sons of Minnesota who participated in the siege of Vicksburg, and who were preferred from among their comrades to offer up their lives as a sacrifice upon the altar of our country. I appreciate that nothing we can say or do will add to the luster of their achievements; that what transpires on this occasion will go unnoticed by them, and yet, little as it is, the state we represent could not do less than to erect a shaft to the memory of our heroic dead.

"It is not my purpose to review and revive the incidents of the sanguinary conflict of a half century ago; it is not my intention to discuss the isssues which led up to the greatest civil war which the world has ever seen; it is not my desire to boast of victory which may have come to one side or to exult in defeat which fell to those less fortunate. We come as American citizens, bringing garlands of love and affection to the departed sons of our own great state.

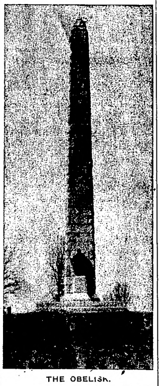
"Here they sleep with those against whom they contended. They, at least, are in perfect peace. The cause over which they struggled is at an end. It needs no champion, it needs no defense, it invites no controversy; the war of the Rebellion is long since at an end. All who participated in it were Americans. The valor of the one was equal to that of the other. The conscience of the one was as the conscience of the other. Right or wrong, the struggle was by brave men.

Glories and Responsibilities.

"Out of it came the present America, the greatest country which the world has ever known. Out of it grew great responsibilities which rest upon those who enjoy its blessings and its privileges to-day. Mighty and glorious, America sheds its ray of light upon millions of happy freemen. The nation offers its protection and its opportunity to all who seek to enjoy its institutions. In these blessing we cannot participate unless we are willing also to share the responsibilities.

"Our country, east, west, north and south, has enjoyed a development during the past half century unparalleled in the history of nations. The future growth and advancement of our citizenship and of our material resources rest entirely with the population itself. As Americans, we must act in concert for all which tends to promote the development of our institutions. We may differ as to theories and methods, but we muse be agreed in the one idea that America must reach her perfect grandeur through the patriotism of her people—a patriotism not necessarily the result of conflict, but of patience and self-sacrifice; of earnest endeavor, of conscientious effort, of honesty of purpose.

"American has had its first and last great civil conflict. The monument erected here on this field is not to perpetuate and keep alive the spirit of war, but is a monument to the peaceful relation which must exist in the future between all our people.



THE OBELISK.

An Emblem of Peace.

"As the tinted rainbow is a sign that the floods shall never again overcome the earth, so this shaft is an emblem of peace and a declaration that henceforth and forevermore Americans shall never again oppose each other by force of arms, but only in a spirit of rivalry for the uplift of all humanity.

"It will ever stand to tell the passerby that brave men did not falter in their duty, and to admonish future generations that duty well and bravely done becomes the true American citizen. It will also tell the story of our gratitude to virtue and to sacrifice and teach men that the people who comprise states and nations are not ungrateful; that heroes are thus remembered for their contribution to the wonderful fabric of that independence which quickens national life."

In Minnesota

State News of the Week Briefly Told

By a vote of 102 to 15 Slayton voted $10,000 to build an addition to its school house.

A new postoffice has been recommended at Spooner, with George E. Davis as postmaster.

Ora Gibbs, thirty-eight years old, single, committed suicide by hanging himself at Lewiston.

Frieda Schafer, aged seven years, died at Frazee from heart failure caused by jumping rope.

A new postoffice has been recommended by Halvor Steenerson at Spooner, with George E. Davis as postmaster.

Henry Hunke, a young settler formerly living on his claim on the Rapid river, near Clementson postoffice, has disappeared. Murder is feared.

William Shearn was found dead beside the Burlington track at Winona, he having apparently been run down and killed by a train in the night.

Ole Olson Aasby, a laborer, was instantly killed at Bagley by the eastbound Great Northern passenger train. His body was terribly mutilated.

The saloon on Second street at Little Falls, owned by John McDonald, was entered by some unknown party or parties and the safe robbed of $128 in cash.

After a trial of one day, Claude Lee was convicted of perjury at Albert Lea and Judge Kingsley sentenced the prisoner to the penitentiary for two years.

W. M. Murray has brought a $5,000 damage suit abainst Lake City for alleged injuries received by being thrown from his buggy, owing to a defective street.

The majority of Southern Minnesota liverymen are now organized. They met at Lanesboro and perfected an organization known as the Liverymen's Association of Minnesota.

Rev. Thomas Broomfield, pastor of the Bemidji Baptist church, has tendered his resignation and accepted a call to officiate as pastor of the First Baptist church of Kasson, Minn.

A severe electric storm passed over Pipestone recently. Lightning struck the home of A. E. Woodman, damaging the property to some extent, but none of the occupants were injured.

Fire destroyed the dry kiln and shaving sheds of the Eddy Sash and Door company, Thirteenth avenue northeast and Jackson street, Minneapolis. The loss amounts to $4,500.

Edward Zeimpel, a young farmer of Blue Earth county, is wanted for an assault alleged to have been committed on the daughter of a well known farmer of Antrim, Watonwan county.

Clayton Lewis, seven years old, was struck by a street car at St. Paul and probably fatally injured. His right leg was fractured in two places and he is suffering from concussion of the brain.

A fine new barn belonging to W. J Summerfield, who lives near Amery, was struck by lightning during the storm a few nights ago and burned to the ground, together with 100 spring chickens.

John Steele, a bartender, jumped from the open window in his bedroom at Walker. alighting on his head and shoulders on the stone pavement sixteen feet below. Death was instantaneous.

Corn planting is about half done in Watonwan county. The ground is in fine condition and promises a good crop. Although a little behind on account of cold weather, small grain is growing well.

Several daring burglaries have been committed at Alexandria. The residences of a number of prominent citizens have been entered at night and small sums of money and valuables taken. The police have no clew.

Winona gardeners report that so far the cold weather has not damaged strawberries, and the present indications are that there will be a bountiful yield, providing conditions from now on are favorable. The crop will be two weeks later than usual.

Mrs. Gus Olson was fatally burned by the explosion of a gasoline stove in St. Paul. Her husband is at the city hospital suffering from terrible burns across the back, shoulders, arms, hands and face. His condition is serious, but it is thought he will recover.

Sivert Siverson, twenty-eight years old, was killed by a steam shovel with which he was working near Muskoda. In some manner the man was caught between the big scoop of the shovel and the end of the machinery, and as the scoop rose he was caught and crushed to death.

Farmers are warned against a barb wire fence swindle which is being used at the present time by agents. They agree to furnish a good eight-wire fence for 8 cents a foot. When the bill is presented it proves to be 8 cents per foot per wire, or 64 cents in all per foot.

While burning over hay land on his farm near Kragness a sudden change of wind caused the fire to get beyond the control of Peter Tuffton and to spread to an adjacent farm and destroyed a house belonging to John Shank.

An old landmark was destroyed by fire at Frazee. It was an old house, built over forty years ago and seven years before the railroad was put through. It was situated a mile and a half east of town, and during the days that the station was at Hobart it was occupied as a hotel.

SWEET MARIE AT STATE FAIR.

Famous Trotting Mare Will Go Against Record.

Dan Patch, the king of pacers; Sweet Marie, the queen of trotters, and an airship that will navigate the air are some of the attractions assured for the state fair this fall. A new feature of the Dan Patch exhibition will be a moving picture machine carried in an automobile in front of the pacer. If Dan Patch keeps up his past record of breaking his previous record on the local track those who fail to see this exhibition will be given an opportunity later of seeing the wonderful horse make his mile on the canvas.

It will also be welcome news to the public to know that the fair management is negotiating with the street car company with a view of having the company put in another street car loop.

Dan Patch, the king of pacers, will again be the attraction for Monday, the opening day. This wonderful pacer lowered his former record and established a new record of a mile in 1:55 at the fair last year. It is a matter of record that Dan Patch has lowered his previous track record on the state fair track every time he has made the trial. He has started five times and the record in each case was a little lower than the previous one. Driver Hersey claims that Dan is now in the pink of condition, and he believes that if the conditions are right the chances are good for establishing a new world's record at the Minnesota fair.

The sewer system at the Minnesota State fair grounds will be put in this summer and will be ready for use when the fair opens this fall. Plans for the fair grounds sewer system are now being drawn by A. R. Starkey, deputy commissioner of public works of St. Paul. They will make ample provision for the various buildings now on the grounds as well as for those that will be erected in the future on the forty acres of land added to the grounds this year.

TO IMPROVE HATCHERY.

Game and Fish Commission Considers Plans.

A new solid concrete or cement hatching house, new trout ponds and an addition to the dwelling house used by the men employed there are some of the improvements that will be made at the St. Paul fish hatchery this summer. At the monthly meeting of the game and fish commission these improvements, as well as some for the Glenwood hatchery and the plans for the new hatchery at Deerwood, were considered and bids will soon be asked for these improvements.

No definite action was taken with reference to the Deerwood hatchery, for which the legislature appropriated $6,000. As the sum is small the commission is proceeding cautiously, the first efforts being directed toward securing a suitable site on the best possible terms. This matter will be investigated thoroughly, and it is expected that at the next monthly meeting of the commission some proposals for sites will be submitted. When the site has been secured the plans for the structures will be taken up.

The improvements at the Glenwood hatchery include a dwelling house for the employes at the institution and the completion of the trout ponds on which considerable work was done last year. Proposals for these improvements also will be asked for in a short time in order that the proposals for all of the improvements may be received in time for the next monthly meeting.

ELEVEN GET DIPLOMAS.

Nurses Graduate at Asylum at Fergus Falls.

Commencement exercises were held at the insane hospital at Fergus Falls recently, a class of eleven nurses who have completed an extended course of study as well as practical work receiving diplomas from the state. The exercises were largely attended by citizens and friends of the graduates. The address was delivered by President F. A. Weld of the Moorhead normal, his subject being "The Mission of True Culture." He also spoke at some length on "Loyalty," that being the class motto, which was unveiled at the opening of the exercises. The literary program was followed by a class reception and dancing. The graduates are: Misses Stella Unger, Florence Hurrt, Georgia Slettede, Judith Burling, Laura Alden, Mary Busness and Myrtle Jordan, and Messes. Martin Hagman, Olaus Brekke, Oscar Nelson and Torgal Koppang.

NO BONDS FOR A STATION.

The voters of Freedom, by a majority of 15, turned down a proposition to bond the township for $5,000 to induce the "Alphabet" road to locate a station. At Vivian the voters, on the other hand, voted $5,000 bonds by a majority of 10. Farmers in the southern part of Freedom will put up the money to secure the station. It is expected the road will be completed to St. Clair by June 1, in time to save $12,000 bonds voted by the people there. Only a mile of grading remains to be done.

Out of Season.

Little Bob—Mamma, sister Jean has picked all the leaves off my toy tree.

Mamma—Jean, why did you do that?

Jean—'Cause they isn't wight.

Mamma—Why were they not right?

WHAT ABOUT THE SIMPSONS?

The Minneapolis Journal has been running an article asking "where should the Simpsons go," and in reply received a bunch of answers from different parts of the country, including many from this neighborhood.

In the Journal several weeks back Mr. J. Q. Simpson stated that he had retired from business in the mill city and had some $12,000 to invest in business somewhere in the Northwest. There are several conditions attached to Mr. Simpon's letter however. He stated that he was a man with a family of growing children, and aside from a place where he could invest his capital where it would bring returns, he desired to locate where he could make a home where his children could be brought up right, and where he might be glad to settle down for good and all.

Replies to Mr. Simpson's letter were sent in from all parts of the Northwest, townsmen uniting in letters setting forth the advantages of their respective localities. One of the best replies was from Ed. L. Healy, of this city and instead of attempting to tell on its own hook why the Simpsons should come to Red Lake Falls, THE COURIER prints Mr. Healy's letter in full as it was printed in last Sunday's Journal:

Red Lake Falls, Minn., May 18—I note your letter to The Journal, the best paper in the Twin cities, saying that you have $12,000 that you want to invest, and wonder where is the best place.

Now, Mr. Simpson, Minneapolis a great big city, is it not? What has made it so? Its water powers, with its broad-guaged men have made Minneapolis the manufacturing city it is today.

Now we have the water power power and I will inclose you a cut of it. The photo from which this cut is made was taken on the last day of December, 1905, midwinter. So you can see that with this dam, 300 feet long and a 500 barrel flouring mill, and another dam in the city nearly as large with a larger flour mill, is a good starter for the future manufacturing city of Northwestern Minnesota.

Our city is the county seat of Red Lake county, of about 2,500 inhabtants and located in the midst of one of the richest farming countries in this grand old state. We have about a dozen creameries and cheese factories in the country.

Lands are a very good investment in a country like ours, and especially so near Red Lake Falls. Again I could show you a business consisting of general merchandising, in which a half interest could be bought that would bring a large annual income.

We have elegant school advntages, as well as churches. Our city is very orderly, not an arrest having been made in 1907, for disorderly conduct. Red Lake Falls is noted for the health of its people.

Your children would grow up robust and happy, and you would be pleased with this beautiful city, nestling as it does among the hills at the junction of the Red Lake and Clearwater rivers.

The scenery is grand and you can pick out a home in our city, on the one side out on the smooth prairie or on the other, in the groves of of oak and poplar on an elevation overlooking the sparkling waters of the Clearwater, ninety feet below or yet in the center of the city on, the banks of the stream at a lower level. Red Lake Falls is worth looking over and we invite you to visit us before selecting your future home.

—Ed. L. Healy.

If there are any who think Mr. Healy has overlooked any good points why the Simpsons should come to Red Lake Falls, THE COURIER would be pleased to receive their opinions for publication.

Farmers.

Don't you need a breaking plow hand cultivator or an Acme harrow just now?—See S. A. Swanson.

Happy School Days Over

Viola A. Longtin Edna C. Swanson Paul T. Brunelle Ina M. Linnihan · Alice L. Erickson Lucy B. Hunt

From a stage beautifully decorated with their class colors, banked with ferns and potted plants, and in the presence of an exceptionally large crowd of admiring friends, five young ladies and one young man of this city comprising the class of '07 participated in the final program of their high school lile, and received the handsome diplomas they have labored so diligently to procure, at the Metropolitan opera house Monday evening.

On the stage with the graduates were Dr. N. M. Watson, Theo. Garceau, H. Hennemuth, T. A. Crompe and S. M. Sivertson, members of the board of education, Superintenpent E. W. Chamberlain, Elene Hanson, Laura Willson and Louise Twinum, high school teachers. The decorations of the mammoth auditorium were very pretty and elicited favorable comment. Directly over the front of the stage was the class motto, "Immer Aufwarts" made of large maize letters with a sky blue back ground, the class colors, and the back ground was also scattered with a profusion of violets, the class flower. The stage was banked with ferns and potted plants. and either side in the balcony were the lower classes of the high school with the balcony appropriately draped with their respective colors. The pillars throughout the hall were prettily wound with the high school colors.

The exercises of the evening opened with the rendition of two selections by the band orchestra, "Floating Along" and "Tulips and Pansies." This elite musical organization clearly proved themselves artists of the first quality. Their efforts were most liberally applauded.

Rev. H. W. Knox then invoked the aid of He who ruleth all things well, and Miss Alice L. Erickson, salutatorian of the class, arose and after a very touching greeting to the board, class and teachers, delivered a masterly oration entitled, "Lest We Forget." Her remarks showed that she carried her subject well in hand and close attention was paid to all she said, her efforts being responded to enthusiastically by the large audience.

Paul T. Brunelle followed with an oration, "Pursuit of Happiness," and his remarks showed careful preparation and an exceptionally worthy topic.

The next number was a saxaphone solo, Grand Fantasia, "Maritana," by Leland E. Healy. Mr. Healy is surely a master on the instrument judging from the comparatively short time he has had it. He was accompanied on the piano by Miss Lillie Zaiser.

Viola L. Longtin was next with an oration entitled "Preparation." Miss Longtin touched on the importance of what confronted her classmates, and her oration was very well prepared and delivered in an excellent manner.

Edna C. Swanson followed with the "Class History and Will." Her amusing history of the important events was exceptionally well received by all. She then read the last will and testament, in which the property of the class were willed to the members of the lower classes. Her paper showed clever preparation, and was exceptionally meritorious.

Ina M. Linnihan was Class Prophet and Poet. Her prophecy predicted much joy and happiness in store for her classmates.

Lucy B. Hunt, valedictorian, was the last of the class members and delivered a pleasing oration entitled "The Last Leaf," following with a touching farewell to the board, teachers, pupils and public. Her final appearnce as a member of this deserving class of young people was the occasion of much applause by the audience.

Mrs. J. Hendrickson, of Fertile, sang two vocal solos, "Mattinata" and "Hosanna," and made an excellent impression.

Superintendent E. W. Chamberlain, in a few well chosen remarks, presented the members of the class with the beautiful diplomas that had been procured. Mr. Chamberlain congratulated the class on their successful finish of a course of diligent labors, and wished them all the greatest success in their battles with the world's work.

Clement E. Brunelle played a cornet solo, "Pretty Jane," which was extremely difficult and was rendered with Mr. Brunelle's usual precision. He responded to an encore.

Rev. H. W. Knox delivered the benediction and the band orchestra played the overture, "Reminiscences of the South," while the friends and relatives of the young people flocked to the stage to present their hearty congratulations.

The class of 1907 is a thing of the past from a standpoint of school life and they go now to take up their parts in the carrying on of the business and social enterprises of the world. It is a source of great satisfaction to all to feel that each individual member of a class whose career has been so successful is especially fitted for what will be taken up in the school of life. They are deserving of all good things of life, and their friends earnestly trust that every problem encountered on their journey down the devious pathway of existence, may be met with the same spirit of determination and energy that has marked their career as scholars.

FLAG DAY

Friday, June 14, will be flag day. Warren Lee Goss, national patriotic instructor, has issued his annual address relating to this day, and it is as follows: "Our flag is now—in form—the oldest flag in civilized nations. The resolution by congress for the adoption of stars and stripes on June 14, 1776, was as follows: Resolved, That the flag of the United States be thirteen stripes alternate red and white that the union be thirteen stars, white in a blue field representing a new constellation. The design of this flag is credited to George Washington and in part was taken from his family coat of arms. Such is the origin of a flag dedicated to the proposition that all men are created free and equal. Let us honor the natal day of our national flag—display it from our public buildings, schools and homes in recognition of this memorable day. The men of the Grand Army of the Republic, who preserved the nation in the greatest war of modern times and made vital the declaration of our forefathers call upon all who live under the flag to recognize this day by patriotic observation in schools and—on the Sunday preceding—in the churches. To this end we suggest that the governor of every state by proclamation, announce the day and promote its recognition; that the press scatter this call as seeds of patriotism, broadcast over the land."

Notice,

Anyone having a room or rooms to let during the tournament week are requested to report the same to Mayor Duffy or G. F. Hennings atonce.

A Pretty Wedding.

Crookston Journal: At the home of the bride's parents Mr. and Mrs. Christ Eickof, Miss Flora Eickof was wedded Monday at four o'clock to Mr. J. Arthur Williams of Grand Forks. In the presence of the immediate relatives and intimate friends, Rev. W. S. Ward, pastor of the local Presbyterian church, performed the ceremony. The bridesmaid was Miss Anna Eickof, the brides sister and the best man was Mr. Earl Williams of Grand Forks, brother of the groom.

The rooms of the Eickof home were artistically decorated with white streamers upon which were tastefully arranged boquets of flowers. The color scheme followed out in the drawing room was green and white while that of the drawing room was purple and white.

Shortly after the ceremony the relatives and friends sat down to an elaborate appointed bridal dinner.

The newly married bridal couple left the same evening for the Twin Cities and Duluth where they will spend two weeks or more. They will be at home to their friends in Grand Forks, July 10.

The bride was one of Crookston's most popular young ladies whose absence will be accompanied with a sincere feeling of regret. Mr. Williams, the groom, is employed as an express messenger on the G. N. and is a young man who has a promising business future.

The out of town guests were Mrs. Arthur Zaiser of Red Lake Falls, John Eickof and daughter Thea of Grand Forks and Mr. Earl Williams of Grand Forks.

RED LAKE FALLS, MINN.

Mr. and Mrs. Arthur Zaiser returned home Tuesday from Crookston, where they had spent several days. They attended the Eichoff-Williams nuptials, an account of which is given elsewhere in today's COURIER.

The teachers in the city schools have all returned to their homes, this week to spend the summer vacations. Miss Hanson went to Fertile; Miss Lamb, to Moorhead; Miss Coughlin to St. Cloud: Miss Trudo, to Sauk Rapids.

Mrs. William Findeisen went to Winona last Thursday and will this week attend the commencement exercises of the Winona Normal school. Her daughter, Miss Maude, graduates this year, and will return home with Mrs. Findeisen next week.

Miss Martha Altstadt returned home Monday from Loman, Itasca county, where she has been teaching school for the past nine months. Miss Martha gave very good satisfaction in her school work over there, and expects to return to that neighborhood again this fall.

Miss Lorraine Longtin came over from Oberon, North Dakota, Monday to attend the commencement exercises at the opera house that evening. Miss Lorraine is teaching out there and her duties compelled her to return to that place Tuesday night.

Hubert Cardinal, one of Lake Pleasents foremost farmers, is hauling out material this week for the erection of a fine new residence on his farm. He will make other extensive improvements on the place this spring and will have one of the finest homes in the country when he gets through.

Mrs. L. A. Nelson went up to Thief River Falls Saturday and remained with relatives until Monday. She was accompanied home by Mrs. J. J. Rollis and daughter Mabel, who are spending the week here.

Carl Krueger came over from Antlers, North Dakota, Monday, and and will remain here until after the firemen's tournament two weeks hence. Carl is well pleased with his Dakota home, but likes to get back here occasianally.

Fruend's orchestra went out to Plummer Saturday evening and played for a big dance there that night. Fruend's bunch of music makers are always in demand, and whenever a good orchestra is wanted these boys are called upon.

Henry W. Anderson went down down to St. Paul Saturday evening to spend a week with his parents and friends there, and incidently to buy a quantity of new goods for his store here. Miss Lillian Buse is in charge of his place while Andy is away.

Dan Linnihan came up from Royalton Monday and remained with family and friends here until last evening. Dan reports work on his railroad contract as moving along in fine shape, and says that the Soo people are in a hurry to get their line completed by fall.

Fred Craig, the rustling East Grand Forks citizen, was looking after his business interests here last Thursday. Incidently Fred was boosting East Grand Forks' contemplated fourth of July celebration and stated that it would be the biggest thing of the kind ever held in that valley.

David Person, formerly a resident of Gervais, but who has been at Minneapolis for the past year and a half, returned this week with a bonny bride and will make his home on his farm in Gervais in the future. Mr. Person has many friends in this section of the country who will join in wishing him unbounded success.

Theo. Jacobson and family left last Thursday evening for Marshall, Lyon county. The Jacobsons moved here from there a few years ago, but recently sold their farm here at a handsome figure and returned to their old home Mr. Jacobson was a good citizen and the people here will wish him all kinds of success in the future

Misses Myrtle Armstrong and Ethel Reed lef Tuesday evening for Staples, where Miss Myrtle will spend several months at the Reed home. Myrtle will not return here again, but this fall will go with her mother to the new home at Missoula, Montana. She has many young friends here who will miss her but will join in the wish that she may be happy in her western home.

J. P. Harren departed Tuesday evening for St. Cloud and other points in Stearng county, and will visit with relatives and friends there until Saturday, when he will proceed to Faribault to represent the North Star Court, C. O. F., at the state convention to be held in that city several days of next week, commencing Tuesday. Mr. Harren will be away until about the 15th, and expected to have an enjoyable trip.

Banns were published at St. Mary's church last Sunday for the marriage of Charles J. Kruse and Miss Margaret Weiland. two north side young people, which will occur at St. Mary's next Tuesday, the 11th inst. Mr. Kruse is an old resident here and has many friends among the people. The bride-to-be recently moved here, but is spoken of as a charming young lady, and a fitting companion to the man of her choice.

Miss Osina Kaasa, of Northwood, North Dakota, arrived here Saturday and is taking the place of her sister, Miss Gina, as stenographer in the real estate office of V. M. Higbinbotham while Gina is visiting with her parents at Northwood.

Fred Richards left last evening for Hamilton, Montana, where he has a good position in view and will remain during the summer. Ned Taylor, a former Red Lake Falls boy is located at Hamilton and is doing well.

The officers of the Presbyterian church met last evening with the pastor and took up the matter of Mr. Knox's resignation. They will endeavor to secure a pastor to take hold of the work here and expect to have regular Sunday services as usual during the summer months.

The Misses Alyce Boyd, Mollie Allard, Lillian Buse, Albina Lemieux, Etta Hennemuth, Etta Garceau Ellen Brady, Mayme Erickson, Gertie Hennemuth will entertain some two hundred guests at the Metropolitan opera house next Wednesday evening, June 12. Dancing will be the feature of the evening and a thoroughly enjoyable time is looked forward to.

Tuesday afternoon occured the wedding of Miss Winnifred Herren to Mr. Harry Purdy, both of Thief River Falls at that place. The wedding was one of the social events of Thief River Falls, and a large number of friends of the couple were in attendance. Mr. Purdy is an engineer on the Soo road and Miss Herron is the danghter of prominent people of that place. Father Adolph performed the ceremony. The happy couple left last night on the Soo for Winnipeg where they will visit for some time after which they will go east for an extended honeymoon trip.

Auctioneer Belair, Clerk Toupin, and several others from here were out to the Prudhomme home Tuesday, attending the big auction sale. This sale was one of the biggest ever held in southern Red Lake county, and was attended by a large crowd of people. Between sixteen and seventeen hundred dollars worth of property was sold, and everything put up brought a good price. Mr. Prudnomme will move to Red Lake Falls within a short time to take charge of the City Hotel property which he recently purchased.

A special train bearing a party of "big guns" of the Great Northern road, went through here Sunday night on the north trip and back again early Monday morning. They were on a tour inspection of the Great Northern system and had a fully equipped train. In the party were H. P, McGuigan, second vice-president; J. E. Ward, general manager; J. M. Robinson, and D. E. Legan, division freight agents; T. E, Lowry, division superintendent: M. Laughlin, roadmaster; E A. Mills, master carpenter, and several other prominent railroad officials.

Dr. Spofford makes his next regular visit to Red Lake Falls June 7. At Grand View hotel. Remember the date if your eyes trouble you.

We Want to Help You Buy Cows Now

No doubt you have read our offer in the columns of this paper during the past two weeks, and we are very desirous that you give us an opportunity to get your farm stocked with cattle and hogs. To this end we would earnestly request you to call in and talk the matter over before the season becomes too far advanced.

The Secret of Success Lies in Dairying and Hog Raising

Wny not now abandon the wheat raising lottery and adopt the surer method of providing revenue for yourself and family? This bank is interested in your welfare and stands ready to help you get started in profitable dairying. Call in and we will talk it over.

Merchants State Bank

of Red Lake Falls

J. A. DUFFY, Cashier.

Warren Register: Roseau is playing in hard luck. It is positively stated by those who are in position to secure inside informotion that the Great Northern will not this year extend its Greenbush line through Badger and Roseau to Warroad. This news will sorely disappoint the Roseau people, as they had been hoping for years for rail road connection with the rest of the country and it certainly seemed that their hopes were to be realized this year. No reason is given for the Great Northern's apparently sudden determination to do no building beyond Greenbush in 1907. The people might use the new railroad grade up there for wagon road if it is smooth enough.

BROOKS WILL CELEBRATF.

Elaborate Preparations Made for St. John's Day.

THE COURIER this week issued bills for the big St. John's day celebration to be held at Brooks on June 24. The Brooks people have earned a reputation as great entertainers by their successful celebrations in the past on this day, and every effort will be made this year to give the people a bigger and better than they ever did before.

There will be sports of all kinds, including horse races, bicycle races, etc. A big bowery dance will be in operation all day and night. Good speaking and music will be provided. The celebrated Red Lake Falls band will give an afternoon concert, and play for all occasions. In fact there will be plenty going on to amuse the crowds from daylight until dark, and after dark a grand display of fireworks will take place.

Brooks is nicely situated to draw a big crowd on this day, and the people here should make early preparation to attend.

New School Society.

The freshman class of the Red Lake Falls High School, having by their study in Zoology and Botany become interested in these branches of science, have organized a club called, "Naturalist Club of Red Lake Falls High School." The following are the names of the officers and of the various committees:

President, Lou Green; Vice President, Isabel Helm; Secretary, Napoleon Lemieux; Treasurer, William Linnihan.

Field Committee—Chairman, Graham Kindseth, Thomas Majeres, Isabel Helm, Florence Hennemuth, Robert Zaiser.

Committee to formulate at data—Chairman, Alfred Floan; Lillian Brady, Laura Zaiser.

Outing Committee—Chairman, Beatrice Emard; Alice Zaiser, George Tandberg.

Refreshment committee—Chairman, Pearl Grey; Lydia Gerlash, Florence Regan, Walter Garceau, Alice Columbus.

Committee on constitution and by Laws—Paul Brunnelie, Eda Lizee, Mary Pahlen, Lou Green, Alfred Floan.

Badge Committee—Chairman, Paul Brunelle; Florence Regan, Beatrice Emard.

THEY WERE QUITE CORRECT.

Equipment of the Family Easily Proved It.

A Washington correspondent told the other night a story that he claimed to have heard from President Roosevelt at Gridiron Club dinner.

"Two women," he said, "were discussing some new neighbors who had moved into one of the most sumptuous houses in their city.

"'They seem to be very rich,' said the first.

"'Oh, they are,' said the second.

"'Shall you call?'

"'Decidedly.'

"'You are sure are you, that they are—er—quite correct, quite—er—good form?'

"'Oh, my dear, I'm positive,' said the second woman. 'They have thirty servants, eighteen horses, twelve dogs, eleven automobiles, and one child.'"

THE NEW INSURANCE AGENT.

He Comes in With the New Law—Paul Morton on His Opportunity.

The new insurance law of the State of New York has opened up a promising field for both men and women with brains and energy in the sale of life insurance. The law now provides standard forms of policies, each of which practically bears the hall mark of the State of New York, and this new order of things has established the sale of life insurance on a correct basis.

The prohibition against rebating and extravagant allowances to agents has driven out of the business the old type of insurance agent, who in many cases virtually bought business, with large rebates, instead of selling it. His place is being taken by professors, lawyers, school teachers of both sexes, and others, who find that being a life insurance agent under the new system offers greater reward than their previous vocations. The law has reduced commissions but all of the commission now goes to the agent. Life insurance is something that everyone needs and under the present system its sale is being conducted with becoming dignity and propriety.

Paul Morton, president of the Equitable Life Assurance Society, has taken the lead in building up an agency organization that is in keeping with the demands of public sentiment, and the standard he has set for his company. He says: "We want new agents, both men and women, but none except energetic, able and truthful people need apply. For such there is a splendid opportunity."

Mr. Morton's policy of injecting new and vigorous blood into the agency force of the Society is meeting with success in all parts of the country.

Furnish King Alfonso His Wine.

The Gordon's are said to have the right to all eternity to supply wine to the royal house of Spain. This family has been in Spain as wine growers more than 100 years, although they still own the ancestral estate of Wardhouse, in Aberdeenshire, says the London Chronicle.

They have contracted aristocratic marriages, and the present representative of the family, Rafael Gordon, who lives in Madrid, has named his first born after King Alfonso, while his mother, the Countess de Mirasol, is lady-in-waiting to Queen Christina. King Alfonso, who visited Mr. Gordon's aunt during his stay in the North, did not hesitate to play the part of wine merchant himself in praising the virtues of sherry.

Doubly a Record.

The country station master was walking up and down the platform with an air of a director.

"Wonderful floods," he exclaimed as he lifted his hat to an extra jaunty angle. "Beat the records in two ways."

"In two ways?" queried a dripping passenger.

"Washed out the level crossing for the first time in living memory for one, and made the seven-sixteen late for another," came the explanation.

"That's only one way," growled the passenger. "Nobody ever remembers the seven-sixteen to have been prompt."

"Very likely," agreed the proud official, resuming his strut; "but this is the first time we've been able to find a decent excuse."

DR. TALKS OF FOOD

Pres. of Board of Health.

"What shall I eat?" is the daily inquiry the physician is met with. I do not hesitate to say that in my judgment, a large percentage of disease is caused by poorly selected and improperly prepared food. My personal experience with the fully-cooked food, known as Grape-Nuts, enables me to speak freely of its merits.

"From overwork, I suffered several years with malnutriton, palpitation of the heart, and loss of sleep. Last summer I was led to experiment personally with the new food, which I used in conjunction with good rich cow's milk. In a short time after I commenced its use, the disagreeable symptoms disappeared, my heart's action became steady and normal, the functions of the stomach were properly carried out and I again slept as soundly and as well as in my youth.

"I look upon Grape-Nuts as a perfect food, and no one can gainsay but that it has a most prominent place in a rational, scientific system of feeding. Any one who uses this food will soon be convinced of the soundness of the principle upon which it is manufactured and may thereby know the facts as to its true worth." Read, "The Road to Wellville," in pkgs, "There's a Reason."

SISTER ROSE.

A STORY OF THE FRENCH REVOLUTION

BY WILKIE COLLINS

CHAPTER I.

WELL, Monsieur Guillaume, what is the news this evening?"

"None that I know of, Monsieur Justin, except that Mademoiselle Rose is to be married tomorrow."

"Much obliged, my respectable old friend, for so interesting and unexpected a reply to my question. Considering that I am the valet of Monsieur Danville, who plays the distinguished part of bridegroom in the little wedding comedy to which you refer, I think I may assure you without offense, that your news is, so far as I am concerned, of the stalest possible kind. Take a pinch of snuff, Monsieur Guillaume, and excuse me if I inform you that my question referred to public news, and not to the private affairs of the two families whose household interests we have the pleasure of promoting."

"I don't understand what you mean by such a phrase as promoting household interests, Monsieur Justin. I am the servant of Monsieur Louis Trudaine, who lives here with his sister, Mademoiselle Rose. You are the servant of Monsieur Danville, whose excellent mother has made up the match for him with my young lady. As servants, both of us, the pleasantest news we can have any concern with is news that is connected with the happiness of our masters. I have nothing to do with public affairs; and being one of the old school, I make it my main object in life to mind my own business. If our homely domestic politics have no interest for you, allow me to express my regret, and to wish you a very good evening."

"Pardon me, my dear sir, I have not the slightest respect for the old school, or the least sympathy with people who only mind their own business. However, I accept your expressions of regret; I reciprocate your good evening; and I trust to find you improved in temper, dress, manners, and appearance the next time I have the honor of meeting you. Adieu, Monsieur Guillaume, and vive la bagatelle!"

These scraps of dialogue were interchanged on a lovely summer evening in the year seventeen hundred and eighty-nine, before the back door of a small house which stood on the banks of the Seine, about three miles westward of the city of Rouen. The one speaker was lean, old, crabbed, and slovenly; the other was plump, young, oily-mannered, and dressed in the most gorgeous livery costume of the period. The last days of genuine dandyism were then rapidly approaching all over the civilized world; and Monsieur Justin was, in his own way, dressed to perfection, as a living illustration of the expiring glories of his epoch.

After the old servant had left him, he occupied himself for a few minutes in contemplating, superciliously enough, the back view of the little house before which he stood. Judging by the windows, it did not contain more than six or eight rooms in all. Instead of stables and outhouses, there was a conservatory attached to the building on one side, and a low, long room, built of wood gaily painted, on the other. One of the windows of this room was left uncurtained, and through it could be seen, on a sort of dresser inside, bottles filled with strangely-colored liquids, oddly-shaped utensils of brass and copper, one end of a large furnace, and other objects, which plainly proclaimed that the apartment was used as a chemical laboratory.

"Think of our bride's brother amusing himself in such a place as that with cooking drugs in saucepans," muttered Monsieur Justin, peeping into the room. "I am the least particular man in the universe, but I must say I wish we were not going to be connected by marriage with an amateur apothecary. Pah! I can smell the place through the window."

With these words Monsieur Justin turned his gack on the laboratory in disgust, and sauntered towards the cliffs overhanging the river.

Leaving the garden attached to the house, he ascended some gently-rising ground by a winding path. Arrived at the summit, the whole view of the Seine, with its lovely green islands, its banks fringed with trees, its gliding boats, and little scattered waterside cottages, opened before him. Westward, where the level country appeared beyond the further bank of the river, the landscape was all aglow with the crimson of the setting sun. Eastward, the long shadows and mellow intervening lights, the red glory that quivered on the rippling water, the steady ruby-fire glowing on cottage windows that reflected the level sunlight, led the eye onward and onward, along the windings of the Seine, until it rested upon the spires, towers, and broadly-massed houses of Rouen, with the wooded hills rising beyond them for background. Lovely to look on at any time, the view was almost supernaturally beautiful now under the gorgeous evening light that glowed upon it. All its attractions, however, were lost on the valet; he stood yawning with his hands in his pockets, looking neither to the right nor to the left, but staring straight before him at a little hollow, beyond which the ground sloped away smoothly to the brink of the cliff. A bench was placed here, and three persons—an old lady, a gentleman, and a young girl—were seated on it, watching the sunset, and by consequence turning their backs on Monsieur Justin. Near them stood two gentlemen, also looking toward the river and the distant view. These five figures attracted the valet's attention, to the exclusion of every other object around him.

"There they are still," he said to himself discontentedly. "Madame Danville in the same place on the seat; my master, the bridegroom, dutifully next to her; Mademoiselle Rose, the bride, bashfully next to him; Monsieur Trudaine, the amateur apothecary brother, affectionately next to her; and Monsieur Lomaque, our queer land-steward, officially in waiting on the whole party. There they all are indeed, incomprehensibly wasting their time still in looking at nothing! Yes," continued Monsieur Justin, lifting his eyes wearily, and staring hard, first up the river at Rouen, then down the river at the setting sun; "yes, plague them, looking at nothing, absolutely and positively at nothing, all this while."

Here Monsieur Justin yawned again, and returning to the garden, sat himself in an arbor and resignedly went to sleep.

If the valet had ventured near the five persons whom he had been apostrophizing from a distance, and if he had been possessed of some little refinement of observation, he could hardly have failed to remark that the bride and bridegroom of the morrow, and their companions on either side, were all, in a greater or less degree, under the influence of some secret restraint, which affected their conversation, their gestures, and even the expression of their faces. Madame Danville—a handsome, richly dressed old lady, with bright eyes and a quick, suspicious manner—looked composedly and happily enough, as long as her attention was fixed on her son. But when she turned from him towards the bride, a hardly-perceptible uneasiness passed over her face—an uneasiness which only deepened to positive distrust and dissatisfaction whenever she looked towards Mademoiselle Trudaine's brother. In the same way her son, who was all smiles and happiness while he was speaking with his future wife, altered visibly in manner and look, exactly as his mother altered whenever the presence of Monsieur Trudaine specially impressed itself on his attention. Then, again, Lomaque, the land-steward—quiet, sharp, skinny Lomaque, with the submissive manner, and the red-rimmed eyes—never looked up at his master's future brother-in-law without looking away again rather uneasily, and thoughtfully drilling holes in the grass with his long sharp-pointed cane. Even the bride herself, the pretty, innocent girl, with her childish shyness of manner, seemed to be affected like the others. Doubt, if not distress, overshadowed her face from time to time, and the hand which her lover held trembled a little, and grew restless, when she accidentally caught her brother's eye.

Strangely enough there was nothing to repel, but, on the contrary, everything to attract in the look and manner of the person whose mere presence seemed to exercise such curiously constraining influence over the wedding party. Louis Trudaine was a remarkably handsome man. His expression was singularly kind and gentle; his manner irresistibly winning in its frank, manly firmness and composure. His words, when he occasionally spoke, seemed as unlikely to give offense as his looks; for he only opened his lips in courteous reply to questions directly addressed to him. Judging by a latent mournfulness in the tones of his voice, and by the sorrowful tenderness which clouded his kind earnest eyes whenever they rested on his sister, his thoughts were certainly not of the happy or the hopeful kind. But he gave them no direct expression; he intruded his secret sadness, whatever it might be, on no one of his companions. Nevertheless, modest and self-restrained as he was, there was evidently some reproving or saddening influence in his presence which affected the spirits of every one near him, and darkened the eve of the wedding to bride and bridegroom alike.

CHAPTER II.

AS the sun slowly sank in the heavens the conversation flagged more and more. After a long silence, the bridegroom was the first to start a new subject.

"Rose, love," he said, "that magnificent sunset is a good omen for our marriage; it promises another lovely day to-morrow."

The bride laughed and blushed.

"Do you really believe in omens, Charles?" she said.

"My dear," interposed the old lady, before her son could answer, "if Charles does believe in omens, it is nothing to laugh at. You will soon know better, when you are his wife, than to confound him, even in the slightest things, with the common herd of people. All his convictions are well founded—so well, that if I thought he really did believe in omens, I should most assuredly make up my mind to believe in them too."

"I beg your pardon, madame," Rose began, tremulously, "I only meant—"

"My dear child, have you so little knowledge of the world as to suppose that I could be offended—"

"Let Rose speak," said the young man.

He turned round petulantly, almost with the air of a spoilt child, to his mother, as he said those words. She had been looking fondly and proudly on him the moment before. Now her eyes wandered disconcertedly from his face; she hesitated an instant with a sudden confusion which seemed quite foreign to her character, then whispered in his ear:

"Am I to blame, Charles, for trying to make her worthy of you?"

Her son took no notice of the question. He only reiterated sharply—"Let Rose speak."

"I really had nothing to say," faltered the young girl, growing more and more confused.

"Oh, but you had!"

There was such an ungracious sharpness in his voice, such an outburst of petulance in his manner as he spoke, that his mother gave him a warning touch on the arm, and whispered, "Hush!"

Monsieur Lomaque, the land-steward, and Monsieur Trudaine, the brother, both glanced searchingly at the bride, as the words passed the bridegroom's lips. She seemed to be frightened and astonished, rather than irritated or hurt. A curious smile puckered up Lomaque's lean face, as he looked demurely down on the ground, and began drilling a fresh hole in the turf with the sharp point of his cane. Trudaine turned aside quickly, and sighing, walked away a few paces; then came back, and seemed about to speak, but Danville interrupted him.

"Pardon me, Rose," he said; "I am so jealous of even the appearance of any want of attention towards you, that I was nearly allowing myself to be irritated about nothing."

He kissed her hand very gracefully and tenderly as he made his excuse; but there was a latent expression in his eye which was at variance with the apparent spirit of his action. It was noticed by nobody but observant and submissive Monsieur Lomaque, who smiled to himself again, and drilled harder than ever at his hole in the grass.

"I think Monsieur Trudaine was about to speak," said Madame Danville. "Perhaps he will have no objection to let us hear what he was going to say."

"None, madame," replied Trudaine, politely. "I was about to take upon myself the blame of Rose's want of respect for believers in omens, by confessing that I have always encouraged her to laugh at superstitions of every kind."

"You a ridiculer of superstitions!" said Danville, turning quickly on him. "You who have built a laboratory; you who are an amateur professor of the occult arts of chemistry, a seeker after the Elixir of Life. On my word of honor, you astonish me!"

There was an ironical politeness in his voice, look, and manner as he said this, which his mother and his land-steward, Monsieur Lomaque, evidently knew how to interpret. The first touched his arm again and whispered, "Be careful!" the second suddenly grew serious, and left off drilling his hole in the grass. Rose neither heard the warning of Madame Danville, nor noticed the alteration in Lomaque. She was looking round at her brother, and was waiting with a bright, affectionate smile to hear his answer. He nodded, as if to reassure her, before he spoke again to Danville.

"You have rather romantic ideas about experiments in chemistry," he said, quietly, "Mine have so little connection with what you call the occult arts, that all the world might see them, if all the world thought it worth while. The only Elixirs of Life that I know of are a quiet heart and a contented mind. Both those I found years and years ago, when Rose and I first came to live together in the house yonder."

(TO BE CONTINUED.)

CANNIBAL PLANTS.

Some of the Characteristics of Those Anomalies of the Vegetable Kingdom.

From the Cincinnati Enquirer: It has been proved time and again that the so-called "canibal plants," of which the Venus flytrap is the type, are much more healthy when allowed their regular insect food than when they are reared under netting or in any other manner which excludes them from their regular meat diet. The above is an oddity of itself, especially when we consider the fact that there is a certain school of botanists which teaches cannibal plants make no use whatever of the insect prey captured by them, but it is nothing compared with the bold assertion made by Francis Darwin. That noted scientific gentleman bravely meets the "vegetarian botanists" with the assertion that all kinds and classes of plants, whether known as "meaters" or not, bear more and heavier fruits and seeds when fed on meat than those that are not allowed a flesh diet. He grew two lots, comprising various varieties of the different common plants. One lot was regularly fed (through their roots, of course) with pure juices compressed from meat, the other with water and the various fertilizers. The final figures on this odd experiment proves that the plants which were fed pure meat juice bore 168 fruits of the different kinds, while the unfed plants of the same number and original condition bore but twenty-four. Also that the pampered plants bore 240 seeds to every 100 borne by the plants that were not given a chance to gratify cannibalistic tastes. This is certainly a discovery worthy of much careful study and extensive experiment.

A load of trouble is not lightened by a load of liquor.

SMUGGLING - LIQUOR

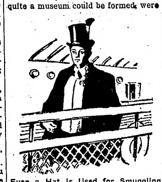
SOME QUEER WAYS OF GETTING ALCOHOL INTO PARIS.

Despite All the Efforts of the Police Thousands of Gallons of Contraband Alcohol Gets Into the City.

Alcohol without a doubt is the article most often smuggled through the gates of Paris, and this is due to the fact that the tax upon it has steadily increased during the past few years. Naturally, increased taxation means higher profits on contraband goods and therefore quickens the ingenuity of smugglers.

"Under our very eyes," writes an officer of the Paris custom house, in the Scientific American, "these men annually pass thousands of gallons of valuable spirits into the city, where it is readily disposed of at high prices to makers of perfumes or to liquor dealers, who use it for adulterating their goods. Yet we keep a sharp watch on all who pass through the gates of the capital. None can enter until he satisfies us that contraband articles are not hidden on his person, no vehicle is admitted until it has been thoroughly searched and every cask of liquor must be declared before the owner is authorized to pass on.

"I can assure my readers that it is well worth while to smuggle alcohol into Paris. The dues on each liter or quart amount to four francs 15 centimes, say 66 cents. Imagine the profit to be derived by any one who succeeds in smuggling several thousand gallons of alcohol a year. Among the thousand and one methods employed by smugglers some very curious ones have come under my observation during the 20-odd years that I have been connected with the service. In the warehouses of the Hotel de Ville are stored all sorts of ingenious smuggling apparatus. They are so numerous that quite a museum could be formed, were it not for the fear of teaching dishonest men how to defraud the government.



Even a Hat Is Used for Smuggling Alcohol.

"Double-bottomed bottles and other vessels are common contrivances of smugglers. In order not to awaken our suspicion they are usually filled with some beverage, beer or wine, and this is duly declared by the man in charge of the vehicle. We have often been swindled in this way in the past. Now we are never deceived by double bottomed bottles, nor for that matter by hollow horse collars, which was at one time another favorite dodge of the alcohol smuggler.

"But I have come across even more ingenious tricks than these. In smuggling alcohol through the gates of Paris it is not at all necessary to have a vehicle and a bulky cargo. A single man can carry quite a quantity of alcohol, and in quite a different sense from that usually applied to drunkards. A smartly dressed gentleman under his spotless waistcoat and white shirt carries an Indian rubber plastron brimful of alcohol. True, his appearance is rather bulky, but then he can probably put that down to good living and ten to one he will slip through our hands.

"Sometimes the India rubber waistcoat is replaced by a tin one, also filled with alcohol; and I have known even an immaculate looking tall hat to be found to contain some heavily taxed liquor. Then again this class of smuggler will often carry an innocent-looking portfolio which contains not papers, but alcohol. Thus surrounded by alcohol on all sides, he walks past us with the gravest of airs, taking care not to make a false step, otherwise his heavily loaded hat might fall to the ground and reveal the fraud. I have known this class of smuggler to be accompanied by a fashionable dressed lady, under whost skirts there has been enough alcohol to stock a small saloon."

Greatest Barber Story Yet.

A wonderful family of barbers is that of Benjamin M. Youells, who lives at Easton, Pa., and who, although 87 years old, still wields a razor. Of his nine children, all of whom are living, the three sons are barbers and two of his six daughters can handle a razor as skilfully as a man. The other four daughters married barbers. Nine of his 11 grandchildren are barbers, and his seven great-grandchildren say they will become knights of the razor.

Deer Hid Its Head.

Last winter some of the Berlin Mills company's men caught a deer and fed it in an abandoned camp for a few days. The way the deer was caught was rather peculiar.

They chased him in the snow and the foolish deer, instead of running away, ran to a trainload of logs and stood with his head sticking under the logs between two cars. Like the ostrich he probably thought that as he couldn't see he couldn't be seen.

Nothing I Ate Agreed With Me.

MRS. LENORA BODENHAMER.

Mrs. Lenora Bodenhamer, R. F. D. 1. Box 99, Kernersville, N. C., writes:

"I suffered with *stomach trouble* and indigestion for some time, and nothing that I ate agreed with me. I was very *nervous* and experienced a continual feeling of *uneasiness and fear.* I took medicine from the doctor, but it did me no good.

"I found in one of your Peruna books a description of my symptoms. I then wrote to Dr. Hartman for advice. He said I had catarrh of the stomach. I took Peruna and Manalin and followed his directions and can now say that I feel as well as I ever did.

"I hope that all who are afflicted with the same symptoms will take Peruna, as it has certainly *cured me.*"

The above is only one of hundreds who have written similar letters to Dr. Hartman. Just one such case as this entitles Peruna to the candid consideration of every one similarly afflicted. If this be true of the testimony of one person what ought to be the testimony of hundreds, yes thousands, of honest, sincere people. We have in our files a great many other testimonials.

Fine Time.

Wigglewag—I hear you attended the Tough Mug ball the other night. Did you have a fine time?

Roundebout—No; I had it next morning. Ten dollars and costs.

REFUSE SUBSTITUTES.

Might Have Been Higher.

"That was rather slighting," said Senator Beveridge of a certain speech. "It was like the speech of the old Adams butler.

"When I was a boy in Adams county, Judge Blank was taken very ill. The doctor called regularly, but the judge kept getting worse, and finally the crisis came.

"The morning after the crisis, the doctor rang the judge's bell at sunrise.

"'I hope your master's temperature is lower than it was last evening?' he said to the butler anxiously.

"'I'm not so sure about that,' the man answered. 'He died, sir, in the night.'"

All Were Convenient.

"It was real convenient for him," says a Billville exchange, "that when the train run over him and killed him he was in the company of his uncle, who is a lawyer; his brother, who is a doctor, and his brother-in-law, who is the town undertaker!"

PALE, WEAK PEOPLE

MADE STRONG AND ENERGETIC BY DR. WILLIAMS' PINK PILLS.

General Breakdown Caused by Deficient Blood Quickly Corrected by This Tonic Remedy.

A feeling of general weakness, poor appetite, loss of breath after the slightest exercise and broken sleep are some of the symptoms of general debility. You may think that they have no relation to each other and that you will worry along, hoping all the time to feel better soon. This is a mistake, for every one of the symptoms is caused by bad blood, which must be made pure and new before health will be restored again. A tonic treatment is necessary and for this purpose there is no better remedy than Dr. Williams' Pink Pills.

Mr. J. G. Havey, of 95 Willow St., Chelsea, Mass., says: "I was sick for a number of years from general debility and indigestion. I was never free from stomach trouble and my nerves were so shattered that the least excitement unfitted me for any serious work. My sleep was restless on account of terrible pains in the small of my back. These pains would sometimes last for a month or two. My sight grew weak, there seeming to be a blur constantly before my eyes. I couldn't concentrate my mind on my work, and the attempt to do so completely exhausted me.

"I was finally forced to give up a position I had held for twenty-eight years. After trying several medicines without help, I read of Dr. Williams' Pink Pills and gave them a trial. They made me feel so much better and so much stronger that I started in business for myself here in Chelsea. I have never had a return of my former sickness and cheerfully recommend Dr. Williams' Pink Pills as an excellent nerve and blood tonic."

Dr. Williams' Pink Pills have long been recognized as an excellent tonic remedy in cases of indigestion and general debility, where the stomach and other organs of the body are weakened and disordered simply through lack of proper nourishment. They have also been especially successful in curing anæmia, rheumatism, after-effects of the grip and fevers.

A pamphlet on "Diseases of the Blood" and a copy of our diet book will be sent free on request to anyone interested.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

His Own Business.

Cittiman—Look here, sir, didn't you warrant the horse you sold me yesterday to be without fault?

David Harum—Yes, ain't he?

Cittiman—No, sir, he is not; he interferes.

David Harum—Wal, I don't see as you hev any reason fur complainin' about that. He don't interfere with anybody but himself, does he?

PATENTS.

List of Patents Issued Last Week to Northwestern Inventors.

Reported by Lothrop & Johnson, patent lawyers, 911 Pioneer Press building, St. Paul, Minn.: Arthur O. Hubbard, Minneapolis, Minn., silo; Peter Kinander, Detroit, Minn., pipe-fitting; Henry T. Monson, Mayville, N. D., planter; John N. Peterson, Hazelton, N. D., compound tool; Mathies Schmitt, Austin, Minn., weed exterminator; James E. Scott, Rugby, N. D., bake oven; Olaf N. A Great Surprise.

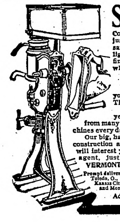
Grandma—Were you surprised to have me come and visit you?

Johnny—Not so surprised as mamma was.

Grandma—Why, she knew I was coming.

Johnny—Yes; what she was surprised at was papa's language when she told him about it.



STRONG and DURABLE

Compact, all the parts accurately made, finely adjusted and working together smoothly; and at the same time, strong, well built, easy to keep in order and light running—these are the features you want to find in a cream separator before you buy one. And when you see a

U. S. CREAM SEPARATOR

you wont have to look any farther. It has them all. That's why it outwears all other makes.

Durability is what the "cheap" separators lack, yet it is most important. We have received letters from many users of the U. S. Separators who have run their machines every day for 10 years and more with entire satisfaction.

Our big, handsome, new catalogue shows plainly all about the construction and wonderful skimming records of the U. S. It will interest you. For free copy and name of nearest selling agent, just write "Send catalogue Y", addressing

PHRASEOLOGY.

Trouble Post Office Officials Had with Phrase for Postal Cards.

It's odd, isn't it," says a post office official, "how numerous are the ways in which some thought may be expressed by different people?

"Some years ago the post office department people at Washington found themselves put to a deal of trouble to prescribe the proper sentence to be used on the face of a postal card to the end that the user thereof might be admonished that he should place nothing but the address on that side. Seven attempts were made before the present phrase was adopted.

"One of the earliest cards was made to bear the legend, 'Nothing but the address can be written on this side,' which was, of course, untrue, as many persons could write more if they so desired, despite the regulation. Shortly afterward this was changed to say, 'Nothing but the address is to be placed on this side,' a sensible enough expression, but clumsy, and in a way amusing. So it was soon discarded.

"The next issue of the cards was inscribed, 'The address only to be written on this side,' which it was speedily observed might be construed to bar the use of the typewriter. The same objection was raised to 'Write only the address on this side.'

"Finally the post office people became almost hysterical about the matter. The next issue of the cards informed the user that he could 'Write only the address on this side, the message on the other,' which was not only clumsy, but ambiguous and conveying a wrong meaning, for, as a matter of fact, the post office officials really had no objection to a person writing the address on both sides.

"Later the word 'only' was dropped, but without much improvement. Finally it was decided that there was no use trying to be original, so the officials fashioned the phrase that is now in use after the one used upon the postal cards issued by the British. Our English cousins say: 'The space below is for the address only, and Uncle Sam has 'This side for the address only.'"

THE CURFEW BELL HAD RUNG

That Explained Why the Small Boy Wanted an Escort.

A resident of this city had a surprising experience a few nights ago while passing along one of the principal streets of Newport News, Va. He was on his way to the shipyards, and the figure of a boy suddenly appeared before him.

"Say, mister," said the almost breathless boy, "do you care if I walk down the street with you?"

"Certainly not," was the man's response, "I always like to have company."

"I only want to go a short distance with you," the boy said. "You know," he added, "the first bell has already rung."

"The first bell?" inquired the man from Washington. "What bell are you talking about?"

"The curfew bell," he answered. "Don't you know what that is?"

It was admitted by the Washingtonian that he had heard of it, but never before had he been in a city where such a law was in force. When the boy had made the explanation the man was more than willing to accompany him. The pair walked along until they reached the entrance to the ship yard.

"Never mind about going all the way home with me," said the little fellow, "I can run the rest of the way and get there before the second bell rings, and if I can't I can keep in the shadows and watch for the police."

Wouldn't Accept Tips.

The honesty of John Chinaman is attested by a remarkable occurrence of recent date, the scene of which was one of the best Chinese restaurants of this city, says the Washington Star. The observer of this example of honesty had refreshed himself by sipping some of the finest brand of tea the house afforded, and had tasted, with feelings of uncertainty, some of the delicacies of Shinese concoction. He finally asked the amount of his bill and paid it. He was curious to see just how a Chinaman would accept a tip, and wanted to make sure just what he would do with such a perquisite. For that reason he waited until the man carried the money to the cashier's desk, and then, waiting his opportunity, beckoned the celestial to his side and placed a dime in his hand. The celestial countenance was illumined by a broad smile, and the man, expressing his thanks turned on his heel and made straightway for the till, where he deposited the tip along with the money that belonged to the house.

Since that time the erstwhile patron of celestial food has had a high regard for Chinese honesty, but he has not yet fully recovered his astonishment over the characteristics of the bland and patient waiter who was the subject of his experiment.

Lovers of Outdoor Life.

C. C. Arosemena, first secretary of the Panama legation, formerly a Cornell football player, rides and plays golf, and Sr. Felipe Pardo, the Peruvian minister, is one of the most enthusiastic horsemen of the city. He has a wide reputation as a hunter of big game. He made a trip to the wilds of Canada last summer. Sr. Sylvino do Amaral, first secretary of the Brazilian legation, is another hunter of big game of note. He has trophies of the chase from the forests of the Amazon, and has hunted a great deal in Argentina.

Real and Fanciful.

Conan Doyle had gone into actual detective work.

"Gee," he muttered to himself. "But I wish I had learned something about the business before making Sherlock do such stunts.

Krause's Cold Cure.

For cold in head, throat, chest or back. Best remedy for La Grippe. Druggists, 25c.

Covered His Heart.

"That is rather a shabby pair of trousers you have on for a man of your position."

"Yes, sir; but clothes do not make the man. What if my trousers are shabby and worn, sir? They cover a warm heart!"

Perfectly simple and simply perfect is dyeing with PUTNAM FADELESS DYES. 10c per package.

A Bigger Target.

Sportsman (wishing for fresh fields to conquer)—I should like to try my hand at big game.

Ignorant Youth—Yes; I suppose you find it very hard to hit these little birds!

BABY ITCHED TERRIBLY.

Face and Neck Covered with Inflamed Skin—Doctors No Avail—Cured by Cuticura Remedies.

"My baby's face and neck were covered with itching skin similar to eczema, and she suffered terribly for over a year. I took her to a number of doctors, and also to different colleges, to no avail. Then Cuticura Remedies were recommended to me by Miss G—. I did not use it at first, as I had tried so many other remedies without any favorable results. At last I tried Cuticura Soap, Cuticura Ointment and Cuticura Resolvent Pills, and to my surprise noticed an improvement. After using three boxes of the Cuticura Ointment, together with the Soap and Pills, I am pleased to say she is altogether a different child and the picture of health. Mrs. A. C. Brestlin, 171 N. Lincoln St., Chicago, Ill., Oct. 20 and 30, 1906."

Hit Back.

Mrs. Hastie—I had a dozen proposals before yours! All from smarter men than you, too!

Mr. Hastie—They must have been. How else did they manage to get out of it.

MISS JULIE FLORENCE WALSH

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong?

The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Miss J. F. Walsh, of 328 W. 36th St., New York City, writes:—"Lydia E. Pinkham's Vegetable Compound has been of inestimable value in restoring my health. I suffered from female illness which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Ulceration, and organic diseases. It is invaluable in preparing for child-birth and during the Change of Life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

Dishes for your table!

BAD BLOOD
THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative

POSTMASTERS RAISED

Red Lake Falls Office Will Pay $1,600 Per Year After the First of July.

Third Assistant Postmaster General Hitchcock has announced changes in salaries of the presidential postmasters in Minnesota based on receipts at their respective postoffices for the four quarters ending March 31st and to become effective July 1st. Most of the increases are for $100, the only $200 raise in the northern part of the state being at Bemidji, where the postmaster will receive $2400 instead of $2200 as heretofore. Red Lake Falls will hereafter pay 1,600 instead of $1,500. Following are the offices in the northern part of the state which will pay an increase of $100 on next year's salary, and the new salary:

Aitkin $1800, Akeley $1600, Hibbing $2500, Alexandria $2100, Lake Park $1300, Bagley $1200, McIntosh $1200, Blackduck $1500, Bovey $1,400, Crookston $2700, East Grand Forks $1800, Eveleth $2200, Red Lake Falls $1600, Fertile $1200, Frazee $1300, Roseau $1200, Grand Rapids $1900, Staples $1800, Stephen $1300, Thief River Falls $2000, Warren $1700, Wadena $1900, Walker $1100.

Free for Catarrh, just to prove merit, a Trial size Box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow-white creamy healing, antiseptic balm. Containing such healing ingredients as Oil Eucalipitus, Thymol, Menthol etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish Address Dr. Shoop, Racine, Wis. Large jars, 50 cents. Sold by all dealers.

Public Weather Towers in Vienna.

In several of the beautiful parks of the city of Vienna very interesting weather towers or booths in shape of a pagoda may be seen. In the Maria Josefa Park, just opened, is one which is distinguished from most others by the number of its meteorological instruments, and by very full data and indications of general interest. Another fact of interest is that the daily use of golden grain belt beer will strengthen and invigorate the entire system. Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Despepsia, The Heart or The Kidneys. Troubles of the Stamach, Heart or Kidneys are merely symptons of a deeper ailment. Don't make the common error of treating symptons only. Sympton treatment is treating the result of your ailment, and not not the cause. Weak Stomach nerves—the inside nerves—mean stomach weaknesses, always. And the Heart and Kidneys, as well, have their controlling power or inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative found its fame. No other remedy ever claims to treat the inside nerves. Also for bloating, billiousness, bad breath or complexion use Dr. Shoops Restorative, Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restoraiive medicine is sold by all dealers.

Piles get quick and certain relieve from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use, Large nickle-capped glass jars 50 cents. Sold by all dealers.

Queen Exhibits Bantams.

Mortgage Foreclosure Sale.

DEFAULT HAVING BEEN MADE IN THE payment of the sum of Nine Hundred twenty five and 61-100 Dollars, which is claimed to be due and is due at the date of this notice upon a certain Mortgage, duly executed and delivered by Hans Frederickson and Mari Frederickson his wife Mortgagors to J. E. Truesdell Mortgagee, bearing date the eighth day of September 1899, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Red Lake and State of Minnesota, on the 9th day of September, 1899, at 3:30 o'clock P. M., in Book 20 of Mortgages, on page 159.

NOW THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: The Northwest quarter (nw¼) of Section thirty-one (31), in Township one hundred fifty-three (153), north of Range forty-two (42) West of the Fifth Principal Meridian, in Red Lake County and State of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the Sheriff of said Red Lake County at the West front door of the Court House, in the City of Red Lake Falls, in said County and State, on the 19th day of July, A. D., 1907, at 10 o'clock A. M., of that day at public vendue, to the highest bidder for cash, to pay said debt of Nine Hundred twenty five and 61-100 Dollars, and interest, and the taxes, amounting to sixty-one and 84-100 dollars heretofore paid, on said premises, and Fifty Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated May 30th 1907.

In the matter of the estate of Alexis Fournier, Deceased.

Letters of Administration of the estate of Alexis Fournier deceased, late of the Town of Terrebonne, in the County of Red Lake and State of Minnesota, being granted to Louis Paranteau.

It Appearing on proper proof by affidavit of the Administrator made and filed herein as provided by law, that there are no debts against the estate of said Alexis Fournier, deceased.

It is Ordered, That three months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the Probate Court of said County, for examination and allowance, or be forever barred.

It is Further Ordered, That Monday, the 19th day of August, 1907, at ten o'clock A. M., at a special term of said Probate Court, to be held at the Probate Office in the Court House in the City of Red Lake Falls in said County, be and the same hereby is appointed as the time and place when and where the said Probate Court will examine and adjust said claims and demands.

And it is further ordered, that notice of such hearing be given to all creditors and persons interested in said estate by forthwith publishing this order once in each week for three successive weeks in the Red Lake Courier, a weekly newspaper printed and published in said county.

Dated at Red Lake Falls, Minnesota, this 18th day of May, A. D., 1907.

By the Court.
(Seal) —N. W. Tarrant,
m23-j6 Judge of Probate.

Order Limiting Time to File Claims, and for Hearing Thereon.

ESTATE OF CHARLES G. CARLSON.

STATE OF MINNESOTA, } In Probate Court:
County of Red Lake.

In the matter of the estate of Charles G. Carlson, Decedent.

Letters of Administration this day having been granted to Frank Schirrick

It is ordered, that the time within which all creditors of the above named decedent may present claims against his estate in this court, be, and the same hereby is, limited to six months from and after the date hereof: and that Saturday, the 23rd day of November 1907, at 2 o'clock P. M., in the Probate Court rooms at the Court House at the City of Red Lake Falls in said County, be and the same hereby is, fixed and appointed as the time and place for hearing upon and examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in the Red Lake Courier, a weekly newspaper printed and published in said County as provided by law,

Dated, May 23, 1907.

(Court Seal) N. W. TARRANT,
m23-j6 Judge of Probate Court.

Citation for Hearing on Petition to Sell, Mortgage or Lease Land.

ESTATE OF CHARLES G. CARLSON

State of Minnesota, } ss
County of Red Lake.

In Probate Court.

In the Matter of the Estate of Charles G. Carlson, Decedent.

The State of Minnesota, To Sofie Carlson, Axel Carlson and Oscar Carlson and all persons interested in the sale of certain lands belonging to said decedent: The petition of Frank Schirrick as representative of the above named decedent, being duly filed in this court, representing that it is necessary and for the best interests of said estate and of all interested therein that certain lands of said decedent described therein be sold and praying that a license be to him granted to sell the same:

Now Therefore, you, and each of you, are hereby cited and required to show cause, if any you have, before this court, at the Probate Court Rooms in the Court House, in the City of Red Lake Falls, County of Red Lake, State of Minnesota, on the 15th day of June, 1907, at 2 o'clock p. m. why the prayer of said petition should not be granted.

Witness, the Judge of said Court, and the seal of said Court, this 23rd day of May, 1907.

THIRTEENTH TOURNEY ON IN RED LAKE FALLS

Ideal Weather and Big Crowds Help Make This one of the Biggest Affairs in the History of the Association---Warren Wins the Banner.

The thirteenth annual tournament of the Northern Minnesota Firemen's association is on in earnest and thanks to the graces of the weather man who gladly joined Jupiter Pluvius in giving Red Lake Falls the best of weather for the four days celebration, the meet is provng one of the best in the history of the association.

The tournament opened in earnest Tuesoay morning, although the crowd began coming Monday afternoon and up to the time of going to press there is every evidence that the big crowds are thoroughly enjoyjoying themselves.

The fun started at train time Tuesday when the Red Lake Falls band and firemen marched to the Great Northern train to meet the first contingent of visitors. The crowd on the early train was not large, but Crookston and Thief River Falls were fairly well represented from the fact that their ball teams were to meet that afternoon. At eleven thirty the crowd was led to the Metropolitan opera house where for an hour they listened to music and speaking. Hon. Halvor Steenerson, congressman of the nznth congressionol district, was introduced by Mayor Duffy in a few well chosen remarks, and spoke very entertainingly for a half hour. Congressman Steenerson has a happy faculty of always pleasing his audience and he was given a rousing reception. The congressman was followed by Thomas Johnstone of Crookston, treasurer of the association, and one of the most enthusiastic firemen in the state. Tommy is always at his best when it comes to talking at a fireman's tournament and he pleased the hearers immensely with his apt remarks. Mr. Johnstone has attended every tournament ever held in the valley and is having the time of his life in Red Lake Falls at this meeting.

After dinner the band led the crowd to the ball grounds, where the game between Crookston and Thief River Falls was the attraction of the afternoon. Crookston was strengthened by three Red Lake Falls players, Harry Healy, Verne Healy and Norman Schreiter while Thief River River had six Mahnomen Indians helping them. Brown, the Crookston twirler, pitched the whole game and held the Thief River team down very nicely. Lofkins, who essays to twirl for the up-river boys on specific occasions, was in the box for Thief River and before he was convinced of his failure as a pitcher five Crookstonites had circled the bases. The Mahnomen pitcher was then put in, and after that only one Crook got to home base. The Thief River team got three runs during the game, the final score being 6 to 3 in favor of Crookston. Lizce, the Argyle southpaw, umpired the contest and gave excellent satisfaction.

After the ball game the band and crowd marched to the evening Great Northern train to meet the Warren and Thief River Falls delegations, and the crowd that poured off the train showed that the people of the Red River valley were anxious to see Red Lake Falls. After the Warren boys had been assigned to quarters the rest of the time until supper was spent in friendly greetiugs and sight seeing by the visitors. After supper the Red Lake Falls Concert band gave a concert of an hour on Main street and the Mahara minstrel show was the attraction of the evening. The minstrels are better this year than ever, and the big crowd that attended the Tuesday evening performance was very well satisfied. A social dance was held after the show, the minstrel orchestra furnishing the music.

Wednesday morning at eight thirty a special train from Greenbush was met, and on it were nerrly a thousand people from Thief River Falls and the towns on the north line. They were escorted up town by the Warren and Red Lake Falls bands and soon mingled with the crowds until parade time. The parade feature at eleven o'clock was a "daisy" in bowery parlance and presented a very striking appearance. The fire engine led and in the parade were nearly three hundred firemen and band men. The formation of the parade was follows: Red Lake Falls fire engine and company; Warren band, executive committee, Warren fire department, Crookston fire department, Red Lake Falls band, Thief River Falls fire department, Hallock fire department, Bemidji delegates, St. Hilaire delegates, Mahara's minstrel bamd, Red Lake Falls fire department. The line of march was up Second street to Champagne avenue, north to first street, east to main, down main to River street, up again to sixth street west to Champagne avenue, north to Third street east to main and back to the city hall. The parade line was crowded with people and the cheers for their favorites were numerous and prolonged. The judges were stationed on the Grand View hotel porch and the parade prizes were awarded as follows. For the largest number of men in line (Red Lake Falls barred) Thief River Falls first with thirty-six; for the team presenting the best appearance, Warren first. After the parade a grand "wind-up" of the men in line was made and the applause was very pronounced.

After dinner the first races were held at the race grounds west of town, and the big grand stand was full of people anxious to see the opening contests.

Warren Wins the Championship Banner.

The first race was the association hose race for the championship banner and prizes. Thief River Falls run first and made a good run and coupling, their time being 23-2-5. Crookston run next and made it in 25-3-5. Warren came next and made it in 23 flat. Red Lake Falls run last and in some way the hose got loose and their trial was a fluke giving first place and the banner to Warren, second place to Thief River Falls and third place to Crookston.

The coupling contest was won by Lesarge, Thief River Falls, in 4 2-5; Cahill, Thief River Falls, second, 4 3-5; Harris, Crookston, third, 5 flat.

The hundred yard dash for firemen was captured by Staska, of Warren. There were four entries and the race was a pretty one from the start. Staska was behind until near the end when by a brilliant spurt he passed the rest and won the race. Cahill of Thief River Falls got second and Brady, Red Lake Falls, third.

Last evening the Warren band entertained the people with an excellent outdoor concert, after which a big part of the crowd went to the Mahara minstrel show and enjoyed themselves in various ways.

On account of the fact that the greater part of the working force of this paper is connected with band, running team, etc., the paper goes to press Wednesday night and will not give a detailed report of the Thursday and Friday races until next week.

However, the crowd is large and everyone is enjoying themselves to the limit. With the weather for Thursday and Friday as good as it was Tuesday and Wednesday the thirteenth annual tournament will go down in history as one of the greatest successes in the history of the association.

Notes of the Tourney.

Happy is here, too!

Thief River contributed a very large delegation of fun-lovers, and they were all well entertained. But Thief River will be the scene of the 1908 tourney and Red Lake Falls expects to reciprocate—and then some.

Editor J.E. Bouvette, of the Hallock Enterprise, is here with the Hallock boys and as usual is having a good time. Bro. Brouvette has taken in all of the tournaments held by the present association and has come to be a necessaty fixture to tournament success.

Bandmaster George Johnson with his fine bunch of band boys, are here from Warren and have contributed in a large measure to the success of the musical part of the program. The Warren band has made a good rep. for itself dnring the past few years, and the popular George makes new friends for his bunch every day. Warren has reason to be proud of her band fully as much as they have to adore their fire team.

The Warren delegation did a good stunt at jollification in front of the grand stand when they won the banner race yesterday, and for fifteen minutes their band, firemen and citizens executed a "war dance" in the track in front of the grand stand. Their joy at winning the pretty banner knew no bounds, and they were certainly a happy lot. Well, they were a fine lot of boys and the people of Red Lake Falls know of none they would sooner see the banner go to.

The Bemidji running team is not with us this year, greatly to the regret of the other members of the association. Their department is represented by four jolly boys, however, in the persons of Ray Dennis, C. S. Dailey, Gus Gustafson and John Goodman and they are contributing their share of the merry-making. The rest of the "Big Bemidj" bunch are greatly missed this year and all of the firemen hope to see them in the game in 1908.

Word was received here Tuesday that a gang of counterfeiters were operating in this neighborhood and word was quickly passed around to watch for bogus bills. Several bills of small denominations were found that looked bad, and late last night a suspicious character was arrested and lodged in jail to await investigation. The officers are close on the track of these fellows and it is more than likely that the crooked work will be nipped in the bud very shortly.

FIFTEEN TO FINISH

Commencement Exercises of St. Joseph's School to be Held on the 27th Inst

At the Metropolitan opera house next Thursday night will occur the annual commencement exercises of St. Joseph's parochial school of this city, at which time fifteen young people will finish their labors at this instiution of learning in a program that will be extremely interesting.

In the morning of that day a matinee will be given at 10 o'clock for children only, and at the evening exercises at 8 o'clock no children will be admitted unless accompanied by their parents. No admission fee will be charged at either entertainment.

St. Joseph's school has been very successful since its foundation four years ago and during that time has graduated several large classes. The success of the school can be attributed in a large measure to the Rev. Father Fayolle who has labored earnestly in behalf of the institution. The father has been very insistent upon securing the best teachers that can be obtained and the work done speaks for itself.

The program for commencement night will be as follows:

"Song of Summer" . . . . Geibel
Seventh and Eight Grade Girls
At Full Tilt . . . . Owen
Rosaiba Lemieux, Emma Hance
"The Wrong Package" . . . . Griffith
Charecters: Miss Boggs, school principal, Monica Zeh; Margaret Evans and Jessie Brooks pupils, Agnes Crompe and Lea Latendresse; Jennie, the maid, Clara Bourdon.
"The Young Marshal" . . . . Renard
Ervy Toupin.
"A Little Rag Doll" . . . . Harcourt
Pitilla Paul, Emma Hance, Rosalba Lemieux
(a) "When the Lights are Low" . . . . Engelmann
(b) "Coquetrie" . . . . Manney

Accompanists: Eva Paradis, Cora Paul

Tommy Johnstone on Deck.

Tommy Johnstone of Crookston is here, of course. If there was a firemen's tournament within four hundred miles and the genial Tom heard of it it is a dead cinch he would be at the scene of action. There is no more enthusiastic fireman in Minnesota than this same Johnstone, and a tourney wouldn't seem right unless he was present. He is officiating as timekeeper and judge at the raoes, and knows the individual members of the different teams so well that he can almost tell the time of the race before the runners reach the line. Tom is there with the goods wherever you put him and will always be giyen the glad hand when he visits Red Lake Falls.

No Hardships.

Adrian Democrat: On account of the two-cent rate, it is said, the railroads are now planning on reducing the speed of their trains, as it is a settled fact that a slow train can be operated much cheaper than a fast one. Well, the travelling public will not be disposed to kick. A slow train on time is better than a fast one two hours late. All the difference will be we will spend a little more time on the road rather than waste our time waiting around stations.

GOT A HORSE THIEF

Sheriffs From McLain and McHenry Counties Make Important Capture.

Late last night in this city Sheriff John A. Beck, of Washburn, McLain county, North Dakota, and Sheriff Javnagr, of McHenry county, nabbed a badly wanted member of a gang of horse thieves that has been operating in their state for several months past, and the fellow is now lodged in the county jail here awaiting a trip back to North Dakota to answer to this serious charge.

The fellow goes by the name of George E. Gray, and he had been in town sinee early yesterday morning. He came down from Thief River Falls in an automobile and was doing a rushing business hauling people to and fro from the grounds and about the city. It appears that he rented the automobile at Thief River and had no idea that he was being tracked.

The North Dakota sheriffs had been on his trail for several months and got track of him early this week and when they arrived here last evening his capture was an easy matter. Grey is a member of a very bad gang of crooks that has been carrying on high-handed robbery in that part of North Dakota for a year past, and the officers out there hope to round them all up before very long.

Mermaids in History.

Nearly all nations have folk-lore and fairy-tale accounts of mermaids, and some times of mermen. Even the American Indians had their "woman-fish" and "man-fish." The Chinese tell stories about their sea-women of the Southern seas. Sometimes mermaids and mermen are represented as leaving the water and living with human beings, but more frequently they are pictured as being so attractive that they sometimes will lure human beings to destruction in the depths of the sea. These myths have been utilized by many poets, and have even been used for stories "with a moral."

THIRTEENTH TOURNEY ON IN RED LAKE FALLS

Ideal Weather and Big Crowds Help Make This one of the Biggest Affairs in the History of the Association---Warren Wins the Banner.

The thirteenth annual tournament of the Northern Minnesota Firemen's association is on in earnest and thanks to the graces of the weather man who gladly joined Jupiter Pluvius in giving Red Lake Falls the best of weather for the four days celebration, the meet is provng one of the best in the history of the association.

The tournament opened in earnest Tuesday morning, although the crowd began coming Monday afternoon and up to the time of going to press there is every evidence that the big crowds are thoroughly enjoyjoying themselves.

The fun started at train time Tuesday when the Red Lake Falls band and firemen marched to the Great Northern train to meet the first contingent of visitors. The crowd on the early train was not large, but Crookston and Thief River Falls were fairly well represented from the fact that their ball teams were to meet that afternoon. At eleven thirty the crowd was led to the Metropolitan opera house where for an hour they listened to music and speaking. Hon. Halvor Steenerson, congressman of the ninth congressionol district, was introduced by Mayor Duffy in a few well chosen remarks, and spoke very entertainingly for a half hour. Congressman Steenerson has a happy faculty of always pleasing his audience and he was given a rousing reception. The congressman was followed by Thomas Johnstone of Crookston, treasurer of the association, and one of the most enthusiastic firemen in the state. Tommy is always at his best when it comes to talking at a fireman's tournament and he pleased the hearers immensely with his apt remarks. Mr. Johnstone has attended every tournament ever held in the valley and is having the time of his life in Red Lake Falls at this meeting.

After dinner the band led the crowd to the ball grounds, where the game between Crookston and Thief River Falls was the attraction of the afternoon. Crookston was strengthened by three Red Lake Falls players, Harry Healy, Verne Healy and Norman Schreiter while Thief River River had six Mahnomen Indians helping them. Brown, the Crookston twirler, pitched the whole game and held the Thief River team down very nicely. Lofkins, who essays to twirl for the up-river boys on specific occasions, was in the box for Thief River and before he was convinced of his failure as a pitcher five Crookstonites had circled the bases. The Mahnomen pitcher was then put in, and after that only one Crook got to home base. The Thief River team got three runs during the game, the final score being 6 to 3 in favor of Crookston. Lizce, the Argyle southpaw, umpired the contest and gave excellent satisfaction.

After the ball game the band and crowd marched to the evening Great Northern train to meet the Warren and Thief River Falls delegations, and the crowd that poured off the train showed that the people of the Red River valley were anxious to see Red Lake Falls. After the Warren boys had been assigned to quarters the rest of the time until supper was spent in friendly greetings and sight seeing by the visitors. After supper the Red Lake Falls Concert band gave a concert of an hour on Main street and the Mahara minstrel show was the attraction of the evening. The minstrels are better this year than ever, and the big crowd that attended the Tuesday evening performance was very well satisfied. A social dance was held after the show, the minstrel orchestra furnishing the music.

Wednesday morning at eight thirty a special train from Greenbush was met, and on it were nerrly a thousand people from Thief River Falls and the towns on the north line. They were escorted up town by the Warren and Red Lake Falls bands and soon mingled with the crowds until parade time. The parade feature at eleven o'clock was a "daisy" in bowery parlance and presented a very striking appearance. The fire engine led and in the parade were nearly three hundred firemen and band men. The formation of the parade was follows: Red Lake Falls fire engine and company; Warren band, executive committee, Warren fire department, Crookston fire department, Red Lake Falls band, Thief River Falls fire department, Hallock fire department, Bemidji delegates, St. Hilaire delegates, Mahara's minstrel bamd, Red Lake Falls fire department. The line of march was up Second street to Champagne avenue, north to first street, east to main, down main to River street, up again to sixth street west to Champagne avenue, north to Third street east to main and back to the city hall. The parade line was crowded with people and the cheers for their favorites were numerous and prolonged. The judges were stationed on the Grand View hotel porch and the parade prizes were awarded as follows. For the largest number of men in line (Red Lake Falls barred) Thief River Falls first with thirty-six; for the team presenting the best appearance, Warren first. After the parade a grand "wind-up" of the men in line was made and the applause was very pronounced.

After dinner the first races were held at the race grounds west of town, and the big grand stand was full of people anxious to see the opening contests.

Warren Wins the Championship Banner.

The first race was the association hose race for the championship banner and prizes. Thief River Falls run first and made a good run and coupling, their time being 23-2-5. Crookston run next and made it in 25-3-5. Warren came next and made it in 23 flat. Red Lake Falls run last and in some way the hose got loose and their trial was a fluke giving first place and the banner to Warren, second place to Thief River Falls and third place to Crookston.

The coupling contest was won by Lesarge, Thief River Falls, in 4 2-5; Cahill, Thief River Falls, second, 4 3-5; Harris, Crookston, third, 5 flat.

The hundred yard dash for firemen was captured by Staska, of Warren. There were four entries and the race was a pretty one from the start. Staska was behind until near the end when by a brilliant spurt he passed the rest and won the race. Cahill of Thief River Falls got second and Brady, Red Lake Falls, third.

Last evening the Warren band entertained the people with an excellent outdoor concert, after which a big part of the crowd went to the Mahara minstrel show and enjoyed themselves in various ways.

On account of the fact that the greater part of the working force of this paper is connected with band, running team, etc., the paper goes to press Wednesday night and will not give a detailed report of the Thursday and Friday races until next week.

However, the crowd is large and everyone is enjoying themselves to the limit. With the weather for Thursday and Friday as good as it was Tuesday and Wednesday the thirteenth annual tournament will go down in history as one of the greatest successes in the history of the association.

Notes of the Tourney.

Happy is here, too!

Thief River contributed a very large delegation of fun-lovers, and they were all well entertained. But Thief River will be the scene of the 1908 tourney and Red Lake Falls expects to reciprocate—and then some.

Editor J. E. Bouvette, of the Hallock Enterprise, is here with the Hallock boys and as usual is having a good time. Bro. Brouvette has taken in all of the tournaments held by the present association and has come to be a necessary fixture to tournament success.

Bandmaster George Johnson with his fine bunch of band boys, are here from Warren and have contributed in a large measure to the success of the musical part of the program. The Warren band has made a good rep. for itself during the past few years, and the popular George makes new friends for his bunch every day. Warren has reason to be proud of her band fully as much as they have to adore their fire team.

The Warren delegation did a good stunt at jollification in front of the grand stand when they won the banner race yesterday, and for fifteen minutes their band, firemen and citizens executed a "war dance" in the track in front of the grand stand. Their joy at winning the pretty banner knew no bounds, and they were certainly a happy lot. Well, they were a fine lot of boys and the people of Red Lake Falls know of none they would sooner see the banner go to.

The Bemidji running team is not with us this year, greatly to the regret of the other members of the association. Their department is represented by four jolly boys, however, in the persons of Ray Dennis, C. S. Dailey, Gus Gustafson and John Goodman and they are contributing their share of the merrymaking. The rest of the "Big Bemidji" bunch are greatly missed this year and all of the firemen hope to see them in the game in 1908.

Word was received here Tuesday that a gang of counterfeiters were operating in this neighborhood and word was quickly passed around to watch for bogus bills. Several bills of small denominations were found that looked bad, and late last night a suspicious character was arrested and lodged in jail to await investigation. The officers are close on the track of these fellows and it is more than likely that the crooked work will be nipped in the bud very shortly.

INTENTIONAL DUPLICATE EXPOSURE

RED LAKE FALLS, MINNESOTA

NEWS OF THE WEEK IN EPITOME

DIGEST OF THE NEWS WORTH TELLING CONDENSED FOR BUSY READERS.

Washington Notes.

The president has appointed Gen. William McMachen as collector of internal revenue at Topeka, Ohio.

The weather bureau in Washington announces that all records were broken by the low mean temperature throughout the country during the last two months.

The general land office has sent out notices of the proposed opening of bids for the sale of two million feet of down timber in the Cass Lake Indian reservation in Minnesota on July 17.

President Roosevelt has been presented with a handsomely engraved plate of solid gold taken from the mine near the home of the president's mother in Georgia. The plate is valued at over $400. It is a Jamestown souvenir.

The census bureau issued a preliminary report showing that Wisconsin during the calendar year 1906 produced 2,311,305,000 feet of lumber. The report shows a decrease of 212,000,000 feet of lumber in that state since the previous year.

The navy department has announced that the naval militia of Michigan would take a summer cruise from Aug. 11 to Aug. 16. The date for the cruise of the Minnesota militia has not yet been fixed, but it has been determined that a cruise shall be taken.

People Talked About.

Karl Blind, the German patriot, died in London of heart failure. He was born in 1826.

Judge A. Q. Garretson of the supreme court of New Jersey died at Morristown of pneumonia.

Judge William K. Townsend of the United States circuit court died suddenly in New Haven, Conn.

Archibald MacArthur, president of the MacArthur Bros. company of Chicago and New York, died at Riverside, N. Y.

Walter S. Cheesman, president of the Denver Union Water company and one of the foremost capitalists and citizens of Denver, is dead.

Capt. William Fendley Dement, the commander of Dement's battery, famous in the Maryland line of the Confederate army, died at his home near Pomfret, Maryland, in his eightieth year.

Crimes and Criminals.

Despondent over ill health, Peter Dietrich, a prominent citizen of Elkport, Iowa, shot himself.

After shooting and fatally wounding his wife, from whom he was separated, Nathan Hale, a farmer of Durant, I. T., fired a bullet into his brain.

An unknown man, who the police say is a victim of the Black Hand society, was found dead near the tracks of the Pennsylvania railroad at Philadelphia.

Two hundred men bombarded the residence of Rev. Vitus Hajbar, pastor of St. Vitus Catholic church, at Cleveland, following the noonday service. Thirty arrests were made.

Two attempts have been made by incendiaries recently to destroy the Summit House block, one of the finest structures in Creston, Iowa. The police are mamking an investigation.

The mangled body of an unknown man was found on the railway tracks at Meadowlands, Pa. His pockets were turned inside out. The authorities believe the man was robbed and murdered.

F. V. Poehn, fifty years old, charged with stealing $48,000 in bonds and $11,000 in cash from a sister at Indianapolis, was arrested at Wheeling, W. Va., and taken back to Indianapolis. All but $1,200 was found on him.

Because they could not tell him the address of a young woman Patrick Reardon, aged twenty-three, shot Thomas Morton and M. M. Moorehead and then committed suicide at Pittsburg. Moorhead and Morton are at a hospital in a critical condition.

While Christina Thulin and Lorens Saestrom of Griswold, Iowa, were returning home late at night they were set upon by three men, who beat them severely. The young woman was rendered unconscious and it is feared that she was seriously injured. The assault was entirely unprovoked.

Accidental Happenings.

Stricken with an epileptic fit while on the top of a windmill tower near Anamosa, Ralph Isham lost his balance and fell to the ground, fifty feet below, breaking his neck and dying instantly.

Four members of a fishing party at Wunder's lake, near O'Neill, Neb., were drowned by a boat capsizing.

The big ice house of the Swift Packing company, containing 8,000 tons of ice, burned at Omaha. Loss, $75,000.

A severe wind and rain storm swept over the central portion of North Texas and much damage to property is reported.

While in an alcoholic sleep behind a hedge fence at the Durfee mining camp at Oskaloosa, Iowa, Richard Harding was shot and killed by friends who mistook his snoring for the snorting of a wild animal.

A. A. Swanson, foreman of a railroad grading crew, was run over by the engine of an extra freight near Bonita, Mont.

Adulterated milk poisoned twenty-seven people at Gomez Palacio, Mex., most of whose lives were saved only through the heroic measures resorted to by medical men.

While attempting to jnump onto a moving St. Paul passenger train at Menominee, Mich., Ed. Mabarg of Pembina fell under the wheels of the train and his right leg was severed below the knee.

Grief over death by drowning three years ago of her son is believed to have been responsible for the death of Mrs. L. C. Hall, wife of a prominent physician of Burlington, Iowa, which occurred last week.

Four fires in different portions of the business district of Allentown, Pa., caused damage estimated at $300,000. The blazes are thought to have been incendiary. Several firemen were overcome by smoke.

Emil Friedlund, aged fourteen years, is dead at Iron River, Mich., as the result of a scratch from his finger nail. Blood poisoning set in and the boy, becoming violently insane from the pain, died in great agony.

Miss Cora Wheeler is dead at Oskaloosa, Iowa, as a result of a runaway accident. She was thrown in such a manner that her head struck against a telephone pole and she was unconscious when picked up.

From Other Shores.

A mutiny broke out among a squad of soldiers of the guard stationed at Tsarskoe Selo. The mutineers were promptly surrounded and disarmed by other troops.

President Fallieres of France has received the Order of St. Andrew from Emperor Nicholas, accompanied by an autograph letter expressing high esteem for the president.

A railway train while being switched at Corruna, Italy, ran into and overturned a vehicle in which nine women were riding at a level crossing. The nine were crushed to death.

An insurrection has broken out forty miles southward of Amoy, China. Thirty thousand rebels are under arms and are said to be well led. The revolt is spreading to towns near Amoy.

The Irish bill was formally dropped by the British government with scant ceremony and only the most perfunctory signs of mourning, even on the part of its ministerial sponsors.

It was officially announced at Guayaquil, Ecuador, that the government troops had two encounters with the main body of rebels, who fled to the heights between Ambato and La Tacunga.

King Oscar's health is so far improved that he has reassumed the reins of government, which he relinquished Dec. 14, 1906, when he appointed Prince Gustave, the crown prince, as regent.

A dispatch from Mombasa reports that a native has been sentenced to five years' imprisonment and to receive twenty-four lashes for an attempted assault upon the daughter of a European missionary.

The British house of commons unanimously passed the second reading of the bill establishing a court of criminal appeal and providing for the right of appeal against convictions for crime, similar to that now existing in civil cases.

The French war minister has issued instructions to the army on the subject of duels, in which he directs commanders neither to refuse or grant authorization to have recourse to the code in quarrels over service difficulties.

Gerda Krum Nathansen, the celebrated Danish actress, was shot and mortally wounded by her husband at the Hotel Aalborg, Jutland. The husband, after shooting his wife, immediately committed suicide. Jealousy was the cause of the tragedy.

Domestic.

Archbishop J. J. Keane has been summoned to appear as a witness in the saloon injunction cases at Dubuque, Iowa.

Honorary degrees were bestowed by the University of Maryland in connection with the commemoration of the 100th anniversary of the institution.

Dealers in and around Washington market say that New York city is menaced by a vegetable famine as a result of the unseasonable weather of the last six weeks.

Inquiries are being made for heirs to the estate of Edward Lynch, a farmer who died in the hospital at Carroll, Iowa, after a lingering illness. His estate is valued at $20,000.

An earthquake shock lasting about ten seconds was felt at San Francisco at 12:27 one day last week. The oscillation was from north to south. No damage has been reported.

Capt. C. D. Chandler of the United States signal corps and J. C. McCoy and Leo Stevens of New York made a balloon trip from Washington, D. C., to Harrisburg, Pa., in four hours and thirty-seven minutes.

For the theater season just closed, New York paid $13,000,000. This estimate, by a manager who has the business at his fingers' ends, includes $3,000,000 spent for vaudeville and $1,500,000 for grand opera. The total sum is about $3,000,000 more than was paid into Manhattan box offices the preceding year.

Six jobbing houses in Burlington, Iowa, have organized for what is said to be the first effective movement to [illegible] the so-called biscuit trust. They have formed a company with a capital of $50,000, and will at once erect a plant with modern equipment.

STILL ATTACKING ORCHARD'S STORY

DEFENSE ATTEMPTS TO DISCREDIT TESTIMONY OF ASSASSIN.

FIENDISH PLOT REVEALED

ORCHARD PLANNED TO BLOW UP BOARDING HOUSE WITH 150 INMATES.

Boise, Idaho, June 8. — Harry Orchard crowned his admissions of grave crimes yesterday when continuing his case against William D. Haywood he made an explicitly detailed confession of the murder of Frank Steunenberg by an infernal machine. This confession opens the way for his own conviction and execution for the offense. He swore that the assassination of Steunenberg was first suggested by Haywood, was jointly plotted by Haywood, Moyer, Pettibone and himself, was financed by Haywood and was executed by himself after the failure of an attempt in which Jack Simpkins had participated.

Victims Number Eighteen.

Orchard increased the total of his murdered victims to eighteen, detailed the circumstances under which he tried to murder Former Governor Peabody, Judge Goddard, Judge Gabbert, Gen. Sherman Bell, Dave Moffat and Frank Hearne, and incidentally he confessed to a plot to kidnap the child of one of his former associates. Then under cross-examination by the defense Orchard confessed to the guilt of sordid social crimes, of deserting his young child and wife in Ontario, fleeing to British Columbia with Hattie Simpson, the wife of another man, and committing bigamy by marrying a third woman at Cripple Creek.

Orchard Given Hard Grilling.

Boise, Idaho, June 9. — Counsel for William D. Haywood continued their attack on the testimony of Harry Orchard at both sessions of the trial yesterday. To the extent that traffic with "the other side" in the war of labor and capital in Colorado was discreditable, they succeeded in discrediting the witness.

Employed by Detective.

Taking up the admission that Orchard made on direct examination that he has been treacherous to his comrades in Cripple Creek by tipping off a train wrecking plot, they developed the fact that Orchard had entered the employ of D. C. Scott, who had charge of the railway detectives. He said that he had agreed to report to Scott, but that he was lying to him, never intending to make reports to him and never did make reports.

The defense also tried to show that because he stood in with the other side Orchard was never molested by the militia in Cripple Creek during the strike.

More Crimes Admitted.

Orchard admitted that Scott had told him that if the militia interfered with him he was to send for him, and that the militia never did interfere with him or search his house.

More crimes, great and small, were admitted by Orchard yesterday. The Cripple Creek woman with whom he committed bigamy had three sons. Orchard stole high grade ore from a messmate; he stole two cases of powder from the Vindicator mine; he stole powder to make one of the bombs thrown into the Vindicator and he told a lie.

Orchard stood the test and strain well and held tenaciously to the story he related yesterday and the day before.

Say Orchard Had Motive.

Boise, Idaho, June 11.—Harry Orchard made four admissions Saturday on the stand to rthe prosecution in the trial of W. D. Haywood for the murder of Gov. Steunenberg of Idaho, in which the defense claims to have thrown light on his motive for killing Steunenberg and of his relations with the mine owners as opposed to the Western Federation of Miners. The defense intimates that Orchard was a spy of the mine owners, committing crimes to throw the federation into disrepute.

Harry Orchard admitted that since his imprisonment he has been writing a story of his life.

Admitted by Orchard.

The defense claims it is from this embellished story, not from his simple recollection of facts, that he is testifying.

Orchard admitted that he has secured money since his incarceration in prison. The defense intimates it has come from the mine owners, who were interested in his deeds.

Orchard admitted he would have been a rich mine owner if Gov. Steunenberg had not driven him from Idaho. In this the defense sees a motive for his act in killing the governor.

Orchard added the crime of arson to his long list of admitted acts of outlawry.

Defense Is Satisfied.

When court adjourned Harry Orchard, the chief witness for the prosecution, heaved a sigh of relief that seemed to come from the bottom of his soul. For four days he has been on the witness stand relating a story of crime unparalleled in the court history of the country. The last two days he has been under the merciless cross-examination of attorneys for the defense, and though he has borne up wonderfully and his story in the main remained unshaken the ordeal was more than any human being could have withstood unmoved. The defense professes to be satisfied.

[illegible] Plot of [illegible] Owners.

[illegible], June 12—In the cross-examination of Harry Orchard yesterday, [illegible] for Haywood repeatedly [illegible] the suggestion of a [illegible] counter-plot formed and carried out by the enemies of the Western Federation of Miners, [illegible] indicated a determination to construct their main line of defense on that line.

They carried Orchard by slow steps and through the minutest details from the dynamiting of the Independence station down to the attempt on the life of Fred Bradley and his family, and in addition to a series of

Particular Attacks

on the credibility of the witness and the general probability of his stories, and preparing the way for their own testimony in rebuttal they sought to show that Orchard has a mania for boasting of the commission of crimes non-existent except in his own mind, and that he is testifying under the control and suggestion of Detective McParland.

Then began yesterday by making it clear that as far as Orchard knew of his own knowledge Haywood, Moyer and Pettibone had nothing to do with the inspiration, planning and execution of the Vindicator explosion, and that Haywood and Moyer had nothing to do with the planning of the murder of Detective Gregory. Into stronger relief than had been the direct examination they threw the utter depravity of the witness.

Denied by Orchard.

Orchard denied that mine owners or railway men had any part in the Independence station outrage; denied that he had a mania for confessing uncommitted crimes and denied that he is under the influence of McParland.

Two more crimes were brought home to Orchard yesterday. He confessed that he burned a cheese factory at Ontario to get $800 insurance and he confessed that he began his life of crime by [illegible] cheese [illegible] short weight.

Still Attacking Orchard's Story.

Boise, June 13.—The attack of the Haywood defense on the testimony of Harry Orchard goes on unremittingly, and the witness will probably be continued on the stand for two full days more.

Yesterday began with the story of the dynamiting of Fred Bradley in San Francisco, and the defense made a long and determined effort to expose several features of it to doubt and improbability.

Orchard Stole Sheep.

Then the play went back to Denver for the winter of 1904-1905 and the spring that followed, and there was an extended effort to show that Orchard had practically no communication with the leaders of the federation; that he received no pay for the Bradley crime or anything else, and that with Steve Adams in a period of extreme poverty extending over several months he was reduced to the necessity of stealing a sheep from the Globeville stock yards that he might have food.

Orchard, to a laughing courtroom, seriously confessed that he stole the sheep, but stoutly denied that it was from necessity.

Money Came Regularly.

He insisted that all through the winter and spring he continued to draw money from Pettibone through Adams, and explained that if he did not see the federation leaders often it was because he was lying low to avoid capture for previous crimes.

This Globeville inquiry developed a more shocking crime. At this Denver suburb there was a diabolical plot—Orchard swore it was inspired by Max Mahalich; the defense claimed that Orchard was its author—to dynamite a boarding house where 150 non-union men lived.

Stole 600 Pounds of Dynamite.

In preparation for the murder en bloc, Orchard, Adams and a man named Joe Mahalich stole 600 pounds of dynamite. The crime was abandoned, Orchard said, because Haywood intervened and forbade him to have anything to do with it. Orchard, who confessed that he hesitated at no crime and took a hundred desperate chances in those he committed, made an interesting contribution to the psychological study of his personality when he called himself a coward. He said he was too cowardly openly to kill Judge Gabbert and said that he regarded all his acts as cowardly.

KILLED IN CAR WRECK.

Switching Brakeman Is Hurled Beneath Wheels of Train.

Watertown, S. D., June 8.—Bert Clements, aged twenty years, was instantly killed in the switching yards of the Minneapolis & St. Louis road. He was employed as a switching brakeman. [illegible] on which Clements was riding left the track and the lurch threw him between the two head cars, the second of which passed across the body, killing him instantly.

PEABODY IS THREATENED.

Former Governor of Colorado Gets Anonymous Letters.

Kansas City, June 2.—James H. Peabody, former governor of Colorado, who is here on business, said last night in an interview that since the Haywood trial in Boise began he had received several anonymous letters threatening his life. He said he had paid no attention to the letters, because they evidently did not come from responsible sources.

FIERCE ASSAULT IS MADE ON ORCHARD

DEFENSE TRIES TO SHOW THAT HE IS LYING TO SAVE HIMSELF.

BREAKS DOWN ON THE STAND

BIBLE STORY MOVES HIM—STEPS DOWN [illegible] BE [illegible] LATER.

Boise, Idaho, June 15. — The [illegible] are battling to save the life of William D. Haywood and [illegible] of the Western Federation of Miners made their greatest [illegible] Harry Orchard yesterday. [illegible] the [illegible] by cross-examination of his life of crime down to his confession, they bitterly assailed his guiding motives. Six days they spent in [illegible] him before the [illegible] of every [illegible], and then, suddenly turning [illegible] a final, [illegible] every means known to the legal craft to convince the jury that Orchard was committing a crime

In Falsely Swearing

away the lives of innocent men in the hope of saving his own. The carried their attack to the very language with which the witness answered their questions, and everywhere they alleged by forceful implication that it was put into his mouth by men controlling him.

Orchard broke down when the attorneys recited to him the tale of David and Uriah that Detective McParland related to him when he came seeking a confession.

He defended his motives by saying that he finally experienced conversion and had resolved to make all possible reparation by fully confessing all.

Hammered by Richardson.

He said that McParland said he was doing a great service for the state and that states were kind to men who served them. There was no other promise.

"You knew that if you confessed to the Steunenberg murder the state would put you out of the way?" hammered Attorney Richardson.

"Yes, sir."

"But somewhere along the line the thought came to you that you could get out of it by laying it on to somebody else?"

"No, sir, that was not the thought at all."

Was Afraid to Die.

And here it was that Orchard gave a remarkable explanation of the motives that impelled him to confess.

"I thought," he said, "of putting myself out of the way, but I thought over my past life. I did not believe in a hereafter at all, but I was afraid to die, and I thought at times that I had been such an unnatural monster—my crimes had been so great—that I would not be forgiven."

"Who told you that?"

"No one."

"Who wrote that out for you?"

Inspiration From Bible.

"No one; but after I had been sent a Bible and had read it some I came to the conclusion that I would be forgiven if I made confession of everything."

"So you thought you would make your peace with the future by having somebody else hung, did you?"

"No, sir. I think any man can make his peace with the future if he wants to. I believe it was my duty to tell the truth. I did not see any other way, regardless of the consequences to myself or anybody else. I owed it to God and to myself."

Leaves Witness Stand.

Orchard left the stand at 2:30 o'clock, after having occupied it for a total of thirty-two hours and a half. He is to return to the witness chair later, because the defense must lay the formal lines for impeaching him and the state must still have its redirect examination.

Immediately Orchard left the stand the state put on three witnesses from San Francisco to corroborate the Bradley poisoning story.

REGULARS ALSO TO CAMP.

Fort Lincoln Battalion Will Join State Troops at Devils Lake.

Bismarck, N. D., June 14.—A battalion of the Sixth United States infantry stationed at Fort Lincoln, will march to the state military camp grounds at Devils Lake and spend six days in camp with the state militia, July 11 to 17.

Can't Have Public Baths.

LaCrosse, Wis., June 15.—The demand of the North La Crosse Progressive league for an appropriation of $1,600 for a North side public bath was refused by the bath and finance committee of the council.

Rainy River Claims a Victim.

Spooner, Minn., June 15.—H. Spring was drowned near a boom of the Rainy River Lumber company's mill at Rainy River, Ont. It is not known whether Spring walked off the boom deliberately or fell in.

Pistol Is Evil Toy.

Chippewa Falls, Wis., June 15.—George Johnson, thirteen years old, accidentally shot himself with a revolver with which he had been playing and which he "didn't think was loaded."

SNELLING TO BE FINE POST

TAFT SAYS INFANTRY WILL ALWAYS BE KEPT THERE—GUEST OF TWIN CITIES.

St Paul, June 15.—"Fort Snelling has always been a fine post, and we intend to keep it so," said Secretary of War Taft on his arrival in St. Paul yesterday morning. "We have not decided what shall be done with Forts Keogh and Yellowstone. The transfer of various batteries from one fort to another is essential under the provisions of the act of congress organizing the artillery into regiments. If the artillery is to be used as regiments it must be drilled as such. We will have an artillery post at Fort Riley and will soon [illegible] the battalion at Fort Sill to a[illegible]. "It [illegible] the [illegible] for troops in Cuba that [illegible] the [illegible] of distribution on [illegible] soldiers. We will always have infantry at Fort Snelling, but the artillery [illegible] be sent [illegible] have [illegible]." Gen. [illegible] in Bell [illegible] of the [illegible] accompanied Secretary Taft.

Yesterday Secretary Taft delivered an address at the commencement exercises at the university in Minneapolis, and in the evening was the guest of honor at a banquet at the Minneapolis club.

To-day Mr. Taft will be the guest of St. Paul. He will deliver an address at the laying of the corner-stone of the new Y. M. C. A. building, and in the evening will be the guest at a banquet which promises to be the largest affair of the kind ever held in the Northwest. Two thousand people will sit down to the tables which have been arranged on the immense stage of the Auditorium. The galleries will be thrown open to the general public free of charge. The affair is strictly non-partisan.

COSGROVE IS NEW SECRETARY.

Elected by State Fair Board to Succeed E. W. Randall.

St. Paul, June 15.—C. N. Cosgrove of Le Sueur yesterday was elected secretary of the Minnesota State Agricultural society succeeding E. W. Randall. B. F. Nelson of Minneapolis, who has been first vice president, was made president in the place of Mr. Cosgrove, who resigned to become secretary. C. M. Griggs of St. Paul, second vice president, was put up to first vice president, while J. J. Furlong of Austin was appointed second vice president.

Mr. Randall's resignation went into effect immediately, Mr. Cosgrove taking up the work. Mr. Randall will assume his new duties as dean and director of the state agricultural college Aug. 1.

WOMAN FIRST IN LINE.

Two Hundred Land Seekers Are In Line at Cass Lake Opening.

Cass Lake, Minn., June 15.—When the formal opening of government lands in Itasca county, which were subject to entry at the United States land office in this village took place 200 persons were on hand prepared to file on lots and parcels which they had selected for entry. The best of order prevailed.

Mrs. Ole Ferguson of Cass Lake was the first to enter the land office and offer her filing. The township opened yesterday for filing is fourteen miles east of the village of Big Falls, and the Little Fork river flows along the western side.

FOREST FIRES QUENCHED.

Rain Saves Much Loss, Though Damage Already Is Extensive.

New Richmond, Wis., June 15.—The rains of this week came just in time to head off heavy losses to the Willow River Lumber company of this city through forest fires raging in the vicinity of the company's camps at Grand View, Wis. As it was considerable cordwood, poles and posts were destroyed and some of the camps were burned, but no logs were lost.

EASY TO BREAK JAIL.

Prisoner Uses Broomhandle to Loosen Fastenings.

Park Rapids, Minn., June 15.—When he found the jail door was not locked properly, Asa Wise, confined on a charge of tapping a till at Akeley, loosened the fastenings with a broomhandle and walked out of the bastile by way of the sheriff's office. He again has been placed under arrest and his case will come up next week.

HEAR FAIRBANKS ON FOURTH.

Fergus Falls Men Secure Vice President as Orator.

Fergus Falls, Minn., June 15.—Secretary Erickson of the Fergus Falls Commercial club received a telegram from Vice President Fairbanks to the effect that the vice president will arrange to deliver the Fourth of July address here.

To Buy Light Plant.

Winona, Minn., June 15.—By a vote of 132 for to 8 against St. Charles has decided to issue bonds to the amount of $10,000 for the purchase of an electric light plant, there to be operated by the city.

Caught Spearing Fish.

Little Falls, Minn., June 15.—C. F. Alberg and John and Eric Anderson, all of Upsala, were fined for spearing fish. The men were caught on Pine lake. They were fined $20 and costs each.

Crimes and Criminals.

Despondent over ill health, Peter Dietrich, a prominent citizen of Elkport, Iowa, shot himself.

After shooting and fatally wounding his wife, from whom he was separated, Nathan Hale, a farmer of Durant, I. T., fired a bullet into his brain.

An unknown man, who the police say is a victim of the Black Hand society, was found dead near the tracks of the Pennsylvania railroad at Philadelphia.

Two hundred men bombarded the residence of Rev. Vitus Halbar, pastor of St. Vitus Catholic church, at Cleveland, following the noonday service. Thirty arrests were made.

Two attempts have been made by incendiaries recently to destroy the Summit House block, one of the finest structures in Creston, Iowa. The police are mamking an investigation.

The mangled body of an unknown man was found on the railway tracks at Meadowlands, Pa. His pockets were turned inside out. The authorities believe the man was robbed and murdered.

F. V. Poehn, fifty years old, charged with stealing $48,[illegible] in bonds and $11,000 in cash from a sister at Indianapolis, was arrested at Wheeling, W. Va., and taken back to Indianapolis. All but $1,200 was found on him.

Because they could not tell him the address of a young woman Patrick Reardon, aged twenty-three, shot Thomas Morton and M. M. Moorehead and then committed suicide at Pittsburg. Moorhead and Morton are at a hospital in a critical condition.

While Christina Thulin and Lorens Saestrom of Griswold, Iowa, were returning home late at night, they were set upon by three men, who beat them severely. The young woman was rendered unconscious and it is feared that she was seriously injured. The assault was entirely unprovoked.

Accidental Happenings.

Stricken with an epileptic fit while on the top of a windmill tower near Anamosa, Ralph Isham lost his balance and fell to the ground, fifty feet below, breaking his neck and dying instantly.

Four members of a fishing party at Wunder's lake, near O'Neill, Neb., were drowned by a boat capsizing.

The big ice house of the Swift Packing company, containing 8,000 tons of ice, burned at Omaha. Loss, $75,000.

A severe wind and rain storm swept over the central portion of North Texas and much damage to property is reported.

While in an alcoholic sleep behind a hedge fence at the Durfee mining camp at Oskaloosa, Iowa, Richard Harding was shot and killed by friends who mistook his snoring for the snorting of a wild animal.

A. A. Swanson, foreman of a railroad grading crew, was run over by the engine of an extra freight near Bonita, Mont.

Adulterated milk poisoned twenty-seven people at Gomez Palacio, Mex., most of whose lives were saved only through the heroic measures resorted to by medical men.

While attempting to jump onto a moving St. Paul passenger train at Menominee, Mich., Ed. Mabarg of Pembina fell under the wheels of the train and his right leg was severed below the knee.

Grief over death by drowning three years ago of her son is believed to have been responsible for the death of Mrs. L. C. Hall, wife of a prominent physician of Burlington, Iowa, which occurred last week.

Four fires in different portions of the business district of Allentown, Pa., caused damage estimated at $300,000. The blazes are thought to have been incendiary. Several firemen were overcome by smoke.

Emil Friedlund, aged fourteen years, is dead at Iron River, Mich., as the result of a scratch from his finger nail. Blood poisoning set in and the boy, becoming violently insane from the pain, died in great agony.

Miss Cora Wheatley is dead at Oskaloosa, Iowa, as a result of a runaway accident. She was thrown in such a manner that her head struck against a telephone pole and she was unconscious when picked up.

From Other Shores.

A mutiny broke out among a squadron of hussars of the guard stationed at Tsarskoe Selo. The mutineers were promptly surrounded and disarmed by other troops.

President Fallieres of France has received the Order of St. Andrew from Emperor Nicholas, accompanied by an autograph letter expressing high esteem for the president.

A railway train while being switched at Corruna, Italy, ran into and overturned a vehicle in which nine women were riding at a level crossing. All were crushed to death.

An insurrection has broken out forty miles southward of Amoy, China. Thirty thousand rebels are under arms and are said to be well led. The revolt is spreading to towns near Amoy.

The Irish bill was formally dropped by the British government with scant ceremony and only the most perfunctory signs of mourning, even on the part of its ministerial sponsors.

It was officially announced at Guayaquil, Ecuador, that the government troops had two encounters with the main body of rebels, who fled to the heights between Ambato and La Tucunga.

King Oscar's health is so far improved that he has reassumed the reins of government, which he relinquished Dec. 14, 1906, when he appointed Prince Gustave, the crown prince, as regent.

A dispatch from Mombasa reports that a native has been sentenced to five years' imprisonment and to receive twenty-four lashes for an attempted assault upon the daughter of a European missionary.

The British house of commons unanimously passed the second reading of the bill establishing a court of criminal appeal and providing for the right of appeal against convictions for crime, similar to that now existing in civil cases.

The French war minister has issued instructions to the army on the subject of duels, in which he directs commanders neither to refuse or grant authorization to have recourse to the code in quarrels over service difficulties.

Gerda Krum Nathansen, the celebrated Danish actress, was shot and mortally wounded by her husband at the Hotel Aalborg, Jutland. The husband, after shooting his wife, immediately committed suicide. Jealousy was the cause of the tragedy.

Domestic.

Archbishop J. J. Keane has been summoned to appear as a witness in the saloon injunction cases at Dubuque, Iowa.

Honorary degrees were bestowed by the University of Maryland in connection with the commemoration of the 100th anniversary of the institution.

Dealers in and around Washington market say that New York city is menaced by a vegetable famine as the result of the unseasonable weather of the last six weeks.

Inquiries are being made for heirs to the estate of Edward Lynch, a farmer who died in the hospital at Carroll, Iowa, after a lingering illness. His estate is valued at $20,000.

An earthquake shock lasting about ten seconds was felt at San Francisco at 12:27 one day last week. The oscillation was from north to south. No damage has been reported.

Capt. C. D. Chandler of the United States signal corps and J. C. McCoy and Leo Stevens of New York made a balloon trip from Washington, D. C., to Harrisburg, Pa., in four hours and thirty-seven minutes.

For the theater season just closed, New York paid $13,000,000. This estimate, by a manager who has the business at his fingers' ends, includes $3,000,000 spent for vaudeville and $1,300,000 for grand opera. The total sum is about $3,000,000 more than was paid into Manhattan box offices the preceding year.

Six jobbing houses in Burlington, Iowa, have organized for what is said to be the first effective movement to fight the so-called biscuit trust. They have formed a company with a capital of $50,000 and will at once erect a plant with modern equipment.

STILL ATTACKING ORCHARD'S STORY

DEFENSE ATTEMPTS TO DISCREDIT TESTIMONY OF ASSASSIN.

FIENDISH PLOT REVEALED

ORCHARD PLANNED TO BLOW UP BOARDING HOUSE WITH 150 INMATES.

Boise, Idaho, June 8. — Harry Orchard crowned his admissions of grave crimes yesterday when continuing his case against William D. Haywood he made an explicitly detailed confession of the murder of Frank Steunenberg by an infernal machine. This confession opens the way for his own conviction and execution for the offense. He swore that the assassination of Steunenberg was first suggested by Haywood, was jointly plotted by Haywood, Moyer, Pettibone and himself, was financed by Haywood and was executed by himself after the failure of an attempt in which Jack Simpkins had participated.

Victims Number Eighteen.

Orchard increased the total of his own murdered victims to eighteen, detailed the circumstances under which he tried to murder Former Governor Peabody, Judge Goddard, Judge Gabbert, Gen. Sherman Bell, Dave Moffat and Frank Hearne. Incidentally he confessed to a plot to kidnap the child of one of his former associates. Then under cross-examination by the defense Orchard confessed to the guilt of sordid social crimes of deserting his young child and wife in Ontario, fleeing to British Columbia with Hattie Simpson, the wife of another man, and committing bigamy by marrying a third woman at Cripple Creek.

Orchard Given Hard Grilling.

Boise, Idaho, June 9. — Counsel for William D. Haywood continued their attack on the testimony of Harry Orchard at both sessions of the trial yesterday. To the extent that traffic with "the other side" in the war of labor and capital in Colorado was discreditable, they succeeded in discrediting the witness.

Employed by Detective.

Taking up the admission that Orcard made on direct examination that he has been treacherous to his comrades in Cripple Creek by tipping off a train wrecking plot, they developed the fact that Orchard had entered the employ of D. C. Scott, who had charge of the railway detectives. He said that he had agreed to report to Scott, but that he was lying to him, never intending to make reports to him and never did make reports.

The defense also tried to show that because he stood in with the other side Orchard was never molested by the militia in Cripple Creek during the strike.

More Crimes Admitted.

Orchard admitted that Scott had told him that if the militia interfered with him he was to send for him, and that the militia never did interfere with him or search his house.

More crimes, great and small, were admitted by Orchard yesterday. The Cripple Creek woman with whom he committed bigamy had three sons; Orchard stole high grade ore from a messmate; he stole two cases of powder from the Vindicator mine; he stole powder to make one of the bombs thrown into the Vindicator coal pile and he told a lie.

Orchard stood the test and strain well, and held tenaciously to the story he related yesterday and the day before.

Say Orchard Had Motive.

Boise, Idaho, June 11.—Harry Orchard made four admissions Saturday on the stand for the prosecution in the trial of W. D. Haywood for the murder of Gov. Steunenberg of Idaho, in which the defense claims to have thrown light on his motive for killing Steunenberg and of his relations with the mine owners as opposed to the Western Federation of Miners. The defense intimates that Orchard was a spy of the mine owners, committing crimes to throw the federation into disrepute.

Harry Orchard admitted that since his imprisonment he has been writing a story of his life.

Admitted by Orchard.

The defense claims it is from this embellished story, not from his simple recollection of facts, that he is testifying.

Orchard admitted that he has secured money since his incarceration in prison. The defense intimates it has come from the mine owners, who were interested in his deeds.

Orchard admitted he would have been a rich mine owner if Gov. Steunenberg had not driven him from Idaho. In this the defense sees a motive for his act in killing the governor.

Orchard added the crime of arson to his long list of admitted acts of outlawry.

Defense Is Satisfied.

When court adjourned Harry Orchard, the chief witness for the prosecution, heaved a sigh of relief that seemed to come from the bottom of his soul. For four days he has been on the witness stand relating a story of crime unparalleled in the court history of the country. The last two days he has been under the merciless cross-examination of attorneys for the defense, and though he has borne up wonderfully and his story in the main remained unshaken the ordeal was more than any human being could have withstood unmoved.

The defense professed to be satisfied.

Counter Plot of Mine Owners.

Boise, June 12—Into the cross-examination of Harry Orchard yesterday, the counsel for Haywood repeatedly [illegible] the suggestion of a great counter conspiracy formed and carried [illegible] the enemies of the Western Federation of Miners, [illegible] indicated a determination to construct their main line of defense on that line.

They carried Orchard by slow steps and through the minutest details from the dynamiting of the Independence station down to the attempt on the life of Fred Bradley and his family, and in addition to a series of

Particular Attacks

on the credibility of the witness and the general probability of his stories, and preparing the way for their own testimony in rebuttal they sought to show that Orchard has a mania for boasting of the commission of crimes non-existant except in his own mind and that he is testifying under the control and suggestion of Detective McParland.

Then began yesterday by making it clear that as far as Orchard knew of his own knowledge Haywood, Moyer and Pettibone had nothing to do with the inspiration, planning and execution of the Vindicator explosion, and that Haywood and Moyer had nothing to do with the planning of the murder of Detective Gregory. Into stronger relief than had been the direct examination they threw the utter depravity of the witness.

Denied by Orchard.

Orchard denied that mine owners or railway men had any part in the Independence station outrage; denied that he had a mania for confessing uncommitted crimes and denied that he is under the influence of McParland.

Two more crimes were brought home to Orchard yesterday. He confessed that he burned a cheese factory at Ontario to get $800 insurance and he confessed that he began his life of crime by selling cheese at short weight.

Still Attacking Orchard's Story.

Boise, June 13.—The attack of the Haywood defense on the testimony of Harry Orchard goes on unremittingly, and the witness will probably be continued on the stand for two full days more.

Yesterday began with the story of the dynamiting of Fred Bradley in San Francisco, and the defense made a long and determined effort to expose several features of it to doubt and improbability.

Orchard Stole Sheep.

Then the play went back to Denver for the winter of 1904-1905 and the spring that followed, and there was an extended effort to show that Orchard had practically no communication with the leaders of the federation; that he received no pay for the Bradley crime or anything else, and that with Steve Adams, in a period of extreme poverty extending over several months, he was reduced to the necessity of stealing a sheep from the Globeville stock yards that he might have food.

Orchard, to a laughing court room, seriously confessed that he stole the sheep, but stoutly denied that it was from necessity.

Money Came Regularly.

He insisted that all through that winter and spring he continued to draw money from Pettibone through Adams, and explained that if he did not see the federation leaders often it was because he was lying low to avoid capture for previous crimes.

This Globeville inquiry developed a more shocking crime. At this Denver suburb there was a diabolical plot—Orchard swore it was inspired by Max Mahalich; the defense claimed that Orchard was its author—to dynamite a boarding house where 150 non-union men lived.

Stole 600 Pounds of Dynamite.

In preparation for the murder en bloc, Orchard, Adams and a man named Joe Mahalich stole 600 pounds of dynamite. The crime was abandoned, Orchard said, because Haywood intervened and forbade him to have anything to do with it. Orchard, who confessed that he hesitated at no crime and took a hundred desperate chances in those he committed, made an interesting contribution to the psychological study of his personality when he called himself a coward. He said he was too cowardly openly to kill Judge Gabbert and said that he regarded all his acts as cowardly.

KILLED IN CAR WRECK.

Switching Brakeman Is Hurled Beneath Wheels of Train.

Watertown, S. D., June 8. — Bert Clements, aged twenty years, was instantly killed in the switching yards of the Minneapolis & St. Louis road. He was employed as a switching brakeman. The head car on which Clements was riding left the track and the lurch threw him between the two head cars, the second of which passed across the body, killing him instantly.

PEABODY IS THREATENED.

Former Governor of Colorado Gets Anonymous Letters.

Kansas City, June 9.—James H. Peabody, former governor of Colorado, who is here on business, said last night in an interview that since the Haywood trial in Boise began he had received several anonymous letters threatening his life. He said he had paid no attention to the letters, because they evidently did not come from responsible sources.

FIERCE ASSAULT IS MADE ON ORCHARD

DEFENSE TRIES TO SHOW THAT HE IS LYING TO SAVE HIMSELF.

BREAKS DOWN ON THE STAND

BIBLE STORY MOVES HIM—STEPS DOWN, BUT WILL BE RECALLED LATER.

Boise, Idaho, June 15. — The men who are battling to save the life of William D. Haywood and the good name of the Western Federation of Miners made their greatest assault upon Harry Orchard yesterday, when, [illegible] the review by cross-examination of his life of crime down to his confession, they bitterly assailed his guiding motives Six days they spent in [illegible] him before the [illegible] of every [illegible] of [illegible], and then, suddenly turning upon him [illegible] final, [illegible] they sought with every means known to the legal craft to convince the jury that Orchard was committing a crime

In Falsely Swearing

away the lives of innocent men in the hope of saving his own. The carried their attack to the very language with which the witness answered their questions, and everywhere they alleged by forceful implication that it was put into his mouth by men controlling him.

Orchard broke down when the attorneys recited to him the tale of David and Uriah that Detective McParland related to him when he came seeking a confession.

He defended his motives by saying that he finally experienced conversion and had resolved to make all possible reparation by fully confessing all.

Hammered by Richardson.

He said that McParland said he was doing a great service for the state and that states were kind to men who served them. There was no other promise.

"You knew that if you confessed to the Steunenberg murder the state would put you out of the way?" hammered Attorney Richardson.

"Yes, sir."

"But somewhere along the line the thought came to you that you could get out of it by laying it on to somebody else?"

"No, sir, that was not the thought at all."

Was Afraid to Die.

And here it was that Orchard gave a remarkable explanation of the motives that impelled him to confess.

"I thought," he said, "of putting myself out of the way, but I thought over my past life. I did not believe in a hereafter at all, but I was afraid to die, and I thought at times that I had been such an unnatural monster—my crimes had been so great—that I would not be forgiven—"

"Who told you that?"

"No one."

"Who wrote that out for you?"

Inspiration From Bible.

"No one; but after I had been sent a Bible and had read it some I came to the conclusion that I would be forgiven if I made confession of everything."

"So you thought you would make your peace with the future by having somebody else hung, did you?"

"No, sir. I think any man can make his peace with the future if he wants to. I believe it was my duty to tell the truth. I did not see any other way, regardless of the consequences to myself or anybody else. I owed it to society. I owed it to God and to myself."

Leaves Witness Stand.

Orchard left the stand at 2:30 o'clock, after having occupied it for a total of thirty-two hours and a half. He is to return to the witness chair later because the defense must lay the formal lines for impeaching him and the state must still have its redirect examination.

Immediately Orchard left the stand the state put on three witnesses from San Francisco to corroborate the Bradley poisoning story.

REGULARS ALSO TO CAMP.

Fort Lincoln Battalion Will Join State Troops at Devils Lake.

Bismarck, N. D., June 15.—A battalion of the Sixth United States infantry, stationed at Fort Lincoln, will march to the state military camp grounds at Devils Lake and spend six days in camp with the state militia, July 11 to 17.

Can't Have Public Baths.

La Crosse, Wis., June 15.—The demand of the North La Crosse Progressive league for an appropriation of $1,500 for a North side public bath was refused by the bath and finance committees of the council.

Rainy River Claims a Victim.

Spooner, Minn., June 15.—H. Spring was drowned near a boom of the Rainy River Lumber company's mill at Rainy River, Ont. It is not known whether Spring walked off the boom deliberately or fell in.

Pistol Is Evil Toy.

Chippewa Falls, Wis., June 15. — George Johnson, thirteen years old, accidentally shot himself with a revolver with which he had been playing and which he "didn't think was loaded."

SNELLING TO BE FINE POST

TAFT SAYS INFANTRY WILL ALWAYS BE KEPT THERE — GUEST OF TWIN CITIES.

St. Paul, June 15.—"Fort Snelling has always been a fine post, and we intend to keep it so," said Secretary of War Taft on his arrival in St. Paul yesterday morning. "We have not decided what shall be done with Forts Keogh and Yellowstone. The transfer of various batteries from one fort to another is essential under the provisions of the act of congress organizing the artillery into regiments. If the artillery is to be used in regiments it must be drilled as such. We will have an artillery regiment at Fort Riley and will soon increase the battalion at Fort Sill to a regiment.

"It is the call for troops for Cuba that disarranges the whole plan of distribution of the soldiers here. We will always keep infantry at Fort Snelling, but the artillery must be sent where it will have room to drill."

Gen. Franklin Bell, chief of staff of the army, accompanied Secretary Taft.

Yesterday Secretary Taft delivered an address at the commencement exercises at the university in Minneapolis, and in the evening was the guest of honor at a banquet at the Minneapolis club.

To-day Mr. Taft will be the guest of St. Paul. He will deliver an address at the laying of the corner-stone of the new Y. M. C. A. building, and in the evening will be the guest at a banquet which promises to be the largest affair of the kind ever held in the Northwest. Two thousand people will sit down to the tables which have been arranged on the immense stage of the Auditorium. The galleries will be thrown open to the general public free of charge. The affair is strictly non-partisan.

COSGROVE IS NEW SECRETARY.

Elected by State Fair Board to Succeed E. W. Randall.

St. Paul, June 15.—C. N. Cosgrove of Le Sueur yesterday was elected secretary of the Minnesota State Agricultural society succeeding E. W. Randall.

B. F. Nelson of Minneapolis, who has been first vice president, was made president in the place of Mr. Cosgrove, who resigned to become secretary. C. M. Griggs of St. Paul, second vice president, was put up to first vice president, while J. J. Furlong of Austin was appointed second vice president.

Mr. Randall's resignation went into effect immediately, Mr. Cosgrove taking up the work. Mr. Randall will assume his new duties as dean and director of the state agricultural college Aug. 1.

WOMAN FIRST IN FILE.

Two Hundred Land Seekers Are in Line at Cass Lake Opening.

Cass Lake, Minn., June 15.—When the formal opening of government lands in Itasca county, which were subject to entry at the United States land office in this village took place 200 persons were on hand prepared to file on lots and parcels which they had selected for entry. The best of order prevailed.

Mrs. Ole Farguson of Cass Lake was the first to enter the land office and offer her filing. The township opened yesterday for filing is fourteen miles east of the village of Big Falls, and the Little Fork river flows along the western side.

FOREST FIRES QUENCHED.

Rain Saves Much Loss, Though Damage Already Is Extensive.

New Richmond, Wis., June 15.—The rains of this week came just in time to head off heavy losses to the Willow River Lumber company of this city through forest fires raging in the vicinity of the company's camps at Grand View, Wis. As it was, considerable cordwood, poles and posts were destroyed and some of the camps were burned, but no logs were lost.

EASY TO BREAK JAIL.

Prisoner Uses Broomhandle to Loosen Fastenings.

Park Rapids, Minn., June 15. — When he found the jail door was not locked properly Asa Wise, confined on a charge of tapping a till at Akeley, loosened the fastenings with a broomhandle and walked out of the bastile by way of the sheriff's office. He again has been placed under arrest, and his case will come up next week.

HEAR FAIRBANKS ON FOURTH.

Fergus Falls Men Secure Vice President as Orator.

Fergus Falls, Minn., June 15.—Secretary Erickson of the Fergus Falls Commercial club received a telegram from Vice President Fairbanks to the effect that the vice president will arrange to deliver the Fourth of July address here.

To Buy Light Plant.

Winona, Minn., June 15.—By a vote of 132 for to 8 against St. Charles has decided to issue bonds to the amount of $10,000 for the purchase of an electric light plant there, to be operated by the city.

Caught Spearing Fish.

Little Falls, Minn., June 15.—C. F. Alberg and John and Eric Anderson, all of [illegible], were fined for spearing fish. The men were caught on Pine lake. They were fined $20 and costs each.

INTENTIONAL DUPLICATE EXPOSURE

News of the Northwest

CROW INDIANS CHARGE FRAUD

CLAIM THEY HAVE BEEN DEFRAUDED OF $3,000,000 BY LAND GRABBERS.

Billings, Mint., June 11.—The Crow Indians, who for years have occupied rich lands in the Big Horn basin set apart for them by the government, have asked an investigation of charges they make that they have been defrauded out of $3,000,000 by land grabbers. For the purpose of investigating, Secretary Garfield sent his own private secretay, Mr. Dallsey, who has been on the ground now for two weeks.

The investigation is said to have revealed an interesting condition of affairs on the reservation. Secretary Dallsey gave the Indians a hearing, the tribe being represented by Helena Grey, who recently went to Washington to lay the matter before the president.

Mrs. Grey makes several charges against the agents and others, who, she alleged, have defrauded the Indians of their lands.

Muskogee, I. T., June 10.—A new territory scandal is on the tapis and will develop next week, when, it is stated, suits charging land frauds will be filed here by an agent of the interior department against many persons prominent in the politics of the two territories.

LID ON TIGHT IN ST. PAUL.

For First Time in History Saloons Are Closed on Sunday.

St. Paul, June 11. — For the first time in its history the lid was on tight in St. Paul yesterday. The order to close went into effect at midnight Saturday, and when daylight dawned yesterday every saloon in the city was closed. It was the first time in the history of the city that the saloons have been closed on Sunday. The thirsty were compelled to journey to South St. Paul for their booze. The police felt the effect of the dry day more than anybody else, and not a single arrest was made after 10 o'clock Saturday night.

The closing of the saloons is the result of a recent ruling of the supreme court that the attorney general is empowered to start action to remove any official of any municipality who does not enforce the state laws, which include the Sunday closing law.

Many of the smaller saloons may be compelled to go out of business as a result of the enforcement of the law.

LONG TROLLEY LINE.

Merged Company to Build Along Lake Michigan Shore.

Manitowoc, Wis., June 11. — The merging of the Sheboygan Traction company with the Milwaukee & Northern Traction company, which has just been consummated, is said to be a prelude to the merging of the latter company with the Manitowoc & Northern Traction company and the extension of the latte rline to Sheboygan via Silver Lake.

Eventually, it is believed, that the line will be extended northward to Green Bay and will become one of the most important interurban roads in the state.

The merger will give the new company a direct line north from Milwaukee along the lake shore to Two Harbors, taking in all the lake shore cities and villages and will make its total mileage 100 miles.

KIDNAPPED GIRL IN ST. PAUL.

Parents Planned Abduction of Their Daughter.

St. Paul, June 11. — As suspected from the first, the sensational abduction of Sister Borromae, the novice kidnapped from St. Clement's Catholic school at Duluth on Friday afternoon by two men, is purely a family affair. The young lady, whose real name is Emily Digle and whose parents reside at 659 East Seventh street, was kidnapped by her father, Edward Digle, because he did not wish her to become a nun. The only way open to prevent it seemed to be carrying her off from the school.

Miss Digle arrived in St. Paul yesterday morning with her mother and father.

POSTMASTER GETS RAISE.

Mail Receipts Increase Pay and Show City's Growth.

Thief River Falls, Minn., June 11.—F. H. Kratka postmaster of Thief River Falls, has received word from the postal authorities of Washington that after the first of July his salary will be $2,000 a year. This is a raise of $100 a year and is based upon the increase in the gross receipts of the Thief River Falls postoffice during the last year.

Red Wing for Lutherans.

Marshalltown, Iowa, June 11.—The sixty-sixth annual session of the Evangelical Lutheran synod at Roland yesterday chose Red Wing, Minn., as the next meeting place and elected Rev. C. J. Eastvold of Jewell, Iowa, president.

Bear Killed in Town.

Barron, Wis., June 11.—Harvey Wygant shot a 200-pound bear within the city limits. The animal was discovered feeding near one of the slaughter houses.

KAUFMANN TRIAL IS BEGUN

ELEVEN FARMERS ON THE JURY —FOUR WITNESSES EXAMINED.

Flandreau, S. D., June 11.—Following the completion of a jury to try the case of Mrs. Emma Kaufmann of Sioux Falls, charged with the murder of her young domestic, Agnes Polreis, rapid progress was made in the case. The examination of talesmen has been almost continuous since last Tuesday afternoon.

The following men were finally accepted and sworn:

Sever Benson, farmer; Ed Bennewiz, farmer and school teacher; Wm. Cone, farmer; C. Buck, farmer; Ben Nace, farmer; Christian Lee, farmer, E. G. Pettigrew, farmer; George Pearly, farmer; Ray Pierce, farmer; B. F. Nichols, carpenter; A. G. Platts, carpenter and farmer.

After the jury had been sworn George B. Egan, for the state, read the information charging Mrs. Kaufmann with murder and announced that Mrs. Kaufmann already had entered a plea of not guilty.

Mr. Egan made the opening statement for the state, setting forth in detail the allegations which would be produced by the testimony of witnesses to show that Agnes Polreis had been the victim of a cruel and wanton murder, and that Mrs. Kaufmann was guilty of the crime.

Four witnesses were examined—an undertaker, who described the wounds found on the body and three professional nurses, who told of the death of Agnes Polreis.

WHOLE FAMILY DROWN.

Man and Wife and Their Baby Lost at Beaver Dam.

Beaver Dam, Wis., June 11. — Herman Koehn, his wife and baby, six months old, were drowned in Beaver Dam late yesterday. Koehn secured a boat and with his wifa and child intended to spend the day on the shore of the lake and also to attend a picnic about four miles from the city.

The supposition is that the baby fell out of the boat and that Mr. Koehn jumped in to save his child and that Mrs. Koehn fainted and also fell in.

COLT HAS FIVE LEGS.

Extra Limb Doesn't Seem Likely to Be Aid to Speed.

Brainerd, Minn., June 11. — Joseph Doucette of Daggett Brook came to this city yesterday to consult a veterinarian with a view to having a leg amputated for a colt which he owns. The colt has five legs and Mr. Doucette decided that this was not likely to help the animal's running record. Otherwise the colt is in fine condition and is a splendid specimen of horseflesh.

SHERIFF KILLS SELF.

Becker County (Minn.) Official Commits Suicide While Ill.

Frazee, Minn., June 11.—Ole C. Larson, sheriff of Becker county, committed suicide by shooting himself. Sheriff Larson had been sick all night and a few friends remained with him. At 7 o'clock he asked them to leave him and to call a doctor. They heard the fatal shot directly after leaving the room.

BOTH LEGS MANGLED.

Man Hurt While Making Flying Train Switch.

Aitkin, Minn., June 11.—W. S. Robinson, an old resident of Aitkin, was badly hurt while working on a Northern Pacific construction train, in attempting to make what is known as a flying switch. The train caught him and mangled both legs from knees to hips and broke his shoulder and injured his head.

CAMPERS POISONED.

Canned Goods Nearly Fatal to Hunters Island Party.

Ely, Minn., June 11.—A party of five campers on Hunters island had a narrow escape from death from ptomaine poisoning, supposed to have resulted from eating canned goods. Before they became too weak they managed to catch a logging train for Ely, where medical aid relieved their sufferings.

THROWN ON HEAD; KILLED.

Farmer in Turning Buggy Is Pitched Out and Neck Is Broken.

Chippewa Falls, Wis., June 11. — Arthur Steele, a farmer living near Lynn, in turning into his barnyard was thrown upon his head. His neck was broken and death was instantaneous. Steele was intoxicated when the accident occurred.

Late Spring Fatal.

New York, June 11.—William Aronson, an expert agriculturist and manager of a farm at Florence, N. J., hanged himself after brooding over the failure of his early crops as the result of the unseasonable weather.

Town Swept by Fire.

Sergent, Ky., June 11.—The mining town of Dooley, Wise county, Va., was visited by a disastrous fire last night. A number of residences and business houses were burned, entailing a loss of $50,000

NAVAL OFFICERS LOST OFF NORFOLK

SIX MIDSHIPMEN, A BOATSWAIN AND FOUR SAILORS ARE DROWNED.

MINNESOTA'S LAUNCH MISSING

MOST SEVERE BLOW TO PERSONNEL OF NAVY SINCE SPANISH WAR.

Norfolk, June 13. — Eleven of the navy, comprising six midshipmen and five seamen, who left Discovery landing at the exposition grounds shortly after midnight on a launch of the battleship Minnesota, are missing, and it is believed that the launch with the eleven men on board has gone to the bottom of Hampton Roads.

A box belonging to the fireman of the launch was found floating near here yesterday, and as the last seen of the launch was when it pulled out from the exposition pier officers of the fleet gave up hope over ever seeing the men.

Sunk in Collision.

The six midshipmen, accompanied by Lieut. D. M. Randall, came ashore Monday night in the launch of the Minnesota, which has been lying in Hampton Roads, to attend a ball on the exposition grounds. It was after midnight when the party got away on the return trip. Officers of the fleet yesterday expressed the opinion that the launch collided with something unknown and that the boat, with its occupants, went down.

Early last night the monitor Florida found a cape afloat in the roads, which has been identified as that worn by Midshipman Ulrich. Lieut. Randall did not take passage on the return trip of the Minnesota launch.

Many Others Missing.

While the launch carried a good sized party, no one has been found who can say exactly how many occupants the launch collected.

Naval officers are using every effort to ascertain who was in the launch. A large number of men are reported missing from the various ships. Men have been detailed to search Norfolk, Portsmouth, Newport News and vicinity. The vessels of the fleet are keeping in constant intercommunication by wireless telegraph.

Run Down by Steamer.

It was stated authoritatively that the naval officials have absolute knowledge of a steamer which ran down the launch of the battleship Minnesota in Hampton Roads Monday night and that the arrest of the crew of the steamer is expected.

HARRIMAN WILL BE PROSECUTED

Connection with Alton and Other Deals to Be Inquired Into.

Washington, June 13. — Developments since the conference at the White House last Friday evening make it probable that the government will begin proceedings under the antitrust act against E. H. Harriman and his associates for violations of the law in connection with the so-called Chicago & Alton railroad deal, the Union Pacific and Southern Pacific transactions, and perhaps in connection with the Southern Pacific and the San Pedro agreement.

Coal Roads Must Wait.

The contemplated prosecution of the bituminous coal-carrying roads, however, will likely await the result of the action by the courts in the cases to be brought against the Harriman roads, because there are some important questions to be decided that are common to both cases.

As the report of the interstate commerce commission on the Harriman investigation has not been made, the action of the department of justice in filing its bill or bills will necessarily be somewhat delayed. It is known that the question of the advisability of bringing any suit attacking the validity of the Alton transaction is one on which the interstate commission is divided and as a result of this difference of opintion two reports from the commission are possible.

Justifies Action.

The president and Attorney General Bonaparte have kept well informed on every phase of the disclosures that have been made at the hearings of the interstate commerce commission and have reached the same conclusion, namely, that the evidence submitted justifies action to restore the original status.

In the meantime, however, an action will almost certainly be begun to compel Mr. Harriman to answer certain questions deemed important which he declined to answer at the hearing of the commission several months ago.

Kuroki Sails for Home.

Seattle, Wash., June 13.—Gen Baron Kuroki, the Japanese imperial envoy to the Jamestown exposition, and party sailed for Japan yesterday.

Barn and Horses Burn.

Young America, June 13. — Herman The livery barn of William Goede, in the village of Norwood, was burned to the ground. A lot of hay and feed, with three horses and all the buggies, were burned. Loss is several thousand dollars.

Drowned While Fishing.

Oshkosh, Wis., June 13.—Randolph Dickman, aged twenty years, was drowned in the Fox river. He and a companion were fishing when their skiff capsized.

State News of Interest

STATE BANKS PROSPER.

Comparative Statement Issued by Bank Examiner.

The prosperous condition of the people of the state is shown by a comparative statement of the condition of the state banks for a period of five years, made by the public examiner's department. The time covered extends to May 20, 1907, showing the condition of the state banks on that date. The figures, however, do not include the national banks, but the presumption is that a similar condition and growth in business is shown in their reports.

The statement shows that on June 9, 1903, there were 266 state banks. This number grew to 325 in 1904, to 385 in 1905, to 427 in 1906 and to 466 last year. In the same time the capital stocks of the banks have increased from $7,609,700 to $10,686,600, and the surplus from $1,544,778.37 to $3,096,267.74.

An interesting comparison is in the amount deposited in time certificates, which represents largely savings of the common people. In 1903 this fund amounted to $18,423,470.90, and it steadily increased until last month it had reached the total of $33,596,936.57. In the same time the deposits subject to check, which represents largely the funds in active use by the business men of the state, had grown from $20,284,318.22 to $32,875,855.43. The great increase in deposits is taken as an indication of the confidence of the people of the state in their banks.

In 1903 the loans and discounts amounted to $39,816,064.98, and this had grown to $65,229,366.23 last month. The report also shows that the value of the banking houses with the furniture and fixtures had increased in value from $1,282,729.48 to $2,494,122.55.

SCHOOL OF FORESTRY.

Expected That It Will Open With a Dozen Students.

The state forestry board will meet at Itasca state park, at the headwaters of the Mississippi river, on June 26, when arrangements will be made for the opening of the state summer school of forestry. The legislature last winter placed the park under the control of the forestry board, and the board will look over the land with a view to extending the area of the park.

The school of forestry will be started as soon as the arrangements can be made, and a class of about a dozen is assured for the opening. The school will be under the general direction of Prof. Green of the state agricultural school, but his assistant, Mr. Chepey, will be in active charge of the work. Prof. Green will make the preliminary arrangements for the opening of the school and will remain until it is well under way.

The legislature appropriated $2,000 to be used by the board of regents of the state in conducting this school. The school will be located at the old building on the grounds, which is about three miles from the new state building. The students will spend most of the summer under tents and will be put to work surveying and scaling the timber in the park. They will remain there during the warm weather, probably until September.

The legislature also appropriated $35,000 for the purchase of additional land for the park, and the board will look over the ground and select the ground to be purchased. There is still some private land within the limits of the park, and the board will endeavor to acquire the title to this land first.

STATE GETS INTEREST.

First of Payments on School Loans Is Received.

The first of the payments on school loans and interest on the loans to be received by the state treasurer this year is from Yellow Medicine county, the last on the alphabetical list of counties. This payment amounted to $4,050.14, and it is expected that the total payments to be received from the various counties of the state on account of these school loans during the month will amount to about $200,000. The payment was made up of one item of $2,580 on the principal of the loans falling due this year, and $1,470.14 interests on all the loans made to the school districts in that county.

The school loans are being made every year from the permanent school fund, and all fall due on July 1 of the year of their maturity. The interest is payable annually also on the same date, and as the old loans fall due and are paid the money is again loaned out, creating a continually growing revolving fund.

That doctors should exert more political power is the opinion of Dr. R. D. Campbell of Grand Forks, president of the North Dakota Medical association, which held its annual session at Minot. There are too few, he says, in the legislative halls of the country.

The doctors go on record as favoring higher fees for insurance examinations. They will resist action of old line companies to cut them down. The final meeting of the session was filled with addresses of a technical nature by many of the most prominent North Dakota physicians.

TO BUILD CRANE DITCH.

Mass Meeting at Owatonna Is Unanimous for Drainage Project.

As the result of an enthusiastic meeting held at the court house in Owatonna the Crane creek ditch proposition, which recently was turned down in the district court, will be reopened. A petition will be presented at the coming term of the court to reopen the matter and to have the work on the ditch completed as soon as possible. There is now every probability that the lakes and sloughs in that portion of the county will be drained and the land thereunder reclaimed.

The meeting was attended by an unusually large number of farmers who are interested in having the ditch built and whose lands will be benefited by the drainage, as well as by a number of the business men of this city who are anxious to see the work completed. State Engineer Ralph and Secretary of State Julius Schmahl, both members of the state drainage commission, were present and addressed the meeting. The state engineer said an assessment of about $100,000 should be made, and that the actual cost of the ditch would not be under $75,000. The state, however, will appropriate a large sum toward the digging of the big ditch. The secretary of state announced that the state board already had made an appropriation of $5,000 toward carrying on the work of drainage in this county, and pledged further support to the project if carried through at once.

At the conclusion of his remarks a vote upon the proposition was called for to determine how many were in favor of the ditch, with the result that there was not a dissenting vote.

WILL ADD TO STATE GUARD.

Adjutant General Announces Nine Companies Are to Be Added.

The Minnesota National Guard, now consisting of three regiments of nine companies each, is to be recruited to three of twelve companies each. Of these additional companies St. Paul is to get two and Minneapolis one. This will give the cities six companies each.

Adjt. Gen. Wood, who is now making arrangements to care for this addition to Minnesota's guard, says that the recruiting will not be actively commenced until September, and he hopes to have the full complement completed by Jan. 1 of next year. There is now on hand equipment enough for the additional companies and sufficient money for maintenance until the next legislature can be reached.

This increase in the guard is for the purpose of conforming to what is known as the Dick law, a federal enactment, conformance with which brings the state its proportion of federal air. Since entering the office Gen. Wood has been handling his appropriation so as to ultimately bring the guard up to the full standard, and the result is that Minnesota will be the first to come up to the requirements of the Dick law. For these nine new companies Gen. Wood will have $10,000 available.

Showing the demand for the new companies nearly sixty cities and towns over the state have made applications to be favored, and the number is increasing daily. Before any is considered, however, Gen. Wood demands that the application contain a promise of a suitable drill hall and its maintenance by the city or town authorities.

PRISONER WALKS AWAY.

Bond Found to Be Worthless Through a Series of Errors.

By means of a comedy of errors at Le Sueur, in which the principal performers seem to have been Judge Borer of the municipal court and Justice Distel of the justice court, a man named Louis Hat, who had been arrested and brought before Judge Borer on charge of rape preferred by a simple-minded woman, Emma A. Polzin, a crime for which the least punishment is seven years in the penitentiary, was permitted to go at large on a $500 bond, which in addition to being trivial and unlawful, was wholly defective in its make-up and not properly delivered to the court. It was not signed by Hat, and he immediately decamped and there is no chance of recapturing him. The girl's father and relatives live in Henderson, and are furious with rage at the ease with which the alleged criminal was permitted to escape. The sureties on the bond, James A. Cosgrove and Louis Anderson, will defend against any attempt to collect the $500.

The cold weather and deep snows of last winter benefited the farmers of this state in a peculiar manner. Last fall the price of potatoes was so low that many farmers would not take the trouble to dig their crops. Now that the price has gone up, however, the farmers are digging the crop which has lain in the ground all winter. The heavy snow protected them from freezing and they are being taken from the earth in as good if not better condition than they would have been last fall. And the farmers are getting $1 a bushel for the tubers.

In Minnesota

State News of the Week Briefly Told

The weather has warmed up and the ground has plenty of moisture. Grain is growing fast.

: : : :

On June 20 and 21 the Presbyterian church in Chatfield will celebrate the fiftieth anniversary of its organization.

: : : :

Merie Finch, an occupant of a disorderly resort at Duluth, committed suicide by leaping from the Duluth canal pier.

: : : :

Fred Habeck, a resident of Blakely, was struck by a passenger train while walking across the track at Blakeley and instantly killed.

: : : :

Wilbur Olson, seven years old, fell from a trestle on which he was playing at Lake Longyear, on the edge of Chisholm, and was drowned.

: : : :

Fire destroyed the Canadian Northern depot at the United States custom house at Beaudette. Most of the contents were saved, but the loss is $5,000

: : : :

A horse belonging to Fred Boevers was stolen from his barn at Nerstrand. There is no clue to the thieves, who have covered their tracks completely.

: : : :

Fred Myers of Argyle was struck on the head by a pulley which fell forty-five feet and he sustained a badly fractured skull. Hopes are entertained that he will recover.

: : : :

J. W. Paap, employed by the Atwood Lumber cocpany of Willow River, committed suicide by taking a large dose of paris green. Ill health is the only cause given for the act.

: : : :

Carl Johnson, nine years of age, was accidentally and perhaps fatally shot while out hunting with a companion near Waseca. Grave doubts are expressed for the boy's recovery.

: : : :

The proposition to bond the village of Young America for the building of a new city hall, to cost not to exceed $6,500, was voted upon at a special election and carried by a vote of 46 to 26.

: : : :

The body of an unidentified man was found beside the Chicago & North-Western railway track between St. Charles and Dover. He had been walking along the track and had been struck by a train.

: : : :

Rev. Whitney, pastor of the Free Baptist church at Winona, in a Sunday sermon boldly called certain persons cowards, and as a result the church divided into factions. A bitter logomachy followed and Pastor Whitney has resigned.

: : : :

Mr. and Mrs. Harold Fagley and Paul Fagley were painfully injured as a result of their automobile colliding with a street car in St. Paul. Mrs. Fagley is in a serious condition. Mr. Harold and Mr. Paul Fagley escaped with slight but painful injuries.

: : : :

Judge Lewis L. Wheelock dropped dead at his home in Owatonna of heart failure. Judge Wheelock was a member of the law firm of Wheelock & Sperry. He was about sixty-five years of age and had been prominent for years in Minnesota politics.

: : : :

Torval Anderson, the six-year-old son of Andrew Anderson, a prominent shoe merchant of Owatonna, lies at the point of death as a result of having played with a gun which was not supposed to be loaded. The ball has not yet been located, and it is thought the child stands very little chance of recovery.

: : : :

The postoffice department is waging an active campaign against violators of the postal laws who send writing in merchandise packages and newspapers. An inspector has spent a few days in Fergus Falls and vicinity, and as a result of his visit half a dozen people have paid $10 each into the federal treasury for violations of this kind.

: : : :

When Mr. Johnson of St. Paul returned home from work he found his wife gagged and bound to the bed. Two men have been arrested by the Margaret street police and are being held on a charge of vagrancy. Mrs. Johnson believes one of the two is the man who bound her to the bed. After tying Mrs. Johnson to the bed the men ransacked the house.

: : : :

While driving a heavily loaded wagon along the road near Mantorville Noah Randall, seventy years old, was thrown from his seat by one of the wheels dropping into a rut. A passerby witnessed the accident and ran to the old man's assistance. He was conscious and remarked that his neck was broken. He was taken into a near-by house and only lived a short time.

: : : :

While showing a card trick to an admiring group of friends at the Utica mine (Hibbing) boarding house, Cole Gilham suddenly let the cards fall to the floor, threw up his hands and collapsed. Those present hastened to his assistance and sought to revive him, but he died before medical aid could be summoned. Heart failure is believed to have been the cause of his death.

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY
$1.00 Per Year in Advance

THE fortunes of numerous Republican gubernational candidates seem to be contingent on whether Governor Johnson is out of the game.

WITH the prospect of the banner crop in its history the Red River valley is looking up. The country papers are reporting numerous land sales at enhanced values.

STRAWS show in which quarter the wind lies, observes the Windom Citizen. When Secretary Taft, aspirant for president, spoke in Wisconsin he commended the notorious Spooner, but ignored LaFollette, who in his year in the senate left more of an impression on matters of national legislation for the good of the people than Spooner did in sixteen years. On the railroad regulation bill and on measures by which coal and timber lands are saved for the government, LaFollette did splendid service. Yet this was not good enough for Taft to commend. On the other hand he flatters a millionaire who so ably represented those of his class that the people shed no tears when he retigned his seat in the senate. It is said that Taft is the living embodiment of the Roosveltian policy, but we think the people are going to be awfully fooled with him.

Rivalling The Nile Dam.

The government of New South Wales is about to begin the construction of a dam at Baaren Jack, on the Murrumbidgee river, which will form a reservoir forty miles in length, and containing more than 33,000,000,000 cubic feet of water, or perhaps 50 percent more than Sydney harbor coatains. This immense artifical lake, which will be but little inferior in capacity to that created by the great new dam on the river NIle, is to be used for navigation. It is a well known fact that the daily nse of golden grain belt beer, the ideal home beverage, will nourish your nerves, and enrich your blood and invigorate your muscles. Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

Minstrels Coming.

In order to fully appreciate a minstrel show, one should take a position in the theater where he can get a glimpse of the gallery. They say that laughter is contageous, and to see the "Gallery Gods" as they laugh at the boisterous fun on the stage one cannot help but join in the delight. The Richards & Prinkle's Georgia minstrels do not cater to one part of the house alone; their performance is to please the audience and from reports of the crowded houses this organization is drawing they seem to catch the public fancy. One thing can be said of Messrs. Rusco & Holland, is that they have the knack of putting together a minstrel show that has no tiresome waits, or acts—everything goes with a hurry and excitement. They will appear at the Opera House Monday, June 24.

BIG FORTUNES IN SABLES.

With Skins at $450 Each Prices Soar Into the Thousands.

The two most expensive sable coats in the world are worn by the empress of Russia and Queen Maud of Norway.

The empress' coat is made from pure sables, the best which could be obtained in Europe, and is valued by an expert in furs at anything between $250,000 and $400,000, while that which Queen Maud wore at the guild hall recently would be worth nearly half as much.

The manager of a Regent street firm, says the London Mirror, said that within the last two years the price of sable had increased by 75 per cent and was still going up.

"The price is practically prohibitive," he said, "and we have to find a substitute in top Russian sable, smart sets of which cost as much at $1,000. If the same were made in real sable the price would be about $7,500 or more.

"There is as much gambling in sables as there is on the stock exchange. The furriers have all sold out and the demand is still great. People are now beginning to pass sables down as heirlooms—and valuable they are, too, at $450 a skin."

New Lamps for Old.

Johnny's dog, Tige, was a nuisance. His pet theory must have been that all things were created to be destroyed—at least, so his practices indicated. Johnny's folks were anxious to be rid of Tige, and at last they decided to work upon the lad's affections with lucre.

"Johnny," said his father one day "I'll give you $5 if you'll get rid of that dog."

Johnny gasped at the amount, swallowed hard at thought of Tige, and said he would think it over.

The next day at dinner he made the laconic announcement: "Pa, I got rid of Tige."

"Well, I certainly am delighted to hear it," said the father. "Here's your money; you've earned it. How did you get rid of the nuisance?"

"Traded him to Bill Simpkins for two yellow pups," answered Johnny.

Auto Fever at 106.

Mrs. Elizabeth Hunt of Brooklyn has caught the auto fever at 106, and is road-touring in Connecticut.

We Want to Help You Buy
Cows Now

No doubt you have read our offer in the columns of this paper during the past two weeks, and we are very desirous that you give us an opportunity to get your farm stocked with cattle and hogs. To this end we would earnestly request you to call in and talk the matter over before the season becomes too far advanced.

The Secret of Success Lies in Dairying and Hog Raising

Wny not now abandon the wheat raising lottery and adopt the surer method of providing revenue for yourself and family? This bank is interested in your welfare and stands ready to help you get started in profitable dairying. Call in and we will talk it over.

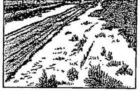
ROAD AND FARM IMPROVEMENT

GOOD ROADS IN IOWA.

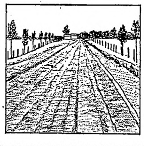
What That State Is Doing to Improve the Highways in Rural Districts.

The Iowa highway commission recently held at the Iowa state college an institute for the training of road officers in building and caring for the highways of the state, and the stimulus given to the interests of good roads will prove of lasting benefit to the state. Prof. W. H. Stevenson, in making report of the institute, says: "In Iowa there are approximately 100,000 miles of public roads for the maintenance of which the enormous sum of $4,456,000 in road taxes is raised each year, in addition to mulct tax moneys and the poll taxes. If this money were used by men trained in the science and practice of road building and skilled in business methods, as are the men intrusted with the affairs of great business concerns, it would be entirely possible to maintain every mile of roadway in the state in good condition and gradually to build hard surfaces along the main traveled roads without increasing the present road tax a single penny. Contrast the highways of Iowa of to-day with those which it is possible to have by earnest, thoughtful attention to this important subject. Without doubt there is a state-wide need for trained road builders and the good-roads school, within a few years, must prove a most potent factor in solving the good-roads problem.



ROAD BEFORE BEING TOUCHED BY GRADER.

"In the road demonstration work, three sections of earth roads were built, two with reversible graders and one with an elevating grader, all operated by experts. In addition, six kinds of road drags were exhibited and five were operated at the school. These included, besides the widely known King drag, the V drag, the Stevenson "ditch cleaner," the Russell road leveler and the Smith steel road drag. These drags were all shown and operated by the inventors, themselves, and it was made plainly apparent that all can do first-class work. So much interest was aroused in these road drags that the commission has decided to thoroughly test each kind on a section of earth road and to report the results in a bulletin.



SAME ROAD IN OPPOSITE DIRECTION SHOWING PROPER WIDTH AND CROWN.

"No feature of the many demonstrations in road construction attracted more attention than the building of a reenforced concrete culvert. At the present time many road experts in Iowa are carefully considering the advisability of displacing expensive and unsatisfactory wooden culverts with durable structures of concrete reenforced with steel. The commission has prepared standard plans and specifications of simple and inexpensive concrete culverts for distribution among Iowa road officers."

BREVITIES.

"No" is the shorter, but it seems easier to say "yes."

Land is a good thing to own, but the man "land poor" is to be pitied.

It is harder to get a crop in an overwet year than an unusually dry one.

Turnips make a good catch crop. Sheep will pasture them well in the fall.

A consolidated rural school means that the country boy and girl will have the same chance their city cousins now enjoy.

Rain barrels should be covered with mosquito netting or a little skum of kerosene to prevent their becoming a breeding place for the pests.

To Cure Clover Hay.

The way to cure clover hay, is to cut the grass in the morning as soon as the dew is off. At noon shake out the bunches, rake into windrows before evening dews get on it, and leave it lie until next day. Next day, shake out the hay as soon as the dew is off. You ought to be ready, to haul, on a hot day by 11 o'clock or certainly after dinner. It spoils clover hay to get too dry. It should never be put in the barn when wet with rain or dew; but a little sap won't hurt it.

Knocking Down.

A Philadelphia clergyman was talking about the late Sam Small.

"I once heard him speak," he said, "and his humor and eloquence impressed me deeply.

"He had a happy knack of illustration. He wanted, I remember, to illustrate the frailty that is a part of even the best characters, and he told a story about a brave young soldier.

"This soldier," he said, "enlisted in the Spanish-American war and fought like a lion for his country. The firm he had worked for, pleased with the record he was making for himself, told his wife that all the time he was away they would pay half his wages to her.

"Accordingly, at the end of the first week the young woman called at the office and the head of the firm handed her $9.

"She looked at the money and her face clouded over.

"'Nine dollars?' she said.

"'Yes,' said the head of the firm, a little hurt; 'that is just half. I'm sorry you are not satisfied.'

"'It isn't that I'm not satisfied,' said the young woman, 'but all along he's been telling me his pay was only $14 a week. Wait till he gets home! If them Spaniards don't kill him I will.'"

Those Lawyers.

Mrs. Langtry, at a dinner in New York, laughed ruefully at the unpleasant and impertinent questions that, under the new customs rules, had been put to her on her landing in America.

"Those questions!" she cried, "coming one after another as they did, and each worse than the one before it, their effect was appalling.

"In their character they reminded me of that lawyer's bill which is sometimes quoted to show what a lawyer at his worst, can be. I don't remember all the bill's items, but two of them were:

"'To waking up in the night and thinking about your case, $7.50.

"'To dining with you after the case was lost, $5.'"

You Are Out of Place

If you are a clerk and hate the yardstick.

If you do not love your work and the not enthusiastic in it.

If you do not long to get to it in the morning and hate to have the time come to leave it.

If you do not see something more in it than making a living—if you do not see the making of a life.

If you are not growing broader, deeper.

If you are being dwarfed in any part of your nature.

If your faculties are being stunted, your ideal dulled.

If it strangles your ambition.

If you work mechanically and without heart.

VAST LEVELS OF ARGENTINA.

Traversed by Wagons Fifty Feet Long and Fifteen Feet Wide.

The pampas of Argentina, so far as an absolute level is concerned, are said to exceed any other large area in the world. One railroad runs 180 miles without an inch of curve, and it might have continued in the same way for twenty-five miles further.

The wagons used in this level country are fifty feet long in some cases and from twelve to fifteen feet wide. The rear wheels are from twelve to fourteen feet in height and the driver's seat twenty feet or more from the ground. The horses used to draw these wagons sometimes number as many as three-score to a vehicle.

The principal idea of such a large wagon is to have something that will not be engulfed by the mud during the rainy season and the dust of the dry season of the bottomless roads of the pampas, and it also has its economical advantage in a country where men are scarce and horses plentiful.

A Young Biblical Student.

One day my little brother Willard was asked how many apostles there were, and he replied, "Eleven." On being corrected, he said: "No, there wasn't twelve, 'cause Judas resigned."

Mr. and Mrs. Nap Miller of St. Hilaire are spending the week here.

For sale—Good dray wagon. In first class shape. See A. L. Roy.

Neil Kehoe spent Monday night at Crookston looking after business matters.

W. H. Krueger was a business visitor at Crookstsn over last Friday night.

Fred Borchers spent last Friday night looking after business matters in Crookston.

Harry E. Ives is spending the week here looking at the tournament attractions.

Joseph Juneau a, Thief River Falls hotel man spent Sunday with friends in this city.

Nels Holberg and son, Arthur, are here from Grand Forks spendinn the week with relatives.

Mike Burns, a prominent Thief Riverite, has spent the past week here, a guest of Sheriff Nelson.

J. E. Buskirk was in from Plummer over Saturday visiting with his family and attending the ball game.

Dr. Spofford makes his next regular visit to Red Lake Falls June 7. At Grand View hotel. Remember the date if your eyes trouble you.

Ed Brouilet drove up from Dugdale Sunday to take in the ball game between McIntosh and Red Lake Falls.

C. L. Hanson, St. Hilaire's bank magnate, is here attending the tournament and greeting his many friends.

Dr. F. F. Fletcher, dentist, of Grand Forks will be at Dr. Wilkinstn's office Saturday and Monday, June 22 and 24. Call on him.

James H. Cross and wife, of Grand Forks are tournament week guests at the home of Mrs. Cross' parents, Mr. and Mrs. P. E. Pirath.

For Sale—A brand new, good weight, double driving harness, well finished. Will be sold cheap—Apply to Mrs. Anna Mikkleson.

Mr. and Mrs. Joseph Allard, of Ripple, Itasca county, arrived Monday to spend a couple of weeks with Red Lake Falls relatives and friends.

For Sale—Cook stove, coal stove, center table, half dozen chairs, three rockers and numerous other articles to be sold at once.—See J. B. Armstrong.

Mose Verboncour, of Grand Forks, is a guest this week, at the home of his daughters in this city, and incidentally taking in the sights of the tournament.

Mr. and Mrs. Cash Brunelle came over from Blackduck Monday morning and are spending tournament week at the home of Mr. and Mrs. George Brunelle.

Frank A. Grady arrived home Friday morning from St. Paul where he spent all of last week in attendance at the grand lodge of Odd Fellows of Minnesota.

N. A. Nelson, father of the sheriff, of Thief River, and Mrs. Holm of Roseau, a sister of Mrs. Nelson's are guests of the Sheriff Nelson home this week, taking in the tournament sights.

Attorney Perl W. Mabey came down from Thief River Falls Monday night on professional business and remained a day or two to look at the sights incident to tournament week.

M. S. Leavitt, wife and daughters, Miss Beryl and Miss Blanche, of Park Rapids, are spending tournament week at the home of Mrs. Leavitt's brother, Attorney Chas. E. Boughton.

Miss Grace Iddings who has been teaching at Langdon, North Dakota for the past year, arrived here Saturday to spend a week or so with her many Red Lake Falls friends.

Ed Moran went down to St. Paul Saturday evening with another car of fat cattle for market. Ed has been doing a rushing business in the cattle buying line this summer and ships out several cars each month.

H. N. Johnson came over from Lankin, North Dakota, Saturday and is spending tournament week with his wife and baby at the Toupin home. "Jing" is in the banking business at Lankin and reports himself as doing very well.

Miss Lulu Fletcher arrived home Monday and will spend her summer vacation with her parents and Red Lake Falls friends. Miss Lulu has been very successful in her school work at Ely, which is very gratifying to her host of friends.

Mr. and Mrs. George H. Tibbetts arrived here Saturday from Flandreau, South Dakota, and will spend several months in Red Lake Falls. Mr. Tibbetts will probably not remain so long, but expects to be here a great part of the summer.

Thomas Forde, of Notrhwood, North Dakota, is here attending the tournament and assisting the local band in their concert work. Tommy played with the band on two different occasions last year and made many friends among the boys.

Editor Anthony LaFreniere and wife, of Grand Rapids, Miss Emily LaFreniere who has been teaching near that place for several months past and Miss Flora Whitford of Northome, arrived here Monday evening and are spending tournament week at the home of Mrs. O. LaFreniere in this city.

The open air concert by the band last Thursdoy evening was listened to by a good sized number of townspeople and the music was thoroughly enjoyed by all. This was the band's first appearance under the leadership of Prof. Maxwell and a marked improvement was noticeable in the bank's work.

J. A. Bray and wife, of Blackduck are guests of Red Lake Falls relatives during the tournament week, and of course are enjoying themselves. Joe showed the Red Lake Falls boys a good time when they visited Blackduck two years ago, and the people here are pleased to return the compliment.

Rev. H. W. Knox and family expect to leave next week for Green Bay, Wis., where Mr Knox takes the pastorate of the Presbyterian church. Green Bay is a city of 25,000 and the church work there is in good condition. With Mr. Knox' ability as a preacher and business manager there is every reason to hope for substantial growth.

Spectator: The saw mill building has been sold to the Red Lake milling company and will be taken down. Foreman Norman came up from Crookston on Tuesday and with a crew of ten men started work tearing the building down. The planing mill or other buildings are not, we understand, included in the deal.

Plummer Pioneer: S. O. Locken manager for the Clearwater Mercantile Co. arrived here on Tuesday afternoon to get ready for opening up the new store. On Wednesday the directors of the company met with Mr. Locken and began preparation for starting up in business. They have secured the Reed building, and fixtures are being constructed rapidly. Mr. Locken says he expects the store will be ready for business in another week.

Beginning July 1st all mail matters received at the local postoffice, and all other U. S. postoffices, must be counted and weighed, and a record kept of the class of each piece, whether postal card, letter, package etc. besides many other details. This work will greatly increase the labor of the postoffice foree. The new ruling is made that the department may be supplied with data to ennable it to find the actual cost of handling mail throughout the country.

Henry J. Kaufer arrived here Saturday evening from Calgary, N. W. T. and is spending tournament week with his relatives and many Red Lake Falls friends. Next week Mr. Kaufer will pack his barber fixtures and ship them to Calgary, where he and Henry Bray will set up and go into business together. They have secured a very desirable location in that rapidly growing city and expect to do a great big business from the start. Mr. Kaufer reports Red Lake Falls people in Calgary as well and prospering.

In addition to procuring the cream of negro talent, Richards & Pringle's Famous Georgia minstrels introduce a sensational offering in Marsh Craig, "The Human Enigma" Kirk, the Musical Acrobat; Arthur Prince, Hoop Controler; Clarence Powell, the Sidewalk Talker; Fred Simpson, Trombone Soloist: and the Big Six song and dance, belles and beaux. The vocal part of the program is claimed to be exceptionally strong while the musical numbers will excel anything attempted by the minstrel shows. Never was such a remarkable offering of novelties, embracing such a tempting array of good things as will be seen at the Opera House, June 24.

WALL PAPER

Our new spring stock is here, and if you need anything in this line you should see our styles. In new and exclusive designs at from............ **10c to 50c**

CURTAINS

We have a very nice line at popular prices. Our 25c cloth shade is a dandy for the price.

PAINT

When you get ready to paint your house don't forget the old standby.

Ladies Sailor Hats worth from 50c to $1.00 for	29c		

Come and see us anyhow whether you want to buy or not.

Theo. LaBissoniere

The Big Store Red Lake Falls

A meeting of the Adams Presbytery will be held at Crookston next Monday evening when the resignation of Rev. H. W. Knox as pastor of the Presbyterian church will be taken up and acted upon. As stated in the columns several weeks ago Rev. Knox has been made a very flattering offer to take charge of the Presbyterian pastorate at Green Bay, Wisconsin, and while he has been a very active member of the Adams Presbvtery, and the members are loathe to see him leave, it is very probable that his resignation will be accepted. The new field will be a much better one for Mr. Knox and there are none who know him but what are pleased at his chance of advancemnt.

Thief River Press: The local telephone exchange has been sold by H. Fant to J. M. Bishop for a consideration of $20,000. The deal grew out of the bill in equity filed at Fergus Falls by the Tri-State Telephone company to secuee the plant on a mortgage held by the company and which they claimed was in danger of becoming of no value because of alleged acts of ommission and commission by Mr. Fant. Mr. Bishop announces that the system will be improved and put in good condition and by so doing, he trusts to put an end to all controversy over the granting of another franchise, and thus insure the city, having but one telephone system, which is enough for any town.

GETS STATE JOB

James E. Ford of this City, Appointed as Special Examiner by Capt. Schaefer.

James E. Ford of this city received word from Public Examiner Anton Schaefer that he had been appointed as a special assistant examiner under chapter 344, laws of 1907, for townships and school districts. Mr. Ford immediately sent in his acceptance and expects to go to St. Paul next week to familiarize himself with his new duties and prepare to qualify.

The Red Lake Falls people will be extremely pleased to learn of Jim's good fortune, as the appointment carries with it a very substantial salary and is work of a nature that Mr. Ford is especially fitted for. He does not expect to remove his family to St. Paul for the present at least, but probably will later in the summer.

The Courier is pleased to see Jim laud this nice job, and it knows that the confidence is not misplaced. There are no better accountants or office men in the state than this same Ford and it is a modest prediction to say that he will be eminently successful.

Hates Tired Business Man.

Bronson Howard lays the blame for an inferior stage upon the tired business man who has to be amused. He lately said: "I hate the tired business man. He is the cause of plays being produced that keep four other men at home. I wish he would go home and rest. The drama has no future in this country until we cease to cater to the tired business man."

Victoria's Granddaughters.

Queen Victoria had twenty-one granddaughters, and of this number only four remain single. They are Princess Victoria of England, Princess Beatrice of Saxe-Coburg, Princess Patrica of Connaught and Princess Victoria of Schleswig-Holstein.

SISTER ROSE.

A STORY OF THE FRENCH REVOLUTION

BY WILKIE COLLINS

CHAPTER IV.

THE land-steward started—this time with genuine astonishment. "For me!" he exclaimed. "Mademoiselle Rose has troubled herself to keep a cup of coffee hot for me!" The old servant stared; Trudaine stopped and looked back. "What is there so very surprising," he asked, "in such an ordinary act of politeness on my sister's part?"

"Excuse me, Monsieur Trudaine," answered Lomaque; "you have not passed such an existence as mine—you are not a friendless old man—you have a settled position in the world, and are used to be treated with consideration. I am not. This is the first occasion in my life on which I find myself an object for the attention of a young lady, and it takes me by surprise. I repeat my excuses—pray let us go in."

Trudaine made no reply to this curious explanation. He wondered at it a little, however, and he wondered still more, when entering the drawing-room, he saw Lomaque walk straight up to his sister, and—apparently not noticing that Danville was sitting at the harpsichord and singing at the time—addressed her confusedly and earnestly with a set speech of thanks for his hot cup of coffee. Rose looked perplexed, and half inclined to laugh, as she listened to him. Madame Danville, who sat by her side, frowned and rapped the land-steward contemptuously on the arm with her fan.

"Be so good as to keep silent until my son has done singing," she said. Lomaque made a low bow, and retiring to a table in a corner, took up a newspaper lying on it. If Madame Danville had seen the expression that came over his face when he turned away from her, proud as she was, her aristocratic composure might possibly have been a little ruffled.

Danville had finished his song, had quitted the harpsichord, and was talking in whispers to his bride; Madame Danville was adding a word to the conversation every now and then; Trudaine was seated apart at the far end of the room, thoughtfully reading a letter which he had taken from his pocket—when an exclamation from Lomaque, who was still engaged with the newspaper, caused all the other occupants of the apartment to suspend their employments and look up.

"What is it?" asked Danville, impatiently.

"Shall I be interrupting if I explain?" inquired Lomaque, getting very weak in the eyes again, as he deferentially addressed himself to Madame Danville.

"You have already interrupted us," said the old lady, sharply; "so you may now just as well explain."

"It is a passage from the Scientific Intelligence, which has given me great delight, and which will be joyful news for everyone here." Saying this Lomaque looked significantly at Trudaine, and then read from the newspaper these lines:

"Academy of Sciences, Paris.—The vacant sub-professorship of chemistry has been offered, we are rejoiced to hear, to a gentleman whose modesty has hitherto prevented his scientific merits from becoming sufficiently prominent in the world. To the members of the academy he has been long since known as the originator of some of the most remarkable improvements in chemistry which have been made of late years—improvements, the credit of which he has, with rare, and we were almost about to add, culpable moderation, allowed others to profit by with impunity. No man in any profession is more thoroughly entitled to have a position of trust and distinction conferred on him by the state than the gentleman to whom we refer—M. Louis Trudaine."

Before Lomaque could look up from the paper to observe the impression which his news produced, Rose had gained her brother's side, and was kissing him in a flutter of delight.

"Dear Louis," she cried, clapping her hands, "let me be the first to congratulate you! How proud and glad I am! You accept the professorship, of course?"

Trudaine, who had hastily and confusedly put his letter back in his pocket the moment Lomaque began to read, seemed at a loss for an answer. He patted his sister's hand rather absently, and said:

"I have not made up my mind; don't ask me why, Rose—at least not now, not just now." An expression of perplexity and distress came over his face, as he gently motioned her to resume her chair.

"Pray, is a sub-professor of chemistry supposed to hold a rank of a gentleman?" asked Madame Danville, without the slightest appearance of any special interest in Lomaque's news.

"Of course not," replied her son, with a sarcastic laugh; "he is expected to work and make himself useful. What gentleman does that?"

"Charles!" exclaimed the old lady, reddening with anger.

"Bah!" cried Danville, turning his back on her, "enough of chemistry. Lomaque, now you have begun reading the newspaper, try if you can't find something interesting to read about. What are the last accounts from Paris? Any more symptoms of a general revolt?"

Lomaque turned to another part of the paper. "Bad, very bad prospects for the restoration of tranquility," he said. "Necker, the people's minister, is dismissed. Placards against popular gatherings are posted all over Paris. The Swiss Guards have been ordered to the Champs Elysees, with four pieces of artillery. No more is yet known, but the worst is dreaded. The breach between the aristocracy and the people is widening fatally almost hour by hour."

"Bah!" cried Madame Danville. "The People, indeed! Let those four pieces of artillery be properly loaded, let the Swiss Guards do their duty, and we shall hear no more of the People!"

"I advise you not to be sure of that," said her son, carelessly, "there are rather too many people in Paris for the Swiss Guards to shoot conveniently. Don't hold your head too aristocratically high, mother, till we are quite certain which way the wind really does blow. Who knows if I may not have to bow just as low one of these days to King Mob, as ever you curtesied in your youth to King Louis the Fifteenth!"

He laughed complacently as he ended, and opened his snuff-box. His mother rose from her chair, her face crimson with indignation.

"I won't hear you talk so—it shocks, it horrifies me!" she exclaimed, with vehement gesticulation. "No, no! I decline to hear another word. I decline to sit by patiently, while my son, whom I love, jests at the most sacred principles, and sneers at the memory of an anointed king. This is my reward, is it, for having yielded and having come here, against all the laws of etiquette, the night before the marriage? I comply no longer; I resume my own will and my own way. I order you, my son, to accompany me back to Rouen. We are the bridegroom's party, and we have no business overnight at the house of the bride. You meet no more till you meet at the church. Justin, my coach! Lomaque, pick up my hood. Monsieur Trudaine, thanks for your hospitality; I shall hope to return it with interest the first time you are in our neighborhood. Mademoiselle, put on your best looks to-morrow along with your wedding finery; remember that my son's bride must do honor to my son's taste. Justin, my coach—drone, vagabond, idiot, where is my coach?"

"My mother looks handsome when she is in a passion, does she not, Rose?" said Danville, quietly putting up his snuff-box as the old lady sailed out of the room. "Why, you seemed quite frightened, love," he added, taking her hand with his easy, graceful air; "frightened, let me assure you, without the least cause. My mother has but that one prejudice, and that one weak point, Rose. You will find her a very dove for gentleness, as long as you do not wound her pride of caste. Come, come! on this night, of all others, you must not send me away with such a face as that."

He bent down and whispered to her a bridegroom's compliments, which brought the blood back to her cheek in an instant.

"Ah! how she loves him—how dearly she loves him," thought her brother, watching her from his solitary corner of the room, and seeing the smile that brightened her blushing face when Danville kissed her hand at parting.

CHAPTER V.

LOMAQUE, who had remained imperturbably cool during the outbreak of the old lady's anger; Lomaque, whose observant eyes had watched sarcastically the effect of the scene between mother and son on Trudaine and his sister, was the last to take leave. After he had bowed to Rose, with a certain gentleness in his manner, which contrasted strangely with his wrinkled, haggard face, he held out his hand to her brother. "I did not take your hand when we sat together on the bench," he said, "may I take it now?"

Trudaine met his advance courteously, but in silence. "You may alter your opinion of me one of these days." Adding those words in a whisper, Monsieur Lomaque bowed once more to the bride and went out.

For a few minutes after the door had closed, the brother and sister kept silence. "Our last night together at home!" that was the thought which now filled the heart of each. Rose was the first to speak. Hesitating a little, as she approached her brother, she said to him anxiously:

"I am sorry for what happened with Madame Danville, Louis. Does it make you think the worse of Charles?"

"I can make allowance for Madame Danville's anger," returned Trudaine, evasively, "because she spoke from honest conviction."

"Honest!" echoed Rose, sadly; "honest?—ah, Louis! I know you are thinking disparagingly of Charles' convictions when you speak so of his mother's."

Trudaine smiled and shook his head, but she took no notice of the gesture of denial—only stood looking earnestly and wistfully into his face. Her eyes began to fill; she suddenly threw her arms round his neck, and whispered to him, "Oh, Louis, Louis! how I wish I could teach you to see Charles with my eyes!"

He felt her tears on his cheek as she spoke, and tried to reassure her.

"You shall teach me, Rose—you shall indeed. Come, come! we must keep up our spirits, or how are you to look your best to-morrow?"

He unclasped her arms, and led her gently to a chair. At the same moment, there was a knock at the door, and Rose's maid appeared, anxious to consult her mistress on some of the preparations for the wedding ceremony. No interruption could have been more welcome just at that time. It obliged Rose to think of present trifles, and it gave her brother an excuse for retiring to his study.

He sat down by his desk, doubting and heavy-hearted, and placed the letter from the Academy of Sciences open before him.

Passing over all the complimentary expressions which it contained, his eye rested only on these lines at the end: "During the first three years of your professorship, you will be required to reside in or near Paris nine months out of the year, for the purpose of delivering lectures and superintending experiments from time to time in the laboratories." The letter in which these lines occurred offered him such a position as in his modest self-distrust he had never dreamed of before; the lines themselves contained the promise of such vast facilities for carrying on his favorite experiments as he could never hope to command in his own little study, with his own limited means; and yet, there he now sat, doubting whether he should accept or reject the tempting honors and advantages that were offered to him—doubting for his sister's sake!

"Nine months of the year in Paris," he said to himself, sadly, "and Rose is to pass her married life at Lyons. Oh! if I could clear my heart of its dread on her account—if I could free my mind of its forebodings for her future—how gladly I would answer this letter by accepting the trust it offers me!"

He paused for a few minutes and reflected. The thoughts that were in him marked their ominous course in the growing paleness of his cheek, in the dimness that stole over his eyes. "If this cleaving distrust from which I cannot free myself should be in very truth the mute prophecy of evil to come—to come, I know not when—if it be so (which God forbid), how soon she may want a friend, a protector near at hand, a ready refuge in the time of her trouble. Where shall she then find protection or refuge? With that passionate woman? With her husband's kindred and friends?"

He shuddered as the thought crossed his mind, and opening a blank sheet of paper, dipped his pen in the ink. "Be all to her, Louis, that I have been," he murmured to himself, repeating his mother's last words, and beginning the letter while he uttered them. It was soon completed. It expressed, in the most respectful terms, his gratitude for the offer made to him, and his inability to accept it, in consequence of domestic circumstances which it was needless to explain. The letter was directed, sealed; it only remained for him to place it in the post-bag lying near at hand. At this last decisive act he hesitated. He had told Lomaque, and he had firmly believed himself, that he had conquered all ambitions for his sister's sake. He knew now, for the first time, that he had only lulled them to rest—he knew that the letter from Paris had aroused them. His answer was written, his hand was on the post-bag, and at that moment the whole struggle had to be risked over again—risked when he was most unfit for it! He was not a man under any ordinary circumstances to procrastinate, but he procrastinated now.

"Night brings counsel; `I will wait till to-morrow," he said to himself, and put the letter of refusal in his pocket, and hastily quitted the laboratory.

(TO BE CONTINUED.)

Met His Match.

Joseph H. Choate seldom meets a successful antagonist in repartee, but he met his match while trying a case in the surrogate's court not long ago. An old woman was being questioned about how a certain testator had looked when a certain incident had occurred. "Now, how can I remember? He's been dead two years," she replied, testily. "Is your memory so poor that you can't remember two years back?" continued Choate. The old woman was silent, and Choate asked: "Did he look anything like me?" "Seems to me he did have the same sort of a vacant look!" snapped the witness. The questioning was suspended.

Ignorance of Immigrants.

Of the 229,370 alien steerage passengers who arrived at the port of New York last year, 42,942 above 14 years of age could not read and write. About 149,500 of the steerage arrivals were over 14 years of age, and only 29,287 of these brought with them $30 and over. No less than 182,000 of the whole number of steerage immigrants had some point in the north Atlantic states for a destination, while only 2,451 were bound for the south central states.

What Next?

Chief Sabatis, the Indian who guided Benedict Arnold through the wilderness of Maine, is buried at the ancient quaker churchyard at Vassalboro, in that state, and a movement has been started for the erection of a monument over his grave. Sabatis was one of the strongest friends of the white race among all the New England Indians.

Every life has unfinished towers in it that were begun to oppose God.—Ram's Horn.

RELICS OF CRUSOE

HIS OLD GUN WAS RECENTLY SOLD AT AUCTION.

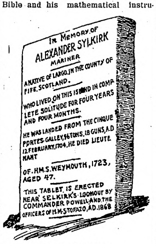
On Juan Fernandez Many Evidences of Selkirk's Residence Still Exist—A Tablet to His Memory.

Every one who has read Robinson Crusoe will be interested to learn that the trusty old musket the shipwrecked sailor used during the four years he lived on the deserted island off the Chilian coast is now in possession of Miss Huldah B. White of No. 201 North Thirty-fourth street, Philadelphia.

Miss White, while recently traveling in England, learned that the famous gun, which had been an heirloom in the Selkirk family for two centuries, was to be sold at auction in Edinburgh. Being a collector of curios, she sent an agent to the sale, and after some spirited bidding he secured the prize for $162.75.

The relic is in an excellent state of preservation. The flintlock still works on its hinges and answers to the touch of the trigger. The old weapon is almost six feet long.

About 351 miles to the westward of the Chilean coast is a group of three small islands known as the archipelago of Juan Fernandez, and named, respectively, Mas a Tierra, Mas Afuera and Santa Clara. Mas a Tierra, better known as Juan Fernandez, is the one upon which Selkirk lived for years as a castaway. He was not wrecked, as De Foe causes Crusoe to be, but was sent ashore by Capt. Straddling, with a few personal effects, which included his seaman's chest, the famous fire lock, one pound of powder, some bullets, tobacco, a hatchet, a knife, a Bible and his mathematical instruments and books. It is said that Selkirk was put ashore at his own request, but he probably had no choice in the matter; it was either banishment or death on the gallows.



IN MEMORY OF
ALEXANDER SYLKIRK
MARINER
A NATIVE OF LARGO IN THE COUNTY OF FIFE, SCOTLAND.
WHO LIVED ON THIS ISLAND IN COMPLETE SOLITUDE FOR FOUR YEARS AND FOUR MONTHS.
HE WAS LANDED FROM THE CINQUE PORTES GALLEY, 96 TONS, 18 GUNS, A.D 12 FEBRUARY, 1704. HE DIED LIEUTENANT
OF. H.M.S. WEYMOUTH, 1723, AGED 47.
THIS TABLET IS ERECTED NEAR SELKIRK'S LOOKOUT BY COMMANDER POWELL AND THE OFFICERS OF H.M.S. TOPAZO, AD. 1868

Tablet to Crusoe.

For four years and four months Selkirk lived his lonely life on the uninhabited island. He made clothes from goat skins when his own were worn to rags. He killed goats, of which there was an abundance on the island, with his musket, and when finally his powder gave out he killed them by hand. He became so fleet of foot in time that no animal could outrun him.

Two years ago Prof. G. T. Hastings and A. Haebele, both from Cornell university, accompanied an expedition sent out by the Chilian government to study the interesting flora of the island. They took photographs of the familiar spots made famous by De Foe. They found everything just as Selkirk had described it in his diary. There was the cave up in the hillside in which he had dwelt during his long exile, the stockade he had erected for defense against a possible foe was there, too; so also was "Lookout Mountain," situated on the highest peak of the island. From this point Selkirk used to scan the ocean for the gleam of friendly sail. But he was far from the beaten track, and it was years before he was rescued. An iron tablet has been erected in memory of Selkirk near the lookout. The tablet reads:

> In memory of Alexander Selkirk, mariner, a native of Largo, in the county of Fife, Scotland, who lived on this island in complete solitude for four years and four months. He was landed from the Cinque Portes galley, 96 tons, 18 guns, A. D. 12 February, 1704. He died a lieutenant of H. M. S. Weymouth, 1723, aged 47. This tablet is erected near Selkirk's lookout by Commander Powell and officers of H. M. S. Topaze, A. D. 1868.

Selkirk was rescued in 1709. The signal fire he burned nightly had been seen by Commander Wood Rogers of the privateer Duque, and the following day the exile was taken on board and once more brought in contact with human beings.

Belonged to Him.

"She was my woman. I had a right to kill her." Morose and sullen, Max Kredich declared this in the Butler (Pa.) county jail the other day while he was awaiting trial for the murder of his wife. "I go free," protested the wife slayer, when the prospect of his trial was suggested. "It's none of their business." When he struck down his wife in their home at Lyndora last December, half a dozen boarders in his house strove to restrain him from abusing the little woman for an hour before he broke her neck with a blow of his bulky fist. Then he went a them with a butcher knife, shouting "It is nobody's business if I kill her."

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is acknowledged to be the most successful remedy in the country for those painful ailments peculiar to women.

For more than 30 years it has been curing Female Complaints, such as Inflammation, and Ulceration, Falling and Displacements, and consequent Spinal Weakness, Backache, and is peculiarly adapted to the Change of Life.

LYDIA E. PINKHAM

Records show that it has cured more cases of Female Ills than any other one remedy known.

Lydia E. Pinkham's Vegetable Compound dissolves and expels Tumors at an early stage of development. Dragging Sensations causing pain, weight, and headache are relieved and permanently cured by its use.

It corrects Irregularities or Painful Functions, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility; also, Dizziness, Faintness Extreme Lassitude, "Don't care and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness, Flatulency, Melancholia or the "Blues." These are sure indications of female weakness or some organic derangement.

For Kidney Complaints of either sex Lydia E. Pinkham's Vegetable Compound is a most excellent remedy.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Thus she is well qualified to guide sick women back to health. Her advice is free and always helpful.

Deduced.

Clara—One evening last week Jack Gaye calmly informed me that he would kiss me or die in the attempt.

Ethel—Good gracious! And did he kiss you?

Clara—Well, you haven't heard of his death, have you?

68, BUT PERFECTLY WELL.

The Happy Experience of a New Castle, Pa., Woman.

Mrs. John Mansell, 61[illegible] So. Jefferson St., New Castle, Pa., says: "For years I was running down with kidney trouble without knowing what it was, and finally got so bad I was given up. The urinary passages were painful, sometimes scanty and again very profuse. My limbs, feet and ankles bloated dreadfully, and sometimes my whole body. My heart palpitated and I had smothering spells. A week's treatment with Doan's Kidney Pills helped me and a few boxes cured me. At 68 I am strong and well."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Test of an Egg.

His Honor Judge Addison, who died this week, had once to deal with the problem "When does an egg become stale?"

The plaintiff suggested that in summer eggs became stale "about a week after they came to market," but the judge declared that the real test of an egg's staleness was the moment it became fit for use at a contested election.

A Good Way.

"Ladies," said the male speaker at the suffrage convention, "there is a way out of all your troubles. There is an easy method by which the foot of tyrant man may be lifted from you."

There was a murmur of applause and then breathless interest.

"Just move to Colorado," continued the speaker.

Then they remembered that the West had agents out to drum up population.

ECZEMA COVERED BABY.

Worst Case Doctors Ever Saw—Suffered Untold Misery—Perfect Cure by Cuticura Remedies.

"My son, who is now twenty-two years of age, when four months old began to have eczema on his face, spreading quite rapidly until he was nearly covered. The eczema was something terrible, and the doctors said it was the worst case they ever saw. At times his whole body and face were covered, all but his feet. I used many kinds of patent medicines, to no avail. A friend teased me to try Cuticura. At last I decided to try Cuticura when my boy was three years and four months old, having had eczema all that time and suffering untold misery. I began to use all three of the Cuticura Remedies. He was better in two months; in six months he was well. Mrs. R. L. Risley, Piermont, N. H., Oct. 24, 1905."

ARE MOMENTS OF ANXIETY.

Those Following Winning of Derby and Reasons Why.

The anxiety of owners of race horses competing in the Derby do not immediately end as the horses pass the judges. The fatal "objection" may snatch the laurels from the victor. The possibility discovered itself over Caractacus' race. The owner had striven in vain to get a jockey of repute. He offered a life annuity of £100 a year to [illegible] case [illegible] had been declined. A stable boy named Parsons had eventually to be trusted and, to the surprise of all, he got the horse home, winning by a neck.

Going to the scale the lad could not draw the weight. In breathless silence the bridle was sent for and that just enabled him to balance the scale. But now Lord Stamford appeared to object that only his own horse and two others had gone the full course. The winner and the rest were already past the starting post when the flag fell. Admiral Rous looked at his watch. "Twenty minutes," he said. "An objection to hold good must be lodged within a quarter of an hour."

And so the stable boy's win passed into the records, but the owner of Caractacus declared that not for £1,000 a moment would he again endure the agony of that short period following the race.

AN OLD EDITOR

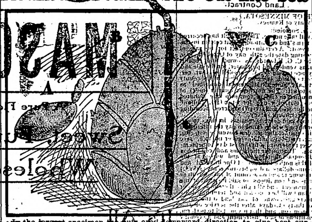
Found $2000 Worth of Food.

The editor of a paper out in Okla. said: "Yes, it is true when I got hold of Grape-Nuts food it was worth more than a $2000 doctor bill to me, for it made me a well man. I have gained 25 pounds in weight, my strength has returned tenfold, my brain power has been given back to me, and that is an absolute essential, for I am an editor and have been for 35 years.

"My pen shall always be ready to speak a good word for this powerful nutritive food. I had of course often read the [illegible] of Grape-Nuts, but never thought to apply the food to my own use, until in my extremity and sickness the thought came to me that it might fit my case. The statements in regard to the food are absolutely correct as I have proven in my own case. One very fortunate thing about the food is that while it is the most scientifically made and highly nourishing, concentrated food I have ever known, it has so delicious a taste that it wins and holds friends."

"There's a Reason." Read "The Road to Wellville" in pkgs.

How Seed Potatoes Are Cut Into Sets



In the largest specimen the cuts are made just above each eye and in a downward direction to give best support to the sprouts.

AN ODE TO A SPRING LAMB

He buys old ewes when the market's low,
And pays the freight from South Omaho,
Listen to the sheepman talk.

He feeds them up on alfalfa hay
And gives them corn three times a day,
Listen to the sheepman talk.

When they are fat and ready to ship,
He writes to the salesman to give him a tip,
Listen to the sheepman talk.

He puts his sheep in a double-deck freight,
And back to Omaha sends them straight,
Listen to the sheepman talk.

When they get there they are put in a pen
And fed on hay till they're full again,
Listen to the salesman talk.

He says they were shipped right off the range,
He talks 'till the packer puts down the change,
Listen to the salesman talk.

The sheep take a turn through the packer's den,
And are ready for sale to the market-men,
Listen to the packers talk.

Then they are hung on the butcher's hook,
And offered for sale to the freckle-faced cook,
Listen to the butcher talk.

He says they are young, and juicy and sweet,
Says for a king they would make a treat,
Listen to the butcher talk.

She buys a leg o' mutton and puts it on to cook,
But it won't cook through by hook or crook,
Listen to the servant scold.

The husband comes home at noon to dine,
She serves up the roast so brown and fine,
Listen to the [illegible].

"What in hades do you call this meat?"
He shrieks at her in a temper heat,
[illegible] yell.

"It's old and it's tough, it's dry as snuff,
Where did you get th[illegible]?"
Listen to the [illegible].

"I bought it to-day of the market man;
He said 'twas a [illegible] little [illegible] lamb."
Listen to the housewife's plea.

"[illegible]
'Twill never see ten and a score any more."
Listen to the herdsman.

"I say it was one that Noah had,"
Then he said words that were awful bad—
Listen to the husband swear.

But the sheepman smiled as he took his cash
And bought a dinner of 20-cent hash,
And listened to the waiter girl talk.

He put on his hat and did up the town,
Like the leg o' mutton he did it up brown,
Listen to his gleeful talk.

He fatted those ewes in his own good day,
But not to eat, he's not built that way,
Listen to the sheepman laugh.

—CHARLOTTE WHITNEY.

THE ESSENTIAL TO FARM FERTILITY

By H. R. Smith, of Nebraska Experiment Station.

The maintenance of a high degree of soil fertility is a fundamental principle in successful farming. Had this been recognized years ago and methods practiced that build rather than deplete, much of the native fertility of our eastern soils would have been conserved. Live stock in the state of Ohio began to decline in number 30 years ago and with that decline there occurred almost immediately decline in the average yield per acre of wheat and other small grains. That state now purchases annually $2,000,000 worth of commercial fertilizers. What has been the experience of Ohio is the experience of many other eastern states where grain growing without rotation with hay plants is now practiced.

The growing of such legumes as alfalfa, clover and cow peas, and the feeding of these crops with at least a part of the grain grown, is our surest preventive of soil improvement. It goes without saying that this can only be accomplished by keeping the stock on the farm. If by feeding farm animals no more than elevator prices are received for the crops grown there is still abundant reason for the practice of such system of farming. Many do not feed stock because they are fearful that grain thus disposed of will sell at a sacrifice. No doubt this is true, if carelessness is displayed in the feeding and management. With the exercise of skill the opposite is just as true.

Each year as the results of experiments are compiled and the work of other stations reviewed new proof is added to the fact that a careful system of feeding in which nature's laws are given recognition is capable of producing to a marked degree larger and more profitable gains than indiscriminate feeding. It has been proved beyond a doubt that the cost of producing grains may be reduced from 20 to 30 per cent. by properly compounding rations. Such evidence is forth coming from all stations of the middle west, where feeding questions have been given most consideration. Should a farmer lose by disease one animal out of every five he would feel much unconcerned. The equivalent of this is happening on many farms to-day through injudicious feeding.

If stock feeding is to be conducted with profit there must be put into the work a high order of intelligence. How can it be otherwise? The feeder is in constant touch with nature's laws, which must not be ignored. He is dealing with a wide range of foods differing essentially in physical character, in composition and digestibility. He is furthermore dealing with an animal mechanism infinitely more complex in the arrangement of parts and the performance of functions than anything ever wrought by man. If all foods and all classes of animals were alike the problem would be a simple one. If all foods consisted of the natural herbage, which at one time grew uncultivated, animals would get for themselves more nearly what the system requires. But the artificial propagation of numerous forms of food (some kinds produce in greater abundance than others) has made the economical utilization of such foods a complex science. Nor can profitable stock feeding be looked upon as a science merely. It is a business, too, in the sense that one who is engaged in the work is each year confronted with a change in prices on foods, which compels him to keep posted on market quotations in order to be able to select those which go farthest for the money. Why should not the stock farmer give just as much study and preparation to his business and profession as does the lawyer, physician or engineer? As our population increases and land becomes higher in price, this is constantly becoming more imperative.

DESIRABLE FEATURES OF A SEPARATOR

By Prof. E. H. Van Norman.

Some of the desirable features of a separator are:

1. Clean skimming under a wide range of conditions, such as warm and cold milk, and thick or thin cream. The skim milk from a good separator properly run should not contain to exceed one-twentieth of one per cent. of fat, and under ordinarily favorable conditions should show even less than that in the double neck test bottle.

2. Ease of washing; all parts should be so arranged as to be easily gotten at for washing—few corners and tubes.

3. Easy running. All machines of the same manufacture are not equally easy running.

4. Durable construction.

In Destroying Weeds.—In combatting any plant or grass which has become a weed, it should be remembered that it is necessary for any vegetable life to have a leaf system above the ground before it can live. If this is destroyed, there will be no plant; if the leaves are kept from appearing above the ground, it will not be long till the weed or grass pest is overcome.

Use Only Fresh Eggs.—Don't expect the incubator or the setting hen to hatch ancient eggs. An egg begins to deteriorate as soon as laid. Like the hen that laid it, it doesn't improve with [illegible].

AFRAID OF PARALYSIS

A NERVOUS SUFFERER CURED BY DR. WILLIAMS' PINK PILLS.

The Medicine That Makes Rich, Red Blood and Performs Wonders as a Tonic for the Nerves.

Why are nervous people invariably pale people?

The answer to that question explains why a remedy that acts on the blood can cure nervous troubles.

It explains why Dr. Williams' Pink Pills for Pale People are also for nervous people.

It is because of the intimate relation between the red corpuscles in the blood and the health of the nerves. The nervous system receives its nourishment through the blood. Let the blood become thin, weak and colorless and the nerves are starved—the victim is started on the road that leads to nervous wreck. Nervous people are pale people—but the pallor comes first. Enrich the blood and the nerves are stimulated and toned up to do their part of the work of the body. Dr. Williams' Pink Pills make red blood and transform nervous, irritable, ailing people into strong, energetic, forceful men and women.

Mrs. Harriet E. Porter, of 20 Liberty avenue, South Medford, Mass., says: "I had never been well from childhood and a few years ago I began to have dizzy spells. At such times I could not walk straight. I was afraid of paralysis and was on the verge of nervous prostration. Then neuralgia set in and affected the side of my face. The pains in my forehead were excruciating and my heart pained me so that my doctor feared neuralgia of the heart. I tried several different kinds of treatment but they did me no good.

"One day my son brought me some of Dr. Williams' Pink Pills and I found that they strengthened my nerves. I took several boxes [illegible] every way. [illegible] attacks, the neuralgia left me and I have been a well woman ever since."

Dr. Williams' Pink Pills are invaluable in anemia, rheumatism, after-effects of the grip and fevers and in sick headaches, nervousness, neuralgia, and even partial paralysis and locomotor ataxia. A booklet, "Nervous Disorders, A Method of Home Treatment," will be sent free on request to anyone interested. Write for it today.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

It's the after effect of experience that counts.

He talks 'till the packer puts down the change,
Listen to the salesman talk.

The sheep take a turn through the packer's den,
And are ready for sale to the marketmen,
Listen to the packers talk.

Then they are hung on the butcher's hook,
And offered for sale to the freckle-faced cook,
Listen to the butcher talk.

He says they are young, and juicy and sweet,
Says for a king they would make a treat,
Listen to the butcher talk.

She buys a leg o' mutton and puts it on to cook,
But it won't cook through by hook or crook,
Listen to the servant scold.

The husband comes home at noon to dine,
She serves up the roast, so brown and fine,
Listen to the housewife brag.

"What in hades do you call this meat?"
He shrieks at her in a temper heat,
Listen to the husband yell.

"It's old and it's tough and it's dry as snuff,
Where did you get the measly stuff?"
Listen to the fiendish man.

"I bought it to-day of the marketman;
He said 'twas a nice little fat spring lamb."
Listen to the housewife's plea.

"A lamb it was in the days of yore,
I will never see ten and a score any more,"
Listen to the horrid man.

"I say it was one that Noah had,"
Then he said words that were awful bad—
Listen to the husband swear.

But the sheepman smiled as he took his cash,
And bought a dinner of 20-cent hash,
And listened to the waiter girl talk.

He put on his hat and did up the town,
Like the leg o' mutton he did it up brown,
Listen to his gleeful talk.

He fatted those ewes in his own good day,
But not to eat, he's not built that way,
Listen to the sheepman laugh.
—CHARLOTTE WHITNEY.

THE ESSENTIAL TO FARM FERTILITY

By H. R. Smith, of Nebraska Experiment Station.

The maintenance of a high degree of soil fertility is a fundamental principle in successful farming. Had this been recognized years ago and methods practiced that build rather than deplete, much of the native fertility of our eastern soils would have been conserved. Live stock in the state of Ohio began to decline in number 30 years ago and with that decline there occurred almost immediately decline in the average yield per acre of wheat and other small grains. That state now purchases annually $2,000,000 worth of commercial fertilizers. What has been the experience of Ohio is the experience of many other eastern states where grain growing without rotation with hay plants is now practiced.

The growing of such legumes as alfalfa, clover and cow peas, and the feeding of these crops with at least a part of the grain grown, is our surest preventive of soil improvement. It goes without saying that this can only be accomplished by keeping the stock on the farm. If by feeding farm animals no more than elevator prices are received for the crops grown there is still abundant reason for the practice of such system of farming. Many do not feed stock because they are fearful that grain thus disposed of will sell at a sacrifice. No doubt this is true, if carelessness is displayed in the feeding and management. With the exercise of skill the opposite is just as true.

Each year as the results of experiments are compiled and the work of other stations reviewed new proof is added to the fact that a careful system of feeding in which nature's laws are given recognition is capable of producing to a marked degree larger and more profitable gains than indiscriminate feeding. It has been proved beyond a doubt that the cost of producing grains may be reduced from 20 to 30 per cent. by properly compounding rations. Such evidence is forthcoming from all stations of the middle west, where feeding questions have been given most consideration. Should a farmer lose by disease one animal out of every five he would feel much unconcerned. The equivalent of this is happening on many farms to-day through injudicious feeding.

If stock feeding is to be conducted with profit there must be put into the work a high order of intelligence. How can it be otherwise? The feeder is in constant touch with nature's laws, which must not be ignored. He is dealing with a wide range of foods, differing essentially in physical character, in composition and digestibility. He is furthermore dealing with an animal mechanism infinitely more complex in the arrangement of parts and the performance of functions than anything ever wrought by man. If all foods and all classes of animals were alike the problem would be a simple one. If all foods consisted of the natural herbage, which at one time grew uncultivated, animals would get for themselves more nearly what the system requires. But the artificial propagation of numerous forms of food (some kinds produce in greater abundance than others) has made the economical utilization of such foods a complex science. Nor can profitable stock feeding be looked upon as a science merely. It is a business, too, in the sense that one who is engaged in the work is each year confronted with a change in prices on foods, which compels him to keep posted on market quotations in order to to be able to select those which go farthest for the money. Why should not the stock farmer give just as much study and preparation to his business and profession as does the lawyer, physician or engineer? As our population increases and land becomes higher in price this is constantly becoming more imperative.

DESIRABLE FEATURES OF A SEPARATOR

By Prof. E. H. Van Norman.

Some of the desirable features of a separator are:

1. Clean skimming under a wide range of conditions, such as warm and cold milk, and thick or thin cream. The skim milk from a good separator properly run should not contain to exceed one-twentieth of one per cent. of fat, and under ordinarily favorable conditions should show even less than that in the double neck test bottle.
2. Ease of washing; all parts should be so arranged as to be easily gotten at for washing—few corners and tubes.
3. Easy running. All machines of the same manufacture are not equally easy running.
4. Durable construction.

In Destroying Weeds.—In combatting any plant or grass which has become a weed, it should be remembered that it is necessary for any vegetable life to have a leaf system above the ground before it can live. If this is destroyed, there will be no plant. If the leaves are kept from appearing above the ground, it will not be long till the weed or grass pest is overcome.

Use Only Fresh Eggs.—Don't expect the incubator or the settin' hen to hatch ancient eggs. An egg begins to deteriorate as soon as laid. Like the hen that laid it, it doesn't improve with

AFRAID OF PARALYSIS

A NERVOUS SUFFERER CURED BY DR. WILLIAMS' PINK PILLS.

The Medicine That Makes Rich, Red Blood and Performs Wonders as a Tonic for the Nerves.

Why are nervous people invariably pale people?

The answer to that question explains why a remedy that acts on the blood can cure nervous troubles.

It explains why Dr. Williams' Pink Pills for Pale People are also for nervous people.

It is because of the intimate relation between the red corpuscles in the blood and the health of the nerves. The nervous system receives its nourishment through the blood. Let the blood become thin, weak and colorless and the nerves are starved—the victim is started on the road that leads to nervous wreck. Nervous people are pale people—but the pallor comes first. Enrich the blood and the nerves are stimulated and toned up to do their part of the work of the body. Dr. Williams' Pink Pills make red blood and transform nervous, irritable, ailing people into strong, energetic, forceful men and women.

Mrs. Harriet E. Porter, of 20 Liberty avenue, South Medford, Mass., says: "I had never been well from childhood and a few years ago I began to have dizzy spells. At such times I could not walk straight. I was afraid of paralysis and was on the verge of nervous prostration. Then neuralgia set in and affected the side of my face. The pains in my forehead were excruciating and my heart pained me so that my doctor feared neuralgia of the heart. I tried several different kinds of treatment but they did me no good.

"One day my son brought me some of Dr. Williams' Pink Pills and I found that they strengthened my nerves. I took several boxes and was helped in every way. There were no more dizzy attacks, the neuralgia left me and I have been a well woman ever since."

Dr. Williams' Pink Pills are invaluable in anaemia, rheumatism, after-effects of the grip and fevers and in sick headaches, nervousness, neuralgia and even partial paralysis and locomotor ataxia.

Our booklet "Nervous Disorders, a Method of Home Treatment," will be sent free on request to anyone interested. Write for it today.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

It's the after effect of experience that counts.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Puzzled.

The noted foreigner was perplexed. "Zis wa sa strange countree," he remarked with a frown. "The longer I stay ze less I understand."

"What is the trouble now, count?" asked his American friend.

"Mooch, monsieur. I get on ze train. The conductor carry me past my station. I get wild. I wave my cane. I stamp my foot. I shout! Zen ze conductor grab me and hold me. When I ask him why he hold me he say because he think I am off. Ha! ha! He say I am off and zat is ze very reason why I raise all ze noise—because I am not off, but on."

Krause's Cold Cure.

For cold in head, throat, chest or back. Best remedy for La Grippe. Druggists, 25c.

Divorcons.

Years had passed.

"Well, well, Jabe!" exclaimed the returned hero. "Still a miss?"

"Not still," replied the kittenish heroine. "Again."

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Not Certain.

"Is Jim doing hack work on the paper now?"

"[illegible]—I don't know. He was writing yesterday about 'Night owls.'"

It Cures While You Walk.

INTENTIONAL DUPLICATE EXPOSURE

DEFECTIVE PAGE

RHEUMATISM
CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acrid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.

"ALL DEALERS"

Artists have no trouble in securing models. The famous beauties have discarded corsets and have become models in face and form since taking Hollister's Rocky Mountain Tea. 35 cents. Tea or tablets. A. L. Reichert.

ACTIVE KANSAS TURKEYS.

They Are the Best Gatherers of Grasshoppers Ever Invented.

Machines for gathering grasshoppers have been invented and tried, but the most successful grasshopper gatherer is the turkey. It has the advantage of being a very profitable one, too.

A ranchman in Western Kansas raised turkeys enough last year to keep eighty acres free from damage by this insect pest. Next year this ranchman intends raising turkeys very extensively for this purpose, and nearly all of the neighbors are planning to do the same.

If there were 100 turkeys to each quarter section in this alfalfa belt there would not be enough grasshoppers left to damage any crop. And without considering the good that turkeys do, turkey raising is a profitable industry where insects are so plentiful. After they attain the age of three or four weeks they can obtain their whole living in the fields and cost the farmers nothing until late fall.

Turkey raising promises to become a permanent Kansas industry. The grasshopper with which the farmers have to contend there is not a migrating one, but is native, increasing from year to year. The turkeys, however, range over large fields and thrive on the hoppers.

An Ill Wind.

T. P. O'Connor, the Irish leader, began a brilliant after-dinner speech in Philadelphia in this way:

"I must confess that I dread to make after dinner speeches. At the most sumptuous dinners, even at such a dinner as this one, if I know that at the end I must make a speech, I am nervous, I have no appetite. I find little to admire in the best efforts of the chef.

"In truth, gentlemen, I can readily imagine Daniel, if he was at all of my mind, heaving a sigh of relief as the lions drew near to devour him—heaving a sigh of relief and murmuring:

"'Well, if there's any after-dinner speaking to be done on this occasion at least it won't be done by me.'"

Queen Exhibits Bantams.

Eight varieties of bantams are being exhibited by the Queen of England at a show at Barnstable.

You cant't tell a womas's age after she uses Hollister's Rocky Mountain Tea. Her complexion is fine. She is round, plump and handsome; in fact she is young again. 35 cents, tea or tablets. A. L. Reichert.

No greater mistake can be made than to consider lightly the evidence of disease in the system. Don't take desperate chances on ordinary medicines Use Hollister's Rocky Mountain Tea. 35 cents tea or tablets. A. L. Reichert

I'll stop your pain free. To show you first—before you spend a penny—what my Pink Pain tablets can do, I will mail you free a Trial package of them—Dr. Shoop'e headacne Tablets. Neuralagia Headache Tablets, toothache, period pains, etc. are due alone to to blood congestion. Dr. Shoop's headache Tablets simply kill pain by coaxing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis. Sold by all dealers.

Free for Catarrh, just to prove merit, a Trial size Box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow-white creamy healing, antiseptic balm. Containing such healing ingredients as Oil Eucalipitus, Thymol, Menthol etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish Address Dr. Shoop, Racine, Wis. Large jars, 50 cents. Sold by all dealers.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Despepsia, The Heart or The Kidneys. Troubles of the Stamach, Heart or Kidneys are merely symptons of a deeper ailment. Don't make the common error of treating symptons only. Sympton treatment is treating the result of your ailment, and not not the cause. Weak Stomach nerves—the Inside nerves—mean stomach weaknesses, always. And the Heart and Kidneys, as well, have their controlling power or inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative found its fame. No other remedy ever claims to treat the inside nerves. Also for bloating, billiousness, bad breath or complexion use Dr. Shoops Restorative, Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restoraiive medicine is sold by all dealers.

Piles get quick and certain relieve from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use, Large nickle-capped glass jars 50 cents. Sold by all dealers.

County Auditor, Red Lake County, Minnesota.

Notice to Vendee of Cancellation of Land Contract.

STATE OF MINNESOTA, } ss.
County of Ramsey.

To W. A. Sorsoleil:

You will take notice, That default has occurred in the terms and conditions of that certain instrument, to-wit: A certain contract for the sale of land bearing date the 25th day of October, 1900, made by C. G. Edwards, as owner and vendor, to you, as vendee and purchaser, for the sale and conveyance to said W. A. Sorsoleil of that certain tract of land, lying and being in the county of Red Lake, State of Minnesota, described as follows, to-wit: The northeast quarter (ne¼) of section nineteen (19) in township one hundred fifty-two (152), of range forty-two (42), containing one hundred and sixty (160) acres, according to the government survey.

And that said default consists in this, to-wit: In your having wholly failed to pay the interest on the said contract that fell due November 1st, 1904, November 1st, 1905, and November 1st, 1906, save and except interest up to the 1st day of September, 1904. That under the terms and conditions of said contract there is due and unpaid at the date of this notice the sum of One hundred and eighty-nine dollars and eighty-two cents ($189 82)

That owing to and on account of said default in the terms and conditions of said instrument the said instrument, and all rights thereunder, in or to said land will be canceled and terminated by the undersigned owner of said land at the expiration of thirty (30) days after the service of this notice upon you, and that if you fail to perform, the conditions of said instrument and to comply with the provisions upon which said default has occurred and fail to pay the costs of service of this notice upon you, the said termination and cancellation of said instrument and all rights thereunder, will take effect immediately upon the expiration of said thirty (30) days from the date of said service of this notice upon you.

C. A. EDWARDS.

Dated this 13th day of June, 1906.

STATE OF MINNESOTA, } ss.
County of Ramsey.

On this 12th day of June, 1907, before me personally came C. G. Edwards to me well known to be the person who made and executed the foregoing instrument and acknowledged he executed the same as his free act and deed.

FITZHUGH BURNS,

THIRTEENTH ANNUAL TOURNEY WAS A GLORIOUS SUCCESS

Entire Four Days Celebration Passes Off Without a Hitch.—The Prize Money Is Quite Equally Distributed, Though It Was Hotly Contested For.

With rousing cheers of good fellowship and amid many earnest farewells, the Great Northern special train pulled out of here last Friday night at 12:05, bearing on it the greater part of the crowd that had been in attendance at the tournament here all week, and with their departure came the close of the thirteenth annual tournament of the Northern Minnesota Tournament association.

Never has a tournament week been known to strike so favorable a spell of weather, and during the entire four days there was not a thing to mar the pleasure of the big crowd in attendance. Wednesday's crowd was the largest but the numbers here Thursday and Friday were satisfactory, and the people of Red Lake Falls feel that the excellent advertisement they received is worth all that the tournament cost in money and effort. There was no happening at any time to mar the pleasure of the week, and the strangers within our gate were given the glad hand by all. There was plenty doing at all times to keep the people interested, and when they were so inclined, the resting places were ever at hand. The weather was just right, not too hot, nor too cold, and had it been ordered especially for the occasion could not have been better.

Last week's paper gave the happenings up unitl Wednesday night but for the convenience of those who desire to keep the result of all the races the entire list is published this week.

The events of the week were all interesting and every prize was hotly contested for. In the distribution of prize money Red Lake Falls got the most, Warren second, Thief Rvier third and Crookston fourth. The contests were fairly conducted and there was not one word of criticism heard anywhere.

The thirteenth annual tournament is over, but Red Lake Falls has received great benefit from the advertising, and every visitor here during last week carried away a favorable impression of the town and her people. Our reputation as entertainers of the first water, was substantially carried out, and in the future, all Red Lake Falls will have to do is to advertise that they will celebrate some event or another and the crowds will come to help us.

The following is a complete list of the events with the official time and prize money for each:

Parade—best appearance, Warren $25; most men in line, Thief River Falls, $25.

Association hose race—Warren, 23 seconds flat, $50 cash and championship banner; Thief River Falls 23 2-5, $35; Crookston, 25 3-5, $20

Coupling contest—Dennis, Bemidji, 4 1-5, $15: Lesarge, Thief River, 4 2-5, $10; John Cahill, Thief River, 4 3-5, $5.

100 yard dash—Staska, Warren, 11 seconds, $15: Cahill, Thief River, $10: Brady, Red Lake Falls, $5.

Associatiod Hook and Ladder race—Red Lake Falls, 26 3 5, $60: Warren, 28 3-5, $40; Crookston, 29 $20; Thief River Falls 30 seconds.

Ladder Climbing Contest—Cahill, Thief River, 8 seconds, $15: Ecklund, Warren, 8 2-5 seconds, $10: Jaranson, Thief River Falls, 8 3-5, $5.

Combination Hook and Ladder and Hose race—Red Lake Falls. 20 2-5, $75; Warren, 26 flat, $32.50: Thief River Falls, 26 flat, $32.50. (Warren and Thief Rixer tied and split the purse.)

Flag race—Warren, 68 4-5, $20; Red Lake Ealls, 69 3-5, $15: Thief River Falls, 72 2-5.

Hub and hub race—Red Lake Falls, 25 2 5, $60: Warren, 25 4-5, $30: Thief River Falls, 26, $20: Crookston, 26 4-5.

Service Wet Test—Red Lake Falls 29 3-5, $60, and silver trumpet; Thief River Falls, 30, $30: Warren, 30 2-5, $20: Crookston, 31,

---

The ball games of Thursday and Friday were fine exhibitions of the national game, and while Red Lake Falls lost both yet the people got their money's worth.

Thursday Red Lake Falls and Warren were pitted against each other, the final score being 10 to 2 in favor of Warren. The first part of the game was as pretty a contest as one would care to see, but the locals could not keep up the fast pace they set at the start and lost out to their professional opponents.

Friday Red Lake Falls crossed bats with the crack Hallock outfit, and this game was one of the finest ever seen here, ending with a score of 5 to 3 in favor of Hallock. Our boys had Emerson in the box and he pitched a faultless game, but one or two bad errors at critical moments gave the game to Hallock. The crowd was well pleased with the exhibition, however, and cheered both teams liberally. Lafreniere, of the locals, made the best hit of the year on the home grounds, smashing one over right field fence for a clean home run.

The ball games were like the rest of the tournament, very successful and pleasing, and furnished first-class entertainment for all.

The executive committee of the association held their regular business session Thursday evening, and elected the following officers for the ensuing year: President, C. C. Jackson, Thief River Falls; Vice-President, Thomas Morris, Crookston; Secretary, Emil E. Zeh, Thief River Falls; Treasurer, Thomas R. Johnstone, Crookston. The tournament for 1908 will be held at Thief River Falls.

At the executive committee meeting the following resolutions were passed:

We, your committee on resolutions beg leave to report as follows:

Be it resolved that the members of the different running teams competing at the thirteenth annual tournament of the Northern Minnesota firemen's tournament association extend to the Red Lake Falls fire department, Mayor Duffy and the citizens at large, a most hearty vote of thanks for their uniting efforts to make the tournament a success, which we all most heartily vote this meeting a magnificent success. Especially do we extend to them thanks for the completeness of the arrangements for the care of the visiting teams in securing comfortable and spacious quarters, and especially do we extend thanks to the ladies of the church societies for their efforts in caring for the visitors in serving of meals, which is the best ever attempted at any past meeting.

Be it further resolved that we extend to the Honorable Halvor Steenerson a vote of thanks for his splendid work in behalf of the firemen's relief association in congress and for his splendid addresses made to the firemen and citizens attending this meeting

Be it further resolved that we extend to President M. A. Converse a vote of thanks for the able manner he has filled the presidency of the association, and also to Fred Borchers for the efficient manner he has filled the position of secretary and to him is due a large amount of praise for the success of this meeting.

Be it further resolved that we extend a vote of thanks to the Red Lake Falls city council and the department at large for the successful termination of a work that they so well worked hand in hand to make a success and believe that such examples of co-operation will bear fruit in many other cities when brought to the notice of some, as it is only by this splendid co-operation that success is attained and the public at large benefited.

Be it further resolved that we extend a vote of thanks to the members of the Red Lake Falls and Warren bands for their splendid efforts to make the time pleasant by the rendering of magnificent musical programs which added greatly to the pleasure of all present.

Be it further resolved that we extend to every citizen of Red Lake Falls a most hearty vote of thanks for their many kindnesses and marks of hospitality shown to the visiting firemen in their stay amongst them and we hope and trust that the visit will long be a pleasant remembrance in the hearts of both visitors and hosts.

Be it further resolved that we, the representatives of the running teams do extend to Harry Gillham of Blackduck a most hearty vote of thanks for the most able and efficient manner he acted in the capacity of official starter with credit to himself and entire satisfaction to all and hope to have him at our next meeting.

Thos. R. Johnstone, Crookston
A. C. Nelson, Warren
C. B. Jackson, Thief River Falle

Men's Shoes ALL Boys' Shoes

CLOTHING

Furnishings, Hats, Caps and Shoes

At Your Own Price.

I still have left about 35 suits, sizes from 34 to 42; also a nice assortment of shirts, collars, ties, underwear, hosiery and shoes, which I must close out at once. Everything goes regardless of cost. I want to sell this stuff and sell it quick, so don't miss this grand opportunity to buy high-grade merchandise at a low price.

Julius Pleth.....

—Kaus Block, Red Lake Ealls.

A Few After Thoughts.

Several fire alarms were turned in Friday night and the boys had a lot of fun running to the fires. Jim's dog house made the best blaze.

The big dance at the opera house was thoroughly enjoyed by the firemen right up to the time the special left.

Friday night after supper the Red Lake Falls and Warren bands merged forces and gave a concert on several corners under the leadership of bandmaster George Johnson of the Warren band. At the First State Bank corner speeches were made by Thomas Johnstone, Mayor Duffy, F. A. Grady, Frank Jeffers and the crowd responded with enthusiasm at the remarks make.

The "zig zag" after the fun was over on Friday night was one of best features of the week.

Chief Nelson, of Warren—"You can say for me that the members of the Northern Minnesota association have never been entertained in a more hospitable manner than they were in Red Lake Falls, and it has been a great pleasure to mingle with so many good people. It will be a long time before the Warren people will forget Red Lake Falls and the good treatment they accorded their visitors."

According to the Pioneer Bemidji will likely drop out of the Northern Minnesota Firemen's association, and will not be represented at the future tournaments held by this association. The Pioneer says: "It is highly probable that the local department has participated in the races of that department for the last time. The association as now formed will, undoubtedly, insist that the tournaments be held hereafter in the Red River Valley towns, with the result that interest over here will wane. Bemidji has won the banner five times and the novelty of being "champeen" has been dispelled. It is suggested by Earl Giel, chief of the Bemidji department that a new association be formed, to include only teams from Beltrami, Cass, Hubbard, Clearwater and Koochiching counties which would make a much storter mileage and a great saving in transportation charges to meets and tournaments."

CITY COUNCIL MEETS.

Official Proceedings of the Session of Thursday, June 13

Regular meeting os the City Council held at the city hall June 13th, 1907.

Meeting called to order by President Borchers.

Roll called.

Aldermen all present except Paul.

Minutes of three previous meetings read and approved.

On motion duly carried the following bills were allowed:

E. Chatel "	4.00
D. Beansoliel "	1.75
John Deforge "	19.80

The application of Nick Nimesgern for correction and abatement of taxes on lot 13 of block 43 in Kretzchmar's addition to Red Lake Falls, was on motion duly recomended.

On motion the meeting adjourned.

FRED BORCHERS, President

Appaoved this 19th day of June, A. D. 1907.

Attest: J. A. DUFFY
A. P. Toupin Mayor.
City Clerk.

SORTEDAHL WINS.

Case Over Construction of Bank Building Decided.

The daily papers of last Friday evening announced the decision of the state Supreme Court in the case of Hoglund Bros., of Fertile, against M. O. Sortedahl et al, of this city.

As many of our readers will remember, this action grew out of the contract to construct the bank building now occupied by the Bank of Red Lake Falls, the plaintiffs being the contractors.

The contractors having failed to complete the building within the time agreed upon, and having failed to construct the building according to contract, defendants refused to pay the last installment amounting to about one fourth of the contract price and Hoglund Bros. commenced suit to compell payment of the same. The case was tried in district court a year ago last spring and the jury brought in a verdict for the defendants, Sortedahl et al.

Hoglund Bros. made a motion for a new trial which Judge Watts denied, from which order plaintiffs appealed to the Supreme Court, which by its decision just filed sustains Judge Watts and defendant, Sortedahl, in every particular.

H. L. Gaylord, of Fertile, L. E. Gossman of Crookston, Ex-governor John Lind and his partner, A. Ueland, of Minneapolis, were attorneys for the plaintiffs, and Germo and Farley were attorneys for the defendants.

The case was stubbornly fought by both sides in both courts and the result is a notable victory for our local attorneys, Germo and Farley, and their clients, Sortedahl et al, are to be congratulated.

ICE CREAM PARLORS.

I have opened up a first-class ice cream parlor in the Duffy build at the corner of Main and Third Street, and respectfully ask a share of the public's patronage. I am prepared to furnish ice cream by dish, quart or gallon or in any quantity for special occasions. I will keep the best ice cream possible to be had from pure cream and will guarantee you fair treatment. Call on me.

F. C. Westphal.
Red Lake Falls.

For Sale

Two hundred cots and comforters Good spring cots and first-class comforters. Will be sold at below cost; cots at $2.00 apiece and comforters at 75 cents each. For particulars call on Fred Borchers or George F. Hennings.

TWO FAST GAMES.

Red Lake Falls Loses One and Wins One at Crookston.

The local base ball team went down to Crookston Tuesday evening and yesterday met the team from that place in two games on the diamond there.

The local team had for a battery Emerson and Beaulieu, from the White Earth, and the article of ball put up by the boys was fast and full of ginger.

The first game was played in the afternoon and resulted in a victory for Red Lake Falls by a score of 3 to 2. The game was a close one from start to finish and was anybody's contest to the end.

The evening game was a hair-raiser and resulted in Crookston's favor by a score of 2 to 1. The one score for Red Lake Falls was made on a nice clean home run hit by Pokezwinski, and with two or more men on bases at that stage the hit would have won the game. Emerson pitched most of the last game also and only allowed the Crooks a few scattered hits.

The locals will play with Thief Falls at that place Sunday afternoon and a big crowd will likely go up from here. It is reported that Thief River will have Dahlgren, Warren's star pitcher, and several other fast league men and if they do the game will surely be a good one.

Lightning Does Damage.

During the heavy thunder storm of last Sunday evening, lightning struck a vacant house belonging to J. W Bourdon, on Chanpagne avenue, and set a fire to it. The blaze was discovered by some girls across the street and an alarm was turned in; the department responding promptly. The fire had started on the roof and by the time water was at hand had gained considerable headway, although the chemicals held it down fairly well. As soon as the water was turned on quick work was made of the fire, and it was soon under control. The damage to the building is quite heavy, however although not a total loss by any means. The manner in which the houses are bunched together in that neighborhood, made it look like a big fire in store for a while, but the Red Lake Falls fire department again proved its superiority as master of the fire fiend.

Notice of Summer School.

A four weeks' teachers training school commencing July 1 will be held at Red Lake Falls in the High School building:

Prof. C. S. Yeager, conductor, A. M. Dunton, Marie Ring and Mary Gardezner, instructors.

RED LAKE FALLS, MINNESOTA

NEWS OF WEEK SUMMARIZED

IMPORTANT EVENTS AT HOME AND ON FOREIGN SHORES BRIEFLY TOLD.

Washington.

The vacancy in the isthmian cana commission caused by the early retirement of Purchasing Agent Ross wil not be filled. Gen. McKenzie, chief o engineers, will probably be assigned to the work.

The report on the operations of the rural mail delivery service to June 1 last shows that since May 1 there has been an increase of 177 in the number of routes, there being 37,741 routes now in operation, which are served by 36,566 carriers. All these routes are served daily except 643, on which service is rendered tri-weekly.

The Twenty-fifth infantry, one of whose battalions figured in the Brownsville incident, was ordered to sail for the Philippines from San Francisco on the transport Buford July 25. Their going will remove practically all the negro troops from the United States, only a few cavalry men being left at West Point.

Personal.

Miss Julia Magruder, the novelist, died at Richmond, Va., after a protracted illness, aged fifty-one years.

George R. Carter, governor of Hawaii, will not serve another term after the present one, which expires on Nov. 23, is completed.

Former District Judge L. B. France, a pioneer and noted lawyer of Denver, is dead. He was regarded as the foremost authority in Colorado on libel.

Col. James B. Quinn, corps of engineers, in charge of the government river and harbor works at Sioux City, has been retired on account of age.

Among the students who will receive the bachelor of arts degree at Williams college at Williamsport, Mass., is Monroe Benchley Keith of Minneapolis. He will receive the degree with honors.

Gen. Leonard Wood denies reports that have been set in circulation that he is returning to the United States for an operation. It is declared that the general is in good health and remarks to the contrary are merely part of a scheme of his enemies.

Criminal.

Henry Steinbach, aged sixty, a pioneer resident of Baraga county, Mich., committed suicide by hanging in the tower of the school house at Lanse.

Alleged stolen jewelry valued at thousands of dollars was recovered by the New York police and two waiters, Costas Meras and Emmanuel Sardikes, were arrested as suspects.

While pursuing two Montana horse thieves Sheriff Guy and a posse from Johnson county, Wyo., shot and killed one of the robbers who held up a Northern Pacific train at Welch's spur recently.

As a result of a quarrel originating in a love affair Antonio Liotta stabbed Giovanni Faorano to death in the Northern Pacific yards at Tacoma, Wash., where both were employed as section laborers.

Taking umbrage at being called a "nigger," James Hicks, eighteen years old, colored, threw a rock at a passing street car at Indianapolis, striking two girls, and came near being mobbed for his act.

Because his mother had spanked him Calif McCoy, aged fourteen years, shot and instantly killed her at their farm, nine miles north of Bassett, Neb. Fearing she was not dead, he fired a second bullet into her body.

A. J. Wilson, a victim of the morphine habit and who has been a familiar figure in police circles at Billings, Mont., for some time, committed suicide by casting himself from a Burlington train on which he had taken passage for Cody, Wyo.

Charged with having shot and killed Lee Reynolds, a white man, Lee Fox, a negro, was lynched by a mob of about fifty men near Indianola, Miss. Reynolds was shot as he was leaving a hall where Fox had lost considerable money at a gaming table.

Rev. J. Primrose and Rev. A. F. Berkstresser, temperance crusaders, who were released from jail at Frantenac, Kan., after they had been arrested on a charge of selling liquor, were attacked by twenty saloon sympathizers as they were boarding an electric car to leave town and severely beaten.

Casualty.

John Boland was boiled to death at the plant of the Barber Asphalt company at Brooklyn while he was mixing asphalt. Boland's body was found in a boiling vat of tar, where it was evident he had fallen.

A trolley car crashed into an express wagon on the Brooklyn bridge, New York, hurling a heavy trunk over the high railing and sending it to the street, one hundred feet below, where it crushed out the life of Filamanoa Bruno, eleven years old.

Two passengers, a man and woman, were killed and upward of fifteen others were injured at Los Angeles when a city-bound trolley car of the Los Angeles railway jumped the track while rounding a sharp curve at Colorado and Center streets and turned completely over. The car was going at a high rate of speed.

Fannie Mogus, two years old, is dead at Anaconda, Mont., from the effects of drinking carbolic acid.

Six Slav miners were frightfully burned, three fatally, as the result of an explosion in a boarding house at Johnstown, Pa.

Two men were killed and one fatally injured by an explosion in the furnace of the Fore River Shipbuilding company at Quincy Point, Mass.

Mrs. William Monne, while resting her head on a wire clothes line at her home south of Shoals, Ind., was struck by lightning and instantly killed.

The Dempsey Timber company's mill at Tacoma, Wash., just completed at a cost of $250,000 and in operation about three weeks, caught fire and is a total loss.

A large touring automobile was struck by a passenger train at a crossing near Camden, N. J., and the four occupants of the car were thrown out and injured.

Paul Kies, William Stolseben and Nicholas Forret were drowned in the Mississippi at Dubuque by the capsizing of a skiff. Two other occupants were rescued.

The mining town of Dooley, Wise county, Va., was visited by a disastrous fire. A number of residences and business houses were burned, entailing a loss of $50,000.

During a severe thunder storm Joseph Baughy, who lives just east of Nora Springs, Iowa, on Judge Burr's farm, met with very heavy loss by the killing of cattle by lightning.

Foreign.

It is reported that the pretender to the throne of Morocco has again been victorious over the sultan's army.

There is no improvement at Lodz, Russia in the reign of terror and violence which has prevailed since June 2.

In a motor car accident at Edgehull, near Banbury, in Oxford, Eng., a Mr. Johnson of California was killed and a Mr. Blake of Philadelphia was badly injured.

Twenty-eight passengers, including twelve women and children, were drowned by the sinking of the French schooner La Jalouse. The schooner sank off Barbados.

The government of Trinidad has taken energetic measures to stamp out the bubonic plague and has cabled to New York for large supplies of prophylactic serum.

A destructive tornado swept over Karrachi India. Several steamers were driven ashore and hardly a building remains unwrecked. The casualties have not been reported.

A premature explosion of dynamite took place at Pedro Miguel, on the line of the Panama canal, and resulted in the instant death of seven men and the wounding of several others.

M. Jaures, the Socialist leader, will shortly propose in the French chamber of deputies in the name of the Socialist party that a state monopoly of alcohol and sugar be established from July 1.

A stray torpedo struck and badly damaged the German coasting steamer August White as she was passing the practice range at Kiel, Germany. The vessel, which was leaking badly, was docked for repairs.

According to a special dispatch received by the Mexican Herald from its Washington bureau, Secretary of State Elihu Root will visit Mexico in the near future. He will go to Mexico City and will confer with President Diaz.

A steamer whose identity has not been conclusively established went ashore in the Strait of Bertheaume. The boiler blew up and it is feared that all hands were lost. The steamer is believed to be the Yews, a fruit boat from Plymouth for Brest.

While King Peter was out riding at Belgrade, Servia, his horse became frightened and the king was thrown from the saddle. He was badly shaken, suffered from pains in the thigh and returned to the palace in an electric car. His injuries are not serious.

General.

"The green bug" of Kansas is at work in Ohio, and already many fields of oats have been destroyed.

Cromwell Dickson, fifteen years old, made a successful flight at Columbus, Ohio, with an airship of his own construction at the Columbus Driving Park.

An epidemic of smallpox is raging at the Washington state insane asylum. Strict quarantine is being enforced and 1,128 patients have been vaccinated.

The sixty-sixth annual session of the Evangelical Lutheran synod at Roland, Iowa, chose Red Wing, Minn., as the next meeting place and elected Rev. C. J. Eastvold of Jewell, Iowa, president.

Will J. Davis, manager of the Illinois theater in Chicago, and Miss Ellen O'Hagen, his private secretary, were married at Elkhart, Ind. Only a few theatrical friends were present at the ceremony.

A verdict of 25 cents, the price of his ticket, was returned by a jury at Newport by direction of Justice Sweetland in the case of Chief Yeoman Fred J. Buenzle of the United States naval training station, who was excluded from a dancing pavilion last summer because he wore the uniform of the United States navy.

Chicago's "four hundred" was given a surprise when the announcement came from Paris that Miss Italia Blair, one of the richest and most beautiful members of the younger set, had captured a social lion in the person of a Spanish nobleman.

STRONG EVIDENCE AGAINST HAYWOOD

STATE GETS IN LETTERS SHOWING PLAN TO DECEIVE MRS. ORCHARD.

DEFENSE FIGHTS DESPERATELY

TRIES TO SHOW THAT ORCHARD HAD VOWED HE WOULD KILL STEUNENBERG.

Boise, Idaho, June 15. — The men who are battling to save the life of William D. Haywood and the good name of the Western Federation of Miners made their greatest assault upon Harry Orchard yesterday, when, parrying the review by cross-examination of his life of crime down to his confession, they bitterly assailed his guiding motives Six days they spent in stripping him before the jury of every shred of morality, and then, suddenly turning upon him in a final, fierce attack, they fought with every means known to the legal craft to convince the jury that Orchard was committing a crime

In Falsely Swearing

away the lives of innocent men in the hope of saving his own. The carried their attack to the very language with which the witness answered their questions, and everywhere they alleged by forceful implication that it was put into his mouth by men controlling him.

Orchard broke down when the attorneys recited to him the tale of David and Uriah that Detective McParland related to him when he came seeking a confession.

He defended his motives by saying that he finally experienced conversion and had resolved to make all possible reparation by fully confessing all.

Hammered by Richardson.

He said that McParland said he was doing a great service for the state and that states were kind to men who served them. There was no other promise.

"You knew that if you confessed to the Steunenberg murder the state would put you out of the way?" hammered Attorney Richardson.

"Yes, sir."

"But somewhere along the line the thought came to you that you could get out of it by laying it on to somebody else?"

"No, sir; that was not the thought at all."

Was Afraid to Die.

And here it was that Orchard gave a remarkable explanation of the motives that impelled him to confess.

"I thought," he said, "of putting myself out of the way, but I thought over my past life. I did not believe in a hereafter at all, but I was afraid to die, and I thought at times that I had been such an unnatural monster—my crimes had been so great—that I would not be forgiven—"

"Who told you that?"

"No one."

"Who wrote that out for you?"

Inspiration From Bible.

"No one; but after I had been sent a Bible and had read it some I came to the conclusion that I would be forgiven if I made confession of everything."

"So you thought you would make your peace with the future by having somebody else hung, did you?"

"No, sir. I think any man can make his peace with the future if he wants to. I believe it was my duty to tell the truth. I did not see any other way, regardless of the consequences to myself or anybody else. I owed it to society, I owed it to God and to myself"

Immediately Orchard left the stand the state put on three witnesses from San Francisco to corroborate the Bradley poisoning story.

Adams Brought Into Court.

Boise, Idaho, June 16.—The prosecution in the Steunenberg murder trial yesterday, entering in earnest upon the substantiation and corroboration of Harry Orchard's testimony, showed a continuous thread of evidence connecting George Pettibone's store in Denver with Orchard at San Francisco engaged on the Bradley murder plot, partly developed another direct line by which it is hoped to show that Haywood engaged and paid Steve Adams for the same desperate work, and added special touches of confirmation to Orchard's general story.

Officials of the postoffices at San Francisco and Denver produced original records showing that in August, 1904, a registered letter was sent under the name of "J. Wolf" from the address of Pettibone's store in Denver to "J. Dempsey," at the Golden West hotel in San Francisco. Orchard swore that he stayed at the Golden West hotel under an alias that was either "Dempsey" or "Hogan;" that Pettibone used the aliases of "Wolf" and "Pat Bone," and that under the name of "Wolf" Pettibone, in the month mentioned, sent him a registered letter containing $100 to pay his expenses while engaged on the Bradley murder.

Tell of Arrest at Ogden.

Police officials of Ogden established the arrest there in June, 1903, of Steve Adams and A. T. Williams. When released through the influence of a detective they went straight to the office of the Western Union and sent a telegram to Haywood in Denver.

The defense headed off an attempt to get the contents of the telegram before the jury, but the state indicated that it would return to the charge later and further develop the incident when it has broadened its foundation.

Adams Identified.

The state got an order from the court directing the Western Union to produce its records showing that Haywood sent money to Adams at Ogden. When the Ogden testimony was introduced Steve Adams was brought into court under guard to be identified.

Besides its work on the Pettibone-Orchard and Haywood-Adams line, the state produced several witnesses who confirmed features of Orchard's story as to the Bradley affair, the first descent into the Vindicator mine with the object

Of Doing Violence,

the final success of the Vindicator plot, and the circumstances under which Detective Lyte Gregory was killed. Aside from its fight against the admission of all the evidence offered by the state on the general ground that it was in no way connected with the accused, the defense contented itself with showing that all of the witnesses had been located and interviewed by Pinkerton detectives, and that they had been given advances of expense money through Pinkerton agencies.

Strong Evidence Against Haywood.

Boise, Idaho, June 20.—The prosecution in the Steunenberg murder trial offered one of its most important pieces of evidence against William D. Haywood yesterday, when, recalling Harry Orchard for re-direct examination, it introduced and secured the admission of four letters tending to show that Haywood during the fall of 1905, when Orchard swears he was engaged on various crimes for the federation leaders, had participated in a plan to deceive Mrs. Orchard, the second, of Cripple Creek, as to the whereabouts of her husband.

Letters Falsely Dated,

Over a variety of protests from the defense Orchard was allowed to testify that early in the summer of 1905 Haywood told him that Mrs. Orchard was writing him for information as to Orchard's whereabouts. Orchard swore that he proposed that he should write his wife a series of letters that were to be falsely dated and delivered to Mrs. Orchard by agents of the federation.

The letters written by Orchard were commonplace and contained practically nothing bearing on the case or Orchard's testimony, except references to the arrangement which Orchard says he made with the federation officials for the care of his wife while he was absent.

To Show Conspiracy.

The state developed its contention that, as tending to show a conspiracy and knowledge of the Steunenberg crime, Orchard was, without any request from him, furnished with counsel within a few days after his arrest.

The defense examined Orchard on this subject and largely devoted itself to showing that the Western Federation of Miners always provided counsel for its members wherever and whenever they got into trouble.

To combat the theory that Orchard killed Steunenberg in revenge for his loss of a

Valuable Interest

in the Hercules mine, the state on redirect examination obtained from Orchard a declaration that he sold his interest in the Hercules in 1897, two years before the strike and troops came.

There was a long contest over an unsuccessful effort by the state to show that the confession of Steve Adams had been voluntary.

At the opening of the morning session the defense asked Orchard a series of impeaching questions. They all dealt with conversations in which it was alleged Orchard recited his private grudge against Frank Steunenberg and vowed that he would kill him if he hanged for it. Orchard denies every query, both specifically and generally.

Bryce Is Called.

Ed Bryce, once president of the Western Federation of Miners, and now one of the owners of the rich Hercules mine, came after Orchard and was still on the stand when the court rose for the day. He was called to identify the Miners' Magazine as the official organ of the federation and to pave the way for the use as evidence of a great number of articles from the magazine.

JUMP FIRES GUN.

Boy Who Is Shot Loses Arm and May Not Survive.

Black River Falls, Wis., June 16. — Joseph Woldrick, sixteen years old, lost an arm and may lose his life as a result of the accidental discharge of a firearm. The boy was passing through the lumber yard at Millston, near here, and while jumping over a pile of boards the shotgun which he was carrying was discharged, the entire load passing through his arm.

LOST IN SPECULATION.

Banker Admits Misappropriation of $40,000.

Seymour, Wis., June 16.—A defalcation to the extent of $40,000, caused by the allurements of the Chicago wheat pit, is responsible for the arrest of Thomas C. Coghill, cashier of the First National bank of this city, who was taken into custody by a federal officer and removed to Milwaukee yesterday. Coghill has made a full breast of his misappropriation.

MRS. KAUFMANN IS FOUND GUILTY

MANSLAUGHTER IN THE FIRST DEGREE IS VERDICT OF THE JURY.

GREAT SHOCK TO DEFENDANT

CONFIDENTLY EXPECTED VERDICT OF ACQUITTAL — WILL ASK NEW TRIAL.

Flandreau, S. D., June 22.—Mrs. Emma Kaufmann, wife of Moses Kaufmann, for years a wealthy Sioux Falls brewer, on trial in the circuit court here for the past ten days, charged with the murder of Agnes Polreis, her sixteen-year-old servant girl, last night was found guilty of manslaughter in the first degree. The conviction of Mrs. Kaufmann was a great shock to the defendant, her husband, her son and her counsel, all of whom had confidently expected acquittal. When the fatal words fell from the lips of the foreman of the jury, Mrs. Kaufmann's head sank upon her hands.

Asks for New Trial.

Counsel for the defense gave notice that a new trial will be applied for. This will be argued before Judge Smith at Yankton Oct. 10, who has set Oct. 21 as the date for pasing sentence in the event a new trial should be denied. The bond of $25,000 furnished last June will stand, and meantime Mrs. Kaufmann will be at liberty.

BAD BLAZE AT MASON CITY.

Damage to Property Estimated at $85,000.

Mason City, Iowa, June 22. — Fire starting at 6 o'clock yesterday morning in the rear of the Milnes hardware store completely gutted the building and entailed a loss of $30,000 on the retail and wholesale departments Smoke and water damaged the A. Joseph dry goods store to the extent of $5,000. The buildings of the entire block are owned by the Rule-Gale-Emsley syndicate and the damage to the buildings will reach $50,000.

YOUNG GIRL SHOT DEAD.

Daughter of ex-Senator Gausewitz Receives Bullet in the Heart.

Owatonna, Minn., June 22. — Edith Gausewitz, a fifteen-year-old girl, was shot and almost instantly killed yesterday. She was one of a party of young people who were going to a point a few miles north of the city. One of the party picked up a gun and it was accidentally discharged, the bullet striking the girl in the heart. She was the daughter of ex-Senator William Gausewitz.

FLOOR FALLS WITH MEN.

Hundreds of Barrels Also Go Into River Under Shop.

Janesville, Wis., June 22. — By the giving way of the floor of the cooper shop at Blodgett's mill three workmen and several hundred finished barrels and material for 2,000 more were precipitated into the Rock river. Two men were buried in the debris and badly injured, while a third narrowly escaped drowning.

BADGERS GET INTO LINE.

Senate Favors Popular Vote for United States Senator.

Madison, Wis., June 22.—The senate yesterday adopted a joint resolution placing Wisconsin in the list of the states favoring a constitutional convention of the state for the adoption of an amendment to the federal constitution for the election of United States senators by direct vote.

Killed at New Home.

Black River Falls, Wis., June 22.—A report from Cataract, sixteen miles from here, says that a family named West, who just moved from here were in a runaway accident and Ada sixteen-year-old daughter, was killed and Mr and Mrs. West seriously injued.

Injured Conductor Dies.

Red Wing, Minn., June 22.—Charles H. McGuire of this city, died yesterday at the Osage (Iowa) hospital as a result of injuries received by coming in contact with a telephone wire stretched across the track, which hurled him backward from a moving train.

Man Found Dead in Hotel.

St. Paul, June 22.—Edwin H. Lindsay of the firm of Lindsay Bros., dealers in farm implements, Minneapolis was found dead yesterday afternoon in his bed in the Frederic hotel. Coroner A. W. Miller says that the man probably died of heart failure.

Pushed Off Train.

Blue Earth, Minn., June 22. — Two Winnebago men, Ivan Loft and Jay Wilcox, are under arrest charged with the crime of having seriously injured Bennie Chozen, aged nineteen years of the same town, by pushing him off a passenger train.

Boy Killed by Train.

Ackley, Iowa, June 22.—While driving his cows home from pasture last evening Joe Hatch, eleven years old, was struck by a train and instantly killed.

WHEAT PLUNGER IS NABBED

MILWAUKEE CLERK OF COURTS SHORT $30,000—WILL PLEAD GUILTY.

Milwaukee, June 22.—As a result of plunging in wheat Frank E. Woller, clerk of the municipal and district courts, was arrested yesterday on a warrant charging him with embezzlement on Jan. 2, 1907, of $30,000.

Woller, who will be taken to court to-day, will plead guilty and receive his sentence. He served in his present office about eighteen years.

After his arrest Woller said: "This is of old standing. It extends back six years or more, when I was in the commission business with a Chicago man, and I have been trying to cover my shortage ever since. I don't know how much it is. The controller knows that.

"At the time that wheat took an awful tumble I lost my money as well as the rest."

KILLS COW MAN MILKS.

Lightning Also Melts Pail, but Doesn't Injure Farmer.

Glenwood, Minn., June 22.—A curious freak of lightning is reported from Villard, a village near here. While Harrison Ladd was engaged in milking a cow a terrific storm came up. There was suddenly a blinding flash, a terrible crash and Ladd was thrown violently to the floor of the barn. When he recovered his senses he found that the lightning had struck the cow, killing it instantly. The tin milk pail was melted and there was a hole in the barn where the bolt had made its way to the ground. Ladd was practically unhurt, although he felt a tingling sensation for several hours.

MUST BE RIGHT SIDE UP.

New Rule for Shipping Acid Batteries.

St. Paul, June 22.—Hereafter acid batteries for use in automobiles will have to be packed in boxes so constructed that they will have to be kept right side up and packed in excelsior or some such substance. If they are not so packed the express companies need not receive them for shipment. The objection was based on the claim that when the batteries are broken or overturned the acid runs out and destroys the other material with which it comes in contact.

A change in the classifications to cover this point was ordered by the railroad and warehouse commission.

FASTS 20 DAYS; NO HUNGER.

Dr. Eales of Belleville, Ill., Waits for Appetite to Clamor.

Belleville, Ill., June 22. — Dr. I. J. Eales, who began a fast for twenty days to test his theory that his health would thereby be benefited, completed the stipulated time at noon yesterday. He decided, however, not to eat anything until his appetite demanded food, and will continue to fast until he gets hungry. The fast has reduced his weight from 190 pounds to 170 3-4.

KEEPS FAITH; FIRE RAGES.

Seventh Day Adventist's Action Starts Forest Conflagration.

Spring Brook, Wis., June 22. — A dangerous forest fire has been burning here as a result of the failure of Frank Zinnell to put out a fire in a carload of telephone poles belonging to him. He refused to do anything to check the flames because it was Saturday, he being a Seventh Day Adventist The woods are dry and the flames have spread alarmingly.

DRUNKARD'S AWFUL WORK.

Shoots Two Children, Tries to Kill Wife and Then Kills Self.

Wilmington, Del., June 22.—John Zenne, aged thirty-eight years, late last night shot his daughter Rose, aged two years, his son John, aged six months, attempted to kill his wife and then turned the revolver on himself, blowing out his brains. The two children, the physicians say, cannot recover. Zenne, it is said, had been drinking heavily.

Fifty Thousand in Jewels Stolen.

Paris, June 22. — When Mrs. Otto Steffens, who lives in the first floor of the house formerly occupied by the late Dr. Evans, the well known American dentist, went to her bedroom Monday evening she found her jewel case had been stolen. Her loss is $50,000. Among the articles stolen was a necklace of pearls worth $15,000, another necklace worth $8,000 and a diamond cluster worth $10,000.

Burglary Is Charged.

Bemidji, Minn., June 22. — Sheriff Walsh of Koochiching county has brought to this city Randolf Level, who was bound over to await the action of the grand jury on the charge of burglary. He is alleged to have stolen several articles from the Feldman hotel at Northome.

Saloon Men Adopt "Lid."

Yonug America, Minn., June 22. — The saloons of this place will be closed on Sunday for the first time in th history of the village. The saloonkeepers held a meeting and decided to close on Sundays hereafter.

Young Angler Drowned.

Sioux City, Iowa, June 22. — While sitting on a log, fishing in the Missouri river, Harry Price, fourteen years old, caught his hook in a snag In endeavoring to loosen it, he fell into the river and was drowned.

THE STATE DAY BY DAY

News of Interest.

NORMAL HEADS RE-ELECTED.

Board Makes No Changes in Presidents of Schools.

idge Ell Torrance of Minneapolis was elected president of the state normal school board at the annual meeting held in the office of the superintendent of public instruction at the capitol in St. Paul. He succeeds Alva Eastman of St. Cloud, who declined re-election. The report received from the presidents of the various normal schools of the state showed them to be in a prosperous condition, with an increased enrollment and a general increase in the salaries paid to the graduates.

The board re-elected the presidents of the normal schools as follows: Guy E. Maxwell, Winona; Frank A. Weld, Moorhead; Charles H. Cooper, Mankato; W. A. Shoemaker, St. Cloud, and E. W. Bohannon, Duluth. In their reports to the board the presidents of the various schools named a number of teachers who had resigned or will take leaves of absence for a year, and some of these vacancies were filled by the board, but many of them will be filled later.

The board also arranged for holding the summer school at the normal schools during this summer and apportioned the $30,000 which was appriated by the legislature last winter for this purpose. The St. Cloud normal school receives $7,000 for the summer school, Mankato gets the same amount, Winona and Moorhead gets $6,000 each and Duluth gets $4,000. The regular terms of the normal school close this week, and the summer schools open on June 25, allowing one week between the two terms and making them practically continuous sessions. The summer schools will be in session twelve weeks.

The board took up the matter of repairs at some of the normal schools, principally those at Mankato and Duluth. The last legislature appropriated $5,000 for furnishing the attic of the dormitory at the Duluth Normal and the board adopted a resolution authorizing the resident directors of the schools with the presidents to arrange with an architect for plans and specifications, to obtain bids and to award the contracts, subject to the approval of the president of the board. It is the purpose of the board to push this work as fast as possible in order that the repairs may be completed before the opening of the fall term.

The resident director and the president of the Duluth school were authorized to have the school grounds improved, an appropriation of $2,000 having been made for this purpose by the legislature. They were also authorized to secure plans and bids for the erection of fire escapes on the normal school building and to make a report with their recommendations to the board for action.

The board let contracts for improvements at the Mankato normal school, for which the legislature appropriated $5,000. Otto Nitge was awarded the contract for repairing the roof of the old building and putting in a new slate roof for $1,998.30. He also received the contract for the new steel roof and side walls in the museum for $355, while the contract for installing new cases in the museum was awarded to Odgard & Knoff on their bid of $644. Several other bids for extraordinary repairs were let to various bidders, the total of these contracts being nearly $2,000.

The members of the board in attendance at the meeting, in addition to the presidents of all of the normal schools, were as follows: Judge Ell Torrance of Minneapolis, Judge H. L. Buck of Winona, J. L. Washburn of Duluth, J. C. Wise of Mankato, F. Nye of Moorhead, H. E. Hoard of Montevideo, J. F. Tift of St. James and J. W. Olsen, state superinendent of public instruction. Mr. Olsen was re-elected secretary of the board.

Prizes Offered Eagles.

The Rogers-Brown Ore company of Chicago has secured an option for either a lease or sale on an eighty-acre tract of land on the Cuyuna iron range, near Deerwood.

The option is given by the Orelands company and runs for one year. The land may be taken at any time during the life of the option for $25,000 cash, or on a fifty-year lease. The royalty to be paid is 25 cents per ton for ore under 60 per cent metallic iron and 30 cents per ton for all ore over 60 per cent. The mining output for any one year under the lease is to be 100,000 tons. It is said that the Orelands company has thoroughly explored the tract and that its drills have uncovered at least 2,000,00 tons of high-grade ore.

The news of the option has caused renewed activity on the Cuyuna range, and considerable work is expected to be started within a short time.

Acting under the decision of the state supreme court, the officials of Rosemount have declared for the enforcement of the state liquor laws, and Sunday morning found the city under a lid. The enforcement of the law met with quite general satisfaction.

The Commercial club of Cass Lake has concluded arrangements with Messrs. Kenfiels & Lamoreaux of Washburn to establish a large box and crate factory on the old Scanlon-Gibson Lumber company mill site on Pike bay, adjoining the village.

DAIRYMEN ORGANIZE

Will Market Their Own Products and Cut Out Middlemen.

The Minnesota Co-operative Dairies association, an organization through which the constituent members intend to market their products, saving to themselves the commissions, amounting to several hundred thousand dollars a year, was organized at a meeting held at the old capitol in St. Paul. The members of the association will ship their butter to a central exchange to be maintained by the organization, probably at Chicago, from which the butter will be placed in the markets of the East.

According to Robert Crickmore of Owatonna, secretary of the new organization, it is estimated that the buttermakers of this state last year paid to commission men between $1,250,000 and $1,500,000 in commissions for handling the state's output of that product. Just what proportion of this business was done by the co-operative creameries of the state is not known. As there are 681 co-operative creameries in the state, the saving of those who join the association will amount to a very considerable sum each year.

Another purpose of the organization is the establishment of a grade of butter to be known as "Minnesota Standard," which will represent the best product of the state, and with the established reputation of Minnesota as a butter producing state it is believed that in time this brand of butter will demand a higher price than can be obtained at present. On the theory that it is by their untiring efforts that Minnesota has attained its high standing as a butter state, the men who make the butter think they ought to obtain some advantage from this condition, and the co-operative selling plan has been picked out as the one most likely to succeed. The last legislature passed a law authorizing the incorporation of such an organization.

The meeting was attended by representatives of about fifty co-operative creameries. J. R. Morley of Owatonna acted as temporary chairman and explained the aims of the organization. The draft of the constitution and by-laws, which was prepared at a meeting of the creamery men in St. Paul some time ago and sent out to the creameries for their consideration, was adopted with practically no changes. The constitution provides that none but co-operative creameries may be members of the organization. It provides for the annual stockholders' meeting on the last Wednesday in February and for regular monthly meetings by the board of directors.

The general nature of the business will be to receive and sell all products of any manufacturing or agricultural co-operative association in the state and to buy and sell the same kind of products of any individual, and to that end it will have power to establish stores and agencies and other instrumentalities. It may take on consignments at such points as the directors determine so much of the products manufactured, produced or dealt in by any agricultural or co-operative association holding stock in the company as are consigned to it, and will have the power to dispose of the same to the best advantage, and shall immediately thereafter remit to the consignor 95 per cent of the proceeds arising from the sale.

The directors are to select the point at which will be established a central exchange, to which the members will ship their butter for marketing. The board will also appoint the general manager, who will exercise the full authority of the directors in conducting the business in accordance with the rules and regulations thus established by the organization. It is expected that this central exchange will be located in Chicago, as that point is nearer to the Eastern markets, which the members desire to reach.

The following officers were elected for the first year of the company's existence: J. R. Morley, Owatonna, president; Even Evenson, Litchfield, vice president; Robert Crickmore, Owatonna, secretary, and Andrew French, Plainview, treasurer. The board of directors consists of the president, the vice president, the treasurer and J. F. Lamb of Stewartville, A. D. Stewart of Redwood Falls, Charles A. Morse of Sauk Center, August Loegering of Long Prairie, Charles Soley of Maple Plain and Chris Twale of Kenyon. The officers were elected at a meeting of the board of directors after the general meeting.

The work of putting the business plans of the organization into operation was left with the directors. While only fifty of the co-operative creameries were represented at the meeting it is expected that this number will be greatly increased as soon as the organization becomes known and that after the business has been in operation for a while there will be a still greater increase in the membership.

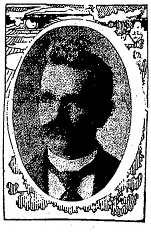
Secures Cuyuna Tract.

The Winona Eagles are arranging for a grand street illumination in connection with the state convention to be held at that place on June 25 and 26. A number of special prizes have been offered to secure a large attendance. These include awards to the aerie registering the largest number of members at headquarters; to the aerie accompanied by the most ladies, who must register at headquarters; to the aerie represented at the convention from farthest distance in the state.

TO KILL WILD MUSTARD.

State Experiment Station Will Spray It With Iron Solution.

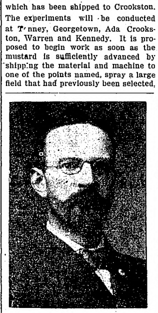
The Minnesota agricultural experiment station will undertake, within the next ten days, a number of experiments on a large scale of killing wild mustard by spraying the field infected with a solution of sulphate of iron.



C. N. COSGROVE, LE SUEUR,

Elected secretary of the State Agricultural society.

The American Steel and Wire company of Chicago has donated for this purpose 60,000 pounds of sulphate of iron, which is now at Grand Forks, N. D., and an especially designed spraying machine imported from Germany, which has been shipped to Crookston. The experiments will be conducted at T'nney, Georgetown, Ada Crookston, Warren and Kennedy. It is proposed to begin work as soon as the mustard is sufficiently advanced by shipping the material and machine to one of the points named, spray a large field that had previously been selected, load the material and equipment on the first train and ship to the next point and so on until all fields are sprayed.



W. J. ANNON,

Postmaster of Anoka.

These fields will be carefully watched and visited by experts several times during the summer, and the conclusions based on the observations distributed among the farmers of the state.

Since wild mustard is a serious menace to the growth of cereals in many places, these experiments will be watched with great interest.

GEORGE W. SCHERER, MANKATO,

Elected grand master of the grand lodge of Odd Fellows.

The sessions of the teachers' summer training schools commenced Monday at the state university and at the county seats, in which sessions of six weeks will be held. The county summer schools which opened yesterday were at Windom, Warren, Little Falls and Rochester. In the counties in which the summer schools will last only five weeks the terms will open next Monday, and where the terms are for four weeks they will open the following Monday. The summer school terms at the normal schools open on June 25.

In Minnesota

State News of the Week Briefly Told

The people of Benson are making plans for holding a big celebration on July 4.

Ole C. Larson, sheriff of Becker county, committed suicide by shooting himself at Frazee.

A baseball league is being organized among the churches and in the Y. M. C. A. of Brainerd.

The St. Peter council has revoked the license of E. A. Jellison, a saloonkeeper, for selling to minors.

Robbers broke into the postoffice at Twin Valley and blew open the safe, getting away with several hundred dollars' worth of stamps.

Twenty deaths from cerebro-spinal meningitis have occurred in Minneapolis within the last month, and the health authorities consider it is epidemic.

Henry Teeter, an employe of the Nicholas-Chisholm Lumber company of Frazee, was held up and robbed of $5.75 in the yards of the company by two masked men.

Judge Ellwood of Pine River fined Roy Peterson, a young man, $25 or thirty days in the county jail for stealing whisky. He was unable to pay and was taken to jail.

The residence of W. J. Cummings, superintendent of the Nicholas-Chisholm Lumber company of Frazee, was entirely destroyed by fire. The loss amounts to about $2,500.

William Ruff of Good Thunder was found dead in his room at the Transit house in St. Paul. One of the gas jets in the room was open. The coroner decided that death was accidental.

An overturned lamp caused a fire at Browerville which destroyed the hotel, a saloon, a barber shop and a hardware store, causing a loss estimated at $6,000. There is a partial insurance.

The dwelling belonging to Mrs. Durham at Millersburg was struck by lightning and completely destroyed by fire. Mrs. Dunham lived in the house alone and barely escaped from the building. The loss is about $1,200.

Miss Eleda Felsted of Winona has resigned her position as a teacher in the Winona public schools to go to Omsk, Western Siberia, to become private tutor to an American boy there.

Peter Matieson, partner of John Johnson, who was murdered near Ten Strike in February, 1907, has confessed at Bemidji that he committed the crime. Matieson was recently captured at Spokane, Wash.

The body of Henry Will, who was drowned at Anoka while skating last December, was found last week by Dan Anderson near the Pleasant street bridge. His overcoat and skates were on. He was ten years old.

An injunction suit has been brought at Brainerd by the town of Rabbit Lake to prevent the collection of an assessment of $738.76 against the town for alleged benefits to roads by reason of the construction of Ditch No. 11.

E. E. Miller of St. Peter, secretary of the Nicollet and Le Sueur Counties Game league, has received a consignment of 2,000,000 pike fry from the state game and fish commission. The minnows will be "planted" in Lakes Emily and Jefferson.

A party of five campers on Hunter's island, near Ely, had a narrow escape from death from ptomaine poisoning, supposed to have resulted from eating canned goods. Before they became too weak they managed to catch a logging train for Ely, where medical aid relieved their sufferings.

The grand jury at Buffalo returned four indictments against Mary Linderholm, who, it is alleged, strangled her newly born infant, and she was indicted for murder in the second degree. It is understood she will plead guilty and invoke the mercy of the court.

W. S. Robinson, an old resident of Aitkin, was badly hurt while working on a Northern Pacific construction train, in attempting to make what is known as a flying switch. The train caught him and mangled both legs from knees to hips and broke his shoulder and injured his head.

Frank Brown, a young farmer of Buffalo, was viciously attacked by a boar while climbing into the pen. He had thrown one leg over the fence when the boar rushed at him, ripping his limb badly. The flesh near the knee was penetrated about two inches in one place and several other bad wounds were sustained.

There will be no more Sunday ball playing on the fair grounds just outside of Albert Lea, as Judge Kingsley has made permanent the injunction secured a fortnight ago. The court held that it is clearly unlawful to play ball anywhere on Sunday, and the decision also makes hunting, fishing, running launches, etc., offenses under the Sunday observation statute.

The explosion of an air-compressing supply tank at the thresher company at Stillwater caused the injury of three men. The main floor of the machinery building was blown upward by the force of the explosion. The flying boards struck several men.

August Hendrickson was probably fatally injured at St. Paul by being struck by two locomotives. He had just left the round house when he was struck by a passenger engine. He had scarcely time to recover when he was hit by a switch engine. His injuries are thought to be fatal.

KILLED BY FALL FROM AUTO

ST. PAUL MAN MEETS DEATH WHILE RIDING WITH SON OF J. J. HILL.

St. Paul, June 20.—Fred Schroeder, the livery man, was instantly killed shortly after 7 o'clock last evening by being thrown from the automobile of Walter J. Hill, son of James J. Hill, near Syndicate and Summit avenues. His skull was fractured and some of the bones in the man's body were broken.

Mr. Schroeder had accepted an invitation from Mr. Hill for a ride during the afternoon to look at some horses. They visited Minneapolis and they were returning home when the accident happened.

Just what caused the accident has not been determined. One theory is that the machine may have struck some obstruction in the street or have made a sudden lurch, which threw Mr. Schroeder out.

Mr. Hill went to the police station and after explaining the accident to the chief of police was allowed to go home.

Mr. Hill was greatly affected by the shock of the accident. He was too wrought up to make any statement, and until late at night he remained in a highly excited condition.

TOT KILLS HUGE SNAKE.

Rattler Over Six Feet Long Is Fought by Boy With Hoe.

Brentford, S. D., June 20. — "Bud" Frazier, nine years old, has killed a bullsnake, which is believed to be the largest of the species ever killed in this state. It meaasures more than six feet long and is twelve inches in circumference. The boy was in the pasture snaring gophers when he encountered the snake. He had no weapon, but, returning to the house, secured a hoe. With this offensive weapon he returned to the pasture, where the snake was waiting for him. A fierce battle ensued, but eventually the boy with the hoe was the victor.

DENIES WIFE SHOT HIM.

Alleged Abuser of Helpmeet Declares He Wounded Himself.

Butte, Mont., June 20. — Believing that her life was in danger from her husband, whom she says abused her, Mrs. William Garrity, it is alleged, last evening shot and probably fatally wounded him. She then ran across the street and gave herself up to a policeman. She tells a pitiful story of constant abuse to herself and children by the wounded man. Garrity recovered consciousness at the hospital. At first he said that his wife did the shooting, but later he denies this and said that he had shot himself.

THREE DEATHS LAID TO HIM.

Man Alleged to Have Caused Runaway to Be Arrested.

Osceola, Minn., June 20.—A warrant was issued for the arrest of Millman of Victoria, Wis., who is charged with causing the death of Mr. and Mrs. J. H. Connors and Mrs. Emery at St. Croix Falls three weeks ago. Requisition papers were secured and the man will be taken to Taylors Falls and held for trial. The victims were killed in a runaway, which, it is said, was due to Millman's recklessness in driving his own team and frightening the horses attached to the other vehicle.

FIND FARMER DEAD.

Man Evidently Dragged by Runaway Team.

Augusta, Wis., June 20. — August Arndt, a farmer living at Brodge Creek, was found lying dead beside the roadway near here. Arndt had been to town and it is believed that while he was on the homeward journey his team became frightened and ran away. From the fact that the body was much disfigured it is believed that the unfortunate man became entangled in the lines and was dragged to his death.

INSANE OVER RELIGION.

Farmer Becomes Violent and Is Sent to State Asylum.

Harris, Minn., June 20.—Otto Olson, a Swedish farmer living about two miles west of here, went violently insane over religion on Saturday. He was taken into custory by officers and was held until the insanity commission arrived. He was pronounced insane and was taken to the Fergus Falls hospital.

Little Left of Village.

Harlowton, Mont., June 20. — Fire which broke out in Marshall's general store from a gasoline explosion has practically destroyed this village. Loss, $128,000; insurance, $32,000.

Cuts Foot Showing Son.

Janesville, Wis., June 20.—While attempting to show his son how kindling wood ought to be split, Emmett D. McGowan, one of the best known attorneys in the city, chopped off two toes of his left foot with an ax.

Wausau Box Plant Burns.

Wausau, Wis., June 20.—A hot box on the main shaft started a fire which resulted in the total destruction of the plant of the Wausau Box and Lumber company last night. The loss is $50,000, with $43,000 insurance.

Made of Hair.

The hair of rabbits and other animals in Russia is converted into bowls, dishes and plates, which are valued for their strength, durability and lightness. The articles are similar in appearance to varnished leather.

A BOOTBLACK COMPOSER.

He Dedicates a March to Philadelphia's Mayor.

"His Honor, the Mayor" is the title of a new march written by Frank, the Italian bootblack in the Philadelphia city hall, and dedicated to Mayor Reyburn.

Frank intends to whistle it for him while the mayor is on his way to his office. It is said that the tune is something like "Hark! Hark! the Dogs Do Bark."

Those who have heard the march say that it is a splendid compilation of themes—a sort of tone poem of the Reyburn administration to date. The only criticism of it is that the tempo of the opening bars, which are in the major key, is a little too swift for the mayor's pace.

Getting back into the major key after some minors once more, the march closes with an adaptation of the celebrated "Laughing Song," the words of which are:

Oh, I could not keep from laughing,
Ha, ha, ha, ha, ha, ha!

PURIFIED LIFE INSURANCE.

Benefits from New Law, Which Remains Substantially Unchanged.

Through the influence of Gov. Hughes, the New York Legislature decided to make no radical changes in the new insurance law. It was pointed out by Gov. Hughes that the New York law has already accomplished widespread reforms, with proportionate benefits to policyholders, and that it should be given a thorough trial before any amendments were seriously considered. It is estimated that the cost of the mismanagement of the past did not average more than 20 cents to each policyholder, while the benefits to present and future policyholders will amount to many times more and be cumulative besides. The speed craze of the big companies and the excessive cost of securing new business was the most extravagant evil of the old managements. Under the new regime the cost of new business has already been greatly reduced, along with other economies.

The showing made by the Equitable Life Assurance Society in its report for 1906 was a strong argument against meddling with the new law. In the Equitable alone there was a saving of over $2,000,000 in expenses, besides an increase in the income from the Society's assets amounting to as much more. The ratios of the Equitable's total expenses to its total income was 19.42% in 1904, 17.38% in 1905, and only 14.48% in 1906. The dividends paid to Equitable policyholders in 1906 amounted to $7,289,734, which was an increase of more than 9% over 1905.

While the Equitable made a better showing than any other big company, all reported radical economies and under such conditions the Legislature wisely decided to leave the law substantially as it stands.

CHARACTER IN HANDCLASPS.

A Few Notes Taken by the Observant Person.

Those people who clasp their hands with two fingers between the thumb and finger instead of the usual one are probably very deceitful. To lay the left hand flat in the lap and clasp the right firmly over is a sign of obstinacy. Business capacity is shown if the left fingers are curved inward. To clasp the hands together very tightly, running the fingers down as far as they will go, shows, it is said, that the character is sincere, but if the left thumb be uppermost and the right little finger concealed in the left palm, a secretive nature, though not one necessarily untruthful, is denoted.

Thoughtfulness and consideration for the feelings of others are shown if when the elbows are placed on a desk or table the thumb and first fingers are clasped tightly. A keen intellect and great self-confidence are possessed by the man who interlaces his fingers and then places his hands, palm downward, flatly on his knees. To clasp the hands in the ordinary way, with the right thumb uppermost, shows that one is born to rule. If the left thumb comes uppermost, the owner is born to be ruled, says Woman's Life. When the hands are allowed to lie loosely on the knee, with each set of fingers joined and barely touching each other, it shows weakness of character and indecision.

WENT TO TEA

And It Wound Her Bobbin.

Tea drinking frequently affects people as badly as coffee. A lady in Salisbury, Md., says that she was compelled to abandon the use of coffee a good many years ago, because it threatened to ruin her health and that she went over to tea drinking, but finally, she had dyspepsia so bad that she had lost twenty-five pounds and no food seemed to agree with her.

She further says: "As this time I was induced to take up the famous food drink, Postum, and was so much pleased with the results that I have never been without it since. I commenced to improve at once, regained my twenty-five pounds of flesh and went some beyond my usual weight.

"I know Postum to be good, pure, and healthful, and there never was an article, and never will be, I believe, that does so surely take the place of coffee, as Postum Food Coffee. The beauty of it all is that it is satisfying and wonderfully nourishing. I feel as if I could not sing its praises too loud." Read "The Road to Wellville," in pkgs. "There's a Reason."

Scott's Emulsion strengthens enfeebled nursing mothers by increasing their flesh and nerve force.

It provides baby with the necessary fat and mineral food for healthy growth.

ALL DRUGGISTS: 50c. AND $1.00.

Red Lake Courier

BY JOHN E. KING
SAM S. HAISLET, LOCAL EDITOR

Printed Every Thursday at Red Lake Falls Minnesota.

OFFICIAL PAPER RED LAKE COUNTY
OFFICIAL PAPER RED LAKE FALLS CITY

$1.00 Per Year in Advance

THE Hibbing Tribune thinks "Bob Dunn will make the best governor and the poorest candidate in Minnesota."

THE fellow who started the rumor that the glacial period is returning had better stay in hiding. His reputation as a prophet is in jeopardy.

THEY seem to like Governor Johnson down in staid old Philadelphia. but that is no astonishing news. The governor makes good everywhere.

RED LAKE FALLS is receiving a fine bunch of compliments from the press of Northern Minnesota. The tournament was worth all that it cost and more in the advertising the town is getting.

COMMENCING the first of next year there will be no quarantine in Minnesota for small pox, the state board of health considering it not a dangerous disease if a person has been vaccinated.

HARRY E. IVES has leased his St. Hilaire Spectator to James H. Cross formerly in the newspaper business at Grand Rapids, and gave possession this week. Harry does not announce his future intentions, but it is hinted in some quarters that he intends doning a plug hat and prince Albert and selling lightning rods or some other equaliy as useful commodity. Mr. Cross has the reputation of being a good newspaper man and will without doubt give the St. Hilaire people a good newspaper.

BADGER.

Edward St. Yves of this place accompenied by Henry Laurent of Terrebonne visited at Crookston over Sunday returning Monday morning.

During the storm Monday morning, lightening seems to have struck at different places in the neighborhood, doing some damage and killing animals.

Messrs. Delore Champeau and Laurent and families drove to Maple Lake Sunday and reported a jolly time during their short stay.

Alfred Pontfriend and family from Red Lake Falls and Moses Ducharme and lady from Perrault visited at the Damasse Lachance home Sunday.

Mr and Mrs. Reope'le of northern Badger visited at the Joe Ducharme home, the latter being very sick.

Most of the people from this place attended the fire tournament at Red Lake Fails and enjoyed it immensely.

William Cartier. of this place, who has been bothered with appendicitis for the past several months is seriously sick.

Mr. aud Mrs. Phil Demeras visited at the home of Wilfred Gervais of Terrebonne Sunday.

Mrs. Ovila Robillard is also numbered among the sick this week. Her many friends hope for an early recovery.

Noiseless Loom.

The locm whose busy shuttle is proverbial, is to become silent. A mechanism has been invented which propels the shuttle noiselessly, accross the shod, obviating the pricking motion that makes the whirrlng sound. The new device works on much the same principle as does an orange seed shot out from between the thumb and finger by pressure. The superior quality of golden grain belt beer makes it the ideal home beverage. It is pure, delicious and nourishing. Order of your nearest dealer or be supplied by Aex Thompson, Crookston.

BIDS WANTED.

Sealed bids will be received by the board of county commissioners in and for the county of Red Lake and state of Minnesota, at the court house in the city of Red Lake Falls in said Red Lake county, until 3 o'clock p. m. on the 8th day of July, A. D. 1907, for the purchase of Red Lake county refunding bonds in sum of $10,000.00 to run for a period of ten years, stating the rate of interest and the premium, if any.

A certified check in the sum of $1000.00 must accompany each bid, conditioned for faithful performance. The said board reserves the right to reject any and all bids.

JOHN B. O'BRIEN,
[Seal] County Auditor and
Ex-officio clerk of the Board,
Red Lake Falls, Minn

PROPOSALS WANTED.

Proposals will be received by the Board of Auditors of Red Lake county Minnesota, until 3 o'clock p. m. July 8th, 1907, stating the rate of interest which would be paid on monthly balances of county funds subject to check and payments at all times on demand and the rate of interest which would be paid on such funds or any part thereof, when deposited for any certain length of time and the security which would be given therefor.

BOARD OF AUDITORS
of Red Lake county
Red Lake Falls, Minnesota.
Dated June 20, 1907

The medicine that sets the whole word thinking,
The remedy on which all doctors agree
The prescription all your friends are taking is
Hollister's Rocky mountain Tea.

A. L. Reichert.

"TORPEDO BOATS BY POST."

Effective Little War Vessels Propelled Without the Aid of Steam.

A torpedo boat that can be sent on by rail to the port where it is most required opens up possibilities which naval experts have never contemplated. Yesterday morning the king witnessed a trial of the new motor Yarrow torepdo boat, one of the most extraordinary vessels that have ever been placed on the navy list.

The idea of a boat drawing little water and capable of being navigable in shallow waters originated with the admiralty, who approved of the scheme to make these vessels propelled by internal combustion in preference to steam. The result of the experiment was seen recently from the deck of the Victoria and Albert.

The new vessel carries two torpedoes, weighs eight tons and measures sixty feet in length and nine feet in breadth. Her horse power is 300 and the advantage the petroleum craft has over steam may be gauged from the fact that her range of effectiveness, i. e., the distance she can go without recharging, is 600 miles, as against a steam vessel's 100.

Apart from the enormous value as a method of river defense there is a novel interest in the possibility of "torpedo boas by post."

Complies with the pure food laws of every state

CALUMET BAKING POWDER

HEALTH Calumet is made of the finest materials possible to select, and makes light, easily digested Bread, Biscuits or Pastry; therefore, it is recommended by leading physicians and chemists.

ECONOMY In using Calumet you are always assured of a good baking; therefore, there is no waste of material or time. Calumet is put up in air-tight cans; it will keep longer than any other Baking Powder on the market and has more raising power.

CALUMET is so carefully and scientifically prepared that the neutralization of the ingredients is absolutely perfect. Therefore, Calumet leaves no Rochelle Salts or Alum in the food. It is chemically correct.

$1,000.00 given for any substance injurious to health found in Calumet

THE VALUE OF GOOD COWS

Few Farmers Realize the Income Which May Be Realized from Them.

Prof. Eckels, in charge of the department of dairy husbandry at the University of Missouri, says of the value of good cows:

"Very few farmers realize the income that can be had from a good cow. The farmer who keeps a cow a year to raise a $15 or $20 calf, usually thinks he has done well, but his profits do not compare with those of the dairyman. Except with the high-priced registered cattle, the milk, not the calf, is the most valuable product of the cow.

"The milk produced by the average Missouri cow in a year will sell for about $50 at the creamery or when made into first-class butter. A good cow of the dairy breed will make at least $50 cash income every year. I have a list of about 50 Missouri farmers who report a cash income of $50 to $100 a cow every year, and these figures do not include the income from the sale of calves, and pigs fed on the skim milk. 'But,' says one, 'milking is a tremendous task.' As a matter of fact, it takes only 60 hours, worth 15 cents an hour, to milk a cow twice a day for ten months.

"Last year the cash income from the herd of cattle on the college farm was $82.50 a cow for butter sold and $12.50 a cow for milk, skimmed milk and calves, making a total income from each cow of $95. This year the average income per cow from the same source will be over $100 for the entire herd of 28. These results do not come from expensive or excessive treatment of any kind. But they are the result of doing the right things at the right time in the proper way."

CHICAGO'S FREIGHT SUBWAY

Will Furnish Facilities for the Best Underground Mail Service in the World.

Far below the surface of Chicago's streets scores of electric locomotives are pulling freight trains that are taking thousands of tons of coal into the boiler rooms of skyscrapers, without dirt, noise or sign of effort in the street, says the Scientific American. They are removing tons of ashes, and caring for the excavations from the basements of buildings in course of construction. More than this, they are hauling daily thousands of tons of freight which was formerly carried over the pavements in wagons. On February 15, 1905, the company entered into a contract with the government under which all Chicago's second, third and fourth-class mail matter will be transferred from the railway stations to the new post office through the tunnels. A further plan to utilize the tunnel for mail purposes involves the building of chutes connecting the street corner mail boxes with boxes in the tunnel, where the mail can be collected by cars. When the new schemes are perfected and added to the present pneumatic tube service for first-class mail, Chicago will have the most perfect underground mail facilities in the world. Eight hundred and eighty tons of mail will be handled in the tunnels daily, in special locked United States cars. The system will be in operation by June 1.

Without noise, dirt, smoke or the slightest delay to traffic. the central business district of Chicago has been honeycombed with these tunnels. Twenty-eight miles already have been constructed, and extensions are projected.

OUR SHARE OF SIMPLON.

Drill That Made the Plan Possible Was Invented by an American.

To the great Alpine tunnels we have, of course, contributed nothing in money and probably nothing in labor. It is not probable that an American was employed in any of them. But we did contribute the original invention which enabled the Mont Cenis to get through even in 13 years, the St. Gothard in nine, and the Simplon in less than seven, says a writer in the Chicago Inter Ocean.

J. J. Couch, an American, in 1849 made the first machine rock drill. He was the first man in all the world to substitute steam or other mechanical power of human muscle in such work. The use and adaptation of his invention was slow in spreading. In 1857 it was so little known that work began on the Mont Cenis tunnel with hand drills, and machine drills were not used on the Italian end until 1860, or on the French end until 1862.

The American inventor made the Mont Cenis tunnel commercially practicable. He shortened the time of such works all over the world. He made the Simplon tunnel possible in less than seven years.

That is the American share in the great engineering work whose completion Europe is now celebrating.

Tragedy in Indiana.

Fort Wayne, Ind., March 11.—Joseph Jobst, 44 years old, a driver of a brewery wagon, shot his wife Friday and then committed suicide. The woman will live. She had applied for a divorce from Jobst.

Editor Munn Dies.

New York, March 13.—Henry Norcross Munn, editor of the Scientific American, is dead at his home in this cty. He was a member of the firm which publishes that paper.

A Record Price.

New York, March 13.—A seat on the New York stock exchange has been sold for $82,500. This is the high record price. The name of the purchaser is not disclosed.

POINTER FOR TOURISTS.

Pack Your Prayer Book on Top, but Don't Be Free With Your Cigars.

"If you ever go to Bermuda, I can tell you how to make time at the custom house," said a returning New Yorker. "I reached Bermuda early in the morning. I made up my luggage rather hastily before leaving the ship.

"Just as I was ready to close my suit case I noticed that I had left my prayer book on the lounge. I pitched it in rather unceremoniously, strapped down the case and hurried ashore.

"You don't have to wait to declare as you do when coming into the port of New York. As I stepped into the office of the Johnny Bull official I unstrapped my case and opened it up. The official talked at me as if I had been a telephone.

"'Hello,' hesaid, the first thing. 'What's this?' he asked, picking up my prayer book. 'Prayer book, eh? All right. Shut up your case.'

"'No, you're all right, my friend. Any man who will put his prayer book on top of his traps isn't likely to beat the government. I'll take that for your declaration.'

"I threw him half a dozen cigars. That's where I made my mistake.

"'Got any more like these in that case?' asked the official.

"I said I hadn't, but do you know he wouldn't believe me. and I had to open up the case again, and he went through it as if he thought I was a smuggler."

RIDING ON A SURF BOARD.

Hawaiian Beaches Afford a Sport That Is Not Known Elsewhere.

At Waikiki, near Honolulu, is a famous bathing beach. Here winter and summer the surf canoes, or, better yet, the surf boards, come dancing in on the long rollers and men become amphibious.

There is no sensation quite comparable to riding a surfe board on a Pacific roller. It is tobogganing on a moving hillside of water, or, if you are clever enough to stand up on four board, it is taking this hillside on a single big ski. The beach runs far out before it shelves into deep water, and the breakers begin to mount almost half a mile, at high tide, from the shore line. You go out there with your surf board and wait for the wave.

You learn to catch it at the right moment, throw your board inshore, and climb upon it just as the crest of the roller mounts and catches you. Then, on this crest, you sail in toward the shore, to slide down at last when the wave breaks, down the foaming incline into shallow water and churning foam. It is royal sport.

An Embarrassing Gift.

Dr. W. G. Grace, the famous English cricketer, has been the recipient of many gifts from lovers of cricket as tangible proofs of their admiration of his prowess. Some of them have been remarkable in character, but perhaps the most embarrassing gift he ever received was one of three young pigs which a Worcestershire farmer sent to him in recognition of a great batting feat which he had witnessed.

Comfort Better Than Style.

A man went into a men's furnishing store in Grand Haven recently to buy a shirt, and the clerk inquired if he wanted one with or without a collar. "Give me the kind without a collar," the purchaser said. "The collar hurts my neck when I go to bed."—Grand Rapids Press.

Suggestive Names.

The Coxcomb mountains of British Honduras, to some extent an unknown part of the famous Mahogany coast, are undergoing a process of christening which will identify them for all times with the begining of the twentieth century. One range has just been named the Queen Alexandra mountains, another range takes the name of the Prince of Wales, and a 4,000 foot peak has been named Mount Joseph Chamberlain.

Origin of "Grass Widow."

Grass widow is a term derived from the French word "grace," meaning courtesy, and has nothing to do with the English word "grass."

Winnipeg Fair
July 13-20, 1907

Highest Wheat Prizes in Canada.

Come here for your Hardware Supplies of all kinds. We can save you money at every turn.

Leading Hardware G. A. KANKEL Red Lake Falls.

In the Local Line

Go to the Merchants State Bank or real estate loans.

Castello railroad circus here next Monday.

Buy your legal blanks at the COURIER office.

Best line of confectionery, nuts, notions, etc., at Freund's.

Go to Spillane's—The Right Store —for ~~your teas~~ and coffees.

Go to Spillane's for groceries, candies, nuts, fruits, cigars, etc.

Alexander Daoust was in from Lambert on business yesterday.

Don't forget that the Castello circus will exhibit here next Monday.

Go to the circus next Monday, Castello's railroad shows will exhibit here.

Frank E. Hunt was at Brooks several days this week, looking after business interests.

Do you want to know about the Mankato Commercial College? Write for their catalogue. It is free.

The Royal Neighbors will hold their regular meeting Friday evening. All are requested to be present.

Notice—Parties having bills against the firemen for tournament purposes are requested to file them at once with Secretary Fred Borchers.

H. J. Kaufer has his barber and bath fixtures just about packed and ready for shipment to Calgary. He expects to return to that place early next week.

P. O. Floan is absent on an extensive trip throughout the west, and expects to spend a month or more in that part of the country looking over the prospects.

Mrs. I. O. Kaasa and Mrs. T. A. Boyd, of Wendall, this state, are guests at the P. O. Floan home in this city and will remain here for several weeks.

Mrs. E. Carpenter of Grafton, North Dakota, arrived here today for a visit with her cousins, Mesdames S. L. Lewis and M. A. Converse and Miss Lillian Buse.

Dr. Spofford makes his next regular visit to Red Lake Falls July 7. At Grand View hotel. Remember the date if your eyes trouble you.

All those knowing themselves indebted to the undersigned will please call and settle before the 10th as we intend to go to the city to select fall goods at that time. Mrs. C. L. Gray.

Chas. E. Boughton who has been at Warren a couple of days this week trying a case before the district court in session there. He will also try a case before the municipal court at Thief River Falls Friday.

Lost—A long gold watch chain, with slide containing two opals. Was lost somwhere on Main street near third. Finder will be rewarded by leaving same at this office or at the Grand View hotel.

Mr. and Mrs. J. Miller are happy today over the arrival of a fine new son at their home this morning. The young man is a healthy specimen of babyhood and promises to live long as a joy and comfort to his happy parents.

Rev. N. A. Gilchrist, of Crookston will occupy the pulpit at the Presbyterian church in this city next Sunday. The church people have one or two pastors in correspondence and expect to have a resident pastor here within a short time.

A business meeting of the Ladies Aid society of the Presbyterian church will be held at the church parlors next Wednesday afternoon, and as business of importance is to be transacted it is especially requested that all members attend.

Miss Maude Findeisen is expected home next week to spend the summer with her parents and many friends here. Since graduating from the Winona normal, Miss Maude has been visiting with friends in Southern Minnesota and Iowa.

Frank Jeffers, who came in last week to attend the tournament, has been spending this week here, also. Jeff has been doing a good business for the Miller Davis company but when he gets here it is hard for him to pull out to slow old Michigan again.

Thomas Forde returned to his home at Northwood, North Dakota, Saturday evening, after spending tournament week here. Tommy was much impressed with the beauty of Red Lake Falls and promised to return here to spend a Sunday occasionally through the summer.

The railroad agents association of the Northern division will hold their regular meeting at Crookston Friday evening Agent Tracy expects to go down from here and looks forward to a good time. G. R. Martin, comptroller of the Great Northern, will be the principal speaker.

The Richard and Pringle minstrel company held forth at the Met. on Monday evening, and while only a small crowd of people turned out yet they were well pleased with the entertainment. The band and orchestra carried by this company is one of the best ever heard here.

Barber E. A. Nelson received his new shop fixtures this week and is busy getting them in place. He has rented the same building as was occupied by the Kaufer shop and will have a neat shop when he gets things in shape. Ed has made many friends during his stay here, and will without doubt be accorded a fair share of the public's patronage.

A. G. Bjorneby arrived here last Friday from Kalispel Montana, and remained until Monday visiting with his many friends and looking after business interests. Mr. Bjorneby is in the real estate business at Kalispel, and reports himself as having prospered since he left here. Mrs. Bjorneby and the children are enjoying the best of health.

Red Lake Falls has been putting on decidedly metropolitan airs since last week, and now boasts two auto mobiles with more in sight. Joseph Helm surprised the natives Sunday by coming out with a nice Cadallic touring car, and the same evening Sam Gibeau put his machine in commissiom, and the two made the smell of gasoline quite prominent all over town. Both machines are good ones and run nicely. It is hinted that several more of our citizens are contemplating the purchase of "gasoline wagons" this summer, and it is not unlikely that before fall Red Lake Falls will be the home of many machines.

HOT WEATHER APPAREL

We can help you keep cool. Our stock of torrid weather furnishings is replete.

Men's Outing Shirts, in Soisette checked Madrass, $1 to **$2**

Balbriggan Underwear, cool and nice per suit, from 50c to **$1**

Light weight summer Australian wool, derby ribbed, soft, elastic, non clinging Underwear; will wear well; try a suit at **$2**

Union Suits, we have your size at........ **$1.25 $1.50 $2.00 $2.25 $3.00**

A brand new line of Elgin and Wilson shirts; the finest, best finished, perfect fitting Shirts made; roomy, will not draw across chest of corpulent men. $1.00 to $2.00. Cheaper line at 50c and 75c.

Our line will be complete at all times. We intend to keep our stock of furnishings right up to the minute in style. As to quality, this store has been a store of quality first, price afterward.

Theo. LaBissoniere

The Big Store **Red Lake Falls**

Miss Stella Lasha, daughter of Mr. and Mrs. Eli Lasha, of Red Lake Falls township, was married yesterday morning at Grand Rapids to Edward Gravel, a prominent young man of that place. Miss Lasha has a host of friends who will join in wishing her continued success. The young couple expect to come here next week to spend several days with relatives.

The band boys and quite a number of townspeople drove out to Brooks Monday to attend the St. John's day celebration. While the rain of the night before interferred with the pleasure of the day to some extent, nevertheless a good sized crowd was present and a first-class celebration resulted. Quite a number of the band boys returned just after supper, but most of the crowd remained to take in the big bowery dance in the evening.

H. C. Clement, the Terrebonne cheese maker, was a caller here Tuesday, making a shipment of cheese from this point. Mr. Clement had just received returns from the state butter and cheese contest for May 1st, and was informed that his entry had scored 95½ points, a very good showing. Mr. Clement is just receiving a new boiler for use in his factory and as soon as it is installed will have a more modern place than ever. He reports milk receipts as very good now.

The automobile brought here last week by the fellow who was later arrested for horse stealing, has been a bone of contention to several since that time. Sheriff Nelson was given charge of the machine by the North Dakota officers when they left, and was having all kinds of fun speeding about town until Coroner Belair was ordered by some Thief River parties to attach the auto and hold it until further orders. This was done and the machine is at present resting serenely at Guerin's barn pending developements.

James E. Ford left Monday evening for Warren, where he is spending this week as viewer on the new state ditch to be built in that neighborhood. Mr. Ford was last week appointed viewer on several state ditches by the state drainage commission and will be kept busy during the next few months. He will report at Duluth to commence his work as assistant deputy public examiner as soon he finishes at Warren. For the present his family will remain here, and Mr. Ford expects to get home quite often during the summer.

Yesterday at Northwood, North Dakota, occured the marriage of two well known young people who have a host of friends here, when Carl Elmer Peterson led Gina Kaasa to the altar and there pronounced the vows which made them man and wife. The ceremony was performed at the pretty home of Mr. and Mrs. L. O. Kaasa near Northwood, and was witnessed by a large number of relatives and friends of the contracting parties. The young couple will spend this week at the bride's home and expect to return here next week to set up housekeeping in the Morrisette cottage on South Main street. Both young people are very well known in Red Lake Falls. For the past two years Mr. Peterson has been employed on the newspapers of this city and by honest work and good fellowship has earned a strong friendship. The bride was for a year employed as stenographer in the real estate office of V. M. Higinbotham, and during the time she lived here made many admirers and friends by her winning ways. THE COURIER takes pleasure in joining with all the people in an earnest wish that Pete and Gina may ever be as happy as on their wedding day and that misfortune in any guise will forever pass them by.

Rev. H. W. Knox and family left this morning for their new home at Green Bay, Wis., where Rev. Knox will at once assume the pastorate of the Presbyterian church at that place. They went by way of Thief River Falls and will spend today with their friends there, leaving this evening via the Soo line. Rev. and Mrs. Knox have made many friends during their residence in Red Lake Falls, and the best wishes of the people for a long life full of happiness and success goes with them to their new home.

L. P. Berthon left Tuesday evening for his new home at Missoula, Montana, where he will at once commence to get things in shape to open up the new clothing store of Berthon & Armstrong, which will be ready for business August 1. Mr. Armstrong will remain here a couple of weeks longer. The band boys and a bunch of townspeople went to the train to bid old "Pauly" farewell, and it was decidedly hard for his friends to see him go. Paul may prosper and become great in the western field, but he will never find a spot on earth that will seem so much like home again as does Red Lake Falls.

Castello & Co.'s RAILROAD SHOWS

And Great Carnival of Novelties

An Immense and Incomparable Enterprise, Surpassing all Praise and Exceeding the Highest Anticipation of the Most Expectant..........

Will Exhibit at RED LAKE FALLS, Afternoon and Evening next MONDAY........ **JULY 1**

New Acts, New Ideas, Embracing the Greatest Vaudeville Performance Ever Given in this Country.

The Best Leapers! The Best Tumblers! The Best Jugglers! The Best Trapeze Artists! The Only Big Show!

Presenting an Avalanche of Strictly First-Class Novelties.

Admission for this date only, 15c and 25c.

SISTER ROSE.

A STORY OF THE FRENCH REVOLUTION

BY WILKIE COLLINS

CHAPTER VI.

INEXORABLY the important morrow came; irretrievably, for good or for evil, the momentous marriage-vow was uttered. Charles Danville and Rose Trudaine were now man and wife. The prophecy of the magnificent sunset over-night had not proved false. It was a cloudless day on the marriage morning. The nuptial ceremonies had proceeded smoothly throughout, and had even satisfied Madame Danville. She returned with the wedding-party to Trudaine's house, all smiles and serenity. To the bride she was graciousness itself. "Good girl," said the old lady, following Rose into a corner, and patting her approvingly on the cheek with her fan. "Good girl! you have looked well this morning—you have done credit to my son's taste. Indeed, you have pleased me, child! Now go upstairs, and get on your traveling dress, and count on my maternal affection as long as you make Charles happy."

It had been arranged that the bride and bridegroom should pass their honeymoon in Brittany, and then return to Danville's estate near Lyons. The parting was hurried over, as all such partings should be. The carriage had driven off—Trudaine, after lingering long to look after it, had returned hastily to the house—the very dust of the whirling wheels had all dispersed—there was absolutely nothing to see—and yet, there stood Monsieur Lomaque at the outer gate; idly, as if he was an independent man—calmly, as if no such responsibilities as the calling of Madame Danville's coach, and the escorting of Madame Danville back to Lyons, could possibly rest on his shoulders.

Idly and calmly, slowly rubbing one hand over the other, slowly nodding his head in the direction by which the bride and bridegroom had departed, stood the eccentric land-steward at the outer gate. On a sudden, the sound of footsteps approaching from the house seemed to arouse him. Once more he looked out into the road as if he expected still to see the carriage of the newly married couple. "Poor girl!—ah, poor girl!" said Monsieur Lomaque softly to himself, turning round to ascertain who was coming from the house.

It was only the postman with a letter in his hand, and the post-bag crumpled up under his arm.

"Any fresh news from Paris, friend?" asked Lomaque.

"Very bad, monsieur," answered the postman. "Camille Desmouline has appealed to the people in the Palais Royal—there are fears of a riot."

"Only a riot," repeated Lomaque, sarcastically. "Oh, what a brave government not to be afraid of anything worse! Any letters?" he added, hastily dropping the subject.

"None to the house," said the postman—"only one from it, given me by Monsieur Trudaine. Hardly worth while," he added, twirling the letter in his hand, "to put it into the bag, is it?"

Lomaque looked over his shoulder as he spoke and saw that the letter was directed to the President of the Academy of Science, Paris.

"I wonder whether he accepts the place or refuses it?" thought the land-steward, nodding to the postman, and continuing his way back to the house.

At the door he met Trudaine, who said to him rather hastily. "You are going back to Lyons with Madame Danville, I suppose?"

"This very day," answered Lomaque.

"If you should hear of a convenient bachelor-lodging at Lyons, or near it," continued the other, dropping his voice and speaking more rapidly than before, "you would be doing me a favor if you would let me know about it."

Lomaque assented; but before he could add a question which was on the tip of his tongue, Trudaine had vanished in the interior of the house.

"A bachelor-lodging!" repeated the land-steward, standing alone on the door-step. "At or near Lyons! Aha! Monsieur Trudaine, I put your bachelor-lodging and your talk to me last night together, and I make out a sum-total which is, I think, pretty near the mark. You have refused that Paris appointment, my friend; and I fancy I can guess why."

He paused thoughtfully, and shook his head with ominous frowns and bitings of his lips.

"All clear enough in that sky," he continued, after awhile, looking up at the luminous mid-day heaven. "All clear enough there; but I think I see a little cloud rising in a certain household firmament already—a little cloud which hides much, and which I for one shall watch carefully."

CHAPTER VII.

FIVE years have elapsed since Monsieur Lomaque stood thoughtfully at the gate of Trudaine's house, looking after the carriage of the bride and bridegroom, and seriously reflecting on the events of the future. Great changes have pasesd over that domestic firmament in which he prophetically discerned the little warning cloud. Greater changes have passed over the firmament of France.

What was Revolt five years ago is Revolution now—revolution which has engulfed thrones and principalities and powers; which has set up crownless, inhereditary kings and counselors of its own, and has bloodily torn them down again by dozens; which has raged and raged on unrestrainedly in fierce earnest, until but one king can still govern and control it for a little while. That King is named Terror, and seventeen hundred and ninety-four is the year of his reign.

Monsieur Lomaque, land-steward no longer, sits alone in an official-looking room in one of the official buildings of Paris. It is another July evening, as fine as that evening when he and Trudaine sat talking together on the bench overlooking the Seine. The window of the room is partly open, and a faint, pleasant breeze is beginning to flow through it now. Lomaque breaths uneasily, as if still oppressed by the sultry midsummer heat; and there are signs of perplexity and trouble in his face as he looks down absently now and then into the street.

The times he lives in are enough of themselves to sadden his face. In the Reign of Terror no living being in all the city of Paris can rise in the morning and be certain of escaping the spy, the arrest, or the guillotine, before night. Such times are trying enough to oppress any man's spirits; but Lomaque is not thinking of them now. Out of a mass of papers which lie before him on his old writing table, he has just taken up and read one, which has carried his thoughts back to the past, and to the changes which have taken place since he stood alone on the door-step of Trudaine's house, pondering on what might happen.

More rapidly even than he had foreboded, those changes had occurred. In less time even than he had anticipated, the sad emergency for which Rose's brother had prepared, as for a barely possible calamity, overtook Trudaine, and called for all the patience, the courage, the self-sacrifice, which he had to give for his sister's sake. By slow gradations downward, from bad to worse, her husband's character manifested itself less and less disguisedly almost day by day. Occasional slights ending in habitual neglect; careless estrangement turning to cool enmity; small insults which ripened evilly to great injuries—these were the pitiless signs which showed her that she had risked all and lost all while still a young woman—these were the unmerited afflictions which found her helpless, and would have left her helpless, but for the ever-present comfort and support of her brother's self-denying love. From the first, Trudaine had devoted himself to meet such trials as now assailed him; and like a man he met them, in defiance alike of persecution from the mother and of insult from the son.

The hard task was only lightened when, as time advanced, public trouble began to mingle itself with private grief. Then absorbing political necessities came as a relief to domestic misery. Then it grew to be the one purpose and pursuit of Danville's life cunningly to shape his course so that he might move safely onward with the advancing revolutionary tide—he cared not whither, as long as he kept his possessions safe and his life out of danger. His mother, inflexibly true to her old-world convictions through all peril, might entreat and upbraid, might talk of honor, and courage, and sincerity—he heeded her not, or heeded only to laugh. As he had taken the false way with his wife, so he was now bent on taking it with the world.

The years passed on; destroying changes swept hurricane-like over the old governing system of France; and still Danville shifted successfully with the shifting times. The first days of the Terror approached; in public and in private—in high places and in low—each man now suspected his brother. Crafty as Danville was, even he fell under suspicion at last, at headquarters in Paris, principally on his mother's account. This was his first political failure, and in a moment of thoughtless rage and disappointment, he wreaked the irritation caused by it on Lomaque. Suspected himself, he in turn suspected the land steward. His mother fomented the suspicion—Lomaque was dismissed.

In the old times the victim would have been ruined—in the new times he was simply rendered eligible for a political vocation in life. Lomaque was poor, quick witted, secret, not scrupulous. He was a good patriot, he had good patriot friends, plenty of ambition, a subtle, cat-like courage, nothing to dread—and he went to Paris. There were plenty of small chances there for men of his calibre. He waited for one of them. It came; he made the most of it; attracted favorably the notice of the terrible Fouquier-Tinville; and won his way to a place in the office of the Secret Police.

Meanwhile Danville's anger cooled down; he recovered the use of that cunning sense which had hitherto served him well, and sent to recall the discarded servant. It was too late. Lomaque was already in a position to set him at defiance—nay, to put his neck, perhaps, under the blade of the guillotine. Worse than this, anonymous letters reached him, warning him to lose no time in proving his patriotism by some indisputable sacrifice, and in silencing his mother, whose imprudent sincerity was likely ere long to cost her her life. Danville knew her well enough to know that there was but one way of saving her, and thereby saving himself. She had always refused to emigrate; but he now insisted that she should seize the first opportunity he could procure for her of quitting France until calmer times arrived.

Probably she would have risked her own life ten times over rather than have obeyed him; but she had not the courage to risk her son's too; and she yielded for his sake. Partly by secret influence, partly by unblushing fraud, Danville procured for her such papers and permits as would enable her to leave France by way of Marseilles. Even then she refused to depart, until she knew what her son's plans were for the future. He showed her a letter which he was about to dispatch to Robespierre himself, vindicating his suspected patriotism, and indignantly demanding to be allowed to prove it by filling some office, no matter how small, under the redoubtable triumvirate which then governed, or more properly, terrified France. The sight of this document reassured Madame Danville. She bade her son farewell, and departed at last, with one trusty servant, for Marseilles.

CHAPTER VIII.

DANVILLE'S intention in sending his letter to Paris had been simply to save himself by patriotic bluster. He was thunderstruck at receiving a reply, taking him at his word, and summoning him to the capital to accept employment there under the then existing government. There was no choice but to obey. So to Paris he journeyed; taking his wife with him into the very jaws of danger. He was then at open enmity with Trudaine; and the more anxious and alarmed he could make the brother feel on the sister's account, the better he was pleased. True to his trust and his love, through all dangers as through all persecutions, Trudaine followed them; and the street of their sojourn at Paris, in the periolus days of the Terror, was the street of his sojourn too.

Danville had been astonished at the acceptance of his proffered services—found that the post selected for him was one of the superintendent's places in that very office of Secret Police in which Lomaque was employed as agent. Robespierre and his collegues had taken the measure for their man—he had money enough, and local importance enough, to be worth studying. The affairs of the Secret Police were the sort of affairs which an unscrupulously cunning man was fitted to help on; and the faithful exercise of that cunning in the service of the state was ensured by the presence of Lomaque in the office. The discarded servant was just the right sort of spy to watch the suspected master. Thus it happened that, in the office of the Secret Police of Paris, and under the Reign of Terror, Lomaque's old master was, naturally, his master still—the superintendent to whom he was ceremonially accountable, in public—the suspected man, whose slightest words and deeds he was officially set to watch, in private.

(TO BE CONTINUED.)

HAD TO PAY TWICE.

Plight of an Ocean Traveler Who Lost His Ticket.

There was one young man on the steamship New York, says the New York Times, who paid well for his passage. When it came time to present his ticket to the steward it was not to be found. Pockets were turned inside out, trunks were turned upside down, hatbands torn out and a stateroom converted into a wilderness of pillows, bedclothes and clothing.

The unfortunate passenger asked every man, woman and child on the ship: "Have you seen ticket No. 1,601?" Notices were posted on the bulletin board. The next day the passenger lost his identity. Everybody called him "1,601." From that time he was known by his ticket number.

"Have you seen Mr. '1,601,' to-day?" some one would ask. Then a dozen voices would ask:

"Which '1,601,' the man or the ticket?"

After the big dinner Thanksgiving day, Mr. "1,601" gave up the struggle and paid $125 for his passage. This is the way he figured it up:

"I have examined the first and second cabin passengers and know everything they possess. When I state that the New York customs authorities won't get within a few thousands of what is due them I give expert testimony.

"The steerage had 202 passengers in it. It would take me at least three days to examine them, and that would bring me into Sunday, and as we are due Saturday, I guess I'll give it up."

When "1,601" left the pier yesterday he was better known than the purser.

The Meanest Kind of Business.

Very few people among the general public know that a certain class of small brokers and stick and umbrella sellers of London, who have not got regular shops of their own, make quite a living out of the sales of articles left in railway carriages and waiting rooms and subsequently disposed of at auction.

The quality of mercy is not strain'd;
It droppeth, as the gentle rain from heaven,
Upon the place beneath.
—Shakespeare.

Nothing grows so fast as trouble that is nursed.

MAKING THE MOST OF A SMALL WATER SUPPLY

Practical Demonstration of the Possibilities of Irrigation by Means of a Pipe Line—By Prof. R. H. Forbes, University of Arizona.

In semi-arid regions, with their long, hot seasons, a group of trees about the home offers refuge from the fierce heat, relief to the eye, and often, indeed, decides between comfort and misery for those in residence. But a tree once planted must in such a climate be tended and watered faithfully or be lost. It is of importance, therefore, to arrange a means of distribution not only saving of water, but also saving of labor. These facts were impressed upon the writer in the course of a long, hot summer during which, with buckets and hose he laboriously kept growing a score or so of recently planted trees. In casting about for a better way various devices were experimented with. Ditches are necessarily wasteful of water, seepage along intermediate spaces between trees causing considerable loss. On irregular ground, also, irrigation through open ditches is impracticable. Pipe lines with hydrants and hose connections are economical of water, which is by this means applied where it is wanted; but a great deal of time is required in dragging the hose from tree to tree and in irrigating by this method.

A method combining convenience and economy of water was finally observed in use along one of our city streets, although for certain reasons not giving satisfactory results. This idea consisted, simply, in delivering water through small orifices bored at proper intervals in a small pipe line laid along the tree row desired to be irrigated, and connected with a suitable water supply.

If a horizontal pipe line connected at one end, under pressure, with a water supply, be punctured at intervals with orifices of uniform size, a series of streams will issue from these orifices, lessening in the amount of water delivered with distance from the supply. Various factors influence the amount and distribution of discharge and, consequently, the number or orifices in action, in such a system. Roughly speaking, with a given pressure the discharge tends to vary with the square of the diameter of the orifice. Large openings, therefore, sooner exhaust the capacity of the line and the length of the system is lessened. Also, the capacity of the pipe line tends to vary with five halves power of its diameter. A four-fourths of one-inch pipe, therefore, in comparison with a three-fourths-inch pipe tends to carry a little more than twice as much water. With a certain size of orifice, therefore, a larger pipe line greatly lengthens the series of discharges.

The pressure or head, of water at the initial end of the system also affects its length. Through both pipe line and orifices the discharge tends to increase directly with the square root of the head or depth of water supply. The net result of an increase in the supply head therefore is an increase in the length of the line of discharges. In other ways friction affects efficiency. If the orifices are rough, friction is increased, delivery lessened and the system lengthened. If the pipe line is rough inside and contains bends and elbows, friction is also increased, but in this case the supply is lessened and the system made shorter. Grade also is influential. Running down hill increases the head and tends to increase the length of the system. Running up hill has an opposite effect.

During the past three years the writer has used this system for irrigating his own trees, many practical points having suggested themselves meantime. The facilities employed are a well in which the water stands at 90 feet depth; a 3x14-inch pump cylinder operated by a 12-foot geared windmill of a type adapted to the light winds of the region; a 5,000 gallon storage tank on a stand 18 feet high; and perforated pipe lines laid along the lines of trees to be watered. These pipe lines are connected both with the storage tank and directly, at the surface of the ground, with a column delivering water from the pump cylinder to the tank. This connection at the surface of the ground does away, when desired, with the extra lift of about 25 feet to the top of the tank, and, especially in time of light winds, increases the amount of water delivered at the surface to the irrigating pipe lines.

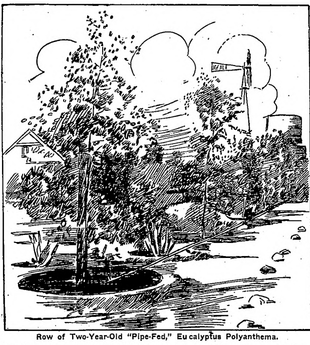
These lines are of three-fourths-inch ordinary black iron pipe laid, with as few bends as possible, up and down hill with the grade, along the lines of trees to be irrigated, and at a distance of one to two feet from them. Each branch of the system is controlled by a valve next to the supply. Opposite each tree a bored coupling is placed in the line. The orifice used is the smallest practicable size, which is 3-32 of an inch. With a little practice, using a vise, a brace, and ordinary twist drills, anyone can make the borings. This work may be reduced more than half by filing a notch midway and crosswise of the coupling with a three-cornered file, and boring in the bottom of the notch. The complete pipe line, with bored couplings, is buried two or three inches below the surface for protection, being exposed in the shallow irrigating basins around the trees. If the line is deeply buried in the soil the orifices cannot be cleaned and are liable to be choked by roots. For convenience of access the orifices are laid to discharge horizontally, toward the trees. For flushing the line a removable plug completes each branch of the system, making it possible to remove rust, moss, or other obstructions getting into the water supply and choking the holes.

When it is desired to close an orifice in order to increase the discharge farther along the line, an ordinary round wooden toothpick is inserted, this device being as effective and convenient as an expensive stopcock. To equalize and lengthen the system, partial obstructions may be introduced at the points of greatest discharge.

Thus arranged, when it is desired to irrigate a row of trees, the valve is turned at the head of the line, the water is slowly delivered, without waste, where wanted.

Delivered in this manner in small, slow streams, the water penetrates deeply into the soil, inducing deep root systems, and lessening loss by evaporation. With the system described above, and a head of about 20 feet of water, the writer satisfactorily irrigates as many as 20 trees at a time along a three-fourths-inch line 600 feet long. With a one-inch pipe and the judicious use of toothpicks, twice to three times as many irrigations could be made along one line.

In order to lessen surface evaporation, various mulches have been tried. The trees experimented with all stand in shallow basins four to six feet across and three to six inches deep, which is a convenient arrangement for mulching. Cultivating the soil about the trees after each irrigation is laborious and not so economical of moisture as a mulch of fine chip dirt or barnyard manure. Either of these loose mulch materials, spread to a depth of two or three inches in the basin around a tree, takes irrigating water readily, does not pack when wet and require cultivation, and greatly restricts subsequent evaporation. To the root system of shallow rooted plants also, these mulches are a protection from the excessive heat of the sun in summer. Aeration of the deep root systems which the small-stream method of irrigation tends to create may, where needful, be accomplished by putting down a hole two to five feet deep, near the tree, with a common post hole digger, then placing a joint or two of old stovepipe in the hole to make it permanent. This device secures aeration with comparatively little exposure of the soil to evaporation.



Row of Two-Year-Old "Pipe-Fed," Eucalyptus Polyanthema.

Pipe line exposed and 3-32-inch jets turned up for display. Windmill and supply tank in background.

SUFFERED TORTURES.

Racked with Pain, Day and Night, for Years.

Wm. H. Walter, engineer, of Chatsworth, Ills., writes: "Kidney disease was lurking in my system for years. I had torturing pain in the side and back and the urine was dark and full of sediment. I was racked with pain day and night, could not sleep or eat well, and finally became crippled and bent over with rheumatism. Doan's Kidney Pills brought quick relief, and in time, cured me. Though I lost 40 pounds, I now weigh 200, more than ever before."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Somewhat Different.

The honeymoon was only a memory.

"On our wedding day," she said, "I was under the impression that you had filled my heart with sunshine."

"Well?" he queried.

"But I find," she continued, "that it was only moonshine."

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

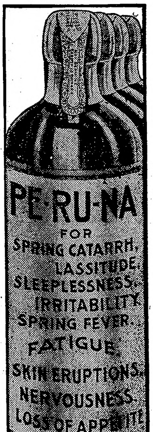
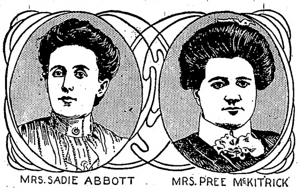
HEALTH NOTES FOR JUNE.



Spring Catarrh is a well defined Spring disease. The usual symptoms are given above. A Bottle of Pe-ru-na taken in time will promptly arrest the course of the disease known as Spring Catarrh.

WORKING WOMEN, WHAT THEY SHOULD KNOW



MRS. SADIE ABBOTT MRS. PREE McKITRICK

Women for the most part spend their lives at home, and it is these women who are willing and ambitious that their homes shall be kept neat and pretty, their children well dressed and tidy, who do their own cooking, sweeping, dusting and often washing, ironing and sewing for the entire family, who call for our sympathy.

Truly the work of such a woman is "never done" and is it any wonder that she breaks down at the end of a few years, the back begins to ache, there is a displacement, inflammation or ulceration of the abdominal organs, a female weakness is brought on, and the struggle of that wife and mother to continue her duties is pitiful.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, is the exact medicine a woman needs whose strength is overtaxed. It keeps the feminine organs in a strong and healthy condition. In preparing for childbirth and recuperating therefrom it is most efficient. It carries a woman safely through the change of life and in making her strong and well assists her to be a good wife and mother.

Mrs. Sadie Abbott, of Jeannette, Pa., writes:

Dear Mrs. Pinkham—

"I suffered severely with pain every month and also a pain in my left side. My doctor prescribed for me but did me no good; a friend advised Lydia E. Pinkham's Vegetable Compound and I wrote you in regard to my condition. I followed your advice and am a perfectly well woman. The pains have all disappeared and I cannot recommend your medicine too highly."

Mrs. Pree McKitrick, of La Farge, Wis., writes:

Dear Mrs. Pinkham:

"For six years I suffered from female weakness. I was so irregular that I would go from three weeks to six months, so I thought I would give Lydia E. Pinkham's Vegetable Compound a trial.

"Now I am once more well and can do my work without a pain. Any one who wishes, can write to me and I will answer all letters gladly."

Women should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of female ills. Every suffering woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

The fanatic is he who would rather see the race go down to perdition than that it should climb up unlabeled with his pet fad.

Possible Explanation.

An old hen was pecking at some stray carpet tacks in the back yard.

"Now what do you suppose that fool hen is eating those tacks for?" said ones.

"Perhaps," rejoined his better half, "she is going to lay a carpet."

BLACK, ITCHING SPOTS ON FACE.

Physician Called It Eczema in Worst Form—Patient Despaired of Cure—Cuticura Remedies Cured Her.

"About four years ago I was afflicted with black splotches all over my face and a few covering my body, which produced a severe itching irritation, and which caused me a great deal of suffering, to such an extent that I was forced to call in two of the leading physicians of ——. After a thorough examination of the dreaded complaint they announced it to be skin eczema in the worst form. Their treatment did me no good. Finally I became despondent and decided to discontinue their services. My husband purchased a single set of the Cuticura Remedies, which entirely stopped the breaking out. I continued the use of the Cuticura Remedies for six months, and after that every splotch was entirely gone. I have not felt a symptom of the eczema since, which was three years ago. Mrs. Lizzie E. Sledge, 540 Jones Ave., Selma, Ala., Oct. 28, 1905."

Providentially Retained.

Sub-editor—The new reporter has just shot the foreman and managing editor and committed suicide!

City Editor—Gee! what a scoop! And I was going to fire the guy yesterday—ain't it lucky I didn't!

Famous Book Free.

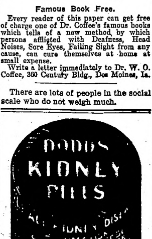
Write a letter immediately to Dr. W. O. Coffee, 360 Century Bldg., Des Moines, Ia.

There are lots of people in the social scale who do not weigh much.



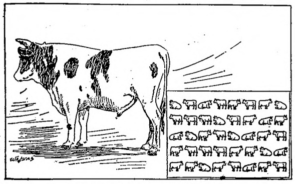
THE DAIRY HERD AND THE WELL-BRED SIRE

Vital Relation the Two Sustain to Each Other—By Prof. Wilber J. Fraser, Chief Dairy Husbandry, University of Illinois.

Raising the heifer calves of good, high-producing sows, as shown in a previous letter, is a great fundamental requisite for the best and easiest improvement of a dairy herd. But those calves will take their qualities from both parents, and it is equally important that each calf should have good parentage on the male side. But an inspection of Illinois dairy herds will show that comparatively little attention is paid to the quality of the sire. In a single trip to the dairy region of northern Illinois the writer noted six herds in which the heifer calves were raised for future cows, but in which the mulls used were miserable little scrubs, veritable runts and weaklings, obtained by simply saving a grade calf from the herd. And of many other sires, fairly good as individuals, nothing is known of the actual milk production of their female ancestors.

There are two principal reasons for this. One is, that under the custom of selling the heifer calves for veal it makes no difference about their breeding. But as this custom is to be changed by successful dairymen and the best heifers raised for cows, it becomes necessary, imperative, to provide good sires. But another great reason is that the pure-bred sire costs more money. Underlying both of these is the fundamental reason that many dairymen do not yet realize the wonderful improvement that can be wrought by a good head of the herd.

Everyone is familiar with the saying that the sire is half the herd. This is literally true. That is, of the qualities bequeathed to the calves the male parent furnishes half. The cow influences the character of but one calf a year; the bull passes on his personality to many calves, to all the calves of a herd of ordinary size. When he is chosen, half the character of all the calves is determined. In a herd of 40 cows his influence is as much as that of the whole number of cows taken together.



Proportionate Value of Bull and Herd.

In a dairy herd of 40 cows the sum total of all quality and qualities, character and characteristics, capacity for milk production, and everything else transmitted to the calves, the succeeding herd, may be called 80/80.

One good well bred sire equals ....40/80 of herd

and the forty cows equal..40/80 of herd

Total, 80/80, or all the herd. Of this the bull supplies at least one-half or 40/80 (and generally more), and each cow 1/80, and the 40 cows 40/80, or one-half. The 40 cows altogether impress or improve their offspring no more than the one bull at the head of the herd.

If he is of stronger prepotency than most of the cows, that is, able to transmit his qualities more surely and strongly to the progeny, which is usually the case with a well bred sire, then the bull represents more than half the herd. In that case more than half the characteristics of the calf, or the stronger and predominating half, come from the sire.

Now if the sire, as an individual, and in his pedigree, is superior to the cows—and this will be true where a pure bred sire is used on a grade herd—the characteristics he transmits to the calf will be of more value (of higher quality or greater quantity) than those that come from the mother, and in this sense also, the bull will be more than half the herd.

If the sire is kept with the same cows several years each year he starts out a generation of calves, more than half of whose qualities and strength were transmitted by the sire. This single step is a great improvement. But his successor, of similar type and breeding, mated to those improved heifers, carries the improvement forward another step, fixing the qualities and the power to transmit them more surely and strongly, carrying them to a higher degree, and eliminating defects that have come from the mother's side. From generation to generation the succession of well selected sire goes on increasing and intensifying the improvement of the herd. In this way the sire becomes three-fourths, seven-eighths, fifteen-sixteens, etc., of the herd. In fact in a few years the sire is practically "the whole thing."

So the sire may be much more than half the herd, whether judged by the strength, quality, or accumulated effect, of the characteristics he transmits. It is literally true that the sire may thus, within a few years, at slight expense, completely transform a dairy herd and more than double its profit.

One can obtain a fine dairy sire for $150, and 40 grade cows for $45 each, or $1,800. Then a good bull costs only 1-13 of the investment, or in other words, 1-13 of the investment is so placed as to exert more influence in the improvement of the future herd than the other 12-13 of the investment. Isn't that a good business proposition? Won't the extra $100 put into a good sire be better spent than any other $100 invested in the herd? Forty-one animals are purchased. The purchase of one animal will influence the succeeding herd more than the purchase of the other 40 animals. Isn't it worth while then to give some extra time and study to the selection of that one, the sire?

In breeding for improvement, the milk record of the sire's female ancestry is of just as much importance as that of the ancestry of the cow with which he is mated—is of more importance if the sire's ancestry has a better milk record. And the good dairy sire, pure bred, is almost certain to have a line of dams with a superior milk record; they have been bred for that very thing. Whether or not these dams have been tested, so the actual figures can be given, they are far more likely to have been high producing cows than are the dams of the grade sow. One of the very greatest things to secure for the heifer calf is the inheritance of a large capacity for milk production, and this comes from the mothers in both lines of ancestry. The calf will be much more certain of getting a high degree of this quality through an improved sire than from a grade mother. A high milk record in the sire's ancestry affects all his female progeny, all the next generation in a common-sized herd. But such a record in the cow's ancestry can affect but one calf a year (and not that many unless they are all heifers.)

An in general, as to all the good qualities that it is desired to transmit, it should be clearly recognized that these may be secured far more surely from the pure bred sire than from the general run of grade cows. Nothing is more certain than this. But all that is here urged for the great value of proper breeding is no excuse for a poor or weak animal, simply because he is pure bred. No pure bred bull is fit to head a dairy herd unless he is also a thoroughly good and strong individual, exhibiting in himself the typical characteristics and high qualities of the breed.

Every man who has had any extended experience or observation in the use of a good, pure bred sire from high producing dams at the head of a dairy herd, will agree that this sire was of peculiar value and great economy in building up the herd. The records of dairy breeding have proven it conclusively, a thousand times over. No man who studies the facts can doubt it. The evidence is to be seen in the heifers of every such sire and in their contrast with heifers lacking such parentage.

Curing Forging in Colts.—Forging, especially in colts, is a most difficult trouble to overcome, says the Horse Breeder, and can only be obviated by careful experimenting. Have his feet made perfectly level. Let the toes on the forward feet grow out a little. Fit them to a pair of quarter boots, and on each side have a pocket made, in which place some sheet lead. Keep adding to it until you have balanced the colt. This will of course increase his stride and knee action. The hind feet must be kept reasonably short. The object of weighing the forward feet by quarter boots instead of adding to the weight of the shoes, is to save his legs. After the colt has acquired his proper gait, the cause being removed, the effect will cease, and you can then omit the extra weight, but still let him wear the quarter boots until the habit has ceased.

Mission of the Cow.—The mission of the dairy cow is to give milk. If she tries to produce beef in the place of producing milk when the milk is most wanted she has failed of her mission and should be worked up into beef. It is probable that one-third of all the cows in the country could be profitably worked up into beef on account of having failed of their mission as milk producers. The mission of the cow should be kept in mind. A pair of scales and a milk test will greatly help to keep the owner informed of whether or not the cow is performing her mission. The cow that is fulfilling her mission is making money for her owner.

CATARRH BLOOD DISEASED AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame the different membranes and tissues of the body, and the contracting of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pains above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered and affected by this disease. It is a waste of time to try to cure Catarrh with sprays, washes, inhalations, etc. Such treatment does not reach the blood, and can, therefore, do nothing more than temporarily relieve the discomfort of the trouble. To cure Catarrh permanently the blood must be thoroughly purified and the system cleansed of all poisons, and at the same time strengthened and built up. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the very bottom of the trouble and makes a complete and lasting cure. S. S. S. removes every particle of the catarrhal poison from the blood, making this vital stream pure, fresh and healthy. Then the inflamed membranes begin to heal, the head is loosened and cleared, the hawking and spitting cease, every symptom disappears, the constitution is built up and vigorous health restored. S. S. S. also tones up the stomach and digestion and acts as a fine tonic to the entire system. If you are suffering with Catarrh begin the use of S. S. S. and write us a statement of your case and our physicians will send you literature about Catarrh, and give you special medical advice without charge. S. S. S. is for sale at all first class drug stores.

I had Catarrh for about fifteen years, and no man could have been worse. I tried everything I could hear of, but no good resulted. I then began S. S. S., and could see a little improvement from the first bottle, and after taking it a short while was cured. This was six years ago, and I am as well today as any man. I think Catarrh is a blood disease, and know there is nothing on earth better for the blood than S. S. S. Nobody thinks more of S. S. S. than I do. **M. MATSON,**

DR. ADLER'S TREATMENT
CURES AND PREVENTS
APPENDICITIS
LARGE DOLLAR BOTTLES AT DRUGGISTS

—W. A. Schreiter.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy
"ALL DEALERS"

Artists have no trouble in securing models. The famous beauties have discarded corsets and have become models in face and form since taking Hollister's Rocky Mountain Tea. 35 cents, Tea or tablets. A. L. Reichert.

ACTIVE KANSAS TURKEYS.

They Are the Best Gatherers of Grasshoppers Ever Invented.

Machines for gathering grasshoppers have been invented and tried, but the most successful grasshopper gatherer is the turkey. It has the advantage of being a very profitable one, too.

A ranchman in Western Kansas raised turkeys enough last year to keep eighty acres free from damage by this insect pest. Next year this ranchman intends raising turkeys very extensively for this purpose, and nearly all of the neighbors are planning to do the same.

If there were 100 turkeys to each quarter section in this alfalfa belt there would not be enough grasshoppers left to damage any crop. And without considering the good that turkeys do, turkey raising is a profitable industry where insects are so plentiful. After they attain the age of three or four weeks they can obtain their whole living in the fields and cost the farmers nothing until late fall.

Turkey raising promises to become a permanent Kansas industry. The grasshopper with which the farmers have to contend there is not a migrating one, but is native, increasing from year to year. The turkeys, however, range over large fields and thrive on the hoppers.

An Ill Wind.

T. P. O'Connor, the Irish leader, began a brilliant after-dinner speech in Philadelphia in this way:

"I must confess that I dread to make after dinner speeches. At the most sumptuous dinners, even at such a dinner as this one, if I knew that at the end I must make a speech, I am nervous, I have no appetite. I find little to admire in the best efforts of the chef.

"In truth, gentlemen, I can readily imagine Daniel, if he was at all of my mind, heaving a sigh of relief as the lions drew near to devour him—heaving a sigh of relief and murmuring:

"'Well, if there's any after-dinner speaking to be done on this occasion at least it won't be done by me.'"

Queen Exhibits Bantams.

Eight varieties of bantams are being exhibited by the Queen of England at a show at Barnstable.

You can't tell a womas's age after she uses Hollister's Rocky Mountain Tea. Her complexion is fine. She is round, plump and handsome; in fact she is young again. 35 cents, tea or tablets. A. L. Reichert.

No greater mistake can be made than to consider lightly the evidence of disease in the system. Don't take desperate chances on ordinary medicines Use Hollister's Rocky Mountain Tea. 35 cents tea or tablets. A. L. Reichert

I'll stop your pain free. To show you first—before you spend a penny—what my Pink Pain tablets can do, I will mail you free a Trial package of them—Dr. Shoop's headache Tablets. Neuralagia Headache Tablets, toothache, period pains, etc. are due alone to to blood congestion. Dr. Shoop's headache Tablets simply kill pain by coaxing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis. Sold by all dealers.

Free for Catarrh, just to prove merit, a Trial size Box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow-white creamy healing, antiseptic balm. Containing such healing ingredients as Oil Eucalipitus, Thymol, Menthol etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish Address Dr. Shoop, Racine, Wis. Large jars, 50 cents. Sold by all dealers.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Despepsia, The Heart or The Kidneys. Troubles of the Stamach, Heart or Kidneys are merely symptons of a deeper ailment. Don't make the common error of treating symptons only. Sympton treatment is treating the result of your ailment, and not not the cause. Weak Stomach nerves—the inside nerves—mean stomach weaknesses, always. And the Heart and Kidneys, as well, have their controlling power or inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative found its fame. No other remedy ever claims to treat the inside nerves. Also for bloating, billiousness, bad breath or complexion use Dr. Shoops Restorative, Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative medicine is sold by all dealers.

Piles get quick and certain relieve from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use, Large nickle-capped glass jars 50 cents. Sold by all dealers.

George W. Mason, Emma G. Mason, and also all other persons unknown, claiming any right, title, estate, lien, or interest in the real estate described in the complaint herein. Defendants.

The State of Minnesota to the Above Named Defendants:

You and each of you are hereby summoned and required to answer the complaint of the plaintiff in the above entitled action, which complaint is on file in the office of the clerk of District Court of Red Lake County, Minnesota, and to serve a copy of your answer to the said complaint, on the subscriber in his office in the City of Red Lake Falls, in said county, within twenty days after service of this summons upon you exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid the plaintiff in this action will apply to the court for the relief demanded in the complaint.

Dated May 20th, 1907.

Chas. E. Boughton,
Attorney for Plaintiff,
Red Lake Falls, Minnesota.

STATE OF MINNESOTA, } ss
County of Red Lake. }

In District Court, 14th Judicial District,
Ida Kennedy, Plaintiff,
against
George W. Mason, Emma G. Mason, and also all other persons unknown claiming any right, title estate, lien, or interest described in the complaint herein. Defendents.

Notice is hereby given that an action has been commenced in this court by the above named plaintiff against the above named defendants; to determine adverse claims to the thereinafter described real estate; plaintiff in her complaint, alleging herself to be the owner in fee of said premises, and that the same are vacant and unoccupied, and that none of the defendants have any right, title, lien, or interest in or to the premises in question; plaintiff demanding judgement in her complaint that she be adjudged the owner in fee of said premises and that none of the defendants have any right, title, lien, or interest in or to said premises, or any part thereof. The premises affected by this action are described as follows: southeast quarter of northwest quarter of section four, in township one hundred fifty three, north., of range forty three, west, in Red Lake County Minnesota.

Dated May 20th 1907.

Chas. E. Boughton,

VOL. IX—NO. 42. RED LAKE FALLS, MINNESOTA, THURSDAY, JULY 4, 1907. WHOLE NO. 453

SUMMER SCHOOL ON

Four Weeks' Session Starts in Charge of Conductor C. S. Yaeger.

The four weeks' session of the teachers' training school for Red Lake county was commenced Monday morning at the high school building in this city.

The school is in charge of Professor C. S. Yaeger, the popular Fosston educator, with A. M. Dunton, Marie Ring and Mary Gardener as instructors.

The attendance on the opening day was not particularly large, but was fairly satisfactory, and it is thought that after the Fourth the number of teachers attending will be materially increased.

First and second grade work is being taught and Superintendent McAnulty is desirous that all who expect to try for first grade certificates attend the training school.

Prof. Yaeger has the reputation of being one of the best training school conductors in the work, and has always been highly successful with his schools in the past. The other instructors are also recommended highly as competent people and the school this year should be one of marked success.

The Red Lake county teachers have ever been enthusiastic in their support of the summer school, and there is every reason to believe that next week will see a lot more of them in attendance.

CITY COUNCIL MEETS.

Official Proceedings of the Session of Thursday, June27

Regular meeting os the City Council held at the city hall June 27th, 1907.

Meeting called to order by President Borchers.

CHANGE IN HOTEL.

Krueger & Son Now in Charge of Grand View.

A change in the management of the Grand View hotel was announced Monday, when W. H. Krueger stepped out as proprietor and Fred Krueger and son Carl, as Krueger & Son assumed control of the business.

"Billy" still retains the saloon property and will devote his spare time to outside interests. His family moved into the Fred Krueger house on Champagne svenue.

The venerable Fred Krueger and his estimable wife need no introduction to the people of the northwest as hotel keepers, as for a number of years they successfully conducted the Grand View. The active management of the business will be borne by Carl Krueger, who is known as a thorough business man and popular young fellow.

THE COURIER trusts that both the new and old firms may continue to prosper in the rearrangement of their affairs.

A Pretty Wedding.

The Northwood, North Dakota, Gleaner, gives the following interesting account of the wedding of Carl E. Peterson, of this city, to Miss Gina Kaasa, of Northwood:

At the residence of the bride at 3:30 p. m.. on Wednesday, June 26th 1907, Miss Gina Kaasa, daughter of Mr. and Mrs. L. O. Kaasa, was united in marriage to Carl Elmer Peterson, Rev. J. D. Runsvold officiating. The beautiful young bride was charmingly attired in white voil over taffeta, and wore white roses, while the bridesmaid, Miss Osina Kaasa, sister of the bride, was becomingly attired in white. and wore pink carnations. The groom and best man, Thomas Forde, were attired in the conventional black and wore pink carnations.

There were in the neighborhood of 125 present at the wedding, and all partook of a very sumptuous wedding dinner, and the merrymaking extending far toward the small hours of the morning.

The bride has grown to womanhood among an ever-widening circle of warm friends, and is a very popular and accomplished young lady, of winning manners, and many charms, and a host of people of the vicinity and over the country will wish her joy and happiness.

The groom is a popular and prosperous young newspaper man of Red Lake Falls, Minn., where the twain will make their future home. Mr. Peterson impresses all who have met him with being a most worthy young man, of many estimable qualities, and has the well-wishes of a host of people who have made his acquaintance during his brief sojourn here.

The Gleaner joins a host of friends in congratulations, and wishes the happy young pair a wealth of happiness and prosperity. Mr. and Mrs. Peterson were the recipients of many beautiful and costly presents.

JOB IS CINCHED

Red Lake Falls Concert Band Will Play at Minnesota State Fair.

Word was received Tuesday from D. S. Hall, member of the Minnesota state fair board, that all arrangements were completed and the Red Lake Falls concert band would play an engagement at the Minnesota state fair during the first week in September.

The dates of the band's engagement are not exactly settled but will be three and possibly four days likely Wednesday, Thursday Friday and Saturday, September 4. 5, 6 and 7.

This will surely be a big ad for Red Lake Falls and Red Lake county, and the band boys and people generally feel grateful to Mr. Hall for his efforts in their behalf. Active practice is already commenced in order that the band may have a repertoire of selections second to no band in the state on this occasion, and under Prof. Maxwell's competent guidance there can be no question but what the organization will acquit itself creditably on this occasion.

The chance will be an excellent one to advertise the advantages of Red Lake Falls, and the co-operation of the Commercial club and citizens generally should be forthcoming to make the trip a triumph long to be remembered.

THE USUAL DEAL.

Thief River Papers Twist Facts Regarding Tournament.

The report of the firemen's tournament held here week before last given in the Thief River Press of last week was enough to cause a hearty laugh from all acquainted with the facts, and as the Press has been prone to do in the past year or so, the truth was utterly ignored and a general misrepresentation of matters in general was indulged in.

THE COURIER does not desire in any manuer to make capital out of the tournament outcome, at the best it is not desired by the people of Red Lake Falls that the pleasure of that event be marred by controversy, but for the benefit of those who might be interested it will state a few facts. The Press tells its readers that Warren won the most money, Thief River next and Red Lake Falls third. This is manifestly untrue and the father of the Press article knew it. Of five big races Red Lake Falls won four firsts, and Warren won the other. In one or two of the minor events the only fast Thief River firemen got first place, but the aggregate of prize money won by Thief River was not within one hundred and twenty-five dollars of the amounts sscured by either Red Lake Falls or Warren. Counting the parade prizes of fifty dollars, for which Red Lake Falls did not compete, Warren won approximately the same amount as did Red Lake Falls, both getting about $300 in prize money. Thief River's share was less than $200 so just how ths Press figures out that they were second best in the events is a mystery yet unsolved.

The facts are that the Press does not now nor did is ever desire to be fair or honest. The Thief River delegation at the tournament was treated fairly and honestly on all occasions and everything was done to give them and all other visitors a first-class time. The Red Lake Falls firemen do not desire to claim any great glory from the record they made but they do like a fair deal and not a premediated lot of lies like the last week's Press fathered.

For Sale

Two hundred cots and comforters Good spring cots and first-class comforters. Will be sold at below cost; cots at $2.00 apiece and comforters at 75 cents each.. For particulars call on Fred Borchers or George F. Hennings.

A REAL BALL GAME

Thief River and Red Lake Falls Cross Bats in Sensational Contest.

One of the best exhibitions of the national game ever given in the west was played at Thief River Falls last Sunday, between a team representing Thief River Falls and the local team of this place.

The Thief River enthusiasts were "plugged" to the limit for the occasion, and the line-up shows that but three Thief River players were in the game, Fuller on first, Bergen in left field and Nason on second. Carle and Holstein, the fast Indian battery of the Warren professional team, Weaver, the big shortstop and Belcourt, the fast third baseman from Warren, and Peek, the star Mahnomen Indian player composed the rest of the line-up, and this bunch proved to be one of the fastest aggregations of ball players that was ever assembled in the northwest. To go up against this Red Lake Falls had two hired men, Emerson and Beaulieu, a battery from the White Earth country, and played seven of her home boys, who, however, can play ball alongside of the best professionals in the north country.

The game itself was one of those heart disease contests read about in the rule books, and for seventeen long innings these teams battled for supremacy, the Thief River aggregation finally getting the winning run in the seventeenth inning and bringing the game to a close with the score 3 to 2 in their favor.

Red Lake Falls scored one tally in the first inning and blanked Thief River. Both were blanked in the second and in the third Thief River got one man across the plate tieing the score. From then on until the sixteenth inning it was a case of one, two, three and out, and the long string of goose eggs looked as if someone was tryiyg to write out in figures John D. Rockefeller's daily income.

In the first half of the sixteenth by some good hitting and base running Red Lake Falls scored again, putting them one ahead. The first man up for Thief River in the last half of the inning went out promptly from Emerson to first base. The next man got a single, and then stole second, the next up struck out, making two men out with a runner on second base. This was Peek the speedy Mahnomen Indian and he made a daring try for third. The ball was snapped to Healy and Peek was tagged easily enough, but the runner and baseman were so badly mixed up that the umpire claimed he did not see the play and called Peek safe on third. The next batter nailed a swift liner at Pokezwinski on short, and Pucks went after it to end the game, but fate decreed otherwise and the ball bounded away from his mitt and before he could recover it Peek was safe at home, tieing the score. In the seventeenth inning a couple of the foxy Indians on the Thief River side managed to get in front of pitched balls and got bases, when a single netted Thief River the third and winning run. The crowd of rooters interferred with the Red Lake Falls players in the last few innings, and appeared determined to win even if they had to carry one of their players around the diamond by main force.

Red Lake Falls got fourteen hits off Carle, while Thief River got but seven off Emerson. Our boys were uulucky in batting, however, as long drives that looked like homers were pulled out of the sky by the fast Indian fielder, Peek.

Both pitchers were given perfect support and the game was one long to be remembered by those who witnessed it. Red Lake Falls is particularly well pleased with the showing made, as it proves conclusively that with a strong battery the home boys need not be afraid of any of the teams in the north country. The score by innings was as follows:

R.L.F.—1 0 0 0 0 0 0 0 0 0 0 0 0 0 0 1 0—2
T.R.F.—0 0 1 0 0 0 0 0 0 0 0 0 0 0 0 1 1—3

ANOTHER WRECK.

Great Northern Freight Gets Into One More Mix-up.

The north bound Great Northern freight was wrecked about six miles north of here last Friday morning and effectively tied up traffic for nearly twenty-four hours.

A big refrigerator car in the train went to the bad in some manner or other, and before the train was stopped, a long stretch of track was torn up and several cars went off. The northbound passenger was held here all day, while the wrecker was clearing up the muss, and did not get away on the trip until after six o'clock, returning at about one in morning. In the meantime the wreckage has all been picked up and the track fixed permanently, traffic resuming its normal condition again Saturday.

From the number of wrecks on this line in the past year caused by these refrigerator cars, it would seem that the Great Northern would be afraid to haul them on this branch.

MEETING A FIASCO.

County Seat Petition Still Resting Serenely In Its Safe.

The meeting of the board of commissioners called to act on the county seat removal petition, held here on Monday turned out to be a fiasco pure and simple and absolutely nothing was accomplished.

A big delegation of Thief Riverites drove down early in the day, prepared to put up one of their usual bluffing games, but from the tired expression they wore when they left in the afternoon for their own burg, it was apparent that they were not taking the court house along with them.

The Thief Riverites have a habit of thinking that all they have to do when they want anything is to say so and take it, but it appears from past events that they somtimes overestimate themselves.

Just at the present time the counseat scrap is in a dormant state and probably wont move around much until after dog days.

Hallock was Pleased.

Editor Bouvette, of the Hallock Enterprise, had a good time at the tournament here last week, and told his readers last week, all about it as follows:

One of the most successful and best attended tournaments in the history of the Northern Minnesota Firemen's association was held at Red Lake Falls last week. The people of that place spared no time money, or efforts to make things agreeable and enjoyable to visitors and if we judged of the verdict of our firemen who were present durthe entire session, the Red Lake Falls people succeeded in carrying out their aim immensely. Beside the competitions usual at a firemen's tournament, there were numerous other attractions to entertain the crowd and pleasure seekers. Truly the key of the town was turned over to the visitors, and though the "lid" was removed and pleasure resorts of all descriptions were given full sway day and night, the throng of visitors, which numbered in thousands did not abuse their priveleges for not a drunk or disorderly person was seen during the entire session. The banner or championship race which was one of the important events of the tournament, was won by the Warren fire department, other prizes were won by different departments of the association. Though Hallock was there with a good number, it did not compete in any of the events, but the Hallock baseball team crowned itself with glory in winning the big baseball game of the tournament by defeating Red Lake Falls by a score of 5 to 3. J. A. Bray, the man that put up the "dough" to bring the Black Duck department to Hallock three years ago, was there in his usual spirit of goodfellowship, and he made it his special business to find the Hallock delegation.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note that it is made alone for Piles, and its action is positive and certain. Itching painful protruding or blind piles disappear like magic by its use. Large nickel capped jars 50 cents. Sold by all dealers.

Dishonesty in London.

Unjust weights and measures to the number of 63,950 were seized in London during the last 12 months.

A SPECIAL TERM

Judge Watts Will Hold Short Session Here Friday of Next Week.

The Honorable William Watts, judge of the fourteenth judicial district will hold a special term of court in this city Tuesday of next week, July 9.

At this time nine applicants for final citizenship papers will appear before the court to make request for naturalization and the applications will be considered by the judge. It is understood that four of the applications do not comply with the new law and will be refused citizenship papers. The recent law in this respect is very strict and provides that parties desiring final papers must make application to the clerk of the district court at least ninety days before a term of court. Nine applicants have appeared before Clerk Johnson but it is stated that four or them will be denied papers at this time.

Besides the granting of citizenship papers, it is thought that the court will try several cases while in session next week. There are one or two cases continued from the spring calender that will be up for trial, besides a new case or two that may be called. It is probable from the outlook that three days or so will be occupied with court work.

A Great Exhibition.

Never in its history have the assurances of a great exhibition been so pronounced as for the Winnipeg Exhibition July 13-20. The attendance this year will be a record breaker the exhibits of a number and character never before seen in Western ern Canada, and the attractions thrilling in their spectacular daring and novel in the extreme in their nature.

The fireworks will be on a scale never surpassed in Canada and certainly nothing ever approached the wonderful programme outlined by the Hand Company in connection with the presentation of the "siege of Edinburg Castle," and the realistic and picturesque tournament.

STATE LAND SALE

State Auditor Iverson Disposes of Considerable Land Here Monday.

State Auditor S. G. Iverson, accompanied by F. D. Sherman, of St. Paul, were here Monday and in the afternoon Auditor Iverson conducted a sale of state and school lands at the court house.

A good crowd of bidders was present but no particularly spirited bidding resulted, most of the land being bought at the appraised price. A greater part of the land offered for sale at this time was bid in and Auditor Iverson was well pleased with the outcome.

In conversation with a COURIER reporter, Mr. Iverson stated that the sales throughout the north country during the past few weeks had been very satisfactory and at every point where he was advertised to hold a sale he found a good crowd of bidders. Minnesota lands, according to Mr. Iverson, are in great demand at the present time, and the results of the extensive advertising in other states done by the state auditors office during the past year or two is every day being felt.

Exhibition Races.

The race programs of the Winnipeg exhibition, July 13-20, with its purses aggregating to $13,400, is the best ever presented in Western Canada. Many of the best horses in Canada and the Western and Central States will be contestants and the grestest race week in the history of the west will be afforded sportsmen and horse lovers who are from the Great Lakes to the coast displaying the greatest interest in the great events.

THE COURIER

JOHN E. KING, Publisher.

RED LAKE FALLS, MINNESOTA

NEWS OF THE WEEK IN EPITOME

DIGEST OF THE NEWS WORTH TELLING CONDENSED FOR BUSY READERS.

Washington Notes.

Horace C. Reed of Wisconsin, a former resident of Hudson and for twenty-five years private secretary of Senator Spooner, has been appointed a national bank examiner and will be assigned to territory in the Northwest.

Secretary Taft has made allotments of funds for a small amount of improvement work at some of the military posts, to be paid for out of the appropriations for next year. These allotments include construction of quarters for civilian employes and teamsters and erecting a stable at Fort Lincoln, N. D. Larger allotments are to be made later.

The secretary of the interior has ordered patented the following lists of railroad selections in Montana: Northern Pacific list No. 137, Bozeman and Kalispell districts, 51,753 acres; Northern Pacific list No. 138, Helena and Lewiston districts, 71,400 acres; St. Paul & Manitoba list No. 30, Kalispell district, 51,684 acres.

People Talked About.

It is announced that Mr. and Mrs. H. C. Drayton of New York will separate. Drayton is a son of J. Coleman Drayton and grandson of Mrs. William Astor.

It is reported that United States Senator Beveridge of Indiana is to marry Miss Katherine, daughter of Mr. and Mrs. Augustus Eddy of Chicago.

Col. Thomas Snell, a millionaire banker and land owner of Bloomington, Ill., is dead, aged eighty-nine years. He was a close friend of President Lincoln.

Robert Fairbanks, son of the vice president, has scored a success as a funny man by landing an appointment on the editorial board of the Yale Record, the mimic sheet of the college.

Rev. J. P. Deane of Ashland, Wis., has been appointed principal of Beloit college. Prof. A. W. Burr, who has held the position for twenty-four years, has resigned to take up work in the faculty.

Mrs. Annie Besant of Adyar, India, the noted writer and lecturer on matters occult, has been elected world president of the Theosophical society, to succeed the late Col. Henry Steele Olcott, formerly of New York.

Louise Lonsdale, a chorus girl, according to her own admission, is shortly to be married to Blaine Elkins of West Virginia. It is also said that a sister of Miss Lonsdale is to be married to Richard Elkins, another son of the West Virginia senator.

From Other Shores.

M. Metalnikoff, a member of the Russian academy of science, has been sent to America to study zoological laboratories.

The London Globe, the oldest evening paper in England, has been purchased by Hilderbrand Harmsforth, brother of Lord Northcliffe.

Bartolomo Maso, who was president of the Cuban republic during the ten years' war, and who was a candidate for president against Palma in 1902, is dead.

More than a hundred persons were drowned in the flood caused by the overflowing of the Lithos river, which inundated the town of Trikkala, in Thessaly, Greece.

The entire committee of the Social Democrats at Yekaterinoslav, Russia, has been arrested and a secret printing office which the committee has operated has been confiscated.

The betrothal is announced of Prince William, second son of Crown Prince Gustav of Sweden, and Grand Duchess Maria Pavlona, daughter of Grand Duke Paul Alexandrovitch of Russia.

Julian Reyes, the notorious bandit, and his lieutenant, Cenobia Nodriguez, after assaulting a young girl in the pueblo, ambushed a band of pursuers, killing one instantly and fatally wounding two others in the hills near Nayar, Mex.

Late reports from Valdivia, Chile, state that thirty-four persons in all were killed or injured in the recent earthquake. The region affected by the shock extends from Valparaiso to Magellan straits and from the Pacific coast to Neuquin, in Argentina.

Crimes and Criminals.

Frank Tallchiff, a carpenter on the Cattaraugus reservation, near Buffalo, N. Y., shot and killed his wife while she was riding with John Twoguns and then committed suicide.

In a fit of jealous rage Private W B. Johnson of the Eleventh cavalry fatally stabbed Private James A. Keelley at Des Moines. Both men were attentive to the same young woman, Miss Bertha J. Kall of Carlisle, Iowa. Keeley was engaged in conversation with her near the post when Johnson came up. A quarrel followed.

Mrs. Julia Mellody, aged fifty-two years, an inmate of the Northern Indiana hospital for the insane at Logansport, Ind., set fire to her clothing and was burned to death. She fought attendants who attempted to extinguish the flames.

Frank H. Jones, defaulting teller of the Charlotte, N. C., National bank, who disappeared March 13, leaving a shortage of $80,000 in his accounts, was sentenced to serve six years in prison.

Harry Vaughan, George Ryan and Ed Raymond, ringleaders in the mutiny at the Missouri state prison in November, 1905, when two guards were killed, will be hanged in the county jail at Jefferson City June 27.

Michael Broderick, a street car motorman of New York was set upon and probably fatally injured by several hundred frenzied men and women in the Bronx after he had run down and killed Lucy Delehante, ten years old.

Arthur Erby, seventeen years old, is under arrest at Adel, Iowa, on a charge of stabbing Thomas Harsh, a lad of about the same age. Harsh was badly cut in the back and hip and is in a serious condition. The stabbing was done during a fight.

Prof. D. H. Correl, principal of the Bristow schools at Bristow, Iowa, was brought into court on a charge of assault and battery. The charges were filed by girl students at the school, who testified that the teacher spanked them. The teacher's defense was that spankings were necessary to maintain discipline. He was acquitted and the school board increased his salary.

Accidental Happenings.

Harry Hanke, nineteen years old, was fatally injured and another boy and two little girls were sligstly hurt in a runaway at Newton, Iowa.

A wreck occurred on the Spokane & International railway near Spokane, in which many passengers were injured, several probably fatally.

Fire destroyed the car barns of the New York City Railway company. A number of near-by residences were damaged. The loss will exceed $200,000.

An explosion of gas blew up eight sections of the stone sidewalk in front of the Dearborn hotel in Chicago, causing a panic among the guests and injuring several persons.

In an automobile accident at Sanbornville, N. H., three persons were probably fatally injured. The automobile plunged over a high embankment, burying its occupants underneath.

The ferry steamers Cazaduro and James M. Donohue collided in a thick fog between Alcatraz and Angel islands, near San Francisco. The Donohue was badly damaged. No lives were lost.

Six persons were injured, three of them seriously, while on a sight-see and two little girls were slightly hurt Canyon City, Colo., being thrown from a vehicle after the driver had lost control of the machine.

Two persons are reported to have been drowned in the Cache la Poudre river in Fort Collins, Colo., as the result of the breaking of the mammoth dam at Chambers lake, seventy-five miles northwest of Fort Collins.

County Commissioner James B. Maxfield of Boulder, Mont., was instantly killed and William H. Patterson was severely injured when an automobile in which they were riding went over the embankment into the Boulder river.

The boiler of a Rio Grande locomotive blew up one mile east of Florence, Colo., killing Engineer Thomas Ewing, Fireman O'Brien and Brakeman Gooch all of Pueblo. The train was wrecked and the track torn up for several hundred feet.

The three-year-old son of Mr. and Mrs. Henry Crosby was drowned in the Calamus at Mason City, Iowa. He went with an older brother to the creek and while the brother was in swimming the child slipped off the bank into the stream and was drowned.

Andrew Anderson, a nineteen-year old boy, was drowned in four feet of water in Blackhawk creek, near Dike, Iowa. The lad was accompanied by two companions of the same age, but none could swim. The water was shallow and no one thought a fatality possible.

A piece of rock weighing six pounds caused the death of Peter Corbin while working in the twenty-seventh level of No. 2 shaft of the Tamarack mine at Calumet, Mich. The rock fell a distance of sixteen feet from an overhanging ledge and struck Corbin on the back of the head.

Domestic.

A severe earthquake occurred at Tonga, one of the southermost of the Tonga islands in the Pacific ocean.

With a record of sixty-one years spent in the mines, fifty-five of the time below the surface, Charles Clemens, formerly employed on the Michigan iron ranges, has retired at the age of seventy-four to spend the remainder of his days on a farm in Minnesota.

Alleging that the proprietors of the Disbrow nursery are allowing large quantities of orange juice to foment, thus permitting bees and flies to become intoxicated, residents and apiary owners of Pasadena, Cal., have appealed to the district attorney for relief.

Not only will Mayor Schmitz of San Francisco resist all efforts to transfer the reins of government to Acting Mayor Gallagher, but, according to his attorneys, all of the Schmitz appointees will flatly refuse to relinquish office when their resignations are called for.

Chubb & Sons, marine insurance brokers of New York, have reported to the postal authorities that 45 per cent of the gold bonds of the Guayaquil & Quito Railroad company, with an aggregate value of $20,000, have been loost or stolen in transit from Loondon.

VENGEANCE WAS ORCHARD'S MOTIVE

WITNESSES SWEAR HE THREATENED TO KILL GOV. STEUNENBERG.

DEFENSE BEGINS TESTIMONY

ATTEMPT TO SHOW CRIMES WERE INSPIRED BY MINE OWNERS.

Boise, Idaho, June 22.—Unless there should be unforeseen delay in securing a couple of final pieces of evidence, the state will to-day close its case against William D. Haywood, whom it charges with the murder of Frank Steunenberg. This announcement was made yesterday afternoon by Senator Borah of the prosecution, and when Clarence Darrow of the defense took up the discussion of the arrangement of time he made it very clear that directly the state closed he and his associates would move the court for an instruction directing a verdict of acquittal.

Corroborates Orchard.

It is now anticipated that the state will close by noon; that the afternoon session will be devoted to argument of the expected motion of the defense, and if the court rules adversely on the motion, the opening statement in behalf of Haywood will be made by Mr. Darrow on Saturday.

WILLIAM D. HAYWOOD.

The prosecution succeeded yesterday in again showing a direct connection with the store of George Pettibone in Denver and Harry Orchard at work on the Bradley crime in San Francisco, and promised to make the connection with Pettibone personally by handwriting experts who will be called to-day.

Records Produced.

Original records of the Pacific Postal Telegraph company were produced, showing that in September and October, 1904, remittances of $97.50 and $48, respectively, were made, the first by "J. Wolff" and the second by "P. Bone," from 1725 Stout street, in Denver—the address of Pettibone's store—to "H. Green," in care of Peter L. Huff, at 211 Taylor street San Francisco.

Quotes Haywood.

The state also showed that while at Silver City, Idaho, in 1899, Haywood declared that Steunenberg was a tyrant and should be exterminated. To practically every piece of evidence offered during the day the defense first offered objection and then made a motion to strike out, and lastly took an exception on the record.

Jury to Decide Haywood Case.

Boise, June 23.—When the state yesterday closed its case against William D. Haywood, charged with the murder of Frank Steunenberg, the defense made an unsuccessful attempt to secure from the court an order directing the jury to acquit the prisoner. Judge Woods' ruling, which requires the defense to meet with evidence the case that the state has presented, was made at 3:15 o'clock and it was then arranged that Haywood's counsel should make the opening statement and present their first testimony on Monday next.

Makes Eloquent Plea.

Attorney K. F. Richardson made the principal argument in support of the motion in a long, carefully prepared and eloquent address.

He took for his guide the Idaho statute that forbids conviction upon the uncorroborated testimony of an accomplice, and quoting authorities in support of his contention that there must be convincing corroboration entirely independent of the testimony of the accomplice, made an analysis of all the testimony offered. He declared that none of the testimony could stand without the support of Orchard's story and that the statute specifically forbade its acceptance under these circumstances.

Statute Forbids Conviction.

He also argued that the testimony of Orchard was the only showing that in any way connected Haywood with the crime and that the statute forbade conviction under these circumstances.

Senator Borah, who spoke for the state, argued with like force and eloquence that Haywood's connection has been independently shown, and that Orchard's testimony has been corroborated by independent circumstances and evidence

Haywood Will Take the Stand.

Boise, Idaho, June 26. — In an address that occupied two sessions of the district court yesterday Clarence Darrow of Chicago outlined to the jury the detailed defense of William B. Haywood to the charge that he murdered Former Governor Steunenberg. In broad description it is to be a denial of every material count in the testimony of Orchard, with a showing that Orchard killed Steunenberg because of a private grudge due to the loss of a rich share in the great Hercules' mine, and explanations of the independent circumstances that tend to connect the three co-defendants with Orchard's life and operations.

Will Deny Everything.

Haywood will take the stand to make personal denial of Orchard's accusations, Moyer may be called to testify solely to events and circumstances affecting the Western Federation of Miners, but Pettibone will not be a witness in this case.

Mr. Darrow denied the existence of the great conspiracy to murder alleged by the state with Orchard's testimony as a basis; denies the intimacy with the three co-defendants that Orchard laid claims to; denied that Orchard had committed many of the crimes he had boasted of, and promised to prove his contentions by many of the men named by Orchard when on the stand.

Plot to Destroy Union.

Mr. Darrow charged that agents of the Mine Owners' Association of Colorado and the Pinkerton detectives had joined hands in a conspiracy to destroy the Western Federation of Miners. Agents of the mine owners had, he asserted, committed many minor crimes to discredit the federation. He asserted that this trial was the culmination of the conspiracy to kill the organization by killing the leaders; that the organization and not "Bill" Haywood was on trial, and that Harry Orchard, under the manipulation of Detective McParland, was trying to kill Moyer, Haywood and Pettibone that he might save his own life.

Financial Relations Explained.

As to the financial relations between Orchard and Pettibone, Mr. Darrow said that when Orchard left Denver for Wyoming he gave Pettibone his money, his Masonic badge and other trinkets and some papers for safekeeping. From time to time Pettibone forwarded parts of the money to Orchard.

Vengeance Was Orchard's Motive.

Boise, Idaho, June 27.—The first direct testimony in defense of William D. Haywood was offered yesterday, and it was chiefly directed toward showing that Harry Orchard, blaming Frank Steunenberg for the loss of his interest in the Hercules mine, had threatened to have revenge by killing him, and that the conduct of Orchard and K. C. Stirling, both before the Independence explosion, when they were frequently seen together, and afterwards when Sterling called off a bloodhound that was following Orchard's trail, justified the inference that the mine owners inspired the crime.

Orchard on the Stand.

The calling of the first witness for the defense was preceded by a further examination of Orchard to permit the defense to complete its formal impeaching questions. These questions were nearly all in connection with the claim that Orchard killed Steunenberg because of an alleged grudge growing out of the sale of his interest in the Hercules mine. Orchard again denied that he ever threatened to kill Steunenberg because of the Hercules mine, and again asserted that he had sold his interest in the mine two years before the trouble that drove him out of Northern Idaho.

Two witnesses called later in the day swore that Orchard threatened to kill Steunenberg because of the Hercules mine matter, and the defense has prepared the way for such testimony from a dozen more witnesses.

Several witnesses located Orchard at various conferences with Sterling, the detective for the mine owners' association, prior to the Independence explosion.

Tracked by Dog.

Another witness told of the effort to locate the men guilty of the Independence station outrage by starting a bloodhound from the chair rung used in pulling off the mine explosion. He said the dog took the road to Colorado Springs, the one over which Orchard fled in the night, and that when he reported to Sterling he got orders to call the dog off. Sterling said he knew who blew up the station and later said that Steve Adams had done so.

TROUBLE SURROUNDS IOWA MAN

Accidents, Illness, Death and Murder Visits Nevins of Iowa City.

Iowa City, Iowa, June 23.—Misfortunes "come not singly, but in battalions," according to the belief of Simon Nevins of Iowa City. Nevins, riding a bicycle, fell and broke his leg. When he recovered consciousness his wife became ill and her life is now in peril. Recently his father was burned alive and his brother was murdered or drowned in the river.

DRUNKARD'S AWFUL WORK.

Shoots Two Children, Tries to Kill Wife and Then Kills Self.

Wilmington, Del., June 22.—John Zenne, aged thirty-eight years, late last night shot his daughter Rose, aged two years, his son John, aged six months, attempted to kill his wife and then turned the revolver on himself, blowing out his brains. The two children, the physicians say, cannot recover. Zenne, it is said, had been drinking heavily.

JUDGE WOOD RULES AGAINST HAYWOOD

LIMITS SHOWING AS TO EXISTENCE OF COUNTER-CONSPIRACY.

FORMER LEADER ON THE STAND

ED BOYCE DENIES EXISTENCE OF "INNER CIRCLE" OR A CONSPIRACY.

Boise, June 29. — A ruling made yesterday by Judge Wood while Edward Boyce, for years the leader of the Western Federation of Miners and now a wealthy mine owner of the Coeur d'Alenes, was testifying in behalf of William D. Haywood may materially limit the showing of the defense as to the existence of the counter conspiracy against Haywood and his associates which it alleges.

Claims Same Latitude as State.

James H. Hawley, for the state, objected to a general question as to the policy and practice of mine owners throughout the West in blacklisting union miners, and in the argument that followed Clarence Darrow, for the defense, claimed the same latitude in proving counter-conspiracy that the state enjoyed in showing a conspiracy.

Mr. Hawley contended that the state had directly shown the existence of a conspiracy by Harry Orchard, and by so doing had laid the foundation for and made the connection of all the evidence subsequently offered on the subject. He said the defense was trying to show a counter-conspiracy by proving various isolated instances and certain general conditions, none of which was connected with the case and for none of which a proper foundation had been laid.

Court Sides With State.

In ruling the court accepted in part the contention of the prosecution, and limited the proof of the defense along these lines to events in Colorado and the Coeur d'Alenes connected with the case as now established.

Ed Boyce was the principal witness of the day, and his testimony was chiefly devoted to the history, purposes and work of the Western federation. He denied the existence of an "inner circle" or that there had ever been a conspiracy in the organization or an illegal act.

MANGLED BY MACHINERY.

Boy Is Hurled by Belt in Mill at Peshtigo.

Menominee, Mich., June 29.—Caught in a revolving belt at the Peshtigo mill, lifted from the floor and hurled with great force against the shafting, Charles Stibbe, sixteen years old, had his chest crushed, both legs fractured and his right arm broken, besides a score of other lacerations about his body. The boy was taken to the Menominee River hospital and probably will die of his injuries.

SNAG UPSETS BOAT.

One Occupant Is Drowned, but Other Man Is Rescued.

Madrid, Iowa, June 29.—John Swatta of Valley Junction was drowned in the Des Moines river near here yesterday. With two companions Swatta was out rowing when their boat struck a snag and was overturned. Swatta went down immediately and did not come to the surface again. His companions managed to cling to the boat until rescued.

RABBI ENDS MEAT WAR.

Riots in Milwaukee Ghetto Are Brought to Close.

Milwaukee, June 29—The riot in the Ghetto over the rise in the price of meat is at an end. Despairing of success, the kosher butchers listened yesterday to the exhortation of Rabbi S. I. Sheinfeld and agreed to sell at the former price, 2 cents lower than they have attempted to charge per pound since Monday.

DIES AT AGE OF 102.

Mrs. Bear, a Sioux Indian, Is Said to Have Been Centenarian.

Devils Lake, N. D., June 29.—Mrs. Bear, a full-blooded Sioux Indian, is dead on the reservation south of here. The old members of the tribe declare that the woman was 102 years old at the time of her death. If this is the case the oldest woman in the state passed away.

PILLS KILL BABY.

Child Eats "Candy" She Finds in Mother's Hand Satchel.

Valley Springs, S. D., June 29.—The thirteen-month-old daughter of C. C. Anderson of Raymond is dead as the result of eating strychnine pills which it mistook for candy.

Belt Breaks Arm.

Granada, Minn., June 29.—A Clapshan, buttermaker for the Center Creek Creamery company at this place, met with an accident. His right arm came in contact with a belt and was broken between the elbow and wrist.

Drowned While Bathing.

St. Paul, June 29.—Peter Olson of South St. Paul was drowned yesterday afternoon while bathing in the river between South St. Paul and South Park.

LOVING, CASE IS NEAR END

EVIDENCE IS ALL IN — JUDGE DEALS HEAVY BLOW TO PROSECUTION.

Houston, Va., June 29.—The taking of evidence in the case of Former Judge William G. Loving, who was placed on trial in the circuit court of Halifax county here last Monday morning for the murder of young Theodore Estes in Nelson county on April 28, was concluded at 5 o'clock yesterday afternoon. The court then adjourned until 10 o'clock this morning, when the instructions to be given to the jury will be argued before Judge W. R. Barksdale.

Yesterday marked a most important turning point in the case, when Judge Barksdale rendered an opinion concerning the admissibility of certain evidence, the decision dealing a heavy blow to the plans of the prosecution. Attorney Daniel Harmon, for the prosecution, Wednesday announced his intention of introducing witnesses to show that the story told by Miss Elizabeth Loving to her father, that she was drugged and assaulted by Theodore Estes, was a fabrication and that Estes never offered any indignities to the girl, even suggesting that there might be another motive back of the killing. The defense objected to the introduction of such testimony on the ground that it had no bearing on the case, and whether true or false had nothing to do with the question of the indignation of Judge Loving at the time of the tragedy. Judge Barksdale in a lengthy opinion yesterday sustained the contension of the defense.

START DEARTH DEFENSE.

Many Witnesses Testify to Defendant's High Standing.

Minneapolis, June 28. — Character witnesses were introduced by the defense in the case of Elmer H. Dearth, formerly state insurance commissioner, charged with accepting a bribe for certifying to false financial statements of the Northwestern National Life Insurance Company of Minneapolis, after the state had rested its case yesterday afternoon.

A large delegation of St. Paul men was on hand to say a word in regard to the splendid citizenship of the defendant and his exceptional ability and character as an official.

Following this testimony Pierce Butler, one of the attorneys for the defense, made a motion for a directed verdict for the defendant.

The matter was taken under advisement by the court and the decision will be announced when court opens this morning.

THREE KILLED IN BIG STORM.

Many Injured in Electrical Storm in and About New York.

New York, June 29. — A death dealing electric storm yesterday afternoon, following a day of sweltering soaked with humidity, swept over the city and surrounding territory, killing three persons, injuring several, causing many fires and doing considerable damage. In this city the only places struck were two churches. The steeples of both were torn into fragments by the lightning bolts.

SHEEP LEFT TO STARVE

Man Charged With Putting Animals in Corral Is Arrested.

Havre, Mont., Jnune 29. — F. F. Holbright, a herder, has been arrested and will be prosecuted in the Teton county court on the charge of willfully deserting a band of sheep. He is alleged to have turned a band of sheep belonging to Charles Pearson into a corral and deserted them.

DIAMONDS STOLEN ON TRAIN.

Thieves Rob Representative Soper of Ripon of Gems Valued at $1,500.

Madison, Wis., June 29.—Assemblyman Soper returned last night from his home in Ripon and reported the loss of a diamond pin and a diamond ring valued at nearly $1,500. He thinks they were stolen by sneak thieves on the train. He offers a reward of $400.

Plan Line to St. Paul.

Menominee, Mich., June 29.—Plans are being perfected by the officials of the Ann Arbor railroad to extend their line from this city westward to Duluth St. Paul and Minneapolis, making this city the eastern terminus on the west shore of Lake Michigan.

No Change in Strike.

San Francisco, June 29.—The telegraphers' strike bears no change on the surface. It is claimed by the strikers that the Western Union is tied up tighter on the sixth day of the strike than on the evening the strike was called.

Fire Kills Five Canadians.

Almonte, Can., June 29.—Five persons perished in a fire which early yesterday destroyed the laundry over which W. P. Armstrong, his wife and four children lived. Armstrong was the only one of the family who escaped.

Death and Ruin by Cloudburst.

Livingston, Mont., June 29. — A heavy cloudburst in the vicinity of Lavina, in the Musselshell country, has destroyed thousands of dollars worth of property. Three people are reported to have lost their lives.

Two Stabbed in Fight.

Greenwood, Wis., June 29.—As a result of a quarrel over some stock running at large Fred Zells and A. Dazens, two farmers living near here, were seriously slashed with pocket knives and Dazens may die.

THE STATE DAY BY DAY

News of Interest.

TO DELVE INTO RECORDS.

Tax Commission Employs Men to Investigate Real Estate Values.

Seven men will start out this week under direction of the state tax commission to secure records for comparing the assessed valuation of real estate in Minnesota with the actual or selling value. Their work will cover thirty-eight of the eighty-four counties.

Five men have already been selected for the work, and all but one are students or former students of economics in the University of Minnesota. They are C. O. A. Olson of Minneapolis, who will work entirely in Hennepin county; Claude D. Randall of St. Paul, who will be assigned to Ramsey county; Earl H. Huntley of Preston, E. L. Swensen of Luverne and E. O. Wilson, formerly of Kasson but now a resident of Minneapolis. Mr. Huntley will visit the countries of Fillmore, Dodge, Winona, Freeborn, Goodhue, Le Sueur and Scott. Mr. Swenson is assigned to Rock, Jackson, Murray, Lincoln, Redwood, Lac qui Parle, Brown and Blue Earth counties. Mr. Wilson will take in Kittson, Marshall, Polk, Beltrami, Cass, Clay, Otter Tail and Wadena counties.

County Auditor Holden of St. Louis county will send a Duluth man, who will work in St. Louis, Aiktkin, Pine, Chisago, Isanti, Wright and McLead counties. Another will be assigned to Douglas, Stevens, Stearns, Kandiyohi, Morrison and Mille Lacs.

These agents of the commission will secure from the record of conveyances in the office of the register of deeds records of land sold since May 1, 1902, with dates and full descriptions. They will then get from the auditor's records the assessments on these same descriptions for 1902, 1904 and 1906. Each description will be entered on a separate card and sent in to the office of the commission. When tabulated they will show what ratio assessed values of real estate bear to actual values in different part of the state. This will have a bearing on the reassessment of the iron mines.

Treasurer After Railroads.

Clarence C. Dinehart, state treasurer, sent to the state auditor a list of railroad companies which he charges failed to pay their taxes in 1905 and 1906 before March, as provided by law, with the request that the auditor draw drafts on the companies for the amounts of the penalties due on account of the alleged delinquency in payment. The total amount of the payment made after March 1 by the railroads in those two years is $588,243.60, upon which the 5 per cent penalty would be $29,412.18.

The law provides that the railroads must pay their gross earnings taxes before March 1 each year, and fixes a penalty of 5 per cent of the taxes for failure to make the payments on time. This year the treasurer sent out notices to the railroads twice, notifying them of this law and giving notice that the penalties would be expected from delinquents. All of them paid up in time except the Canadian Northern and the Duluth Belt Line companies, which have paid the 5 per cent penalties.

Mr. Dinehart took up with Attorney General E. T. Young the matter of the collection of the penalties for the delinquent payments in 1905 and 1906. He was advised by the attorney general that such items are uncollected claims on the books of the office and can be collected, and that it is the treasurer's duty to call the delinquent to account. The auditor was to be notified and asked to draw his drafts on the companies for the amounts of the penalties. The auditor will turn the drafts over to the state treasurer, who will then notify the companies and ask them to pay the amounts of the drafts.

Tried to Eat His Money.

Mr. and Mrs. William Mecke of Dodge Center have identified the body of an unknown man that has been lying on a morgue table in Mankato for a week as that of Mrs. Mecke's uncle, John Moore, a retired farmer from near Sleepy Eye.

Moore was in Mankato last March and slipped on the sidewalk and fractured one hip He was taken to a hospital, where he opposed the efforts of the doctors and nurses on his behalf, tearing off the bandages until threatened with confinement in an insane asylum. He began tearing up $20 bills. When the nurses sought to get these away from him he swallowed the pieces.

He refused to give any account of himself or relatives, saying that he did not wish them to have his money. He finally died, and not until the remains were identified by a Sleepy Eye man was a clue to his identity obtained.

He was seventy-one years old, and leaves three brothers and one sister in Germany, to whom his estate, estimated at $10,000, will go.

Carp Too Smart.

Efforts to seine the carp out of Lake Madison at Mankato have failed. A force of men with nets, under direction of Game Warden Jordan, tried to rid the lake of the nuisance a day or so ago, but failed to get a single carp, although a good many fish of other varieties were netted.

During the operation two Mankato men were overturned in a boat and narrowly escaped drowning in nine feet of water.

MUST CONNECT TRACKS.

North-Western and Minneapolis & St. Louis Ordered to Put in Connection.

The state railroad and warehouse commission has made an order requiring the Chicago & North-Western and the Minneapolis & St. Louis railroads to construct and operate a transfer track in the city of New Ulm over which cars may be transferred from one road to the other. The order was made after a hearing on the petition of the New Ulm Stone company and other shippers and under the provisions of a law passed by the legislature last winter authorizing the commission to order such transfer tracks installed and operated where the tracks are within five hundred feet apart.

The commission finds that the tracks are parallel for a distance of over half a mile in the city, and the tracks are not more than five hundred feet apart, and that neither company has provided facilities at any point in New Ulm or vicinity for the transfer of cars. The New Ulm Stone company's quarries for about three miles from the city are provided with trackage by the North-Western. The market for the stone is the Twin Cities and various points along the St. Louis road, with which the stone company could do business if provided with transfer tracks at New Ulm, but the expense of transferring by wagon makes the price of the stone so high as to be prohibitory.

The commission also finds that the flouring mills at Hanska sells much of its products in Chicago and the East, and that much better time could be made when routed over the North-Western than over the St. Louis road and its connections, as much as five weeks has been consumed in switching in Chicago when shipped by that route.

The commission finds that it is practicable and necessary and a reasonable and proper accommodation for the citizens of New Ulm and others using these lines that ample transfer facilities by track connection for transfer of cars be provided by the companies, and they are ordered to install and operate the connecting tracks within thirty days.

If the companies cannot agree on the division of the cost of the construction of the line the commission, under the law, is required on the application of either party to determine the basis of the division.

NEW DAIRY BUILDING A GEM.

When the new dairy building for the state fair grounds is finished Minnesota will lead all other states in facilities for exhibiting butter and cheese products. The new building is to be 118 feet long and 142 feet wide, the walls to be solid brick. A unique feature will be an immense refrigerator and exhibition case combined, which will occupy the center of the building. This refrigerator will be 90 feet long and 40 feet wide. One end will be made into a cheese room, 12x14 feet; the rest of the refrigerator will be for butter displays. The sides will be glass, and terraced steps will be built within to carry the exhibits. There will also be a walk all around the inside, but this will only be used by those placing and handling the exhibits.

E. K. Slater, dairy and food commissioner, plans to have in the new building this fall the most complete state dairy and food department exhibit ever shown for the benefit of the public. For this purpose the southeast corner of the building will be reserved. The unique feature will be an actual, working chemical laboratory. Chemists will be on hand, busy analyzing foods. Foods analyzed will be those collected directly on the grounds. The results of such examinations will be posted as soon as they are completed.

TAX COMMISSION BUSY.

Gets Ready for Its Work on the Next Assessment.

The state tax commission is sending out circular letters to the county auditors and town boards of review, calling attention to the proper assessment and equalization of taxes among individuals. The commission urges the boards of review to be prompt in meeting on June 24 and to go carefully over the assessments and make a fair equalization of taxes.

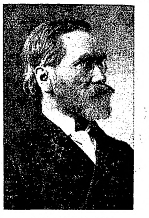
DRAINAGE WORK UNDER WAY.

State Engineer Returns From Inspection Tour.

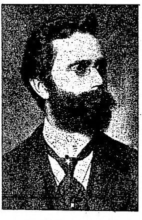
George A. Ralph, state drainage engineer has returned to St. Paul from a tour in several counties of the state inspecting the work on drainage ditches now in course of construction. He also attended the meeting in Aitkin county, where the subject of the construction of what is known as the Mississippi river cut-off was under consideration. Those at the meeting decided to ask the state drainage commission to have the project surveyed and its practicability investigated before any further steps in the matter are taken on the part of the people of Aitkin county. The proposed ditch is a large undertaking and is intended to drain thousands of acres of land which are flooded in times of high water.

The state drainage commissioners will go to Roseau county on June 26 to inspect the big ditch in that county which will be one of the largest in the state, being about thirty-five miles long. The work consists largely in improving the channel and cutting out bends in the Roseau river. When completed it will practically solve the drainage problems in this county.

Mr. Ralph reports that the government engineers and surveyors are now at work east of Thief River Falls, making a topographical survey of the lands in the Red Lake Indian reservation. The drainage project on the reservation now being considered by the federal government covers about one-third of the land in the reservation and is estimated to cost about $1,100,000. Congressman Halvor Steenerson has taken a great interest in this project and has secured appropriations aggregating $40,000 for carrying on the survey work preliminary to action on the drainage plans.



PROF. H. ERNEST
Of St. Paul, re-elected president of the Minnesota district of the Evangelical Lutheran synod.



REV. J. MITTERMAIER,
Pastor of Evangelical Lutheran church at Mapleton, Minn., where convention was held.

COLVILL COMMISSION.

Gov. Johnson Names Men Slected by First Regiment.

Gov. Johnson has appointed the following members of the First Minnesota volunteer regiment to act as a commission to build a monument and replica for Col. William Colvill, colonel of the First Minnesota: C. B. Heffelfinger, Minneapolis; H. T. Bevans, St. Paul; R. L. Gorman, St. Paul, and Matthew Taylor of Anoka. These members were selected by the regiment at the recent reunion in St. Paul.

The last legislature appropriated $10,000 for the statue and replica for Col. Colvill. The statue will stand at Cannon Falls and the replica will be placed on the grounds of the new capitol.

GEORGE T. OLSEN
Of. St. Peter, Minn., who has been appointed county attorney of Nicollet county to succeed the late A. A. Stone, for twenty-three years public prosecutor.

FIGHT MORTGAGE LAW.

The First National Bank of Windom has received instructions from clients in Iowa to make a test case of the new mortgage tax law by bringing mandamus proceedings to compel the register of deeds to record a mortgage without the payment of the registry fee. The proceedings will be started in Jackson county, as the mortgage selected to make the test with is one on property in Christiana township, that county.

The Fergus Falls council has accepted the bid of Courtland F. Ames, a Chicago contractor, for the construction of an electric light dam. The contract price is $47,235, with $5,000 for superintendence.

: : : :

Two small boys found a floater on the Otsego side of the river, opposite Elk River. He evidently was drowned in cold weather, as he had on a heavy sheepskin coat and rubbers. The coroner of Wright county was sent for.

: : : :

Louis W. Harpis, a jeweler of Atwater, was drowned in Diamond lake. There were two in the boat, which capsized. Harris tried to swim ashore, but was seized with cramps. The other man clung to the boat and was saved.

: : : :

A farmers' joint stock elevator company was recently organized at Slayton with A. O. Lander president and Clarence Brownwrigg secretary. The company has purchased the Tisdale elevator and will open for business on July 15.

: : : :

For the first time in a number of years Winona experienced a dry Sunday last week, the saloonkeepers having been warned that it would be best for them to obey the Sunday closing law after the recent supreme court decision.

: : : :

Anthony Stevens of Park Rapids is dead as a result of a runaway accident. Stevens was hauling rails for the road on the White Earth Indian reservation when his team ran away. He was thrown out and the heavy wagon passed over him, injuring him internally.

: : : :

Fire broke out in the paint room of William Radmacher's wholesale drug establishment at Winona, probably from spontaneous combustion. Before the firemen got the flames under control damages estimated at $20,000 on the stock and $5,000 on the building were sustained.

: : : :

The twelve owners of automobiles in Wadena are organizing an automobile club. An effort is being made to get auto owners from other near-by towns to join the club, which, it is hoped, eventually will have a membership of fifty. The purpose of the club is not alone pleasure, but the highways will be improved.

: : : :

While a party of young men from Eveleth were out on the lake in a rowboat they attempted to change places. The boat was overturned, but all managed to cling to the bottom. A gasoline launch picked up all of the party but Martin McNulty, who was taken with cramps and was drowned before assistance could reach him.

: : : :

John E. Boyington of Clearwater took a large dose of carbolic acid. He arose about 5 o'clock and went out to the barn to feed the stock. When he did not return for breakfast his wife went in search of him and found him lying dead in a stall. It is believed that the fact that he got the worst of it in a horse trade a few days before made him despondent.

: : : :

The state land sale at Bemidji was a big success. The officials sold 3,900 acres at an average of $7.75 per acre. One eighty sold at $24 per acre. At Bagley, Clearwater county, 3,300 acres sold at an average of $7.40 and one tract sold for $26.50 per acre. Parties from the southern counties in Minnesota and neighboring states were in attendance and bought small tracts.

: : : :

Two men and a boy were seriously injured by the premature explosion of dynamite with which they were blowing up stumps. The accident occurred on the Isaiah Orser homestead, near Brooston. Orser and C. M. Rose, a neighbor, received injuries which will cause them to lose an eye apiece, while Orser's young son was badly shocked, but is not believed to be permanently injured.

Mrs. Ernest Schwartz, living near Blue Earth, while pouring kerosene into a stove was so badly burned that she lived but a few hours.

THE REORGANIZED NEW YORK LIFE INSURANCE COMPANY.

The new Board of Trustees of the New York Life Insurance Company, chosen by the policyholders under the Armstrong laws, has taken charge of the company's affairs and has begun the work of reorganization.

In choosing the principal officers of the company, the Board has adhered to the idea that a life insurance company should be managed by life insurance men. The new president is Darwin P. Kingsley, a college bred man of good New England stock, who has been in the company's service in a variety of capacities for a period of nearly twenty years. In the parlance of life insurance, he "began with the rate book" and has advanced step by step up to his present position.

The first vice president of the company is Thomas A. Buckner, who has served the company for more than a quarter of a century,—indeed has never had any other business connection.

Associated with these men are others long trained in the company's service, each an expert in his own department of work. Wm. E. Ingersoll, who has for many years had charge of the company's great business in Europe, is one of the second vice presidents, and will continue at the head of the company's office in Paris.

Rufus W. Weeks, who has been in the company's service for nearly forty years, ranks next to Mr. Buckner as vice president, and continuous as chief actuary of the company.

The policyholders have expressed their belief in this company in no uncertain terms. The upheaval in life insurance within the last two years has resulted in a great deal of misunderstanding and policyholders, alarmed on matters which were not very clear to them, have been disposed to give up their contracts at a heavy sacrifice. This has not been true in the New York Life to any great extent. The company had $2,000,000,000 insurance on its books when the life insurance investigation began, and while the laws of the State of New York now do not permit any company to write over $150,000,000 a year (which is about one-half the New York Life formerly did), the company's outstanding business still exceeds $2,000,000,000.

Policyholders generally will be still further reassured by this action of the Board, as it places at the head of the company to protect their interests men of thorough training and unexceptionable character.

FILING CASE FOR SOCKS.

Swagger Dressers Make Their Valets Keep a Record.

"The filing case for your collar and your cravat is about the latest we have put out," said a haberdasher.

"Yes, when you get twenty-five or thirty cravats of different species and four or five dozen collars of different styles and names you naturally want to put your hand on them in a second, for nine times out of ten you're in a hurry when dressing.

The valets of some men of fashion have their file cards giving the name, size and description of collar and cravat. These cards have to be attended to by the man's secretary right along, according to the memoranda given him by the valet.

"The card tells where to get the particular collar or cravat in its particular compartment of the drawer files. When collars are laundered or new ones purchased these must be labeled and located immediately.

"Some 'dashers' who run to a great rainbow variety of socks, also have them inventoried and card and drawer filed."

Guilty of Something.

Sergt. Day was as regimental as a buttonstick. "Shun!" he cried to his squad. "Quick march! Left wheel! Halt! Take Murphy's name for talking in the ranks."

"But he wasn't talking," protested a corporal who was standing near.

"Wasn't he?" roared Sergt. Day "Don't matter, then. Cross it out, and put him in the guard room for deceiving me!"

DOCTOR'S FOOD TALK

Selection of Food One of the Most Important Acts in Life.

A Mass. doctor says: "Our health and physical and mental happiness are so largely under our personal control that the proper selection of food should be, and is one of the most important acts in life.

"On this subject, I may say that I know of no food equal in digestibility, and more powerful in point of nutriment, than the modern Grape-Nuts, four heaping teaspoons of which is sufficient for the cereal part of a meal, and experience demonstrates that the user is perfectly nourished from one meal to another.

"I am convinced that the extensive and general use of high class foods of this character would increase the term of human life, add to the sum total of happiness and very considerably improve society in general. I am free to mention the food, for I personally know of its value."

Grape-Nuts food can be used by babes in arms, or adults. It is ready cooked, can be served instantly, either cold with cream, or with hot water or hot milk poured over. All sorts of puddings and fancy dishes can be made with Grape-Nuts. The food is concentrated and very economical, for four heaping teaspoons are sufficient for the cereal part of a meal. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

SAYS HE GAVE DEARTH $200

FORMER PRESIDENT BECHTEL CLAIMS THERE WAS NO VERBAL AGREEMENT.

Minneapolis, June 28.—"I placed an envelope containing $200 in Mr. Dearth's pocket as he left the office of the insurance company," testified W. F. Bechtel, former president of the Northwestern Life Insurance Company of Minneapolis, on the stand yesterday in the trial of Elmer H. Dearth, former state insurance commissioner, charged with accepting a bribe.

"Mr. Dearth protested," continued Bechtel, "and I said, 'That is all right, Elmer. I only wish I could give you more.' Nothing had been said about money, but as he was leaving I asked Mr. Timme if he had any money, and he said he had."

Bechtel related how he took the money and put it in an envelope, which he then put in Dearth's pocket.

During the afternoon session the prosecution attempted to show some spoken agreement between Dearth and the officials of the company that the money should be paid to him. Bechtel denied that any such agreement had been made, saying: "Mr. Dearth told me he didn't want the money, didn't expect any, and my giving it to him was all there was to it."

WISCONSIN LEGISLATURE.

Assembly Passes Mutual Insurance Bill.

Madison' Wis., June 28.— The assembly yesterday passed the bill as reported from the committee relating to the election of directors of mutual life insurance companies, which provides that policyholders may vote by mail, proxy or person.

The bill permits a ballot for every $500 of insurance, or interest in the election according to the amount of insurance. Speaker Ekern favored the abolition of the proxy. The bill passed by a vote of 58 to 26 and now goes to the senate.

The assembly concurred in the senate amendment to a bill fixing eight hours as the length of the day for railroad telegraphers.

The assembly passed the bill authorizing the state park board to investigate and report to the next legislature on the advisability of the state purchasing the site of the first capitol at Belmont and converting it into a state park. The bill carries an appropriation of $200.

200 CLOSE TO DEATH.

North-Western Train Is Derailed on High Bank.

Appleton, Wis., June 28.—Two hundred people, mostly from the northern parts of Wisconsin and Minnesota had a miraculous escape from death last evening when Train No. 5 on the Ashland division of the Chicago & North-Western, while rounding a curve at the head of the steepest grade of the division, left the rails owing to the front trucks of the tender jumping the track and carrying other cars with it.

At the place where the accident occurred is an embankment, 148 feet high, down which the train would have plunged had the rear cars not remained on the track.

BLOWS HIMSELF TO ATOMS.

Quarryman Uses Dynamite After Quarrel With His Wife.

Monroe, Mich., June 28.—After his wife had refused yesterday to come back and live with him because of his drinking habits, George Cummer, a quarryman here, walked to the barn at the rear of his wife's house, lay down on the floor and blew himself to pieces with a stick of dynamite. He had carried the dynamite in his hand from the quarry where he was employed and evidently had planned the suicide if his wife persisted in refusing to live with him. All that was left of him after the explosion were his legs.

CLOUDBURST IN MONTANA.

One Woman and Seventy Horses Known to Have Perished.

Helena, Mont., June 28.—A special from Terry, Mont., says that a cloudburst occurred about twenty miles distant, in which one woman and about seventy horses were drowned. The cloudburst occurred near the junction of Sandstone creek and the Yellowstone river, and the horses belonged to H. A. Whittier, a general contractor on the new transcontinental line of the Chicago, Milwaukee & St. Paul. No details are known. The name of the woman was unobtainable.

CRUSHED BY PULP PILE.

Workman Is Paralyzed by Accident and Probably Will Die.

Grand Rapids, Wis., June 28.—William Mann, an employe of the Consolidated Pulp and Water Power company, was buried underneath a pile of pulp last evening, and as a result his body is paralyzed. His recovery is not expected.

Killed by Live Wire.

Oconomowoc, Wis., June 28.—While making a transfer of his trolley last night William McCullough, a motor man on the Milwaukee-Waukesha-Oconomowoc electric line, was instantly killed by coming into contact with a live wire.

Hero Saves Man in Well.

Atlantic, Iowa, June 28.—At imminent risk to himself, Abraham Walker descended into a well at Massena and rescued Michael Johnson, who had been overcome by foul gases.

Rickets.

Simply the visible sign that baby's tiny bones are not forming rapidly enough.

Lack of nourishment is the cause.

Scott's Emulsion nourishes baby's entire system. Stimulates and makes bone.

Exactly what baby needs.

John A. Johnson.

You have taken pains to state,
John A. Johnson,
That you're not a candidate,
John A. Johnson;
But, now didn't Frank A. Day,
In the words he had to say,
Really give the snap away,
John A. Johnson?

When the great convention meets,
John A. Johnson,
Occupying all its seats,
John A. Johnson:
If the mention of your name,
Set the hearts of men aflame,
Will you then be in the game,
John. A. Johnson?

If your presence in the crowd,
John A. Johnson,
Wakes the echoes long and loud,
John A. Johnson;
If it seems to be your lot,
To have honors all unsought,
Will you run or will you not,
John A. Johnson?

Would you like it? Tell me that,
John A. Johnson,
Talk not through your stovepipe hat,
John A. Johnson;
Does it set your brain on fire?
Do, or do you not aspire,
To attain the summit higher,
John A. Johnson?

If you want it, do not fear,
John A. Johnson,
I will represent you here,
John A. Johnson;
As for me the die is cast,
Bryan's day is long since passed—
I'm for Johnson first and last,
John A. Johnson.

—"Doc" Bixby in Lincoln, Neb., State Journal.

THE drunken young man and his automobile are soon parted, but it is too frequently disastrous to the innocent by-stander.

WHETHER you chew your food or bolt it, suggests the Duluth Herald, you must first catch your food, and the pursuit of it does not seem to be getting any easier.

HENRI WATTERSON is said to have owned up that his carefully concealed candidate for Democratic presidential nomination is none other than Governor Johnson.

THE unwritten law is receiving so much citation lately that we might as well write it out. Whether legal or illegal very few men are hanged who shoot in defense of a woman's honor.

PETER SCHAEFER, editor of the Ely Miner is the postmaster by grace of Congressman Bede. Pete can lick the stamps or anything else that gets in his way, and besides is one f the most popular fellows in the newspaper profession.

SAYS the St. Hilaire Spectator: It made us blush the other day when we read in a daily paper that Alice Roosevelt was expecting a visit from the stork. Foolish thing, telling such stuff to a reporter. The local scribe would have to hide during the day and sneaketh to work after dark were he to publish such "news."

NEVER forget that you are a part of the town, and that your own deportment helps to make up the strangers' estimate of the place, says the Iron River Reporter. Sell all you can and buy all you can at home. Every dollar that is sent or carried away from home makes the town that much poorer. If you have the means, invest it in something that will give somebody employment. Do not kick at a proposed improvement simply because it is not at your own door.

Subscribe for The Red Lake Courier.

IF tournament visitors from other parts of Red Lake county will take careful note of comments on the affair by the Thief River Falls papers they can easily see where the "square deal" fellows up stream never try to be fair in any instance, and their misrepresentations regarding the tournament were no more pronounced than their misrepresentation of every other matter that concerns their wonderful burg. Thief River Falls never exhibited a fair spirit of sportsmanship on any occasion, and it can hardly be expected that they ever will.

THE Warren papers gave Red Lake Falls a nice send-off on the tournament, and every Warrenite present at the big blowout here was enthusiastic in his praise of the treatment accorded all by Red Lake Falls. Warren is composed of a set people who are honest and above board and their spirit of fairness is always commendable. They did not find one fault with any part of the program of tournament week, and it is a cinch that Red Lake Falls will long be remembered with pleasure by the firemen and people of the Marshall county metropolis.

THE city election occurs in November of this year, but thus far there does not appear to be any concern as to the prospective lineup. A commendable feature of the makeup of Red Lake Falls is that no internal troubles mar the business relations of her people, and at the proper time a competent set of men is picked for the offices and elected without a fight of any kind. It is very natural to presume that such will be the case again this year, and at the fall election there will be men chosen whose interest in the city's welfare is well known.

THE Crookston Times says the address delivered by Governor Johnson at the commencement exercises of the University of Pennsylvania reflected credit upon the state of Minnesota which rightly congratulates itself upon having a chief executive as able and as winning as John A. Johnson. The four men of Minnesota whom he held up to the Pennsylvanians as representatives of the types developed by the opportunities the state has to offer—Mayo, Kellogg, Cole and Hill—are well chosen; but is it unlikely that the governor's audience saw it in the man before them a more real, insistent, and convincing proof of the opportunities Minnesota offers to her sons than in any of the men the speaker chose to instance to them?

The Vote Accounted for.

A story is related of an ambitious gentleman who rather unwisely stood as a candidate for some office, and who, at the close of the poll, was found to have received only one vote. The candidate was excessively mortified, and to increase his chagrin his neighbors talked as if it were a matter of course that he had given that one vote himself. This annoyed him so much that he offered a two-and-a-half guinea suit of clothes to his only supporter if the individual would come forward and declare himself.

An Irishman responded to this appeal, proved his claim, and called for the reward.

"How did it happen?" inquired the candidate, taken quite by surprise. "How did it happen that you voted for me?"

The Hibernian hesitated, but, on being pressed, he answered:

"If Oi tell yez, ye won't go back on the suit o' clothes?"

"Oh, no; I promise you you shall have the suit, anyhow."

"Faix, then, yer 'anser," replied Pat, "shure Oi made a mistake in the ballot paper."

Last Mountain Valley Lands We own thousands of acres of Choice Selected Land in this district, which is right in the heart of the Great Wheat Plains of Saskatchewan. The richness of the soil in this district is shown in the reports to the Government which give an average of 25½ bushels of wheat to the acre for 1906. The great development of this part of Western Canada has brought about the competition of 3 railways. Ample timber for fuel and fencing. Send 15c for beautiful, new souvenir book, entitled "The Lake and the Land of the Last Mountain Valley." Also 20th Century Atlas of Canada sent with souvenir book. Write to-day. Maps, descriptive matter, etc., on request.

THE VALUE OF GOOD COWS

Few Farmers Realize the Income Which May Be Realized from Them.

Prof. Eckels, in charge of the department of dairy husbandry at the University of Missouri, says of the value of good cows:

"Very few farmers realize the income that can be had from a good cow. The farmer who keeps a cow a year to raise a $15 or $20 calf, usually thinks he has done well, but his profits do not compare with those of the dairyman. Except with the high-priced registered cattle, the milk, not the calf, is the most valuable product of the cow.

"The milk produced by the average Missouri cow in a year will sell for about $50 at the creamery or when made into first-class butter. A good cow of the dairy breed will make at least $50 cash income every year. I have a list of about 50 Missouri farmers who report a cash income of $50 to $100 a cow every year, and these figures do not include the income from the sale of calves, and pigs fed on the skim milk. 'But,' says one, 'milking is a tremendous task.' As a matter of fact, it takes only 60 hours, worth 15 cents an hour, to milk a cow twice a day for ten months.

"Last year the cash income from the herd of cattle on the college farm was $82.50 a cow for butter sold and $12.50 a cow for milk, skimmed milk and calves, making a total income from each cow of $95. This year the average income per cow from the same source will be over $100 for the entire herd of 28. These results do not come from expensive or excessive treatment of any kind. But they are the result of doing the right things at the right time in the proper way."

CHICAGO'S FREIGHT SUBWAY

Will Furnish Facilities for the Best Underground Mail Service in the World.

Far below the surface of Chicago's streets scores of electric locomotives are pulling freight trains that are taking thousands of tons of coal into the boiler rooms of skyscrapers, without dirt, noise or sign of effort in the street, says the Scientific American. They are removing tons of ashes, and caring for the excavations from the basements of buildings in course of construction. More than this, they are hauling daily thousands of tons of freight which was formerly carried over the pavements in wagons. On February 15, 1905, the company entered into a contract with the government under which all Chicago's second, third and fourth-class mail matter will be transferred from the railway stations to the new post office through the tunnels. A further plan to utilize the tunnel for mail purposes involves the building of chutes connecting the street corner mail boxes with boxes in the tunnel, where the mail can be collected by cars. When the new schemes are perfected and added to the present pneumatic tube service for first-class mail, Chicago will have the most perfect underground mail facilities in the world. Eight hundred and eighty tons of mail will be handled in the tunnels daily, in special locked United States cars. The system will be in operation by June 1.

Without noise, dirt, smoke or the slightest delay to traffic, the central business district of Chicago has been honeycombed with these tunnels. Twenty-eight miles already have been constructed, and extensions are projected.

OUR SHARE OF SIMPLON.

Drill That Made the Plan Possible Was Invented by an American.

To the great Alpine tunnels we have, of course, contributed nothing in money and probably nothing in labor. It is not probable that an American was employed in any of them. But we did contribute the original invention which enabled the Mort Cenis to get through even in 13 years, the St. Gothard in nine, and the Simplon in less than seven, says a writer in the Chicago Inter Ocean.

J. J. Couch, an American, in 1849 made the first machine rock drill. He was the first man in all the world to substitute steam or other mechanical power of human muscle in such work. The use and adaptation of his invention was slow in spreading. In 1857 it was so little known that work began on the Mont Cenis tunnel with hand drills, and machine drills were not used on the Italian end until 1860, or on the French end until 1862.

The American inventor made the Mont Cenis tunnel commercially practicable. He shortened the time of such works all over the world. He made the Simplon tunnel possible in less than seven years.

That is the American share in the great engineering work whose completion Europe is now celebrating.

Tragedy in Indiana.

Fort Wayne, Ind., March 11.—Joseph Jobst, 44 years old, a driver of a brewery wagon, shot his wife Friday and then committed suicide. The woman will live. She had applied for a divorce from Jobst.

Editor Munn Dies.

New York, March 13.—Henry Norcross Munn, editor of the Scientific American, is dead at his home in this cty. He was a member of the firm which publishes that paper.

A Record Price.

New York, March 13.—A seat on the New York stock exchange has been sold for $82,500. This is the high record price. The name of the purchaser is not disclosed.

POINTER FOR TOURISTS.

Pack Your Prayer Book on Top, but Don't Be Free With Your Cigars.

"If you ever go to Bermuda, I can tell you how to make time at the custom house," said a returning New Yorker. "I reached Bermuda early in the morning. I made up my luggage rather hastily before leaving the ship.

"Just as I was ready to close my suit case I noticed that I had left my prayer book on the lounge. I pitched it in rather unceremoniously, strapped down the case and hurried ashore.

"You don't have to wait to declare as you do when coming into the port of New York. As I stepped into the office of the Johnny Bull official I unstrapped my case and opened it up. The official talked at me as if I had been a telephone.

"'Hello,' he said, the first thing. 'What's this?' he asked, picking up my prayer book. 'Prayer book, eh? All right. Shut up your case.'

"'No, you're all right, my friend. Any man who will put his prayer book on top of his traps isn't likely to beat the government. I'll take that for your declaration.'

"I threw him half a dozen cigars. That's where I made my mistake.

"'Got any more like these in that case?' asked the official.

"I said I hadn't, but do you know he wouldn't believe me, and I had to open up the case again, and he went through it as if he thought I was a smuggler."

RIDING ON A SURF BOARD.

Hawaiian Beaches Afford a Sport That Is Not Known Elsewhere.

At Waikiki, near Honolulu, is a famous bathing beach. Here winter and summer the surf canoes, or, better yet, the surf boards, come dancing in on the long rollers and men become amphibious.

There is no sensation quite comparable to riding a surfe board on a Pacific roller. It is tobogganing on a moving hillside of water, or, if you are clever enough to stand up on four board, it is taking this hillside on a single big ski. The beach runs far out before it shelves into deep water, and the breakers begin to mount almost half a mile, at high tide, from the shore line. You go out there with your surf board and wait for the wave.

You learn to catch it at the right moment, throw your board inshore, and climb upon it just as the crest of the roller mounts and catches you. Then, on this crest, you sail in toward the shore, to slide down at last when the wave breaks, down the foaming incline into shallow water and churning foam. It is royal sport.

An Embarrassing Gift.

Dr. W. G. Grace, the famous English cricketer, has been the recipient of many gifts from lovers of cricket as tangible proofs of their admiration of his prowess. Some of them have been remarkable in character, but perhaps the most embarrassing gift he ever received was one of three young pigs which a Worcestershire farmer sent to him in recognition of a great batting feat which he had witnessed.

Comfort Better Than Style.

A man went into a men's furnishing store in Grand Haven recently to buy a shirt, and the clerk inquired if he wanted one with or without a collar. "Give me the kind without a collar," the purchaser said. "The collar hurts my neck when I go to bed."—Grand Rapids Press.

Suggestive Names.

The Coxcomb mountains of British Honduras, to some extent an unknown part of the famous Mahogany coast, are undergoing a process of christening which will identify them for all times with the begining of the twentieth century. One range has just been named the Queen Alexandra mountains, another range takes the name of the Prince of Wales, and a 4,000 foot peak has been named Mount Joseph Chamberlain.

Origin of "Grass Widow."

Grass widow is a term derived from the French word "grace," meaning courtesy, and has nothing to do with the English word "grass."

Joseph Laurent, of Terrebonne, spent Sunday at Crookston with his wife who has been sick there for a week past.

Ole and John Olson of Lambert, spent Monday in this city taking in the state land sale and looking after business matters.

Mr. and Mrs. Arthur F. Ittner of St. Hilaire, were over Sunday visitors at the home of Mr. Ittner's mother in this city.

Crookston will be decidedly lively next week. The Parker carnival company will exhibit there for three days and a big time is looked for.

Frank Jeffers spent several days of this week looking after business for the Miller-Davis company at points along the Greenbush line.

For genuine bargains in tinware, novelties, etc., take a look at Kankel's ten cent window. The goods are going fast, hurry if you want some.

Miss Anna Rogers, of Granite Falls, is the guest of her sister, Mrs. L. C. Simons, and is enjoying the visit with her many old-time friends immensely.

Dr. Spofford makes his next regular visit to Red Lake Falls July 7. At Grand View hotel. Remember the date if your eyes trouble you.

Clyde Childs and Charles Hallas, two prominent Poplar River farmers, spent Monday in the city attending the state land sale and looking after business matters.

Today is the glorious Fourth. Red Lake Falls is not celebrating this year but a number of our people are at St. Hilaire and Wylie, helping make the eagle scream.

Hugo Zaiser has spent the past ten days with his brothers and many friends here. Hugo likes city life real well but feels at home when he gets back to Red Lake Falls.

The Castello railroad shows exhibited here Monday evening to a fair crowd and put up a reasonably good article of show. They went from here to St. Hilaire Tuesday.

Mrs. James Egan, who was operated on for appendicitis at a Fargo hospital two weeks ago, is reported as improving nicely and will be able to return to her home within a short time.

The grand stand erected at the ball ground for tournament use is being torn down this week. In case there is a ball game here Sunday, Mr. Doran will leave up part of the stand for the accommodation of the crowd.

Barnum & Baily's world's greatest circus will exhibit at Crookston Tuesday, July 23. The first advertising car passed through here this week and the town was covered with advertising matter, announcing the big event.

Rev. G. Boltinger, of Burt, Iowa. will occupy the pulpit at the Presbyterian church for the next two Sundays, and the usual services will be held. Rev. Boltinger is a fluent speaker and has been very successful in his church work.

Chris Erickson, of Tower, North Dakota, spent Sunday in this city and attended the state land sale on Monday. Mr. Erickson purchased a choice quarter at the sale and is enthusiastic over this part of the Red River Valley.

Charles Carpenter, of Grafton, North Dakota arrived Tuesday for a visit of a few days here. Mrs. Carpenter has been a guest of her cousins, Mesdames S. L. Lewis and M. A. Converse and Miss Lillian Buse for the past week.

Mrs. H. N. Johnson returned Saturday from a several days' visit with friends at Park River, North Dakota, and with Mr. Johnson at Lankin. Mrs. Johnson expects to remian at her parents' home a great part of the summer.

Rev. Neil A. Gilchrist, pastor-at large of the Adams Presbytery, occupied the pulpit at the Presbyterian church in this city Sunday. Rev. Gilchrist is a very interesting talker, and preached to crowded houses both morning and evening.

The books of the various assessors of the county were returned to County Auditor O'Brien the first of the week and the force at the auditer's office is at present working hard to get out the tabular statement for the county board of equalization.

The new Clearwater Mercantile company at Plummer is opened up for business, with S. A. Lochen, an experienced salesman and manager, in charge. The new store is complete in all respects and will without doubt be a great benefit to Plummer.

Mr. and Mrs. James McPeak received cards last week announcing the marriage of Miss May Collins and Geo. E. Schilling, on May 1st, at Manilla, P. I. Miss Collins is a daughter of Mrs. McPeak, but for the past few years has been teaching in the Philippines.

A large addition has been added to the CROOKSTON COLLEGE this summer. The building is up-to-date in every respect and will now accommodate 500 students. The college catalogue is just printed and you can get a copy free by writing to J. C. Sathre, Crookston, Minn.

A new cement walk is being built by Contractor Lindtner along the north side of Third street, east of Champagne. There are a number of others waiting for Mr. Lindtner to get around to them, and the present summer will witness a lot of improvements in the sidewalk building line.

Nap Bray, came over from Crookston and spent Monday with his brother Ed. Nap expects to go to Winnipeg later in the month and rumor has it that he will shortly lead a prominent young lady of that city to the altar. Nap has many friends here who will wish him all kinds of success.

J. A. Bray and wife left last Friday evening for their home in Blackduck after an enjoyable visit with their relatives and many friends here. Mr. and Mrs. Bray both have a warm spot in their hearts for Red Lake Falls, and the people here wish that they could make their home with us for all time to come.

Wm. Granger, employed in the United States census bureau, was here last week gathering statistics for his department in the government service. While here Mr. Granger went over the records at Clerk of Court Johnson's office to determine the number of marriages and divorce in Red Lake county during the past year.

Carl E. Peterson and bride arrived here Monday and are at present receiving the congratulations of their many friends. They will go to housekeeping at once in the Morissette cottage on south Main street, and will be at home to their friends within a few weeks. Mr. Peterson will assume his new duties as foreman of THE COURIER job rooms next Monday.

Joseph Paranteau, the Terrebonne cheese maker last week received his returns on the April contest of the state dairy and food commission. Joe's score on cheese was 961-2 points, one of the highest in the state and naturally he is gratified at the outcome. "Little Joe" is one of the best cheese makers in the business and his many friends are pleased at his success.

Mrs. J. B. Armstrong left Monday evening for Staples where she will visit a few weeks with relatives. From there she will go to Minneapolis and later to Iowa points and will spend the next month enjoying herself. Mrs. Armstrong expects to go west about August first with Mr. Armstrong, to settle permanently in their Missoula home.

Alexandria Post-News: Judge Simons and family, of Red Lake Falls, and Miss Anna Rogers of Granite Falls spent several days last week at the Nauman home in Carlo. Judge Simons was the first judge of probate in Red Lake county and represented his district in legislature several terms. The judge was well pleased with this locality and will probably buy property on one of the lakes and build a summer home.

Scott C. Hall and wife of Larimore have spent the past week at the D. W. Brown and Ovide Emard homes in this city. Scott has been braking on the Great Northern for the past year and has some interesting stories and pictures to tell of the hardships railroad men in Dakota were obliged to undergo during the past winter. Several of his views on snowbound trains make one resolve on the q. t. to spend the winters in the future where the flowers bloom continually.

Matt Skala is making some extensive improvements with his North Side property, and when he gets all through with the work will have one of the really modern stores in the county. He has raised his old store building and at present is making a roomy basement underneath. When this is completed he expects to add fifty feet more to the structure and make other substantial improvements. Matt is one of the fellows that believes in being strictly up-to-date, and the COURIER hopes that he will always be successful.

The graduation exercises by the pupils of St. Joseph's parochial school, held at the Metropolitan opera house last Thursday evening were largely attended and the program was carried out in a splendid manner. The program was a varied one, and aside from parts by several of the young people, contained numerous pleasing musical numbers and sketches. The address and presentation of diplomas by the Very Rev. Father Fayolle was listened to with rapt attention by the members of the class and audience in general and his remarks were pronounced excellent by all who heard him.

A case was tried in Justice Swanson's court Monday evening entitled the State vs. Mary Chrpa, of Star township, the complaining witness being one Clara Manuel, a neighbor of the Chrpa family. It appears that some neighborhood trouble arose and hot words were passed around, the with result that the woman was arrested charged with criminal slander. The defendant called for a jury and was represented by Messrs Grady and Boughton while County Attorney Germo conducted the state's case. The trial was held at the city hall and the court room was packed with interested spectators. The evidence was not at all complete and after an hour's deliberation the jury returned a verdict of "not guilty."

Attorney Caarles E. Boughton was over at Warren last week, and before the district court in session there, appeared for the defendant in the case of Houle vs Paranteau. It seems that Paranteau re-let a Marshal county ditch contract to Houles father last summer and the subcontractors failed to finish the ditch with the result that Mr. Paranteau was obliged to go to a big expense to complete the work. Houle's son then came in with a suit against Paranteau for labor performed and the case was tried before Judge Grindeland at Warren last week. Attorneys Brown and Eckstrom, of Warren, and Brett of Stephen, appeared for Houle, and Attorney Boughton, of this city for Paranteau. COURIER readers know the result and friend Charley added more laurels to his belt by having the case against his client dismissed before it went to jury.

Fatal Fault.

"She's really too young to go shopping alone."

"Yes, she is rather impressionable."

"Impressionable? I don't see——"

"I mean she's liable to get excited and buy something."

FARMERS

WE ARE HERE TO HELP YOU MAKE FARMING A SUCCESS.

Jas. J. Hill made money raising cattle, hogs and sheep--so can you

Take advantage of this opportunity. Buy Cows. Take you cream and milk to the Creameries and Cheese Factories from now on.

We Will Loan You Money To Buy Cows. Call on Us

First State Bank

RED LAKE FALLS, MINNESOTA.

WE MAKE FARM LOANS..........

HOT WEATHER APPAREL

We can help you keep cool. Our stock of torrid weather furnishings is replete.

Men's Outing Shirts, in Soisette checked Madrass, $1 to **$2**

Balbriggan Underwear, cool and nice per suit, from 50c to **$1**

Light weight summer Australian wool, derby ribbed, soft, elastic, non clinging Underwear; will wear well; try a suit at **$2**

Union Suits, we have your size at........ **$1.25 $1.50 $2.00 $2.25 $3.00**

A brand new line of Elgin and Wilson shirts; the finest, best finished, perfect fitting Shirts made; roomy, will not draw across chest of corpulent men. $1.00 to $2.00. Cheaper line at 50c and 75c.

Our line will be complete at all times. We intend to keep our stock of furnishings right up to the minute in style. As to quality, this store has been a store of quality first, price afterward.

The Big Store **Red Lake Falls**

Singing Kettle.

The Japanese who know so well how to add little unexpected attractions to everyday life, manufacture in a great variety of forms, iron teakettles which break into songs when the kettle boils. The song may not be a perfect melody, but it is perhaps as agreeable as the notes produced by some of the insects which the Japanese also treasure for their music. A trial will convince you that golden grain belt beer is not only the purest of all beverages but also the most beneficial to the body and mind. Order of your nearest dealer or be supplied by Alex Thompson, Crookston.

I'll stop pour pain free. To show you first—before you spend a penny—what my Pink Pain Tablets can do, I will mail you free a trial package of them—Dr. Shoop's Headache Tablets. Neuralgia, Headache, Toothache, Period pains, etc., are due to blood congestion. Dr. Shoop's Headache Tablets kill pain by coaxing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis. Sold by all dealers.

ICE CREAM PARLORS.

I have opened up a first-class ice cream parlor in the Duffy building at the corner of Main and Third Street, and respectfully ask a share of the public's patronage. I am prepared to furnish ice cream by dish, quart or gallon or in any quantity for special occasions. I will keep the best ice cream possible to be had from pure cream and will guarantee you fair treatment. Call on me.

F. C. Westphal.

Red Lake Falls.

PROPOSALS WANTED.

Proposals will be received by the Board of Auditors of Red Lake county Minnesota, until 3 o'clock p. m. July 8th, 1907, stating the rate of interest which would be paid on monthly balances of county funds subject to check and payments at all times on demand and the rate of interest which would be paid on such funds or any part thereof, when deposited for any certain length of time and the security which would be given therefor.

BOARD OF AUDITORS
of Red Lake county
Red Lake Falls, Minnesota.
Dated June 20, 1907

I will mail you free, to prove merit, a sample of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart or The Kidneys. Troubles of the stomach, heart or kidneys, are merely symptoms of deeper ailment. Don't make the common error of treating the symptoms only. Symptom treatment is treating the result of your ailmentt, not the cause. Weak stomach nerves—the inside nerves—mean stomach weakness, always. And the heart, and kidneys as well have their controlling or inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's restorative Write me for sample and free book. Dr Shoop, Racine, Wis. The Restorative is sold by all dealers.

Free, for Catarrh, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow white, creamy, healing antiseptic balm. Containing such healing ingredients as Oil Eucaliptus, Thymol, menthol, etc., it gives instant relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by all dealers.

Caribou in Newfoundland.

Thousands of caribou, or North American reindeer, are to be found in Newfoundland.

WALL PAPER

Our new spring stock is here, and if you need anything in this line you should see our styles. In new and exclusive designs at from............. **10c to 50c**

CURTAINS

We have a very nice line at popular prices. Our 25c cloth shade is a dandy for the price.

RED LAKE FALLS, MINN.

SISTER ROSE.
A STORY OF THE FRENCH REVOLUTION
BY WILKIE COLLINS

CHAPTER VIII.—[CONTINUED.]

Ever sadder and darker grew the face of Lomaque as he now pondered alone over the changes and misfortunes of the past five years. A neighboring church clock striking the hour of seven aroused him from his meditations. He arranged the confused mass of papers before him—looked towards the door as if expecting some one to enter—then, finding himself alone, recurred to the one special paper which had first suggested his long train of gloomy thoughts. The few lines it contained were signed in cipher and ran thus:

"You are aware that your superintendent, Danville, obtained leave of absence, last week, to attend to some affairs of his at Lyons, and that he is not expected back just yet for a day or two. While he is away, push on the affair of Trudaine. Collect all the evidence, and hold yourself in readiness to act on it at a moment's notice. Don't leave the office until you have heard from me again. If you have a copy of the Private Instructions respecting Danville, which you wrote for me, send it to my house. I wish to refresh my memory. Your original letter is burnt."

Here the note abruptly terminated. As he folded it up, and put it in his pocket, Lomaque sighed. This was a very rare expression of feeling with him. He leaned back in his chair, and beat his nails impatiently on the table. Suddenly there was a faint little rap at the room door, and eight or ten men—evidently familiars of the new French Inquisition—quietly entered, and ranged themselves against the wall.

Lomaque nodded to two of them. "Picard and Magloire, go and sit down at that desk. I shall want you after the rest are gone." Saying this, Lomaque handed certain sealed and docketed papers to the other men waiting in the room, who received them in silence, bowed, and went out. Innocent spectators might have thought them clerks taking bills of lading from a merchant. Who could have imagined that the giving and receiving of Denunciation, Arrest Orders and Death Warrants—the providing of its doomed human meal for the all-devouring guillotine—could have been managed so coolly and quietly with such unruffled calmness of official routine?

"Now," said Lomaque, turning to the two men at the desk as the door closed, "have you got those notes about you?" (They answered in the affirmative.) "Picard, you have the first particulars of this affair of Trudaine, so you must begin reading. I have sent in the reports, but may as well go over the evidence again from the commencement, to make sure that nothing has been left out. If any corrections are to be made, now is the time to make them. Read, Picard, and lose as little time as you possibly can."

Thus admonished, Picard drew some long slips of paper from his pocket and commenced reading from them as follows:

"Minutes of evidence collected concerning Louis Trudaine, suspected, on the denunciation of Citizen Superintendent Danville, of hostility to the sacred cause of liberty, and of disaffection to the sovereignty of the people. (1) The suspected person is placed under secret observation, and these facts are elicited: He is twice seen passing at night from his own house to a house in Rue de Clery. On the first night he carries with him money, on the second papers. He returns without either. These particulars have been obtained through a citizen engaged to help Trudaine in housekeeping (one of the sort called Servants in the days of the Tyrants). This man is a good patriot, who can be trusted to watch Trudaine's actions. (2) The inmates of the house in the Rue de Clery are numerous, and in some cases not so well known to the government as could be wished. It is found difficult to gain certain information about the person or persons visited by Trudaine without having recourse to an arrest. (3) An arrest is thought premature at this preliminary stage of the proceedings, being likely to stop the development of conspiracy, and give warning to the guilty to fly. Order thereupon given to watch and wait, for the present. (4) Citizen Superintendent Danville quits Paris for a short time. The office of watching Trudaine is, then, taken out of the hands of the undersigned, and confided to his comrade, Magloire.—Signed, Picard. Countersigned, Lomaque."

Having read so far, the police-agent placed his papers on the writing table, waited a moment for orders, and receiving none, went out. No change came over the sadness and perplexity of Lomaque's face. He still beat his nails anxiously on the writing table, and did not even look at the second agent, as he ordered the man to read his report. Magloire produced some slips of paper precisely similar to Picard's and read from them in the same rapid, business-like, unmodulated tones:

"Affairs of Trudaine. Minutes continued. Citizen Magloire having been appointed to continue the surveillance of Trudaine, reports the discovery of additional facts of importance. (1) Appearances make it probable that Trudaine meditates a third secret visit to the house in the Rue de Clery. The proper measures are taken for observing him closely, and the result is the implication of another person discovered to be connected with the supposed conspiracy. This person is the sister of Trudaine, and the wife of Citizen Superintendent Danville."

"Poor, lost creature!—ah, poor, lost creature!" muttered Lomaque to himself, sighing again, and shifting uneasily from side to side in his mangy old leathern arm chair. Apparently, Magloire was not accustomed to sighs, interruptions, and expressions of regret, from the usually imperturbable chief agent. He looked up from his papers with a stare of wonder. "Go on, Magloire!" cried Lomaque, with a sudden outburst of irritability. "Why the devil don't you go on?"—"All ready, citizen," returned Magloire, submissively, and proceeded:

"(2.) It is at Trudaine's house that the woman Danville's connection with her brother's secret designs is ascertained, through the vigilance of the before-mentioned patriot citizen. The interview of the two suspected persons is private; their conversation is carried on in whispers. Little can be overheard; but that little suffices to prove that Trudaine's sister is perfectly aware of his intention to proceed for the third time to the house on Rue de Clery. It is further discovered that she awaits his return, and that she then goes back privately to her own house. (3.) Meanwhile, the strictest measures are taken for watching the house in the Rue de Clery. It was discovered that Trudaine's visits are paid to a man and woman known to the landlord and lodgers by the name of Dubois. They live on the third floor. It is impossible, at the time of the discovery, to enter this room, or to see the citizen and citoyenne Dubois without producing an undesirable disturbance in the house and neighborhood. A police agent is left to watch the place, while search and arrest orders are applied for. The granting of these is accidentally delayed. When they are ultimately obtained, it is discovered that the man and woman are both missing. They have not hitherto been traced. (4.) The landlord of the house is immediately arrested, as well as the police agent appointed to watch the premises. The landlord protests that he knows nothing of his tenants. It is suspected, however, that he has been tampered with, as also that Trudaine's papers, delivered to the citizen and citoyenne Dubois, are forged passports. With these and with money, it may not be impossible that they have already succeeded in escaping from France. The proper measures have been taken for stopping them, if they have not yet passed the frontiers. No further report in relation to them has yet been received. (5.) Trudaine and his sister are under perpetual surveillance; and the undersigned holds himself ready for further orders.—Signed, Magloire. Countersigned, Lomaque."

Having finished reading his notes, Magloire placed them on the writing table. He was evidently a favored man in the office, and he presumed upon his position; for he ventured to make a remark, instead of leaving the room in silence, like his predecessor, Picard.

"When Citizen Danville returns to Paris," he began, "he will be rather astonished to find that in denouncing his wife's brother, he has also unconsciously denounced his wife."

Lomaque looked up quickly, with that old weakness in his eyes which affected them in such a strangely irregular manner on certain occasions. Magloire knew what this symptom meant, and would have become confused if he had not been a police agent. As it was, he quietly backed a step or two from the table and held his tongue.

"Friend Magloire," said Lomaque, winking mildly, "your last remark looks to me like a question in disguise. I put questions constantly to others—I never answer questions myself. You want to know, citizen, what our superintendent's secret motive is for denouncing his wife's brother? Suppose you try and find that out for yourself. It will be famous practice for you, friend Magloire—famous practice after office hours."

"Any further orders?" inquired Magloire sulkily.

"None in relation to the reports," returned Lomaque. "I find nothing to alter or add on a revised hearing. But I shall have a little note ready for you immediately. Sit down at the other desk, friend Magloire; I am very fond of you when you are not inquisitive—pray sit down."

While addressing this polite invitation to the agent in his softest voice, Lomaque produced his pocketbook and drew from it a little note, which he opened and read through attentively. It was headed, "Private Instructions relative to Superintendent Danville," and proceeded thus:

"The undersigned can confidently assert, from long domestic experience in Danville's household, that his motive for denouncing his wife's brother is purely a personal one, and is not in the most remote degree connected with politics. Briefly, the facts are these: Louis Trudaine, from the first, opposed his sister's marriage with Danville, distrusting the latter's temper and disposition. The marriage, however, took place, and the brother resigned himself to await results, taking the precaution of living in the same neighborhood as his sister, to interpose, if need be, between the crimes which the husband might commit and the sufferings which the wife might endure. The results soon exceeded his worst anticipations, and called for the interposition for which he had prepared himself. He is a man of inflexible firmness, patience and integrity, and he makes the protection and consolation of his sister the business of his life. He gives his brother-in-law no prextext for openly quarreling with him. He is neither to be deceived, irritated nor tired out, and he is Danville's superior every way—in conduct, temper and capacity. Under these circumstances, it is unnecessary to say that his brother-in-law's enmity towards him is of the most implacable kind, and equally unnecessary to hint at the perfectly plain motive of the denunciation.

"As to the suspicious circumstances affecting not Trudaine only, but his sister as well, the undersigned regrets his inability, thus far, to offer either explanation or suggestion. At this preliminary stage, the affair seems involved in impenetrable mystery."

CHAPTER IX.

LOMAQUE read these lines through, down to his own signature at the end. They were the duplicate Secret Instructions demanded from him in the paper which he had been looking over before the entrance of the two police agents. Slowly, and, as it seemed, unwillingly, he folded the note up in a fresh sheet of paper, and was preparing to seal it, when a tap at the door stopped him. "Come in," he cried, irritably, and a man in traveling costume, covered with dust, entered, quietly whispered a word or two in his ear, and then went out. Lomaque started at the whisper, and opening his note again, hastily wrote under his signature: "I have just heard that Danville has hastened his return to Paris, and may be expected back to-night." Having traced these lines, he closed, sealed and directed the letter, and gave it to Magloire. The police agent looked at the address as he left the room—it was "To Citizen Robespierre, Rue Sainte-Honore."

Left alone again, Lomaque rose, and walked restlessly backwards and forwards, biting his nails.

"Danville comes back to-night," he said to himself, "and the crisis comes with him. Trudaine a conspirator! Sister Rose (as he used to call her) a conspirator! Bah! conspiracy can hardly be the answer to the riddle this time What is?"

He took a turn or two in silence—then stopped at the open window, looking out on what little glimpse the street afforded him of the sunset sky.

"This time five years," he said, "Trudaine was talking to me on that bench overlooking the river; and Sister Rose was keeping poor hatchet-faced old Lomaque's cup of coffee hot for him! Now, I am officially bound to suspect them both; perhaps to arrest them; perhaps—I wish this job had fallen into other hands. I don't want it at any price!"

He returned to the writing table and sat down to his papers with the dogged air of a man determined to drive away vexing thoughts by dint of sheer hard work. For more than an hour he labored on resolutely, munching a bit of dry bread from time to time. Then he paused a little, and began to think again. Gradually the summer twilight faded, and the room grew dark.

(TO BE CONTINUED.)

Want to Convert a Town.

The good people of Wapella county, Iowa, have engaged Dwight L. Moody and two other evangelists to convert the inhabitants of Eddyville to Christianity. It is said that they do not believe in the existence of God or hell, decline to take an oath or attend a church service. Evangelists have invaded the town and labored for weeks without gaining a single convert, but when Robert G. Ingersoll lectures the entire male population turns out, laying aside everything else to hear the famous speaker. City officers elect have been known to refuse to take the ordinary oath of office because it contained the sentence, "so help me God."

At present fully two-thirds of the business men of the town are unbelievers. Eddyville has a population of 1,500. Last summer Billy Sunday, the evangelist, held a series of meetings there, lasting an entire week, and he failed to get a single convert. He remarked that he had never before preached in a town with so little success.

Maj. Broderick, foreman of the Wapella county grand jury, adjourned the body recently in order that he might hear Ingersoll lecture.—New York World.

Clever Scheme of a Woman Writer.

Kate Douglass Wiggin-Riggs has a novel and clever idea in dispensing her autograph. She sends out to all askers therefor a little card bearing a quotation from one of her popular stories and her signature. With this is folded up a printed slip also signed by her. This is delightfully written and says, in effect, that she is glad to send the "inclosed card to any reader of her work, both because appreciation is pleasant and also because it enables her to ask a favor in return." "If you are a child," she goes on to say, "will you send 25 cents, if an adult 50 cents?" to a certain free kindergarten in which Mrs. Riggs is interested.

About Catsup.

Why catsup? Nearly every bottle which comes from a public manufacturer is emblazoned with that spelling. Wrong. Ketchup is the word. It is a corruption of the Japanese word kitjap, which is a condiment somewhat similar to soy. It is a pick-me-up, a stirrer of the digestive organs, a ketch-me-up, and hence its application to the mingling of tomatoes and spices whose name it should bear.—Philadelphia Times.

VALUE OF THE INDIVIDUAL RECORDS OF DAIRY COWS

Know Your Cows and Then You Will Know How to Make Dairying Pay—By Prof. B. E. Carmichael, Ohio Experiment Station.

One of the most important of the numerous factors upon which success in dairying depends, is the ability of the dairy cow to yield dairy products economically. Investigations conducted by the University of Illinois agricultural experiment station showed that of 333 cows in 18 herds which were tested, 74 averaged only 126 pounds of butter fat per year, while only 30 produced 300 pounds or more of butter fat per year. If similar conditions exist in Ohio dairies, there are something like a quarter of a million cows in Ohio that fall far short of yielding a profit or even of paying for their food and care. The effect of such a condition upon the profits from dairying in this state is hard to estimate, but it is doubtless true that the presence of such cows in a herd is, in many instances, the cause of failure, or, at best, of only moderate success. Every dairyman has observed that some of the cows in his herd are better producers than are others, but it is not probable that anyone who has not kept accurate records for each of his cows realizes fully the bearing that these differences have upon the profits returned by his herd.

For a number of years records have been kept of the milk and butter fat produced by each cow in the station dairy herd, and records of two cows for three years are presented herewith to illustrate the value of accurate knowledge concerning the performance of each cow kept in the herd.

Both of these cows were of pure dairy blood, so their records are of pronounced value in showing that cows bred for the dairy may differ very widely in production. The cows whose records are given do not represent the extremes that may be found, for cows have produced more than twice as much butter fat in a year as did the better one of these two, and other cows have produced less than one-half as much as the poorer one did. The difference which exists between the records presented approximates the difference which average dairymen who have carefully selected, but not tested dairy cows, might expect to find in their own herds, and are therefore of more value in this connection than the extreme cases would be.

Summary of Three-Year Records for Two Cows.

COW NO. 1.

	Date freshened	Lbs. milk	Av. Pct. fat	Lbs. butter fat	Miscellaneous.
1st period	Dec. 19, 1902	6,022.0	5.78	348.07	First milking, Dec. 23, 1902

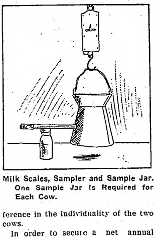
COW NO. 2.

	Date freshened	Lbs. milk	Av. Pct. fat	Lbs. butter fat	Miscellaneous.
1st period	Dec. 6, 1902	6,008.7	3.25	195.54	First milking, Dec. 15, 1902
2nd period	Nov. 24, 1904	9,666.9	3.05	294.56	Live wt. Dec. 31, '02, 1,060 lbs.
3rd period	Mar. 17, 1905	6,420.5	3.18	204.30	Last milking, Nov. 30, 1905.
Total		22,095.3	3.14	694.40	Live wt. Dec. 1, '05, 1,318 lbs.
Average per year		7,365.1	3.14	231.46	

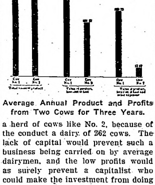
At the beginning of the time covered by these records, cow No. 1 was nearly seven years old while No. 2 was a trifle over four years old. Cow No. 1 had freshened five times, while cow No. 2 had freshened twice. Although the conditions to which the two cows were subjected were not at all times absolutely the same, yet it cannot be said that either was given any advantage over the other so far as food or care is concerned, and it is safe and fair to attribute the difference in product and profit to the difference in the individuality of the two cows.



Milk Scales, Sampler and Sample Jar. One Sample Jar Is Required for Each Cow.

In order to secure a net annual profit of $1,000 from a dairy made up of cow No. 1 it would be necessary to keep 34 cows. With the entire herd made up of cows like No. 2 a net annual profit of $1,000 would necessitate the keeping of 262 cows—quite a marked difference. The reader should bear in mind that these profits are net, after allowances have been made for cost of food at market prices, for interest and taxes on investment in herd and in dairy buildings, for maintenance of the size of the herd, and for paying for the labor expended in the dairy. In other words, the dairy, as a special business, is charged for all expenses of interest, taxes, investment and labor and credited with all products, just as a manufacturer would charge his factory with all expenditures of money, raw material and labor, and credit it with the finished products turned out. But the mere statement of numbers of cows of the two kinds necessary to yield the above profits does not tell the whole story. Seven and seven-tenths times as large a farm, barn and entire equipment would be required and practically seven and seven-tenths times as much labor would need to be expended in caring for the herd.

The great difference between the capital required to conduct a dairy business yielding a net profit of $1,000 from cows like No. 1 and that required a dairy business large enough to produce $1,000 net profit from a herd like No. 2 is a mighty argument in favor of determining the real value of cows. Few dairymen could possibly clear $1,000 annually, above all expenses as previously indicated, from a herd of cows like No. 2, because of the conduct a dairy of 262 cows. The lack of capital would prevent such a business being carried on by average dairymen, and the low profits would as surely prevent a capitalist who could make the investment from doing so, providing he knew what the results would be. Both average dairymen and dairymen of large wealth, then, need accurate knowledge of the individuality of the cows in their dairies—a knowledge that may be readily obtained by the use of the milk scales and the Babcock test, with but little expenditure of time and money.



Average Annual Product and Profits from Two Cows for Three Years.

The record for a single year is not always a fair indication of the real capacity of a cow, since some unusually favorable or unfavorable factor may cause the yield to be higher or lower than normal. The record of a dairy herd should, then, be taken as a guide rather than as an absolute rule to be followed in selecting cows to be retained in the dairy or from which to raise heifers for the dairy, and in the use of this record, account should be taken of any disturbing factor which might influence the results. Without the record, however, an estimate of the value of a dairy cow is surely in many, and probably in most cases little more than a guess.

No way is known whereby the real value of a cow may be determined without an actual test. The most convenient and satisfactory test now known is the use of scales and the Babcock test for determining the per cent. of butter fat in the milk. The use of milk scales without a butter fat determination does not give the whole facts, neither does a butter fat determination without a consideration of the amount of milk throw much light upon the real worth of cows. Both quantity and quality of milk need to be considered, in short must be considered, if we are to learn the real facts in regard to our dairy cows

The Young Breeding Bird.—The young breeding bird will do better work for her owner if kept for three or four years before her eggs are used for hatching purposes. Some farmers have such excellent young stock that they do not feel like waiting a year or two after the pullets are old enough to lay eggs. But doubtless the quality of the flock will be improved by waiting till the birds have obtained their utmost vigor before using their eggs.

The Price of Boars.—When a good boar is to be bought the buyer should not let a little money stand in the way of his getting the animal that he wants. The man that raises boars for breeding purposes knows the money value of a good boar and he is not likely to sell a first-class one without getting a first-class price for him.

Look for Mites.—Investigate the nest of the sitting hen to see if mites are under the straw.

NERVOUS COLLAPSE

IS OFTEN PREVENTED BY DR. WILLIAMS' PINK PILLS.

Taken When the First Warning Symptoms Are Noticed Much Needless Suffering May Be Saved.

Are you troubled with pallor, loss of spirits, waves of heat passing over the body, shortness of breath after slight exertion, a peculiar skipping of the heart beat, poor digestion, cold extremities or a feeling of weight and fullness? Do not make the mistake of thinking that these are diseases in themselves and be satisfied with temporary relief.

This is the way the nerves give warning that they are breaking down. It simply means that the blood has become impure and cannot carry enough nourishment to the nerves to keep them healthy and able to do their work.

Rest, alone, will sometimes give the needed relief. The tonic treatment by Dr. Williams' Pink Pills, however, prevents the final breakdown of the nerves and the more serious diseases which follow, because the pills act directly upon the impure blood, making it rich, red and pure.

Mrs. E. C. Bradley, of 103 Parsells avenue, Rochester, N. Y., says:

"I was never very healthy and some years ago, when in a run-down condition, I suffered a nervous shock, caused by a misfortune to a friend. It was so great that I was unfitted for work.

"I was just weak, low-spirited and nervous. I could hardly walk and could not bear the least noise. My appetite was poor and I did not care for food. I couldn't sleep well and once for two weeks got scarcely an hour's sleep. I had severe headaches most of the time and pains in the back and spine.

"I was treated by two doctors, being under the care of one of them for six months. I got no relief and then decided to try Dr. Williams' Pink Pills. I soon began to feel better and the improvement was general. My appetite became hearty and my sleep better. The headaches all left and also the pains in my back. A few more boxes entirely cured me and I was able to go back to work. I felt splendid and as though I had never been sick."

Dr. Williams' Pink Pills are invaluable in such diseases as rheumatism, after-effects of the grip and fevers, neuralgia, St. Vitus' dance and even partial paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Got One That Would Last.

"And my private car," said the great actress who was talking with her manager about her farewell tour, "will it be a durable one?"

"I should say so," replied her manager. "I had it made of steel and it's guaranteed to last as long as you remain in the farewell business."

With a sigh of contentment the actress kissed her pet dog, knowing it would be unnecessary to purchase a new car for farewell trips for at east twenty years.

Important to Mothers.

THOUGHT CHILD WOULD DIE.

Whole Body Covered with Cuban Itch —Cuticura Remedies Cured at Cost of Seventy-Five Cents.

"My little boy, when only an infant of three months, caught the Cuban Itch. Sores broke out from his head to the bottom of his feet. He would itch and claw himself and cry all the time. He could not sleep day or night, and a light dress is all he could wear. I called one of our best doctors to treat him, but he seemed to get worse. He suffered so terribly that my husband said he believed he would have to die. I had almost given up hope when a lady friend told me to try the Cuticura Remedies. I used the Cuticura Soap and applied the Cuticura Ointment and he at once fell into a sleep, and he slept with ease for the first time since two months. After three applications the sores began to dry up, and in just two weeks from the day I commenced to use the Cuticura Remedies my baby was entirely well. The treatment only cost me 75c, and I would have gladly paid $100 if I could not have got it cheaper. I feel safe in saying that the Cuticura Remedies saved his life. He is now a boy of five years. Mrs. Zana Miller, Union City, R. F. D. No. 1, Branch Co., Mich., May 17, 1906."

What the Ailment Was.

When Senator Hoar learned that a friend who they thought had appendicitis was in reality suffering from acute indigestion, he smiled genially. "Really," said he, "that's good news. I rejoice for my friend that the trouble lies in the table of contents rather than in the appendix."

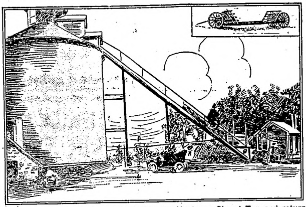
A PRACTICAL TREATISE ON THE FILLING OF SILOS

By Lyman Carrier, Scientific Assistant, Farm Management Investigations, Bureau of Plant Industry.

The methods employed by the different farmers in filling their silos varies greatly, no two being exactly alike. With a few exceptions the different methods may be classified in three groups:

1. The most common practice is to have one man with three horses on a corn harvester cutting corn in the field; two men to load the wagons in the field; three or four men with teams, depending on the distance from the field to the silo, to haul the corn to the cutter; one man to run the engine when steam is used for power, and, occasionally, when gasoline engines are used, one man to feed the cutter and one man in the silo to spread and tramp the silage. Each teamster pitches off his own load. This makes a crew of eight or nine men, exclusive of the man who tends the engine.



Filling a Silo by Means of a Slat Elevator Having a Closed Top and return Trough Underneath.

2. In cases where there is a shortage of teams the following method is generally practiced: One man, with three horses, cuts the corn; two men load the wagons in the field; two men, or boys, with teams, haul the corn to the cutter; one man unloads the wagons; one man feeds and one man works in the silo. As soon as a load arrives at the cutter the teamster changes his team for an empty wagon and goes back to the field after another load. When a wagon is unloaded it is run out of the way by hand. With this method boys who are not strong enough to handle the green corn can be utilized to drive the teams. This method requires a crew of six men and two boys, exclusive of the engine tender.

3. When enough horses are available and help is scarce, the following arrangement of men and teams is a good one: One man, with three horses, runs the harvester in the field; four men with teams haul the corn to the silo; one man feeds and one spreads the corn in the silo. Low trucks or wagons with racks suspended below the axles should be used, so that the teamsters can put on their own loads. This requires a crew of seven men, besides the engineer.

The table below gives a comparison of these three methods.

Number and arrangement of men employed in filling silos by various methods.

Kind of Work.	Method 1.	Method 2.	Method 3.
Operating binder	1	1	1
Loading wagons	2	2	0
Driving teams	3 or 4	2 (boys)	4
Unloading wagons	Teamsters.	1	Teamsters.
Feeding cutter	1	1	1
In silo	1	1	1
Total number of men	8 or 9	8	7
Number of teams hauling	3 or 4	2	4

The difference between methods is in the arrangements for loading, hauling and unloading. When there is a sufficient number of teams, the teamsters do their own loading and unloading. When teams are scarce, two loaders and one unloader are needed; but boys may drive the teams to and from the field.

A few years ago it was thought necessary to ensilage corn in an immature state in order to have it keep. This made a sour silage with a strong pungent odor. The consensus of opinion now favors letting the corn go until the grain is fully matured. In ordinary seasons there is a period, lasting but a few days, in which the corn ears are ripe and the leaves and stalks are green. This is the ideal time for putting it in the silo. If the corn is allowed to mature beyond this stage, water should be added to the cut material at filling time to prevent "fire fanging" of the silage. The results of many chemical analyses show that the food materials in the corn plant increase very rapidly as the plant approaches maturity, and do not reach their maximum until it is fully ripe. Most feeders prefer the silage made from mature corn because it contains less acid and possesses a milder odor than it does when cut in a greener condition.

Hauling green corn is heavy, tiresome work, and too much attention can not be paid to details of method in order to avoid unnecssary lifting. Before the advent of the corn harvester, when the corn was cut by hand and hauled unbound, it was a common practice to have the cutter set on a platform about two and one-half feet above the ground. A man could pick up an armful of corn on the wagon and stepping on the platform place it on the feeding table. With the corn bound in bundles this arrangement causes much extra labor; nevertheless many farmers still keep the cutter upon the platform and lift the corn up to it when they could much more easily drop it on the table if the cutter were down on the ground.

There are several first-class silage cutters on the market—machines that will cut the corn as fast as two men can pitch it on the table. The self-feeding table that is found on most of the modern cutters saves the labor, of at least one man. This table should be long enough to hold two bundles of corn lapped at the bands.

There are two types of elevators in general use. One is the old style slat, or rattle carrier, and the other is the blower, in which the cut corn is forced up through a tube by means of a current of air. The chief objection to the blower machine is that it takes so much power to run it. While the blower requires more power to operate than does the slat carrier, very few blowers require more than a 12-horsepower engine. Where the carrier elevators were used in a test it cost on an vaerage 65 cents per ton to fill the silo, while it cost those who used the blower elevators 61 cents. A carrier unless covered on top and fitted with a return trough underneath is very untidy, especially during windy weather. At one place there was a litter to the depth of half a foot about the silo that had blown out of the carrier. This trouble is avoided by the use of the blowers.

The blower pipe should stand as nearly perpendicular as possible. In one case that was called to the writer's attention a blower at first proved unsatisfactory. The trouble lay in having the cutter set too far from the silo, with the pipe leaning at an angle of 30 degrees from the perpendicular. The pipe clogged frequently, and a 12-horsepower engine was insufficient to handle the cutter when it was crowded to anything like its full capacity. After two days of annoyance and discouragement the owner changed the position of the machine, putting it close to the silo. The difference could be noticed at once. There was no further trouble from lack of power, and it was impossible to clog the pipe by overfeeding.

In a silo more than 36 feet in depth it is not necessary to have a man to tramp the cut corn. If the surface is leveled two or three times a day while filling, the silage will pack sufficiently to keep. But there is one objection to doing this. If the cut corn is allowed to pile up in the form of a cone, the heavier parts will roll to the outside of the pile and the grain and leaves will not be evenly mixed.

Several devices have been invented for distributing the cut material in the silo, but few of them are successful. One of the most satisfactory distributers where a blower is used consists of two boards, eight or ten inches wide and about half as long as the diameter of the silo, nailed together at right angles to form a trough. A 12-inch board is nailed over one end of this trough, the other end being left open. For use, the trough is suspended from the roof with the open side downward and the closed end toward the center of the silo. The open end rests above the top of the blower pipe. As the cut material leaves the pipe it follows along this trough until it strikes the closed end; then it is scattered about the silo. If a little care is exercised in adjusting this device, it will give very good results.

Raising Ducks.—The best success in raising ducks is in a partly shaded yard. An old orchard with now and then a tree missing is an ideal proposition. Young ducks cannot stand the full heat of the sun, but they do better in dry quarters. Old ducks like to swim, but water is a damage to young ducks except just enough to drink, and it is better to keep the drinking water so protected that the little fellows cannot get themselves wet.

A SAIL IN SIGHT

BUT IT IS ONLY A ROCK IN THE MID-PACIFIC.

A Peculiar Freak of Nature That Fools Every Traveler When It Is First Sighted.

To persons on the Pacific ocean the sighting of another vessel is of greater interest than the same occurrence on the Atlantic, for ships are not so common on the endless waters of the Pacific. There is one place, however, where the lookout will always announce a ship.

He knows better, but he must have his joke, and it never fails. He gives the familiar call and the passengers crowd forward and strain their eyes. Away off they dimly see a ship.

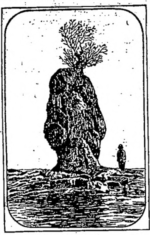
Every minute its outlines come more clearly into view. Why, it is bearing straight down on us, and the faithful Pacific trade wind is bellying its sail, they cry.

It happens that they are approaching the little group of the Wallis islands, but the land can scarcely be discerned, even when the ship is only six or seven miles away. Every field glass on board is brought to bear on the vessel, and a strange thing about it suddenly becomes a subject of animated discussion.

It doesn't seem to be moving, and yet that glistening-white sail is puffed out by the wind. Why, it can actually be seen to swell under the effort of the gentle trades. Questions are fired at the captain and the lookout, but they are silent.

By unanimous vote it is adjudged to be a rather small craft. As the distance lessens its bow seems to be rather blunt. It certainly is not moving, and yet the wind fills that sail.

The awakening is sudden. The illusion is dispelled in a moment at the proper distance. It is seen to be nothing more or less than a huge block of madreporic coral which has resisted the assaults of the sea and towers into the air.



Sail Rock.

When seen near at hand the traveler only remarks its strange position, alone in the waste of waters. Its base has been worn away by the waves on all sides so that it is rounded, but above the rock spreads out wide and at a distance bears a striking resemblance to a bark whose sail is filled by a stern breeze. The slender growth of trees at the top has the exact appearance, when seen from afar, of a mast. Nothing more is needed to complete the illusion. The resemblance to a vessel never fails to deceive everybody who sees the rock for the first time.

It was named Sail Rock by the earliest seafarers. The nautical instructions supplied to Pacific mariners make note of the resemblance to a ship. They also speak of the rock as serving a good purpose, for it is in front of the narrow opening in the reef through which vessels must pass, and so points out the place.

Another fact that serves to keep up the illusion to the last moment is, as all the passengers are told, that the opening in the reef is rather difficult to enter and a pilot comes out to take the vessel in. While the passengers are gazing and speculating some bright person of course suggests that this is the pilot boat coming out, and everybody adopts the idea as explaining the true mission of the strange craft. They are not aware that, among those sleepy islands, nobody is on the lookout for ships, which call only at intervals, and the pilot usually has to be summoned by the boom of the ship's cannon.

But the lookout has his joke, and life is enlivened for days by the memory of the excitement over a bit of Pacific coral.

The Tallest Tree.

The highest tree in the world, so far as has been ascertained, is an Australian gum tree of the species Eucalyptus regnans, which stands in the Cape Otway range. It is no less than 415 feet high. Gum-trees grow very fast. There is one in Florida which shot up 40 feet in four years, and another in Guatemala which grew 120 feet in 12 years. This corresponds to a rise of ten feet in a year, or nearly one foot per month.

Curious Bible Class.

Probably the most curious Bible class in the west of England is that of deaf-mutes which meets near Chalford, Gloucestershire. All the members are deprived of their senses of hearing and speech and have to communicate and "talk" to each other by means of the deaf-mute alphabet

NATURE PROVIDES FOR SICK WOMEN

a more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

LYDIA E. PINKHAM

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value.

During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

Adding Insult to Injury.

"Why am I gloomy?" demanded the undesirable suitor whom she had heartlessly ignored. "Isn't it enough to make a man gloomy to be cut by the one he loves best?"

"The idea!" exclaimed the heartless girl. "I didn't even know that you shaved yourself."

SKIN DISEASES
HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the Winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble.

ORIGIN OF FAMILIAR SEA TERMS

Some Are Far Fetched and Most of Them Are Ancient.

There is hardly a language which has not been called upon to provide at least one of the sea terms which are in constant use and whose origin is so obscure.

For instance, says the Marine Journal, the word "admiral" is not of English origin, but is from the Arabic "Emil el Bagh," or Lord of the Sea. Captain comes from the Latin caput, but mate is from Icelandic, and means a companion or equal. Coxswain is a word whose derivation would never be guessed. The coxswain was originally the man who pulled the other oar in the captain's boat, which was known as the cockboat. This in turn is a corruption of the word coracle, a small, round boat used on the Kye and Usk rivers. So coxswain comes to us from the Welsh.

Commodore is not so difficult to trace to its beginning. It is simply the Italian commandatore, meaning commander. No such person as Davy Jones ever existed, though we often hear of him and his locker. One should speak of "Duffy Jonah's locker," for that was the original. Duffy is the West Indian name for spirit or ghost, while Johnah refers, of course, to the prophet.

Another curious case of a term gradually corrupted out of its original form is the dog watch. It was originally the "dodge watch," because it lasted only two hours instead of four, and thus makes it possible that the same men shall not be on duty every day during the same hours.

Then there is the "sheet anchor," the name given to the largest anchor carried by a vessel. It is really "shote anchor," and is so called because of its great weight, which makes it easy to shoot out in case of emergency.

Instead of the name "port" and "starboard" which are used nowadays they used to talk of "larboard" and "starboard." Starboard has nothing in common with stars, but is really the Anglo-Saxon "steor board" for "steer side," because in all galleys which were steered by an oar the oar was fixed to the right hand side of the stern, and the helmsman held the inboard portion in his right hand. "Larboard" was probably a corruption of lower board, the larboard side being inferior to the other.

The "jury mast" has nothing in common with a jury except its derivation from the same word "jour," the French word meaning day. The jury mast is one which is put up temporarily—for a day—just as a jury in its legal term meant a tribunal summoned for a short period only.

OLDEST BREED OF DOGS.

Egyptian Gazelle Hound, a Wedding Present to Queen of Spain.

A beautiful Egyptian gazelle hound (Slughi) was among the wedding gifts of the young queen of Spain. The dog, which is a lovely pale cream color and named Saddan, was the gift of the Hon. Florence Amherst, who is a sister of Lady William Cecil, who has been in waiting on the queen of Spain in Madrid.

These desert hounds are among the latest of society's pets, says the London Tribune, and bid fair to outrun in popularity even the aristocratic Borzoi, which is the nearest in character to the Eastern greyhound, and is probably derived from him.

The Slughis are perhaps the oldest breed in the world, not even excepting the historic spaniel of the palace of Pekin. Their form was sculptured on some of the earliest of Egyptian mural tablets, and some monuments preserve the names of favorite hounds of various kings.

The pedigrees of noble hounds notable for their speed in the chase are current to-day, having been traditionally handed down among sheiks of Bedouin tribes of the deserts of Egypt and Arabia as from the days of Saladin, one of whose hounds was named Saadan, while Persian nobles claim that strains they own are older than either, and that the breed first originated in Persia.

The color of the Slughi is that of the desert over which he chases the gazelle, and varies as do the sands, from a rather deep fawn to the palest cream, which is almost white. The greyhound form is most distinctly preserved in the outline of the Slughi.

EVER TASTE CHIRSCHMUS?

It Sounds Powerful Good — Anybody Can Make It.

Last summer I ate genuine Swiss chirschmus twenty years old, says a writer in the Ladies' World. It tasted like a concentration of all the richness and sweetness of the most perfect cherries. In appearance it was a purplish black mass. Age had not impaired it in the least.

Upon inquiry I learned how this cherry concoction with its wonderful preserving quality is made. The cherries used must be perfect—very large, ripe, juicy black ones, and, above all, very sweet.

The juice of them, pressed out and strained through a bag, is put in a large preserving kettle, at the bottom of which is placed a piece of smoked pork fastened to a block of wood. The wood serves as a weight to keep the fat down and prevent the juice from burning as it thickens.

The cherry juice is boiled for about twenty-four hours, without sugar, but stirring it from time to time, until it becomes a mass of sweetness so firm and thick that it would not fall if the kettle were inverted.

That is all. A simple process, but the result is delicious. This chirschmus is in general use in Switzerland with the "susse Anke" (sweet butter) and bread.

Notice to Vendee of Cancellation of Land Contract.

STATE OF MINNESOTA, } ss.
County of Ramsey.

To W. A. Sorsoleil:

You will take notice, That default has occurred in the terms and conditions of that certain instrument, to-wit: A certain contract for the sale of land bearing date the 25th day of October, 1900, made by C. G. Edwards, as owner and vendor, to you, as vendee and purchaser, for the sale and conveyance to said W. A. Sorsoleil of that certain tract of land, lying and being in the county of Red Lake, State of Minnesota, described as follows, to-wit: The northeast quarter (ne¼) of section nineteen (19) in township one hundred fifty-two (152), of range forty-two (42), containing one hundred and sixty (160) acres, according to the government survey.

And that said default consists in this, to-wit: In your having wholly failed to pay the interest on the said contract that fell due November 1st, 1904, November 1st, 1905, and November 1st, 1906, save and except interest up to the 1st day of September, 1904. That under the terms and conditions of said contract there is due and unpaid at the date of this notice the sum of One hundred and eighty-nine dollars and eighty-two cents ($189 82)

That owing to and on account of said default in the terms and conditions of said instrument the said instrument, and all rights thereunder, in or to said land will be canceled and terminated by the undersigned owner of said land at the expiration of thirty (30) days after the service of this notice upon you, and that if you fail to perform, the conditions of said instrument and to comply with the provisions upon which said default has occurred and fail to pay the costs of service of this notice upon you, the said termination and cancellation of said instrument and all rights thereunder, will take effect immediately upon the expiration of said thirty (30) days from the date of said service of this notice upon you.

C. A. EDWARDS.

Dated this 13th day of June, 1906.

STATE OF MINNESOTA, } ss.
County of Ramsey.

On this 12th day of June, 1907, before me personally came C. G. Edwards to me well known to be the person who made and executed the foregoing instrument and acknowledged he executed the same as his free act and deed.

FITZHUGH BURNS,
